Sewerage System Wanted.

The alarming spread of diphtheria followed by the preemptory closing of the Coddington and Adams schools again calls the attention of the citizens to the fact that there is one important question which affects the welfare and above all else the health of our rapidly growing city. From the different wards comes the call for some plan for a sewerage system, the lack of which is a menace to public health and which retards the growth of the city. Every physician in our city readily testifies to the great importance of the solving of this great problem, and every citizen knows the result of imperfect drainage.

Ten years ago, 1884, a committee of several of our most influential citizens stated in their report, "No subject can be of more importance to a community than the proper disposal of its sewerage." "The failure to provide proper drainage, places upon any thickly settled community the responsibility of a considerable number of needless deaths every year; and one of the first duties of the public to each citizen, when it becomes impossible for private resources to provide proper facilities for drainage is to construct a public sewer."

In the following year, by reference to the Town Reports, one will find that committees composed of prominent men studied the question, and all admitted that it was a necessity to have a system of sewerage, but the citizens are aware that this important question, like many others, was referred to the incoming city government to study.

In ex-Mayor Porter's first message to the City Council, in obedience to public sentiment and his own knowledge of the situation, he advised the City Council to pay attention to this important question, and the Council, after consideration, petitioned the Legislature for an act.

In '91 and '92 Mayor Fairbanks referred at length to this important matter saying "the first problem in any city is to furnish the citizens with a bountiful supply of good water, and the next problem is to adopt a plan to dispose of the impure and waste water for the protection of the public health."

The act given by the Legislature was not accepted by a two-thirds vote for various reasons, prominent among which was the opinion that in certain sections the demand for water was more important, and also that the State Board did not favor the plan. It is well known that since the city took the water works that the mains have been extended in many directions, and the need of a sewerage system is more imperative than ever.

What do we find the present year? Mayor Hodges, as every one knows, was against the purchase of the water works, and if his opinion had prevailed this matter would not have been settled for many years, and every year would have added to the value of the property, and no extensions could have been made in any section, for the Water Company was not in a financial condition to grant the demand for the extension of pipes. But by a very large majority of the citizens, the opinion of the present Mayor was not sustained. How many of the citizens today would vote to give back to the company the works for the price it paid, and resume the old state of affairs.

So in case of the sewerage question, the Council has not considered the question the present year. Why?

Because Mayor Hodges advised it not to do so. Does His Honor realize the fact that the duty to the public requires him to study the interest of the whole city, as well as to his giving his time to the minor details. Does he not realize that if the City Council devised any plan, that it would have to go to the State Board of Health for advice and approval, then to he Legislature for an act, then to the people for their acceptance? Does not this take months and years before anything can be done?

In Mr. Moxon, the citizens have a candidate who heartily believes that the Council should take up their work *immediately*. His utterances have been to that effect and is it not the duty of the citizens to support at the polls one who will give time and thought to this public necessity, in place of saying "nothing should be done." The city needs a man alive to the interest of our growing city, one who studies the broad problems affecting our city, and would not be content to devote his energies simply to the mere routine of running himself every department. We need a man who can give some thought for the future welfare of our city, and that man is Stephen O. Moxon.

☞ It is the opinion of connoisseurs that during the year 1894, the best magazine—the entire twelve months through—has been "Harper's." This opinion covers not only the illustrations, but the literary features. Our readers who want the best will not ignore this fact.

Lincoln School House Plan.

So many misleading and false statements have been made in regard to the plans for the Lincoln school, that in justice to Mr. Moxon, the facts are placed before the citizens.

In 1891, the city council appropriated $35,000 for the purpose of erecting a brick building in Ward Three, according to the plans of Loring & Phipps.

The proposals received were so largely in excess of the appropriation, and finding after many attempts to modify the plans, that the building could not be built, the plans were returned to the council, who then passed another appropriation, which was vetoed by Mayor Fairbanks on the ground that the city could not afford so expensive a building.

The public sentiment was at that time that $25,000 ought to build a suitable school building. Mr. Moxon studied out a plan which would meet with this requirement, and also would meet with the desire of the school board in reference to light in the rooms.

Mr. Moxon consulted frequently with the school board, adopting some suggestions from them, and the plans received their approval and also members of the committee on public buildings were so well pleased that the plans were submitted to the council. During the examination of the plans, it was well known by members of the council and school board, that Mr. Moxon originated the plans, which contained many new features in the arrangement of rooms.

During the erection of the building, Mr. Moxon was asked to state the cost of plans but he replied that it was for his interest not to sell the plans, but have them copyrighted, and then permit other cities to use them at a rental, but this was opposed by the Mayor, who believes in the policy of owning the plans, so that they could be used again free of any expense.

The bill was presented by Mr. Moxon Dec. 1, and after receiving an opinion from the City Solicitor who carefully considered all the questions, for it was well known that a certain member of the Council intended to raise an issue; the bill went through the regular form and was paid, being a just and legal bill, as the city had used the plans.

Afterwards a committee on the part of Council investigated the proceedings and after they had reported in favor of Mr. Moxon, the council sustained Mr. Moxon. It was not decided on party lines for the two most prominent Democrats in the council, who enjoy the respect of the citizens for their work on all questions were in favor of Mr. Moxon, and one of them, a leading lawyer, and known for his independence and honorable action, said in open council, "After a careful consideration of all the facts, I believe that Mr. Moxon is entitled honestly and legally to his bill."

While the building was being erected, Mr. Moxon gave his time free of any expense, in going to the building, and by his advise and assistance in many ways, the work was done thoroughly and the building was completed for the fall term.

Mr. Moxon presented the bill in his own name, not resorting to any trickery by asking any other architect to do so, but took a straightforward course, and the bill is on file.

The plans are the property of the City, can be used again free of any expense. So Quincy has a model school building at the moderate cost of $24,782, and the city has had full value for every dollar expended.

THE FACTS.

False Promises

One of the rallying cries used by Democratic leaders at the city election was "Extravagant running expenses, valuation of the city real estate exagerated, a too high tax rate, $15.60. Vote for a change and see what Mr. Hodges will do."

The citizens voted for a change, now see what the result has been.

The running expenses of the city largely ahead of last year by $10,000.

The valuation of the real estate of the city increased over a *half million*, taking into account the loss of the land taken for High school, hose house land, play ground and park reservation, and many citizens can testify to this increased valuation on their property.

The tax rate raised to $17.60.

Have not these Democratic promises come home to the voters, proving the false cries at the last election, and showing that a party who promises so much and fails to keep them is unworthy of support.

Vote for the Republican nominee, Stephen O. Moxon, whose experiences in the Councils for four years, shows that he is capable of administering the affairs of the city in a straightforward and economical manner.

EXPERIENCE.

Eight no-license meetings will be held in various parts of the city on Sunday.

A FRIEND OF LABOR.

THE UNDERSIGNED hereby certify, that they have at different times, during the past years, worked for Mr. S. O. Moxon, and it affords them pleasure to certify that Mr. Moxon has always been a kind and considerate employer, prompt to pay his workmen and always ready to pay his workmen whatever price they have asked, and has always been a friend to organized labor. He has never to our knowledge had the slightest difficulty with workmen and has always cheerfully recognized the union workmen and his rights. We can sincerely recommend him to all workman and friends of the laboring man, and assure them that he has always in the past shown himself their friend. We endorse Mr. Moxon freely and willingly, as we believe him to be an honorable man, and one on whose integrity the workmen can rely:

Bricklayers and Masons'

International Union No. 27, of Massachusetts.

NOVEMBER 30, 1894.

To All Labor Organizations and Laboring Men:

I take this opportunity as the representative of thirteen hundred masons, of contradicting the rumors which are being circulated throughout Quincy, effecting the character of Stephen O. Moxon of Quincy.

When the character or integrity of a builder, who has always been recognized by our organization and men as a benefactor, is assailed by irresponsible parties, for political purposes, and among other things it is falsely claimed that he is not the friend of the workingman, it becomes the imperative duty of the officials of our labor unions and all advocates thereof to at once place the stamp of their condemnation upon such reports and as such a representative I unhesitatingly condemn and brand as false all such accusations. Mr. Moxon has always conducted himself as the warm friend of the laboring man and pays the highest wages, believing that a good workman is entitled to good pay.

Only a short time ago the carpenters of Boston were on a strike for eight hours a day. Mr. Moxon at that time was building at the corner of Washington and Cliff streets in Boston. He readily granted the demand of the men and gave employment for weeks to over four hundred men, and he was the only builder in Boston who did not stop work.

Mr. Moxon is a self made man, and has ready and willing sympathy for all toilers. In addressing this letter to your fellow workmen, I am actuated only by a desire for fair play and to do justice to one entitled to the same at your hands in return for his willing responses to our demands whenever made, and I speak advisedly, not only as a journeyman myself, but as the official head of one of the largest labor organizations in the building line in the United States. The man who in the past always respected and appreciated your rights, and has for years given employment to hundreds of men without having at any time the least trouble with them, it is safe to assume if you will only give him the opportunity to do so, will in the future be true to his past and remain your friend and sympathizer.

Fraternally Yours,
JAMES J. GALVIN,
16 St. Germaine St., Back Bay, Boston,
President of the Bricklayers' and Masons' International Union of Mass.

OUR CITY CHARTER.

Wherein the Present Executive Has Openly Disregarded It in Several Instances.

Mayor Hodges said in his inaugural message, "It has been said that one of the strong points of our charter is, that we can see where the responsibility lies if the business is not properly conducted and that the executive and the legislative branches are entirely independent of each other." Let us see how that opinion is carried out and the charter obeyed.

The City Council accepted certain plans for a Hose house in Ward Two and passed an order authorizing a loan, to have the Hose house built according to said plans. This order was approved by Mayor Fairbanks and so became a law, but Mayor Hodges when he commenced to build, disregarded the order and the plans and made many changes and alterations to suit himself. If he desired any changes, was it not his duty to go to the City Council and obtain permission of the legislative body that passed the order? Why should the Mayor assume the right to do as he pleases.

The same course was pursued in building the Hose house in Ward Four; the plans disregarded and changes made to suit himself.

The citizens knew full well, that the Mayor is the executive, and only carries out the orders of the City Council, and is it not a dangerous precedent to establish that the Mayor takes the right to do as he pleases. Where does the Mayor draw the line? What is there to hinder him in his own opinion judging from his actions with the Hose house and High school, to pursue the same course with school buildings or anything else the Council orders.

The Mayor has not any more right to change the plans of any building than any other citizen has, by our charter he must carry out the orders of the Council and specific appropriations, and after the legislative branch accepts the plans and authorizes the loan to carry their orders through, the Mayor must obey that order. He cannot by our charter assume the rights of both departments, and such actions should receive the condemnation of the citizens who believe in a business like administration according to our charter.

A CAMPAIGN FUND.

How Appropriation for Rebuilding of Liberty Street is Being Spent.

To show to what an extent the people's money is being openly used for campaign purposes by Mayor Hodges it is only necessary to call attention of the taxpayers to one instance, and that is the rebuilding of Liberty street.

The Council recently appropriated a sum of money to make repairs upon this thoroughfare. Mayor Hodges this week before election is taking care that the money is put where it will do the most good for the Democratic party by "subsidizing" voters. On Tuesday of this week fifty-five men, eight carts and the steam roller were at work on this job, which, if it was being done in the spring or summer, would have a gang of less than one-third of that number.

To make the job hold out until after election the men are bunched so that they are in each other's way, thus killing time. To properly carry out this foxy idea of Mayor Hodges, a gang of thirty men were at work on Tuesday in space 15x20 feet, and at a short distance from them there was another gang of eight men laboriously at work loading a tip cart with stone chips.

Comment on this species of campaign work is unnecessary.

TURKISH OUTRAGES.

An Armenian Physician Furnishes Further Details of Crime.

HORRIBLE SCENES OF BUTCHERY.

The Powers Called Upon For Prompt Action.

LONDON, Dec. 1.—Dr. G. Thoumain, who was one of the Armenian physicians at Herrick college, Marsovan, Asia Minor, and who was sentenced to death and forced to undergo disgusting tortures, being finally released through the intervention of Great Britain in July, 1893, has furnished the latest details of the Turkish outrages which have just come into his possession. Dr. Thoumain writes:

"It was necessary that the blood of thousands should be shed in order to bring the Armenian question on the tapis. But it is almost impossible to get full details, the guilty Turk preventing every possible escape of news.

"However, I have learned the following: The chief of police of Moosh, which is the headquarters of the Sassoon district, went with a number of gen d'armes to the village of Tchurig and nailed the head man and others head downward to posts, beat them and drenched them alternately with hot and cold water.

"The chief of police then attempted to dishonor the wife of one of his victims, and the unfortunate woman, seizing a knife, plunged it into the chief of police's brain, whereupon the gen d'armes made a

General Attack Upon the Peasants.

"A stubborn struggle resulted, in which many of the peasants were wounded and 30 of them were taken to prison at Moosh. The whole village of Tchurig was charged with sedition, and the gen d'armes, naturally, were not reprimanded, as they were only carrying out the orders of their superiors.

"The Armenian villages on the plain, Moosh and Bitlis, in the vicinity of Sassoon and Van, have been fired and their streets made to run with blood. From Marnig over 100 oxen and 1000 sheep have been driven off, and the same has occurred at Colossig and Havabirig.

"The villages of Kozloo and Sheik-Aghoob have been sacked by Kurds, and two young girls were made captives. At another village a miller was burned alive. At Hanzashiek three Armenians were murdered. This is only a daily tale of the horrors in the villages on the plains of Moosh. If these authentic details come from the villages on the open plain, what must the truth be in distant places in the mountains of Sassoon?

"In September, 112 Kurds appeared in the village of Baghezig, ostensibly for the purpose of supplies, eating, drinking and carousing all day. They plundered the village, robbed the church of its costly vessels and rode away.

"On the following day the band of Kurds raided the village of Fareagh and stole 50 head of cattle and a herd of sheep belonging to the celebrated monastery of Varaka.

A Blood Curdling Scene.

"In the village of Daghveran two youths were openly butchered by Kurds before the eyes of their helpless relatives. I could give pages and pages of such horrors done to my people. None of these wrongs have been redressed nor will they be so long as Bahri Pacha, himself a Kurd, remains governor general of Van. He is the greatest enemy of the Armenian race. When the porte tried to hinder the Armenians from emigrating to Russia and Persia this ferocious fanatic explained that the porte could get rid of the Christians and at the same time get their land.

"Since October, 1893, 179 families have emigrated from Aghpac to Persia.

"Quite recently Bahri Pacha made a tour of that district, and confiscated all the property of absent Armenians, including those who had gone away on business. Those who returned were thrown into prison.

"In order to support Bahri Pacha's exterminating policy, a number of Kurdish boys who had been imprisoned for misdeeds were sent into the Sassoon district by the Turks, who marked their prison sheets with the word 'escaped.'

"Unless the powers act promptly there will be a record of succession of hidious outrages."

An Appeal to Christianity.

The pope has received an account of the Armenian atrocities, and is taking steps to obtain further details. His holiness has also received urgent appeals from Armenians in several places, asking him to use his good offices in their behalf with the sultan.

Appeals to the Vatican, in addition, have been made from England, under the belief that none of the powers are willing to assume the responsibility of pending negotiations with the other powers for a joint intervention, and also in the belief that it is impossible for the pope to remain indifferent to the sufferings of the Armenian Christians.

Inquiries in regard to this matter were made yesterday at the Vatican, and it was gathered that the pope is desirous of proceeding with great caution in making representations to the powers, as his holiness is anxious to avoid giving umbrage to the porte at the moment when he is taking action to secure the reunion of the Eastern and Western churches.

Peace Restored at Nicaragua.

WASHINGTON, Dec. 1.—Dr. Gusman, the Nicaraguan minister, has received a cablegram from the president of the republic, confirming the advices that the Mosquito Indians themselves had voluntarily resolved upon the incorporation of their territory with the remainder of Nicaragua. The minister expresses the belief that the United States will be troubled no more by the frequent outbreaks in the Mosquito reservation, which have threatened to cause international complications.

Mr. Bayard Honored.

LONDON, Dec. 1.—Mr. Bayard presided last night at the 230th anniversary festival of the Scottish corporation. A special compliment was paid in asking him to take the chair, for never in the long history of the corporation was a similar compliment paid to any other foreign ambassador or minister.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

THE TRADE REVIEW.

Industries Somewhat Retarded by Disturbances In the Monetary World.

INCREASE IN PRICES OF CEREALS.

Business In Canada In a Dormant Condition.

NEW YORK, Dec. 1.—R. G. Dun & Co.'s Weekly Review of Trade says: The complete success of the government loan and the replenishment of the gold reserve, have not perceptibly affected business nor prevented an advance of foreign exchange near to the exporting point.

Meanwhile domestic trade and industry have not been little influenced by the heavy defalcation in one bank and minor disorders in two others, nor by the failure of the Erie railway to meet interest on its bonds.

The closing of sugar refineries will diminish the industrial force more than it is increased by the resumption of the Bethlehem steel works and a few other concerns. The controlling fact is, that although in two instances wages have been increased, the earnings of the working force and its purchasing powers are not on the whole enlarging at present, and prices of the chief farm products do not materially improve.

Wheat and Corn.

Wheat is 1¼ cents higher than a week ago, and western receipts still exceed last year's, amounting since July 1 to 103,500,000 bushels, against 100,800,000 last year, while exports from all ports have been about 21,000,000 bushels smaller. The smaller quantity received last year paid more debts by about $8,000,000 than the larger quantity last year.

Corn has advanced a fraction, receipts being larger than a year ago, and on the whole the outcome for farmers has not so improved as to promise large buying by the west and south.

Manufacturing Industries.

The great industries fairly maintain the production previously reported, but cannot be expected to increase at this season. A few more iron works have gone into operation, and the demand is reported larger, but there is distinct weakness in prices, especially at Pittsburg, and Bessemer iron billets, nails and some structural forms are quoted lower.

The rail combination has agreed to a reduction of $2 a ton for the next year; coke contracts are being made for the first quarter of 1895 at current rates.

The shoe industry continues to do remarkably well for the season, and the prospect for the spring business is fairly good, although trouble about prices occasion some friction.

In textile manufactures there is more strength in print cloths, but other cottons are somewhat irregular and weaker, and the woolen manufacturers still receives some orders for winter goods, but the demand for spring goods is much retarded by unavoidable delay in filling orders.

Cotton reached 6 cents last Saturday and has reacted 3-16 cents, after a week of heavy speculation.

Failures and Liabilities.

The liabilities in failures for the third week in November were $2,338,931, against $2,285,676 for the same week last year. The decrease was all in manufacturing, of which liabilities were $915,326, against $1,880,027 last year, while of trading concerns liabilities were $1,395,000 last year. For three weeks of November liabilities have been $8,080,420, against $17,967,147 last year.

Failures this week in the United States have been 289, against 271 for the corresponding week of last year.

Bradstreet's Report.

Bradstreet's says: Canadian advices are that general trade remains quiet. At Toronto a better demand exists in a few lines, including wheat, but collections in eastern Toronto are unsatisfactory. West and northwest collections are quite slow and sales more moderate.

Bank clearings at Hamilton, Toronto, Montreal and Halifax aggregate $19,545,000 this week, as compared with $16,794,000 last week, and $19,080,000 one year ago. There are 35 failures reported from the Canadian Dominion this week. Last week there were 24; one year ago the total was 50, and two years ago 35.

Newfoundland's Turmoil.

ST. JOHN'S, N. F., Dec. 1.—The Whitewayite press are still clamorous for the dismissal of the present ministry and the recalling of their leaders to power. They threaten a popular uprising if the present government retain power, and serve warning on the governor that he will be held responsible for any expenditures of money undertaken by authority of the present government, as they only number 14 against the Whitewayites 22.

Another Accident to the Ericsson.

NEW LONDON, Conn., Dec. 1.—The torpedo boat Ericsson went out on a preliminary trial yesterday on her builders' account. She returned after a short spin with her starboard low pressure cylinder broken down. Her repairs will take about a week, when she will be hauled out and pot leaded, preliminary to her official trial.

His Trip Spoiled.

BROWNVILLE, Me., Dec. 1.—Rev. C. A. Luce, who decamped from here last night with the funds of the Harper's Ferry Jubilee company, was arrested at Jackman, a few miles west of here at an early hour this morning on board a Canadian Pacific train bound for Chicago.

Drowned While Skating.

BEDFORD, Mass., Dec. 1.—Harry St. Dennis, while skating on the clay pits of the Boston and Maine road yesterday afternoon, broke through the ice and was drowned. Several small boys were on the ice with him, but all attempts to rescue him proved futile.

Crew Were Saved.

GLOUCESTER, Mass., Dec. 1.—Schooner Magnolia, 108 tons, built at Essex in 1887, owned by James G. Tarr & Bro., engaged in the fresh halibut fishery, is a total loss, at Pass island, N. F. The crew were saved. She was insured for $5557 in the Gloucester Mutual.

Earthquake Victims.

REGGIO DE CALIBRA, Dec. 1.—Several persons who were injured during the recent earthquakes have since died. Fresh accidents, due to further shocks, are reported daily from the mountainous districts of the province.

STATE DEPARTMENT RETICENT

In Regard to Negotiations For Peace Between China and Japan — Settlement Still In an Embryo State.

WASHINGTON, Dec. 1.—The Japanese government has not so far as the state department officials will admit, yet made any reply to the proposals of the Chinese government for a termination of the war now going on. Whether the delay is due to what is believed to be the lack of specific character in the proposals submitted through Mr. Denby, the American minister, or from a disposition to take its own time in the matter, has not yet been developed.

China's proposals, it is understood here, are of a tentative character and were submitted with a view to securing, in a general way, some general proposals, including the questions on the relinquishment of China's suzerainty over Corea and the payment of an indemnity. The general sentiment is that the question of the settlement of the conflict by peace negotiations is still in its preliminary stages, being in the hands of the American ministers, with prospects that at any time actual negotiations between the two governments may be begun.

Notwithstanding the understanding that Japan is willing to make the United States ministers at Tokio and Pekin, the medium through which preliminary steps for peace may be conducted, it is believed that she will expect China to send an embassy to Tokio and have the negotiations conducted, and the explicit terms of peace arrived at in the manner common in Oriental countries.

A Domestic Tragedy.

CHICAGO, Dec. 1.—Three people—father, daughter and son-in-law—were probably fatally shot yesterday in a family quarrel at the home of Frederick Friesch. Friesch and his son-in-law, Thomas Eckhardt, after a bitter quarrel clinched, and in their struggle fell to the floor. Mrs. Eckhardt, fearing that her husband would be badly beaten, secured a revolver and opened fire, wounding her father. Freisch wrested the revolver from her, fired two bullets into her body, shot her fleeing husband, and ended the affair by sending a bullet into his own head. All three will probably die.

Want the Pennsylvania Road In It.

PHILADELPHIA, Dec. 1.—Another meeting between the various railroad presidents in regard to the coal situation will be held early next week, at which it is thought something definite will be done. The presidents are anxious to get the Pennsylvania road into the coal combination. It is contended that the co-operation of the Pennsylvania railroad is essential, if there is to be harmony and the maintaining of prices. President Roberts has not signified what his company will do.

Japan's Action Justifiable.

YOKOHAMA, Dec. 1.—A correspondent writing Nov. 17, says that no trouble is expected to result from the affair of the steamer Sydney. The United States government is understood to regard the action of Japan as justifiable, on the grounds of self-defense and Great Britain coincides, although some form of explanation or apology may be deemed desirable. France has taken a less easy view of the situation, but is not disposed to make serious difficulties.

Officers Elected.

BOSTON, Dec. 1.—Directors of the West End Street Railway company have elected the following officers for the year: President, Samuel Little; vice president and clerk, Prentiss Cummings; treasurer, Joseph A. Goodspeed; general manager, C. S. Sergeant; auditor, H. L. Wilson; purchasing agent, H. F. Woods; general solicitor, H. D. Hyde; executive committee, Samuel Little, Walter Hunnewell, Thomas Parsons, F. L. Higginson, H. D. Hyde.

The Statement Denied.

NEW YORK, Dec. 1.—The story that Archbishop Ireland of St. Paul came to this city for the purpose of obtaining a loan of $500,000 on some of his personal property with which to relieve his diocese from debt, could not be verified. It was declared that the loan had been obtained from the United States Trust company of this city, but this statement is denied.

Crew Were Exhausted.

PROVINCETOWN, Mass., Dec. 1.—Steamer Vigilant has arrived here, having in tow the schooner Mary E. Rogers of Bath, Me., bound for Boston with a cargo of lumber. When picked up the crew of the Rogers was in an exhausted condition, and had it not been for the timely assistance of the Vigilant, they would have perished.

Cruise of Revenue Cutter Perry.

NEW YORK, Dec. 1.—The revenue service cutter Perry, which has until recently been doing duty on the lakes, will leave here for the Pacific coast via Cape Horn, a trip of 16,000 miles to San Francisco, under command of Captain Fenger. The Perry has been undergoing extensive alterations in her machinery for salt water service.

Operations at a Standstill.

COLON, Dec. 1.—Operations along the line of the canal are restricted to work on a limited scale, which is being done at Culebra while awaiting the arrival of the representatives of the new Panama Canal company. Many mechanics and laborers previously employed upon the canal have been discharged for the same reason.

The Russell Will Case.

PORTLAND, Me., Dec. 1.—It seems quite probable that the case arising out of the will of the late ex-Mayor Russell of Lewiston will be settled without further legal proceedings. It is understood that at the close of the hearing Wednesday, Judge Strout suggested a compromise, which was favorably received by both sides.

Granite Contract Awarded.

WESTERLY, R. I., Dec. 1.—The Dixon granite works has been awarded the contract to furnish large pier caps for a new building in New York city. Work will be rushed through, nearly all old hands being at work again. It will take until spring to finish the work.

Showalter Ahead.

NEW YORK, Dec. 1.—J. W. Showalter won the 14th game of the chess match against A. Albin at the Manhattan Chess club yesterday. The latter selected the French defense and resigned after 35 moves. Score: Albin, 4; Showalter, 7; drawn, 3.

Looking After Jewelry Thieves.

EMPEROR CHARLES II.

Accompanied by half the nobility of Austria, went to the Carlsbad Springs for the recovery of his health. Six thousand six hundred horses, so the town records say, were necessary to convey the company to the place.

The virtues of the water is as great at the present day as it was in the time of Charles II., and although the expense attached to a journey thither is not as great now as it was then, we are not all wealthy enough to undertake it. For such the virtue of the Carlsbad Spring is extracted. The Carlsbad Sprudel Salt, obtained by evaporation, containing all the solid constituents of the water, can be obtained at every drug store.

It is the very best remedy for catarrh of the stomach, constipation, liver and kidney troubles, gout, rheumatism, etc. Be sure to obtain the genuine imported article, which must have the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every package.

NOT FUGITIVES FROM JUSTICE.

New York's Governor Refuses to Grant Requisition Papers For the Standard Oil Magnates to the Governor of Texas.

ALBANY, Dec. 1.—Governor Flower's private secretary has sent the following to Sheriff Burke of Waco, Tex.:

"Governor Flower directs me to acknowledge your letter of the 25th inst. inclosing the requisition of Governor Hogg for John D. Rockefeller and others. The papers accompanying the requisition seem to be incomplete, the affidavit verifying the application for the requisition not being signed by the affiant."

A protest was filed against the requisition some days ago, averring that the persons whose surrender is sought were not in the state of Texas and therefore cannot be deemed fugitives therefrom. If this is so, of course they cannot be returned to the state under the laws governing interstate rendition, and Governor Flower therefore feels that before he fully considers the case some clear proof ought to be furnished that the supposed fugitives were in Texas and departed therefrom after committing the offense alleged against them. As the requisition was received at your hands, he directs me to return it to you."

Aspirants For Portland's Collectorship.

PORTLAND, Me., Dec. 1.—There is a hot fight going on among the Maine Democrats for the collectorship of the port of Portland. The Democratic leaders have endorsed M. P. Frank. The other candidates are General Samuel J. Anderson, who was the last Democratic collector; W. H. Clifford, who was the Democratic candidate for congress in '86, and John W. Deering.

Secretary Carlisle's Policy.

WASHINGTON, Dec. 1.—A suspension of silver coinage, which has been going on avowedly for redemption purposes under the Sherman law, is likely to be ordered by Secretary Carlisle. The entire coinage from June 1 to Oct. 31 was $2,443,000, and the coinage for November has been about $500,000, making a total of a little less than $3,000,000.

Desperate Burglars Landed.

RUTLAND, Vt., Dec. 1.—The four desperadoes who blew open and robbed the safe in the postoffice at Ticonderoga, N. Y., were committed to the house of correction in this city yesterday. They were captured in Rochester after making a desperate resistance, and only after two of them were disabled by pistol bullets.

John Whittelsey Dead.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

No deaths and no new cases of diphtheria is the report this morning.

Why not subscribe for the DAILY LEDGER, and receive it regularly.

Mr. Edmund I. Taylor of Wollaston is rapidly convalescing from his recent illness.

The regular edition today is of eight pages. A large special edition is also issued today.

Considerable new matter will appear in the special edition to be issued at six o'clock this evening.

Portraits of ten or more candidates for the Council will appear in the DAILY LEDGER of Monday.

Several of our local firms are out with handsome calendars for 1895, that of Dr. Bamford's being especially pretty.

Ethel Parker of Wollaston is slowly recovering from a very severe attack of bronchitis, and not scarlet fever as has been reported.

Mr. Sanford Small, of the firm of Timberlake & Small, who recently took unto himself a bride, has taken up his residence on Faxon road.

Wollaston lodge No. 926 Knights of Honor will hold a special meeting tonight to take action relating to the death of Bro. Sylvester Brown.

W. M. Marden, Herald correspondent, has moved from East Weymouth to the house recently vacated by Mr. Burrell on Washington street.

Owing to the prevalence of diphtheria the service of the Unitarian Sunday school to have been held in the chapel of the First church tomorrow, will be given up.

Miss Mabel Jones of Nantucket and Miss Bessie Drew of Atlantic, both students in the Bridgewater Normal, are spending the Thanksgiving holidays at the latter's home.

The reception to Mr. Moxon, Republican candidate for Mayor, tonight in Ward Three, will afford the citizens of that section an opportunity to meet the next mayor of Quincy.

While Mr. W. H. North and family of West Medford, were enjoying themselves in Quincy on Wednesday evening, their house was entered by burglars and goods to the value of fifty dollars taken.

A large party of young people were entertained Friday evening by Dr. Maria E. Drew at the residence of her father, J. E. Drew. The main feature of the evening was a stereopticon entertainment with explanations by the doctor.

The trustees of the Thomas Crane Public library, the board of health, the librarian, and others connected with the library are taking every precaution to prevent any spreading of that dread disease diphtheria, by the taking of books from the library.

On account of the prevalence of diphtheria and the request of our physicians that the schools be closed, and the children be kept isolated as much as possible, there will be no Sabbath school and meeting of the Junior Y. P. S. C. E., of the Congregational church tomorrow and until further notice.

In view of the nearness of the municipal election and the death of Mr. Sylvester Brown, who was a candidate by both parties for School Committee from Ward Five, the City Clerk has decided to have the ballots in that ward printed without the name of Mr. Brown, leaving two blank places.

Instead of the regular meeting in the Y. M. C. A. rooms tomorrow, a "No License" meeting for men will be held in Presbyterian church, Water street, South Quincy at 3.30. Mr. Theophilus King and Rev. Robt. Westley Peach will speak. Mr. T. B. Emery will sing, assisted by a quartette.

ACCIDENT. On Tuesday evening Mr. Eben Prescott and two others, while returning from the Shakespeare reading at Miss Cain's, were thrown from the back seat of an express wagon to the ground; the horse suddenly starting into a gallop.

All escaped injury except Mr. Prescott, whose arm was dislocated at the shoulder. Dr. Dearing was called and with some stout pulling the arm was put in place again.

☞ Don't buy a skimped comforter or blanket. It's a cold cold world, and we've the goods to keep you warm. Full sized generous comforters from 75 cents to $3.00. Blankets from 55 cents to $5.50. Henry L. Kincaide & Co.

THE CITY SHOCKED.

Sylvester Brown, an ex-Councilman and Prominent Citizen

KILLED ON THE RAILROAD.

He Stepped in Front of an Express Train—Sketch of Life.

Mr. Sylvester Brown of Wollaston was struck and instantly killed by the inward Newport express at 5.23 o'clock Friday evening as he was crossing the track at the Wollaston station.

Mr. Brown had been attending a school convention at Boston and came out on the 4.50 P. M. train which reaches Wollaston at 5.15. He alighted from the train, and, as was his wont, crossed the tracks and called at the post-office for his mail. Getting his mail he met a friend at the office and stopped for a short chat. He then started for home and had just reached the depot when the outward South Duxbury express, No. 793, due at Wollaston at 5.22 passed. Not stopping to think whether there was an inward train due then he stepped upon the track to cross. The Newport express, No. 732, due at Wollaston at 5.22 came suddenly upon him, and, before he could realize what had happened he was struck by the locomotive and instantly killed.

Dr. Gilbert, the Medical Examiner, was notified and the body was removed to Fay's undertaking rooms.

The anouncement of Mr. Brown's death fell like a pall over the entire city. His death comes as a public bereavement. The various high offices which he held brought him in contact with a vast number of people, who learned to esteem him for his rare personal qualities of mind and heart.

He was courteous and faithful in the discharge of every trust committed to his charge. He was a man of quick and tender sympathies and strong friendships. He loved his neighbor as himself, and was prompt and generous in promoting the welfare and happiness of his pupils and his fellow-men of what ever rank and station. In this capacity he won for himself a personal popularity that was as wide as it was deep and lasting.

In public life he was intelligent, earnest and unselfish in his efforts for the general good. He was a man of strong feelings and had an intense hatred of anything like corruption in public affairs. He detested sham and was in the strictest sense a plain, blunt man. His indefatigable industry was a marked trait in his character and it was well matched by an indomitable persistence. But above all things he was a MAN.

Mr. Brown was born in Bow, N. H., in 1848. From the country district schools he entered Colby academy at New London, and graduated in 1871. The same year he became principal of the Dunbarton, N. H., high school. In 1872 he was appointed master in Manchester, N. H., and in 1876 became principal of the Quincy school at Atlantic. Two years later he was transferred to the Willard school. In 1879 he went to a Brookline school, but in April, 1880, on the retirement of Col. Parker, he became the second superintendent of the Quincy schools.

This position he filled to the entire satisfaction of the School Committee, and his resignation in 1883 to accept a position in the Prince school, Boston, Mass., was regretted. In December of the same year he was elected master of the Martin school of Boston. From 1884 to 1891 he was a member of the Quincy School Committee, being chairman the last three years. At the Wollaston Republican and Democratic caucuses held recently, he was nominated to serve again on the School Committee for three years. The past summer he was the instructor of language and grammar at the New Hampshire Summer Institute.

Mr. Brown was a member of the Rural lodge, F. & A. M. of Quincy; a member of Wollaston lodge, K. of H., president of the Wollaston Unitarian society; president of the Unitarian Sunday School association of Norfolk County. He was also actively interested in land improvement companies at Lawrence, Worcester and Springfield.

A widow and three little children survive him.

TODAY'S COURT.

Andrew Hayes was fined $8 for drunkenness at Quincy.

Michael McCarthy of Cohasset was arraigned for assault upon Margaret McCarthy and was fined $10.

Dennis Shea was arraigned for keeping a common nuisance at Randolph and was fined $50 and sentenced to the house of correction for 3 months. Appealed.

Catherine Sullivan of Weymouth was defaulted on a complaint for keeping a liquor nuisance.

Blue Hill Predictions.

During the coming week the warmest days will propably be between the 1st and 3d, and on the 5th, with the warmest day of the week probably on the 2d or 3d. The 4th and 6th will probably be the coldest days of the week.

Cloudy and rainy weather are likely to prevail during the 1st and 2d, and snow or rain is due again about the 5th.

Clear or fair weather is most probable on the 3d, 4th and 6th. The week promises to average warmer than the past week. —*Norfolk County Gazette.*

LIGHT AND AIRY.

The Hero.

[A Ballroom Ballad.]

He looked so handsome, proud and brave
As he stood there, straight and tall,
With his steadfast eyes so gray, so grave,
The beau of the Hunt club ball.

Ah, me! Full many a white breast sighed
For the favor of his hand,
For the love of a heart so true, so tried—
For life, you understand.

He looked a hero—he was more,
A martyr, too, perchance.
For he went to the oldest girl on the floor
And led her out to dance.

Misunderstood.

That one cannot always trust his ears is shown in the following:

SAVED BY A GALE.

A THANKSGIVING STORY BY M. QUAD.

[Copyright, 1894, by American Press Association.]

On the night of Nov. 22, 1878, the bank of Davids & Davids at Cartersville was robbed of bonds, cash and notes of the face value of $200,000. It was a private bank in a town of 4,000 people, but the town was the center of a rich agricultural community. Nearly every farmer had money in bank or invested in bonds, and the bankers were trustees or administrators for several estates. They were brothers and both well off, and so it came about that their vaults held rich pickings for robbers.

On the morning of Nov. 23 a horse which had been rendered helpless by hard riding was found in the streets of Charlotte, a village 28 miles west of Cartersville. About midafternoon an officer who had been tracing the bank robber appeared in Charlotte and identified the horse. It was plain that the man had come that way, but it was not so plain which direc-

tion he had taken from Charlotte. A score of people turned out and scoured the country, but no trace of him could be found. At midnight, with most of the searchers camped on the highways and in the fields, still believing that the robber was hidden in the woods, snow began to fall and the wind to rise, and at daylight a gale was sweeping over the country.

Uncle Jim, as everybody called the old man whose real name was James White, had lived for many years in the outskirts of the village of Charlotte. He was what people call a "fated man." He married in 1860 and had just got settled in a home when the house took fire and burned down, and he lost everything. The next year his wife was killed by accident. Six months later he was badly hurt while at work. When he recovered, he enlisted as a soldier, but had only reached the front when the accidental discharge of a cannon deprived him of his right arm and most of his left hand. He had not been home two months when he was run over by a vehicle and so injured that his left leg had to come off at the knee. With his pension money he bought an acre of ground, with a poor old house and a tumble down barn on it, hoping to make his living by growing fruits and vegetables, and for a time he got along reasonably well.

Then his health gave out, his pension was stopped on the grounds that he had given a wrong date in his application, and on Thanksgiving morning, which dawned bleak and drear enough for the happiest in the village, Uncle Jim had two callers.

One was from a villager who held a mortgage on his real estate and had called to tell him that it must be foreclosed, and the other was a county official who tried to tell him in a kindly way that the matter had been talked over and it had been decided to send him to the poorhouse for the winter.

When the callers had gone their ways, Uncle Jim sat down and ate his meager breakfast and looked out of a back window upon the dreary landscape and reflected and wept. Fate had followed him for years and downed him at last. The climax had now come, and as the old man sat down to face it alone he could find but one way out of it. He would never go to the poorhouse, and he would never hobble around the country as a professional mendicant. The alternative was suicide and he would accept it. While other villagers prepared their Thanksgiving dinner or sat in the churches and listened to the sermons prepared for the day his dead body would be swinging at the end of a rope in the old barn on the back end of his lot. Yes, he would hang himself. He had not entered the barn for a month, but he knew there was a stout rope coiled on a peg out there, and the beams and braces offered better chances to secure the free end than a hook in his humble cabin. After an hour's thought Uncle Jim got up, put on his hat, looked around to bid his home farewell and started for the barn. He knew that a gale was sweeping over the country, but he did not realize its strength until clear of the house. Half way between the kitchen door and the barn a sudden gust caught him up and flung him down, and at the same instant the old barn tumbled in with a crash.

The old man got up dazed and bewildered. The fall of the barn frightened him and temporarily drove away all thoughts of suicide. He had turned to re-enter the house, when he heard faint cries for help from the debris of the barn, and in a state of great amazement he hobbled out of the wreckage to investigate. He soon discovered a man held down by beams and planks, and as he worked to release him he came across a satchel. The man had a broken leg and soon after being found became unconscious. Uncle Jim, almost helpless and very badly frightened, shouted for help, and it was an hour after the victim of the accident had been released that his identity was known, and people told the old ex-soldier that fortune had smiled on him at last.

The bank robber had not hidden in the woods. Instead of going beyond Charlotte he had secreted himself in Uncle Jim's old barn to wait for pursuit to cool and a favorable moment to steal another horse. Davids & Davids had offered a reward of $5,000 for the man and his plunder, and at noon of Thanksgiving day both were in the kitchen of the old cripple's shanty home and being well guarded by officers of the law. The burglar, who turned out to be a professional of no mean reputation, was very badly injured, and it was months before he could be tried and given his just deserts, but Thanksgiving's sun had not yet gone down when Uncle Jim had been provided with all the comforts of life and had thanked his God a score of times that out of the bitterness of poverty and the climax of misfortune had arisen a gale to prevent self murder and bring happiness and plenty in the same breath.

EDUCATE THE INDIAN

Secretary Smith's Suggestions For the Red Man's Development.

HONEST TREATMENT ASKED FOR.

Should Be Properly Fitted For Everyday Life.

WASHINGTON, Nov. 30.—The annual report of Secretary Hoke Smith of the interior departments, deals largely with Indian affairs, and he presents some practical suggestions for the development of the race.

Besides giving a succinct history of the progress of the Indian bureau during the past 12 months, the secretary reviews the problem of effective work for the advancement of the Indians. He discusses the subject of education and of allotments of land, and charges that the education of the Indians should be for the purposes of fitting them to perform the particular responsibilities most likely to fall to their lot.

He presents the possibilities of the reservation as land to be improved and developed, to which the Indians should be taught to apply those modes of agriculture recognized in civilized life. Their education should fit them for this work, and they should be led on with the assurance that the government will treat the Indians with perfect honesty and make no further effort to trade them out of it for the benefit of those who wish to settle on it.

Fair Play For the Indian.

Upon the subject of allotment, he says: "I do not question the advisability of alloting land to Indians in severalty, but I do most seriously question the propriety of this course before the Indians have progressed sufficiently to utilize the land when taken.

"I urge a treatment of Indian land based solely upon the purpose of realizing from it for its owners the highest possible value. If the members of a tribe have reached a state sufficiently civilized to be able to progress still further by selling a portion of their land, then shall the sale be made. The land should not be purchased from the Indians at the best bargain the United States can make. It should be sold for the Indians by the United States, the department acting as a faithful trustee and obtaining for the Indians every dollar the land will bring."

With reference to the development of resources of the agencies and their employes, he urges that each reservation must be treated in view of its resources as a separate business problem, and he says: "Many of the agencies today, taking in connection the trust funds held by the United States for the Indians upon them, are already self-supporting. By a faithful effort to preserve the property for its real owners, and at the same time to compel the reservation Indians to work and labor for a livelihood, I believe that it is possible to make self-supporting nearly every agency. But to accomplish this, agents absolutely faithful and thoroughly capable must be placed in charge.

Agents Must Lend a Helping Hand.

"If an army officer fills the place, he must do so with the enthusiasm of a soldier in line of battle. If a civilian fills the place, he is unfit for the task unless moved by an earnest, zealous-inspired purpose to accomplish the noble work of helping to elevate a weaker race. Something of the missionary spirit should be in the heart of every employe at an Indian agency or Indian school.

"I believe it is possible to develop a competent, permanent, non-partisan Indian service, and I hope before the end of another year that such progress will have been made in this direction, that its realization will be assured.

Among other things in connection with education of the Indians, the secretary says: "Education should be practically directed with a view to the probable future of the Indian. If he is to remain away from his former home and to enter the struggle of life in our cities and towns as any other citizen, then his education should be as broad and as liberal as possible. But if he is to return to the reservation, to the place of his birth and to commence his active life in the development of the resources of the reservation, then his education should be directed especially with a view to the life he will lead upon the reservation and to the possibilities of the reservation itself.

To Be Fitted For Everyday Life.

"If the lands are agricultural, he should be taught the methods and mode of life followed by the ordinary American citizen engaged in agriculture. He should not be accustomed to a life far above it or to tastes much more liberal than would there be possible.

"If his work is to be on the reservation, he should be practically instructed in pursuits similar to those which he is expected to follow, and he should be accustomed to the life which he will be able to sustain.

"I cannot help believing that by far the greater number of Indian children are to work out their future in connection with the resources upon the reservations of their respective tribe, and that education, for the most part, is wisest which trains in this direction. For such a child 12 months spent in the service of some intelligent farmer, in the section on where the reservation is located, would be worth far more than the same amount of time spent in the east and devoted to higher education."

The Pension Bureau.

The report shows that the entire number of pensioners upon the rolls June 1, 1894, was 969,544. The estimate for the fiscal year is $140,000,000. Pensioners added to the roll during the year were 39,085; number dropped 37,961.

The greater part of the cases now pending in the bureau are old cases. Many of them have been pending for years, and had been examined one or more times prior to the present administration. Upon examination it has been found in many instances that proof was not sufficient to sustain a pension. The attention of the applicants having been called to the defect in some cases, efforts had been made to supply the needed testimony.

A Quiet Day In Boston.

BOSTON, Nov. 30.—Thanksgiving day in this city passed off more quietly than any holiday observed here in recent years. The cold weather kept many people indoors, and those that went out at all helped to fill the theaters. The usual number of dinners and charitable gifts were given in all parts of the city.

Miss Fannie Ellsworth is home from Wellesley for Thanksgiving.

Albert Fisher has been elected class-president of the senior class in the High school.

Mrs. Mary Pratt of Quincy is visiting her daughter, Mrs. Bradford Denton, of Elmwood Park, East Braintree.

The sum realized from the High school entertainment, given Nov. 23, in Town hall, amounted to about $75.

The members of Corps 94, W. R. C., received an invitation to be present at the annual inspection of Corps 103, Quincy, on Tuesday of this week.

The Braintree Fire Department ball on Thanksgiving eve was a grand success in every respect. A greater number being in attendance than ever before.

Mrs. Elisha Thayer is slowly recovering from a long and serious illness. She is a respected member of the Woman's Relief Corps and her absence is a source of much regret.

The next meeting of the W. R. C. will be held Monday evening, Dec. 3. It is hoped there will be a full attendance as the annual election of officers will take place at this session.

All children not attending other Sunday schools, and all children whose parents wish their children instructed in a liberal and reasonable way of thinking, are earnestly invited to attend the Universalist Sunday School, at Pythian hall, Sunday afternoon at 1.15 P. M.

David Macandrew had his nose broken again in the Brown—Dartmouth game on Saturday and was forced to leave the field. This make the 3d time David has been unfortunate, but he was not obliged to retire till the last accident. He is now in Chicago with the eleven.

On Monday, Nov. 19, three aged citizens of Braintree had their birthday. The years of all added together being 260 years. One in South Braintree, Mrs. Eveline Hayward, 87 years old. One in North Braintree, Mr. Perley Stedman, 90 years old; and one in East Braintree, Mrs. John Hayward, 83 years old.

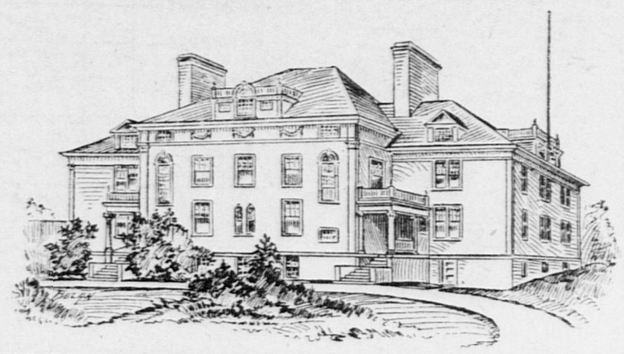

Dea. Thomas Parker, an old resident of Braintree and highly respected, died Wednesday evening in the 85th year of his age.

Thanksgiving eve, Isaac P. Fuller died at his residence on Washington street, North Braintree, after a long term of failing health, in his 76th year.

Clarence Bestick was one of the delegates to attend the union meeting of the west, north and south, Young People's Unions, holden at Dudley Street church, Roxbury, Monday evening. He reports having a very interesting meeting.

JONAS PERKINS SCHOOL.

Governor Greenhalge Attends Dedication of New Building.

Tuesday was a gala day in East Braintree, occasioned by the dedication of a splendid new school building, said to be the best in the state.

The weather in the morning threatened a storm of some kind but the clouds clearing away, the sun coming out and the temperature lowering, the remainder of the day felt like April.

It was natural enough that there should have been a pleasurable feeling of pride and excitement on the occasion and doubtless there was; but what lent an additional cause for all this manifestation of feeling was the knowledge that the Governor of Massachusetts was to honor the event by his presence; a thing that never happened before in the history of the village; as a consequence the people to show their appreciation of the condescention of the governor, flags were displayed from school buildings and private residence in honor of the occasion.

Knowing that his Excellency would not arrive until afternoon a children's entertainment was arranged for the forenoon, beginning at 10 o'clock.

This took place in the pretty hall of the building, and was attended by a good many people including the children of course.

The exercises were conducted by Mrs. Carrie F. Loring of the School Committee, and was of an interesting character; the children having assigned them the larger part of the programme.

"Jack Frost" and figure exercise by the kindergarten taught by Miss Trask, was a special feature eliciting the applause of the audience; the singing of the various patriotic songs were given with a will; inspiring old and young with love and admiration of "Old Glory," the flag of the brave and the free. "Freedom" sung by the pupils from grammar grades was exceptionally fine and heartily applauded.

The proceedings were very much increased in interest by the presentation of a splendid new flag, 10 by 18, the gift of Thomas A. Watson for the new building, the "Jonas Perkins School," the name it is to be known by hereafter.

Miss Victoria P. Wild, principal of the school to whose care the flag was intrusted, made an able and patriotic reply in accepting; showing very emphatically that if there are traitors among us Miss Wild is not one of their number.

Fitting remaaks followed by Superintendent of Schools, I. W. Horne.

Miss Florence Ogden gave a reading in fine style and effect, excelling in expression and movement, to such an extent, as we have seldom seen equalled.

Music was furnished during the entertainment by Peters' orchestra of Boston.

The exercises in the afternoon began at 2 o'clock, although it was known that Gov. Greenhalge and party would not arrive until 3 o'clock.

The hall in which the exercises took place is located in the upper story of the new building, situated at the junction of Commercial, Liberty and Union streets, was crowded in every part with as fine an audience as could be found assembled anywhere; estimated between five and six hundred people.

The front of the platform was tastefully decorated with chrysanthemums of every color, and other potted flowers, palms, heaths, etc., making the stage look delightful.

There were noticed seated on the platform George H. Arnold, Hon. James T. Stevens, Elisha Thayer, Samuel A. Bates, John V. Scollard, Josephus Sampson, Daniel Potter, L. W. Morrison, Lieut. George D. Willis, Alvah S. Morrison, A. J. Bates, John W. West, George F. Hussey, Dr. T. H. Dearing, Dr. H. L. Dearing, Rev. W. H. Alexander, Charles E. Jacks. Rev. William Hyde, W. E. Maybury, Frank O. No-License Rally.

The "No-License" rally at Hancock hall, tomorrow evening, promises to be of more than usual interest. Mr. Theophilus King will preside, while the speakers will consist of Rev. E. C. Butler, of the Unitarian church, and Rev. W. R. Breed, of the Episcopal church. Rev. Preston Gurney of the Wollaston Baptist church will speak if in the city.

The music will consist of a large chorus choir, assisted by an orchestra. Among other selections will be "The Heavens are Telling," from creation. Among the prominent musicians who will participate are Mr. Walter Loud, Mr. J. E. Hanson, Mr. J. B. Rossi, Mr. Paul McInnes, and Mr. Chas. Scammell.

—Tramps, or "gentlemen of leisure" are getting numerous and bold. It is said that several towns in this vicinity average sheltering twelve each night, and as they have to be fed and clothed by some one, it is equivalent to caring for twelve able-bodied men, for most of them are young and healthy. The law is all right. It says: "Any man found begging outside of his own town is a tramp and may be arrested by any officer on information and without a warrant."

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

OUR ARMY'S SHOWING

Secretary Lamont Recommends Reorganization In a Measure.

GUN MANUFACTURE UNDER WAY.

A Better Class of Recruits Is Being Enlisted.

WASHINGTON, Dec. 1.—The annual report of Secretary Lamont shows a saving of $500,000 in salary and contingent expenses in the administration of the war department at Washington, besides economies in the recruiting service, rents, etc. Expenditures for the last fiscal year were $56,039,009; appropriations for the current year are $52,429,112, and estimates for the next year are $52,318,629.

Beyond occasional calls for police duty near Indian reservations, the army each year will be relieved to a greater degree of surveillance over the tribes of the west.

It was found necessary at times during the period from March to July in various places to employ a considerable part of the army to execute the orders of United States courts, otherwise successfully defied and resisted, to protect the dispatch of the United States mails and to guard the property of the government.

The movement of troops, thus necessitated, was the largest which has taken place since the close of the civil war. The extraordinary tasks imposed upon officers and men were discharged promptly, firmly and judiciously, attesting to the thorough efficiency of every branch of the service.

On Oct. 1, the army numbered: Officers, 2136; enlisted men, 25,772; of the latter, for various causes, only 20,114 were effective.

Increase of Force Suggested.

Secretary Lamont earnestly recommends to establish the battalion formation, now adopted by the armies of every other civilized nation. To effect that change, he recommends a return to the law of 1870, fixing at 30,000 the limit of the army. By the changes proposed, the army will be increased 20 per cent in efficiency, 16½ in numbers and only 6 per cent in cost of maintenance.

The actual combative strength of the army will thus become about 25,000, the number now contemplated by law, but which is reduced by detachments and otherwise to about 20,000. It is proposed to add two companies to each of the 25 infantry regiments, and two batteries to each of the five artillery regiments. No increase in cavalry is proposed.

The cost of the increased number of enlisted men would be $1,200,000 annually, but retrenchment has reduced the administrative expenses of the war department at Washington $500,000, and by applying these economics to the benefit of the army greater strength may be obtained, at an increase of only $700,000.

Improving the Service.

The character of recruits is improved, and last year only 7817 out of 27,531 applicants were accepted. All recruits must now write the English language and must be citizens of the United States or have declared their intentions. Of 2701 men discharged by expiration of service, 2079 re-enlisted. Desertions show a large decrease.

The department has aimed especially to increase the comfort of enlisted men, and with new quarters and barracks our army will be as comfortably housed as any in the world.

The total cost of finishing the armament of our 28 chief seaports is estimated to be $20,639,987; for guns, $9,801,120; for mortars, $12,500,000; for gun carriages, $5,232,000; for mortar carriages a total, including contract work, of $50,277,248.

Annual appropriations of $4,250,000 will be required for armament during the next 12 years, which will build and mount 683 high power guns and 824 high power mortars.

By the end of this month we shall have 77 high power guns and 51 high power carriages. One 12-inch gun is mounted at Sandy Hook and another soon will be, and three of this calibre are to be mounted during the year at San Francisco. One battery of 16 mortars, commanding the southern entrance to New York harbor, is nearly completed, and by July a second battery commanding the eastern entrance, and like batteries at Boston and San Francisco will be mounted.

The military encampment at West Point is commended, and Secretary Lamont advises that the president be empowered to appoint annually 10 cadets at large.

Looking For Seeley.

HAMILTON, Ont., Dec. 1.—A very careful search of the hotels and other places where Seeley, the absconding bookkeeper of the Shoe and Leather Bank of New York, might be found, fail to reveal anything of the absconder. The police authorities have received no description of Seeley as yet, but as far as they know he has not been seen in this city. Bench warrants have been issued from New York for Seeley's arrest. Ten indictments have been found against him. Six of these are for grand larceny and four for forgery in the third degree.

No Blood Spilt.

MADRID, Dec. 1.—The dispute between Don Nicolas Salmeron, the republican leader, and Senor Abarzuza, the colonial minister, has been amicably settled. Senor Abarzuza sent a challenge to fight a duel with Senor Salmeron, but the efforts of mutual friends prevented the proposed meeting.

The Latest Thing In Trusts.

NEW YORK, Dec. 1.—An exporters' and importers' trust is the latest thing heard of in the way of mercantile combinations. The report of the consolidation of half a dozen leading houses for the purpose of controlling a branch of that line of business, is going the rounds of Wall street.

Conditions Considered Fair.

LONDON, Dec. 1.—The Field, commenting on the answer of the New York Yacht club to Lord Dunraven's suggestions relative to further races for the America's cup, says that the conditions conceded to Lord Dunraven are most fair and satisfactory.

Death of a War Veteran.

PORTLAND, Me., Dec. 1.—Dr. Henry A. Hunt died yesterday. He was 52 years old, and graduated from Bowdoin in the class of '62. He served through the war in the Fifth Maine artillery, and was one of the most prominent physicians in the state.

CLOSE OF AN EVENTFUL CAREER.

Ex-Senator Brown of Georgia Passes Away at His Home In Atlanta—Was Possessed of Large Estate.

ATLANTA, Dec. 1.—Ex-Senator Joseph E Brown died at his home here yesterday. He has been in feeble health for many months, but his death was not expected so soon.

EX-SENATOR BROWN.

He was governor of Georgia for four terms, serving during the late war. He was senator for two terms. At the time of his death he was 73 years old. Senator Brown was at one time chief justice of Georgia. He leaves an estate valued at several millions.

Bangor's Police Non-Committal.

BANGOR, Me., Dec. 1.—After reading the speech of Rev. Father McSweeney of St. John's Catholic church, charging policemen with criminal shortsightedness, Mayor Beal yesterday questioned the police regarding the selling of liquor after hours and the open practice of sundry forms of vice. Silence followed each of the queries as to whether any man knew of a barroom that was open on Sunday or after 10 o'clock p. m., etc., and from this it appears that General Neal Dow's law is being strictly enforced, in spite of which aspect many people in this city express a belief in Father McSweeney's assertions to the contrary.

Fiftieth Annual Meeting.

BOSTON, Dec. 1.—The 50th annual meeting of the Massachusetts Teachers' association opened yesterday morning at the English high school building. An historical address, prepared by Elbridge Smith, was read by Ray Greene Huling of Cambridge. Governor Greenhalge delivered a congratulatory address, after which G. Stanley Hall, LL. D., president of Clark university, presented a paper on "Practical Child Study."

Elected Temporary Officers.

NEW YORK, Dec. 1.—At the preliminary organization of the Inter-Collegiate Gymnastic association yesterday, G. H. Perkins, University of Pennsylvania, was elected temporary chairman, and A. G. Bugbee, Dartmouth, temporary secretary. The University of Pennsylvania was represented by E. C. Slease, Trinity college by J. H. Smart, University of the City of New York by J. E. Walschied, and Rutgers by J. C. Lord.

Foreigners to Be Respected.

ANTANARIVO, Dec. 1.—A royal proclamation announcing the rupture of the relations between Madagascar and France was read Oct. 30 in the presence of 15,000 persons. The prime minister, who is the husband of the queen, afterward declared that all foreigners remaining were friends of the Hovas, and must be treated with respect. The prime minister was applauded by his hearers.

No Cattle Disease In Canada.

LONDON, Dec. 1.—Sir Charles Tupper, Canadian high commissioner of London, has written a letter in reference to the recent utterances of Herbert Gardner in regard to Canadian cattle. Tupper says the fact that pleuro-pneumonia has not spread in Canada, as it would have done if the contentions of Mr. Gardner were well founded, shows that the disease does not exist in the Dominion.

Suicide of a Student.

CAMBRIDGE, Mass., Dec. 1.—Pierre J. Gulick, a member of the Harvard class of '97, committed suicide yesterday by shooting himself in his room. Gulick's home was in Springfield, and he was 21 years old. The suicide's friends and the college authorities were decidedly reticent about giving information. Some of those who knew him say that he was apt to be despondent.

Four Deaths In All.

WORCESTER, Mass., Dec. 1.—In addition to Charles Gauthier, Joseph Cook and John Street, who died Thursday, Victor Nilson died late in the night as a result of the injuries received in the grade crossing accident at Southbridge, when a passenger train struck a barge containing the Y. M. C. A. football eleven. The other injured men are reported as comfortable.

Kolb and Oates Are on the Field.

MONTGOMERY, Ala., Dec. 1.—If there is any trouble today over the inauguration of the governor of Alabama, the Populist leaders of the legislature decline to be held responsible for it. Colonel Oates, the Democratic governor-elect, is in the city, as is also Captain Kolb, his defeated Populist opponent. Both will take the oath of office as governor of Alabama.

Irwin Furnishes Surety.

PITTSBURG, Dec. 1.—George M. Irwin, the discretionary pool operator, has entered bail in the sum of $10,700 to cover cases pending against him and all that may be filed. He is now free from the annoyance of suits until the December session of quarter sessions court.

The above diagram is drawn to a scale and show at a glance the progress of city debt. At the end of the town government it was nothing. During two years under Mayor Porter it went up, *up*; during three years under Mayor Fairbanks it went up, *up*, UP. During the first year of Mayor Hodges' administration it went DOWN. For the first time in the history of the city a halt has been called.

Why should not the voters decide that Mayor Hodges have another year's trial?

...Finally she saw the train, and before she ...ded it the passengers were pouring ...out. She strained her eyes for that beloved face. Suppose he wasn't there? Just as she felt a sickening sense of disappointment she saw him.

Even in her gladness she noticed something strange about him, and the people with him were stranger still. Men and women alike wore checked ulsters, with collars turned up to their ears, and satchels thrown over their shoulders. The men were beardless, the women blonded, painted and penciled. She had come prepared for much, but she felt ashamed to be seen with them. After kissing her, her husband tucked her arm in his, and they walked out of the station.

Once alone in their room in the hotel he held out his arms, and, like a tired bird, she flew into them. He kissed her eyes, her hair and her mouth. She laughed and cried alternately. If any thoughts of the company occurred to her, she banished them. Finally she pushed him away from her, explaining, "I want to see if you have changed, George."

"How can a man change in two months?"

"You have—on the outside," speculatively.

He looked conscious. "Oh, you mean my clothes! I suppose they look rather theatrical to you, don't they?"

"Rather." She sighed, but said nothing more, although it was a shock to see him garbed in the flashy attire of the successful comedian.

"After all, what are these things—mere outward trifles," Mrs. Bright said to herself, but there were misgivings.

At 5:30 Mr. Bright suggested they go down to dinner.

"So early?" inquired his wife.

"I must be at the theater by 7," he explained.

She walked to the mirror and began brushing her hair.

"I'll go down to the dining room ahead of you, Gertie, and order," remarked Mr. Bright.

"But, George, I can't go into a strange dining room alone."

"Oh, pshaw, that's nothing, lots of women do it! I have something to attend to at the office. Just ask the elevator boy to show you to the dining room," and before she could protest he was gone.

It was only a small matter, but three months before he had been one of the most conventional of men. In fact, he had taught her to expect those attentions which women love but rarely get from their husbands, and now it all seemed changed.

He was almost through his dinner and conversing with a man across the room when she entered the dining room.

The waiter had but served her when her husband, hastily excusing himself, left her alone. She felt slighted. He seemed to have forgotten how to be courteous. At one corner at the same table were the long legged comedian and the yellow haired soprano. She recognized the soprano as the original of a picture she had found among her husband's things. On it was written, "To George Bright, with thanks for his courtesy, from Adele Rathborne." She wondered what the courtesy could be.

She tried to be interested in her dinner, but somehow she wasn't hungry. As she walked out of the dining room she felt conscious of several pairs of curious eyes, and with a breath of relief she stepped into the elevator. She met her husband coming out of their room. He had gone up stairs to change his clothes, he said.

"Won't you come over to the theater?" he asked.

"I am too tired. I will unpack my trunk, take a bath and read until you come back. Will it be long?" wistfully.

"Not very. Still I don't know; hardly before 11. Order a hot bird and a cold bottle for 11 sharp."

"A cold bottle and a hot bird! What for?"

"Why, to eat, you goose!"

Her husband would not be back for three hours at least, and she would be thoroughly comfortable, she thought. After slipping on a fluffy white bath gown she began taking down her hair. It was beautiful hair, as black as a raven's wing and as soft and fine as satin. As she laid the pins on the dressing table her face was a study. How strange her husband should go away and leave her! She tried to reason out what was different about him besides his clothes. All she could decide then was that she was disappointed.

Exactly at 11 she rang for a bellboy. "Bring up a hot bottle and a cold bird," she ordered.

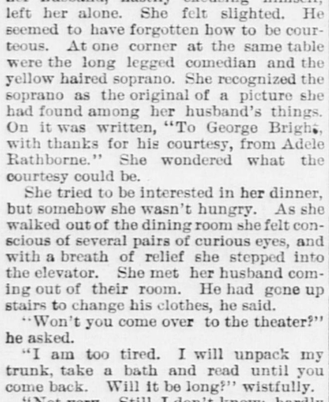

"Mam?" exclaimed the boy.

"Oh, I mean a cold bottle and a hot bird," she corrected wearily.

When he returned with the supper, she sat down to wait. "He will be here any minute; he never kept me waiting before," she thought. A half hour passed. Twelve o'clock struck, and he hadn't come. The bird was cold and the bottle warm. Stepping out into the hall, she looked over the balustrade. A man was putting out the lights. "What could it mean?" she demanded of herself. A boy went toward her door with a note. Hastily tearing it open, she read:

MY DEAR GIRL—Am detained at the theater on important business. Go to bed. I will not be in before 2. GEORGE.

"There is no answer"—to the boy. "How dare he?"—aloud as the door closed. "It is brutal, insulting, cruel! The first time he has seen me in two months! Oh, it is too much!" And with a gesture of

SHE THREW HERSELF, HAT, JACKET AND ALL, ON THE BED.

supreme misery she flung herself on the bed. Two hours later, when her husband came in, she had not changed her position.

"Poor little girl! Still waiting!" he said, with concern. "Why didn't you eat the supper? You haven't touched a thing!"

She made no answer, and he began to explain. With a gesture of contempt she interrupted him, "I do not wish to hear any of your excuses."

He was genuinely sorry, but he felt offended that his attempts at explanation should be treated as excuses. Thinking silence the best way to bring her to good humor, he ignored her and went to bed.

There were great, wide window seats in the room. After putting out the lights she crawled up in one of these. The fire went out, and she was conscious of being cold. The lights twinkled in the street below. A snore from the bed told her that her husband was asleep. She began to cry, at first silently, but as she thought of her husband's indifference she sobbed louder. She was really deriving a miserable sort of pleasure out of her discomfort when an especially loud sob wakened the sleeper. Jumping from the bed, he called out, "Gertrude, my poor darling, where are you?"

Another sob from the window, and she was in his arms. It was 4 o'clock, and she was utterly miserable and tired of being uncomfortable. She let him lead her to bed and in a few moments was asleep, and all her troubles forgotten.

The next morning Mrs. Bright wakened with a start. The sun was shining in the room. Slipping her hand under her pillow, she drew out her watch. It was 10 o'clock. Springing from the bed, she began to dress, when her husband asked lazily, "What on earth are you getting up for already, Gertrude?"

She ignored the previous night and replied calmly: "Already! It is 10 o'clock!"

"Oh, people connected with the profession never get up before 11 at least," turning over for another nap.

Finally, when he did not get up, she remarked, "George, I want my breakfast."

This appeal to his consideration brought out the man in him. "Of course you do, dear," he answered. "Ring the bell for the boy."

"Bring up breakfast for two and all the morning papers," Mr. Bright ordered when the boy arrived.

"What do you want with all the morning papers?" demanded his wife. "Isn't one enough?"

"Ordinarily it is, my dear, but I read them all so I won't miss any notices about the company."

"Oh!" observed Mrs. Bright tersely.

The tolling of church bells reminded her it was Sunday. "I don't suppose you ever go to church now?" she observed.

"Not very often."

After breakfast she gathered up the papers.

"Gertrude, would you like to do something for me while I am out?" Mr. Bright asked. Mrs. Bright expected to be told of missing buttons or torn buttonholes. "Hunt through those papers," he continued, "and cut out everything you find about the Gaiety company. You will find a scrapbook in my trunk to paste them in."

"Very well," she replied quietly.

When he had gone, she sat down on the floor. She scanned column after column. Then she cut and pasted.

"Nice, elevating way to spend Sunday morning," she thought.

In the afternoon they went to drive. They returned early because of the theater. During dinner he asked her if she would come to the performance.

"It is Sunday," she merely observed. "What time do you want that bottle and bird tonight?" Her face was suspiciously amiable.

He kissed her contritely as he answered, "Eleven on the minute, and it shan't wait!"

After he had gone she put on her things and went to church.

The next day and every day was much like the first. In the morning Mrs. Bright cut and pasted, in the afternoon she idled, and at night she went to the performance. The trivial things she did to kill time would be difficult to tell. She never wrote so many letters before. Then she would telegraph to Mildred and her sister, who had charge of the boarding house. She developed a fondness for Turkish baths, manicured her nails every day and curled her hair for the first time. She had tried to mend her husband's clothes, but it was not the atmosphere for practical employment. She tried to read, but gave it up. When she had nothing else to do, she bought things she didn't want.

Finally the month drew to a close. Mr. Bright was to leave Chicago the next Sunday morning, and Mrs. Bright was to start east the same afternoon. When Mrs. Bright saw the last of the train that bore away her husband and his ulstered companions, she was sick at heart. She stared after the train five minutes after it was out of sight. Then she walked back to the hotel. There was a sense of great loneliness as, with a sob, she threw herself, hat, jacket and all, on the bed.

* * * * * * *

The day after her arrival home Mrs. Bright put this advertisement in The Herald:

"Wanted—To sell out immediately for cash a first class boarding house, fully furnished, on Thirty-eighth street, near Fifth avenue; full of boarders. Apply to G. B., Herald office."

Within a week she notified the boarders she had sold out. She confided her plans to no one when she moved away with enough furniture to furnish an apartment.

Mrs. Bright now took up an unusual mode of life. People passing her doors heard her declaiming. She went every day to a school of dramatic instruction. It soon became known that the pretty young woman with big blue eyes and black hair in the top apartment was studying for the stage.

A new play was to be put on at one of the theaters when an actress who was to play an important part was taken ill. The manager was distracted. In his perplexity he applied to a dramatic school for a substitute. There was a matinee by the pupils that afternoon, and he went in. A young woman on the stage attracted his attention. Turning to the instructor, he asked if she were a professional or a pupil

"I AM GOING TO THE THEATER NOW."

"A pupil and one of the best in the school," the instructor replied.

The manager adjusted his glasses, looking at the young woman more critically. "By Jove, what a voice she's got! She can act, too the first amateur I ever saw who could."

* * * * * * *

The morning after the matinee Mrs. Bright was sitting in her drawing room staring out over the house tops. She looked displeased. A letter lay open on her lap. "He is getting on very well without me," she thought sadly as she read it again.

There was a ring, and the servant announced a gentleman whom Mrs. Bright recognized as a theatrical manager. Wondering the object of his visit, she offered him a chair. Speedily he told her of his presence at the matinee the day before. "I have come to offer you a position in my company if we can come to satisfactory terms and if you care to accept," he said.

She was bewildered. "It is so sudden," she stammered.

"Take until tomorrow to think it over," he suggested.

"That is not necessary. I accept now."

* * * * * * *

Mrs. Bright had become an actress. Her success from the first night was assured, and the manager congratulated himself upon this latest acquisition to his company. She felt that now the time had come to tell her husband what she had done.

"You did not want me to keep boarders, so I have sold out the boarding house," she wrote. "I did this some time ago and took a small apartment. I would have been very unhappy and lonely without you, only I have been studying very hard. You will no doubt be amazed to learn that I have been studying for the stage, but more amazed to learn that for the past month I have been a member of ——'s company.

"I am sure you will be delighted to have us members of the same profession. After all, husband and wife must have the same interests to be happy. I don't wonder you like it. I am quite infatuated with it myself. Always your devoted Gertrude.

"P. S.—I am off to the theater now, so pardon brevity. G."

Mr. Bright received this letter one morning on his arrival at the theater.

That afternoon found him in a sleeper bound east; the next afternoon in his wife's apartment. She was glad to see him, but deaf to his entreaties to give up what he termed her disgraceful project.

"Think of your child, madam!" he finally roared.

"She is your child as well as mine, sir. Certainly if the theatrical profession is good enough for her father it is quite good enough for her mother."

They ate their dinner in silence. She was absorbed in reading an evening paper and he in watching her. She was dressed in a "chic" and becoming style, and he thought he had never seen her so charming before. "At least she was his wife," with a glad feeling of possession. A spasm contracted his heart. "On the stage what temptations would beset her!" With a fierce resolve he thought, "I must get her off at any price."

"I am going to the theater now," she remarked.

"It is rather early for you to go."

"I suppose you want to see the performance, to say nothing of seeing me act." There was a twinkle in her eye and a touch of compassion, for she divined what he felt.

"I will go with you," he answered grumpily.

He was obliged to leave her at the stage door. It was three-quarters of an hour before the performance began, and he started for a walk.

In no pleasant frame of mind he entered the theater and glared at the programme as he read his wife's name.

The orchestra stopped, and the curtain went up. It was a charming play, beautifully mounted and well acted. The opening act took place in a garden scene. Mrs. Bright entered dressed in a costume of white and a large white hat. She said little, but was perfectly at ease on the stage. The more Mr. Bright realized this the more apprehensive he became.

The play progressed. The next scene was a ballroom. In it Mrs. Bright was simply radiant. She had been almost prudish in the old days, but now her beautiful shoulders were exposed to an extent which her husband denounced as vulgarly indecent. A betrothal between the handsome leading man and Mrs. Bright was sealed with a kiss.

This was too much. Heartsick, he looked at his wife in the arms of the leading man, shamelessly nestling her head on his shoulder with a movement he had seen her make a thousand times.

He rushed out of the theater and back to the stage door, where he awaited the appearance of Mrs. Bright.

Several days passed, and Mr. Bright made no move to return to the Gaiety company. At the end of a week he received a telegram from the manager of the company stating that unless he returned at once they must get some one else.

That decided him, and with the telegram in his hand he confronted his wife. "Gertrude, do you intend to keep this up?" he demanded roughly.

"Keep what up?"

"Keep on acting?"

"Why shouldn't I?"

"Because I don't want you to—because it is driving me mad to think of my wife on the stage. Where is your sweet domestic character? You used to love your home. Oh, Gertrude, it is impossible for me to consent! I cannot, and I will not!"

"Theatrical seasons end about the same time. I shall always try to be home when you are."

"It isn't that. It is death to our domestic happiness. I know it, and"—

"That is what I always told you. What sort of domestic happiness did we have before I went on the stage? Ah, no, George, there is but one thing for us to do—either we must both have nothing to do with the stage, or else we both must belong to it."

"Read that," thrusting the telegram in her hands.

"How funny!" she muttered dreamily.

"What's funny?"

"Why, tonight is Thanksgiving eve, and it is just a year since you received that first telegram. I suppose you will go tomorrow, too!" looking at him earnestly.

"If I send them word to get some one else, will you give it up?" eagerly.

"Well, I rather like the life now, there is so much excitement."

"Oh, Gertrude, don't torture me!"

"When will you give it up?" she persisted.

"At once."

With the identical gesture she had made with the leading man, she buried her face on his shoulder.

"Then is it a bargain, sweetheart?" he asked anxiously.

"No, George, not a bargain, but a Thanksgiving compromise. I agree to give up acting just as long as you give up managing, but"—

There was no but, for he closed her mouth with a kiss.

THANKSGIVING REVERIES.

Here we are again at the old farm homestead in the Wabash valley and a few—alas, how few!—representatives of the now widely scattered family are seated at the long table in the old "living room," which is the dining room on the western farm. But the dinner is a composite affair. It shows that the old neighborhood is in a transition state between the conventional Thanksgiving dinner of the east and the "farmer's Sunday dinner" of the olden time.

Turkey? Well, that's as it happens. It is not indispensable. Chicken pie? Most assuredly. The grandchildren would consider themselves swindled if they dined at the old farmhouse and did not get chicken pie. And the "wishbones" must be kept whole at any cost. Boiled ham sliced cold is a sort of standby. Celery? Well, that's an eastern innovation, so to speak, and

AT DINNER.

outside of the towns and cities it is not common; but, of course, "our folks have it. "Pumpkin pie? Generally. Mince pie? Most assuredly. There wouldn't be real Thanksgiving without it. Then fruit and cheese. Homemade cider to start on, and at the close coffee, "made very strong and weakened down with cream and sugar." After that unrestrained fun for the children, cob pipes for the older men, cigars for the younger and smiles for everybody. Such is our Thanksgiving in these days in western Indiana.

The nights are deliciously crisp and cool and just long enough for a fellow to get all the sleep he wants. There are no gnats or mosquitoes or buzzing flies. In the deepest woods there is no danger of treading unawares upon a snake, the blue lizards have gone into winter quarters, the hornets no longer buzz from the big gray ball in the old apple tree, and the pesky yellow jackets are not in it.

VOTE FOR MOXON AND REFORM

High School Expenditures.

A review of the expenditures under the appropriation made by the City Council of 1893 for the building of a High school building is very interesting at this time. It seems to demonstrate in a very emphatic manner the extraordinary business capacity which has been so freely claimed for the present executive of the city, does not include economy in expenditures, despatch in execution, nor a very large return as the result of the expenditure.

On assuming the direction of the affairs of the city on Jan. 1, 1894, Mr. Hodges found an appropriation of $62,000 for the purpose of building a new High school, with contracts duly made for construction $45,500; for heating apparatus, $4,100, and, with superintendence provided for at a cost of $1,000, the only work remaining unprovided for was the removing of surplus earth "to be done by the city."

Now examine the actual operations the contracts above-named were carried out by the respective parties. The part remaining "to be done by the city," the removal of surplus earth, which is ordinarily among the first things to be done in connection with a new building and which could very properly have been done in the early spring months, when the money paid out for it would have been of extra value to the workingmen of the city, was not done until the building was nearly completed, and is in fact very far from being at this writing. For this work there has been charged to this appropriation already a large sum,—$2617.

The larger part of the material removed from the High school lot was spread on the surface of Hancock street, over a roadbed which was very rough but fairly hard and decently passable. It is perfectly safe to say, that a good roadway cannot now be constructed at these points until the material thus spread on the surface has been removed. The street was not in good condition before the work was done, but it is now a monumental disgrace.

By order of the State Board of Inspectors (whether properly or improperly made), a tower was added to the structure at a cost $4,600. This addition was made without consulting the City Council, and while it is true that the School Board approved the plans from which the tower was built, it did not approve the change made, and was not brought into consultation with the City Council or State Board which ordered the addition to be made. It is safe to say in this connection that if the matter had been submitted to the City Council, and in proper turn to the School Board, that if any change or addition was made, it would not have been done in such way as to entirely ruin the appearance of the building as it now most certainly does.

The specification under which the City Council ordered the building to be erected, provided for the superintendence of the work to be performed under the contracts in a manner which is usually considered quite sufficient for the protection of the owners. Then appears as an additional item of cost a charge of $534.00 for supeninteudence.

We have then paid to building contractor $45,500 which was duly authorized.

Heating contractor $4,100, which was duly authorized.

For superintending $1,000, which was duly authorized.

For building tower $4,600, wholly unauthorized.

Other various items $4,500, wholly unauthorized.

Extra superintending $534 wholly unauthorized.

To the average taxpayer and to any good business man, it will be difficult to find a satisfactory reason for having the business of the city done in this exceedingly unbusinesslike manner. If no better use could be make of the surplus earth it could undoubtedly have been disposed of with little if any cost to the city and one of the reasons advanced for the purchase of the lot at a very high price was that the surplus earth could be disposed of to great advantage.

If the tower was necessary (which is extremely doubtful) it should certainly only have been built when the authority had been duly obtained from the City Council.

If the superintending provided for by the original specification proved to be inefficient or inadequate, then it should have been properly displaced, and proper supervision provided at a proper cost, a double inspection could not result in any real good.

If it was found necessary to provide for electric lighting, the necessary authority to have it included in the expenditures was within easy reach.

With the money in the city treasury, the interest thereon being paid by the city—with the workmen of the city suffering for employment can any good reason be given, why the grounds of the High School building should have remained from January to September in the condition in which they were, and when the building was ready for use and the Governor of the Commonwealth was the guest of the city to assist in the dedicatory ceremonies, was it for the interests of the city that the grounds should have been unnecessarily left in such condition, that to the citizens and guests there assembled, should take away with them, impressions which could not by any possibility reflect credit on the administration of our affairs.

But perhaps the most serious matter in connection with the whole subject is the fact, that the way has been opened and a precedent established under which future administration may with very good reason feel justified in expending any money which has been appropriated by the City Council in such a way and for such purposes as pleases them and without regard to the regulations of the City Charter. In this case the City Council has been obliged to make an appropriation of about $6,500 for debts incurred in direct violation of the provisions of the City Charter, as the City Auditor refused to approved bill. It therefor appears to be very plain that under this very businesslike management of the present administration, a safe margin of about $10,000 to $12,000 of the appropriation which would have been a sufficient sum to furnish and equip the school has entirely disappeared, requiring an additional appropriation of about $4,000 for furnishing, and bringing the total cost of High school up to the large sum of $81,000. Will any good business man calmly examine this matter and then cast his vote for a continuation of it?

The Six Hundred Dollar Scare.

The old saying that there are none so blind as those who will not see, applies with considerable force to those Democratic croakers and politicians, who seek to blind themselves and the public to the true reason for the payment of the six hundred dollars for the Lincoln school house plans to Mr. S. O. Moxon. The money was paid to Mr. Moxon because it was perfectly legal to do so and for the additional reason that it rightfully belonged to him.

No one conversant with all the facts in the case will deny that these plans were furnished by Mr Moxon with the knowledge and consent of the School Board and the Committee of the City Council.

The Lincoln school house was built in accordance with Mr. Moxon's plans and they were adopted and used by the city government, and today are the property of the city of Quincy.

It is conceded that the preparation of these plans required the expenditure of considerable money and time on the part of Mr. Moxon; that the price asked for them was a moderate and reasonable one, and finally that their adoption and use was the means of saving a large sum of money to the city.

No one, not even his bitterest political opponents, has ever dared to accuse Mr. Moxon of acting in an underhanded or deceitful manner. All, irrespective of political creed agreed that he conducted himself fairly and openly throughout the whole matter, but, it is urged, there was a legal objection to the payment for inasmuch as he was a councilman at the time, the law would not permit his receiving the money no matter how valuable the services.

Let us consider that for a moment:

First,—His duties as a councilman did not require him, to act as architect of the city. The furnishing of those plans was in no way remotely or appropriately connected with any duty he could be called on to perform by virtue of his office as councilman. It was an entirely distinct, separate and collatual matter, and when the city appropriated to its own use Mr. Moxon's labor and his property it became liable therefor.

Second,—At the time the matter was being considered by the City Council three lawyers were connected with the city government, the opinion of these attorneys as expressed to the Council at the time is worthy of not.

The then City Solicitor McAnarney rendered an opinion that after carefully considering all the facts and the law, he believed the payment to have been legally made and warranted.

Councilman C. F. Adams, 2d, a Democrat, stated in open Council that in so far as he an attorney was able to judge of the legality of the payment, aided by all the information he could get on the law and facts, he believed the payment to have been legally made, and he so voted. Councilman H. M. Federhen, Jr., who has always been an active partisan, and was at the time the Democratic leader against Mr. Moxon, claimed the payment was an illegal one.

It must be borne in mind that while this matter was being considered in the Council, although the Democratic machine was exerting every influence to down Mr. Moxon, his opponents did not dare to cite the name of an attorney of repute and standing who claimed that the action was illegal; if they had been able to do so it is safe to assume that it would have been done, but they preferred to claim that some mysterious, unknown individuals whose names were too sacred to mention, claimed that Mr. Moxon acted illegally.

At this late day when party strife is high, by making a partial statement or the facts it may be possible to buy an opinion against Mr. Moxon. But we believe that the opinions expressed by City Solicitor McAnarney and Councilman Adams were the correct ones, and the action of the Committee, Council and the City Council itself in fully exonerating Mr. Moxon was just and proper. TRUTH.

—Martin K. Pratt of Weymouth was 79 years of age last Tuesday. Mr. Pratt is the oldest newsdealer, we believe, in the country.

—There were 1073 desertions from the United States Army during the year ending June 30 last, as compared with 3672 in the year ending June 30, 1884. This improvement is attributed to better rations, better barracks and better chances of promotion.

Vote for Moxon and Reform.

To the Voters of Quincy

Mr. Moxon is a naturalized citizen. This is the principal argument made by those who oppose his candidacy for the position of Mayor of this city. The facts are these: He first came to this country twenty-five years ago, has resided in Quincy eighteen years and became a citizen four years since. All honor to him, I say, for not seeking citizenship until he had passed the time which our native Americans are required to attain before they can become voters.

The Republican aspirants have always been active in urging the naturalization of those of foreign birth whose votes they could control, but if it happens that a man of this class is nominated for a responsible office, the politicians are immediately horror-stricken.

The average office-seeker does not hesitate to cater for the votes of naturalized citizens, and I do not believe that a most rabid A. P. A. candidate would be averse to receiving such support. There were half a dozen or more, who were itching for the mayoralty nomination, and I knew that when the matter was decided those who suffered defeat would be affected with political cholic. The men who are most unjust in their criticism of the present nominee are those who have always denounced me for not voting for unfit men whose names were upon the regular party ticket.

Sound Principles.

My American principles extend to corrupt and incompetent candidates wherever found, be they Irishmen, Yankees, Democrats or Republicans. I am in sympathy with the A. P. A., so far as that movement tends to strengthen our American institutions, to resist onslaughts from every source, but I do not intend to let bigotry override my honest convictions. I know Mr. Moxon to be a man of wide experience in a successful business career, with a large knowledge of city affairs and a desire to administer the same upon sound principles. I believe, if elected, his administration will convince you of the accuracy of this statement. Speedy action is necessary to save the city from bankruptcy. The situation demands the election of efficient men to positions of trust. Let the future policy of the city be to incur no additional debts. The borrowing system is a most disastrous one. The obligations for extravagant expenditures are not lessened by delays in meeting the same. A man may mortgage his property and spend the money thus obtained in riotous living. It may be fun for him, but his family will not enjoy the results of his depravity. Bequests in the shape of unpaid notes are not indications of prosperity.

I would suggest as a further remedy for our unfortunate financial condition, that the city charter be so amended as to provide that all councilmen shall be elected at large. In the wards where the most dangerous elements exist, councilmen are elected who will serve the rabble. Stringent measures must be adopted in order to place incompetency in a straight jacket. As the matter now stands, every political tramp desires to pose as the lion of his own ward, while he makes an ass of himself with the general public.

Official Incompetency.

The existing condition of our municipality fills one with regret that the good old town meeting system has been supplanted. In those days an attempt at political jobbery could be easily detected and suppressed, but now the City Council knows beforehand the attitude of all its members on important measures which will come up for action, so that they can trade votes in such a manner as to perpetuate themselves in office at the expense of their suffering constituents. I believe that a competent Council would not have foisted upon us the extravagant abortion called a brick schoolhouse at West Quincy. It is a monument of folly to all who have shared in the responsibility for its erection from the architect down to the hod-carrier. What a comfort it would be to those who are compelled to gaze upon the structure daily, if, like the chameleon, it could change its spots. I cannot refrain from also alluding to our High school building, the granite trimmings of which provoked so great a controversy in the Council that the result of that sanguinary contest is apparent to all who view the edifice. If the tower, called a fire escape, had been placed in the rear, its utility would not have been lessened and the purposes of ornamentation greatly enhanced thereby. Most of our public buildings which have recently been erected are startling memorials of political blundering and extravagance, and some measures should be taken to relieve the city from a repetition of such nonsense.

A Blunder.

The most glaring mistake of Mr. Hodges administration was the displacement of Mr. Ewell, one of the most efficient commissioners of public works who ever served in that capacity, and appointing to the position a man who, having sufficient business of his own to engross his attention, should not have undertaken the management of city affairs. No man should be appointed to an office which commands a yearly salary of $2000 unless he can devote his whole time to its duties. The expenditures for our highways during the past year have been excessive, and I feel sure that you will agree with me that their present deplorable condition has not been equalled at this season. I have always been a cheerful taxpayer, but when I see how recklessly the income has been squandered, I protest against the election of officials who are responsible for such wanton use of the taxpayer's money. HENRY H. FAXON.

Quincy, Nov. 30, 1894.

Candidate Moxon.

Mr. or Mrs., Miss or Master "June" has at last touched a business question which should be the only real topic for discussion in the city campaign. He or she asserts coolly that the city was prevented from obtaining the right to build new water works which could be constructed at a price some $200,000 less than the sum paid for the existing plant. Does "June" or any one else forget, that the city did obtain from the Legislature the right to construct a new water supply. There was, however, one very important condition to be complied with by the city before any water could be distributed to its people, viz.: "*The city must first purchase the existing plant.*" This was insisted upon by the Legislature which framed the Act, and has been the course followed in similar cases by each succeeding Legislature since that time.

The extraordinary demand by the citizens for water service under a city administration is a clear demonstration of the correctness of the position of Mr. Moxon (and others) that it was unwise for the city to spend perhaps several years in attempting to obtain from the Legislature a right to erect a new water supply in competition with a private corporation, only at last to find that such right could not be obtained. In the meantime the city would surely have been a severe sufferer from the inability of the private company to extend its work to meet the demand for water for the use of its citizens, and for increased protection against fire. Mr. Moxon can not be made to lose any business man's vote upon the question by any such argument as that presented by Mr. or Mrs. "June."

As to citizenship. The city is now about to choose an official who shall be the managing director in its corporate affairs. It is of vital importance to the city that the best material available should be selected. It is also to be hoped that the city will continue to go forward instead of relapsing into the old town methods, and it will be fortunate indeed for the city if in the immediate future it has the same good business qualities applied to the great sewer and light questions as were used so very clearly to the advantage of the city when it was determined to purchase the water supply.

Mr. Moxon however, is in good standing as to his citizenship. His course in this matter being especially commendable. Coming to Boston in search of health he became interested in the country. Since that time he has been (with exception of about two months,) a constant resident. After 20 years residence he became a citizen by proper naturalization process. No good citizen who desires prosperity for our city will vote against Mr. Moxon on account of his standing as a citizen. While it would seem that many would vote for him in the hope at least that the city would be rescued from a continuation of the business policy which prevailed under Mr. Hodges as a selectman, and from an other year of the present mismanagement of some of the most important department of the city.

Lawyer McAnarney Replies.

Editors of the Daily Ledger:

In your issue of the 28th inst., appeared an article signed by "* * *" and criticising the bill endorsed by the counsel for the city in the Woodward will case.

Permit me through your paper to inform "***" that there is no one more contemptible than he who makes an attack upon the motives or character of another through the medium of a cowardly anonymous communication to the press.

Let him come out like a man! Let him sign his name! The public does not admire assassins who stab in the dark! It has nothing but contempt and disdain for those who are so ashamed of their own deeds that they fear to be known as their authors.

When "* * *" shows to the public that he is worthy of notice a time and place will be found where his accusations will be easily disposed of.

But his article in the LEDGER shows that he is so destitute of manhood that he has not the courage to openly face the public, prefering instead the dishonorable stigma always attached to an anonymous assailant. Had he not shown such cowardice I might have replied to his assertions. Yours etc.,

JOHN W. MCANARNEY.

As With One Accord.

A witty individual one morning wagered that he would ask the same question of fifty different persons and receive the same answer from each. The wit went first to one and then to the other, until he had reached the number of fifty. And this is how he won the bet. He whispered, half audibly to each:

"I say, have you heard that Smith has failed?"

"What Smith?" queried the whole fifty, one after another; and it was decided that the bet had been fairly won.—*Cincinnati Inquirer.*

A HARD FOUGHT GAME

Pennsylvania's Athletes Trail the Crimson Banner In the Dust.

SCORE EIGHTEEN POINTS TO FOUR

The Playing Devoid of All Rough Features.

PHILADELPHIA, Nov. 30.—Twenty thousand people witnessed Pennsylvania defeat Harvard on the local college grounds yesterday. It was the last game of the season for the two teams, and the first big Thanksgiving day contest that Philadelphia has ever had.

Another bright plume adorns the cap of Captain Knipe. His team has won renown such as was never before known in the history of the big university. Not a defeat has marred the record of the red and blue during the entire football year, and Harvard was the third team to succeed in crossing her goal line. Pennsylvania's victory by a score of 18 to 4 was made by hard, clean football.

There were none of the objectionable features so often manifested in the big games. The feeling between the colleges is very friendly, and although every man on the rival elevens played to the full extent of his ability, no slugging or unnecessary roughness was in evidence during the match. So hard and fast was the play that five of the Cambridge men were compelled to leave the field.

Charley Brewer wrenched his weak ankle in the first half, and Harvard was without the services of her best kicker. Emmons' leg was also strained, and he was compelled to go to the sidelines. The other injured players were Hallowell, Wheeler and Fairchild. The loss of these men naturally handicapped the wearers of the crimson, but nevertheless they put up a most stubborn game.

Pennsylvania's team showed by far the better training, and, as was the case in the match with Princeton, the eleven remained intact throughout.

The Men Line Up.

Pennsylvania was the first to appear on the field. Tremendous cheering heralded the appearance of Captain Knipe's warriors. The men practiced punting, passing and falling on the ball until the Harvard eleven came on at 2:15. The coin was tossed and Captain Emmons called the turn correctly, choosing the west goal for the crimsons, with the wind and sun in his favor.

The teams lined up as follows:

PENNSYLVANIA.	POSITIONS.	HARVARD.
Gelbert	left end	Emmons, Cabot
Wagonhurst	left-tackle	Hallowell
Woodruff	left guard	Wheeler, Mackie
Bull	center	F. Shaw, Doucette
Wharton	right-guard	J. N. Shaw
Minds	right-tackle	Waters
Rosengarten	right end	A. Brewer
Williams	quarter-back	Wrenn
Knipe	left half-back	Whittemore
Osgood	right half-back	C. Brewer, Hayes
Brooke	full-back	Fairchild, Dunlop

Brooke kicked off for the Quakers and the great match was on. For a little while the play was, for the most part, in Pennsylvania's territory. Then slowly, but surely, the Quakers hurled the Cambridge men back and carried the ball toward the Harvard goal line. Desperately the strong line of the crimson would plunge into the interference of the Quakers and the ball kept hovering near midfield.

Only two points were scored in the first half, and these were made by Pennsylvania on safety.

Hayes' Bad Error.

Brooke, by a magnificent kick, dropped the ball within five yards of Harvard's goal line. As Hayes got it, the Pennsylvania end rushers were right upon him. The Harvard back seemed to lose his head, and took the ball over his own line. Pandemonium reigned in the ranks of the Red and Blue when it was known that Crimson had been scored on.

Hayes kicked to Pennsylvania's 15-yard line, and Brooke returned the kick to Harvard's 40-yard line. Waters failed to gain through the center, and Whittemore made 10 yards through right-tackle. The ball was now in the center of the field. Hayes attempted to go around the left, but lost five yards.

The game was called at 4:55, with the ball on Harvard's 45-yard line. Final score—18 to 4 in favor of Pennsylvania. First half, Pennsylvania, 2; Harvard, 0; second half, Pennsylvania, 16; Harvard, 4.

Pennsylvania's victory places her in the very first rank in the football world. Although the blue does not play her this year, in the opinion of many, her team is stronger than the New Haven eleven. It was reported after yesterday's game, that Pennsylvania would issue a challenge to Yale for a match on Dec. 8. It is not thought, in facts, it is known, that Hinkey will not accept such a proposition, but Pennsylvania will have shown that she has done all in her power to get on a match with the blue.

Cook's Gang Still at It.

LITTLE ROCK, Nov. 30.—The Illinois station on the Coffeyville branch of the Missouri Pacific railway in the Indian Territory was looted by the Cook gang and everything movable carried off. They robbed the station agent, who at once telegraphed his resignation to headquarters and left on the next train for St. Louis.

Not Officially Confirmed.

LONDON, Nov. 30.—A dispatch to The Daily News says it is rumored that Grand Duke George, the czarewitch, died on Sunday last. No official confirmation of the rumor has been received. The report, however, has thrown the city into a state of gloom.

DEFENDS HIS ADMINISTRATION

Mayor Hodges of Quincy in Reply to Mr. Faxon.

Claims That City Debt Has for the First Time Not Only Been Checked but Decreased During His Incumbency—His Reasons for Removal of Mr. Ewell.

To the Editor of the Daily Ledger:

In view of the article published in your Friday's paper, written by Mr. Henry H. Faxon attacking my administration as mayor of Quincy, will you kindly allow me the privilege of making the following statement in reply:

I agree with all Mr. Faxon says to the effect that "obligations for extravagant expenditures are not lessened by delays in meeting the same," as also that "bequests in the shape of unpaid notes are no indication of prosperity;" but let me ask Mr. Faxon if, in all fairness, his statement that "speedy action is necessary to save the city from bankruptcy" is not at least misleading? Isn't it a fact that the city debt which, under each successive Republican administration speedily increased since our town government was abolished, has for the first time been checked, and not only checked, but decreased by me?

You know, Mr. Faxon, or ought to know, that I have been attacked several times through the columns of the Quincy DAILY LEDGER by certain Republicans because I refused to borrow money to pay the instalments of the city debt which this year became due, instead of making the payments out of our income. The Republican argument has been that it was better to pile up the city debt and leave to some other administration the legacy of unpaid notes than to allow the rate of taxation to be increased.

In relation, Mr. Faxon, to that part of your article touching upon the Willard schoolhouse in West Quincy, let me remind you that it was finished by Mr. Ewell, after the Cushings failure, at a loss to the city of nearly $30,000 three years before I came into office. Concerning the High school the plans were accepted by last year's Republican city council, of which Mr. Moxon was the most important member. Mr. Ewell was in office when the contracts were made. The tower you must know, was forced upon the city by the state officials. The fault, if any there is, for its being an adjunct to the present building rests with your administration of last year.

And let me also add to the list of public buildings criticised by Mr. Faxon, the Lincoln schoolhouse and the central fire station. The latter in particular was so wretchedly constructed that it necessitated the expenditure last year alone of nearly $1000 for repairs. The plumbing had to be taken out, the floors were shaky and uneven, the timbers having spread, and the inside arrangements were wretched. The council of which Mr. Moxon was a member passed upon the plans and Mr. Ewell had charge of building the structures.

But Mr. Faxon complains that Mr. Ewell should not have been removed, and eulogizes both Mr. Ewell and Mr. Moxon, but does he not convict himself of inconsistencies when he pitches into the buildings which he characterizes as "monuments of folly," which were the work of Mr. Ewell and not of Mr. Eaton? How can Mr. Faxon condemn the Willard schoolhouse, and at the same time praise Mr. Ewell as being the most efficient commissioner of public works, and how can Mr. Faxon condemn the council and consistently support its leader on the floor, Mr. Moxon, the chairman of the finance committee?

Mr. Faxon says my most glaring mistake was the removal of Mr. Ewell, but had Mr. Ewell been all that is claimed for him he himself made it impossible for me to reappoint him. Would any sane man expect me to appoint a gentleman to the head of my most important department who had publicly expressed a personal animosity toward me and who had stated that when I came in one door he would go out the other?

I have endeavored to give the city of Quincy a careful, conscientious, economical and businesslike administration, and to that end I have given a great deal of my personal time and attention. I promised when I was elected to keep down the city debt, and I have done that and more. I have reduced it; and I confess I am surprised by Mr. Faxon's letter, in view of the fact that he has expressed to many of his personal friends and mine his indorsement and commendation of my administration as a whole. I knew that he objected to the removal of Mr. Ewell, but the retention by me of Mr. Ewell, was utterly impossible for the reasons already assigned.

WILLIAM A. HODGES.

Quincy, Dec. 1, 1894.

For the Ledger.

Vote for One.

MR. EDITOR: I received through the mail this morning, as probably many others did, a circular inviting me to vote for only one Councilman in Ward, One, the Democratic nominee.

We would caution all to vote for all three Republicans nominated in Ward One, for Councilmen, if you wish to be successful. If you skip one you favor your opponents.

FAIR PLAY.

THE CITY DEBT.

Not Likely to be Reduced During This Administration.

Would it not be a little fairer in that diagram of the city debt published in the interests of Mayor Hodges, if the debt on *December* 1 of other years was compared with December 1 of this year. It is very probably that appropriations will be passed this month which will increase the grand total on January 1 next, rather than reduce it.

The amount of the maturing debt this year for ordinary city expenses was $64,730.

To offset this the city has a new debt of $29,900 already authorized this year. There is also pending in the City Council appropriations as follows, which if passed will increase the total to $57,868:

Copeland street	$300
Adams street	4,000
Walker street	2,500
Norfolk Downs school lot	3,600
School lot at Rail	3,000
Coddington street	14,568

It will not take many more small orders to make up the $7,000 and we have a new debt larger than the maturing debt of $64,730 of this year.

How will it be if in addition to all this, if appropriations of $50,000 to $75,000 are passed for the two new schoolhouses which are urgently needed at Norfolk Downs and the "Rail?"

Admitting for argument that the city debt is reduced this year, pray what has Mayor Hodges done to decrease it. He increased the appropriations and the city tax, and has not vetoed an appropriation.

PROGRESS AND REFORM.

Do the people of Quincy want a system of sewerage?

Do the workmen of Quincy want employment for a long period of time?

If so, vote for Stephen O. Moxon who advocates the immediate introduction of a sewerage system into Quincy.

At the rally in Ward Three Saturday, he declared himself a firm believer in the policy of employing only the citizens of Quincy on the extension of water works and in placing of a system of sewerage in our streets.

Would you wait until you lose some member of your family by diphtheria or some other dread contagious disease before you believe in having a system of sewerage? If so, vote for Wm. A. Hodges.

Will the voters of Ward Three vote to continue the rule of Peter Williams?

How much was the valuation of your property increased this year? How much the tax rate?

What public work has Hodges done to justify the increase in rate and valuation?

Don't be deceived by any campaign talk that he has decreased the city debt.

Vote for Progress and good roads. Who wants another year of Eaton's blundering work on our roads. JUSTICE.

Modern Politics.

Editors of the Daily Ledger:

It is amusing to the citizens of Ward Six to see what a great interest has sprung up the past week among certain politicians in regard to the Walker street extension. One day quite a large committee was on the grounds and spent quite a long time pacing up and down this territory apparently showing the neighbors just how they would do it if they would only cast their votes for them and give them the chance.

Now for a fact, some of these same men have had more opportunity to do good work than they can ever have again, and what is the record, they simply stood up in the Council and for the most part opposed Mr. Moxon and did absolutely nothing to assist him in putting this street through. All fair-minded citizens of Atlantic know full well that Stephen O. Moxon has worked hard to have this street extended and he has been obliged to do it single handed against many obstacles. To show up now and manifest such an interest will not do, or deceive anybody. It is too him so to speak and causes only ridicule.

The street is going through all right and will no doubt have its final passage on Monday night. The great board fence put up to annoy neighbors will have no effect whatever as the street will be put through as originally laid out. FAIR PLAY.

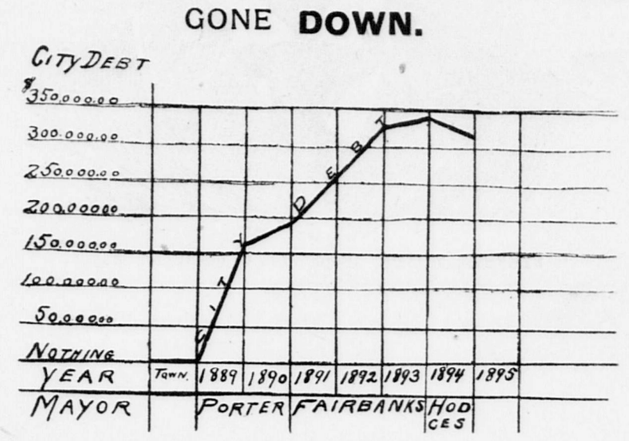

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy at home or on a trip away from home.

CITY DEBT.

HOW IT HAS GONE **UP** DURING THE PAST FIVE YEARS.

THIS IS THE FIRST YEAR IT HAS GONE **DOWN.**

The above diagram is drawn to a scale and shows at a glance the progress of the city debt. At the end of the town government it was nothing. During two years under Mayor Porter it went up, UP; during three years under Mayor Fairbanks it went up, *up*, UP. During the first year of Mayor Hodges' administration it went DOWN. For the first time in the history of the city a halt has been called.

Why should not the voters decide that Mayor Hodges have another year's trial?

Jan. 1, 1889,	0
Jan. 1, 1890,	$168,000
Jan. 1, 1891,	191,200
Jan. 1, 1892,	262,386
Jan. 1, 1893,	323,542
Jan. 1, 1894,	339,730
Dec. 1, 1894,	331.991

The increased tax rate is due to two reasons. First, the amount of maturing debt falling due this year; second, the amount of interest on this debt. The city was obliged to pay $20,000 on the water loan and $1000 on the park loan, both of which fell due this year for the first time. Besides this there was $65,000 ordinary debt accrued for various expenses during the past five years.

The total debt with interest due this year amounted to about $104,000. This had to be paid to preserve the city's credit for prompt payment of debt. The necessary result was that the money for the payment had to be raised by taxation. This is what makes the taxes higher. It was not caused by money spent this year by Mayor Hodges; it was caused by the extravagant expenditures of past administrations.

MOXON'S RECORD.

The Councilman for Extension of Water Mains and by Home Labor.

A report is being circulated throughout ward 3 and 4 to the effect that when in 1892 the strike was in progress, Mr. Moxon opposed the exsention of water mains. A careful examination of the records will prove the falsity of this charge against Mr. Moxon.

It is well known to every one who followed the doings of the council during that period that Mr. Moxon fought hard for the appropriation for the extension of the water mains and that Councilmen Wm. T. Powers and H. M. Federhen, Jr., with equal force opposed the same. Let us examine the records.

July 11, 1892. Mayor Fairbanks forwarded the following communication to the City Council:

QUINCY, Mass., July 7, 1892.

James Thompson, Esq., President of Council:

Dear Sir:—Enclosed I hand you communications from the Board of Water Commissioners, which presents to the council the urgent need of an appropriation of $25,000, to permit them to act upon the numerous requests from our citizens to be supplied with water.

Their request meets with my approval, and as it is also our duty to provide ample hydrant service for the protection of property, I would recommend that they be requested to locate such hydrants as meets the approval of the chief engineer, on the new extensions when made. Respectfully,

H. O. FAIRBANKS,
Mayor.

Hon. H. O. Fairbanks, Mayor:

Dear Sir,—The Water Commissioners desire to call your attention to the fact that no appropriation has been made for the use of this department. Numerous applications have been made to the board for the extension of the mains and putting in of service pipes. It is impossible for the Board of Commissioners to take favorable action on these petitions unless we have at our disposal the necessary funds for the purchase of the required materials and to pay for the cost of construction.

The income from the sale of water (if it can be used for extensions?) is not sufficient for the purpose. At present there is to the credit of this department only about $400.

There is on hand only a few feet of pipe of the required sizes. It is important that we contract for coal at an early date. The Commissioners request an early appropriation for the use of this department. We request that $25,000 could be expended to good advantage this season.

It should be born in mind that an appropriation for the purposes named creates no increase to the burdens of taxation as, at the present rates charged for water, the income from extensions will pay the interest charges.

Respectfully submitted,

HERBERT T. WHITMAN,
JOHN T. CAVANAGH,
JAMES H. STETSON,
} Commissioners.

H. E. Stetson, Secretary

QUINCY, July 7, 1892.

H. O. Fairbanks, Mayor:

Dear Sir: The appropriation asked for by the Board of Water Commissioners for the purpose of extending the water mains and setting hydrants on the following streets being the opinion of this board that the request of the petitioners should be granted,

	Feet of Pipe
Thomson street, about	525
Arnold street, about	375
Granite street, about	1081
Centre street, about	875
Nightingale street, about	400
Norton street, about	500
Arthur street, about	400
Standish avenue, about	1500
Wollaston park, about	1000
On Norfolk Downs, about	3,540
Independence avenue and Goddard street, about	800
Belmont street, about	1000
New Plains, about	4875
Total,	16,871

About 3 and 2-10 miles.

The estimated cost of the above pipe, including the necessary gates and 21 hydrants, set ready for use, is $22,450.

It is estimated that $2,550 will be required for minor extensions not yet acted on by the board.

Respectfully submitted,

H. T. WHITMAN, Chairman,
For the Water Commissioners

On motion of Councilman Bryant the communications were received and referred to the Committee of the Whole. President Thompson called Councilman Moxon to the chair and C. A. Spear was chosen clerk. The communications were read a second time.

In the Committee of the Whole the Democrats opposed the granting the above request, and for the purpose of delaying action until it would be too late to negotiate the loan, Councilman Federhen offered the following motion.

That when this Committee rise it report recommending that these communications be referred to a special committee of five members, one of whom shall be the President, which shall consider them and report at the regular adjourned meeting of the Council on the second Monday of September.

This motion was defeated and the committee reported the following motion, which was accepted and reported to the Council and adopted at the meeting.

Moved. That when this committee rise to report to the Council the adoption of the following:

ORDERED: That the sum of $25,000 be and hereby is appropriated for the purpose of extending water mains and erecting hydrants according to a schedule annexed to a communication of this date from the Water Commissioners And the City Treasurer is hereby authorized to borrow the sum of $25,000, giving therefor the bonds of the city as authorized by the Act of the General Court at the regular session of 1892.

The order was finally referred to the following special committee, viz: Councilman Morton, Pratt, Fallon, Sherman, Moxon, Thompson, Gray, Federhen, Jr., Curtis, Hammond and Bryant.

At the adjournment meeting held July 25th the special committee reported against granting the order. The report was signed by all of the assembled Councilman except Councilmen Moxon. Bryant, Hammond and Sherman who reported the following minority report.

ORDERED—That the sum of twenty-five thousand dollars ($25,000) be and hereby is appropriated for the extension of water mains and the erection of fire hydrants, of which the sum of twenty-two thousand four hundred and fifty dollars ($22,450) is hereby ordered to be expended under the direction of the Board of Water Commissioners in the extension of water mains and the erection of fire hydrants under, through and upon the following named streets, etc.

August 28, 1892, the Mayor forwarded a communication to the Council requesting the changing of the date of the issue of the bond on the above loan from Dec. 1st to Sept. 1st.

Councilman Moxon offered an order to that effect, which was referred to the Finance committee.

August 30, 1892. The Finance committee reported in favor of the change.

The Democrats in the Council led by Councilmen Powers and Federhen, bitterly opposed the change, claiming that if it was granted, the mayor would put the unemployed to work and make political capital. Councilman Powers stated "I hope the order will not pass; the order is intended for political capital. The working men of Quincy do not want it. The stone cutters will not go to work on the Water Works."

Councilman Moxon urged the passage of the order, and it took its second reading. It was engrossed by a vote of 11 to 8.

Councilman Moxon and ten others in favor and Councilman Powers and six others against.

Sept. 12, 1892, the order to change the date of the water bonds authorized from Dec. 1 to Sept. 1, was rejected by the following vote, not the necessary two-thirds.

YEAS.—Councilmen Bass, Bryant, Hammond Holden, Holt, Litchfield, Moxon, Rinn, Sherman and Warner—10.

NAYS.—Councilmen Curtis, Duffield, Fallon, Gray, Powers and Pratt—6.

Sept. 19, the Mayor sent a communication to the council in part as follows:

"* * *" The request of the water commissioners met my approval and a communication was sent to the Council July 7, asking for an appropriation of $25,000 to permit the water commissioners to make the necessary extensions, to supply the demands for a supply of water. The council passed an order July 25, authorizing a loan of $25,000 but by the wording of the order making the date of the bonds Dec 1, the orders to a certain extent became inoperative, as the bonds could not be delivered until December 1, and the proceeds could not be placed to the credit of the Water Board

Aug 22, I called the attention of the council to these facts, and requested the council to change the date of the bonds from Dec. 1 to Sept 1, so that the appropriation could be available for the uses of the Water Board This request was refused by the council, and I deem it my duty in behalf of the citizens who desire to be supplied with water, and in behalf of the water commissioners, who believe that the mains should be extended for the purpose of supplying water for domestic purposes, and also for giving the city a better fire protection, to again call the attention of the council to the important question, and to request them to provide the necessary funds

From June 1st, the date of taking possession, up to the present time, the receipts from water rates have been about $5,978.31 and $982 59 from service accounts The expenditures have been about $1,806.27 for maintenance and $2,374.25 for making service connections The Board has about $400 of materials for service connection on hand

The Water Board has to its credit at the present time about $2,800, and it is estimated that about $6,500 in water rates will soon be received. This will give the Board available funds if the proper authority be given to use the same for new construction.

I would therefore recommend that the Council consider this request and pass an order granting authority to the Water Commissioners to use the available funds until the water supply bonds are delivered when the proper transfers can then be made.

I would again call the attention of the Council to my communication of June 18, asking the Board to establish by ordinance the salaries of the Water Commissioners.

Respectfully.

H. O. FAIRBANKS, Mayor.

The communication was referred, and a motion was made that the Finance Committee retire and bring in an order at once, but the Democrats led by the present Chairman of the City Committee still clung to their dilatory tactics and defeated the motion by the following vote:

YEAS,—Bryant, Cunningham, Hammond, Litchfield, Moxon, Rinn, Sherman and Warner—8.

NAYS,—Bass, Curtis, Fallon, Federhen, Federhen, Jr., Gray, Little, Newcomb, Powers and Pratt—10.

Finally on Oct. 10, 1892, after months of delay, when the Democrats were sure that the strike would be settled, and the workman would not need the work, the last order was passed.

The above is a complete record of the water fight in the council of '92. Who was to blame? Councilman Powers and his fellow democrats, who cared only for their own selfish ends, and nothing for the city's interest, or Councilman Moxon, who at every stage fought by word, vote and influence for the passage of the order?

Will the voters in the face of these records believe the political lies of today?

Read the files of the LEDGER in Public Library and see if Mr. Moxon did not always vote for the extensions asked for at that time!

He has never opposed the employment of Quincy citizens in our public works. He believes in their employment.

Can a single word be found against him when he advocated or voted otherwise?

Did he not erect the Woodward building by Quincy labor?

Why were Powers and the other Democrats so determined in their opposition to the extension of the water mains during the strike?

Read the labor indorsements of Mr. Moxon? Who better than the men who have for years worked for him know of his record?

The Platform of Candidate Moxon.

An administration of the affairs of the City for the benefit of all its people, and upon purely business principles.

A thorough and strict compliance with the provisions of the City charter, believing that if honestly executed, it will produce good government.

Heads of departments who will conduct the business of the City for the City's good, and who will not use the City's money and exert their official influence to promote the interests of any individual.

Equalization of the City debt in the interest of the taxpayers.

The amount of money to be raised by taxation to be reduced to such a sum as is actually necessary for the legitimate expense of the City government.

Uniform valuation in order that all visible property shall pay its proper share of City expenses.

No borrowing of money for current expenses.

Immediate purification of the Public Water Supply.

Prompt consideration of the sewerage problem.

More efficient street lighting without material increase in cost.

A judicious extension of the fire service, for the better protection of the outlying wards.

All public works to be constructed under the immediate supervision of the City Officials, and at such times and in such manner as will secure the expenditure among the people of the City, of as large a part of all City appropriation as is consistent with good economy, and so far as it can be done without increased expense, to have such work performed at the season of year when employment is most needed by the working people of the City.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W. Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

IS THIS

An Economical And Impartial Administration.

Let me quote a few words from Mayor Hodges inaugural message:

"In spending the city's money, we must bear in mind that the sole desire of our citizens is that they shall have a government so honestly, *impartially*, and *economically*, administered that there will result the greatest good for the greatest number at the *least* expense."

Does the work of the present year bear this out?

Do the citizens believe the giving to Mr. Williams the entire work of city an *impartial* act, permitting the chief engineer of the Fire Department to draw out $1.500 besides his salary?

Was it economy to charge $2617 to the High school building for removing the dirt, when it could have been sold and an income received?

If it was deemed good judgment to dump the mud and rocks on Hancock street, why not charge the street department and give credit to the High school, as taxpayers may know the actual cost, and not juggle the accounts.

The citizens will remember that when the Willard school house was building that much unfavorable criticism was made over the work which was under the charge of Mr. Chubbuck, as inspector, and yet Mayor Hodges appointed him at once Inspector at the High School building and gave him $534.

Every citizen knows that it will cost the city a large amount to rake off the mud from Hancock street another year, and are these methods business-like and economical, and do the citizens want another dose of such methods? I say, No; and shall work for a change back to honest work.

TAXPAYER.

Protest of Taxpayers.

Editors of the Daily Ledger.

As a taxpayer, I have the right to protest against the waste of the city money, or to pay taxes to be used as a campaign fund, to redeem promises just before election.

In Boston and other cities, there is a law prohibiting the opening up of public streets after Nov. 15th, except in case of great necessity, but here in our city at the close of November, we find a large gang of men on one of the public streets working so close together that they are in each other's way. One day this week thirty men were working in a space 15x18, and eight men were around one cart, with nearly one hundred at work, and a similar scene never occurred in our city.

Asking one of the workmen what it all meant, he replied, "Election in a few days, and we have been loafing all the year, but now we are in it."

The residents seem surprised also, as they asked for a sidewalk which ought to have been done out of the tax levy money in the hands of the Commissioner of Public Works.

I would like to see every man at work, but why was not the work given them at the proper time on the Squantum causeway, and not keep back $2,000 to spend here at the last moment.

The workingmen knows the reason, and they detest such actions as do other citizens. The love for the workingman just before election is too sudden to take the place of their honest appeals during the summer and fall for work.

I hope the next City Council will pass a law prohibiting opening up the streets at this season of the year.

HEAVY TAXES.

Stamp of Disapproval.

It would seem as though the method adopted by the present administration in spending money of the citizens on the streets is enough to cause every voter who desires that the city should get an equivalent for its money, to place his influence in favor of Stephen O. Moxon.

The man who buys votes with *his own money* is bad enough, but the administration *who uses the money of the taxpayers of Quincy* to secure its retention in office is *infinitely worse* and should be *emphatically rebuked.*

What is the present exhibition? A large appropriation passed at the very last moment, five or six times as large as was needed, simply in the interest of the present administration.

Men crowded on the street, more than can be worked to advantage at a season when work is all done at a greatly increased cost.

If, as is claimed, this was the action of the Council and not of the executive, why does not the shrewd business qualifications with which the present executive is credited, prompt him to stand firmly for the interest of the city and veto the order?

At a season of the year when every successful business man is bringing his out-of-doors work to the closest possible limit we see this administration manifesting great activity just before election to secure votes for the present incumbent.

The excuse cannot be made with any show of reason that they are hurrying to close up their work, for they ask for more money than they got from the Council to begin *new* work, and they have let money which was appropriated early in the year be unexpended, only to wait the coming of election time to promote a vigorous campaign.

Work which could have been done when the days were long and men could work to advantage, has been neglected until this time of the year when every business man knows labor costs more and cannot give as fair a return as when the season is earlier.

Men who have desired work all through the year, and have been promised work by this administration again and again only to be disappointed, have now been set to work for a few days, and just to secure their good will and possibly their vote at the election. Let us put the stamp of our disapproval on this kind of business in the most emphatic way.

Mr. Moxon is a man, who, if he has anything to do does it with all possible despatch at the time that it should be done, and is not in sympathy with this style of municipal business.

SYLVESTER BROWN.

Many Tributes Paid to the Eminent Townsman and Educator.

The Sunday morning service at the Wollaston Unitarian church, of which the late Sylvester Brown was an active member, was beautified in its simplicity.

The pastor, the Rev. James E. Bagley, omitted the sermon and in its place paid a touching tribute to the deceased's life and character.

At the Friday evening prayer meeting of the Wollaston Congregational society, the Rev. Edward A. Robinson and others spoke on the life and good works of Mr. Brown.

Wollaston Lodge, K. of H., held a special meeting on Saturday evening to take action regarding the funeral services over the remains of Mr. Brown.

Rural Lodge, F. & A. M., and Wollaston Lodge will be represented at the funeral.

The concluding session of the 50th annual meeting of the Massachusetts Teachers' Association was held Saturday morning in the exhibition hall of the English high school.

There was very general regret expressed over the startling death of Sylvester Brown, who was killed Friday afternoon in Wollaston on the tracks of the Old Colony road. He had been chosen by the nominating committee to be one of the vice presidents for the coming year.

After the devotional exercises, conducted by Rev. Edward A. Horton, President Bruce announced the death of Mr. Brown, speaking of his ability and worth, and appointed the following committee to draft suitable resolutions: H. W. Lull of Quincy, G. I. Aldrich of Newton and Charles W. Hill of Boston.

Mr. Lull later reported for the special committee appointed to prepare resolutions on the death of Sylvester Brown. Mr. Lull spoke briefly of Mr. Brown's work as a teacher, in social life, in business, politics and religion. He announced that the funeral would be on Sunday at 2 P. M.

The association adopted at Mr. Lull's suggestion, resolutions expressive of high opinion of Mr. Brown and of deep regret at his sudden death.

A Good Road.

MR. EDITOR: Since 1887, I have travelled over 11,000 miles with my team through the western part of Maine, through the eastern middle and western part of the states of New Hampshire and Vermont, down along Lake Champlain, northern and southern and about Elmira, N. Y., I never have found any road built that stood the hard usage that Washington street has had for three years. Three hundred teams loaded from two to twelve tons each per day, besides the out of town teams, and not a rut to be seen. It was built by W. W. EWELL. I approve of H. H. Faxon's article. P. P. KITTREDGE.

Quincy Point, Dec. 1, 1894.

☞ Diphtheria is a disease as much to be dreaded as small pox. Its contagious character is hardly less plainly evident. All cases should be isolated, and great precautions taken. The disease will, we fear, make sorry work in many places before the winter is over unless the authorities are unusually active and efficient.—Healthy Home.

Every article of food should be covered until it appears on the table. Milk and butter should be kept in air-tight vessels and kept covered. They both take up every odor flying in the air, and are positively harmful to take into the stomach after standing uncovered for an hour or two, for not only odor, but the animalcuæ that fill the air, are attracted to milk and butter. Uncovered jelly is a menance to family health. It is in gelatine jelly that expert bacteriologists imprison germs of disease to watch them propagate. They seem to thrive better on that kind of food than any other, yet in two-thirds of the pantries in the city will be found half-used dishes or glasses of jelly standing uncovered.—*Boston Budget.*

NO-LICENSE RALLIES.

A Grand Meeting Held Sunday Evening in Hancock Hall.

KING, BUTLER AND BREED SPEAK

Seven Other Meetings in Other Parts of the City—Much Enthusiasm.

Those who failed to attend the no-license meeting at Hancock hall Sunday evening missed an intellectual treat. It has often been said that the temperance question has been worn thread bare and that nothing new could be said in its favor yet those who attended Sunday evening's meeting at Hancock hall had the question presented to them in an entirely new light, and in a manner that carried the convictions that the speakers were sincere and knew whereof they spoke.

Mr. Theophilus King presided and he is always entertaining. Everybody likes to listen to him, he is so straight forward in his statements. He always choses something for a topic and on this occasion took the thought "Birthright." He told what it was, what a blessing it could be made, and how by the use of strong drink it could be made useless. It was something to be cherished and guarded. It was our birthright that the streets of Quincy be kept clean from the saloon as they have been for thirteen years, and we will do it again, Let us see to it that these pitfalls are not on the right hand or on the left hand and be true to our birthright.

Rev. Ellery C. Butler made his first appearance outside of the pulpit in this city at this meeting and the manner in which he showed the evils resulting to young men from the use of strong drink before his hearers was strong and right to the point.

Throughout the whole of his remarks there was a vein of humor behind which, and through which the bad results from drink were apparent. He said he loved young men and liked to be in their company. Nothing was so good for them as athletics yet when an athlete used strong drink his powers of endurance were gone. These were facts which no one could dispute and he cited several instances in support of them.

Rev. Walter Russell Breed was the last speaker and like those that preceded him he was earnest in his appeal for no-license. The question is how to meet it. We are to settle the question next Tuesday. It is not the question of how Boston is to deal with the question or how the prohibitory law is enforced in Maine, but how shall we carry on the warfare in our own city. A license man wants the saloon. He would change our clean streets, and the burden of proof is on his side. He should give us some good reason, but they have not done so. Cities like Quincy flourish without license. He pitied the poor man who was a slave to alcohol. To increase the license vote is to have bad effect upon other places.

The meeting opened with singing by a large chorus accompanied by an orchestra and prayer by Mr. King, and between the remarks of the speakers selections were also given by the chorus. The meeting which was the most successful held in the centre for a long time closed with the singing of America by the audience.

Notwithstanding the severe storm and bad walking the Wollaston Congregational church was crowded on Sunday evening. The union temperance meeting was gracefully presided over by the Rev. Charles W. Wilder, pastor of the M. E. society. The principal speakers was Mr. West, a brother of Mr. W. H. West, the superintendent of the Union Rescue Mission of Boston, and Rev. J. W. Coon, the assistant superintendent. Addresses were also made by several reformed drunkards brought from the mission.

Councilman J. Shackley presided at the no-license campaign meeting in West Quincy, Sunday evening. Speeches were made by Edward Southworth, Esq., of Quincy, and O. C. Colton, secretary of the Quincy, Y. M. C. A. The singing was by a delegation from the Methodist Sunday School under charge of Mr. Charles Goucher.

Mayor Hodges has sent around a *private* circular that he is not an A. P. A. Why is he afraid to come in public? A pretty position for the chief magistrate of any city.—Adv.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

RECEPTION TO CANDIDATE.

The Voters of Ward Three Meet Mr. Moxon.

The reception tendered to Stephen O. Moxon, Republican candidate for mayor, by the citizens of Ward three, Saturday evening at Doble's hall, proved to be an enjoyable occasion, and many of the voters of that ward who had never met Mr. Moxon had an opportunity to be presented.

Everybody was afforded that pleasure, and the hearty handshake given by Mr. Moxon must have, and certainly did, if appearances count for anything, impress all with his earnestness and with lack of anything pompous.

That the gathering will bring forth good results at Tuesday's election there can be no doubt, as Mr. Moxon had the opportunity to place himself right before the people whose suffrages he asks, and one little incident that happened showed those present that he was a thorough business man.

It was as the meeting was about to adjourn for refreshments when a gentleman arose in the audience and requested the privilege of asking a question which was granted. The question was if elected would Mr. Moxon approve of the bill of Mr. McAnarney against the Woodward Institute, and the second was how he stood on the contract labor question.

Mr. Moxon arose immediately and in answering said:

He desired to state that he stood before them unpledged and he intended to remain so. In regard to the bill of Mr. McAnarney that was a matter that did not come before the City Council and the only thing he knew about it was what he had seen in the papers.

The best answer he could give on contract labor on public works was to direct them to his own business. He was in favor of doing away with sub contracts and he believed the public building work could be done in the same way and it was his purpose if elected to conduct the affairs of the city on business principles.

It was useless to elect a Mayor and neglect to give him a backing in the Council. These remarks called forth applause and exclamations of good.

Ex-Councilman Grindell called the meeting to order and at that time there was present as dignitaries, Councilmen Bass, Bigelow, Clark, Johnson, Shackley and Anderson, ex-Mayor Fairbanks, ex-Councilmen Thompson and Pratt and candidates Falconer and Sears.

Ex-Councilman Thompson was introduced as chairman of the meeting, and he introduced as the first speaker, Stephen O. Moxon, Republican candidate for mayor.

Mr. Moxon said in part, "A little more than six years ago Quincy was under a town form of government. The affairs were in the hands of Selectmen. Their control was not always to Quincy's advantage and people began to advocate a change and a city form of government was made. A change was soon perceptible. Streets were improved, better buildings were erected and Quincy began to grow, and among other things it became the owner of its own Water works. When we became a city we were free from debt but we were poor in streets and buildings, we were behind other places outside of Boston. We have now had another year of town government although we have had a city charter, which has been thrown aside in many cases and under this method we cannot progress as we should. The executive should be called upon to follow the rules laid down in the city charter. He could cite instances where appropriations made for one purpose were used for another. This is not right. We should go forward and not backward. Among the changes was the High school, where there had been a clear departure from the plan called for by the Council elected by the people. Under a town form of government this was permissable but not under a city form of government.

There were many things that Quincy needed and the one thing was the purifying of our Water supply which should be given immediate and prompt attention. It will take time before the problem is solved and we run a great risk in putting off too long the consideration of the Sewerage question. The city will also have to continue to build schoolhouses, there was no escape from it. If we do our duty by our children now, when the time comes for them to take our places they will be the more fit to do so. He also believed the city should own its own lighting plant.

Mr. Moxon's remarks were received with approval and applause.

Other brief but forcible remarks were made by Councilman Bass, ex-Mayor Fairbanks, Councilmen Bigelow, Anderson, Clark, Shackley and Johnson, ex-Councilman Grindell and Candidate Falconer.

All of these gentlemen spoke in glowing terms of Mr. Moxon and pointed out where the present administration had failed to do the will of the people.

An adjournment was then made and refreshments were served and the reception closed with three cheers for Mr. Moxon and all of the Republican candidates.

ADVERTISE IN THE LEDGER.

On Saturday, Dec. 1, 1894,

WE SHALL INAUGURATE THE

GRANDEST SOUVENIR SALE

Ever Heard of.

WE MUST HAVE ROOM FOR

Christmas Goods.

OUR COUNTERS ARE LOADED WITH

BARGAINS IN STAPLE MERCHANDISE.

IN CONNECTION WITH THIS SALE WE MAKE A

SPECIAL OFFER.

This Will Tell You All About It.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

CURRENCY QUESTION

The Most Important Topic In the Comptroller's Annual Report.

AMENDMENT OF THE BANK ACT

Will Be Necessary to Relieve the Treasury of Burdens.

WASHINGTON, Dec. 3.—The report of James H. Eckels, comptroller of the currency, submitted to congress today, gives full information in regard to the organization, supervision and liquidation of the national banks for the year ending Oct. 31, 1894.

It shows that during this period but 50 banks were organized, with a capital stock of $5,285,000, the smallest number chartered, as well as the minimum amount of capital in any one year since 1879. On Oct. 31, 1894, the total number of national banks in operation was 3756, with an authorized capital stock of $672,671,335, represented by 7,955,076 shares of stock owned by 287,842 shareholders.

On Oct. 2, 1894, the date of their last report of condition, the total resources of the banks were $3,473,922,055, of which their loans and discounts amounted to $2,007,122,191, and money of all kinds in bank $429,428,192. Of their liabilities $1,728,418,819 represented individual deposits, and $354,121,082 surplus and net undivided profits, and $172,331,978 circulating notes outstanding. The total circulation of national banks on Oct. 31, 1894, amounted to $207,472,608, a net decrease during the year of $1,741,563, and a gross decrease of $8,614,864 in circulation secured by bonds.

During the year, 79 banks, with an aggregate capital of $10,475,000, passed out of the system by voluntary liquidation; 21, including two which failed in 1893, with a capital stock of $2,770,000, became insolvent and were placed in charge of receivers.

An Important Topic.

The feature of the comptroller's report is his discussion of the currency question and the defects which are said to exist in the note-issuing powers vested in national banks. On this subject he says: "No section of the law should be distributed which cannot be materially improved upon, and no amendment engrafted unless such amendment will work out better results than flow from the existing order of things. The present law, it must be conceded, has been successful in every material feature excepting in the matter of bank note issues, and here the failure has been but a partial one.

"It is probable that there could be no better plan for simply insuring the note holder against loss than the present requirement of a deposit of bonds to secure a bank's circulation, but it is equally certain, however, that a method could be devised, not less safe in this respect, and in addition thereto possessing that which is essential and is now wholly wanting—elasticity.

"The complaint, therefore, made against the present system is that, lacking in elasticity of issue, it fails to meet as fully as it ought the varying wants of the country's trade and commerce. This defect must attach to every scheme for a currency issued by the banks against a deposit of bonds, the market value of which fluctuates, while the percentage of issue less than the value of the bonds granted the banks remains unchanged.

"It is respectfully suggested that not only as good, but better results would be attained if the present bank act were amended by repealing the provision thereof requiring each bank, as a prerequisite to entering the system and issuing bank note currency, to deposit government bonds. In lieu of such provision should be substituted one permitting the banks to issue circulating notes against their assets to an amount equal to at least 50 per cent of their unimpaired capital."

The comptroller follows this suggestion with the further one for the maintenance of a safety fund to be provided by graduated taxation upon the outstanding circulation of the banks until the same shall be equal to not less than 5 per cent. of the total of such outstanding circulation, this fund to be held by the government as an agent only and for the purpose of immediately redeeming the notes of insolvent banks. It is immediately to be replenished out of the assets of the banks on which it shall have a first and paramount lien, and from assessment, to the extent of the double liability on the shareholders.

The comptroller then cites such proof and gives such statistics as seem to him to make the plan suggested a perfectly safe one to enter upon. He says: "The changes thus outlined will, upon investigation, it is believed, prove to be safe in affording complete security to the note holder and give to the business interests of the country a bank note issue responsive to their needs.

"The profit upon the issue of circulation to the banks by such change would be so augmented that it is giving to them a franchise, for which it is suggested they should be called upon to make proper returns to the general government. This return should not, however, be of such a character as to defeat the ends sought in the privilege given." Mr. Eckels contends that ought to be wholly free from the direct issuing and redeeming of notes to pass as money among the people.

The legal tender issues, the comptroller thinks, ought to be redeemed and cancelled, and the government thus be enabled to retire from the banking business, a business for which it is so poorly equipped. "In the light of the present condition of the government's finances," the comptroller continues, "that which ought to have been done when there was a surplus in the treasury cannot now be undertaken, and the same conditions must continue to weaken the country's credit and plague the lines of business, unless a means is devised for removing these issues from the channel of current redemption until such time as the government finds itself in a position to do that which at first was the intent of all—gradually redeem and cancel them.

"It is suggested that as a necessary element to the securing of proper elasticity of issue in our bank note currency, section 9, act July 12, 1892, regulating the retirement and issuing of circulation to banks within a fixed portion of time, should be repealed, and also that an amendment should be made to the law necessitating the banks keeping in the office of the comptroller of the currency a sufficient amount of bank notes as will enable them to secure circulation at once, instead of after a period of delay, frequently of sufficient duration as to make the issue unavailable to relieve the pressure existing at the time of ordering the same.

"Suggestions have been received from many eminent sources that the whole question of a banking and currency system ought to be referred by congress to a commission, to be created by law, appointed by the president and clothed with proper authority.

"A commission, non-partisan in its character, composed of men of eminent abilities, could unquestionably devise a currency system sound in every part and one which would commend itself to every interest of the country. It could largely take the question out of politics and have it considered simply in its business aspects, and upon merit alone; but if the present congress is to enact a law upon the subject, the appointment of a commission could avail nothing. If, however, nothing more definite can be accomplished, the question of the creation of such commission ought to be considered and acted upon."

Oates and Kolb Each Took the Oath of Office as Governor of Alabama.

MONTGOMERY, Ala., Dec. 3.—Captain Reuben Kolb took the oath of office as governor at a lawyer's down town, and afterward walked to the Capitol. A crowd of a few score farmers followed him. He was admitted to the grounds like any citizen. Kolb made no effort to enter the building. A squad of police guarded the steps, and a company of cavalry occupied the grounds.

COLONEL OATES.

No excitement prevailed, and no disturbance occurred. Kolb subsequently made a speech, but was not permitted to enter the Capitol building. Everything was quiet. There were no unusual crowds on the street, and no bands of armed men.

A number of military companies arrived in the morning to take part in the inauguration. The inauguration procession, headed by Governor Jones and Governor-Elect Oates, started at 11:30, and Governor Oates took the oath at noon at the Capitol, in the presence of the legislature.

Kolb's address was delivered from the top of a wagon drawn up near the sidewalk opposite the Capitol grounds, and was listened to by not over 200 people. Kolb sent a message to the governor's office to learn what would occur if he made a speech inside the capitol grounds. He was informed by the governor's private secretary that he would be arrested and put in the city jail. Kolb then came himself to Governor Jones and received the same information. At the close of his speech he disappeared.

THE PRESENT SESSION

Promises to Be Devoid of Legislation of National Importance.

WORK ON APPROPRIATION BILLS

Likely to Have Precedence Over All Other Matters.

WASHINGTON, Dec. 3.—The Fifty-third congress reassembled today. The congressmen and senators are not arriving with the rush of last year. It is hardly possible that the defeated congressmen, of whom there are a great many, will be in any great hurry to get back, as this is the last session for them. It is believed that quite a number of the defeated members will not make their appearance at all this session unless they have some important local interest which they left undone when they returned to their homes last fall to fix up their political fences.

Aside from the passage of the appropriation bills there will be little important legislation enacted at the reassembling of this short session.

The first official sign of the forthcoming session was the calling of several subcommittees of the house committee on appropriations last week. Chairman Sayers of the house appropriation committee has called a meeting of the committee for tomorrow.

The progress already made by sub-committees has been sufficient to indicate that the pension and fortifications appropriation bills will be ready for submission to the full committee by that time, and it will be their aim to have the house begin its work on the appropriations virtually with the beginning of the session, if so disposed. The remaining bills are expected to be ready to report to the house immediately when it reconvenes after the holidays.

Appropriation Figures.

It is the general opinion that the appropriations to be made at the approaching session will amount in the aggregate to about the same amount appropriated for the present year, in round numbers $492,000,000, and that while there will be no river and harbor bill at the coming session, the necessary expenditures for the carrying on of contracts already made will help to keep the total up to about as high as if there were a separate bill.

The new ships, which will be nearing completion, will also be among the items which will increase the totals, as will the provision for putting the income tax law into operation. On the other hand, smaller payments on account of Indian treaties will probably be necessary, and no appropriation will be required for sugar bounties.

The proposed new treaty between Japan and the United States, which has been signed by Secretary Gresham and Minister Kurino of Japan, will be sent to the senate for ratification during this session.

No Regular Program.

Speaker Crisp is quoted as saying: "I don't know what can be done in the way of legislation at this session, but I fear not as much as we should like. It is very important that there should be some legislation on finance. I am not prepared to predict what, if anything, may be done at this session, but it must be apparent to everyone that the present situation should not be permitted to remain long.

"Whatever suggestions the administration has to make will be awaited with great interest. Whether or not Mr. Carlisle will present a proposition which will meet with general approval, no one can say until the message comes in.

"A financial system which puts it in the power of any one to deplete the treasury of gold and to compel the government to increase its interest bearing obligations by the issue of bonds is vicious, and should be corrected as speedily as possible."

"What other measures besides the appropriation bills do you think will probably be acted on this session?"

"It seems to me that there will probably be an effort made to do something with the Nicaragua canal. I am not familiar with all the details of the bill reported by the committee, but think that that or some other measure dealing with this subject is very apt to be acted on.

"Then there are the bankruptcy bill and the anti-option bill, which the senate should dispose of before the close of the session. A number of things may be attempted, but there is no program arranged, and everything depends upon what the general feeling is when we all get together."

Not Sent by Li.

YOKOHAMA, Dec. 3.—Envoy Detring, who visited Japan for the purpose of negotiating peace, and whose mission proved a failure, the prime minister declining to meet him, has written a private letter to the prime minister denying that he was sent to Japan by Li Hung Chang.

Treaty Should Be Fully Observed.

ATHENS, Dec. 3.—The Armenian committee here has presented to the ministers of the signatory powers of the Berlin treaty a petition recounting the Sassoun outrages, and imploring the powers refused to not to allow article 61 of the Berlin treaty to remain ineffective.

Blame Laid on Firebugs.

BIRMINGHAM, Ala., Dec. 3.—The Charity hospital, situated just outside the city limits, was destroyed by fire Saturday night. Loss, $50,000. No lives were lost. Firebugs are believed to be the cause of the conflagration.

Oil Stove Exploded.

BOSTON, Dec. 3.—By the explosion of an oil stove at 19 North square, Lugi Roma and his daughter Louisa, aged 8, were burned to death. Other occupants of the building were got safely out by the aid of fire escapes.

Took Her Own Life.

ELLSWORTH, Me., Dec. 3.—Mrs. Abby Hillgrove, aged 53, committed suicide by hanging herself from a bedpost with a pillow case. She was insane.

Disastrous Explosion of Forcite.

BRUSSELS, Dec. 3.—Three persons were killed and 20 injured by an explosion in a forcite factory at Canillile. The building was blown to atoms.

THE WEATHER INDICATIONS.

Forecast for Maine, New Hampshire and Vermont: Snow; colder; strong northwest winds.

For Massachusetts, Rhode Island and Connecticut: Rain or snow; colder; northwest gales on the coast.

THE MESSAGE.

To the Congress of the United States:

The assemblage within the nation's legislative halls of those charged with the duty of making laws for the benefit of a generous and free people, impressively suggests the exacting obligation and inexorable responsibility involved in their task. At the threshold of such labor now to be undertaken by the congress of the United States, and in the discharge of an executive duty enjoined by the constitution, I submit this communication, containing a brief statement of the condition of our national affairs, and recommending such legislation as seems to be necessary and expedient.

The history of our recent dealings with other nations, and our peaceful relations with them at this time, additionally demonstrate the advantage of consistently adhering to a firm, but just, foreign policy, free from envious or ambitious national schemes and characterized by entire honesty and sincerity.

Dealings With Belgium.

During the past year, pursuant to a law of congress, commissioners were appointed to the Antwerp industrial exposition. Though the participation of American exhibitors fell far short of completely illustrating our national ingenuity and industrial achievements yet it was quite creditable in view of the brief time allowed for preparation.

I have endeavored to impress upon the Belgian government the needlessness and positive harmfulness of its restrictions upon the importation of certain of our food products, and have strongly urged that the rigid supervision and inspection under our laws are amply sufficient to prevent the exportation from this country of diseased cattle and unwholesome meat.

Neutrality In Brazilian War.

The termination of the civil war in Brazil has been followed by the general prevalence of peace and order. It appearing at an early stage of the insurrection that its course would call for unusual watchfulness on the part of this government, our naval force in the harbor of Rio de Janeiro was strengthened.

Precaution tended to restrict the issue to a single trial of strength between the Brazilian government and the insurgents and to adjust complications which at times seemed imminent. Our firm attitude of neutrality was maintained to the end. The insurgents received no encouragement of eventual asylum from our commanders, and such opposition as they encountered was for the protection of our commerce and was clearly justified by public law.

A serious tension of relations having arisen at the close of the war with Brazil and Portugal by reason of the escape of the insurgent Admiral Da Gama and his followers, the friendly offices of our representatives to those countries were exerted for the protection of the subjects of either, within the territory of the other. Although the government of Brazil was duly notified that the commercial arrangement existing between the United States and that country, based on the third section of the tariff act of 1890 was abrogated on Aug. 28, 1894, by the taking effect of the tariff law now in force, that government subsequently notified us of its intention to terminate such arrangement on Jan. 1, 1895, in the exercise of the right reserved in the agreement between the two countries. I invite attention to the correspondence between the secretary of state and the Brazilian minister on this subject.

Claims Against Chili.

The commission organized under the convention which we had entered into with Chili, for the settlement of the outstanding claim of one government against the other, adjourned at the end of the period stipulated for its continuance, leaving undetermined a number of American cases which had been duly presented. These claims are not barred, and negotiations are in progress for their submission to a new tribunal.

The Eastern War.

On the 17th of March last, a new treaty with China in further regulation of emigration was signed, and on Aug. 13 it received the sanction of the senate.

Ratification on the part of China and formal exchange are awaited to give effect to this mutually beneficial convention.

A gratifying recognition of the uniform impartiality of this country toward all foreign states was manifested by the coincident request of the Chinese and Japanese governments, that the agents of the United States should within proper limits, afford protection to the subjects of the other during the suspension of diplomatic relations, due to a state of war.

This delicate office was accepted, and a misapprehension, which gave rise to the belief that on affording this kindly unofficial protection our agents would exercise the same authority which the withdrawn agents of the belligerent had exercised, was promptly corrected. Although the war between China and Japan endangers no policy of the United States, it deserves our gravest consideration by reason of its disturbance of our growing commercial interests in the two countries, and the increased dangers which may result to our citizens domiciled or sojourning in the interior of China.

Acting under a stipulation in a treaty with Corea, the first concluded with a Western power, I felt constrained at the beginning of the controversy to

Tender Our Good Offices

to induce an amicable arrangement of the initial difficulty growing out of the Japanese demands for administrative reforms in Corea; but the unhappy precipitation of actual hostilities defeated this kindly purpose.

Deploring the destructive war between the two most powerful of the Eastern nations, and anxious that our commercial interests in those countries may be preserved and that the safety of our citizens there shall not be jeopardized, I would not hesitate to lend any intimation that our friendly aid for the honorable termination of hostilities would be acceptable to both belligerents.

A convention has been finally concluded for the settlement by arbitration of the prolonged dispute with Ecuador, growing out of the proceedings against Emilio Antos, a naturalized citizen of the United States.

Friendly With France.

Our relations with the republic of France continue to be such as should exist between nations so long bound together by friendly sympathy and similarity in their form of government. The recent cruel assassination of the president of this sister republic called forth such universal expressions of sorrow and condolence from our people and government as to leave no doubt of the depth and sincerity of our attachment.

The Cattle Embargo.

Acting upon the reported discovery of Texas fever in cargoes of American cattle, the German prohibition against importations of live stock and fresh meats from this country has been revived. It is hoped that Germany will soon become convinced that the inhibition is needless, as it is harmful to mutual interests. The German government has protested against that provision of the customs tariff act which imposes a discriminating duty of one-tenth of one cent a pound on sugars coming from countries paying an export bounty thereon, claiming that the exaction of such duty is in contravention of articles 5 and 9 of the treaty of 1828 with Prussia. In the interests of the commerce of both countries and to avoid even the accusation of treaty violation, I recommend the repeal of so much of the statute as imposes that duty.

Protection of Seals.

Early in the present year an agreement was reached with Great Britain concerning instructions to be given to the naval commanders of the two governments in Behring Sea and the contiguous North Pacific ocean for their guidance in the protection of seal life in the waters mentioned. An understanding has also been reached for the payment by the United States of $425,000, in full satisfaction of all claims which may be made by Great Britain for damages growing out of the controversy as to fur seals in Behring Sea, or the seizure of British vessels engaged in taking seal in those waters. The award and findings of the Paris tribunal to a great extent determined the facts and principles upon which these claims should be adjusted. I am convinced that a settlement upon the terms mentioned would be an equitable and advantageous one, and I recommend that provision be made for the prompt payment of the stated sum. Thus far only France and Portugal have signified their willingness to adhere to the regulations established under the award of the Paris tribunal of arbitration.

The Boundary of British Guiana

still remains in dispute between Great Britain and Venezuela. Believing that its early settlement, on some just basis alike honorable to both parties, is in the line of our established policy to remove from this hemisphere all causes of difference with powers beyond the sea, I shall renew the efforts heretofore made to bring about a restoration of diplomatic relations between the disputants and to induce a reference to arbitration, a resort which Great Britain so conspicuously favors in principle and respects in practice, and which is earnestly sought by her weaker adversary.

About Hawaiia.

Since communicating the correspondence in regard to Hawaii, and the action taken by the senate and house of representatives, the organization of a government in place of the provisional arrangement which followed the deposition of the queen has been announced, with evidence of its effective operation. The recognition usual in such cases has been accorded the new government.

Convention Should Be Revised.

Under our present treaties of extradition with Italy, miscarriages of justice have occurred, owing to the refusal of that government to surrender its own subjects. Thus far efforts to negotiate an amended convention, our obviating this difficulty, have been unavailing.

Progressive Japan.

Apart from the war in which the island empire is engaged, Japan attracts increasing attention in this country by her evident desire to cultivate more liberal intercourse with us, and to seek our kindly aid in furtherance of her laudable desire for complete autonomy in her domestic affairs and full equality in the family of nations. The Japanese empire of today is no longer the Japan of the past, and our relations with this progressive nation should not be less broad and liberal than those with other powers.

Our Mexican Cousins.

Good will, fostered by many interests in common, has marked our relations with our nearest southern neighbor. Peace being restored along her northern frontier, Mexico has asked for the punishment of the late disturbers of her tranquility. There ought to be a new treaty of commerce and navigation with that country to take the place of the one which terminated 13 years ago. The friendliness of the intercourse between the two countries is attested by the fact that during this long period the commerce of each has steadily increased under the rule of mutual consideration, being neither stimulated by conventional arrangements nor retarded by jealous rivalries or selfish distrust.

The Trouble at Bluefields.

Prominent among the questions of the year was the Bluefields incident, in what is known as the Mosquito Indian strip, bordering on the Atlantic ocean and within the jurisdiction of Nicaragua. By the treaty of 1860, between Great Britain and Nicaragua, the former government expressly recognized the sovereignty of the latter over the strip, and a limited form of self-government was guaranteed to the Mosquito Indians, to be exercised according to their customs, for themselves and other dwellers within its limits.

For some months one, and during part of the time, two of our naval ships had been stationed at Bluefields for the protection of all of the legitimate interests of our citizens. In September last, the government at Managua expelled from its territory 12 or more foreigners, including two Americans, for alleged participation in the seditious or revolutionary movements against the republic at Bluefields already mentioned; but through the earnest remonstrance of this government, the two Americans have been permitted to return to the peaceful management of their business. Our naval commanders at the scene of these disturbances, by their constant exhibition of firmness and good judgment, contributed largely to the prevention of more serious consequences and to the restoration of peace and order.

I regret that in the midst of these occurences there happened a most grave and irritating failure of Nicaraguan justice. An American citizen named Wilson, residing at Rama, in the Mosquito territory, was murdered by one Arguello, the acting governor of the town. After some delay the murderer was arrested, but afterward escaped, and notwithstanding our repeated demands, it is claimed that his recapture has been impossible by reason of his flight beyond Nicaraguan jurisdiction.

The Nicaraguan authorities, having given notice of forfeiture of their concession to the canal company on grounds purely technical and not embraced in the contract, have receded from that position.

Leniency Toward Peru.

Peru, I regret to say, shows symptoms of disturbance, due probably to the slowness of her recuperation from the distress and of the war of 1881. Weakened in resources, her difficulties in facing international obligations invite our kindly sympathy and justisy our forbearance in pressing long pending claims. I have felt constrained to testify this sympathy in connection with certain demands urgently preferred by other powers.

Relations With Russia.

The recent death of the Czar of Russia called forth appropriate expressions of sorrow and sympathy on the part of our government with his bereaved family and the Russian people. The sealing interests of Russia in Behring sea are second only to our own. A modus vivendi has therefore been concluded with the imperial government restrictive of poaching on the Russian rookeries and of sealing in waters which were not comprehended in the protected area defined in the Paris award. Occasion has been found to urge upon the Russian government equality of treatment for our great life insurance companies whose operations have been extended throughout Europe.

The Salvadorean Refugees.

The government of Salvador, having been overthrown by an abrupt popular outbreak, certain of its military and civil officers sought refuge on board the U. S. S. Bennington, then lying in a Salvadorean port. Although the practice of asylum is not favored by this government, yet solely from considerations of humanity, they were afforded shelter by our naval commander, and when afterward demanded under our treaty of extradition with Salvador for trial on charges of murder, arson and robbery, I directed that such of them as had not voluntarily left the ship be conveyed to one of our nearest ports, where a hearing should be had before a judicial officer in compliance with the terms of the treaty.

On their arrival at San Francisco such a proceeding was promptly instituted before the United States district judge, who held that the acts constituting the alleged offenses were political, and discharged all the accused except one Cienfuegos, who was held for an attempt to murder. Thereupon I was constrained to direct his release, for the reason that an attempt to murder was not one of the crimes charged against him, and upon which his surrender to the Salvadorean authorities had been demanded.

Spanish Injustice.

Unreasonable and unjust fines imposed by Spain on the vessels and commerce of the United States have demanded from time to time during the last 20 years earnest remonstrance on the part of our government. In the immediate past, exorbitant penalties have been imposed upon our vessels and goods by customs authorities of Cuba and Porto Rico for clerical errors of the most trivial character in the manifests or bills of lading.

In some cases fines amounting to thousands of dollars have been levied upon cargoes or the carrying vessels, when the goods in question were entitled to free entry. Fines have been exacted even when the error had been detected, and the Spanish authorities notified before the arrival of the goods in port.

This conduct is in strange contrast with the considerate and liberal treatment extended to Spanish vessels and cargoes in our ports in

THE ISSUES OF THE CAMPAIGN

And Have They Been Met?

The Democrats have not been able to find scarcely anything against Mr. Moxon except his taking the $600 which the Council voted he was entitled to, and which the City Solicitor for the city and Charles F. Adams, 2d, (whose honor is unimpeachable) who represents the best element of the Democratic party, both placed themselves on record that he was legally entitled to. With this assurance what could any man do? He had certainly *earned* the money, the only question was as to the legal objection, and that was conclusively settled by the opinion of the City Solicitor.

Now the strength of the Democratic argument is this: Here is a man who has by his own labor justly earned some recompense. When it is voted that he be paid there is a murmur that there is a technical legal objection. Mr. Moxon consults the best counsel he can and is assured that he is entitled to his pay; with this assurance for himself and the opinion of the counsel for the city that he is not violating his trust to the city, he then accepts the payment.

Any fair minded man will at once say that Mr. Moxon acted honorably in this matter. And if every public official would thus consult the city authorities in their transactions with the city the people will be satisfied. Will any candid citizen say that the course taken by Mr. Moxon was such as would justify his being branded as a public swindler? And yet these are the grounds upon which the Democratic leaders base their charges against the Republican candidate.

Another issue is sought to be made i. e. the legal few in the Woodward Will Case. It would seem that the Democratic leaders would make Mr. Moxon responsible for action of the counsel in this case. This issue no citizen should entertain for the public know only one side of the matter, i. e. they have only the facts as laid down by the same parties who characterize Mr. Moxon a swindler for what he did in the above case. Accusations were made in the daily papers and signed ** should have signed his name * when he made a personal attack on any citizen. Mr. McAnarney took the only proper view as these charges by refusing to recognize them until he who sought to besmirch the character of another should have manhood enough to show that he was not ashamed to sign his own name to what he wished the public to believe was true.

Just what work was done in the above case we do not know except the amount involed was $300,000, and that the lawyers J. E. Cotter, Judge Oscar O. Marden, Chas. F. Jenney (lecturer of Mass. Practice at B. U. L. S.) and J. W. McAnarney were counsel for the city. We know that Mr. McAnarney was cautioned to use every precaution and to spare no expense but to see that this large sum remained in Quincy. This he undoubtedly did, and now that the fund is ours beyond all doubt, it ill becomes the City of Quincy to cast reflection upon the above-named gentlemen for the purpose of creating a campaign issue. While we may now feel perfectly safe that we would not lose the fund, yet no counsel of high standing would think for a moment of appearing in a case where so large a sum as $300,000 was involved without the most exhaustive preparation in every detail. And the fact that ex-Congressman G. F. Williams and Anderson were to contest the case insured a bitter fight for the city.

When ex-Congressman Williams appeared before the Supreme Court for the allowance of fees in the case, he stated to the court that his charge to his clients (Dartmouth College) would be $5,000. This statement is now on file in the Supreme Court. He also said the $2,400 asked from the Woodward fund was as a contribution toward this amount. But the Supreme Court held that the fund should only contribute the nominal charges, i. e., the cost of manuscript, type-writing, etc., $400.

From the above it will be seen that $400 is not the fee of Congressman Williams and Anderson, but that their fee was $5,000. This can be verified from the records in the Supreme Court. It might here be stated that the present administration has not even seen fit to pay this $400. They want another law suit on that. The above are the general facts and let every citizen judge for himself if they warrant the personal attacks and insinuations which have been made in the public press. These are the two most prominent issues raised by the Democrats, and if this is all that can be found against Mr. Moxon, the Republicans have presented a pretty clean candidate.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Dr. Roderick McLellan is reported sick with typhoid fever.

A special meeting of the School Committee will be held Tuesday evening.

Regular meeting of the City Council tonight.

The ladies of the M. E. church, Atlantic hold their annual fair Dec. 4 and 5.

Owners of trotters are enjoying their first sleigh ride today. A few ventured out Sunday.

Rev. Mr. Deetz returned Saturday from Ohio.

Mrs. Ellen Slaven of Madison street is moving into her new house on Charles street, on the Atlantic Land Co.'s property.

Miss Floretta Vining has been spending two weeks in New York City. She went on to attend a large reception.

Mr. Cunningham, Inspector of the Board of Health, has been quite sick with a severe cold, and barely escaped having the pneumonia.

Don't forget to mark a cross against the answer "No" to the license question on the ballot Tuesday. It is essential that Quincy's no-license majority shall be maintained, or increased if possible.

Dr. J. H. Gilbert leaves tonight for Florida. He will stop over a few days in Baltimore where he will be joined by Mr. John C. Randall of this city. We hope the doctor will return much improved in health.

No new cases of diphtheria have been reported to the Board of Health since Saturday morning and the indications are that the climax has been reached. But one death has been reported from the disease, that of a child of Mr. W. E. Brown.

The name of Dr. Wellington Record will presented to the voters of Ward Five on Tuesday for member of the School Committee for three years, to fill the vacancy caused by Mr. Brown's death. Dr. Record has the endorsement of the members of the Ward Five Republican committee and also the Democratic Ward committee. He is eminentlo qualified for the position, having been master of the Weymouth High school for a number of years.

At a special meeting of Wollaston Lodge, K. of H. held on Saturday evening resolutions were adopted asking the railroad commissioners to request the N. Y., N. H. & H. R. R. Co. to place electric gongs on the Wollaston station to warn people of the approach of trains and to also appoint an efficient basgage-master who shall also act as a guard to warn people of approaching trains, whether local, express or freight. The passimonius policy adopted by the road in its management of the Wollaston station was unsparingly criticised it having always employed inexperienced boys as baggage-masters.

IN THE CHURCHES.

On Friday evening of last week, Rev. W. N. Tenney of Swampscott, Mass., gave an interesting Gospel Temperance talk at the Methodist vestry, West Quincy. The talk was illustrated by pictures and blackboard designs.

At the Methodist church, West Quincy, Sunday morning, after his usual short sermon to boys and girls, the pastor, Rev. E. W. Virgin spoke to his congregation on Thanksgiving; the celebration of the Lord's supper followed the sermon.

At the Memorial Congregational church, Atlantic the sermon in the morning was by Rev. William I Cole of the Andover House University settlement, Boston.

Rev. Mr. Williams preached at the Atlantic M. E. Church, Sunday morning.

MAYORALTY VOTES OF THE PAST.

Quincy has been a city nearly six years, and the mayoralty vote at the six elections as given below, will afford an interesting study:

AT THE POLLS TODAY.

Neither Party Expects to Elect Their Candidate by 100 Majority.

An Increase in Republican Members of the Next Council Predicted.

The weather today is in marked contrast with a year ago and there is no reason why an extra large vote should not be cast. In 1892 the total vote was 3,164 and last year there were cast 3,195. The total this year should be upwards of 3,200.

How will they be divided between the Mayoralty candidates?

Chairman Fairbanks of the Republican city committee counts on about 75 plurality for Candidate Moxon.

Democratic politicians count on even less for the re-election of Mayor Hodges.

It thus appears close, but it will be a day of surprises, which a count of the votes will alone disclose.

ONE O'CLOCK VOTE OF CITY.

The vote at one o'clock today is compared below by wards with the vote at the same hour in the past three years:

	This Year.	In 1893.	In 1892.	In 1891.
Ward One,	435	460	461	402

Ward 5,	63	151	236	266	301	319
Ward 6,	86	155	200	000	000	000

The vote in this ward at 1 o'clock was 40 larger than at the State election.

Ward One.

The same election officers who served at the State election are on duty in this ward and the voting has been brisk and steady all day. A great effort is being made by the Democrats to elect their solitary candidate for the Council, and it has caused some uneasiness among the Republican candidates. As many Democrats have voted however, for two and three the success of the three Republicans, Bass, Spear and Sears is assured. The vote by hours appears in this column.

Ward Two.

The election officers in Ward Two are much more pleasantly situated today than they were at the State election, for now there are no large cracks to let in the cold air and the building is nice and warm, being heated by steam.

That this ward will poll a large vote is very evident, for during the early morning hours many who have gone to Boston early and neglected to vote, did today exercise their right before going to business, which means an increased vote. Just who will carry the ward is doubtful, although Councilman C. H. Johnson claims Moxon will carry the ward.

The election officers on duty are: Warden, Albert Keating; Clerk, Michael T. Sullivan; Inspectors, John S. Gay, William H. Sampson, Jr., James H. Webb and John Griffin.

Police, E. J. Sandberg and Calvin. Dyer.

Ward Three.

Ward Three is a doubtful ward, of that there is no doubt, and who will get the majority will not be known until the vote is counted tonight. There are several elements at work in this ward which may throw the result either way. The elements at work are, those who desire to oust Mr. Lowe and Mr. Williams, but perhaps the greatest element is the McNary and McEttrick fight, which according to all accounts will make itself shown. The claim made, is, that the McEttrick men will not vote for Mr. Hodges neither will they vote for Mr. Moxon, which will help the latter. This is, however, only a rumor and as noted above, only the official return will verify.

The election officers on duty are: Warden, William Warner; Clerk. James Copland; Inspectors, James H. Sullivan, E. Frank Mitchell, William Dickey and Geo. D. Cahill.

The police are Officers Bissett and Lyons.

Ward Four, Precinct One.

The election is proceeding very quietly in this precinct. Although the voting is not quite so heavy as it was at the recent State election it is expected that the full vote will be got out, and the heaviest voting will be during the afternoon hours. Ward Four went Democratic at the State election that is this precinct did, and that is the way it will doubtless go at this election.

The election officers on duty are:—Warden, Thomas J. Foley; clerk, John Gourd; inspectors, John W. Burke, James H. Rooney, Virgil Fuller, John Williams.

Police officers,—Shackley and Kelley.

Ward Four, Precinct 2.

The voters of this precinct are voting in the new hose house, which is doubtless the best appointed polling place in the city, being large and roomy. The voting is proceeding as quietly as could be asked although both sides are doing their level best to get out every voter possible. If the early morning vote is any indication, a large vote will be polled. Mr. Hodges will get a majority in this precinct.

The election officers on duty are: Warden, Nathan Ames; clerk, Thomas Dumphy; inspectors, E. A. Baxter, W. H. Teasdale, William Burns, Matthew Lyons.

Police officers,—Gordon and Nimeskin.

Ward Five.

The polls were opened promptly on time by the ward officers. The first ballot was cast as usual by Mr. William H. Bain. The indications are that this ward will throw a very light vote, there being a falling off 12 on the first hour behind the State election.

At two o'clock the Wollaston vote was a few short of the State election.

About one-half of the female voters have visited the polls.

Ward Six.

This ward, the home of Candidate Moxon, is being watched with interest today, as it is generally admitted that the ward will give him a good majority, the figures being anywhere from 60 to 100.

The McEttrick factions in this, as in other wards, is showing itself in staying away from the polls, which will necessarily increase Mr. Moxon's vote materially, but how much is only guess work.

The election officers on duty are: Warden, Edmund Pope; clerk, Cephas Drew; inspectors, J. E. Drew, John McKenna, David Nelson and James Martin.

The police are Officers Dawson and Maxwill.

ELECTION RETURNS.

The DAILY LEDGER has caused a blackboard to be erected today on the front of the building and tonight will give the election news as fast as received.

THE MESSAGE.

To the Congress of the United States;

The assemblage within the nation's legislative halls of those charged with the duty of making laws for the benefit of a generous and free people, impressively suggests the exacting obligation and inexorable responsibility involved in their task. At the threshold of such labor now to be undertaken by the congress of the United States, and in the discharge of an executive duty enjoined by the constitution, I submit this communication, containing a brief statement of the condition of our national affairs, and recommending such legislation as seems to be necessary and expedient.

The history of our recent dealings with other nations, and our peaceful relations with them at this time, additionally demonstrate the advantage of consistently adhering to a firm, but just, foreign policy, free from envious or ambitious national schemes and characterized by entire honesty and sincerity.

Dealings With Belgium.

During the past year, pursuant to a law of congress, commissioners were appointed to the Antwerp industrial exposition. Though the participation of American exhibitors fell far short of completely illustrating our national ingenuity and industrial achievements yet it was quite creditable in view of the brief time allowed for preparation.

I have endeavored to impress upon the Belgian government the needlessness and positive harmfulness of its restrictions upon the importation of certain of our food products, and have strongly urged that the rigid supervision and inspection under our laws are amply sufficient to prevent the exportation from this country of diseased cattle and unwholesome meat.

Neutrality In Brazilian War.

The termination of the civil war in Brazil has been followed by the general prevalence of peace and order. It appearing at an early stage of the insurrection that its course would call for unusual watchfulness on the part of this government, our naval force in the harbor of Rio de Janeiro was strengthened.

Precaution tended to restrict the issue to a single trial of strength between the Brazilian government and the insurgents and to adjust complications which at times seemed imminent. Our firm attitude of neutrality was maintained to the end. The insurgents received no encouragement of eventual asylum from our commanders, and such opposition as they encountered was for the protection of our commerce and was clearly justified by public law.

A serious tension of relations having arisen at the close of the war with Brazil and Portugal by reason of the escape of the insurgent Admiral Da Gama and his followers, the friendly offices of our representatives to those countries were exerted for the protection of the subjects of either, within the territory of the other. Although the government of Brazil was duly notified that the commercial arrangement existing between the United States and that country, based on the third section of the tariff act of 1890 was abrogated on Aug. 28, 1894, by the taking effect of the tariff law now in force, that government subsequently notified us of its intention to terminate such arrangement on Jan. 1, 1895, in the exercise of the right reserved in the agreement between the two countries. I invite attention to the correspondence between the secretary of state and the Brazilian minister on this subject.

Claims Against Chili.

The commission organized under the convention which we had entered into with Chili, for the settlement of the outstanding claim of one government against the other, adjourned at the end of the period stipulated for its continuance, leaving undetermined a number of American cases which had been duly presented. These claims are not barred, and negotiations are in progress for their submission to a new tribunal.

The Eastern War.

On the 17th of March last, a new treaty with China in further regulation of emigration was signed, and on Aug. 13 it received the sanction of the senate.

Ratification on the part of China and formal exchange are awaited to give effect to this mutually beneficial convention.

A gratifying recognition of the uniform impartiality of this country toward all foreign states was manifested by the coincident request of the Chinese and Japanese governments, that the agents of the United States should within proper limits, afford protection to the subjects of the other during the suspension of diplomatic relations, due to a state of war.

This delicate office was accepted, and a misapprehension, which gave rise to the belief that on affording this kindly unofficial protection our agents would exercise the same authority which the withdrawn agents of the belligerent, had exercised, was promptly corrected. Although the war between China and Japan endangers no policy of the United States, it deserves our gravest consideration by reason of its disturbance of our growing commercial interests in the two countries, and the increased dangers which may result to our citizens domiciled or sojourning in the interior of China.

Acting under a stipulation in, or treaty with Corea, (the first concluded with a Western power) I felt constrained at the beginning of the controversy to

Tender Our Good Offices

to induce an amicable arrangement of the initial difficulty growing out of the Japanese demands for administrative reforms in Corea; but the unhappy precipitation of actual hostilities defeated this kindly purpose.

Deploring the destructive war between the two most powerful of the Eastern nations, and anxious that our commercial interests in those countries may be preserved and that the safety of our citizens there shall not be jeopardized, I would not hesitate to head any intimation that our friendly aid for the honorable termination of hostilities would be acceptable to both belligerents.

A convention has been finally concluded for the settlement by arbitration of the prolonged dispute with Ecuador, growing out of the proceedings against Emilio Antos, a naturalized citizen of the United States.

Friendly With France.

Our relations with the republic of France continue to be such as should exist between nations so long bound together by friendly sympathy and similarity in their form of government. The recent cruel assassination of the president of this sister republic called forth such universal expressions of sorrow and condolence from our people and government as to leave no doubt of the depth and sincerity of our attachment.

The Cattle Embargo.

Acting upon the reported discovery of Texas fever in cargoes of American cattle, the German prohibition against importations of live stock and fresh meats from this country has been revived. It is hoped that Germany will soon become convinced that the inhibition is needless, as it is harmful to mutual interests. The German government has protested against that provision of the customs tariff act which imposes a discriminating duty of one-tenth of one cent a pound on sugars coming from countries paying an export bounty thereon, claiming that the exaction of such duty is in contravention of articles 5 and 9 of the treaty of 1828 with Prussia. In the interests of the commerce of both countries and to avoid even the accusation of treaty violation, I recommend the repeal of so much of the statute as imposes that duty.

Protection of Seals.

Early in the present year an agreement was reached with Great Britain concerning instructions to be given to the naval commanders of the two governments in Behring Sea and the contiguous North Pacific ocean for their guidance in the protection of seal life in the waters mentioned. An understanding has also been reached for the payment by the United States of $425,000, in full satisfaction of all claims which may be made by Great Britain for damages growing out of the controversy as to fur seals in Behring Sea, or the seizure of British vessels engaged in taking seal in those waters. The award and findings of the Paris tribunal to a great extent determined the facts and principles upon which these claims should be adjusted. I am convinced that a settlement upon the terms mentioned would be an equitable and advantageous one, and I recommend that provision be made for the prompt payment of the stated sum. Thus far only France and Portugal have signified their willingness to adhere to the regulations established under the award of the Paris tribunal of arbitration.

The Boundary of British Guiana

still remains in dispute between Great Britain and Venezuela. Believing that its early settlement, on some just basis alike honorable to both parties, is in the line of our established policy to remove from this hemisphere all causes of difference with powers beyond the sea, I shall renew the efforts heretofore made to bring about a restoration of diplomatic relations between the disputants and to induce a reference to arbitration, a resort which Great Britain so conspicuously favors in principle and respects in practice, and which is earnestly sought by her weaker adversary.

About Hawaiia.

Since communicating the correspondence in regard to Hawaii, and the action taken by the senate and house of representatives, the organization of a government in place of the provisional arrangement which followed the deposition of the queen has been announced, with evidence of its effective operation. The recognition usual in such cases has been accorded the new government.

Convention Should Be Revised.

Under our present treaties of extradition with Italy, miscarriages of justice have occurred, owing to the refusal of that government to surrender its own subjects. Thus far efforts to negotiate an amended convention, our obviating this difficulty, have been unavailing.

Progressive Japan.

Apart from the war in which the island empire is engaged, Japan attracts increasing attention in this country by her evident desire to cultivate more liberal intercourse with us, and to seek our kindly aid in furtherance of her laudable desire for complete autonomy in her domestic affairs and full equality in the family of nations. The Japanese empire of today is no longer the Japan of the past, and our relations with this progressive nation should not be less broad and liberal than those with other powers.

Our Mexican Cousins.

Good will, fostered by many interests in common, has marked our relations with our nearest southern neighbor. Peace being restored along her northern frontier, Mexico has asked for the punishment of the late disturbers of her tranquilty. There ought to be a new treaty of commerce and navigation with that country to take the place of the one which terminated 13 years ago. The friendliness of the intercourse between the two countries is attested by the fact that during this long period the commerce of each has steadily increased under the rule of mutual consideration, being neither stimulated by conventional arrangements nor retarded by jealous rivalries or selfish distrust.

The Trouble at Bluefields.

Prominent among the questions of the year was the Bluefields incident, in what is known as the Mosquito Indian strip, bordering on the Atlantic ocean and within the jurisdiction of Nicaragua. By the treaty of 1860, between Great Britain and Nicaragua, the former government expressly recognized the sovereignty of the latter over the strip, and a limited form of self-government was guaranteed to the Mosquito Indians, to be exercised according to their customs, for themselves and other dwellers within its limits.

For some months one, and during part of the time, two of our naval ships had been stationed at Bluefields for the protection of all of the legitimate interests of our citizens. In September last, the government at Managua expelled from its territory 12 or more foreigners, including two Americans, for alleged participation in the seditious or revolutionary movements against the republic at Bluefields already mentioned; but through the earnest remonstrance of this government, the two Americans have been permitted to return to the peaceful management of their business. Our naval commanders at the scene of these disturbances, by their constant exhibition of firmness and good judgment, contributed largely to the prevention of more serious consequences and to the restoration of peace and order.

I regret that in the midst of these occurrences there happened a most grave and irritating failure of Nicaraguan justice. An American citizen named Wilson, residing at Rama, in the Mosquito territory, was murdered by one Arguello, the acting governor of the town. After some delay the murderer was arrested, but afterward escaped, and notwithstanding our repeated demands, it is claimed that his recapture has been impossible by reason of his flight beyond Nicaraguan jurisdiction.

The Nicaraguan authorities, having given notice of forfeiture of their concession to the canal company on grounds purely technical and not embraced in the contract, have receded from that position.

Leniency Toward Peru.

Peru, I regret to say, shows symptoms of disturbance, due probably to the slowness of her recuperation from the distress and of the war of 1881. Weakened in resources, her difficulties in facing international obligations invite our kindly sympathy and justisy our forbearance in pressing long pending claims. I have felt constrained to testify this sympathy in connection with certain demands urgently preferred by other powers.

Relations With Russia.

The recent death of the Czar of Russia called forth appropriate expressions of sorrow and sympathy on the part of our government with his bereaved family and the Russian people. The sealing interests of Russia in Behring sea are second only to our own. A modus vivendi has therefore been concluded with the imperial government restrictive of poaching on the Russian rookeries and of sealing in waters which were not comprehended in the protected area defined in the Paris award. Occasion has been found to urge upon the Russian government equality of treatment for our great life insurance companies whose operations have been extended throughout Europe.

The Salvadorean Refugees.

The government of Salvador, having been overthrown by an abrupt popular outbreak, certain of its military and civil officers sought refuge on board the U. S. S. Bennington, then lying in a Salvadorean port. Although the practice of asylum is not favored by this government, yet solely from considerations of humanity, they were afforded shelter by our naval commander, and when afterward demanded under our treaty of extradition with Salvador for trial on charges of murder, arson and robbery, I directed that such of them as had not voluntarily left the ship be conveyed to one of our nearest ports, where a hearing could be had before a judicial officer in compliance with the terms of the treaty.

On their arrival at San Francisco such a proceeding was promptly instituted before the United States district judge, who held that the acts constituting the alleged offenses were political, and discharged all the accused except one Cienfuegos, who was held for an attempt to murder. Thereupon I was constrained to direct his release, for the reason that an attempt to murder was not one of the crimes charged against him, and upon which his surrender to the Salvadorean authorities had been demanded.

Spanish Injustice.

Unreasonable and unjust fines imposed by Spain on the vessels and commerce of the United States have demanded from time to time during the last 20 years earnest remonstrance on the part of our government. In the immediate past, exorbitant penalties have been imposed upon our vessels and goods by customs authorities of Cuba and Porto Rico for clerical errors of the most trivial character in the manifests or bills of lading.

In some cases fines amounting to thousands of dollars have been levied upon cargoes or the carrying vessels, when the goods in question were entitled to free entry. Fines have been exacted even when the error had been detected, and the Spanish authorities notified before the arrival of the goods in port.

This conduct is in strange contrast with the considerate and liberal treatment extended to Spanish vessels and cargoes in our ports in like cases. No satisfactory settlement of these vexatious questions has yet been reached.

The Mora case, referred to in my last annual message, remains unsettled. This claim, which, having been long ago adjusted, now only awaits payment as stipulated, but all efforts to secure payment of this settled claim have been unavailing.

Americanized Armenians in Turkey.

In my last annual message I adverted to the claim on the part of Turkey of the right to expel as persons undesirable and dangerous, Armenians naturalized in the United States and returning to Turkish jurisdiction. While this government acquiesces in the asserted right of expulsion, it will not consent that Armenians may be imprisoned or otherwise punished for no other reason than having acquired, without imperial consent, American citizenship. Three of the assailants of Miss Melton, an American teacher in Mosul, have been convicted, and an appeal against the acquittal of the remaining five has been taken by the Turkish prosecuting officer.

Concerning Venezuela.

A convention has been concluded with Venezuela for the arbitration of a long disputed claim growing out of the seizure of certain vessels, the property of citizens of the United States. Although signed, the treaty of extradition with Venezuela is not yet in force, owing to the insistence of that government that, when surrendered, its citizens shall in no case be liable to capital punishment.

Maritime Legislation.

The rules for the prevention of collisions at sea, which were framed by the maritime conference held in this city in 1889, having been concurrently incorporated in the statutes of the United States and Great Britain, have been announced to take effect March 1, 1895, and invitations have been extended to all maritime nations to adhere to them. Favorable responses have thus far been received from Austria, France, Portugal, Spain and Sweden.

Samoan Squabbles.

In my last annual message I referred briefly to the unsatisfactory state of affairs in Samoa under the operation of the Berlin treaty, as signally illustrating the impolity of entangling alliances with foreign powers, and on May 9, 1894, in response to a resolution of the senate, I sent a special message and documents to that body on the same subject, which emphasized my previously expressed opinions.

The present government has utterly failed to correct, if indeed it has not aggravated, the very evils it was intended to prevent. It has not stimulated our commerce with the islands. Our participation in its establishment against the wishes of the natives was in plain defiance of the conservative teachings and warnings of the wise and patriotic men who laid the foundations of our free institutions, and I invite an expression of the judgment of congress on the propriety of steps being taken by this government looking to the withdrawal from its engagements with the other powers on some reasonable terms not prejudicial to any of our existing rights.

Extracts From Carlisle's Report.

The secretary of the treasury reports that the receipts of the government from all sources of revenue during the fiscal year ending June 30, 1894, amounted to $372,802,498.20, and its expenditures to $442,605,758.87, leaving a deficit of $69,803,260.58. There was a decrease of $15,952,674.66 in the ordinary expenses of the government, as compared with the fiscal year 1893. There was collected from customs $131,818,530.62, and from internal revenue $147,168,449.70. The balance of the income for the year, amounting to $93,815,517.97, was derived from the sales of lands and other sources.

The value of our total dutiable imports amounted to $275,199,086, being $146,657,625 less than during the preceding year, and the importations free of duty amounted to $379,795,536, being $64,748,675 less than during the preceding year. The receipts from customs were $73,586,486.11 less, and from internal revenue $13,886,539.98 less than in 1893.

The total tax collected from distilled spirits was $85,250,250.25; on manufactured tobacco, $28,617,898.62, and on fermented liquors, $31,414,788.04.

Our exports of merchandise, domestic and foreign, amounted during the year to $892,140,572, being an increase over the preceding of $44,495,378.

The total amount of gold exported during the fiscal year was $76,898,061, as against $108,680,444, during the fiscal years 1893.

The amount imported was $72,449,119, as against $21,174,381, during the previous year.

The imports of silver were $13,286,552 and the exports were $50,451,285.

The total bounty paid upon the production of sugar in the United States for the fiscal year was $12,100,208.89, being an increase of $2,725,078.01, over the payments made during the preceding year. The amount of bounty paid from July 1, 1894 to Aug. 28, 1894, which was the time when further payments ceased by operation of law, was $966,180.84. The total expenses incurred in the payment of the bounty upon sugar during the fiscal year was $130,140-85. It is estimated that upon the basis of the present revenue laws the receipts of the government during the current fiscal year ending June 30, 1895, will be $424,427,748.44, and its expenditures $444,427,748.44, resulting in a deficit of $20,000,000.

On the first day of November, 1894, the total stock of money of all kinds in the country was $2,240,773,888, as against $2,204,051,000 on Nov. 1, 1893, and the money of all kinds in circulation, or not included in the treasury holdings, was $1,672,088,422, or $24.27 per capita, upon an estimated population of 68,887,000. At the same date there was held in the treasury gold bullion amounting to $44,615,177.55, and silver bullion which was purchased at a cost of $127,779,988.

The purchase of silver bullion under the act of July 14, 1890, ceased on Nov. 1, 1893, and up to that time there had been purchased during the fiscal year, 11,917,658.78 fine ounces, at a cost of $8,715,521.32, an average cost of $0.7313 per fine ounce. The total amount of silver purchased from the time the law took effect until the repeal of its purchasing clause, on the date last mentioned, was 168,674,682.53 fine ounces, which cost $155,931,002.25, the average price per ounce being $0.9244. The total amount of standard silver dollars coined at the mints of the United States since the passage of the act of Feb. 28, 1878, is $421,776,408, of which $378,166,793 were coined under the provisions of that act; $38,531,143 under the provisions of the act of July 14, 1890, and $5,078,472 under the act providing for the coinage of trade dollar bullion.

The total coinage of all metals at our mints during the last fiscal year consisted of 63,485,220 pieces, valued at $106,216,780.06, of which there were $99,474,912.50 in gold coin; $758 in standard silver dollars, $6,024,140.30 in subsidiary silver coin, and $716,919.26 in minor coin.

Fifty national banks were organized during the year ending Oct. 31, 1894, with a capital of $5,285,000, and 79 with a capital of $10,475,000, went into voluntary liquidation. Twenty-one banks, with a capital of $2,770,000, were placed in the hands of receivers. The total number of national banks in existence on Oct. 31 last was 3756, being 80 less than on Oct. 31, 1893. The capital stock paid in was $673,871,365, being $9,578,401 less than at the same time in the previous year, and the surplus fund and undivided profits, less expenses and taxes paid, amounted to $334,121,082.10, which was $16,089,780 less than on Oct. 31, 1893, the circulation was decreased $1,741,563.

The Militia.

From the report of the secretary of war it appears that the strength of the army on Sept. 30, 1894, was 2135 officers and 25,765 enlisted men. Although this is apparently a very slight decrease compared with the previous year, the actual effective force has been increased to the equivalent of nearly two regiments through the reorganization of the system of recruiting and the consequent release to regimental duty of the large force of men hitherto serving at the recruiting depots. The abolition of these depots, it is predicted, will furthermore effect an annual reduction approximating $250,000 in the direct expenditures, besides promoting generally the health, morals and discipline of the troops.

The execution of the policy of concentrating the army at important centers of population and transportation, foreshadowed in the last annual report of the secretary, has resulted in the abandonment of 15 of the smaller posts, which was effected under a plan which assembles organizations of the same regiments hitherto widely separated. This renders our small forces more readily effective for any service which they may be called upon to perform, increases the extent of the territory under protection without diminishing the security heretofore afforded to any locality, improves the discipline, training and esprit de corps of the army, besides considerably increasing the cost of its maintenance.

While the maximum legal strength of the army is 25,000 men, the effective strength, through various causes, is but little over 20,000 men. The purpose of congress does not, therefore, seem to be fully attained by the existing condition. While no considerable increase in the army is, in my judgment, demanded by recent events, the policy of seacoast fortification, in the prosecution of which we have been steadily engaged for some years, has so far developed as to suggest that the effective strength of the army be now made at least equal to the legal strength.

Measures taken by the department during the year, as indicated, have already considerably augmented the effective force, and the secretary of war presents a plan, which I recommend to the consideration of congress, to attain the desired end. Economies effected in the department in other lines of its work will offset, to a great extent, the expenditure involved in the proposition submitted. Among other things, this contemplates the adoption of the three-battalion formation of regiments, which for several years has been indorsed by the secretaries of war and the generals commanding the army. Compact in itself, it provides a skeleton organization, ready to be filled out in the event of war, which is peculiarly adapted to our strength and requirements; and the fact that every nation, with a single exception, has adopted this formation to meet the conditions of modern warfare, should alone secure for this recommendation an early consideration.

It is hardly necessary to recall the fact that in obedience to the commands of the constitution and the laws, and for the purpose of protecting the property of the United States, aiding the process of federal courts and removing lawless obstructions to the performance by the government of its legitimate functions, it became necessary in various localities during the year to employ a considerable portion of the regular troops. The duty was discharged promptly, courageously and with marked discretion by the officers and men, and the most gratifying proof was thus afforded that the army deserves the complete confidence in its efficiency and discipline, which the country has at all times manifested. The year has been free from disturbances by Indians, and the chances of further depredations on their part are constantly becoming more remote and improbable.

The Law Department.

The report of the attorney general notes the gratifying progress made by the supreme court in overcoming the arrears of its business and in reaching a condition in which it will be able to dispose of cases as they arise without any unreasonable delay. This result is, of course, very largely due to the successful working of the plan inaugurating circuit courts of appeals.

A topic of much importance is the condition of the administration of the Indian Territory. Such ameliorations of present conditions as the existing system will admit of ought not to be neglected. There should be a federal court established for the territory with sufficient judges, and this court should sit within the territory, and have the same jurisdiction as to territorial affairs as is now vested in the federal courts sitting in Arkansas and Texas.

Another object of pressing moment referred to by the attorney general is the reorganization of the Union Pacific Railway company, on a basis equitable as regards all private interests and as favorable to the government as existing conditions will permit.

Eight years ago I urged upon the congress the location and construction of two prisons for the confinement of United States prisoners. A similar recommendation has been made from time to time since, and a few years ago a law was passed providing for the selection of sites for three such institutions. No appropriation has, however, been made to carry the act into effect, and the old and discreditable condition still exists.

The Postal Service.

The report of the postmaster general presents a comprehensive statement of the operations of the postoffice department for the last fiscal year. The receipts of the department during the year amounted to $75,080,479.04, and the expenditures to $84,224,414.15.

The transactions of the postal service indicate with barometric certainty the fluctuations in the business of the country. Inasmuch, therefore, as business complications continue to exist throughout the last year to an unforeseen extent, it is not surprising that the deficiency of revenue to meet the expenditures of the postoffice department, which was estimated in advance at about $8,000,000, should be exceeded by nearly $1,250,000.

The expenditures increase steadily, and necessarily with the growth and needs of the country, so that the deficiency is greater or less in any year, depending upon the volume of receipts. The postmaster general states that this deficiency is unnecessary, and might be obviated at once if the law regulating rates upon mail matter of the second-class was modified.

The total number of postoffices in the United States on June 30, 1894, was 66,805, an increase of 1403 over the preceding year. Of these, 3428 were presidential, an increase in that class of 68 over the preceding year. Six hundred and ten cities and towns are provided with free delivery. Ninety-three other cities and towns entitled to this service under the law have not been accorded it on account of insufficient funds.

The expense of free delivery for the current fiscal year will be more than $12,300,000, and, under existing legislation, this item of expenditure is subject to constant increase. The estimated cost of rural free delivery generally is so very large that it ought not to be considered in the present condition of affairs.

During the year 830 additional domestic money order offices were established. The total number of these offices at the close of the year was 19,274. There were 14,304,041 money orders issued during the year, being an increase over the preceding year of 994,306. The value of these orders amounted to $138,793,579.49, an increase of $11,217,145.84.

The postmaster general renews the suggestion made in a previous report that the department organization be increased to the extent of creating a direct district supervision of all postal affairs, and in this suggestion I fully concur.

The report shows most gratifying results in the way of economies worked out without affecting the efficiency of the postal service. These consist in the abrogation of steamship subsidy contracts, reletting of mail transportation contracts and in the cost and amount of supplies used in the service, amounting in all to $16,619,047.42.

There are now connected with the postoffice establishment 32,661 employes, who are in the classified service. The postmaster general states that another year's experience at the head of the department serves to strengthen the conviction as to the excellent working of the civil service law in this branch of the public service.

The Navy.

Attention is called to the report of the secretary of the navy, which shows very gratifying progress in the construction of ships for our new navy. All the vessels now building, including the three torpedo boats authorized at the last session of congress, and excepting the first-class battleship Iowa, will probably be completed during the coming fiscal year.

The estimates for the increase of the navy for the year ending June 30, 1896, are large, but they include practically the entire sum necessary to complete and equip all the new ships not now in commission, so that unless new ships are authorized, the appropriation for the naval service for the fiscal year ending June 30, 1897, should fall below the estimates for the coming year by at least $12,000,000.

The secretary presents with much earnestness a plea for the authorization of three additional battleships and 10 or 12 torpedo boats. While the unarmored vessels heretofore authorized, including those now nearing completion, will constitute a fleet which it is believed is sufficient for ordinary cruising purposes in time of peace, we have now completed and in process of construction but four first class battleships and but few torpedo boats. If we are to have a navy for warlike operations, offensive and defensive, we certainly ought to increase both the number of battleships and torpedo boats.

I recommend that provision be made for the construction of additional battleships and torpedo boats. The secretary recommends the manufacture not only of a reserve supply of ordnance and ordnance material for ships of the navy, but also a supply for the auxiliary fleet. Guns and their appurtenances should be provided and kept on hand for both these purposes.

During the past fiscal year there has been an unusual and pressing demand in many quarters of the world for the presence of vessels to guard American interests.

In January last, during the Brazilian insurrection, a large fleet was concentrated in the harbor of Rio de Janeiro. The vigorous action of Rear Admiral Benham in protecting the personal and commercial rights of our citizens during the disturbed condition afforded results which will, it is believed, have a far-reaching and wholesome influence whenever in like circumstances it may become necessary for our naval commanders to interfere on behalf of our people in foreign ports. The war now in progress between China and Japan has rendered it necessary or expedient to dispatch eight vessels to those waters.

I feel it my imperative duty to call attention to the recommendation of the secretary, in regard to the personnel of the line of the navy. The stagnation of promotion in this branch of the service is so great as to seriously impair its efficiency. Young and middle-aged should, before the eve of retirement, be permitted to reach a grade entitling them to active and important duty.

The system adopted a few years ago regulating the employment of labor at the navy yards is rigidly upheld and has fully demonstrated its usefulness and expediency.

Secretary Smith's Report.

The report of the secretary of the interior exhibits the situation of the numerous and interesting branches of the public service connected with his department. The public land disposed of during the year amounted to 10,406,100.77 acres, including 28,876.05 of Indian lands.

It is estimated that the public domain still remaining amounts to a little more than 600,000,000 acres, excluding, however, about 360,000,000 acres in Alaska, as well as military reservations and railroad and other selections of lands yet unadjudicated.

The total cash receipts for sale of lands amounted to $2,674,285.79, including $91,981.03 received for Indian lands.

It appears that the appropriation for the current year, on account of special service for the public lands and the timber thereon, is much less than those of previous years and inadequate for an efficient performance of the work. I hope it will not be crippled by inefficient appropriation.

I fully indorse the recommendation of the secretary that adequate protection be provided for our forest reserves, and that a comprehensive forestry system be inaugurated.

I concur in the opinion that the commissioner of the general land office should be relieved from the duty of deciding litigated land cases, that a non-partisan court should be created to pass on such cases, and that the decisions of this court should be final, at least so far as the decisions of the department are now final.

Though the condition of the Indians show a steady and healthy progress, their situation is not satisfactory at all points. Some of them to whom allotments of land have been made are found to be unable or disinclined to follow agricultural pursuits, or to otherwise beneficially manage their land. This is especially true of the Cheyennes and Arapahoes, who, as it appears by reports, have in many instances never been located on their allotments, and in some cases do not know where their allotments are. Their condition has deteriorated. They are not self-supporting, and they live in camps and spend their time in idleness.

I have always believed that allotments of reservation lands to Indians in severalty should be made sparingly, or at least slowly, and with the utmost caution. In these days, when white agriculturalists and stock raisers of experience and intelligence find their lot a hard one we ought not to expect Indians, unless far advanced in civilization and habits of industry, to support themselves on the small tracts of land usually alotted to them.

I am convinced that the proper solution of the Indian problem and the success of every step taken in that direction depend to a very large extent upon the intelligence and honesty of the reservation agents and the interest they have in their work. An agent fitted for his place can do much toward preparing the Indians under his charge for citizenship and allotment of their lands, and his advice as to any matter concerning their welfare will not mislead.

The intelligent Indian school management of the past year has been followed by gratifying results.

The appropriation for the current year, ending June 30, 1895, applicable to the ordinary expenses of the Indian service, amounts to $6,733,003.18, being less by $663,240.64 than the sum appropriated on the same amount for the previous year.

Pensions.

At the close of the fiscal year, on June 30, 1894, there were 969,744 persons on our pension rolls, being a net increase of 3532 over the number reported at the end of the previous year. These pensioners may be classified as follows:

Soldiers and sailors, survivors of all wars, 753,968; widows and relatives of deceased soldiers, 215,162; army nurses in the war of the rebellion, 414. Of these pensioners 32,039 are surviving soldiers of Indian and other wars prior to the late civil war, and the widows or relatives of such soldiers.

The remainder, numbering 987,505, are receiving pensions on account of the war of the rebellion, and of these 469,844 are on the roll under the authority of the act of June 27, 1890. The total amount expended for pensions during the year was $139,804,461.05, leaving unexpended from the sum appropriated $25,205,712.65. The sum necessary to meet pension expenditures for the year ending June 30, 1895, is estimated at $140,000,000.

The commissioner of pensions is of the opinion that the year 1895, being the 30th after the close of the war of the rebellion, must according to all sensible human calculation, see the highest limit of the pension roll, and that after that year it must begin to decline.

The claims pending in the bureau have decreased more than 90,000 during the year.

The barefaced and extensive pension frauds exposed under the direction of the courageous and generous veteran soldier now at the head of the bureau, leave no room for the claim that no purgation of our pension rolls was needed, or that continued vigilance and prompt action are not necessary to the same end.

The Census Report.

The completion of the 11th census is now in charge of the commissioner of labor. The total disbursements on account of the work for the fiscal year ending June 30, 1894, amounted to $10,365,676.81. The whole number of volumes necessary to comprehend the 11th census will be 25, and they will contain 22,270 printed pages.

Agriculture.

The secretary of agriculture in his report reviews the operations of his department for the fiscal year, and makes recommendation for the further extension of its usefulness. He reports a saving in expenditures during the year of $600,000. A special study has been made of the demand for American farm products in all foreign markets, especially Great Britain.

There was a falling off in American wheat exports of 13,500,000 bushels, and the secretary is inclined to believe that wheat may not, in the future, be the staple export cereal product of our country, but that corn will continue to advance in importance as an export on account of the new uses to which it is constantly being appropriated.

The amount appropriated for the weather bureau was $951,100. Of that sum $138,500 has been saved. As illustrating the usefulness of this service, it may be here stated that the warnings which were very generally given of two tropical storms occurring in September and October of the present year, resulted in detaining safely in port 2305 vessels, valued at $96,283,913, laden with cargoes of probably still greater value. What is much more important and gratifying, many human lives on these ships were also undoubtedly saved.

The scientific inquiries of the bureau of animal industry have progressed steadily during the year. Much tuberculin and mallein have been furnished to state authorities for use in the agricultural colleges and experiment stations, for the treatment of tuberculosis and glanders.

The recommendation contained in the report of the secretary for 1894, that the vicious system of promiscuous free distribution of its departmental documents be abandoned, is again urged. These publications may well be furnished without cost to public libraries, educational institutions and the officers and libraries of states and of the federal government, but from all individuals applying for them, a price covering the cost of the document asked for should be required.

Civil Service Reform.

The advantages to the public service of an adherence to the principles of civil service reform are constantly more apparent, and nothing is so encouraging to those in official life who honestly desire good government, as the increasing appreciation by our people of these advantages.

National Board of Health.

I am entirely convinced that we ought not to be longer without a national board of health or national health officer, charged with no other duties that such as pertain to the protection of our country from the invasion of pestilence and disease.

The Labor Commission.

By virtue of a statute of the United States passed in 1888, I appointed a commission for the purpose of making careful inquiry into the causes of the controversies between certain railroads and their employes, which had resulted in an extensive and destructive strike. Their work has been well done and their standing and intelligence give assurance that the report and suggestions they make are worthy of careful consideration.

The Tariff.

The tariff act passed at the last session of the congress needs important amendments, if it is to be executed effectively and with certainty. In addition to such necessary amendments as will not change rates of duty, I am still very decidedly in favor of putting coal and iron upon the free list.

So far as the sugar schedule is concerned, I would be glad, under existing aggravations, to see every particle of differential duty in refined sugar stricken out of our tariff law. If, with all the favor now accorded the sugar refining interest in our tariff laws, it still languishes to the extent of closed refineries, and thousands of discharged workingmen, it would seem to present a hopeless case for reasonable legislative aid.

Whatever else is done or omitted, I earnestly repeat the recommendation that the additional duty of 1-10th of a cent per pound, laid upon sugar imported from countries paying a bounty on its export, be abrogated. It seems to me that exceedingly important considerations point to the propriety of this amendment.

Plea For Free Ships.

A refusal to allow American registry to vessels built abroad, though owned and navigated by our people, exhibited a willingness to abandon all contest for the advantages of American trans-oceanic carriage.

The millions now paid to foreigners for carrying American passengers and products across the seas should be turned into American hands. Ship building, which has been protected to strangulation, should be revived by the prospect of profitable employment of ships when built, and the American sailor should be resurrected and again take his place—a sturdy and industrious citizen in time of peace, and a safe defender of American interests in the day of conflict.

The Bond Issue.

During the last month the gold reserved in the treasury for the purpose of redeeming the notes of the government circulating as money in the hands of the people became so reduced that it became necessary to replenish this reserve, and thus maintain popular faith in the ability and determination of the government to meet, as agreed, its pecuniary obligations.

It would have been well if in this emergency, authority had existed to issue the bonds of the government bearing a low rate of interest and maturing within a short period.

But the congress having failed to confer such authority, resort was necessarily had to the resumption act of 1875, and, pursuant to its provisions, bonds were issued drawing interest at 5 per cent per annum and maturing 10 years after their issue. I am glad to say that on the sale of these bonds the premium received operated to reduce the rate of interest to be paid by the government to less than 3 per cent.

It is perfectly and palpably plain that the only way under present conditions by which this reserve, when dangerously depleted, can be replenished, is through the issue and sale of the bonds of the government for gold; and yet congress has not only thus far declined to authorize the issue of bonds best suited to such purpose, but there seems a disposition in some quarters to deny both the necessity and power for the issue of bonds at all.

As long, therefore, as no provision is made for the final redemption or the putting aside of the currency obligation, now used to repeatedly and constantly draw from the government its gold, and as long as no better authority for bond issues is allowed than at present exists, such authority will be utilized whenever and as often as it becomes necessary to maintain a sufficient gold reserve, and in time to save the credit of our country and make good the financial depletions of our government.

Questions relating to our banks and currency are closely connected with the subject just referred to and they also present some unsatisfactory features.

It is proposed to repeal all laws providing for the deposit of United States bonds as security for circulation; to permit national banks to issue circulating notes not exceeding in amount 75 per cent of their paid-up and unimpaired capital, provided they deposit with the government, as a guarantee fund, in United States legal tender notes, including treasury notes of 1890, a sum equal in amount to 30 per cent of the notes they desire to issue, this deposit to be maintained at all times, but whenever any bank retires any part of its circulation a proportional part of its guarantee fund shall be returned to it; to permit the secretary of the treasury to prepare and keep on hand ready for issue in case an increase in circulation is desired, blank national bank notes for each bank having circulation, and to repeal the provisions of the present law imposing limitations and restrictions upon banks desiring to reduce or increase their circulation, thus permitting such increase or reduction within the limit of 75 per cent of capital to be quickly made as emergencies arise.

Another very important feature of this plan is the exemption of state banks from taxation by the United States in cases where it is shown to the satisfaction of the secretary of the treasury and comptroller of the currency, by banks claiming such exemption, that they have not had outstanding their circulating notes exceeding 75 per cent of their paid-up and unimpaired capital; that their stockholders are individually liable for the redemption of their circulating notes to the full extent of their ownership of stock; that the liability of said banks upon their circulating notes constitutes under their state law a first lien upon their assets; that such banks have kept and maintained a guarantee fund in United States legal tender notes, including treasury notes of 1890, equal to 30 per cent of their outstanding circulation notes, and that such banks have promptly redeemed their circulating notes when presented at their principal or branch offices.

It is quite likely that this scheme may be usefully amended in some of its details, but I am satisfied it furnishes a basis for a very great improvement in our present banking and currency system.

I conclude this communication, fully appreciating that the responsibility for all legislation affecting the people of the United States rests upon their representatives in congress, and assuring them that, whether in accordance with recommendations I have made or not, I shall be glad to co-operate in perfecting any legislation that tends to the prosperity and welfare of our country.

KIND WORDS.

While the Dissolution was pending many kind words were received, and the following was sent for publication. In justice to his partner, the junior member suppressed it, and it is now published for the first time:

"It would be a matter of serious regret to those who have taken the PATRIOT for scores of years, if the control of it should pass into other hands. While the names of Green & Prescott have been associated with its management, its prosperity has been due, in a very large degree, to the last named family, and most every citizen is aware of the untiring efforts of father and son in collecting the news and giving it to the people in type and on paper not excelled by any newspaper and equalled by but few. To those who have occasion to read the average county weeklies with their miserable paper and equally miserable print, the perusal of the PATRIOT has been a source of gratification on account of its excellent quality when compared with the others. The refusal of the court to oblige its sale at auction, will meet with general approval, and the public will desire it to remain in the hands and under the guidance of those who have made it a success."

Tournament at Duck's Nest.

The tournament which has been taking place at the Duck's Nest, Wollaston, was finished the latter part of last week.

The prize cue for the highest run on the billiard table was won by Mr. George Barker; the prize cue for the greatest number of balls pocketed on the pool table was tied between Mr. George F. Briggs and Mr. Fred G. Ingraham, each pocketing 15; they will play off this week; the regulation nine inch bowling ball was won by Mr. C. L. McClintock, whose score was 207, and the candle pin ball by Mr. George Barker, who knocks over 113 pins.

Father and Son Reunited.

There was a happy meeting Saturday between a father and son who had been separated for 21 years, and the meeting was doubly pleasant as each had supposed the other dead.

Twenty-one years ago Michael Higgins left the old country and has been in Brooklyn, N. Y., ever since. Nothing was ever heard from him, and ten years later his son Thomas came over and settled in Quincy where he has since resided.

Recently a Quincy man while in New York met the elder Higgins and being struck by the resemblance between him and the Thomas Higgins of Quincy, suggested that the two might be related, and after hearing the elder's story, became convinced that the two were related and acting upon this the father came here Saturday and the two were soon talking over old times.

Professor Parsons' Lectures.

Next Saturday, December 8, Professor Parsons will resume his lectures in East Milton Congregational church, at 7.45 P. M., subject, "Street Railroads." In his last lecture on the "Public Ownership of Railroads" he proved beyond dispute that a passenger can be carried at a profit, eight miles for one cent. Just think of it, ye that have friends at a distance! All who are disengaged on Saturday nights cannot be more profitably employed than in taking advantage of these lectures.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles

SYLVESTER BROWN.

A Notable Funeaal Held Monday at Wollaston.

MEMORIAL SERVICE AT CHURCH,

A List of Some of the Distinguished Educators and Friends Present.

To but few mortals as they pass from the busy scenes of life are given the many tokens of genuine love and sorrow which were manifested at the obsequies of Sylvester Brown at Wollaston, Monday afternoon. From far and near the place was thronged with those who gathered to pay the last tribute of respect and love to the honored master. One poor little girl, not a dozen years of age, came out from Boston, and, sobbing as though her heart would break, placed a handful of flowers upon the casket of the one whom she loved.

Attended by a concourse of affectionate relatives and friends, many of whom are distinguished in the educational and political circle of the State, and replete with every evidence of the deep honor in which he was held, both by private friends and the public at large, the final act in the long career of the well-loved master was an appropriate and a noteworthy conclusion to the life so nobly and honorably spent.

At two o'clock the funeral services were held at the house. There was a large attendence.

The remains were encased in a casket covered with black broadcloth. Upon the silver plate was the inscription:

SYLVESTER BROWN
1848—1894.

Loving hands tenderly arranged the flowers he so deeply loved and grouped them around the bier. They included a large boquet of roses and lilies, and a large crescent and crown from the pupils of the Martin school; a large floral open book from the classes of '90 and '91, a cross and crown from the class of '92, a mound from the class of '93, a pillow from the class of '94, Martin school, and an open book from the teachers of the Martin school; a wreath of ivy and roses, from Mr. and Mrs. Houghton of the Martin school; a boquet of roses from the Prince school; broken column, Wollaston Unitarian Parish committee; wreath of ivy, Mr. Brown's Bible class; wreath of roses from Mr. and Mrs. Henry G. Fay; mound of chrysanthemums and roses from the Board of Managers of the Academy, of which Mr. Brown was a member; wreath of roses from Wollaston lodge, Knights of Honor; crescent, crown and sickle, from the Norfolk Sunday School union, of which he was president; roses from Mrs. Brown's Sunday School class; mound of ferns from Mr. and Mrs. Joseph C. Morse; roses and ferns from Mr. and Mrs. Chandler W. Smith, ferns and ivy from Mr. and Mrs. A. G. Durgin; chrysanthemums from "The Teacups;" roses and ferns from Mr. Mason and Miss Langmaid; boquet of roses and violets, Mr. and Mrs. George E. Holmes; palms and violets, Mr. William Reed; boquet from a little girl; roses, palms and violets from different friends.

The service at the house was brief. The quartette, Mrs. F. A. Page, Dr. and Mrs. George B. Rice and Mr. L. M. Bartlett, sang several beautiful selections; Rev. James E. Bagley read from the Psalms, and also Mr. Brown's favorite poem from Whittier, "Eternal Goodness"; Rev. Daniel Munro Wilson spoke of Mr. Brown's noble life; the service was concluded by a prayer by the Rev. Edward A. Horton.

The cortege was then formed and the remains were conveyed to the Mount Wollaston cemetery where they were met by the master and wardens and Rev. E. C. Butler, chaplain, of Rural lodge, who, as the sun was beginning to sink behind the hills performed the last sad rites of the Masonic burial.

The pall-bearers were Mr. Chandler W. Smith, Mr. H. W. Lull, Mr. E. H. Sprague, Mr. George I. Aldrich, Mr. Frank A. Page and Mr. R. F. Claflin.

At the Church.

The greatest evidence of the universal sorrow of Mr. Brown's death was to be found in the large concourse of people that gathered at the Unitarian church to listen to the memorial service.

After the singing by the quartette the Rev. Mr. Bagley offered prayer. He then made a short address and read another of Mr. Brown's favorite poems from Whittier, "Abraham Davenport." Addresses eulogistic of his character were also made by the Rev. Edward A. Horton; Mr. Edwin P. Seaver, superintendent of the Boston schools; Mr. Richard C. Humphrey of the Boston school committee; Mr. E. Bentley Young, master of the Prince school, Boston; Gen. A. P. Martin, chairman of the Boston Police Commission and from whom the Martin school was named; and the Rev. Daniel Munroe Wilson.

Among the prominent educators present were Mr. Robert C. Metcalf, Mr. George H. Martin, Mr. Ellis Peterson and Mr. W. S. Parker, supervisors of the Boston schools; Mr. Augustus H. Kelley, master of the Lyman school; Mr. T. Henry Wason, master of the Brimmer school.

Mr. Larkin Dunton, head master of the Normal school; Mr. Lincoln Owen, master of the Rice training school; Mr. Frank F. Preble, master of the Adams school, (Boston); Mr. T. A. Mead, master of the Chapman school; Mr. Edwin T. Horn, master of the Prescott school; Mr. Edward Stickney, master of the Warren school; Mr. Lewis H. Dutton, master of the Hancock school; Mr. Maurice P. White, master Lincoln school; Mr. Fred O. Ellis, master Norcross school; Mr. Alonzo G. Ham, master Hart school; Mr. Quincy E. Dickerman.

Mr. Alfred Bunker, master Quincy school; Mr. E. Bentley Young, master Prince school; Mr. Granville V. Putman, master Franklin school; Mr. Albert G. Boyden; master of State Normal school, Bridgewater; Mr. Frank A. Morse, master Sherwin school; Mr. Silas C. Stone, master Hyde school; Mr. Thomas H. Barnes, master Bigelow school; Mr. Joshua M. Dill, master Andrew school; Mr. Leverett M. Chase, master Dudley school; Mr. Wm. L. P. Boardman, master Lewis school; Mr. Charles W. Hill, master Bowditch school.

Mr. E. P. Sherburne, master Lowell school; Mr. H. B. Miner, master Everett school; and Mr. Jos. T. Ward, Jr., master Minot school.

The Wollaston Lodge, K. of H. was present in a body. The teachers and a large number of the pupils of the Martin school were present, as well as representatives of the city government and the school committee.

Republican Secure Delay but Majority of Democrats Were Against Them.

All the members of the City Council were present at the regular meeting held Monday evening, and it looked at one time as though the city debt would jump up $25,000. But Republicans checked the passage of the orders.

Jurors Drawn.

Three jurors were drawn as follows: Eben H. Sanborn, John H. Newcomb and William Winlock.

Greater Boston.

Upon request of the Metropolitan District Commission the use of the Council chamber was granted for a hearing Dec. 10.

Health Matters.

Mayor Hodges forwarded a request of the Board of Health, for an additional appropriation of $100 for emergencies.

Also one relative to salary of inspector of plumbing and assistant. Both referred.

Petitions.

Petitions were presented for the acceptance of Nightingale and California avenues, by Ellen A. Murphy and another party for abatement of taxes. All referred.

Reports.

The Committee on Salaries reported inexpedient to legislate on the Mayor's recommendation to increase salary of City Clerk. Accepted.

The Committee on Finance reported favorably on the order appropriating $300 for Copeland street. Passed.

The same committee favored the transfer of $100 to police station. Took second reading.

The same committee favored the order appropriating $3,600 for school lot at Norfolk Downs and $3,000 for school lot at "the Rail" and both were advanced a stage.

Several licenses were granted, and an unfavorable report on amending the ordinance; accepted.

Leave to withdraw was reported on the petition for arc light on Buckley street, and acceptance of Nelson street; accepted.

The petition for arc light on Washington and Appleton streets, were upon report referred to the executive department.

At eight o'clock a hearing was to have been given on the relocation of Quarry street, but sickness preventing the appearance of Peter T. Fallon, the hearing was postponed to Dec. 13.

Fahey & Milford were granted leave to run guy across Bates avenue.

Ought not to pass was reported on order to pave portion of Granite street, and to straighten Quarry street; accepted.

The Committee on Streets reported no legislation necessary on petition for poles on a certain street, as poles had been erected. Referred back.

There was also a report relative to the claim of Mr. Bryant for damages on Old Colony street.

The order appropriating $14,568 for Coddington street came up for passage, but upon motion of Councilman Anderson was postponed.

The $4000 order for Adams street was also postponed. This action was favored by Anderson and Holden and opposed by Lamb and Rooney. The vote was by yea and nay 15 to 7.

YEAS—Adams, Anderson, Babcock, Baker, Bigelow, Clark, Holbrook, Holden, Johnson, Litchfield, Moxon, Robbins, Shackley, Snow and Waterhouse—15.

At 8.20 the Council adjourned to meet Dec. 13.

THE LITERARY SOCIETY

Dr McLennan Absent and a Hat Night Was Substituted.

The Quincy Literary society held its regular meeting in Doble's building on Friday evening, the Vice President Mr. Wm. Traynor in the chair.

The subject for the evening was to be a lecture by the President, Dr. McLennan, upon "The use and abuse of alcohol, opiates and chloral," but unfortunately, at the last moment it was made known that the genial doctor was prevented from being present by sickness.

Although the manuscript he had prepared on the topic was considerately sent to the meeting, it was deemed advisable in view of the techincal character of the subject to postpone its reading and discussion until the writer could personally submit his views.

In order to occupy the evening in an interesting, and at the same time profitable manner, it was decided to resort to that never-failing standby of well regulated literary societies—a hat night. A variety of discussive themes were deposited in the hat and every member in turn withdrew a slip, and spoke upon the subject indicated thereon.

The matters discussed were of an extremely varied character, and he was indeed destitute of ideas who failed to abstract some mental benefit from the restricted verbal exchanges.

Final arrangements were made for the lecture Monday, Dec. 3, by Prof. F. Parsons upon "Political corruption." The lecturer is connected with the Boston University law school and is one of the most popular exponents of political economy in this locality.

The subject for the regular meeting of the society next Friday evening is an essay by Mr. William Taylor, upon "Some Works of Fiction."

Reception in Ward Six.

Stephen O. Moxon, the Republican candidate for Mayor, was given a rousing reception in his own ward last night. Music hall was crowded, and the Atlantic band was at its best.

Ex-Councilman H. W. Read presided and stirring speeches were made by ex-Mayor Fairbanks, Auditor Hall, Senator Merrill, ex-representative Graham, and Candidates Shackley, Bigelow, Anderson, Johnson, Sprague, Barker and Moxon. Much enthusiasm was manifest.

Mr. Ralph E. Crane is quite sick with diphtheria.

The many rumors that other children of Mr. W. E. Brown are sick with diphtheria is without foundation.

Rev. Mr. Steele will present at length in the DAILY LEDGER tomorrow, his side of the South Quincy Presbyterian church case.

A gentleman living in Weymouth who has a married daughter living in Quincy, became father and grandfather within ten minntes on Sunday afternoon last.

The officers of Rural lodge for the ensuing year will be installed at the next regular communication by Rt. Wor. Herbert I. Mitchell, District Deputy Grand Master of the 24th Masonic district.

An adjourned meeting of the School Committee will be held this evening when action relative to reopening the schools will be taken. The Coddington and Adams should continue closed.

HURTS HAVEMEYER.

Sugar Trust President Thinks That the President's Views Are Against Interests of Workingmen.

NEW YORK, Dec. 4.—President Havemeyer of the American Sugar Refining company, yesterday afternoon gave out the following signed statement:

"If anyone will fairly and dispassionately consider the president's recommendation about sugar, it will become apparent that it comes down to this: 'The sugar company has taken action, the result of which is to deprive temporarily of work 25,000 persons employed in the various industries dependent upon the refining of sugar, together with the members of their families I recommend such action as to deprive those persons of work permanently. If the industry is languishing the proper course is to destroy it.'

"There are some things which can be established through a demonstration. A comparison of the duty put by the tariff bill upon various articles will show that while the maximum protection accorded to sugar is 5 per cent, others and more favored articles receive protection up to 40 per cent and 50 per cent.

"Why this discrimination should be made against a large number of persons who hold the stock in the company and are employed in its refineries, it is impossible to say. They protest against it. The answer to this protest in the president's message is, that the present protection is inadequate, it ought to be removed altogether.

"The country has already pronounced its judgment upon the mode in which the last congress dwelt with the interests of workingmen. It ought not to require much time for workmen to appreciate the fact that the president, in a bid for personal popularity, is willing to strike a death blow at their interests.

Grand Jury Ordered to Investigate.

PROVIDENCE, Dec. 4.—A sensation was created in the supreme courtroom yesterday, when Judge Wilbur ordered the grand jury to investigate the cases of William Occleston and William E. Payne, two prominent residents of Pawtucket, who had been excused from jury duty. Judge Wilbur stated that he believed that they committed perjury when they testified that they did not know the value of their property, and they should be at once indicted.

In Woman's Cause.

BOSTON, Dec. 4.—The New England Woman's Suffrage fair opened last night in Horticultural hall. Women's leagues of Hartford, Concord, N. EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

MORE MAY FOLLOW.

Portland Aldermen Endorse the Mayor's Discharge of Policemen—Some Interesting Disclosures.

PORTLAND, Me., Dec. 4.—At a meeting of the board of aldermen last night, Mayor Baxter requested the board to endorse his action in removing Officers Dana H. Miles and Fred Norton from the police force, for accepting bribes from liquor dealers and others.

In justification of this request, testimony as given before the police committee was read. It showed that Officer Dana H. Miles had taken money from various liquor dealers and keepers of houses of ill-fame, in return promising them police protection.

The testimony was very lengthy and showed that Officer Norton had made a confession of his share in the business to Alderman Thompson. Norton stated that he wished to make a cleanbreast of the business, because he could not keep it to himself any longer. He said his conscience troubled him so that he thought he must tell someone about the matter.

Miles denied the whole story, but the board of aldermen approved of the mayor's action in removing the officers from the force and denied Miles' attorney the right of having a hearing. It was shown by the testimony that suspicion rests upon several other officers of the police force of accepting many for police protection. A thorough investigation of the whole police force may follow.

All Precedents Upset.

BRIDGEPORT, Conn., Dec. 4.—A decision which upsets all precedents was made by Justice Bonner of Fairfield, awarding William Barnes $85 damages and costs against the Connecticut Humane society. State Agent G. W. Thrall of the society ordered two horses taken from Bonner's barn and killed, and the owner brought suit, claiming the society exceeded its authority.

A Close Call.

ANSONIA, Conn., Dec. 4.—A driving-wheel of an engine on the Ansonia branch of the New York, New Haven and Hartford road broke, derailing the engine and two cars on a trestle over the Naugatuck river. The passengers were badly shaken up. The cars and engine ran quite a distance on the ties, but did not leave the trestle.

Unwonted Expedition.

WASHINGTON, Dec. 4.—There is not now an unfilled requisition for the new bonds. The bureau of engraving and printing turned out the new bonds with an expedition heretofore unknown, and enabled the treasury to deliver the bonds in advance of the promised time.

Ordered to Boston.

NEW LONDON, Conn., Dec. 4.—The next war vessel to be tried on the Long Island course will be the government ram Katahdin, built at Bath. She has been ordered to the dry dock at Boston, where she will be hauled out, cleaned and put in condition for the run.

Of the Atrocities Perpetrated Upon Armenians by Turks.

NO MERCY WAS SHOWN VICTIMS.

Confirmation of Stories of Outrages and Slaughter.

ATHENS, Dec. 4.—Twenty Armenian refugees have arrived here from Armenia after a journey full of hardships and suffering. An interpreter questioned the unfortunate refugees concerning the terrible events which occurred in Armenia, and of which they had in a number of cases been eye witnesses.

With every mark of horror and indignation the Armenians told the interpreter of the horrible scenes they had witnessed. The latter thoroughly cross-questioned them in order that there should be no doubt as to the accuracy of their stories. This party of Armenians is the first that have escaped from the districts where the massacres have occurred, and it is believed that even worse remains to be told, as the horrors recorded are understood to have lasted for a long time after this party of Armenians fled from the blood-stained districts.

Most of the persons escaped from Moosh, Bitlis and Sassoun, taking with them what little they could carry and making their way with the greatest difficulty to the Russo-Turkish frontier, and going to Erivan and Etchmiadzin, in the Russian dominions.

Several Armenian women escaped from the villages with the party which has arrived here; but when near Erzeroum, they died from the effects of saber wounds inflicted upon them before their escape.

The Second Massacre.

For about 18 months, the Armenian refugees say the province of Sassoun has been surrounded by Turkish troops, and nobody has been allowed to enter or to leave. About four months ago the Turkish authorities learned that the inhabitants of Vartemis, a village outside the frontier of Sassoun, were sending for the necessaries of life to the village of Dalvorig. Such communication between the two villages being prohibited, the Turks massacred nearly all the inhabitants of Vartemis. This was the second massacre to occur. The first took place about a year ago.

One of the refugees, named Khadjik, states that his uncle and aunt were among the killed, the latter being violated previous to being put to death He adds that an Armenian priest, named Kevont, was killed for refusing to celebrate Turkish rites in his church at Vartemis. The village contained 325 Armenian houses before the Turks attacked it, but when the fugitives left only 25 houses remained standing.

The Slaughter at Dalvorig.

Dalvorig, it appears, is the largest village in the province of Sassoun, and its inhabitants, when they learned of the horrors perpetrated by the Turks at Vartemis, attacked the Turks on the frontier. The Turkish commander eventually sent 12 soldiers into Dalvorig in order to learn what had occurred. The Armenians, filled with indignation at the atrocities committed by the Turks at Vartemis, attacked this detachment of Turkish soldiers and put them all to death.

When the Turkish commander heard of the death of his soldiers he determined upon avenging it in the most bloody manner possible. A strong force of Turkish troops was sent to the village with artillery and the massacre began. The guns kept up a continuous fire upon Dalvorig until practically not one stone was left standing upon another.

Worse Than Brutes.

Selo, the bey of Initzoun, a Kurd, with a detachment of Kurdish cavalry, went with the Turkish soldiers to the village of Semal and forcibly took the Armenian priest from his church after disgustingly defiling the sacred vessels and the priest's hands. They then bound him on a donkey, after which the soldiers killed the priest and the beast he was bound to. The soldiers then entered an Armenian house and violated a woman and her young daughter. From this village Selo forcibly took eight Armenian girls and sent them to his harem at Initzoun.

Further atrocities were committed by the Turks at the village of Kelichuezen. Before dawn this place were surrounded by soldiers, and while the inhabitants were still asleep it was set on fire. The soldiers entered the residence of a man named Arakel and tortured him and his wife both internally with red hot iron.

At Kelichuezen the soldiers killed the Armenian priest, who, with 20 other inmates of the house, was burned to death, the soldiers preventing anybody from escaping from the burning dwellings.

The chief of the village of Cheneg was captured by the soldiers and bound to his two daughters. All three were then scalded to death with boiling water.

Schoolgirls Ravished.

A detachment of 25 regulars of the Turkish cavalry, after committing inexpressible horrors at the village of Sebghank, went to the village school and ravaged the girls they found there. The cavalry men then devastated the building.

Ibo Bey, a notorious Kurd brigand of the village of Djibran and a colonel of the regular army, went with a detachment of Turkish troops to the Armenian villages of Bahlou, Hatezgent and Komk, and at each place they committed every crime which it was possible to commit.

After driving out the men, they collected the female children of Bahlou together, about 200 in all, and after ravishing them, they killed them all with guns and swords. After this massacre, the Turkish soldiers regaled themselves with wine and whatever else they could find in the village.

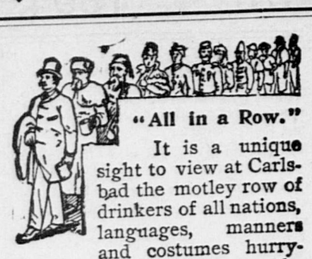

The Kurdish regular troops from Kizan and Bahran entered the Armenian villages of Aliandzig and Agnteg, killed the inhabitants and wrecked their houses.

The number of villages devastated in this manner is said to be over 32. The Armenians fled in every possible direction, but many of them were captured by the Turkish troops before they could get away and were taken to prison.

Khadjuk, who was the principal spokesman of the Armenian refugees, told the whole story in a most convincing manner.

A Pasha's Reward.

VIENNA, Dec. 4.—The sultan has decorated Zekki Pasha with the Nichan-I-Imtiaz order in brilliants, for suppressing the Bitlis revolt.

"All in a Row."

It is a unique sight to view at Carlsbad the motley row of drinkers of all nations, languages, manners and costumes hurrying down in single file to the boiling Sprudel Spring with an earthenware mug in their hands, or slung by a strap round the neck or over the shoulder, and patiently waiting their turn to sip of the precious fluid. For three centuries or more, all sorts and conditions of men, from the king to the tramp have pilgrimized hither in search of new life or relief from pain. But we cannot in these competitive days afford the time and money to travel so far afield, so it is brought to your doors bottled in its natural and original form at the Spring, or in powder evaporated on the spot, and so well known as the Carlsbad Sprudel Water, and Carlsbad Sprudel Salt. The signature, "EISNER & MENDELSON Co., Sole Agents, New York," is on every bottle. Beware of imitations.

STATESMEN'S VIEWS.

Varying Opinions as to the President's Many Recommendations.

IT IS ENDORSED BY DEMOCRATS

While Republicans In General Find Much to Criticise.

WASHINGTON, Dec. 4.—Speaker Crisp said last evening that he had no opportunity to examine the message carefully, and was not prepared to express an opinion until he had done so.

Mr. Reed (Me.) declared he had nothing to say with regard to the message, as did Mr. Burrows (Mich.) had no comment to make.

Mr. Dingley (Rep., Me.) said: "The president's recommendation that imported foreign built steamships be placed on the free list and admitted to American register is a curious reversal of the free raw material doctrine which the president has delighted to exploit. When completed steamships are placed on the free list, consistency requires that every other manufacture go there. The cool manner in which the president announces that under the new Democratic revenue laws a deficiency exists and will continue to exist during the fiscal year, and all the administration proposes to do is to continue to sell bonds to meet the deficit, is delightfully refreshing."

Mr. Tracey (Dem., N. Y.) said he would favor some sort of a banking scheme as suggested by the president, which would divorce the issue of circulating notes from the government, but he did not think any financial legislation would be enacted by this congress.

Mr. Catchings (Dem., Miss.) strongly endorsed the president's financial scheme which, he said, had no relation with the silver question. "I think also," said General Catchings, "that the abolition of the differential duty on refined sugar recommended by the president will very likely pass. It will be difficult for a representative or senator to refuse to vote on the bold proposition against the sugar trust."

Mr. Reilly (Dem., Pa.), speaking of that portion of the president's message which refers to the Union Pacific railroad, says: "It is a matter of great importance, and the interests of the government are enormous. In view of the fact that the indebtedness of this company to the government is about maturing, the necessity of some legislation on the part of congress is apparent."

Western and Southern Sentiment.

Mr. Outhwaite (Dem., O.) said it was an able presentation of the state of the government's affairs, and particularly commended the president's recommendation for striking out the differential on refined sugar.

Mr. Bryan (Dem., Neb.) said he was opposed to any financial scheme which would give private individuals the power to issue money.

Mr. Harter (Dem., O.) characterized the president's banking scheme as a step in the right direction, but personally he thought it ought to go further. He expressed his regret that the president had not suggested a plan for the gradual withdrawal of the greenbacks.

Mr. Springer (Dem., Ills.) said the president's suggestions in reference to the tariff are wise and timely. When published, Mr. Springer would give Secretary Carlisle's currency recommendations careful and earnest consideration, and would also call a meeting of the committee on banking and currency and arrange for the prompt consideration of the subject.

Mr. Bailey (Dem., Tex.), speaking of the banking scheme of the president, said: "I am opposed to the government becoming a surety for the promissory notes of any business corporation, even though it be a bank."

Mr. Wilson expressed his gratification over the president's vigorous recommendation of the free coal and iron bills sent to the senate, and his endorsement of the recommendation for the abolition of the differential on refined sugar.

Mr. Hall (Dem., Mo.) characterized the message as an able and courageous document.

Senatorial Opinions.

Mr. Platt (Rep., Conn.): "There is certainly nothing striking or sensational in the present message."

Mr. Hoar (Rep., Mass.): "It is a message without vigor or courage, indicating in every sentence the president's consciousness of public disapproval. Can this be haughty Marmion?"

Mr. Mitchell (Rep., Or.): "His whole financial scheme is impossible. It is a proposition really going back to old wildcats."

Mr. Pasco (Dem., Fla.): "I would like to see the state bank plan elaborated. There is no reason why the recommendations on sugar tariff should not be carried out. But I do not think they will be."

Mr. Blanchard (Dem., La.): "I approve of the state bank recommendation. I am opposed to the repeal of the 1-8 and 1-10 of a cent differential on sugar, for the reason that 74 per cent of the 7,000,000 pounds of sugar produced in Louisiana shares in the differential."

Mr. Hansbrough (Rep., N. D.): "I had heard that the president was suffering from the gout, and the message confirms it. He recommends a decrease in the tariff and makes no recommendation for the increase of revenues."

Mr. Harkins (Rep., Cal.): "I like his recommendation for an increase in the navy, but am opposed to his free silver proposition."

Mr. Vilas (Dem., Wis.): "It is a business message."

Mr. Chandler (Rep., N. H.): "The message ignores the fact that we have a great silver question on hand, and it almost ignores the tariff question, except in referring to the "pop-gun" bills, and in making the absurd proposal of admitting free ships, in order to help American shipping."

Friday evening prayer meeting at Wollaston Baptist church at 7.45.

John R. Graham left this morning for New York on a brief business trip.

Mr. Charles F. Merrick had charge of the Y. P. S. C. E. meeting, at the Memorial church.

The street railway has notified Mayor Hodges that it will not accept the location granted on Willard street.

D. D. G. M., Franklin Jacobs and suite made an official visit to Bethesda lodge at South Boston Monday evening.

The Tuesday evening prayer meeting of the Wollaston Baptists will be held at the house of Mr. L. F. Patterson on Farrington street.

The new organ of Christ church will be opened on Thursday evening, at 7.45 o'clock. Seats will be reserved for holders of tickets until 7.30 o'clock.

The Quincy High School foot ball team defeated the A. A's. of Boston at the park Nov. 29, by a score of 28 to 0. An extended report of the game was sent in but has been crowded out from day to day.

The Rev. Preston Gurney preached a very able sermon Sunday at the First Baptist church, Wollaston. Subject: "New Realization of Divine Things."—Eccl. 16:15.

Thursday evening the monthly church sociable of the Wollaston Baptists will be held. An oyster supper will be served at 7 o'clock, after which an interesting entertainment will be given.

Herbert W. Beattie has just completed models for the interior decoration of Christ's church, Ansonia, Conn. Also the mounted cavalry-man to be placed on the Chickamauga Battlefield by 3d Ohio cavalry.

Judge Flint rendered his decision this morning in the case of James Dunn against Charles H. Penniman. This was a suit brought by Dunn for $300 against Penniman for slander. The court gave a verdict against Penniman for $1 without costs.

The popular interest in China, the Flowery Kingdom, has greatly increased within the last few months. A good way in which to become better informed as to the manners, dress, language and daily life of the Chinese will be to attend the entertainment given by the Epworth League in the church vestry, Thursday evening, at 7.30. It will be an evening in Pekin and will be given under charge of Miss Clara M. Cushman, late of Pekin. There will be 25 persons in costume representing priests, soldiers, watchmen, bride, mourners, teacher and pupils, etc.

In the Presbyterian church Sunday at 10.30 A. M. the Rev. R. W. Peach preached on "Heaven as revealed by the Spirit" and read as his text 1 Cor. 2:9 "Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him." In the evening his address was devoted to the No-license problem. His text was: Prov. 19:17, "He that hath pity upon the poor lendeth unto the Lord; and that which he hath given will he pay him again." His discourse would delight all the champions of this reform and it is not too much to hope that every voter who listened to it will cast his ballot on Tuesday for No-license and morality.

Quincy has good workmen in stone. There is a massive statue of "Peace" in Fuller's stone shed at West Quincy, cut by E. W. Fuller, who has been at work for four months on the statue and has produced something worth a visit and study. It is a female figure in a sitting posture, with an olive branch resting on one of the arms, the drapery is flowing and easy, and the expression of the face and eyes is beyond what we thought could be expressed in granite. It is six feet, six inches high, and will weigh three thousand pounds. The stone is from Westerly, R. I., and wos ordered by the New England Monument Association. It has recently been finished and is awaiting shipment to New York.

BURNS IS SHOCKED.

Sections of New York Are Far More Filthy Than Whitechapel.

VILE STREETS AND TENEMENTS.

He Fails to See How City Can Escape Pestilence.

NEW YORK, Dec. 4.—In an interview last night. John Burns, M. P. of England, said he had visited the Bowery, Chinatown and other parts of the city. "New York is dirty, filthy and presumably unhealthy beyond description," said he. "The Whitechapel district of London is clean in comparison with the sections I have visited today. We have nothing in London approachable to the horrible condition of your tenement houses. It would be impossible in London. The building act regulations in regard to light and air, which are rigidly enforced, would make it simply impossible for the existence of such habitations for human beings as obtain here.

JOHN BURNS.

"As for your streets they are vile. I have seen more different kinds of pavements in two hours in this city than I ever saw before in all my life. It is frightful; it is shocking. Your tramway rails project so high above the street surface as to form veritable gutters for water and filth. There does not, so far as I have been able to discover, seem to have been the smallest engineering effort made to make the streets clean or the city healthy.

"It would seem to me that your Tammany, which has been in charge of municipal affairs and improvements for so many years, had entered into a deliberate contract to kill off the population. How you escape from great epidemics I do not understand."

Public Censor Needed.

He thinks that the disgraceful height to which buildings have been reared in New York, is good proof of the the needs of a public censor. He holds that there ought to be supervising municipal board of architects, which would insure a harmonious whole in the buildings of the city.

The greatest display of good taste and genuine artistic workmanship which he has been able to discover in this city, is shown in connection with the saloons. He has been greatly impressed by the splendor of the American bars, and speaks of the lavish use of onyx, bronze and brass in connection with these establishments, as exemplifying what could be done for the beautifying of the city were the same methods adopted in public as in private enterprises.

When shown a private statement to the effect that the Socialistic Labor party of this city had declined to accept him as a representative labor leader, Mr. Burns smiled and said: "That shows that the 'three tailors of Tooley street' are not confined alone to London."

A mass meeting of the trades unionists of New York and Brooklyn was held last night in Cooper Union. The hall was crowded and the chief speakers were John Burns and David Holmes, the British delegates to the convention of the American Federated Trades and Labor union.

Bangor Felt Proud.

BANGOR, Me., Dec. 4.—The Bangor football team, which won the state high school championship from Portland, celebrated the event last night. After a tea in the Y. M. C. A. building, where pretty girls lavished admiring glances and ham sandwiches on the rushers, a torchlight street parade was held, while church bells rang and tin horns and torpedoes made night hideous.

Killing Didn't Come Off.

BOSTON, Dec. 4.—John B. Moran spoke at three rallies of the Independent Democrats last evening. Instead of the turbulent scenes, which had been predicted, everything was calm and peaceful. There was no trace of any disposition to kill him, as had been threatened by a certain politician.

Sawmill Boiler Exploded.

PROVIDENCE, Dec. 4.—Two men were instantly killed yesterday and four other persons were seriously, if not fatally injured, by the explosion of a boiler in a sawmill at Greene, the force of the the explosion carrying the heavy shell 240 feet. Mill, engine and boiler were totally wrecked.

Three Cars Went Overboard.

WHITEHALL, N. Y., Dec. 4.—A Delaware and Hudson passenger train was thrown from the track near Port Henry. The express, mail and baggage cars were thrown into the lake. The other cars remained on the bank. The conductor and several passengers were slightly injured.

Will Stay In the Eastern.

SPRINGFIELD, Mass., Dec. 4. — At a special meeting of the stockholders of the Springfield Baseball club it was decided to call upon each stockholder for a small assessment, sufficient to pay all outstanding liabilities, and to continue in the Eastern league next season.

Elected by Two Votes.

NEW LONDON, Conn., Dec. 4.—In the recount yesterday of the mayoralty vote cast in this city last October, James P. Johnson (Dem.), is found to have a majority of two votes, and counsel for petitioner, A. J. Bentley, has relinquished further contest.

Sixty Years In Business.

LYNN, Mass., Dec. 4.—D. B. Waitt died yesterday at the age of 75. For 60 years he had been engaged in the shoe manufacturing business.

The Churchman of London is worked up over a religious article recently written by Mr. Gladstone. "Space," it says, "forbids our dealing more particularly with the clever but dangerous teaching of this article, which leaves us in doubt as to whether the marvelous man will die a Roman Catholic or a Baptist. Neither would much surprise us."

MORE MAY FOLLOW.

Portland Aldermen Endorse the Mayor's Discharge of Policemen—Some Interesting Disclosures.

PORTLAND, Me., Dec. 4.—At a meeting of the board of aldermen last night, Mayor Baxter requested the board to endorse his action in removing Officers Dana H. Miles and Fred Norton from the police force, for accepting bribes from liquor dealers and others.

In justification of this request, testimony as given before the police committee was read. It showed that Officer Dana H. Miles had taken money from various liquor dealers and keepers of houses of ill-fame, in return promising them police protection.

The testimony was very lengthy and showed that Officer Norton had made a confession of his share in the business to Alderman Thompson. Norton stated that he wished to make a cleanbreast of the business, because he could not keep it to himself any longer. He said his conscience troubled him so that he thought he must tell someone about the matter.

Miles denied the whole story, but the board of aldermen approved of the mayor's action in removing the officers from the force and denied Miles' attorney the right of having a hearing. It was shown by the testimony that suspicion rests upon several other officers of the police force of accepting many for police protection. A thorough investigation of the whole police force may follow.

All Precedents Upset.

BRIDGEPORT, Conn., Dec. 4.—A decision which upsets all precedents was made by Justice Bonner of Fairfield, awarding William Barnes $35 damages and costs against the Connecticut Humane society. State Agent G. W. Thrall of the society ordered two horses taken from Bonner's barn and killed, and the owner brought suit, claiming the society exceeded its authority.

A Close Call.

ANSONIA, Conn., Dec. 4.—A driving-wheel of an engine on the Ansonia branch of the New York, New Haven and Hartford road broke, derailing the engine and two cars on a trestle over the Naugatuck river. The passengers were badly shaken up. The cars and engine ran quite a distance on the ties, but did not leave the trestle.

Unwonted Expedition.

WASHINGTON, Dec. 4.—There is not now an unfilled requisition for the new bonds. The bureau of engraving and printing turned out the new bonds with an expedition heretofore unknown, and enabled the treasury to deliver the bonds in advance of the promised time.

Ordered to Boston.

NEW LONDON, Conn., Dec. 4.—The next war vessel to be tried on the Long Island course will be the government ram Katahdin, built at Bath. She has been ordered to the dry dock at Boston, where she will be hauled out, cleaned and put in condition for the run.

Captain Brewer.

CAMBRIDGE, Mass., Dec. 4.—Charlie Brewer will captain the Harvard football team next season. This was decided at the election yesterday afternoon. Brewer knows the game, has the confidence of the players, is universally popular and an all-round athlete.

Confessed His Guilt.

HAVERHILL, Mass., Dec. 4.—A. G. Clay was arrested last night, charged with setting fire to his store. He claimed that the place had been robbed, and that the fire was set to conceal the fact. Shortly after being arrested he confessed.

Lynn Boy Drowned.

LYNN, Mass., Dec. 4.—Edgar Duntley, aged 9, and a number of others were playing upon the ice on Sluice pond near the shore. Young Duntley advanced toward the center of the pond and broke through and was drowned.

Mr. Ralph E. Crane is quite sick with diphtheria.

The many rumors that other children of Mr. W. E. Brown are sick with diphtheria is without foundation.

Rev. Mr. Steele will present at length in the DAILY LEDGER tomorrow, his side of the South Quincy Presbyterian church case.

A gentleman living in Weymouth who has a married daughter living in Quincy, became father and grandfather within ten minntes on Sunday afternoon last.

The officers of Rural lodge for the ensuing year will be installed at the next regular communication by Rt. Wor. Herbert I. Mitchell, District Deputy Grand Master of the 24th Masonic district.

An adjourned meeting of the School Committee will be held this evening when action relative to reopening the schools will be taken. The Coddington and Adams should continue closed.

Reception in Ward Six.

Stephen O. Moxon, the Republican candidate for Mayor, was given a rousing reception in his own ward last night. Music hall was crowded, and the Atlantic band was at its best.

Ex-Councilman H. W. Read presided and stirring speeches were made by ex-Mayor Fairbanks, Auditor Hall, Senator Merrill, ex-representative Graham, and Candidates Shackley, Bigelow, Anderson, Johnson, Sprague, Barker and Moxon. Much enthusiasm was manifest.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles

ADDITIONAL DETAILS

Of the Atrocities Perpetrated Upon Armenians by Turks.

NO MERCY WAS SHOWN VICTIMS.

Confirmation of Stories of Outrages and Slaughter.

ATHENS, Dec. 4.—Twenty Armenian refugees have arrived here from Armenia after a journey full of hardships and suffering. An interpreter questioned the unfortunate refugees concerning the terrible events which occurred in Armenia, and of which they had in a number of cases been eye witnesses.

With every mark of horror and indignation the Armenians told the interpreter of the horrible scenes they had witnessed. The latter thoroughly cross-questioned them in order that there should be no doubt as to the accuracy of their stories. This party of Armenians is the first that have escaped from the districts where the massacres have occurred, and it is believed that even worse remains to be told, as the horrors recorded are understood to have lasted for a long time after this party of Armenians fled from the blood-stained districts.

Most of the persons escaped from Moosh, Bitlis and Sassoun, taking with them what little they could carry and making their way with the greatest difficulty to the Russo-Turkish frontier, and going to Erivan and Etchmiadzin, in the Russian dominions.

Several Armenian women escaped from the villages with the party which has arrived here; but when near Erzeroum, they died from the effects of saber wounds inflicted upon them before their escape.

The Second Massacre.

For about 18 months, the Armenian refugees say the province of Sassoun has been surrounded by Turkish troops, and nobody has been allowed to enter or to leave. About four months ago the Turkish authorities learned that the inhabitants of Vartemis, a village outside the frontier of Sassoun, were sending for the necessaries of life to the village of Dalvorig. Such communication between the two villages being prohibited, the Turks massacred nearly all the inhabitants of Vartemis. This was the second massacre to occur. The first took place about a year ago.

One of the refugees, named Khadjik, states that his uncle and aunt were among the killed, the latter being violated previous to being put to death He adds that an Armenian priest, named Kevont, was killed for refusing to celebrate Turkish rites in his church at Vartemis. The village contained 325 Armenian houses before the Turks attacked it, but when the fugitives left only 25 houses remained standing.

The Slaughter at Dalvorig.

Dalvorig, it appears, is the largest village in the province of Sassoun, and its inhabitants, when they learned of the horrors perpetrated by the Turks at Vartemis, attacked the Turks on the frontier. The Turkish commander eventually sent 12 soldiers into Dalvorig in order to learn what had occurred. The Armenians, filled with indignation at the atrocities committed by the Turks at Vartemis, attacked this detachment of Turkish soldiers and put them all to death.

When the Turkish commander heard of the death of his soldiers he determined upon avenging it in the most bloody manner possible. A strong force of Turkish troops was sent to the village with artillery and the massacre began. The guns kept up a continuous fire upon Dalvorig until practically not one stone was left standing upon another.

Worse Than Brutes.

Selo, the bey of Initzoun, a Kurd, with a detachment of Kurdish cavalry, went with the Turkish soldiers to the village of Semal and forcibly took the Armenian priest from his church after disgustingly defiling the sacred vessels and the priest's hands. They then bound him on a donkey, after which the soldiers killed the priest and the beast he was bound to. The soldiers then entered an Armenian house and violated a woman and her young daughter. From this village Selo forcibly took eight Armenian girls and sent them to his harem at Initzoun.

Further atrocities were committed by the Turks at the village of Kelichuezen. Before dawn this place were surrounded by soldiers, and while the inhabitants were still asleep it was set on fire. The soldiers entered the residence of a man named Arakel and tortured him and his wife both internally with red hot iron.

At Kelichuezen the soldiers killed the Armenian priest, who, with 20 other inmates of the house, was burned to death. the soldiers preventing anybody from escaping from the burning dwellings.

The chief of the village of Cheneg was captured by the soldiers and bound to his two daughters. All three were then scalded to death with boiling water.

Schoolgirls Ravished.

A detachment of 25 regulars of the Turkish cavalry, after committing inexpressible horrors at the village of Sebghank, went to the village school and ravaged the girls they found there. The cavalry men then devastated the building.

Ibo Bey, a notorious Kurd brigand of the village of Djibran and a colonel of the regular army, went with a detachment of Turkish troops to the Armenian villages of Bahlou, Hatezgent and Komk, and at each place they committed every crime which it was possible to commit.

After driving out the men, they collected the female children of Bahlou together, about 200 in all, and after ravishing them, they killed them all with guns and swords. After this massacre, the Turkish soldiers regaled themselves with wine and whatever else they could find in the village.

The Kurdish regular troops from Kizan and Bahran entered the Armenian villages of Allandzig and Agnteg, killed the inhabitants and wrecked their houses.

The number of villages devastated in this manner is said to be over 32. The Armenians fled in every possible direction, but many of them were captured by the Turkish troops before they could get away and were taken to prison.

Khadjuk, who was the principal spokesman of the Armenian refugees, told the whole story in a most convincing manner

A Pasha's Reward.

VIENNA, Dec. 4.—The sultan has decorated Zekki Pasha with the Nichan-I-Imtiaz order in brilliants, for suppressing the Bitlis revolt.

HURTS HAVEMEYER.

Sugar Trust President Thinks That the President's Views Are Against Interests of Workingmen.

NEW YORK, Dec. 4.—President Havemeyer of the American Sugar Refining company, yesterday afternoon gave out the following signed statement:

"If anyone will fairly and dispassionately consider the president's recommendation about sugar, it will become apparent that it comes down to this: 'The sugar company has taken action, the result of which is to deprive temporarily of work 25,000 persons employed in the various industries dependent upon the refining of sugar, together with the members of their families I recommend such action as to deprive those persons of work permanently. If the industry is languishing the proper course is to destroy it.'

"There are some things which can be established through a demonstration. A comparison of the duty put by the tariff bill upon various articles will show that while the maximum protection accorded to sugar is 5 per cent, others and more favored articles receive protection up to 40 per cent and 50 per cent.

"Why this discrimination should be made against a large number of persons who hold the stock in the company and are employed in its refineries, it is impossible to say. They protest against it. The answer to this protest in the president's message is, that the present protection is inadequate, it ought to be removed altogether.

"The country has already pronounced its judgment upon the mode in which the last congress dwelt with the interests of workingmen. It ought not to require much time for workmen to appreciate the fact that the president, in a bid for personal popularity, is willing to strike a death blow at their interests.

Grand Jury Ordered to Investigate.

PROVIDENCE, Dec. 4.—A sensation was created in the supreme courtroom yesterday, when Judge Wilbur ordered the grand jury to investigate the cases of William Occleston and William E. Payne, two prominent residents of Pawtucket, who had been excused from jury duty. Judge Wilbur stated that he believed that they committed perjury when they testified that they did not know the value of their property, and they should be at once indicted.

In Woman's Cause.

BOSTON, Dec. 4.—The New England Woman's Suffrage fair opened last night in Horticultural hall. Women's leagues of Hartford, Concord, N. H.; Fall River, Fitchburg, Worcester, Woburn and many other towns were represented. Mrs. Julia Ward Howe presided at the speechmaking, and among the speakers were Mrs. Howe, Miss Frances E. Willard, Lady Henry Somerset and Mrs. Mary A. Livermore.

Invited by Dr. Briggs.

NEW YORK, Dec. 4.—Probably for the first time in the history of any Protestant divinity school in this country, the Union Theological Seminary lecture platform was occupied last evening by a priest of the Roman Catholic church. Rev. Alexander P. Doyle of the Paulist Fathers was the speaker. His subject was, "Methods of Teaching." Rev. Dr. Briggs extended the invitation to Father Doyle.

The America's Cup.

NEW YORK, Dec. 4.—A special meeting of the New York Yacht club was held last evening to receive the report of the America's cup committee. Secretary Canfield asked for the passage of a resolution giving the cup committee entire control of any further arrangements concerning the challenge. This was unanimously carried.

Used Duplicate Keys.

HOBOKEN, N. J., Dec. 4.—The postoffice here was robbed in broad daylight of $7350 worth of postage stamps, which were taken from one vault in the private office of Postmaster Curren, entrance to both office and vault being effected during the absence of the postmaster, by the use of duplicate keys.

Another Victim of Oysters.

MIDDLETOWN, Conn., Dec. 4. — Word was received here last evening of the death of Joseph A. Dilks, Jr., at Pemberton, N. J., of typhoid fever. He is the fourth victim of typhoid fever occasioned by eating diseased oysters at the fraternity initiation banquet. Dilks was a son of Rev. J. A. Dilks.

Justified In Shooting.

SALEM, Mass., Dec. 4.—Captain Frey of Beverly, who on the night of Nov. 17 shot Peter Campbell, after ordering Campbell and J. J. Coleman from his vessel, which was lying at a wharf, was discharged in the district court here, as the judge was of the opinion the force used was necessary

Mrs. Warhurst's Punishment.

FALL RIVER, Mass., Dec. 4.—Eliza Warhurst was tried yesterday, charged with assault with a hatchet on Ezekiel S. Lake. She was adjudged guilty and sentenced to two years in the house of correction. This is the longest sentence meted out in the district court for many years.

Liquor Campaign Is On.

NASHUA, N. H., Dec. 4.—The liquor war which has agitated this city culminated last night in an enthusiastic meeting, and a branch of the Law and Order league, for the enforcement of the prohibitory law, was organized. They will begin prosecutions at once.

City Will Get After Bondsmen.

SALEM, Mass., Dec. 4. The expert who has been at work on the books of Nathaniel N. Brown, a clerk in the water board, finds a shortage of $2451.76 over a period of 10 years. The city solicitor was empowered to proceed against the bondsmen of Brown, if possible.

Endorsed by Judges.

NEW YORK, Dec. 4.—It is stated that judges will combine in petitioning the governor for the appointment of an attorney general to conduct the business that is to go on before the extraordinary grand jury. This body is to investigate the misconduct of public officers and elective frauds.

Cronin Must Hang.

HARTFORD, Dec. 4.—The board of pardons have refused to pardon John Cronin, murderer of Albert Skinner. He will hang on Dec. 14. Cronin's plea was insanity.

Ever Heard of.

WE MUST HAVE ROOM FOR

Christmas Goods.

OUR COUNTERS ARE LOADED WITH

BARGAINS IN STAPLE MERCHANDISE.

IN CONNECTION WITH THIS SALE WE MAKE A

SPECIAL OFFER.

This Will Tell You All About It.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

DISSOLUTION NOTICE.

Notice is hereby given, that the partnership lately exsisting between us, the undersigned, George W. Prescott and M. Elizabeth Green, carrying on business as publishers and printers at Quincy, under the style or name of M. Elizabeth Green, Publisher, and also under the name of Green & Prescott, was on the nineteenth day of November, 1894, dissolved by mutual consent, the said M. Elizabeth Green having sold to said George W. Prescott all her right, title, interest and good will in said business, and that said business in the future will be carried on by the said George W. Prescott alone, who will pay and discharge all debts and liabilities and receive all moneys payable to the said late firm.

M. ELIZABETH GREEN,
GEO. W. PRESCOTT.
Quincy, Nov. 19, 1894.

STATESMEN'S VIEWS.

Varying Opinions as to the President's Many Recommendations.

IT IS ENDORSED BY DEMOCRATS

While Republicans In General Find Much to Criticise.

WASHINGTON, Dec. 4.—Speaker Crisp said last evening that he had no opportunity to examine the message carefully, and was not prepared to express an opinion until he had done so.

Mr. Reed (Me.) declared he had nothing to say with regard to the message, and Mr. Burrows (Mich.) had no comment to make.

Mr. Dingley (Rep., Me.) said: "The president's recommendation that imported foreign built steamships be placed on the free list and admitted to American register is a curious reversal of the free raw material doctrine which the president has delighted to exploit. When completed steamships are placed on the free list, consistency requires that every other manufacture go there. The cool manner in which the president announces that under the new Democratic revenue laws a deficiency exists, and will continue to exist during the fiscal year, and all the administration proposes to do is to continue to sell bonds to meet the deficit, is delightfully refreshing."

Mr. Tracey (Dem., N. Y.) said he would favor some sort of a banking scheme as suggested by the president, which would divorce the issue of circulating notes from the government, but he did not think any financial legislation would be enacted by this congress.

Mr. Catchings (Dem., Miss.) strongly endorsed the president's financial scheme, which, he said, had no relation with the silver question. "I think also," said General Catchings, "that the abolition of the differential duty on refined sugar recommended by the president will very likely pass. It will be difficult for a representative or senator to refuse to vote on the bold proposition against the sugar trust."

Mr. Reilly (Dem., Pa.), speaking of that portion of the president's message which refers to the Union Pacific railroad, says: "It is a matter of great importance, and the interests of the government are enormous. In view of the fact that the indebtedness of this company to the government is about maturing, the necessity of some legislation on the part of congress is apparent."

Western and Southern Sentiment.

Mr. Outhwaite (Dem., O.) said it was an able presentation of the state of the government's affairs, and particularly commended the president's recommendation for striking out the differential on refined sugar.

Mr. Bryan (Dem., Neb.) said he was opposed to any financial scheme which would give private individuals the power to issue money.

Mr. Harter (Dem., O.) characterized the president's banking scheme as a step in the right direction, but personally he thought it ought to go further. He expressed his regret that the president had not suggested a plan for the gradual withdrawal of the greenbacks.

Mr. Springer (Dem., Ills.) said the president's suggestions in reference to the tariff are wise and timely. When published, Mr. Springer would give Secretary Carlisle's currency recommendations careful and earnest consideration, and would also call a meeting of the committee on banking and currency and arrange for the prompt consideration of the subject.

Mr. Bailey (Dem., Tex.), speaking of the banking scheme of the president, said: "I am opposed to the government becoming a surety for the promissory notes of any business corporation, even though it be a bank."

Mr. Wilson expressed his gratification over the president's vigorous recommendation of the free coal and iron bills sent to the senate, and his endorsement of the recommendation for the abolition of the differential on refined sugar.

Mr. Hall (Dem., Mo.) characterized the message as an able and courageous document.

Senatorial Opinions.

Mr. Platt (Rep., Conn.): "There is certainly nothing striking or sensational in the present message."

Mr. Hoar (Rep., Mass.): "It is a message without vigor or courage, indicating in every sentence the president's consciousness of public disapproval. Can this be haughty Marmion?"

Mr. Mitchell (Rep., Or.): "His whole financial scheme is impossible. It is a proposition really going back to old wildcats."

Mr. Pasco (Dem., Fla.): "I would like to see the state bank plan elaborated. There is no reason why the recommendations on sugar tariff should not be carried out. But I do not think they will be."

Mr. Blanchard (Dem., La.): "I approve of the state bank recommendation. I am opposed to the repeal of the 1-8 and 1-10th of a cent differential on sugar, for the reason that 74 per cent of the 7,000,000 pounds of sugar produced in Louisiana shares in the differential."

Mr. Hansbrough (Rep., N. D.): "I had heard that the president was suffering from the gout, and the message confirms it. He recommends a decrease in the tariff and makes no recommendation for the increase of revenues."

Mr. Harkins (Rep., Cal.): "I like his recommendation for an increase in the navy, but am opposed to his free ship proposition."

Mr. Vilas (Dem., Wis.): "It is a business message."

Mr. Chandler (Rep., N. H.): "The message ignores the fact that we have a great silver question on hand, and it almost ignores the tariff question, except in referring to the "pop-gun" bills, and in making the absurd proposal of admitting free ships, in order to help American shipping."

American Ship Lost.

SAN FRANCISCO, Dec. 4.—The steamer City of Rio Janeiro, from Yokohama, brought Captain Joy and part of the crew of the American ship Richard Parsons, which was wrecked on one of the Phillipine islands in a typhoon on Sept. 27 last. Six of the crew were lost. The Parsons was owned at Rockport, Me.

Utica's Big Fire.

UTICA, N. Y., Dec. 4.—Fire originated last night in the oil, paint and wholesale drug house of Comstock Bros., located in the Henry Martin building, which was completely destroyed. The loss is placed at $125,000.

BURNS IS SHOCKED.

Sections of New York Are Far More Filthy Than Whitechapel.

VILE STREETS AND TENEMENTS.

He Fails to See How City Can Escape Pestilence.

NEW YORK, Dec. 4.—In an interview last night, John Burns, M. P. of England, said he had visited the Bowery, Chinatown and other parts of the city. "New York is dirty, filthy and presumably unhealthy beyond description," said he. "The Whitechapel district of London is clean in comparison with the sections I have visited today. We have nothing in London approachable to the horrible condition of your tenement houses. It would be impossible in London. The building act regulations in regard to light and air, which are rigidly enforced, would make it simply impossible for the existence of such habitations for human beings as obtain here.

JOHN BURNS.

"As for your streets they are vile. I have seen more different kinds of pavements in two hours in this city than I ever saw before in all my life. It is frightful; it is shocking. Your tramway rails project so high above the street surface as to form veritable gutters for water and filth. There does not, so far as I have been able to discover, seem to have been the smallest engineering effort made to make the streets clean or the city healthy.

"It would seem to me that your Tammany, which has been in charge of municipal affairs and improvements for so many years, had entered into a deliberate contract to kill off the population. How you escape from great epidemics I do not understand."

Public Censor Needed.

He thinks that the disgraceful height to which buildings have been reared in New York, is good proof of the the needs of a public censor. He holds that there ought to be supervising municipal board of architects, which would insure a harmonious whole in the buildings of the city.

The greatest display of good taste and genuine artistic workmanship which he has been able to discover in this city, is shown in connection with the saloons. He has been greatly impressed by the splendor of the American bars, and speaks of the lavish use of onyx, bronze and brass in connection with these establishments, as exemplifying what could be done for the beautifying of the city were the same methods adopted in public as in private enterprises.

When shown a private statement to the effect that the Socialistic Labor party of this city had declined to accept him as a representative labor leader, Mr. Burns smiled and said: "That shows that the 'three tailors of Tooley street' are not confined alone to London."

A mass meeting of the trades unionists of New York and Brooklyn was held last night in Cooper Union. The hall was crowded and the chief speakers were John Burns and David Holmes, the British delegates to the convention of the American Federated Trades and Labor union.

Bangor Felt Proud.

BANGOR, Me., Dec. 4.—The Bangor football team, which won the state high school championship from Portland, celebrated the event last night. After a tea in the Y. M. C. A. building, where pretty girls lavished admiring glances and ham sandwiches on the rushers, a torchlight street parade was held, while church bells rang and tin horns and torpedoes made night hideous.

Killing Didn't Come Off.

BOSTON, Dec. 4.—John B. Moran spoke at three rallies of the Independent Democrats last evening. Instead of the turbulent scenes, which had been predicted, everything was calm and peaceful. There was no trace of any disposition to kill him, as had been threatened by a certain politician.

Sawmill Boiler Exploded.

PROVIDENCE, Dec. 4.—Two men were instantly killed yesterday and four other persons were seriously, if not fatally injured, by the explosion of a boiler in a sawmill at Greene, the force of the the explosion carrying the heavy shell 240 feet. Mill, engine and boiler were totally wrecked.

Three Cars Went Overboard.

WHITEHALL, N. Y., Dec. 4.—A Delaware and Hudson passenger train was thrown from the track near Port Henry. The express, mail and baggage cars were thrown into the lake. The other cars remained on the bank. The conductor and several passengers were slightly injured.

Will Stay In the Eastern.

SPRINGFIELD, Mass., Dec. 4. — At a special meeting of the stockholders of the Springfield Baseball club it was decided to call upon each stockholder for a small assessment, sufficient to pay all outstanding liabilities, and to continue in the Eastern league next season.

Elected by Two Votes.

NEW LONDON, Conn., Dec. 4.—In the recount yesterday of the mayoralty vote cast in this city last October, James P. Johnson (Dem.), is found to have a majority of two votes, and counsel for petitioner, A. J. Bentley, has relinquished further contest.

Sixty Years In Business.

LYNN, Mass., Dec. 4.—D. B. Waitt died yesterday at the age of 75. For 60 years he had been engaged in the shoe manufacturing business.

REV. MR. STEELE WRITES.

The South Quincy Presbyterian Church Case As He Views It.

Editors of the Daily Ledger:

In view of the continuous false statement circulated regarding the above, evidently because hitherto purposely uncontradicted, permit me for the present to give the principal points in it.

On April 11, 1894, I was informed of dissatisfaction in the congregation. I offered to resign on receiving satisfactory information that should demand such. The elders gave no such satisfaction. I consulted a ministerial member of Presbytery, he advised me to pay no attention to it, but let them come before Presbytery.

At Presbytery meeting, April 17, 1894, the elders asked for a commission. This paper went into the hands of the judicial committee, was unconditionally withdrawn by the elders delegate and never came before Presbytery.

Elders persisted in their opposition in face of this and I consulted the moderator of Presbytery, he appointed a congregational meeting for May 31, to take a vote as to whether I ought to resign or the elders. At that meeting the congregation voted 125 in my favor and 38 against, moderator expressed his satisfaction but the elders did not resign.

The elders arranged a congregational meeting secretly with two ministers and elders from Boston in violation of our form of government.

Meeting was held July 11, I did not attend. These members of Presbytery by false and cowardly insinuations attempted to tune the members present against me. Only six persons expressed an opinion. They carefully avoided taking a vote. No record of that meeting came before the session for official recognition.

Regular meeting of Presbytery was held Oct. 2. It was agreed that the matter be left entirely in the hands of judicial committee. I appeared before the committee and was informed that there was no papers before them, but my own, and one in my favor. Afterwards the committee brought in the following discusssion which was adopted:

Presbytery of Boston. In the matter of of the First Presbyterian church of Quincy, Mass., your committee have fully considered the subject and beg leave to report that they had before them a long and very full statement of the difficulties and discord in that church, signed by the pastor, Rev. W. Steele, also a paper signed by a number of persons in the congregation expressing their confidence in the pastor, and their opposition to the elders of the church, also a letter of resignation of the pastoral relation to take effect next April, six months hence.

On the other hand we had a paper signed by a very large number of the congregation, including apparently most of the substantial men of the church, asking that the pastoral relation be dissolved at once. No charges affecting the moral character of Mr. Steele are made but inability to cooperate with the officers and members of the church is alleged. We had personal conference with the two elders from the church and also with Mr. Steele, and after fully considering the facts brought to our attention we recommend:

1. That the resignation of Rev. William Steele be accepted to take effect this day.

2. That the church be instructed to pay him promptly any salary now due him and also the salary to November 1, 1894, at the rate heretofore paid him.

3. That Rev. Luther H. Angier be appointed to declare the pulpit vacant next Sabbath, October 7, and supply the pulpit for one month.

In making these recommendations we believe we are promoting the peace and prosperity of that church, and also doing what is best for the pastor, for whose future success and well-being we express our sincere wishes."

This decision was adopted in violation of Chapter 17 of a form of government as follows: "When any minister shall labor under such grievances, as that he shall desire to leave to resign his pastoral charge, the Presbytery shall cite the congregation to appear by their commissioners, at their next meeting, to show cause, if any they have, why the Presbytery should not accept the resignation, and if any congregation shall desire to be released from their pastor, a simliar process, mutatis mutandis, shall be observed."

The next meeeing of Presbytery would have been the third Tuesday in April, 1895, the date of my resignation. An elder was retained on this committee against my expressed objection. He was one of those present at the congregational meeting of July 11. I appealed to the Squod of New York on Oct. 16, in New York City. The following decision was given without allowing me one word before the committee or anywhere else.

"Judicial case, No. 4." Being the appeal of the Rev. William Steele from certain action of the Presbytery of Boston. The judicial committee respectfully reports on the above case recommending that the said appeal be dismissed for the reason that the papers submitted disclose no judicial action from which alone an appeal could be taken, but that the action appealed from was merely the exercise of the administrative and discretionary power of Presbytery. Signed, H. W. Congdon, Chairman for the Committee.

According to our form of government "No lower church court has power, discretionary or otherwise, which is not subject to review and control by a superior court."

With many thanks for your space.

REV. WILLIAM STEELE.

A Howling Dog.

Editors of the Daily Ledger:

Would you allow us a little space in your valuable paper to try and remedy a grievance that we the residents in the vicinity of Arthur street and Garfield street have endured patiently till it has become almost unbearable. Every other night we are aroused from our peaceful slumbers and kept awake, sometimes for hours, by the continued barking or rather howling of a dog. The dog belongs to a neighbor but seems to have the freedom of the whole neighborhood.

Much as we dislike to find fault with our neighbor we feel compelled in this time of sickness to make this complaint, hoping that this shall meet the eyes of the owner of the dog and that he shall "take the hint" before we are compelled to resort to other means of ridding the vicinity of a general nuisance.

Two Boston Coachmen Received Shots From a Revolver.

BOSTON, Dec. 6.—John T. Lorden and James Slamin, two Back Bay coachmen, were shot by a thief on Berkeley street shortly before 7 o'clock last night. Slamin was probably fatally wounded. Lorden was seriously hurt, but will recover.

As Mrs. Le Brun was walking along Berkeley street, on her way home, two men sprang out of the alley midway between Commonwealth avenue and Newbury street, and one seized the hand bag she was carrying. Both men ran down the alley and were chased by two coachmen. Slamin gained on the men and knocked one down. The fallen man shouted to Slamin: "That's all I have," and fired six shots from a heavy revolver. Slamin was shot in the abdomen and hand. Lorden was shot in the thigh and shoulder. The man who fired the shots escaped, as did also his companion.

Counterfeiter Sent to Jail.

BOSTON, Dec. 6.—Joseph J. Silva, the well known counterfeiter, was arraigned before United States Commissioner Fiske yesterday on the charge of passing and having in his possession mutilated coins. He was held for the grand jury, and being unable to furnish bail in the sum of $2500 was sent to jail. Silva conducted his own hearing, as he has done in the past.

NO MORE M'KINLEYISM.

It Has Been Repudiated and Republicans Accept the Country's Decision, Says Chairman Babcock.

WASHINGTON, Dec. 6.—Representative J. W. Babcock, who was chairman of the Republican congressional campaign committee, says that no attempt will be made by the Republicans to revive the McKinley bill.

"That bill," he continued, "did not have the support of one Republican in five when it passed. It was responsible for the Republican defeat in 1890, and that defeat was one of the strongest expressions of the intelligence of the American people.

"This widespread intelligence is one of the most gratifying things to me as an American citizen. Our people will cross party lines at any time to rebuke their own party when they think that it has not dealt fairly with them.

"There was a deep-seated prejudice against the McKinley bill. It was regarded as too friendly to the manufacturers and not sufficiently in the interests of the people, and they put the party out of power that was responsible for the legislation. The average American citizen believes in the principle of protection, but he believes still more in the principle of fair play; and that principle was violated in the McKinley bill."

"The present bill is not a Democratic bill," said Mr. Babcock. "It is really a protection measure, for the Republicans added to it after it went to the senate something like 250 amendments. It is not such a bill as the Republicans would have framed, nor does it suit the wishes of the extreme Democrats. It is highly protective in some particulars, more so than the McKinley bill, while touching the extreme of free trade in other directions.

"We shall have the house and senate and the president in 1896. Meanwhile we shall see how the present law works, and it will be time enough then to smooth out its crudities and make it what it ought to be."

WE ALMOST feel that an apology is due to our friends, for we fear that the favors of many have been overlooked in the rush of business for the past few weeks. The mechanical department of the office has seemingly done a week's work every day, requiring the services of all hands and extra help. Business is what we want, and we certainly have had our share recently. The rush is not over yet and probably will not be until after the holidays, but all orders will receive the usual prompt attention, and more time will be given to news.

THE METROPOLITAN District Commission today advertise a hearing on the "Greater Boston" scheme, as it is familiarly known. But the commission has found that the greater Boston plan is very unpopular—that the suburban cities and towns with scarcely an exception, are opposed to it—and they have modified their notice quite materially as a reading will show. The Act, Chap. 446 of 1894, provides that the board shall investigate the following subjects :

First. The advisability of establishing a general government, with limited powers, for the city of Boston and the surrounding cities and towns, generally denominated as the metropolitan district, allowing each municipality independence in local affairs but conferring upon the general government authority in matters which can be administered to better advantage by a general government.

Second. The advisability of uniting such cities and towns into one municipality by annexing the same, or any of them, to the city of Boston.

Third. The advisability of any other system of entire or partial union of such municipalities for purposes of municipal administration.

Chap. 446 is "An Act to provide for an investigation of the subject of a general municipal administration for the city of Boston and adjoining municipalities." The main idea of annexation is reported to have been abandoned but this should be understood at the hearing, as Quincy is against annexation first and last.

As to metropolitan parks, we seem to have all we want and more too. They promise to be a burden for the next 50 years and the big assessments were saddled upon the district with little regard for the taxpayers.

Quincy wants a sewerage system and the State should help the cities and towns south of Boston as well as on the north. A metropolitan sewer would be a good thing, but a commission is all that is necessary; in fact there is probably a commission now.

At the present time we see no need of placing other departments under expensive commissions which give the people and taxpayers little voice in public affairs, but we trust there will be a full expression pro and con at the hearing next Monday evening.

New Councilman Serenaded.

Councilman-elect Horace F. Spear was given a little serenade Wednesday evening at his residence on Hancock street. Shortly before 8 o'clock about twenty-five of his many friends gathered in front of his residence and after a serenade Mr. Spear invited all hands in, and as he had received an inkling that something of the kind was in the wind, they found refreshments awaiting them. Osborne Rogers officiated as master of ceremonies and made a few congratulating remarks, as did also Councilman Bass, City Treasurer Burgin and others.

A Pleasant Party.

Miss Edna Bowles, who for the last year has been visiting her brother Howard, at Norfolk Downs, was very agreeably surprised, on Saturday evening, Dec. 1st, by a large number of friends from Atlantic, Norfolk Downs and Wollaston Park. The evening was very pleasantly passed, the young folks engaged in games and the older couples played whist. During the evening a delicious repast was served and all departed at twelve, having spent an exceedingly pleasant evening. Miss Bowles is very popular with her young friends and it is with regret that they heard of her intended departure for her home in N S.

The concert at the Universalist church Wednesday evening by the well known Spaulding Bell Ringers and local talent was of excellent character and highly appreciated by a large audience. The readings by Miss Essie Sturgess were very pleasing; also Mrs. Spaulding's selections on the harp introducing "The Fisher's Hornpipe" and "Yankee Doodle" and singing "Tramp, tramp, tramp," all at the same time.

The last entertainment in the course held under the auspices of the Ladies' Benevolent Society of the Wollaston Congregational church was given at the church on Wednesday evening before a crowded house. The entertainment consisted of a representation of a Syrian wedding, illustrating every phase of Syrian life, given by Mr. and Mrs. Nidshim D. Mirhish of Tiberias, assisted by several well known Wollaston young ladies and gentlemen dressed in the picturesque costumes of that country.

A WORD FROM MR. MOXON.

He Desires to Put Himself Right Before the People on the Use of Liquor.

To the Editor of the Daily Ledger :

In your issue of 5th, you call attention to certain rumors which have been circulated throughout the city as to the use of intoxicating liquor in our city election. Although no person has intimated to me that I have even been suspected of any connection with the matter, I feel that I owe it to the party, which I had the honor to represent at the late city election, to publicly state, that I have never during my entire life, bought or authorized to be bought, used or authorized to be used for election or any similar purpose, a glass, pint, quart, gallon, barrel or any other quantity whatever, of any kind or description of intoxicating liquor. To my Quincy friends of every party I desire to say, that the only liquor of any kind which I have ever personally used has been for my own family purposes and under the orders of a physician, and at 48 years of age I am able to say that I have never bought or drank at any public bar a glass or any other quantity of intoxicating drink.

Yours truly,
STEPHEN O. MOXON.

The Quincy Point Church Gives a Reception to Rev. Herbert A. Youtz.

Rev. Herbert A. Youtz, who recently accepted a call to the pastorate of the Washington Street Congregational church, and his wife were tendered a reception by the members of the parish, on Wednesday evening.

All arrangements were in charge of the Ladies' Aid Society, and as usual were carried out with much success.

Deacon and Mrs. Charles H. Sherburne assisted Rev. and Mrs. Youtz in receiving the members of the parish. Many availed themselves of meeting the pastor and his wife in this social manner.

Mr. George A. Sidelinger was master of ceremonies, Messrs. Wm. T. Sidelinger and T. B. Pollard, ushers.

Mrs. Frederick E. Drake and Misses Amy F. Newcomb and Lillie Carter poured coffee and tea. Misses Bessie Carter, Lillian Harlow, Bertha F. Hayden, Mildred Sampson, Edith Chute, Eleanor Chute and Lena Hayday served the refreshments.

The evening passed in an agreeable manner.

Success of Former Rector.

Chicago also has a St. Chrysostom Episcopal church, and it has also a former Quincy rector, Rev. Thaddeus Snively. The first service was held in the Chicago church Nov. 25.

The people of St. Chrysostom's have been worshipping at the little church on North Clark street near Menominee for several years. A year ago they purchased a lot on Dearborn avenue and since then have erected a new building, which is an important addition to the churches of the North Side. Its auditorium has a seating capacity of 600, besides which there are commodious choir and guild rooms and a large Sunday School hall in the rear under the chancel. The rooms are large, well-lighted and furnished with quarter-sawed oaken pews and desks. The chancel is temporary and is so constructed that it can be enlarged when necessary. In the near future the structure will be remodeled and a still more handsome structure made for the growing congregation.

Rev. Thaddeus Snively came to St. Chrysostom's in 1893 and has done much to strengthen the society during his brief pastorate. The Chicago Post printed a good engraving of the rector.

The Diphtheria Cases.

No new cases or no deaths from diphtheria have been reported today, and those sick are reported as doing as well as could be expected.

As a further precaution against the spread of the disease, the Trustees of the Thomas Crane Public Library have passed a formal vote to burn all books returned from homes where contageous diseases have existed.

The report of a case of diphtheria at Mr. Goodhue's is denied; no positive symptoms having developed.

An Ernest Preacher.

BOSTON, DEC. 5, 1894.

Editors of the Daily Ledger:

Please allow the many friends, especially the ladies in the church in Boston, where Rev. Mr. Peach so acceptably ministered, to add their testimony to his worth, both as preacher and pastor.

He endeared himself to us in so many ways; was always the earnest preacher in the pulpit; the most kindly friend and pastor in the home.

We parted with him with regret, shall sadly miss him from among us, and feel glad to know that his lot is cast where we may still meet him, and would gladly bespeak for Mr. Peach and his estimable wife the sympathy and appreciation they so richly deserve. A FRIEND.

December Magazines.

An article by Kate Douglas Wiggin on "The Kindergarten as a School of Life for Women," opens the December issue of Table Talk, and not only is it most readable, as is all she writes, but most helpful and suggestive to the women of our age who are anxious to make all possible use of their lives. The little magazine is also replete with Christmas and Christmas thoughts.

A better number of the *New England Magazine* than the present Christmas number has never been published. It is an extra large number, with thirty more pages than usual; and there is not a page of all the hundred and sixty which is not interesting. It has a special Christmas cover, bright and warm with evergreen and holly; and it is full from beginning to end with the Christmas spirit and the New England spirit. The article which will attract the most attention is Edward Everett Hale's "If Jesus Came to Boston." It is, of course, an article suggested and provoked by Mr. Stead's book, "If Christ Came to Chicago." A second edition is in press.

I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

DEMOCRATS BLOCKED

Senate Will Transact No Important Business at This Session.

PLANS FOR NEW BANKING BILL

Already Being Outlined by House Finance Committee.

WASHINGTON, Dec. 6.—Although there was nothing determined or settled in the Democratic senatorial caucus concerning the proposed action on tariff, financial and other legislation, it is pretty safe to predict that very little if anything will be done in the senate at the present session.

Even if the Democrats were permitted to take up any of the important legislation recommended by the president and Secretary Carlisle, including popgun bills and the abolition of the differential duty on sugar, it is exceedingly doubtful if they could agree among themselves on these questions.

But in the face of the fact that they have been notified by the Republican leaders of the finance committee and in the senate that any attempt to secure modification or change in the tariff legislation, either in sugar or any other schedule, would result in the opening up of the entire economic question, which would inevitably lead to fruitless and protracted debate, which might endanger one or more of the important appropriation bills, they will be compelled to abandon all moves in that direction. Such a course might force an extra session of congress upon the country next summer.

Law Won't Be Changed.

Judging from the tone and drift of what occurred in the caucus, any and every attempt to change the law of last August, even in its most insignificant details, will prove abortive. Prominent Democratic senators in caucus said that the country had declared itself on that point by defeating every one of the prophets of agitation, and those who escaped the deluge will hardly dare to invoke it upon themselves by any contemptuous ignoring of the intimation.

Opinion is very much divided as to the merits of the plan proposed by Secretary Carlisle for reforming the currency, but even among those who recognize remedial legislation as important, there is little hope that anything will be accomplished at the present session. It is probable, however, that a bill will be formulated embodying some of the features of the treasury scheme.

Congressional Proceedings.

The house adopted a special order setting aside a day, after the morning hour, for the consideration of the railroad pooling bill, the order to continue till the bill should be disposed of, but not to interfere with conference reports or appropriation bills. The railroad and shipping interests are greatly interested in this measure. Before the discussion of this bill began, the house passed three bills only.

The senate showed the first signs of animation, and there were several brisk debates. Mr. Vest's efforts to secure a change in the rules in order to expedite business, was the chief event of the day. The usual dulness of discussion of rules was offset by the prevalent feeling that a cloture rule would have much to do at this particular time with pending tariff bills, affecting coal, iron and sugar.

Mr. Vest was formerly opposed to cloture, but yesterday he announced his conversion, and said cloture was imperative to maintain the dignity and self-respect of the senate and the esteem of the public. Mr. Chandler's sarcasm at Mr. Vest's conversion enlivened the debate. The question went over for a day, and Mr. Vest will try and secure a vote instructing the rules committee to report a cloture rule by the 15th inst.

Another feature of the day was the sharp debate on the China-Japan question, brought out by Mr. Lodge's resolution calling for information as to the torturing of two Japanese students, who were under American protection. Mr. Peffer made the first formal speech of the session, criticizing from a Populistic standpoint the recent issue of bonds and giving his views on finance.

Senator Quay introduced an amendment to the sugar bill as passed by the house and reported to the senate, which amendment provides for striking out the ⅛ of a cent a pound differential on sugar. Mr. Quay subsequently said that the Democrats had been talking a great deal about the Sugar trust, and at the same time were endeavoring to dodge the issue. His amendment would, he said, bring them face to face with the Sugar trust and put them on record.

An Important Conference

of most of the Democratic members of the house committee on banking and currency was held after the adjournment of the house, as a result of which early action looking to the reporting of a banking bill in line with the scheme presented by Secretary Carlisle in his message, was taken.

Chairman Springer said that Secretary Carlisle had intimated a desire to appear before the committee himself, and had also suggested the names of several persons whom it might be well for the committee to call for the purpose of learning their views. Among the names on the list furnished by the secretary were those of ex-Secretary Fairchild, Horace White of the New York Evening Post, Mr. St. John of New York and George A. Butler of New Haven.

The members present decided to hold a meeting of the full committee next Friday, when a resolution will be offered, providing that an invitation will be extended to Secretary Carlisle and Comptroller Eckels, to appear on Monday and Tuesday, respectively, and to other gentlemen suggested by Secretary Carlisle to appear on the remaining days of the week. An effort will be made to close the hearings by the 15th inst., and according to one member of the committee, immediate work on the preparation of a bill will be begun.

To Take a Second Wife.

YANKTON, Dec. 6.—H. H. Winslow, the pianatist, who sued for divorce from his first wife here several months ago, will, it is learned, be married this evening in Washington, to Annie Lippincott, daughter of the authoress, Grace Greenwood.

No One Hurt.

THOMPSONVILLE, Conn., Dec. 6.—One of the powder mills of the Hazard Powder company of Hazardville exploded yesterday. This makes the second blowup this year. No one was hurt. Loss, $2000.

A VICTIM OF OPIUM.

Sad Story of the Checkered Career of "Dovey" Comstock, Who Has Just Died In a Jail at Kansas City.

KANSAS CITY, Dec. 6.—Edith Armstrong, otherwise "Dovey" Comstock, who was the cause of the murder of T. W. Larbig by D. J. Meserole, in a flat at Brooklyn on June 21, 1891, and the chief witness in saving Meserole from the electrical chair, died in the county jail under the influence of opium and brandy. She first fell into the hands of the local police in April, 1892. She used to hire a room, steal what she could and leave. She simply stole to get enough money to live on and furnish her with opium.

When she was last arrested, on Nov. 24, for stealing a diamond ring from Emma Van Elsner, she said: "Opium has ruined my life. I am going to quit using it or die in the attempt."

She was last seen alive by a cell neighbor. Edith was lying on her side. Her lips were parched and fever raged in her blood, yet her hands were cold. In a low, weak monotone the woman sang "Nearer My God to Thee."

At the time of the Meserole murder she was 31 years old and rather pretty. About eight years before she had married Walter Comstock. Four years after his marriage Comstock got a divorce from her on account of her unfaithfulness and her love for opium and brandy. He got the charge of their only child.

She went to live in Brooklyn and met young Meserole, and afterward Theodore Larbig. While Meserole was away in Europe she and Larbig practically lived together, and when Meserole came back she let part of her flat to him without fully acquainting Larbig of the facts. It appeared at the trial that Larbig was beating Mrs. Comstock, and that Meserole shot him down.

The trial was sensational, as the young man came of one of the first families of Brooklyn. "Dovey" Comstock cleared Meserole. The jury acquitted him.

She then drifted to New York and continued her dissipations. Meserole went in for religion and, after a bitter fight, was let into Plymouth church. He did a deal of mission work among convicts and founded the Ex-Convicts' House of Industry at Flatbush avenue, of which he is now manager and treasurer. His life has been a model of correctness and piety since the trial.

Wouldn't Stand Guying.

PARIS, Ky., Dec. 6.—Jack Howerton, aged 25, a young white farmer, was married yesterday to Matilda Taylor, a negro woman of this city. Howerton is related to prominent Bourbon county families. Howerton and his bride were at the depot waiting for the train, and some of the bystanders began to guy Howerton. He became enraged and drew a pistol and fired, shooting an innocent spectator in the leg. The crowd closed in on Howerton and bruised him badly. Howerton was arrested.

Part of Crew Drowned.

NEW LONDON, Conn., Dec. 6.—Steamer Dorian, from New York for Halifax, while coming down the Sound about midnight Tuesday, ran into and sunk the three-masted schooner Clara E. Simpson of Portsmouth, N. H., off Eaton's Neck. Three of the schooner's crew, the mate, cook and seaman were drowned, and the survivors, the captain and two sailors were brought to this harbor yesterday afternoon and landed by the Dorian, after which the steamer proceeded.

Quarantine In Vermont.

BURLINGTON, Vt., Dec. 6.—The state board of agriculture, acting as cattle commissioners, decided to issue strict quarantine regulations, by which all cattle coming into the state will be subjected to inspection. The examination of herds in the state will be conducted as rapidly as possible. C. M. Winslow of the board left for Boston to meet the Massachusetts commissioners, to secure joint efforts in stamping out cattle diseases in both states.

Spain Feels Friendly.

WASHINGTON, Dec. 6.—The special report from United States Consul Adams, dated at Cadiz, says in part: "I take great pleasure in reporting to the cordial and generous reception tendered the U. S. S. Detroit and her officers by the civil, military and naval authorities of Cadiz. The disembarkation of the historic Columbian relic was made the occasion of a great public demonstration."

Nelson Fully Absolved.

NEW YORK, Dec. 6.—The board of review of the National Trotting association met again yesterday. One of the most important cases that has ever come before the board was acted on, when the temporary reinstatement of C. H. Nelson was made permanent. Nelson's difficulty grew out of the Nelson-Alcryon $10,000 stallion race, trotted at Beacon park, Boston.

Headed North.

JACKSONVILLE, Fla., Dec. 6.—Senator Hill, after 10 days in Florida, came into town from West Palm Beach last night, on his return to the north. The senator declined to talk politically, and intimated he was reserving his opinions for a speech that he would make. Senator Hill appears in perfect health.

Off For Denver.

NEW YORK, Dec. 6.—John Burns, M. P., with his colleagues, David Holmes and John W. Benn, left last night for Denver, where they go to attend the labor federation convention. They were accompanied by Samuel Gompers and other officers of the American Federation of Labor.

Caught Two Victims.

BRADFORD, Vt., Dec. 6.—Eugene Harris is said to have victimized O. R. Baker and H. W. Lowd, clothing and harness dealers, respectively, by making large purchases and paying for the same with checks which had been raised. Baker loses $150 and Lowd $75.

Money In It.

NEW YORK, Dec. 6.—The financial report of the Yale-Princeton football game, played at Manhattan field on Saturday last, shows hat the receipts of the game were $33,408, and the expenses $9258. The balance will be divided between the colleges.

Asks For a Lunacy Commission.

HARTFORD, Dec. 6.—Warden Woodbridge of the state prison has reported nine convicts as insane, and asked for a lunacy commission. They are all suffering from melancholia or hallucination, except Edward E. Burke, who has acute mania.

Regular Rate Maintained.

NEW YORK, Dec. 6.—The directors of the American Sugar Refineries company declared the regular quarterly dividend of 2 per cent on the common stock and 1¾ on the preferred.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

take a little Carlsbad Sprudel Salt in a glass full of water. That will set you right and keep you right, if you're inclined to be bilious or dyspeptic or constipated.

People wonder, sometimes, why it is that the Carlsbad treatment, the world's remedy for habitual constipation, should be recommended for diarrhœa and such disorders, too. Simply, because it leads the stomach and bowels naturally into a healthy condition, whatever their derangements—it doesn't accomplish its results by harmful irritation, as most pills and purgatives do.

Beware of imitations sold as "improved" or "artificial" Carlsbad Salt.

The only genuine Carlsbad Salt, with all the properties of the Sprudel Spring solidified, has the seal of the city of Carlsbad and the signature of "EISNER & MENDELSON Co., Agents, New York," on every bottle. All others are worthless imitations.

FACTS IN THE CASE

Concerning the Protest Against "Unfavorable" Treatment of Germany.

THE MUCH-DISCUSSED SUGAR DUTY

And the Conclusions Arrived at by Secretary Gresham.

WASHINGTON, Dec. 6.—The president yesterday sent to congress the statement of the German contention in reference to the discrimination against the importation into the United States of German sugar, to which reference was made in his annual message to congress. The statement is in the form of a letter from Secretary Gresham to the president. In substance, this is a recital of German protests made Aug. 25 last, against the additional duty of 1-10th of a cent per pound imposed by the Wilson act on sugars imported from bounty-paying countries.

The protest is based on the fact that the measure is in violation of the most favored nation clause, and really amounts to unfavorable treatment of German sugar. It would render the effects of the most favored nation clause illusory, and expose the contracting parties to arbitrary duties.

No protest was made against that paragraph of the McKinley law which imposes an additional duty on refined sugar coming from bounty-paying countries, apparently for the reason that only about $300,000 worth of sugar was imported into the United States from Germany, an insignificant amount.

In discussing the German proposition, Secretary Gresham recites the favored nation clause of the treaty, and says those stipulations give either party the right, special engagements of reciprocity excepted, to take duties levied by the other on articles, the produce or manufacture of any other country, and demand the same treatment for its own products and manufactures.

It is obviously no answer to say that certain discrimination duties apply equally to all countries that may happen to fall in a certain category; it is a

Mere Argumentative Subterfuge,

inconsistent with the clear intention of the treaty.

The secretary refers at some length to negotiations between this country and Great Britain, about 1841, relative to rice importation, in which the United States then assumed a position, finally conceded by Great Britain to be correct, very similar to that now taken by Germany in the case of sugar, and in fact the discrimination in the present instance is even more pointedly at variance with the treaty stipulations.

The secretary held that the payment of a bounty on exported products cannot be considered in the light of a discrimination; certainly not more so than the imposition of a protective or practically prohibitive duty on the importation of an article. The two measures are the same in principle; the question as to which shall be adopted is

A Matter of Domestic Policy.

Each are intended to create national advantage in production of manufacture, and as between the two the bounty is more favorable to the inhabitants of foreign countries, since it tends to enable them to get cheaper articles at the expense of the bounty-paying governments.

In conclusion, the secretary says that the additional duty levied on bounty-paying sugar by the act of 1894, is a discrimination, that it is an attempt to offset a domestic favor or encouragement to a certain industry by the very means forbidden by the treaty.

He assumes that the German government does not claim that the treaty (made with Prussia in 1828) affords any just ground for protesting against additional duties on sugar not shown to be the product or manufacture of Prussia.

Gold Deficient In Weight.

PHILADELPHIA, Dec. 6.—Among the gold deposited with the assistant United States treasurer in this city for the Philadelphia members of the Stewart syndicate for their share of the new bond issue, have been discovered several thousand light-weight half-eagles. Some of the coins have been worn away by constant use, but others have gone through the sweating process. The depositors will have to make up the deficiency in weight.

Forming a Combine.

ST. JOHN'S, N. F., Dec. 6.—Governor O'Brien will prorogue the legislature Jan. 10. This step is taken in the face of the protests of the Whitewayites, and it is held to be convincing proof that negotiations are on foot for a combination between the Whitewayites and the government supporters, the latter being a minority in the legislature.

Schooner and Steamer Afoul.

CITY ISLAND, N. Y., Dec. 6.—Schooner Thistle, from St. John, N. B., for New York, was towed into this harbor by the steamer City of Worcester, the vessels having been in collision off Sands Point. The schooner was badly damaged, and the City of Worcester had her port side stove in above the water line.

Her Request Was Rejected.

SHEERBROOK, Que., Dec. 6.—A young widow named Josephine Begin entered J. Hebert's butcher shop last night and wanted to know if Hebert would marry her or not. On receiving a negative answer she produced a revolver and fired two shots, killing Hebert. Mrs. Begin was arrested.

Canvas-Backs In Great South Bay.

NEW YORK, Dec. 6.—For the first time within the memory of the oldest bayman, canvas-back ducks have made their appearance in Great South bay. They have not appeared in great numbers, but there are many to be found between Fire island and Middle ground.

A Vandal's Work.

BARRE, Vt., Dec. 6.—Some unknown person entered the granite sheds of Kingston Bros. and ruined a costly column and die of a monument, the damage being estimated at $600. An Italian is suspected. This is one of a long list of similar acts done in this city.

SIXTY-THREE YEARS IN OFFICE.

All but Eleven Years During That Period Has Been Served by Captain Bassett as Doorkeeper of the Senate.

WASHINGTON, Dec. 6.—The man who has been longest in the civil service of the government is Isaac Bassett, the acting assistant doorkeeper of the United States senate. Sixty-three years ago yesterday Daniel Webster had Bassett appointed a page in the senate, and he is yet hearty and well and able to attend to his official duties. It is nearly 52 years since the "confidential" office Captain Bassett now holds was created for him, and he took the special oath administered to senators and the few officers who are permitted to be in the senate during secret sessions.

CAPTAIN BASSETT "TAKING A PINCH."

It is said that from that day Mr. Bassett was never but once excluded from the senate chamber during secret sessions. This exception was when, about two years ago, the senate was investigating for the purpose of finding out the leaks by which the secrets of the senate had been divulged.

A Great Deal of Rascality.

NEW HAVEN, Dec. 6.—Startling rumors have been current in this city. The rumors were strengthened when, in discussing his action in causing the rearrest of Dr. Lee for criminal malpractice, State Attorney Doolittle declared that "a great deal of rascality has been discovered since the trial of the case in the city court." The names involved in these rumors are those of persons in high places. The rumors are coupled with the names of Dr. Lee and a woman who manages a lying-in establishment and "persons in high places."

Olden Times Recalled.

AMESBURY, Mass., Dec. 6.—The Amesbury Improvement society erected a boulder yesterday on the site of the birthplace of Josiah Bartlett, once governor of New Hampshire, the first signer of the Declaration of Independence. The site of the shipyard where the famous revolutionary frigate Alliance was built has also been marked by the society.

Schoolhouse Burned.

SALEM DEPOT, N. H., Dec. 6.—During the forenoon session, the two-story wooden schoolhouse here took fire near the furnace. Through good work of the teachers, the pupils were safely removed. There was no fire apparatus and the building was destroyed. Loss about $4000.

Becoming Tiresome.

WASHINGTON, Dec. 6.—Germany has taken the initial step toward curtailing the importation of another American product, by enormously increasing the duty on cottonseed oil. The proposition is to increase the present duty, which is $1.10, to $2.20, equivalent to 250 per cent.

Council Will Investigate Charges.

BOSTON, Dec. 6.—The case of Clerk Austin, of the office of the commissioners of foreign corporations, who was suspended by Governor Greenhalge, pending the investigation of the charges made against him, that he had accepted bribes, will come up before the governor's council.

Booth Is Very Sick.

CHICAGO, Dec. 6.—Ballington Booth is critically sick. All visitors are forbidden to see him. Ten days and nights of pain and unrest have made their wasting work tell very noticeably on his delicate frame. Nothing positively encouraging can be said of his condition at present.

Building Up.

HUDSON, Mass., Dec. 6.—The first new business block to be occupied in the burned district is A. K. Graves' fine three-story building, which was opened for business yesterday. The new postoffice building will be ready for occupancy next week.

First Democratic Mayor.

ROCHESTER, N. H., Dec. 6.—At the annual city election the Democrats elected their first mayor since Rochester became a city. R. V. Sweet received 30 majority over J. S. Daniels (Rep.). The council stands 14 Republicans and 4 Democrats.

Schaefer Away Behind.

CHICAGO, Dec. 6.—Schaefer met defeat for the third time last night, and is now so far behind that it seems impossible for him to win out. He could only succeed in making 424, while Ives ran his 600. Ives' total is 1800, against 1043 for Schaefer.

Convicted of Bribery.

NEW ORLEANS, Dec. 6.—Numa Dudoussat, a member of the city council, charged with bribery, was convicted yesterday. Dudoussat is the second alderman who has come to trial. Eight additional members are indicted and awaiting trial.

Gold Reserve of $111,000,000.

WASHINGTON, Dec. 6.—Within a few days foreign exchange has advanced to a point that leads treasury officials to anticipate that gold may be exported this week. The treasury gold reserve stands at $111,0000,000.

Fell on a Stove.

MIDDLETOWN, Conn., Dec. 6.—Jennie, the 6-year-old daughter of Mrs. Isaac Rosenblum, was alone in the house and fell on a red hot stove. Her whole right side is one continuous burn. She is not expected to live.

Were Thawing Dynamite.

HALIFAX, Dec. 6.—While thawing dynamite for blasting for the Dominion Coal company's water works at Glace Bay, C. B., Archie Gillis was instantly killed, and Fraser Johnson fatally injured.

Whole Block Burned.

CEDARVILLE, N. J., Dec. 6.—Bateman's block and Walter Jerrol's grocery were destroyed by fire yesterday. There were seven stores and the postoffice in the block. Total loss, $45,000.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

NOT TO BE CAUGHT.

Father Ducey Has Something to Say About a "Shallow Trap."

OWES NOTHING TO ARCHBISHOP.

Clerical Controversy Waxes Hotter and Hotter.

NEW YORK, Dec. 7.—The controversy between Archbishop Corrigan and Rev. Father Ducey has reached that stage where another statement has been deemed expedient by the latter. Notwithstanding the archbishop's injunctions, Father Ducey continues to be a conspicuous figure at the Lexow committee investigation. Last evening he gave out the following statement:

"I greatly regret to be obliged to allude to Madison avenue methods, but when one is kept like a cathedral window, constantly on a gridiron, self-preservation forces one to cry out: 'We are very rotten in New York.'

"Rev. Mr. Newey is decent enough to speak as Rev. Mr. Newey. He is not evidently willing to act the part of a gorilla assassin. The press of New York give prominence to attacks on personal character, anonymously made, coming from persons who sign themselves as "Catholic Laymen," "Distinguished Ecclesiastic," "Very Near the Archbishop," "A Person Who Knows the Mind of the Archbishop," etc., etc. No ecclesiastic would need defenders, did he act independently, fearlessly and openly.

About Archbishop's Second Letter.

"Rev. Mr. Newey is the acting secretary of Archbishop Corrigan. I cannot be tempted into an exposure of Archbishop Corrigan's second letter to me through the alleged utterances of his grace and his secretary. Should I give to the public the letter marked 'private,' on such evidence as I have now in my possession, I would be judged a violator of good form and honor.

"Archbishop Corrigan has placed himself in a position of persistent persecution of me for the past 10 years. Why his grace should have been so misguided I cannot fathom. I owe nothing to the archbishop of New York, and he knows that he owes much to me. I was kind to him in the extreme, when he was a suppliant stranger and humble in New York.

"I was not in all particulars like the young man in the gospel—I could not say that I had kept in perfection the commandments from my youth without spot and blemish—but I can say, however, that I have been most faithful and sacrificing as a priest, and I have never been a frequenter of disreputable places.

"The Lexow committee is seeking to know something of the character of Rosa Bells and her successor's (Evelyn Bells) house on Thirty-sixth street. Inspector Williams and Captain Westervelt might give some ecclesiastical information as to that house to the senate committee.

"Rev. Mr. Newey's permission to me to publish Archbishop Corrigan's letter marked 'private' seems a very shallow trap. I am not prepared to be trapped. I still affirm that Archbishop Corrigan has not answered the following communication of Nov. 27:

Father Ducey's Replies.

"I shall respect your excellency's letter of Nov. 24. I must take exception to a few expressions. I never take for granted any supposition without first obtaining proof. As a priest and gentleman, I would not be a true priest or man, did I indicate to you or others the person or persons who gave me confidences, without their permission.

The grievances alleged against me are not founded on truth and fact. You know, and God knows, I have been the wronged person. I have never entered into any conspiracy against you or any other man. I have always fought in the open, and I always hope so to do.

Your excellency cannot be ignorant of the fact that priests at the cathedral have, by their own letters, given evidence of evil method. You, it is said, are not responsible for their acts, but if they have abused your confidence and imposed on your good nature, why do they defiantly hold on? You cannot blame me if I have reason to complain.

I wish to be frank, and I inform you that I have letters of yours in my possession, sent by you to the New York, press requesting that it should say certain things about me. These letters, sent from your residence, are not type written, but in your own handwriting.

During the troublesome times that have passed, I have been obliged to be on the defensive. I do not think it is fatherly to deal with a priest or layman as I have been dealt with by others. I greatly regret the trouble that has been inaugurated anew in New York. The pacific efforts of the apostolic delegate are, for the present, apparently nullified. I trust that honorable peace will soon reign with all of us.

"On Dec. 3, I sent this brief note to Archbishop Corrigan:

You sent me a letter on Nov. 24. I respectfully answered that letter on Nov. 27. I have received no intimation that your excellency has read my letter of the 27th. I deem it necessary to write these few words, fearing that it would be said that I had not been courteous to my ecclesiastical superior.

You have given me no reasons why I should not attend the sessions of the Lexow committee on Monday, and as I said to you in my letter of the 27th, I have always "fought in the open, I always hope to do so." Therefore, I think it prudent, respectful and wise that I should inform you that I am going to the Lexow investigation on Monday.

Father Ducey said that he had nothing further to say at present on the subject.

Satisfactory to All Concerned.

DOVER, N. H., Dec. 7.—The strike of local mule spinners was declared off yesterday. The terms were satisfactory to both parties.

GENERAL ORDER No. 3.

Commonwealth of Massachusetts.

BOARD OF CATTLE COMMISSIONERS, 52 VILLAGE ST., BOSTON, Nov 5, 1894.

To the Boards of Health and all Owners of Neat Cattle in the Counties of Nantucket, Dukes and Barnstable:

1st. All the states and territories of the United States, the District of Columbia, Canada, Great Britian, and all other localities without the limits of this Commonwealth, are hereby declared infected districts.

2d. It is hereby ordered that all neat cattle brought within the limits of this Commonwealth from any of said localities on and after November 20, 1894, are hereby made subject to quarantine until they have been inspected and released by this Board or one of its members thereto duly authorized.

3d. Except as hereinafter provided no such neat cattle shall be unloaded except in case of accident, for any purpose whatsoever within this Commonwealth, at any place or places other than at such quarantine stations as are herein designated, or which may hereafter from time to time be designated by this Board, unless upon written permit signed by the Board of Cattle Commissioners or one of its members.

4th. The Union stock yards at Watertown; the Boston & Albany stock yards at Brighton and the premises of the New England Dressed Beef and Wool Company in Somerville, are hereby designated as quarantine stations.

5th. All neat cattle entered at any quarantine station, except as hereinafter provided, are hereby declared quarantined and, shall so remain, at the expense of the owner or consignee, for a period of not less than twenty-four hours, or until they are released by the Board of Cattle Commissioners, or one of its members, during which time they shall be subjected to the tuberculin test. This test shall be made only by the Board of Cattle Commissioners or one of its members, or a duly authorized agent thereof, and without expense to the owner.

6th. Every such animal which, in the opinion of this Board or any of its members, is affected with tuberculosis, will be condemned and slaughtered as provided in Sections 45 and 53 of said Chapter 491 of the Acts of 1894.

7th. All animals which upon such inspection shall be adjudged free from tuberculosis and other contagious disease shall be branded with the seal of the commission. This brand will be placed upon the right hip.

8th. All neat cattle passing through this Commonwealth, consigned from points without its limits, for exportation from this State will not be examined as herein provided, but such animals shall remain in quarantine until transported without the limits of the Commonwealth.

9th. All neat cattle brought within this Commonwealth consigned directly to the Brighton Abattoir for slaughter, shall be confined by themselves for identification, and shall not be released except after an examination as above provided, or for immediate slaughter.

10th. It shall be the duty of every person or persons, corporation or corporations, desiring to drive or cause to be driven any neat cattle into this State from any point without its limit, to notify in writing the Board of Cattle Commissioners of his, their or its intention so to do, which notice shall state the town or city in this Commonwealth through which it is the intention to enter, and the time when the drove will arrive within such city or town. After crossing the border all such cattle are hereby declared quarantined upon premises which shall be defined in the permit, within the limits of such city or town, at the expense of the owner or consignee, and shall there remain until they have been examined and branded, or destroyed, as hereinbefore provided. No neat cattle shall be driven within this State from any point without its limits, except as herein provided.

11th. All neat cattle branded as herein provided shall be free to all markets in this Commonwealth.

12th. No person shall sell or offer for sale, or have in his possession, except under quarantine, within the stock yards in Brighton, Watertown or Somerville, any neat cattle which are not branded as provided for in section 7, except as provided in sections 8 and 9 of this order.

13th. It is further ordered that a copy of this order shall be sent to each city and town throughout the Commonwealth, and that every town shall cause a copy thereof to be posted in two or more conspicuous places within its limit, and shall cause a copy of the same to be published once a week for three successive weeks in a newspaper published therein, or if no newspaper be published within the limits of said town, then in a newspaper published within said county; and that each such city shall cause a copy of the same to be published twice a week for three successive weeks in a newspaper published within its limits.

14th. This order shall take effect upon November 20, 1894.

COVERED BROAD GROUNDS.

New York Merchants Considered the Lexow Investigation, Tariff Agitation and Other Important Subjects.

NEW YORK, Dec. 7.—The Chamber of Commerce yesterday afternoon unanimously passed a resolution authorizing the president of the chamber to appoint a committee of five, who are to inquire and report at the next meeting whether or not it is desirable that the powers of the Lexow committee should be extended 12 months from Jan. 1, next, with the duty to investigate any or all of the departments of this city, to the end that men who have betrayed their official trusts and prostituted their offices for personal and private gain, may be punished for their crimes.

The chamber also passed resolutions declaring that the commercial and industrial interests of the country need a rest from tariff agitation; that our fleet in Chinese waters should be re-enforced; that railroads should be permitted to make pooling agreements, and that the representation of American agricultural products abroad should not be discontinued.

A Poor Exhibition.

NEW ORLEANS, Dec. 7.—The Johnson-Maher glove contest took place at the Olympic club last night. The men fought for a purse of $1500, of which $200 was to go to the loser. The fight from start to finish was a mixture of boxing, wrestling and talking. Each lick seemed to be accompanied by a curse, and in the 24th round the men were wrestling so fiercely that the referee had to separate them. From a scientific standpoint the affair was a magnificent fizzle. At the end of the 25th round Referee Duffy's decision declaring the fight a draw was received with rounds of applause.

Old Law and the New.

NEW HAVEN, Dec. 7.—The main argument of the supreme court opinion, ordering a retrial of Dr. J. E. Lee after acquittal by a jury for murder, is the point that the old English common law was so cruel that judges then wisely held that an accused after the jury acquittal could not be put in jeopardy a second time for the same offense. but now that the old law has been relaxed, a criminal ought not to benefit by the former practice and justice be thwarted by errors of judicial ruling.

Archbishops Exonerated.

ROCHESTER, Dec. 7.—Bishop McQuaid has given out a statement exonerating the archbishops of San Francisco and Portland, Or., for the part which was alleged they played in defeating him for the regency, saying: "That it is positive that neither they nor any of their suffragan bishops wrote to Republican members of the New York legislature in favor of the election of Rev. Mr. Malone as regent of the University of New York."

Sailor Used His Pistol.

BOSTON, Dec. 7.—John O'Brien, 28 years old, was probably fatally shot on Charlestown street shortly before 11 o'clock last night, by John Anderson, a sailor. Anderson claims that O'Brien and two companions acted as if they intended to rob him. O'Brien's companions claim that they were hardly aware of Anderson's presence until he opened fire. All had been drinking.

Charged With Stealing $15,000.

NEW YORK, Dec. 7.—John R. Tait, until a few weeks ago the paying teller of the Chemical National bank, was arrested last night on a United States grand jury indictment, charging him with embezzling $15,000 of the bank's funds. His bail was fixed at $10,000, which he was unable to give, and he was taken to Ludlow street jail for the night.

From Poverty to Wealth.

GUTHRIE, O. T., Dec. 7.—C. K. Hands of Boston, who has been searching for a brother who had fallen heir to $150,000, has found him near Chickneshaw, I. T. He had been gone from home for 10 years, and had served as a section hand, dishwasher and barkeeper. He will immediately return to Boston.

Powers Re-Elected.

NEW YORK, Dec. 7.—President Powers was unanimously re-elected president, secretary and treasurer of the Eastern Baseball league at an increased salary. He received the encomiums of all the delegates for his management during his occupancy of the position. The new board of directors was appointed.

For Breach of Contract.

HARTFORD, Dec. 7.—The theatrical effects of Peter Maher, the Irish champion pugilist, were attached yesterday in the suit of James W. Ringrose of New Britain for breach of contract. Ringrose claims $100 because Maher engaged his opera house at New Britain and failed to appear with his company.

Charges Are Piling Up.

CHICAGO, Dec. 7.—Dr. R. C. Flower of Boston, who is charged with securing $45,000 by questionable methods, was again arrested yesterday on a warrant sworn out by J. R. Chapman, charging the doctor with conducting a confidence game and obtaining money by false pretenses.

Postoffice Irregularities.

NEW YORK, Dec. 7.—It is reported that the commissioners who have been investigating the postoffice department here have discovered a number of irregularities, which would call for the resignations of at least two superintendents and a number of transfer agents.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Miss Ella Mahoney of Reardon field is sick with the grippe.

Judge Bumpus and wife attended the Newton-Kingman nuptials at Bridgewater on Thursday evening.

Mr. Abear and family have moved into the red house on Faxon road, on Atlantic Land company's property.

Miss Emma F. Kimball entertained a few of her friends Saturday evening, the occasion being her birthday anniversary.

R. G. Curtis, who has done considerable electric work in this city, has accepted a position with Brigham Electric Company of Boston.

One complimentary vote was cast at Wollaston on Tuesday for Mr. E. W. Henry Bass for mayor. Mayor Bass looks well, reads well and sounds well.

At the rooms of the Granite City club, on Wednesday evening, the whist prizes were given to Miss Abbie Curtis and Mr. Arthur W. Ryder, the champions of the evening.

Brother Faxon's candidate for Mayor of Quincy should restrain the ardor of his champion. Perhaps he might have been Mayor if the teetotal agitator had not made an unfair attack on Mayor Hodges.—Herald.

James L. Edwards of this city, son of James Edwards of School street, was among the successful law students to pass the Suffolk County bar examiners and will be admitted to practice next Wednesday. It is the more creditable as it was accomplished after a two years' course.

The Ideal whist club meet at Miss Eleanor Roche's home on Franklin street Wednesday evening. A very sociable time was enjoyed. The prize was taken by Mr. Thomas Dumphey of West Quincy and the solitary booby by Mr. John Gill of Quincy. Refreshments were served during the evening.

What might have under some conditions been a serious accident, happened in Fountain Square this morning. A daughter of Thomas Cannon was driving, with her horse at a walk, near the fountain when she ran into a hydrant which she did not see. This frightened the horse which jumped and cleared himself, and threw the girl out. She was carried into Hearns' drug store but otherwise from being shaken up was uninjured. The sleigh was smashed.

ORGAN RECITAL.

Christ's Church Now Has An Organ of Which It is Proud.

It was a large audience that assembled in Christ's church, Thursday evening, to listen to the organ recital at the opening of the new organ by Mr. Frank Wrigley, assisted by Walter Anderton, the boy soprano of the choir of the Church of the Advent, Boston.

The organ, which was built by Cole & Woodberry of Boston, is a magnificent instrument, and as Mr. Wrigley is a master at his art, the recital proved to be a rare treat. The numbers given were so selected that the the full powers of the instrument were brought out, from the heaviest to the low, sweet minor notes.

At times the instrument seemed to talk and some of the pathetic chords so appealed to the hearts of hearers that the dropping of a pin could be heard.

The selections by Walter Anderton were excellent and the only regret was that he could not have been heard in more numbers.

Record Breaking.

THE NEW BILL OF PRICES.

The Changes Desired by the Granite Manufacturers on March 1.

An Interview with James McAdam of the Granite Cutters' Union.

Numerous rumors have been reported in the daily papers of recent date of a proposed reduction in Quincy in the bill of prices now existing between the Granite Manufacturers' Association and the stone cutters, and considerable uneasiness has existed on the part of the latter as to just what the reduction would be.

By the agreement now in force three months' notice must be given previous to March, 1895, of any proposed change in the bill, which would mean that the notice must be given this month.

Such a notice has been given the workmen by the manufacturers, and while the proposed bill provides a reduction in some lines of work, it is not the sweeping reduction that was reported, as the average reduction is 10 per cent.

The ground taken by the manufacturers for the proposed change is that really its greatest competitor is Barre, Vt., where the bill of prices that is in force today, and has been for the past two years, is considerable lower than that of Quincy, and in order for Quincy to compete with Barre, the two bills, should, as far as possible, be alike. The proposed change is in this line, and aims to place the Quincy manufacturers on the same footing as Barre, although the price paid on some classes of work still remains higher in Quincy than Barre.

The local manufacturers claim that in this matter the New England association has nothing whatever to do with the local association which makes its own agreement with the workmen. They claim, furthermore, that at the meeting of the New England association held in Boston, Nov. 14, no vote was taken to reduce the bill of prices 15 per cent., and that practically all that was done was to adopt the nine-hour clause, and "that the standard rate of wages shall be 29 1-2 cents per hour, but this shall not be so construed as to prevent any man who cannot earn the standard wages from working at a lower rate, or those who can earn more from obtaining it." But even this the Quincy association claims is not arbitrary with them.

The Changes Proposed

By the manufacturers in detail are as follows:

BOTTOM BASE.

10 cut sides, 10 cut washes, 4 sides and 1 bed fine per super ft. from 57 to 55 cents.

Cut for polishing from 55 to 45. When over 7 ft. add .05. Formerly when over 6 foot.

SECOND BASES, PLINTHS OR FRIEZES.

Polished second bases under 1-10 square per super, ft., from 65 to 55.

Same over 1-10 square, 50.

Polished 10 cut bases, from 70 to 65.

DIES.

Plain 10 cut, 4 sides and bottom fine per super ft., from 70 to 65.

Plain for polishing to be good straight 6 cut work, free from holes, stuns or starts, per super ft., from 55 to 50.

Plain raised dies, raised 1 inch or under 4, per super ft., from $1.10 to $1.00.

Same paneled top and sides only 4 sides, from $1.00 to $ 90

Same bottom joint per super ft., from 65 to 60 cents.

Concave raised panel dies, 4 sides, from $1.30 to $1.20.

Same, bottom joint, from 75 to 65 cents.

CAPS.

With apex, 2 beds, pay same as sides, 50.

Rustic cap pay 1 1-2 fine full square of stone, is changed to read 60 cents per foot.

SHAFTS.

Plain for polishing, 15 ft. in length or under, per ft., from 50 to 45.

MOULDINGS.

V grooves one inch deep or under, 25 cents. Formerly 1-2 inch deep.

V grooves over one inch deep or under, 35 cents. Formerly 1-2 inch deep.

V grooves running to a sharp edge to count 1-2 extra. Formerly 1 1-2.

10-cut, over 2 members, 4 inches either way and under when not otherwise specified, each per linear ft., 30.

MARKERS AND HEADSTONES.

Under this head the item: "Six inches thick or under," and "No fractional part of an inch over 6 inches thick, to be construed as altering price on above item" are eliminated. The other changes under this head are:

Polished work on headstones per ft., from 60 to 50.

Slabs one face, per ft., 45.

Headstones, circling, bevelled or Gothic top, top counted twice, 6 inches thick or under, per super ft., from 70 to 65.

Over 6 inches thick per super ft., from 65 to 60.

Headstones with plain cross on top, 6 6x2-0x6 inches to 1 foot thick from $28.00 to $25.00.

Curbing with circling, bevelled or roof top, 8 cut work measuring full height of stone, top and return, per super ft., from 60 to 55.

Curbing and circling, bevelled or roof top, for polishing, measuring full height of top and return, per super ft., from 55 to 50.

POSTS.

The greatest cut is in posts, which is as follows:

Posts, 8x8 inches, 3 feet hammered, each from $3.63 to $3.00.

Posts, 8x8 inches, 2 feet hammered, each $2.54 to $2.50.

Posts, 9x9 inches, 3-2 inches hammered, each from $5.08 to 4.00.

Octagon posts, 10x10 inches, 3 6 hammered each from $5.94 to $5.00.

Octagon posts 9x9 inches, 3 6 hammered, each from $4.95 to $4.00.

MARGIN LINES ON ROCK FACEWORK.

Bottom joints on rustic panel dies polished work per super ft., from 65 to 60.

The standard rate of wages shall be 29 1-2 cents per hour but this shall not be construed as to prevent any man who cannot earn the standard wages from working at a lower rate or those who can earn more from obtaining it.

Under the present bill the maximum rate is 30 cents per hour and the minimum rate 27 cents per hour.

The changes purposed in the blacksmith's list is that "Twelve men shall constitute a gang at 27 7-9 cents per hour or $2.50 for nine hours, instead of 30 5-9 cents per hour, or $2.75 for nine hours.

All extra men shall be 22 cents extra, instead of 25 cents.

Piece work shall be 22 cents per day per man, summer and winter, instead of 25 cents.

THE OTHER SIDE.

The Ledger Interviews the Secretary of the Granite Cutters' Union.

Mr. James McAdam, secretary of the Quincy Branch of the Granite Cutters' International Union, in an interview with a LEDGER reporter this morning, said:

"Rumors which have been freely circulated of late, prepared the granite cutters of Quincy for a proposal to reduce the scale of prices, but the changes desired are more radical than was anticpated. The proposed reduction is, generally speaking, fully ten per cent. except one or two items, on which it is considerably more. The standard rate of wages is slightly cut, and most objectionable of all the minimum is entirely abolished without which Quincy might as well have no price list at all.

We consider the proposed changes uncalled for because:

1st,—The Quincy price list is as low as any in New England, and the average rate of wages does not exceed $2.00 per day, which in all conscience is not munificent.

2d,—Even if a reduction was made, manufacturers would be no better off, nor would trade be likely to be improved because those who are figuring low at present would then figure lower still, and thus no advantage would be gained by dealers, while workmen would be immeasurably worse situated than they have been for years past.

It is contended by Quincy manufacturers that they cannot compete with dealers in Barre, Vt., but as a matter of fact, work cut for polishing, is the only item of any account upon which there is a difference in favor of Barre; and comparatively speaking the bill of prices in operation there, is higher than that of Quincy.

The cheapness of Barre monuments is due to certain natural advantages possessed by the granite section of the country. It is easier quarried and much easier cut than Quincy, and under the almost general system of day work which prevails there, monuments can be manufactured at much less cost than they can in Quincy.

But although Barre dealers have this advantage, the superiority of Quincy granite for polishing purposes, more than offsets the difference in cost; and a buyer who wishes a Quincy monument will not be deterred from gratifying his taste by a trifling increase in the matter of price.

The unsatisfactory industrial conditions which exist in Quincy, however, are not due, we believe, to the competition of Barre dealers, or to the scale of prices here being too high; but rather to the fact that existing agreements have not been lived up to by either manufacturers or workmen; and in considering new agreements the first matter to be attended to should be to adopt some method whereby this evil can be abolished, or at least minimized.

The granite cutters association of Quincy is satisfied with the existing price list; only some changes are desired in the agreements regarding the apprentice question, the working of overtime, and one or two minor matters, almost all of which are in the line of agreements already existing in Barre, and approved by manufacturers there.

Although the bill of prices as revised by the Quincy manufacturers cannot be accepted as it stands, we do not anticipate any trouble here over this matter. The time has now well-nigh arrived when such barbarous methods of settling industrial disputes, as strikes and lockouts, shall be relegated to the oblivion of the past, and more just and reasonable measures adopted. We are hopeful that when committees of the two associations meet in conference, the differences will be adjusted in a manner satisfactory to all parties concerned.

DEDICATED.

The New Hose House at West Quincy Formally Opened.

The new hose house at West Quincy was dedicated Thursday evening in grand style. After an opportunity to inspect the house, Commissioner Eaton turned the keys over to Mayor Hodges, who in turn passed them to Chief Engineer Williams.

Seats were then taken at the tables where a banquet was served by Caterer Nash.

Ex-Councilman William T. Shea officiated as toast master and remarks were made by Mayor Hodges, Commissioner Eaton, Chief Engineer Williams, Councilmen Moxon, Shackley, Bigelow, Anderson and Lamb, ex-Councilmen Federhen, Green and Powers, Chief Whitmarsh of Braintree, Assistant Engineer Watson of Milton, ex-Chief Ripley of Quincy, Principal Assessor John Federhen 3d, Dr. John H. Ash, Water Commissioner John T. Cavanagh and Thomas F. Burke.

Atlantic Fair.

The Ladies of the Atlantic M. E. church, held their annual fair in Music hall, on Tuesday and Wednesday evenings. The entertainment Tuesday evening consisted of a cantata by the Junior League, which was very well rendered. The children seemed perfectly at ease and all without any friction. The quartette of two boys and two girls was particularly well rendered.

Wednesday evening the programme was as follows: Piano solo, Miss Daisy Bemis. Solo, Mr. Seaman. Reading, Mr. Hollington. Solo, Miss Mabel Burr. Reading, Mrs. Blanchard. Solo, Mr. Seaman.

The Junior League had a cake and cocoa table and twelve girls, dressed in blue aprons, served the refreshments for the small sum of five cents. The other tables were very prettily decorated, and well filled with various articles.

Kings' Daughters.

At the State Convention held in Boston, Dec. 4, Miss Emma J. Fuller of West Quincy, was unanimously elected State Secretary of the International Order of the Kings' Daughters and Sons of Massachusetts. She held the position as Secretary of Norfolk County for three years, and was faithful and successful in her work, as was shown by the honor conferred upon her at the convention.

December Magazines.

In *McClure's Magazine* for December, Miss Tarbell's second paper on Napoleon treats of Napoleon's passionate love for Josephine in the early period of their relations, and of Napoleon's swift rise to fame and supreme power through his brilliant achievements in the Italian and Egyptian campaigns. There are fourteen more portraits of Napoleon. Professor Henry Drummond, in "Some Impressions and Facts" regarding Mr. Moody, supplies much interesting information about a man known to everybody in his public words and works, but hitherto scarcely at all known in his private life and history. There is also a series of portraits of Archdeacon Farrar, who contributes a Christmas article, "The Christ-Child in Art," embellished with reproductions of famous paintings. Then there is an excellent Christmas story, and a story which, while not a Christmas story in point of time, is preminently one in spirit and conclusion.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W. Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

THE SWEDES' DAY.

The Birthday of Gustavus Adolpus to be Celebrated.

"YOUNG LION OF THE NORTH."

The Beloved King of Swaden Kindly Remember by Former Subjects.

On Sunday evening the Swedes who have been faithful to the religion of their old fatherland will celebrate the 300th birthday of Gustavus Adolphus, the Swedish king, who gave his life for Lutheranism and the religious freedom. He was the greatest of all Lutherans, and the Swedish Lutherans of this city do only justice to his memory, in celebrating his birthday in the Swedish stone church on Granite street, on Sunday evening, at 7.30.

Gustavus Adolphus was born in the royal palace at Stockholm on the 9th day of December, 1594. The young lion of the North (as he grew to be called) received an excellent education by Johan Skytte, a man who had travelled for ten years over the known world and seen every place worth seeing.

There are two stories told of him when he was quite a little boy that serve to show how fearless he was. Once his father took him down to Kalmar to see a fleet of warships.

"Which of the ships does Your Highness like best?" an officer asked the boy. "That one," he answered, "because she has more guns on board that the others."

His nurse said to him one day when they were out walking: "You must not go into that wood, there are great big serpents there."

The prince without becoming the least disturbed, said: "Well, give me a big stick then; I'll soon kill them," and he walked right into the wood. Afterward he treated all enemies in such a manner.

When the young lion was seventeen he could speak seven languages. He used to write the funniest letters. Knowing languages so perfectly, he would mix into one letter Latin, German, French and Swedish, using the shortest and readiest word in each language that expreseed his thought. To decipher one of his letters now is worse than the fifteen puzzle to a good linquist. He was taught all kinds of athletics naturally, for that race was the most vigorous and muscular in the world.

When his father was dying, he gave his son this wise bit of advice, which is worth repeating, for it can do as much good if carried out by every boy and girl as by the King of Sweden: "Honor thy father and mother; be tender to thy sisters, gracious to thy inferiors, trust all men fairly, but not entirely when thou hast learned to know them."

When at seventeen he was made King. In the great thirty years war he was the central figure. He died with his boots on, shot to death on the battlefield when a glorious victory was in sight. So died the great lion of the north, who lived and fought and died—all gloriously that his faith in God and right should become the faith of all men.

—Congressman McEttrick found on his desk in the House Thursday a basket of roses with this inscription: "Yours was not defeat; indeed, 'twas a wondrous victory."

DIED.

MOORE—In Quincy, Dec. 6, Mrs. Harriet E. Moore, aged 85 years, 1 month and 6 days. Funeral from her late residence on Elm street, Saturday at 3 o'clock. Burial private.

POLISHED CHIPS.

A correspondent to the Newton Hamilton Watchman says: The site of Fort Shirley is to be suitably marked by a tablet erected by the state, the preliminaries having been recently arranged. As this is the most historic spot in Huntingdon county, this action is worthy of all commendation. The site of the forts is at the eastern entrance to Shirleysburg. Representative Lytle has been chiefly instrumental in bringing about the erection of the tablet.—*Tyrone (Pa.) Herald.*

Some years ago Congress delegated the Secretary of State the duty of selecting the most appropriate means of marking Washington's birthplace at Wakefield, Va., seventy-five miles below this city, on the Potomac river, and $11,000 was appropriated for the purpose. The movement has been delayed owing to the absence of facilities for the transportation of material, but the completion of a wharf by the Government near the site supplies this want, and proposals will be opened on Dec. 15. Secretary Gresham had decided that a shaft of American granite, high enough to be plainly visible from passing vessels, a distance of about five miles, would be the most suitable structure, but its exact design and inscriptions have not yet been determined on.—New York Tribune.

The making of a statue of Rufus Choate has been put into the hands of Daniel C. French. This strikes us as a good selection. Mr. French is a man of original methods, and these are needed in the case of Choate. He is not at all a personage to be treated conventionally. The task for a sculptor will be a trying one here, and the difficulties in it are obvious to those who remember Choate's striking lineaments. There is opportunity for signal success, and as signal a failure is possible. A halfway success will be hardly less satisfactory. If the rare and peculiar individualty of the man is not realized we may still possess an artistic work, but there can be no satisfactory statue of Choate which falls far short of presenting that which was unique in the the man. It requires courage to attempt this, but there is opportunity in it to make the most striking of all the statues of Boston.—Herald.

Former Residents Remembered.

Mr. and Mrs. Gardner S. Coffin, former well known residents of Quincy, were surprised at their residence in Newton, Wednesday, by a number of their many friends from Quincy, Wollaston, Chelsea and Winthrop, the occasion being the fiftieth anniversary of their marriage. The ladies in the surprisers made their appearance in the afternoon, and as the day wore on the gentlemen came, and the evening was made one of enjoyment to all. After the wedding supper had been served, Mrs. John W. Moore of Chelsea read an original poem, and Miss Lizzie Coffin of Quincy, a granddaughter, read a brief address of a congratulatory nature, and brief remarks were made in behalf of Quincy friends by Mrs. Fred Hardwick. Mr. and Mrs. Coffin received a number of anniversary presents. Mrs. Coffin was a Quincy girl and resided for many years on Mechanic street.

Meeting of the Doctors.

The Norfolk South District Medical Society held its monthly meeting at the Greenleaf Thurday.

Dr. J. A. Gordon was one of the essayists and took for his subject "Asphyxia." In connection with the subject Dr. Gordon exhibited and explained the working organ of an apparatus designed by Dr. Fell of Buffalo, N. Y., for performing artificial forced respiration. This is the same apparatus recently presented to the Quincy Hospital by Mr. E. S. Litchfield of Wollaston.

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy at home or on a trip away from home.

"What a Lovely Complexion!"

"Isn't her complexion charming!" These are expressions we hear every day, made by women in reference to others, which reveal a pardonable envy, and one which can be gratified.

The secret of good health, as indicated by a rich color, and well-rounded figure, is found in a good digestion.

Shopping tours, dances and entertainments indulged in, will leave you utterly fagged out, unless you are obtaining all the value from your food; and it is so easy to accomplish this that you will wonder no one has spoken to you of it before.

Try with each meal, and at bed-time, a wineglassful or more of the **Genuine Johann Hoff's Malt Extract,** which you will find to be most acceptable to the palate as a beverage, and will lift you right on to the plane of the vivacious and trim-figured sister you admire so much, and who seems capable of enduring endless fatigue.

Then, again, we must remember the nursing mother, where two lives are dependent upon the proper nourishing of the one. Surely nothing can be more valuable to the mother, nor give more comfort to the baby, by producing a generous flow of milk, than the

GENUINE JOHANN HOFF'S MALT EXTRACT.

Defective nutrition is the foundation of all ailments.

A healthy, well-nourished body can withstand almost any disease. There is resistance power in such a body.

* * *

I have been taking the *Genuine Johann Hoff's Malt Extract* myself for a year or so, and find it an excellent tonic and appetizer. Without doubt it is the best Malt Extract in the market.

WORK FOR SENATORS

Important Subjects In Order ot Business Prepared by Democrats.

SKELETON OF THE FORCE BILL

Resurrected to Defeat the Arguments For Cloture.

WASHINGTON. Dec. 7.—At the close of yesterday's Democratic caucus, Senator Faulkner, the secretary, gave out the following:

"The Democratic caucus directed the 'steering committee' to prepare an order of business which would present for the consideration of the senate the following subjects of legislation: A bankruptcy bill; a bill for the construction of the Nicaragua canal; a currency bill; bills for the admission of Arizona and New Mexico; a bill involving the interests of the Indian territory; for the consideration of the joint resolution of the house of representatives for the election of United States senators by the people, and such other measures, including the appropriations bills, as the steering committee may deem important; that in their report of the caucus the steering committee shall provide the order in which the above subjects of legislation shall be considered."

The caucus was in session from 2 o'clock until 4:20 p. m., and almost the entire time was devoted to the discussion of the first proposition of Senator Daniel, instructing the committee on rules to bring in an amendment for a cloture, and the speeches were at times very spirited.

Senators Vest, Vilas, Berry and George, made speeches favorable to the proposition, while Senators Gorman, Morgan, Palmer, Harris, Pugh and others, opposed it with vigor and warmth.

Considered the Future.

The speeches were in the same vein as those which have been made in the senate, except that the speakers discussed party questions with more freedom, pointing out the fact on one side that the Democrats would soon be in the minority in the senate, and probably in need of the protection which the present afforded, while on the other side the advocates of cloture urged the importance of the supplementary tariff bills, and admitted very frankly that there was no possibility of such action without a rule for the limitation of debate.

The opponents of a change evidently had the best of the argument from the beginning. It is understood that they even invoked the ghost of the force bill, and urged that if the Republicans should get into power they would revive this measure.

Senator Gorman took the lead in pressing the views in opposition to cloture. Senator Palmer, who had heretofore been an advocate of cloture, indicated a change of position, and made a vigorous protest against the adoption of the resolution. He said the Democrats would lose their majority in the senate within a few weeks, and said it would be the acme of foolishness to tie their hands at such a critical time. The protest against the proposed change was so general that when a vote was taken. no one considered it necessary to ask for the ayes and nays.

Gave Up the Battle.

With the cloture provision defeated, the friends of the tariff bill gave up the fight, considering it unnecessary to make an attempt to revive their consideration in view of the opposition of a majority of the Republicans, and because of the fact that any determined opposition under the present rules would insure their defeat. Hence it is that those bills do not appear in the official list of bills to be presented for the consideration of the senate.

The order for the preparation of a currency bill by the finance committee, carries with it instructions to take the recommendations of the president and secretary of the treasury into consideration. The order is also broad enough to include any other suggestions of a financial character which may be presented, and the senators favorable to silver, who were present in the caucus, say that it is also understood that a feasible proposition for the utilization of silver is to be included in any currency scheme presented to or by the committee.

No meeting of the steering committee has yet been called, and there has consequently been no argument as to the order in which the bills agreed upon shall be taken up.

Congressional Doings.

The entire time of the house was occupied in the discussion of the railroad pooling bill, to which there appears to be a great deal of opposition. No action, however, was taken on the bill. Messrs. Cooper (Fla.), Gresham (Tex.), Morse (Mass.) and Daniels (N. Y.) took part in the debate.

The former directed his opposition to the section giving the railroads the power to carry questions relating to the revocation of pooling orders into the courts, and offered a substitute giving the interstate commerce commission absolute control of all pooling contracts. Messrs Gresham and Morse favored the bill, while Mr. Daniels attacked it on the ground that that it would subvert the objects of the interstate commerce law.

Representative Draper of Massachusetts introduced a bill making compulsory the use of automatic couplings and arrangements for steam heating.

The senate had a brief session and then adjourned over until Monday. Mr. Vest had intended to urge action on his plan to secure cloture in the senate, but there was no disposition among the senators to settle the question at once, and Mr. Vest reluctantly let the question go over.

Robbers Held Up a Train on a Trestle In Texas and When They Departed Took a Safe With Them.

FORT WORTH, Tex., Dec. 7.—The eastbound Texas and Pacific passenger train was held up on a trestle seven miles west of here last night. Several shots were fired from the front end of the train, and the passengers were warned to keep their heads in the windows. The train was detained 10 or 15 minutes, during which time those who caught a glimpse of the party on the other trestle saw three masked men with guns, marching the engineer and trainmen in and out of the baggage car.

When they finished their work, the robbers made the engineer back the train over the trestle, and while it was crossing they disappeared in the forest.

In one respect the robbery was remarkable, and sets a precedent. The iron safe of the messengers was thrown from the car and carried off. The robbery is one of the most daring on record. It is learned from authoritative sources that upwards of $100,000 was secured.

A Desperado's Doings.

ASHLAND, Ky., Dec. 7.—A tragedy that will end in a triple murder occurred at Fultz Station last night. General Fultz, Sr., aged 60, and his son, aged 25, are dead, while John Phyills, his son-in-law, is lying with a bullet through his head. Thomas James, all-round desperado, who was charged by Fultz with the betrayal of his sister, did the shooting and escaped. A posse is in pursuit, with prospects of an early lynching. The tragedy occurred at a church, where a series of revival meetings were being held. The daughter of the murdered man, who met her lover clandestinely, is almost crazy with remorse.

Crooks Caught.

FALL RIVER, Mass., Dec. 7.—Two notorious crooks were captured last night by Inspector Perron. George Gould is held on a charge of attempting to shoot Annie Connelly. Andy McCormick is accused of highway robbery. Gould had a pocketbook containing confederate money, similar in all respects to some that has been troubling the detectives for a long while. He had a revolver and other paraphernalia usually carried by desperate characters. The police decline to say much about McCormick's crime at present, beyond the serious charge indicated.

Gallagher's Gall.

WINSTED, Conn., Dec. 7.—A man representing himself as a deputy sheriff, walked into Canty's saloon last night and grabbed a German named Carl Schnieder whom he said he wanted for murder. They went to the German's home, and the stranger wanted $5 to let the man free. Schnieder's wife paid him $3, and the stranger drove off. Schnieder notified Chief Wheeler, and the stranger was arrested. He claimed to be P. J. Gallagher of Scranton, Pa.

Charged With Blackmail.

HAVERHILL, Mass., Dec. 7. — Gladys Hodgdon is charged with blackmail by a Boston man, giving the name of Charles Barnes, but whose real name is said to be James S. Williams. On application of Benjamin F. Brickett, lawyer for the defense, the case was continued, the defendant being placed under $1500 bonds.

Czar Has a Heart.

VARNA, Dec. 7.—After a long delay, the czar has sent a cold and formal acknowledgement of the sultan's effusive message, promising to send a special mission to congratulate the emperor on his marriage. This snubbing is assumed to be intended as a mark of the czar's displeasure on account of the Sassoun outrages.

Indicted For Contempt.

NEW YORK, Dec. 7.—It is stated that the grand jury has indicted Police Commissioner Sheehan for contempt of court, in failing to obey a summons to produce his private books upon the demand of the Lexow investigation committee.

Scarlet Fever Rages.

LOWELL, Mass., Dec. 7.—There is an epidemic of scarlet fever at the Ayer home. The disease was first noticed Wednesday, and it spread with such rapidity that 38 of the 42 children are now affected. Serious results are not anticipated.

Statesmen Feel Shaky.

LONDON, Dec. 7.—The Morning states that at their own requests detectives are shadowing Herbert Asquith, Sir William Vernon Harcourt and John Morley. Fears are entertained of a revival of the Fenian movement.

The Quality must be kept up, and if you buy of us we guarantee all our TEAS and COFFEES.

In order to keep up the quality, however, there is a limit to what can be given as premiums to purchasers.

Being large buyers in the market for all the lines of goods we handle, and always paying cash for our goods, we certainly can offer you as good inducements in premiums as any store in New England for the same quality of goods.

But the quality must be maintained, and we are determined to be known as reliable on that point. Don't fail to try

HOMES ARE CROWDED.

Many Disabled Volunteer Veterans Are Unable to Secure Accommodations to Which They Are Entitled.

WASHINGTON, Dec. 8.—The annual report of the board of managers of the National Homes for Disabled Volunteer Soldiers was sent to the house yesterday. It treats of the 21 state homes. The aggregate average number kept in the national and state homes was 20,162, and the whole number cared for during the year, 35,564.

On June 30, 1894, the number present in the several branches of the National Home was 15,373, an increase in one year of 1668. This fact, says the report, showed a congestion that was alarming, considering that the time of the year was one when the population of the home would naturally be the least, and later when the number was greater, suspensions of admission were authorized whenever there was lack of room.

This suspension causes great distress. The board has no means of alleviating it. The men not admitted, although entitled thereto, must in general be cared for by the charity of Grand Army posts, or charitable institutions of the cities where they are stranded.

There are only two branches which can economically and properly be enlarged, the one at Marion, Ind., and the other in California. An alternative proposition suggested is the establishment of another branch home in some central place.

The annual cost of the maintenance of each man at the homes was $127.45, a decrease from the previous year of $13.50; the deaths were 1050, an increase of 20. The inspection of the state homes shows that in general they are economically managed.

Every year the original admissions to the various homes more than make up the losses by discharges and death. There are now 1,000,000 persons living, who, if they become non-supportable, will be entitled to admission to the National Home.

A Death Blast.

BOSTON, Dec. 8.—A terrible dynamite explosion occurred in Roxbury yesterday afternoon, which resulted in the death of one man and serious injuries to five others, two of whom are not expected to survive. The accident occurred on the new driveway to Franklin park. A dynamite cartridge had been placed on a rock on Tuesday and had failed to explode at the time. John McGann, the man now dead, was digging around the rock and struck the cartridge with his pick, exploding it. James Gately, aged 25, and Patrick Leonard, aged 25, were fatally injured.

On Labor Lines.

CLEVELAND, Dec. 8.—The Painters and Decorators' convention adopted a platform calling for compulsory education, direct legislation, a legal eight-hour workday, sanitary inspection of workshops, mines and homes; liability of employers for injury to health body and life; abolition of the contract system in all public works, abolition of the sweating system, municipal ownership of plants, for public distribution of light and power, nationalization of telegraph, telephone, railroads and mines.

Proves to Be a Crook.

BOSTON, Dec. 8.—John Anderson, who shot John O'Brien Thursday night, is found to be a well-known crook. His right name is said to be Quinn, and he claims Lowell as his home. He confessed that his story that O'Brien attempted to rob him was not true, and that he intended to shoot one of O'Brien's companions, to revenge some wrong alleged to have been sustained while the two were serving time in the house of correction. O'Brien is in a critical condition.

Kossuth's Ideas.

VIENNA, Dec. 8.—At a banquet given in Buda-Pesth to Frank Kossuth, the latter promised to advanced all his late father's ideas, except those regarding the dynasty. The main requisites for Hungarian independence, he said, were a separate customs service and an independent Hungarian bank. Kossuth will stand as a candidate for the reichsrath for a division of Buda-Pesth.

All Were Diseased.

LAWRENCE, Mass., Dec. 8.—Twenty-nine cows were killed in Andover yesterday afternoon by Drs. Osgood and Williams of the cattle commission. All of the cows belonged in this neighborhood. A post-mortem examination showed that in every case the animals were badly diseased. Lumps of diseased matter were cut out, ranging in size from a bean to a man's fist.

Want O'Brien Removed.

ST. JOHN'S, N. F., Dec. 8.—The Radical element in the Whiteway party are to memorialize the queen to remove Governor O'Brien from this colony, alleging that his refusal to dismiss the present ministry is an unconstitutional proceeding, and claimed that the Whitewayites are legally empowered to represent the people's views.

Can't Make Money.

ST. LOUIS, Dec. 8.—United States Circuit Judge Caldwell, upon motion of the Manhattan Trust company of New York, has issued an order for the sale under the foreclosure, of the Sioux City, O'Neill and Western railroad. The railroad has been in the hands of a receiver, but has not been able to rehabilitate itself.

Republicans Will Endorse It.

WASHINGTON, Dec. 8.—Senator Hale expresses the opinion that the Democrats acted wisely in deciding against attempting any further tariff legislation, and says that the program decided upon is one which he thought would in the main insure Republican co-operation.

ROBBERY THE MOTIVE.

Two Men Charged With Murdering a Chicago Man In a Most Horrible Manner—Victim Literally Cut to Pieces.

CHICAGO, Dec. 8.—The dead body of A. D. Barnes, janitor of the Hiawatha building, at 238 Thirty-seventh street, was found yesterday jammed into a packing case, which had been thrust into a hole beneath the sidewalk on South Park avenue, between Sixty-third and Sixty-fourth streets.

The body, which was naked, with the exception of a pair of socks, bore over a score of ugly wounds, half of them sufficient to cause death, even if the man had sustained no further injury than the one blow. The other wounds had evidently been inflicted with both the cutting edge and the blunt side of an ax, and covered the body from the right temple down to the knees.

Two men are in custody charged with the crime, Edward Jordan, the assistant janitor, and Lewis Jersey, a man of no occupation. The crime was unquestionably committed in the basement of the house, as the police discovered there late yesterday afternoon the clothing worn by the janitor when last seen alive, and the blood-smeared ax. Signs of a struggle were plainly visible, showing that Barnes must have made a hard fight for his life.

No other motive than that of robbery is ascribed for the murder, for Barnes, as far as known, had no enemies, and a watch and $30 in money, which he had upon his person when last seen, are missing.

Congressional Doings.

WASHINGTON, Dec. 8.—The house spent over an hour yesterday in the consideration of the bill to protect forest reservations, but no vote was had, and the remainder of the day was occupied in the further discussion of the railroad pooling bill. The debate was participated in by Messrs. Bartlett (N. Y.), and Wise (Va.), in support, and Messrs. Bryan (Neb.) and Northway (O.) in opposition to the bill. The speech of Mr. Cockran was especially brilliant, and for almost an hour held the house spellbound. Debate under the five-minute rule begins today, and it is expected that a final vote will be reached on Tuesday next. The bulk of the opposition seems to be directed at the section of the bill which gives railroads the right to appeal to the courts from the decision of the commission revoking pooling orders.

Masons Alone an Exception.

ST. PAUL, Dec. 8.—The fact has just been published that in the archdiocese of St. Paul, Catholics may join any secret societies except the Masonic order. Judge Kelley has just joined the Knights of Pythias, although he is one of the most prominent Catholic laymen in America, and considerable talk has resulted, as other prominent Catholics are also joining. One of them said: "Archbishop Ireland had decided that a Catholic may join any secret order except the Masonic, so that Catholics are at liberty to do as they please in this respect."

An Oklahoma Episode.

GUTHRIE, O. T., Dec. 8.—James Brown, Frank Brown, J. B. Knight, Charles Ketchem, Sam W. Scott and a man called "One Eye Taylor," were going home drunk and met Sam Crocker, a deputy marshal, and three strangers en route to Alva. Without provocation, the drunken men opened fire on the other party. A general fusilade followed. Ketchem and James Brown were killed outright. Knight had his legs shattered, and Taylor, the deputy marshal, and one of the strangers were wounded.

A Mysterious Case.

NEWARK, N. J., Dec. 8.—Stephen Nady is dying in St. Michael's hospital in this city. Nady says that yesterday afternoon he met a man who gave the name of George Stephanno. Nady informed his new friend that he was searching for work. Soon after this Stephanno said he could get work for Nady at Kreicherville, Staten Island. The two men then departed for Staten Island. Nady claims that Stephanno enticed him out into the country and attempted to murder him.

Defending Archbishop Ireland.

NEW YORK, Dec. 8.—Rev. L. A. Lambert, editor of the New York Freeman's Journal, in an article published in the issue of that paper today, accuses Bishop McQuaid of having sought to be appointed regent of the University of the State of New York. Bishop McQuaid, he charges, is embittered because Archbishop Ireland is said to have sought the appointment of Father Malone to that office.

Something New.

DENVER, Dec. 8.—Sixteen men are engaged in this city upon a contest of endurance, a prize of $500 being offered to the one who keeps awake a whole week. The men are in a large room, under the eye of watchers. When a contestant is seen to dose, a bell is struck. If he fails to awaken he is counted out.

Yale Will Answer.

NEW HAVEN, Dec. 8.—The faculty of the University of Pennsylvania have challenged the Yale Athletic association to substantiate the charges of professionalism, hinted at broadly recently against the football players of the Pennsylvania eleven. The Yale Athletic Association will answer at once.

The Texas Train Robbery.

FORT WORTH, Tex., Dec. 8.—The amount of booty secured by the train robbers on Thursday night is placed at $40,000. The officers engaged in the pursuit are confident the desperadoes are members of the Cook gang. A detachment of state rangers has started after the robbers.

EPIDEMIC OVER.

The Diphtheria Has Abated and Public Schools Will Reopen.

Supt. Lull gives notice today that all the public schools will reopen on Monday next.

The school authorities feel that the scare is over, as there have been no new cases the past few days.

During the time school has been closed the rooms have been thoroughly fumigated by the burning of sulphur, and have also been washed with the best disinfectant in the market. The work of scholars, papers, pencils and many books have been destroyed and everything possible done to stamp out the disease germs.

With all this precaution, however, it is expected that the attendance, especially at the Coddington, will be small.

EPWORTH LEAGUE COURSE.

"An Evening in Peking" and Those Who Took the Characters.

The last entertainment in the Epworth League lecture course was given in the vestry of the West Quincy Methodist church on Thursday evening. It was in charge of Miss Clara M. Cushman of Dedham, who resided in Peking, China, seven years as a missionary teacher. The subject was "An Evening in Peking."

The following persons took part and represented Chinese characteristics:

A Buddhist Priest,—Chas. Goucher.
Lama Priest,—E. W. Virgin.
Two soldiers,—Charles Barron and Chas. Gragg.
Teacher,—Clarence Trask.
Mourner,—Harry Loud.
Chinese bride,—Mary Trask.
Chinese lady,—Belle Moir.
Japanese lady,—Mary Geer.
Hindoo girl,—Susie Bayard.
School girls, Lottie Crowell, Florence Thayer, Alice Jilbert, Mary Rose, Jennie Crowell, Carrie Geer, Lena Manhire, Phoebe Harris, Sadie Williams, Elsie Virgin.
Pianist, Hattie Fuller.

Every seat in the vestry was taken and many were obliged to stand. The address by Miss Cushman, and explanations of the rich and varied robes and dresses worn, were very interesting, and the processions and songs, and lessons of the Chinese school, all make an entertainment that pleases, profits, and pays in financial returns.

Miss Cushman will always be welcome at the West Quincy Methodist church.

Sunday School Officers.

The Congregational Sunday school elected officers last evening under the new constitution, the school hereafter to correspond with the calendar year.

Mr. W. H. Fay, who is completing his third year, announced some weeks ago that he desired to relinquist the office, much to the regret of many. He was kindly remembered with a vote of thanks, on motion of Mr. King. It is a favorable time for a change as the Sunday school move into its new chapel about January 1.

Superintendent,—E. W. Branch.
Assistants,—Miss M. E. Fish (two others are to be elected.)
Secretary,—Charles Sampson.
Treasurer,—James S. Baxter.
Librarian,—Miss Jillson.
Assistant,—Miss Dunn.
Executive Committee,—the pastor, the above officers and Miss Cora Young, and Theophilus King.

It was voted to inscribe on the records a testimonial of the appreciation of the gift of the late Deacon Smalley, the income from which goes to the library of the school.

It is expected that the Sunday school will reopen a week from Sunday.

Sons of Veterans Notes.

The meeting of Camp 27 Tuesday was replete with business and pleasure. A large number of the members were present it being election of officers night. The following brothers were elected for 1895:

Captain,—Clarence E. Bayard.
1st Lieut.,—Herbert R. Holmes.
2d Lieut.—Geo. H. Foss.
Camp Council,—M. C. Holmes, L. H. Parrott, Jr., A. F. White.
Delegates,—Samuel A. Allen, Albert F. White.
Alternates,—L. H. Parrott, Jr., and Arthur O. Allen.

At the close of the meeting a baked bean supper was partaken of, which was followed by speech-making and an excellent entertainment, the latter being furnished by Messrs. John Bigelow, Jr., piano solo; Fred Haskell, violin; A. Gragg, banjo; Arthur Metcalf, piano solo, and brothers Arthur Allen and C. E. Bowker, songs and recitations.

The camp was honored with the presence of about thirty visitors representing Camp 17 of Brockton, Post 88, G. A. R., and Middleboro, Dedham, Cambridge and Boston camps.

The brothers chose as their installing officer for 1895, Brother Estes of Brockton.

Two new recruits will be mustered in at the next meeting.

THE PROPOSED BILL.

Also What the Cutters' Union Desire of Manufacturers.

EXTRA WORK AND APPRENTICES

The Cutters' Union to Meet Next Wednesday Evening to Take Action.

The article in Friday's LEDGER was the first information that many of the rank and file of the granite cutters had of the exact changes in the existing bill of prices desired by the Granite Manufacturers' Association, and that they do not take kindly to them is not at all surprising.

There seems to be a difference of opinion between the manufacturers and cutters as to whether or not the price list in force in Barre is lower than in Quincy. The manufacturers claim, taking all things into consideration, that the average paid in Quincy is higher than in Barre, but on the other hand the cutters claim that a man at work on Barre granite can earn more at 50 cents per foot than a man can at work upon Quincy granite at 60 cents per foot.

It is human nature for anyone who wants to buy anything to get it as cheap as they can, and if two monuments are placed side by side, one of Barre granite for $500, and one of Quincy granite for $600, nine cases out of ten the purchaser will take that of Barre granite, for to him it looks as well and is apparently as substantial as the Quincy, as far as he knows, and then again many manufacturers had rather sell the Barre monument for they can make more money out of it.

Some manufacturers even will talk Barre granite to their customers instead of Quincy for the same reason. If Quincy manufacturers would talk Quincy granite, first, last and always, more would be used.

The interview with Mr. McAdam published Friday, stated that the cutters also desired a change in the existing bill of prices but gave only a general idea of what it was. The change sent to the manufacturers by the cutters is, that men be paid 25 per cent extra for overwork.

As it is now the cutters claim that only the day rates are paid for overwork, and that instead of putting on men in the day to finish up a job they will keep them at work late at night.

The other change desired by the cutters is in regard to the apprentices.

As it is now a manufacturer can put on as many apprentices as he likes, which the cutters claim is a detriment to the men.

What the cutters want is to limit the number of apprentices to one to every four journeymen.

The regular meeting of the Cutters' Union will be held next Wednesday evening, but what action they will take is not known. It is probable that a committee will be appointed to meet a like committee from the manufacturers, and it is hoped that the matter will be settled peaceably and when spring opens, business will be rnshing.

BARGAINS IN STAPLE MERCHANDISE.

IN CONNECTION WITH THIS SALE WE MAKE A

SPECIAL OFFER.

This Will Tell You All About It.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

OUTLOOK FOR QUARRYING

In Biddeford they Say it Was Never Better—Boom Started.

Biddeford, Maine, has a board of trade, and it believes in booming the granite industry in that town. A meeting was held last night, says the Herald at which ex-President John T. Goldthwait advocated a re-establishment of the Biddeford Granite Company, which was organized two years ago and its stock liberally subscribed for by local investors.

Owing to a disagreement among some of its chief officers and a desire on the part of a few to get in on the "ground floor," to the exclusion of other stockholders, the company never got beyond the stage of temporary organization.

Mr. Goldthwait declared that the outlook for granite quarrying was never better. All that is needed is capital with which to work the quarries. He said that one local firm was offered orders enough this year to have kept every plant in town running full blast, but, owing to lack of capital, only a limited amount of business was done.

The matter was continued till the next meeting of the board, when some action will be taken with a view to organizing a company, or in some other way securing a better development of this important branch of Biddeford industry.

Knights of Honor.

Merry Mount lodge, K. of H., elected these officers at its meeting last evening:

Dictator,—Charles Nash.
Vice Dictator,—Samuel Oxford.
Assis'ant Dictator,—George Chalmers.
Chaplain,—Hugh McPhail.
Reporter,—W. W. Penniman.
Financial Reporter,—J. W. Stancomb.
Treasurer,—Albert Keating.
Guardian,—Willard Lane.
Sentinel,—Charles H. Somes.
Representative to the Grand Lodge,—Albert Keating.
Alternate,—Andrew Milne.
Trustees,—H. Totman, Quincy Tirrell, W. J. Blake.
Auditors,—Andrew Milne, Quincy Tirrell, W. J. Blake.

City of Weymouth.

It is believed by a good many that we have now within the limits of Weymouth twelve thousand people, the requisite number to make the town a city. It is suggested that a careful census would prove this and that the census as taken by the government was probably not an accurate one. Then why not raise money by private subscription for a thorough census, making it certain that every man, woman and child is included. If such a census, should show the necessary twelve thousand or over, then the town could be made a city. It is worth considering.—Gazette.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

BRAINTREE.

Gates have now been put up at all the grade crossings in Braintree.

The two last were put up this week, one at the crossing on Shaw street and the other at the crossing at Quincy avenue, in East Braintree.

There are no less than ten crossings in Braintree; four on the South Shore and six on the Plymouth and Fall River roads.

The Braintree and Holbrook street railroad began running its cars on Tuesday, down to the steam railroad station at Braintree. This will be a great advantage and will increase the amount of travel over the electric road and no doubt will do the same for the N. Y. N. H. & H. R. R.

Muskrats are plenty at Little Pond. There has been ten caught inside of a week.

R. Elmer Morrison is sick we regret to learn, and confined to his room, Dr. F. H. Dearing the family physician is attending the case.

Tuesday afternoon an electric car run into a sleigh owned by John Hall of Quincy, driven by two ladies in front of Thayer Academy.

Dr. F. W. Brett, principal of the Monatiquot school, has arranged a visit to the Museum of Natural History in Boston today, accompanied by thirty of his pupils.

Mr. and Mrs. Strong French celebrated their silver wedding on Wednesday evening. Some 40 or 50 friends were present with their congratulations. A pleasant evening was spent with them.

Electric bells establishing communication between all the rooms in the Jonas Perkins school has been put in. This was done by Dr. Brett principal of the Monatiquot school. The doctor is quite an ingenious sort of a man and an acquisition to any town.

The Braintree Pine Tree club held their first meeting of the season on Tuesday evening at Pythian hall. A large number were present and a very pleasant time was enjoyed by all, cake, ice cream, lemonade and a good entertainment made it the more so. This Pine Tree club ought to be a healthy one, they have a doctor for president and a doctor for vice-president. New members are being added.

At the regular meeting of the Woman's Relief Corps held Monday evening the following officers were elected for the coming year.

President,—Mrs. Carrie Fisher.
Senior Vice-President,—Isabel Coy.
Junior Vice-President,—Ruth Hobart.
Chaplain,—Julia Marland.
Conductor,—Lizzie Porter.
Assistant,—Lena Mansfield.
Grand,—Adaline Hollis.

Last night Gen. Sylvanus Post 87, G. A. R., met at headquarters, Grand Army Hall, South Braintree, and elected the following officers for the ensuing year:

Commander,—C. G. Anderson.
S. V. C.,—Morrill Williams,
J. V. C.,—W. M. Richards.
Surgeon,—C. E. Smith.
Q. M.,—H. A. Monk.
Clerk,—H. B. Whitman.
O. D.,—J. M. Foster.
O. G.,—E. L. Curtis.
Delegates,—E. O. Pearson, Elias Holbrook.
Alternates,—J. M. Foster, E. L. Curtis.
Trustee for three years,—H. A. Monk.
Janitor,—T. B. Stoddard.

Campaign Beer.

To the Editors of Daily Ledger.

It will take more than campaign talk to convince the public that such well known and respected citizens of Quincy as Hon. H. O. Fairbanks, S. O. Moxon and J. W. McAnarney had anything to do with the beer racket in Ward Two.

It is interesting to note, however, that the Democrats maintain a discreet silence in regard to the beer used in the interests of Mayor Hodges, and whiskey that was freely given away the night before election in Ward Three, also that the Advertiser make no comment on the free fight that occurred over Democratic beer in Ward Six It is understood that a prominent Democrat was so overcome that he had to be taken home in a carriage.

PERSECUTION OF PROTESTANTS.

A Movement by Czar Nicholas Which Is Not In Line With the Liberal Policy Which Was Anticipated.

ST. PETERSBURG, Dec. 8.—The official messenger prints a circular against the Stundists. by Privy Councillor Durnovo, minister of the interior. The circular forbids Stundist prayer meetings, and declares this religious sect to be most dangerous to church and state.

The Stundist movement in south Russia is really a purely religious one, yet it is regarded as political, because in Russia church and state are identical. The Stundists are a Protestant sect resembling somewhat both the German Methodists and Baptists of America. The Stundist movement took its rise about 35 years ago, having its origin with the German peasants whom the Empress Katharine enticed from their Lubian home to colonize the district of Kherson on the Black sea. Their religion adapted itself to new environments, and now the sect numbers about 250,000 persons. The enforcement of this decree is not in line with the liberal policy which it has been predicted Nicholas II would follow.

General Scammon Dead.

NEW YORK, Dec. 8.—General Eliakim Parker Scammon died of cancer of the stomach at the residence of his daughter, Mrs. N. S. Jones, yesterday. General Scammon was born in Whitefield, Me., in 1816. He entered West Point in 1833, graduating in 1837. He was later appointed professor of ethics and mathematics in that institution, and was the tutor of Generals Grant, Rosecrans and Newton. He was a gallant fighter, and won many honors on the battlefield.

Adventists Robbed.

ALTON BAY, N. H., Dec. 8.—W. Ricker, A. Pike and Lewis R. Robinson ransacked 57 of the 60 summer cottages on the campground of the Alton Bay Advent association, taking such articles as they thought they could dispose of and destroying such as they did not carry away. Ricker and Pike were arrested, and the former turned state's evidence. Robinson left Alton Bay before the burglaries were discovered, and has not been apprehended.

Fry Hasn't Settled.

NEW HAVEN, Dec. 8.—William H. Fry was arrested on a claim for $3500, brought by Miss Belle Rogers of Chicago. Six months ago Miss Rogers brought suit for breach of promise. She claimed $10,000, but the jury awarded her $3500. The matter has not been settled, hence the present action. L. S. Greeley furnished a bond of $4000, and Mr. Fry was released.

Robber Killed.

PEORIA, Ills., Dec. 8.—An attempt was made to rob a freight train on the Iowa Central railroad near Farmington, but the crew captured the robbers and brought them to Farmington. As officers were taking the robbers to jail, one of them made a break for liberty and was killed by a bullet from an officers revolver.

Afraid of Kidnappers.

LONDON, Dec. 8.—The Morning states that directly after the birth of the Duke of York's son, on June 23 last, a letter was received at York House disclosing a plot to kidnap the infant prince. Since that time a detective has been constantly on duty guarding the royal baby.

Victims of a Grade Crossing.

JAMESTOWN, N. Y., Dec. 8.—Mr. and Mrs. Sherman and their little daughter were driving across the Erie tracks when the buggy was struck by a train. Mr. Sherman and daughter were killed, and Mrs. Sherman was fatally hurt.

WHAT YOU NOTICE

at first, perhaps, in taking the Carlsbad Sprudel Salt regularly, is a decrease in weight. It is getting rid of all the unhealthy, unnatural flesh and tissue—*if you have any.* That is what makes it so valuable in cases of obesity.

But after that, or, if you are thin already, the firm, sound, healthy flesh that you need comes in a thoroughly natural way. Your digestive organs are put into perfect condition; your appetite is sharpened; there's no waste; the food that you take *nourishes* you.

No matter whether you're too stout or too thin—the Carlsbad Sprudel Salt brings you to the proper, healthy standard, either way.

Take no imitations sold as "improved" or "artificial" Carlsbad Salt, which are only mixtures of ordinary Glauber Salt and Seidlitz Powder, sold by unscrupulous dealers in order to make larger profits. The only genuine imported article has the signature of "EISNER & MENDELSON Co., Sole Agents, New York," and the seal of the city of Carlsbad on every bottle.

Blue Hill Predictions.

During the coming week the warmest days will probably be between the 8th and 10th and the coldest between the afternoon of the 11th and morning of the 13th, perhaps accompanied by a cold wave on the 11th or 12th. The week will probably average warm for the season, with the temperature near the coast generally above freezing during the day hours, except around the 12th.

Rain or snow is likely to occur between the afternoon of the 8th and evening of the 9th, and between the morning of the 13th and morning of the 14th. Local rain or snow may also occur on the night of the 10th or morning of the 11th.—*Norfolk County Gazette.*

HIS NAME REVERED.

King Gustavus Adolphus' Birthday Celebrated Throughout Sweden.

THE LAPSE OF THREE CENTURIES

Shows No Diminution of Love For the Great Soldier.

STOCKHOLM, Dec. 10.—The 300th anniversary of the birth of Gustavus Adolphus, the great Swedish king, who died on the battlefield of Luetzen, Nov. 6, 1632, was celebrated here with a pomp and splendor which made it one of the greatest festivals ever held in this capital.

The celebration commenced Saturday morning, when the public school children gathered in their respective schools, and then march to the various state churches, each child carrying a small Swedish flag. Later in the day memorial festivals were held in all the high colleges, and in the evening there were three celebrations on an immense scale, arranged by the Swedish Patriotic society, in three of the largest banquet halls in Stockholm.

Speeches were made by men famous in the service of their country, and patriotic music was performed by the various bands of the crack regiments. In addition, memorial services were held in some of the churches.

Patriotic and religious hymns were rung on all the chimes in the city yesterday. The regimental bands also played similar music.

King Oscar Among the Worshippers.

In the Riddarholm church, the burial place of Gustavus Adolphus, Charles XII and other Swedish kings, where, usually, no divine services are held, services took place at 11 o'clock in the morning, and were attended by King Oscar, the royal princes, the representatives of the German emperor and other deputations from Germany, the diplomatic corps, the aldermen of Stockholm and numerous delegations.

After the religious ceremonies a number of magnificent wreaths were placed on the tomb of Gustavus Adolphus. A guard of honor that was drawn up around the church fired a salute, which was answered by the cannon of the Skeppsholmen battery.

A few hours later a memorial service was held in the German church. The sermon was preached in the German language, by Professor Fricke, president of the Gustavus Adolphus society of Germany. The king, the representatives of Emperor William and all the delegations from Germany attended.

At 4 p. m. a torchlight procession marched through the principal streets of this city, the torchbearers consisting of all the troops of the Stockholm garrison. While passing the Gustavus Adolphus monument, which was splendidly decorated with flags and banners and illuminated by thousands of electric lights, the standard bearers and all the troops saluted.

A Scene of Splendor.

All the buildings in the vicinity of the royal castle and Gustavus Adolphus square were illuminated. The scene was a magnificent one, the blue waters of Lake Maelar and the Baltic reflecting the innumerable illuminations.

The statue of Axel Oxenstierna, the great chancellor of Gustavus Adolphus, who conducted the 30 years' war after the king was dead, was most gorgeously illuminated. The cost of this work was borne by the Swedish nobility.

A few hours later another torchlight procession, made up of the various clubs and societies of the capital, marched through the streets to the royal castle, where a choir, consisting of 650 voices, sang patriotic airs.

Still later in the evening, King Oscar gave a banquet at the castle, to which about 100 persons were invited. Gala performances representing scenes from the life of Gustavus Adolphus were given both at the opera house and the theaters.

The many poor people were royally remembered by gifts of clothing and food. The day was celebrated in an appropriate manner throughout Sweden.

All Protestant Germany celebrated the 300th anniversary of the birth of Gustavus Adolphus, the King of Sweden, who, in 1630, took his army to Germany to help the Protestants in their struggle with the Catholic league.

Must Get Rid of Wines.

PARIS, Dec. 10.—A statue of M. Plancon, who first advocated the introduction into France of American vines to combat the phylloxera, was unveiled yesterday at Montpelier. M. Vigar, the minister of agriculture, made a speech, in which he guardedly intimated that it was possible there would be a relaxation of the present policy, with a view to finding a market abroad for the overstocked French wine growers.

A Tariff Straw.

BERLIN, Dec. 10.—Frank H. Mason, consul general of the United States at Frankfort-on-the-Main, reports that the exports to America from his consular district for October and November showed an increase of 20 per cent over the value of the goods exported during the corresponding months of 1893.

Earthquakes and Floods.

ROME, Dec. 10. — A torrent of rain flooded the houses in Reggio, which recently sustained great damage by earthquakes, Saturday evening and early yesterday morning. There was a sharp shock which caused a panic.

Steamers Delayed by Storms.

LONDON, Dec. 10.—A violent southeast gale prevails along the Irish coast. Several steamers were compelled to seek refuge in Queenstown harbor. A number of small craft were swamped and wharves were damaged.

Krupp's Contribution.

BERLIN, Dec. 10.—Herr Krupp has given 5000 marks for the construction of a Protestant church at Essen, where the Krupp gun works are situated. Essen is the center of a large Catholic population.

He Contributed $400,000.

MARSEILLES, Dec. 10.—Stephen Zaphheropoulo is dead. He was the celebrated Greek grain merchant who sent the national defense government a gift of over $400,000 during the war of 1870.

Long Time Getting the News.

BERLIN, Dec. 10. — Emperor William yesterday received Count von Schovaloff, Russian ambassador to Germany, who formally announced the accession of Czar Nicholas to the throne of Russia.

Afraid We Are Getting Ahead.

PARIS, Dec. 10.—The Temps, commenting on what it describes as America's new departure in its foreign policy, says that the feverish anxiety that America has displayed in the far East is doubtless explained by the fact that the Chinese-Japanese war directly affects numerous American interests, but what about the dispatch of a commissioner to Armenia! This is a small beginning, perhaps, but it is a grave indication fraught with the serious consequence that America may become the seventh European power.

Wholesale Indictments.

SIOUX CITY, Ia., Dec. 10.—The grand jury here has found 52 indictments against various ex-county officials and members and ex-members of the board of supervisors. It is alleged that the defendants during a period of four years conspired together so successfully that the county has been robbed of nearly $200,000. The report of the jury was a surprise to every one, and has produced a sensation.

Cashier Has Skipped.

LINCOLN, Neb., Dec. 10.—A. Whipple, cashier of the Crawford county bank, has absconded, and the bank is closed. He has had several government contracts at Fort Robinson and Omaha. Payment on one check for $2500, and others made to him by the government of the United States depository at Omaha, have been stopped.

Port au Prince's Big Fire.

NEW YORK, Dec. 10. — Steamer Prinz Wilhelm III brings the news of a big fire that broke out at Port au Prince on Nov. 30 in the poorer quarter of the city. More than 100 dwelling houses were destroyed. No lives were lost, however. The flames started in a dwelling, where lighted candles had been left on an altar.

RIOT IN A CHURCH.

Edifice Badly Damaged by a Mob Who Wanted to Get Hold of a Man Who Had Been Reformed.

CHICAGO, Dec. 10. — The Mission of Bethesda church, which is maintained by the Moody institute, was the scene of a riot yesterday afternoon. Bricks, stones and clubs crashed through the windows, doing considerable damage. One person was hurt.

The usual services were being conducted by Pastor Newell when they were interrupted by a roar of voices from a large crowd outside. "Bull" Goldstein was a listener to the pastor's exhortation, and his name was heard above the chorus of voices which greeted the worshippers.

A storm of jeers and shouts was followed by a shower of missles, which shattered the windows and put the congregation in an uproar.

Mr. Newell hastened outside and tried to quiet the mob, but was compelled to beat a retreat. A second volley of stones and bricks came through the windows, and one of the congregation, a young man, was struck on the side of the head by a piece of glass and seriously injured.

As the mob seemed determined to wreck the building in its effort to get Goldstein, who was formerly one of them, Mr. Newell sent word to the police, who dispersed the mob.

Sultan Is Worrying.

CONSTANTINOPLE, Dec. 10.—The sultan has not acquiesced in the mission of Consul Jewett, who was selected by President Cleveland to inquire into and report upon the Turkish outrages in Armenia. The sultan appears to fear the effect of an independent report to the Washington government. The porte is completely alive to the gravity of the situation, and seems to fear either a collective note from the powers or an agreement between Russia and Great Britain for a Russian occupation of Armenia. Altogether there is need of much diplomatic skill to extricate Turkey from the difficult situation in which she finds herself.

The Fenian Scare.

LONDON, Dec. 10.—The Morning, commenting upon the statement that detectives are guarding Messrs. Asquith, Harcourt and Morley, and the alleged revival of Fenianism, records the visit to England of a well-known Irish-American extremist under an alias, who, while he was in this city, visited three men who were active in the Fenian movement. He was shadowed by detectives throughout his sojourn here. The Scotland Yard authorities are fully alive to all revived Fenian movements and threats of Irish-American organs.

Of Course!

ROME, Dec. 10.—Mayor Prince Ruspoli arrived here from New York yesterday. In an interview he passed several flattering comments upon the prodigious activity of Americans.

Doesn't Like Demonstrations.

BERLIN, Dec. 10.—It is reported that the emperor has suggested a special measure to prevent the recurrence of socialist demonstrations in the reichstag.

Editorial Comment.

THE DAILY LEDGER trusts that the citizens of Quincy realize the importance of the hearing of the Metropolitan Commissioners at City Hall this evening, and that our prominent citizens will be there to express their views. Not only should the Mayor, Councilmen and school committee attend, but ex-mayors ex-councilmen, and such gentlemen as Henry H. Faxon, Theophilus King, Senator Merrill, Representative Hammond, in fact, all our business men.

Secretary Curtis of the commission gave to the press Saturday the following statement in reference to the hearing:

"Quincy is, in a certain sense, to be compared with Brookline and Milton, inasmuch as more than the average number of wealthy men and prominent citizens live within its limits. Expressions of contentment with the present state of affairs can be read in its city reports and heard in its council meetings.

"Nevertheless, no doubt the commission will hear opinions on both sides expressed, as has been done without exception in their visits to other towns and cities, and in their interviews with prominent citizens. The commission will listen to both sides with respect, and to the legislature they will report whose opinion carried weight in their minds."

The New York Law.

A New York dispatch to the Globe says, Judge Truax in the chambers of the supreme court gave a decision Saturday upholding the constitutionality of the law passed by the legislature last April, providing that all stone of any description, used in state or municipal works within this state, or which is to be worked, dressed or carved for such use, shall be so worked dressed or carved upon the grounds where such works are being carried on, or within the boundaries of the state or within the boundaries of the municipality.

He also upholds as valid another law passed by the last legislature that none but citizens of the United States shall be employed by the state or any municipal corporations or by persons contracting with the state or municipality, and that every contract made by the state or municipality corporation for the performance of public works must comply with the requirements of this law.

The Wollaston Shoot.

The bad weather on Saturday afternoon reduced the attendance at the Wollaston Trap Club's regular shoot.

A Big Business.

Some idea of the hold which the Pillsbury flour has gained on the people may be learned from the following facts. At the Pillsbury mills in Minneapolis in one week recently, 97,510 barrels of flour were milled in six days and now they are making at the rate of 130,000 barrels. The A mill of the same company turned out 9,551 barrels in its usual run without preparation, which was a record breaker. One day 243 cars were loaded and billed out from 8.30 A. M., to 6 P. M., which would make a train of flour 1 2 4 miles long. F. W. Crane & Sons are local agents for Quincy.

FAXON TO DECIDE.

Stephen O. Moxon Desires an Investigation of Rumor.

AN OPEN LETTER TO MR. GREEN

A Chance for Him to Show Whether He Has Substantial Evidence.

To the Editor of the Daily Ledger:

Below is a copy of letter sent by me this day to Henry H. Faxon and which you are at liberty to publish:

Henry H. Faxon, Esq., Quincy, Mass.

DEAR SIR: Believing that you will be willing to assist in an honest endeavor to place responsibility where it belongs, I take the liberty of asking you to accept a part in the proposition which I have made in a letter of this date, addressed to the editor of the Quincy Advertiser and of which the following is a copy:

F. F. Green, Editor Quincy Advertiser:

DEAR SIR: I have this day deposited with H. H. Faxon of Quincy two hundred ($200) dollars to be paid by him to any person or persons who will prove to his satisfaction.

That I have in any way authorized or directed to be used or distributed in Quincy or elsewhere, for election or any other purposes, any quantity large or small of any kind of intoxicating liquor.

I make no stipulation or reserve whatever, and if the sum named is not attractive enough, will increase it to $500. This proposition to remain open until noon Friday, Dec. 14.

Now, Mr. Editor, a word for you personally, in order that you may be induced to furnish any information which you may possess (and you certainly should have something substantial before publishing the matter credited to you by the Boston papers of Saturday.) I shall make an appeal to your patriotism, in this proposition.

That if through you or any person, the necessary information and proofs are furnished to H. H. Faxon so that he shall pay over to any person the above named $200, I will immediately pay to the Trustees of the Quincy City Hospital the further sum of five hundred dollars.

I presume that I do not need to remind you that this institution is one of great interest to all the people of Quincy and is greatly in need of funds. If Mr. Faxon should decline to serve in this matter I shall be willing to substitute any one of our well known citizens to act in the same capacity.

I send a copy of this letter to the Quincy DAILY LEDGER.

STEPHEN O. MOXON.

Atlantic, Dec. 10, 1894.

My object in this matter is to reduce this controversy to a business basis, and when this opportunity has been afforded those who have caused our fair city to be slandered, and the Republican party of Quincy to be maligned, to prove their allegations so freely made, I will then furnish to you some *real* facts in connection with this matter, which, for the credit of the city of Quincy should never be published, and so far as I am personally concerned never will be published, but which remain absolute facts, and while they disclose proceedings which are in themselves extremely discreditable, that discredit cannot be placed upon the Republican party or any member thereof. Trusting that you will see your way clear to look after this matter in the interests of all good citizens of Quincy. I am very truly yours,

STEPHEN O. MOXON.

Atlantic, Dec. 10, 1894.

P. S. I am ready to exhibit to you or any other proper citizen of Quincy, my entire money transactions for the period between Nov. 20th and this date, and thereby prove that the assertions made as to the large expenditures of money by me, are absolutely untrue.

NOT ON MOXON'S MONEY.

Moynihan Served Beer to Quincy Voters And Tells How It was Done.

A late edition of the Saturday Herald printed the following, relative to the "campaign beer issue," and the DAILY LEDGER allows its readers to draw their own conclusions:

"I didn't have any of Moxon's money," said Michael Moynihan, when seen by a Boston Herald reporter this afternoon, "but I know how the story got started about giving free beer. I started in to work for Moxon, and at first some of the crowd did not think I was in earnest about it, but I told them to look out, and I guess they are rattled over the narrow escape they had.

"But I did not give out any free beer, and as for the firm I work for, sending kegs of it over to Quincy, that is out of the question, for we do not do a wholesale business.

"The only cheering that was done for Moxon in Fitzgerald's store was done on Hodges' money, and I will tell you how it was.

"John Dolan, a member of the Democratic committee in Ward Two, came in one evening, and there were a number of Quincy voters at the bar.

"'I've just seen Hodges,' he said, 'and here is some of his money. Let us drink his health on it.' The crowd was agreeable, all right, and I told him to put it out.

"They drank, and then they were cheers for Hodges. He paid for another round, and then somebody proposed cheers for Moxon, and the crowd responded with as much gusto as they had done for Hodges. That was kept up for some time. Both candidates were cheered, but it was all done on the money that Dolan said he got from Hodges.

"I saw Dolan just before you came along, and he told me how the other version of it got out. He said that after they had left our place, they met a number of Quincy men, and in order to get them to come in, they told them that I was giving out free beer to everybody who had a vote in Quincy, but you can bet your life I did not pay any money out of my own pocket, and I have not seen any of Moxon's money so far.

"They are feeling sore; that is all there is to it. I know who is responsible for the story, and the same man has spent lots of campaign money when I was with him.

"Why, he has had a small bar-room in his office election times. I've been there with him, and perhaps he will remember about the boodle he divided with me the time of the water election.

"I could tell a nice story about politics in Quincy, and perhaps I will before long."

JOHNSON TALKS.

The Chairman of the Ward Two Committee Against Use of Beer.

Editors of the Daily Ledger:

In view of the many false and slanderous statements which have been circulated since election in regard to the use of beer by Republicans of Ward Two, I desire to make the following personal statement:

That I neither saw or consulted with any Democratic politician or so-called Republican the night previous to election.

That what money I contributed to the campaign was put into the treasury of the Republican City Committee.

I have had placed in my hands the sum of $100 as a reward that will lead to the arrest and conviction of the person or persons who have circulated and used my name in connection with this outrageous affair.

It gives me a great deal of pleasure as in the past to publicly place my emphatic disapproval against the use of beer or liquor by any political party, for campaign purposes, and I consider the events of the recent election a blot upon the fair name of our city. I sincerely hope that the party who bought and paid for the beer and liquor that were used for campaign purposes will be known to the public.

As a warning to our citizens I desire to say, that I am convinced that the use of liquor and the stories circulated therewith caused the defeat of the Republican nominee for Mayor, S. O. Moxon.

To convince some people that I am in earnest, I make the following statement:

That I have never in my life to my knowledge contributed or solicited money to be used for liquor or beer. That during the last campaign I have not heard a single Republican suggest or hint the use of beer or liquor, as a means to win the election.

That I only gave my approval to those methods which I considered honorable.

CHARLES H. JOHNSON.

Councilman Lennon Pleased.

Editors of the Daily Ledger:

Will you please insert in the LEDGER the following. I have been asked by a number of friends to call for a recount of of the votes in Ward Three, and I wish to explain my feeling in regard to it.

First, it was not the Republicans but the Democrats that defeated me at the polls. I am well pleased with the result. If there was a recount and it was found, through some clerical error, that I was elected councilmen on no conditions would I accept the office.

To all my friends and neighbors who voted for me at the election, thereby indorsing my action this year I return my sincere thanks. And to all such I remain their humble servant.

EDWARD J. LENNON,

Wollaston Cycle Club.

The Wollaston Cycle club gave last evening its regular monthly entertainment and supper. Sixty-five members being present. The entertainment committee secured the Callender Quintette (colored) of Boston, who for two hours made the club quarters ring with banjo and guitar selections and song. Mr. Metcalf next entertained the members at the piano, followed by Mr. Knights in the latest popular songs. The entertainment was brought to a close by Mr. Metcalf, piano, and Mr. J. F. Lawlor, violin.

One new member was elected to membership at the business meeting. The supper was under the supervision of Steward Frank L. Merrill. Do not forget the ball, Dec. 31st, at Town Hall, Braintree.

Hon. Josiah Quincy has been spending a few days with friends at the capital. There is a report current there that Mr. Quincy is to be a benedict in the near future, having lost his heart to a Washington lady. As Mr. Quincy is a dyed-in-the-wool kind of a batchelor, it serves to enchance the popular interest in his little romance, and further developments are looked for at any moment.—Globe.

The Sunday Globe commented upon the neckwear of noted men, and Henry H. Faxon of this city was in the list. It commented thus: "The venerable apostle of temperance, Henry Faxon, wears a four-in-hand of modern style, but his collar is a bit old-fashioned. It is a straight stand-up collar, and is becoming to the wearer, although lots of people have reason to believe that Henry is entirely in the front line in the push."

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

GENERAL ORDER No. 3.

Commonwealth of Massachusetts.

BOARD OF CATTLE COMMISSIONERS, 52 VILLAGE ST., BOSTON, Nov. 5, 1894.

To the Boards of Health and all Owners of Neat Cattle in the Counties of Nantucket, Dukes and Barnstable:

1st. All the states and territories of the United States, the District of Columbia, Canada, Great Britian, and all other localities without the limits of this Commonwealth, are hereby declared infected districts.

2d. It is hereby ordered that all neat cattle brought within the limits of this Commonwealth from any of said localities on and after November 20, 1894, are hereby made subject to quarantine until they have been inspected and released by this Board or one of its members thereto duly authorized.

3d. Except as hereinafter provided no such neat cattle shall be unloaded except in case of accident, for any purpose whatsoever within this Commonwealth, at any place or places other than at such quarantine stations as are herein designated, or which may hereafter from time to time be designated by this Board, unless upon written permit signed by the Board of Cattle Commissioners or one of its members.

4th. The Union stock yards at Watertown; the Boston & Albany stock yards at Brighton and the premises of the New England Dressed Beef and Wool Company in Somerville, are hereby designated as quarantine stations.

5th. All neat cattle entered at any quarantine station, except as hereinafter provided, are hereby declared quarantined and, shall so remain, at the expense of the owner or consignee, for a period of not less than twenty-four hours, or until they are released by the Board of Cattle Commissioners, or one of its members, during which time they shall be subjected to the tuberculin test. This test shall be made only by the Board of Cattle Commissioners or one of its members, or a duly authorized agent thereof, and without expense to the owner.

6th. Every such animal which, in the opinion of this Board or any of its members, is affected with tuberculosis, will be condemned and slaughtered as provided in Sections 45 and 53 of said Chapter 491 of the Acts of 1894.

7th. All animals which upon such inspection shall be adjudged free from tuberculosis and other contagious disease shall be branded with the seal of the commission. This brand will be placed upon the right hip.

8th. All neat cattle passing through this Commonwealth, consigned from points without its limits, for exportation from this State will not be examined as herein provided, but such animals shall remain in quarantine until transported without the limits of the Commonwealth.

9th. All neat cattle brought within this Commonwealth consigned directly to the Brighton Abattoir for slaughter, shall be confined by themselves for identification, and shall not be released except after an examination as above provided, or for immediate slaughter.

10th. It shall be the duty of every person or persons, corporation or corporations, desiring to drive or cause to be driven any neat cattle into this State from any point without its limit, to notify in writing the Board of Cattle Commissioners of his, their or its intention so to do, which notice shall state the town or city in this Commonwealth through which it is the intention to enter, and the time when the drove will arrive within such city or town. After crossing the border all such cattle are hereby declared quarantined upon premises which shall be defined in the permit, within the limits of such city or town, at the expense of the owner or consignee, and shall there remain until they have been examined and branded, or destroyed, as hereinbefore provided. No neat cattle shall be driven within this State from any point without its limits, except as herein provided.

11th. All neat cattle branded as herein provided shall be free to all markets in this Commonwealth.

12th. No person shall sell or offer for sale, or have in his possession, except under quarantine, within the stock yards in Brighton, Watertown or Somerville, any neat cattle which are not branded as provided for in section 7, except as provided in sections 8 and 9 of this order.

13th. It is further ordered that a copy of this order shall be sent to each city and town throughout the Commonwealth, and that every town shall cause a copy thereof to be posted in two or more conspicuous places within its limit, and shall cause a copy of the same to be published once a week for three successive weeks in a newspaper published therein, or if no newspaper be published within the limits of said town, then in a newspaper published within said county; and that each such city shall cause a copy of the same to be published twice a week for three successive weeks in a newspaper published within its limits.

14th. This order shall take effect upon November 20, 1894.

FREDERICK H. OSGOOD, Chairman,
CHARLES P. LYMAN, Secretary,
MAURICE O'CONNELL,

CHURCH AND CHAPEL

The Second Stormy Sunday—One More This Month According to Rule

A KING'S BIRTHDAY CELEBRATED

Notes From the Religious Services of Yesterday in All Parts of the City.

The Swedish Lutheran people of Quincy, in common with those of many other places in this country, assembled at their place of worship, the Lutheran church on Granite street, Sunday evening to celebrate the 300th anniversary of the birth of Gustavus Adolphus, the Swedish King. See first page for other celebrations.

The services were largely attended, and although they were of a simple nature, were listened to with marked interest.

A large picture of King Adolphus occupied a prominent place in the church and the interior of the edifice was tastefully decorated with potted plants and flowers.

A male choir rendered several national hymns, and the Swedish band gave some selections. Rev. John T. Johnson, pastor of the church, delivered an historic address.

The song service at Norfolk Downs, Sunday afternoon, was very well attended although the weather was bad. The Young Peoples' orchestra of Wollaston played several selections. The Carnation male quartette sang two selections which were well rendered. The address was by Rev. Mr. Deetz of Atlantic, and his words were very encouraging to those who were about to form a Sunday School.

On Sunday morning, at the First Unitarian church, Rev. Ellery Channing Butler preached an especially interesting sermon from the text "What doth the Lord thy God require of thee?" Deut. 10 12. The inclement weather did not prevent a large number from attending the vesper services at which Mr. Butler gave, as is usual, a short extemporaneous talk. The subject on this occasion was "The Power of Youth." The singing by a male quartette was excellent.

At the Memorial Congregational church, the sermon in A. M. was by Rev. Solomon P. Fay of Dorchester. Topic: "Practical Religion, according to Saint James."

Yesterday was observed as Hospital Sunday at the Wollaston Baptist church, the pastor, Rev. Preston Gurney taking this text from Math. 25, part of the 36th verse: "I was sick and ye visited me." At the close of the sermon a collection was taken amounting to $192.55. It is expected to increase the amount to $200.

Charles Robinson occupied the pulpit of the West Quincy Methodist church Sunday morning. He is a student in the school of theology of Boston University. His theme was, "The Comforter."

The Wollaston Baptist Sunday School has commenced preparations for the usual Christmas concert, and it is expected that it will be much better than usual.

The "Neighborhood" prayer meeting will be held this week with Mr. George Thomas on Standish avenue, Wollaston.

The quarterly meeting of the Massachusetts district of Swedish Baptist churches will be held in the Station street Baptist church, West Quincy Thursday, Friday, Saturday and Sunday. There will be services every evening to which the public is cordially invited. The services Saturday coming will be of special interest to young people.

The Epworth League will hold its monthly business meeting this evening in the vestry of the Methodist church, West Quincy. There is important business to come before the meeting.

The hard storm of Sunday evening prevented many from attending the service at the West Quincy Methodist church. Rev. Edward Norton of the Quincy Centre Congregational church, spoke very interestingly on the Christian Life as a shining light, giving light in its own path and the way of others.

After the song service at A. O. U. W. hall, Norfolk Downs, Sunday, a union Sunday School was organized. Councilmen-elect Herbert S. Barker was elected temporary chairman and the following officers were elected: Superintendent, Henry S. Weymouth. Assistant Superintendent, Frank Rogers. Secretary and Treasurer, Levi Nichols. The officers together with Walter J. Coombs and Herbert J. Polk were elected a committee of management.

The services conducted by Rev. W. Steele, in Wilson's hall, Sunday were well attended, considering the weather. The subjects discussed were: in the morning, "The Baptism of Jesus," Matt. 3:13 to 17; in the evening, "The man for today" John 1:47. A cordial invitation is given to all the services of this society.

WORKS OF FICTION.

A Paper on the Subject Before the Quincy Literary Society.

"Some remarks on works of fiction" were made by Mr. William Taylor at the the meeting of the Quincy Literary Society on Friday evening. In the continued absence through sickness of the president, Dr. R. McLennan, the chair was occupied by the vice-president, Mr. Wm. Traynor.

Works of fiction, said Mr. Taylor in effect, supply a distinct craving which exists in the human mind, for what is marvellous, sensational, amusing and exciting.

As teachers of history, the claims of the highest writers of fiction cannot be lightly regarded, and a purer ethical morality is often set in the pages of a novel than is preached from many of our religious platforms. From the fairy tales of childhood to the subtle reasoning of mature and mellow age, each period of life is supplied with suitable material clothed in attractive form. Uncle Tom's cabin did more to arouse the sentiments against slavery than all other efforts in that direction.

The modern novelist is held responsible for the logical consistancy of his views regarding the social and theological questions of the day. He cannot hide behind his characters and plead for mercy from the critics on account of the production being a story. The creator must answer for the creation, just as if he were indicting his fellow men.

Charles Dickens started to amuse his his readers with the absurd adventures of the Pickwickians, but soon abandoned the exclusively burlesque for the more serious task of exposimg some of the customs that existed in most of the public and semi-public institutions of England. What he tells in his varions stories of the squalor and wretchedness of the times, of the official abuses, of the physical, mental and financial wrecks that wandered through the bleak and cheerless regions, when not a blade of grass would grow, and struggling vegetation sickened and sunk under the hot breath of kiln and furnace, is a terrible commentary on the social disorders of the period, and nearer the truth than would be the official report of a commission appointed to find out that there was nothing the matter but laziness, drunkenness and general discontent.

Mr. Taylor minutely analyzed some of the characters of his favorite authors, evincing a knowledge of their traits born of extensive and sympathetic study. In conclusion, he pointed out the elements of danger that had to be guarded against in reading works of fiction.

Before adjourning the meeting, there was a unanimous vote taken that a committee of two be appointed to convey to Mrs. McLennan the regrets and sympathy of the society at the illness of its much esteemed president, Dr. McLennan.

Next Friday evening is "Magazine night" and one or two interesting articles are already assured.

MILTON.

The ladies' sewing circle met Wednesday with Mrs. C. S. Whittimore. The annual fair, given under the auspices of the circle, will be held Thursday.

Mr. Hooper, proprietor of the grocery store in Rugby block, and his family, have suddenly departed from East Milton.

The Village Improvement society resumed its meetings, which have been suspended the past six months, Thursday evening at the Band hall.

Dudley Talbot has opened a real estate office in the new block. Mr. Wm. Pierce is in charge.

Rev. Mr. Beers has taken Rev. Harry Vrooman's place at the Congregational church during the latter's absence in the south. Mr. Beers confines his sermons to the topic of Christian healing, and invites all who are interested along this line to be present.

Rev. Nathan Hunt resigned on Sunday as pastor of the East Milton Baptist church, to take effect Jan. 1. It was accepted at a business meeting on Wednesday evening, when a committee was appointed to supply the pulpit after Jan. 1.

Church News.

The following from the Milford Journal is applicable to Quincy, and the Monday LEDGER makes a feature of the church news:

"That the local newspaper can be made a most important aid in effective church work is clearly recognized by many organizations that do not avail themselves of this ever-present help. Not only would churches do well to utilize the regular advertising columns of the newspaper, but they can help themselves also and without expense, by appointing some live young man or young woman to see that the news of the church is promptly and regularly sent in for publication in the local columns. The Journal is always glad to print items of church news, and regularly devotes a very large portion of its space to matters of this kind. It would gladly print even more such items than it does, and the churches would be benefitted by making sure that the necessary information is supplied.

"It is only necessary that the matter sent in for publication should be of general interest, concisely written, and properly authenticated by the sender's name. It should also be sent in as early as possible.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W. Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

A GREED FOR MONEY

Was the Basis of the Murder of Dressmaker Ging at Minneapolis.

HAYWARD'S TOOL HAS CONFESSED

The Bloody Crime Was Coolly Planned and Executed.

MINNEAPOLIS, Dec. 10.—Claus A. Blixt, the janitor of the Ozark flat, has made a voluntary confession of the killing of Katherine Ging.

When Blixt decided that he wanted to unburden his mind of his share in the crime, he told the whole horrible story. Blixt fixed the time of his first conversation with Hayward in regard to the money making schemes which the young man had in mind as about two weeks ago. The first conference was in regard to either the holding up or the killing of a Chicago man, who had loaned Hayward $400, the object being to regain possession of some papers which the man might have as evidence of Hayward's indebtedness.

Blixt's ignorance prevented him from having an intelligent idea of what the transaction was to be, further than that there was to be a hold-up or a murder. Hayward went to Chicago himself, and upon returning broached to Blixt another crime, that of setting fire to a barn. He induced Blixt to commit this act, thus securing a penitentiary hold on the man.

Planning the Crime.

It was shortly after this that the scheme to murder Miss Ging was broached. Hayward told him that by killing Miss Ging he would regain possession of $7000 which he had given her, and in addition would make $10,000, as she had "willed" her life insurance to him. He offered Blixt one-fifth of the amount which he would make to commit the deed. Blixt still refused to have anything to do with the crime, and threatened to quit then and there, whereupon Hayward stated that he would do it himself.

Hayward's first plan, after he concluded to commit the crime himself, was outlined to Blixt. There was in the basement a "T" rail about 2½ feet in length, and Hayward directed the janitor to cut it in two, stating that he would take Miss Ging riding and no one would see him with her. After he had struck her over the head with the iron, which he would carry concealed under his coat, he intended to throw the body out of the buggy against a curbstone, start the horse on a gallop and tell the story of a runaway accident, calculating that the body would appear to have been thrown from the buggy when it collided with the curb.

On Saturday night, after a second ride, Hayward returned to the flats and told Blixt that the right opportunity had not occurred.

Blixt Yields to Temptation.

On Monday night Hayward again met Blixt. By threats and persuasions and promises of money Hayward induced him to be a party to the crime to the extent of aiding in the disposal of the body and making it easy for Hayward to commit the murder and return unobserved to the city, so that it would appear that by no possibility could he have been the guilty person.

Hayward directed Blixt to take a street car opposite the flats at 6:50 and proceed to Lake street, across the foot of the lake, a point where the Excelsior road bends around the lake, and there to await his coming.

Blixt followed out his instructions to the letter. He had been waiting about five minutes when he heard a shot and saw a carriage approach. As it drew up, he recognized Hayward as the driver. Hayward said to him: "It is all done." Jump in and drive slowly, and give me plenty of time to get back to town, and do not leave here until you are sure she is dead."

The Truth of It.

Blixt, at this point, told how he had implicitly obeyed instructions, carrying out all the plans just as Hayward had desired.

Blixt called the mayor and chief of police to his cell several hours after the previous confession had been made, and said that he fired the fatal shot himself. He said that Hayward had persuaded Miss Ging that "green goods" could be easily circulated through the medium of her business as a dressmaker. She, having always had an insane idea to get rich easily, fell in with the idea.

The night of the murder Hayward had told her that he had arranged for her to meet a green goods dealer on the outskirts of the city. They started off on the ride together. About 12 blocks from Ozark flats they met Blixt. Hayward induced her to let Blixt drive her to the place of meeting, with the assurance to her that he would himself follow immediately in another buggy and be present at the meeting.

Blixt then drove the woman out to the old Excelsior road and called her attention to a passing object. As she turned her head to look out of her side of the buggy he shot her. Hayward, instead of following Blixt, returned to the Ozark flats and afterward went to the theater. There seems to be no doubt as to the truth of the latest confession.

FATALLY STABBED.

Italian and His Wife Said to Have Assaulted a Boarder, Who Then Proceeded to Carve His Assailants.

BOSTON, Dec. 10.—A stabbing affray among some Italians at the South End shortly before 7 o'clock last night will probably result fatally in the cases of Guiseppe Olivier and his wife Therese of 18 Genesee street, two of the participants. Their injuries were received from a knife in the hands of Antonio Constantino, a lodger at their house.

The quarrel started over a game of cards, in which a number of Italians were engaged at Olivier's house. Constantino accused Olivier of cheating, and Olivier finally ordered Constantino to leave the house. The latter picked up his belongings and started to go, but was met at the door by Olivier and his wife, who, Constantino says, assaulted him. The man was armed with a club, and the woman carried a heavy wagon spoke for a weapon.

Several boys who were on the street and saw the fight say that it was a general row until Constantino drew a knife and stabbed Olivier in the abdomen. Olivier fell, and his wife immediately rushed upon his assailant with her club. Constantino completed his work by stabbing her in the breast. Constantino was captured after a lively chase. Hospital physicians say Olivier and his wife will die from their wounds.

Chicago Flat Murder Mystery Cleared Up.

CHICAGO, Dec. 10.—The mystery surrounding the murder of Alfred Barnes, the janitor of the Hiawatha flats, has finally cleared up, and Edward Jordan, the assistant janitor of the flat building, is the confessed murderer. The police succeeded in getting from Annie Mahoney, the woman with whom Barnes had been at one time intimate, an admission that the crime had been committed by Jordan. She repeated her confession in the presence of Jordan, and he acknowledged that it was correct.

Holmes Secreted Bottle.

BURLINGTON, Vt., Dec. 10.—Chief of Police Dumas received a letter from detectives in Philadelphia, asking him to search the house occupied by Mrs. Pitzel, while she was here with H. H. Holmes, for a bottle of nitro-glycerine which Holmes had secreted. A bottle containing a half-pint of dark liquid was found beneath the false floor of a potato bin. It was buried in the outskirts of the city and the Philadelphia authorities notified.

Will Not Come to Trial.

THE VOICE OF LABOR

Corporations Incapable of Entertaining Feelings of Sympathy.

COMMENTS OF ENGLISH LEADERS

On Methods of Unions In America and "at Home."

DENVER, Dec. 11.—The 14th annual convention of the American Federation of Labor was called to order by President Gompers. President Kehan of the Denver Trades assembly delivered the address of welcome, to which Mr. Gompers briefly responded.

The latter spoke feelingly of the almost desperate condition of labor at the present time. This was followed by complimentary words for Denver and her energetic people. Referring to the innovation of holding this convention so far west as Denver, he suggested that within a decade the westward movement of industry might take these conventions of the Federation to the Golden Gate.

SAMUEL GOMPERS.

As Mr. Gompers closed his remarks, John Burns entered the hall and was greeted with a storm of applause. He took his seat at the left of the president, the chair on the right being occupied by David L. Holmes, M. P.

Thomas Patterson of Denver was introduced and delivered an address on "Labor's Rough but Noble Struggle." The speaker's delineations of the industrial conditions of the past and present were received with frequent applause. One of the changes in the situation from the past he attributed to the increase of corporations. He said that while the individual employer might feel a sympathy for his employes, the corporation could entertain no such emotion.

The action of the federal government in the Pullman strike was denounced as tyrannical. The general managers, he said, should have been held responsible for the delays to the mails. Capital, he said, controlled the situation either by influencing elections or by purchasing the members of the national and local legislatures.

A vote of thanks was given Mr. Patterson at the conclusion of his address.

As Viewed by Englishmen.

David Holmes, in an interview, said: "I find already in my hurried investigation of the labor movement in America, that the working people are very much behind us of Great Britain. What is worse, it appears that a fatuous spirit of jealousy exists amongst the leaders of many of your trades organizations.

"In England a leader has the following of the people he represents, and he knows that they will stand by him throughout the strongest conflict, so long as he does not forfeit their esteem. It seems to be here more a scramble for position than for principle.

"Our trades associations through years of struggle and honest work have acquired a high position where we are recognized as valuable aids to the country's prosperity. If party feeling were to creep into our trades unions they would be broken up in a year."

Mr. Burns, in talking of the position the trades organizations occupy in public estimation, said: "It will be one of the objects of this convention at least to see that in the free republic of America their unions shall receive that social recognition and judicial and legal fair play that they ought to have in a land of equal suffrage.

"Trades unions in England do not receive that unscrupulous opposition which appears in many quarters from American monopolies."

Passengers Shaken Up.

WELLS, Me., Dec. 11.—A Portland express passenger train was partially wrecked at a point about a mile east of here yesterday afternoon. The truck of a palace car left the tracks and was dragged a mile before it was discovered, tearing up the roadbed and causing a blockade of the track for several hours. None of the passengers were injured.

Concerning Treason.

BERLIN, Dec. 11.—The North German Gazette contends that a member of the reichstag cannot commit an act of lese majeste in the discharge of his functions. The government has evidently resolved upon a conflict to the death with the Socialists. There is good ground, however, to predict that the results will be very unsatisfactory.

A Peculiar Claim.

PROVIDENCE, Dec. 11. — William W. Burnham of Dighton, Mass., has applied to the police here for the rescue of his wife, who, he said, had been hypnotized by a peddler of knick-knacks, Susan Sherman, and had left his home, taking with her some of his money.

DUNRAVEN DISSATISFIED

With the Cup Receipt Clause In the Terms Offered by American Yachtsmen.

NEW YORK, Dec. 11.—The America's cup committee, which has absolute power from the New York Yacht club to receive and act upon the letter and challenge sent by Lord Dunraven regarding a race next year for the America's cup, last evening decided that it could not yield to all the points asked by Lord Dunraven in his communication. The committee cabled Lord Dunraven at London as follows:

"Can agree to no conditions as to holding the cup. If the challenger will sign a receipt for the cup as provided in the deed of 1887, we will accept the challenge. We must adhere to the 10 months' notice from Dec. 6, but will advance dates later if possible. Think best to leave all other unsettled questions until you arrive."

LONDON, Dec. 11.—Lord Dunraven attended a theater last night, and upon returning home at midnight he found a cable dispatch from Commodore Smith, chairman of the America's cup committee, announcing that the committee could agree to no conditions as to holding the cup and declining to agree to eight instead of 10 months' notice. Lord Dunraven read the dispatch, and then said:

"Then you may take it from me that there will be no race. Their insistence that the challenger sign a receipt for the cup and the conditions of 1887 deed place an absolute bar to further negotiations, because it would be impossible to assemble the royal yacht squadron in time. If they think it perhaps possible to advance the dates of the races later they surely could do that now. But I will not decide hastily. I will take a few days for consideration and consultation, and will probably reply on Thursday."

Skinned by a Bogus Company.

BOSTON, Dec. 11.—The Post says: One of the best known citizens of Boston, Micah Dyer, Jr., is out just $8000, and his son, Walter Dyer, is out $4000, as a consequence of investing in some worthless notes of the Portsmouth company of Berwick, Me. The persons who floated these notes have had for capital a good rating in a mercantile agency, secured by one of their number, who unconscious, at first, of the kind of company he was in, would stake his good reputation on their responsibility. It is said that capitalists and banks have lost over $500,000 by the operations of these men. It is said that they did a wholesale business in kiting notes at large discounts.

Yale to U. of P.

NEW HAVEN, Dec. 11.—Benjamin S. Cable, manager of the Yale eleven, last night sent the following answer to Mr. Pepper of the University of Pennsylvania: "In reply to your letter of Dec. 5, I would say that we regret that the charges which have appeared in the newspapers against the University of Pennsylvania football team. Yale has made no charges whatever, and if any charges should be made by us, they will be announced as official and coming from our association."

Pensions.

WASHINGTON, Dec. 11. — The pension cases received and disposed of in the past fiscal year were 219,941—33,000 in excess of the cases received in the previous year. It is recommended by the pension office that the law which expires June next providing for full payment to persons commissioned as officers, but not recognized by muster into service, be extended still further.

Money Is Scarce.

ST. JOHN'S, N. F., Dec. 11.—There were five failures here yesterday in addition to that of the Commercial Bank of Newfoundland. The liabilities must amount to several millions of dollars. The Commercial bank shareholders will lose everything. The Union bank is solvent, but unpleasant rumors are current as to its prospects of keeping above water.

Hinkey's Successor.

NEW HAVEN, Dec. 11.—At a meeting of the Yale football eleven last night, S. B. Thorne of New York was elected captain for the coming year. Thorne has played for two years on the Yale team as half-back, and will play full-back next year. He is 23 years old, 6 feet in height and weighs 175 pounds.

A Fiendish Youth.

BOWLING GREEN, Ky., Dec. 11.—A brutal attempt was made by a negro boy, Sylvester Anthony, to outrage Mrs. Matilda Jones, white. Failing in his purpose, he tried to burn the woman alive. Anthony was brought here with a rope around his neck, and there is talk of lynching him.

Miners Won't Strike.

SCRANTON, Pa., Dec. 11.—The rumor on the New York exchange that the anthracite miners might strike because of the restriction of the output is pronounced a hoax here. The miners regarded restriction as the safest course to pursue in order to prevent reduction in wages.

A Sewer Pipe Combine.

PITTSBURG, Dec. 11.—The newly organized trust of fire clay sewer pipe manufacturers has a capital of $2,000,000. This combination will act in harmony with the other Sewer Pipe trust, which has a capital of $2,000,000. Prices will be advanced.

Records Not Recognized.

CHICAGO, Dec. 11.—The road record's committee of the Century Road club of America has decided to take no official cognizance of the records made by Johnson at Buffalo, on Oct. 24, nor of other similar records made subsequently.

Will Back the Project.

MONTREAL, Dec. 11.—At the annual meeting of the Montreal Exhibition company, a resolution was passed endorsing the plan to hold a World's fair here in 1896, and pledging the company's support to its projectors.

Two Got Away.

OTTUMWA, Ia., Dec. 11.—Burglars robbed the Burlington depot at Batavia and then fled on a handcar. Officers overtook them and a battle was fought. One burglar was killed. The other two escaped.

rheumatic gout, or any gouty or rheumatic affection whatever, has its surest remedy in the Carlsbad Sprudel Salt. There's nothing so successful in clearing out the excess of uric acid in the blood. That has been proved in hundreds of years and in thousands of cases at Carlsbad.

So with any of the ailments brought on by sedentary habits—dyspepsia, indigestion, perverted nutrition, constipation, Carlsbad cures them, and cures them permanently.

But the best way is to prevent them. A little Carlsbad Sprudel Salt taken when you suspect any trouble, will keep your stomach and liver and bowels and kidneys in perfect order.

Take only the genuine imported Carlsbad Salt (solidified and bottled at the Sprudel Spring) with signature of "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

Editorial Comment.

SINCE THE municipal election of last week the air has been full of rumors about the quantity of liquor that was used in several of the wards to influence voters, and the Republican party has been openly charged with having furnished the beer used in one ward.

Several letters have appeared in these columns from the leaders of the Republican party and from candidate Stephen O. Moxon, denying that they furnished, or caused to be furnished, any liquor for campaign purposes, and thus far no proof has been submitted that they did. The report is generally believed to be malicious.

That beer in large quantities was used at the recent municipal election is beyond doubt, and its use and the wide spread reports that have appeared in some papers have cast a stigma upon Quincy, which has the reputation far and wide as the banner temperance city of the State, and the municipal election of 1894 will go down in history as the most disgraceful ever held in the city.

Every citizen, be he Republican or Democrat, should have the interest of his city at heart, and as such should leave no stone unturned to place the blame of the false rumors and the use of liquors where they belong.

Let the guilty parties suffer the consequences, no matter what party or creed they represent. An investigation should be held and the blame placed where it belongs.

No one who is personally acquainted with Mr. Moxon, Mr. Fairbanks or Mr. Johnson will believe for an instant that they gave their sanction to any such methods for getting votes as was used and it is no more than fair that before accusing these gentlemen of such actions that some substantial proof should have been had. But they have been accused, and it is now the duty of every citizen to sift this matter to the bottom and place the blame where it belongs, and let he who is guilty suffer the consequences.

Kind Words.

One of the best papers published in Masssachusetts is the Quincy PATRIOT which is now published by the new firm of George W. Prescott & Son who are so well and favorably known by the newspaper fraternity. This paper was established in 1837, and during these many years has been a power for good, not only in its own city, but in all those through which its influence extends. We have nothing but good wishes for the PATRIOT.—Foxboro Reporter.

The firm of Green & Prescott, publishers of the Quincy PATRIOT, has been dissolved, Mrs. Green, the senior partner, retiring. Geo. W. Prescott and Son will continue the business, which, by the way, is one of the best in Norfolk County.—Hyde Park Times.

The Quincy PATRIOT and Quincy LEDGER are now owned by G. W. Prescott & Son, they having purchased the interest of Mrs. Green, in both papers. Green & Prescott have given the public splendid newspaper service and the new firm has a splendid outlook for a successful business. —Sharon Advocate.

HAVE ASSUMED CONTROL. The owners of the QUINCY DAILY LEDGER and weekly PATRIOT, after many years of joint ownership and remarkable prosperity, have dissolved partnership, Mrs. M. Elizabeth Green selling her interest to George W. Prescott, her partner, who will be assisted by his son, Frank F. Prescott, under the firm name of George W. Prescott & Son.

The PATRIOT has been an excellent paper and rewarded with a liberal patronage, which was no more than its deserts; and when the time came that one or the other of the partners must control the plant, Mr. Prescott was the highest bidder, and accordingly secured the prize.

The future is bright for the new proprietors of the staunch PATRIOT, which has breasted the waves of public opinion so long and so successfully. May its light still shine with a lustre that ages will not dim, nor any newspaper rival will dispel. —*Randolph Register.*

FEDERATION THE SCHEME.

Little Unity as to What Departments Should be Included,

Difficulties as to How Commissioner Shall be Created and Money Appropriated.

It was a largely attended representative gathering which assembled at the hearing of the Metropolitan District Commission given in the Council chamber, City Hall, Monday evening. A list of those present would include the Mayor and most of the Councilmen and department officials, the ex-Mayors, ex-Councilmen and many who have been prominent in the town and city government, our prominent citizens and our business men.

Chairman Rice of Quincy in opening said the commission had arrived at the conclusion that a general plan of annexation was not desirable. That only two or three places wanted it and these Boston would not take. Annexation therefore would not be considered this evening but the scheme of federation. Information was wanted as to government of a federation; how chosen, etc. It was the custom of the commission to have names suggested whose views were wanted. In response to this request these names were suggested: Mayor Hodges, H. H. Faxon, C. M. Bryant, ex-Mayor Porter, Councilman Moxon, R. F. Claflin, N. V. Titus, H. M. Federhen, ex-Mayor Fairbanks and J. O. Holden.

Mayor Hodges

Came to hear not to speak. Had not had time to give the subject study. Some things would be favorable. Sewers and and perhaps water. We should grapple with the sewer question, and may have to have more water.

Would not favor annexation. It possibly might be a good scheme if thoroughfares came under a federation. On general principles people should elect metropolitan government.

Councilman-elect Bryant was excused from presenting his views.

Ex-Mayor Porter

Was opposed to annexation but did favor metropolitan parks and metropolitan sewers under present system. Also favored a metropolitan water system. Police and fire department should remain in hands of people of the cities.

It was a question with him if the old Hancock turnpike should not come under metropolitan control. Also thoroughfares like Washington street, Quincy avenue, School and Franklin streets. During the past eight years Quincy had expended $80,000 on Hancock street.

Under federation our city might secure one contagious ward at its hospital, where another city obtained another and thus all benefitted.

A board for government of district should consist of 5 or 7 appointed by the Governor so that each member should serve 5 or 7 years. He would have the money apportioned and levied by a separate commission appointed by the Supreme court.

In reply to a question he said that he recognized that a State commission would be irresponsible.

He would have one board for all—parks, sewers, water, etc.

Ex-Mayor Fairbanks

Was strongly in favor of federation to consider the great qustions. City councils do not give time to these matters. During his administration he had worked to secure a board of survey but it had been passed over.

Sewers was a great issue and a metropolitan board would give it attention and do the work cheaper. Would include water and parks.

Would not include highways, police or fire department. Would not have a board of government of Mayors.

Henry H. Faxon

Did not agree with the last speaker on the police question. Would remove police as far as possible from people to secure good service. Would have Governor appoint any board created. Five or seven members would be enough. They should have no other employment and receive $3500 each for service.

Would favor a separate sewerage commission.

Chairman Rice read a letter from the present sewerage commission to the effect that Quincy and adjoining towns had not been considered in a metropolitan system.

Mr. Faxon would have Legislature act first on all work.

Councilman Moxon

Hardly thought federation of benefit to Quincy except for trunk sewers and highways. Quincy was all right for water. Parks should continue under metropolitan government.

Government of district should somehow be elected by people and every city and town should have some representation.

Would certainly take metropolitan water if cheaper.

Rupert F. Claflin

Thought a small commission appointed by Governor would give better results than a body elected. Believed Legislature should pass upon appropriations for district.

Herbert M. Federhen

Was not in favor of one commission. Work would be too arduous. Would have parks and highways under one commission, and water and sewers under another. Commissioners should be appointed by Governor with authority to carry out.

With honest men commission would do good work. Would give full power to legislate as well as execute.

N. V. Titus said the best talent for commissioners would be the cheapest.

John O. Holden favored some head. A board of survey and sewerage commission desirable.

Councilman Adams

Would treat the question as a district rather than locally, and also 10 or 25 years hence.

We will then want close federation. Towns throw away much money on road building by incompetent men. Commissions would be inadequate and irresponsible, the Dedham court house for example. Some head was wanted. Favored the idea of putting district all in one county.

Senator Merrill

Was the first one out-spoken for annexation. Our interests were with Boston and the sooner annexation was effected the better for Quincy and the better for Boston.

Something should be done to give Quincy a sewerage system. Parks and highways would be improved by annexation.

Would not have appropriations dependent on Legislature. Was not partial to commissions, and thought there were too many now.

Councilman Shackley

Would be sorry to see government further removed from people. Did not favor commissions but thought them sometimes necessary. Federation was often an advantage. A metropolitan board could build the thoroughfares better.

H. T. Whitman was called for, but was not present.

W. H. Glennon spoke on sewers and water and favored annexation as the only way to get improvements.

Councilman Holbrook

Endorsed the views of Senator Merrill in favor of annexation, believing the taxpayers would be benefitted by less taxes and more improvement. Favored a small executive body, perhaps one person, and a legislative body elected by the different cities.

The hearing came to an abrupt end about 9 P. M. as the commissioners desired to return to Boston.

MR. FAXON ACCEPTS

He Will Decide Whether Candidate Moxon was Implicated

IN THE USE OF ELECTION BEER

A Short Characteristic Letter from the Apostle of Temperance.

The following letter in the Ward Two beer case is self explanatory:

QUINCY, December 11, 1894.

Stephen O. Moxon, Esq.,

DEAR SIR—Yours of the 10th inst. at hand with check for $200 enclosed. While I hesitate to add new burdens to my busy life I shall gladly do all in my power to assist you in unearthing anything that tends to political rascality. I am not particular which party is hurt if the responsibility of this crooked work can be placed where it belongs.

I presume, however, you are well aware how difficult it is to obtain facts from those who took part in the disgraceful scenes, reported to have been enacted, where intoxicating liquors were dispensed for the purpose of influencing votes.

Experience has convinced me that unless some of the participants get mad, reliable information cannot be obtained.

Whiskey and ale inside the average politician will generate more lies than all the other agencies of sin combined. Trusting that we may be able to expose Satan and his political co-workers. I am

Very truly yours,
HENRY H. FAXON.

Manet Encampment of Quincy Receiving Credit for Excellent Work.

The Grand Officers of the Grand Encampment of Massachusetts, I. O. O. F., made an official visitation to Wompatuck Encampment at East Weymouth Monday evening, and witnessed an exemplification of the Patriarchal and Golden Rule degrees.

The Patriarchal degree was worked upon one candidate by Manet encampment of Quincy and the officers were highly complimented by the Grand Officers, who said it was the best work they had witnessed in Massachusetts.

Wompatuck encampment worked the Golden Rule degree, and were also highly complimented.

A banquet was served after the work of the evening.

Thayer Academy.

The lights were turned on last week in the new gymnasium and Judge French inspected the work.

Those gymnasium suits have come!

The bowling alley was used for the first time last week.

Last week finished the foot ball season. Thayer has played eight games and won six. The Weymouth team defeating her twice, still Thayer claims her team is the better and will trot on the Institute grounds with blood in her eye next fall.

Can Theo. Allen play foot ball? Well just read the Boston Journal, Nov. 28th.

The Thayer "varsity" yell as finally adopted is

Rah! Rah! Rah!
Rah! Rah! Rah!
T-H-A-Y-E-R!
Thayer!

With the R on the final Thayer rather prolonged.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

'Lection Day.

BOSTON, Dec. 11.—Elections are progressing in Boston, Everett, Cambridge, Chelsea and other towns today. In this city Francis Peabody is the Democratic candidate for mayor to succeed Mayor Matthews, who leaves city hall to begin his duties as president of the Bay State Gas trust. The Republican candidate is Edwin U. Curtis, a young Roxbury lawyer. Peabody is also a lawyer, and one of the leaders of the "Four Hundred." Both sides claim the election of their candidate.

Flower's Conclusions.

ALBANY, Dec. 11.—Governor Flower has dismissed the charges against the board of managers of the Elmira reformatory. The governor says that he has concluded that corporal punishment has not been administered in such a way as to cause anybody any permanent injury, and that the managers are in no way to be blamed for the punishment inflicted. If Brockway erred, he did so by not knowing how far a belligerent prisoner could endure punishment.

Wholesale Drowning.

LITTLETON, Ia., Dec. 11.—Two children, George and Hannah Cook, went skating on a mill pond and broke through the ice. A crowd gathered about the pond and many of the people ventured on the ice. It suddenly broke through, precipitating 12 persons into the water. Of the number, seven were rescued. The bodies of five others, in addition to the corpses of the two children, were found under the ice.

Battle of Bruisers.

NAHANT, Mass., Dec. 11. — Late last night a crowd of 75 people witnessed a brutal rough and ready prize fight on the beach between Kingwood, a colored man, and a man named Taroon, both of Lynn. The latter was badly used up. The fight finally became so ferocious that it was stopped by some of the spectators.

To Captain the Tigers.

PRINCETON, N. J., Dec. 11.—The Princeton football eleven yesterday selected Langdon Lea to succeed Trenchard as captain. Lea has played on the Princeton team three years, and is regarded as one of the most valuable tacklers in football circles. His election is heartily approved.

Pleaded Guilty of Murder.

RICHMOND, Ky., Dec. 11.—The grand jury returned an indictment against William Taylor, colored, for the killing of David Doty. The defendant pleaded guilty to the indictment. Notwithstanding the excitement that has prevailed, there was no demonstration.

Mine on Fire.

NEW CASTLE, Colo., Dec. 11.—Fire broke out yesterday in the Vulcan coal mine in the new slope in which 55 men were employed, caused by the accumulation of gas. The mine will be flooded. It will take at least two weeks to extinguish the fire and pump the water out again.

Huntington's Big Investment.

MONCTOVA, Mex., Dec. 11.—C. P. Huntington has bought the great iron mountain at Durango, and he will establish extensive iron and steel works there. This mountain is the largest known body of iron in the world. The purchase price is placed at $1,000,000.

Arrests to Be Made.

AMESBURY, Mass., Dec. 11.—District Police Officer Hammond, who was called into the Goodrich poisoning case, has found that a sale of two boxes of paris green was made to two Amesbury men. Arrests are liable to follow.

Whisky Trust Sued.

CHICAGO, Dec. 11.—Nelson Morris, formerly director of the Whisky trust, has brought suit against that company for $55,000 for failure to fulfill a contract to feed a large number of cattle at its distilleries in Peoria.

A Serious Charge.

PORTSMOUTH, N. H., Dec. 11.—Benjamin Launders will be brought here from North Adams, Mass., on a charge of felonious assault upon Nellie Johnston. Requisition papers were granted by Governor Smith.

Victory For "Pennyposts."

WASHINGTON, Dec. 11.—The court of claims has rendered judgments in favor of about 260 Baltimore letter carriers for time served in excess of eight hours a day, the whole amounting to about $130,000.

After Mitchell's Scalp.

BOSTON, Dec. 11.—Dan Creedon says he has $1000 to wager that he can stop Charles Mitchell in eight rounds if the latter will fight at 158 pounds. He will bet $2500 if Mitchell consents to meet him to a finish.

BRAINTREE.

The somewhat sudden and unexpected death of R. Elmer Morrison which took place this morning, has created a feeling of sadness throughout the community.

Mr. Morrison officiated at the organ in the First Parish Congregational church, Sunday, Dec. 2, where he has been accustomed to play for over thirty-five years, and although not feeling well, no one thought that what seemed to be only a slight indisposition, would have terminated as it has, and so soon,

Mr. Morrison was of the firm of Morrison Bros., was in his 52d year of his age, and has left a wife and a family of four children; two boys, the younger nine years of age and the other fifteen.

The daughters are Mrs. James D. Ellsworth of Braintree, and Mrs. Henry M. Faxon of Quincy.

The funeral takes place from the Congregational church, Thursday afternoon.

Mr. Morrison was a highly respected citizen and will be greatly missed.

WEKERLE'S TRIUMPH

Premier's Religious Reforms Sanctioned by the King.

DIVORCE OF CHURCH AND STATE

Accomplished After a Most Bitter Political Fight.

BUDA-PESTH, Dec. 11.—There was a scene of unparalleled excitement in the reichsrath yesterday when Dr. Wekerle, the Hungarian prime minister, announced that the King of Hungary (Emperor Francis Joseph) had given his sanction to the ecclesiastical bills.

The Liberals rose in a body and cheered wildly for several minutes. The house rapidly emptied, and the members pressed around and congratulated Dr. Wekerle and Herr von Hieronymi, Hungarian minister of the interior, who had gone to the lobbies.

The Liberals have the highest hopes that the firm position they have maintained on the ecclesiastical measures will enable them to carry out further reforms. They have arranged to hold a mass meeting on Thursday. On the evening of that day there will be a torchlight procession, and the city will be illuminated in honor of the victory they have won.

Of Wide Scope.

The ecclesiastical bills, to which the royal sanction has been given, include measures legalizing civil marriages, allowing the conversion of Christians to Judaism, granting religious liberty to Hebrews and removing the restrictions with regard to the children of mixed marriages. In fact, the bills provide for complete religious freedom in Hungary.

All the measures, with the exception of that in regard to children of mixed marriages, were bitterly opposed by the Clericals. Not only the Roman Catholics, but the Greek orthodox bishops, fought against the adoption of the measures.

At one time it looked as though the opposition would win. The house of magnates rejected one of the measures. Certain concessions were made by the government, after a ministerial crisis had been successfully overcome, and now, as the above dispatch states, the Liberals have secured a great parliamentary victory, the politico-religious effects of which will be far reaching. Every effort was made by the ultramontane Clericals to defeat the measures by endeavoring to work upon the well-known piety of the sovereignty.

A Newspaper's Warning.

The Magyar Allam, an ultramontane organ, declared recently that it was impossible for the apostolic King of Hungary to sanction these bills, adding: "The bleeding figure of the innocent Queen Marie Antoinette stands between Francis Joseph I and the civil marriage law, which has its own origin in the French revolution." The article concluded as follows:

"It is written that we shall hearken to the word of God rather than to that of man, and the Almighty will visit the sins of the fathers upon the children unto the third and fourth generations. Woe to the dynasty that challenges the judgment of God. Woe to the nation and to every man who renounces the faith of his fathers and forgets that one day we shall all have to render an account of our actions.

"We lift our eyes with the deepest sympathy toward our lord and king at the difficult moment when a decision has to be taken. May the fortifying power of divine grace fill his heart with courage and enlighten his spirit, so as to enable him to oppose the demands put forth on the ground of a false interpretation of the constitution.

"May he remain faithful to his apostolic reputation, to his oath and to the traditions of his august family, and by his decision restore the nation's peace, secure the future of the fatherland, the stability of his own house and the salvation of his soul."

The king, however, viewed the subject from a different standpoint, and on the occasion of the recent visit of Dr. Wekerle to Vienna it was announced that the prime minister had secured the royal sanction to the ecclesiastical bills.

Seeking British Intervention.

TIFLIS, Dec. 11.—The Mschas, an Armenian newspaper, published a Constantinople dispatch stating that the British consul at Van, Turkish Armenia, has notified the British foreign office of the massacre of 6000 Armenians, and has asked Great Britain to intervene. The dispatch further states that the reports of six powers have handed the porte a note in the Armenian language. The German ambassador has presented a separate note to the porte.

The Kaiser's Tributes.

PARIS, Dec. 11.—Emperor William has sent a telegram to Madame de Lesseps, saying: "All intellectual and scientific people will mourn with you, madame, over the tomb of one of the greatest minds of a genius that embraced the universe. Believe, madame, that all my sympathies are at this moment with you and your family."

Caused by Negligence.

SYDNEY, Dec. 11.—The finding of the court of inquiry, which investigated the grounding of the British cruiser Ringarooma, is that Captain Johnson and Lieutenants Chetwynd and Macdonald are guilty of negligence. All three are censured and Chetwynd is dismissed from the service.

Flood on the Isthmus.

COLON, Dec. 11.—Heavy rains have caused a flood and some loss of life in the department of Magdalena. Santa Marta was inundated, and 57 houses were destroyed. Railway communication with the town has been cut off.

No Revival of Fenianism.

LONDON, Dec. 11.—The authorities at Scotland Yard say there is no truth in the statements regarding the visit to England of a well-known Irish-American extremist, with the view of reviving Fenianism in England.

Tit For Tat.

SHANGHAI, Dec. 11.—Before considering any peace proposals from China, Japan insists upon the surrender for execution of all the Chinese officials who have offered money rewards for Japanese heads.

A Rich Little Island.

HOBART TOWN, Tasmania, Dec. 11.—Numbers of stones which have been found at Corrina have been proved to be diamonds.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

LOOKS LIKE SEELY.

Chicago Police Think They Have Made an Important Capture.

CHICAGO, Dec. 11.—Central Station Detectives O'Donnell and Almendinger last night arrested a man whom they claim is Samuel C. Seely, who is wanted in New York for the embezzlement of $254,000 from the National Shoe and Leather bank, in which institution he was a bookkeeper. The prisoner asserted that his name was Frank J. Dale. Further than that, the police, who questioned him closely for an hour, could get nothing from him. He refused absolutely to answer the questions put to him.

The police say he bears a marvelous resemblance to Seely, the description of the latter, as sent from New York, fitting the prisoner exactly. The information upon which the officers made the arrest was given them by a young man, who said he was in possession of information to show that Seely was living at 496 La Salle avenue.

Officers O'Donnell and Almendinger went with him to a boarding house kept by Mrs. Clayton. The officers were shown to Dale's room. When the door was opened one of the officers said: "Well, how do you do, Samuel?" His salutation met with no response. Dale stood seemingly spellbound and unable to speak, and his face became pale.

After a few minutes he regained his composure somewhat, and said there must be some mistake, as his name was Frank J. Dale. He made no resistance and accompanied the officers to the Central police station. The police got very little satisfaction out of him, and after an hour's hard work they had succeeded only in eliciting the statements that his name was Frank J. Dale and that he had been in Chicago two weeks. He refused to say anything about his previous life, or where he had been before he came to Chicago,

Heavy Seizure of Liquor.

BOSTON, Dec. 11.—A large liquor raid was made by the police at Commercial wharf yesterday afternoon, when 2400 gallons of ale and porter were confiscated. The supposed proprietor of the goods is Abraham Q. Wendell, who also had 1000 gallons taken from him on Saturday last. He is charged with keeping and exposing liquors without a license. The seized spirits made 14 wagon loads. Over 1000 gallons of liquor remain in the storehouse still, but it was not subject to seizure, as it is in original packages.

Italian Finances.

ROME, Dec. 11.—The budget for 1895-96 was presented to the chamber of deputies yesterday. The deficit is estimated at 70,740,000 lire. The sum of 27,000,000 lire will be raised by the duties on raw cotton and refined sugar; by a proportionate increase in the duties on raw sugar, palm oil, cocoons and grain, and by fresh taxation on match boxes and on the consumption of gas and electric light by private persons.

Orders Got Mixed.

WASHINGTON, Dec. 11. — The recent movements of the cruiser Columbia, which puzzled the navy department, are found to have been due to a mistake of the cable company, which ordered the vessel to Kingston, instead of Bluefields. Fresh orders were sent last night ordering the Columbia to Bluefields.

Big Hotel Burned.

CHATTANOOGA, Dec. 11.—The Southern hotel was burned yesterday. The fire was caused by the bursting of a gas meter. There were 75 guests in the house, all of whom escaped. The building cost $75,000, and is partly insured.

FATHER'S CHRISTMAS PRESENTS.

They Were Useful to the Family, and He Saw Little of Them.

We were talking about Christmas presents, the girls and mother and I, when father came in. Then we changed the subject just a little bit, because it was father's presents we were discussing. Father sat down by the stove and rubbed his hands—he had just been out at the barn—and a queer expression slowly settled upon his features.

"Say, mother, and Ned and girls," he said, "I don't want any of you to get me any presents. 'Tain't no use, you know."

"Why, father," said Lena in an aggrieved voice, "we always get you useful presents, don't we? I don't myself believe in things that are not useful."

Father's eyes twinkled. "Yes," he said, "but I sometimes think they are a little too useful, you know."

Nell shrugged her shoulders impatiently, but mother said: "Let father have his little joke. What is it this time, father?"

The old gentleman, having warmed his hands, settled himself back comfortably in his big chair, and his eyes twinkled more than ever.

"Well, let's see," he went on in a ruminating manner. "Do you remember the dozen hemstitched han'kerchiefs that you gave me last Christmas, Leny? I guess I used one on 'em just once. Some way or other," with a genial, impartial glance at the company, "Leny and Nell have been usin of 'em, and I've been usin of Leny and Nell's old torn ones. He, he! I don't know jest how 'twas, but it's a fact. Then, Ned, do you remember the compass you got me for a birthday present last June? It was a nice little compass, and I guess a feller about your size thought so, too, for he's been usin of it ever sence. Then, let's see, there was the silk han'kerchief that mother give me at birthday, and I put it away choicelike, and the fust thing I knew Leny was a-wearin of it inside her jacket. Yes, my presents are all useful, a leetle bit too useful, mebbe. See the point, don't you?"

Father's next presents had his name written on each of them, and none of us ever again thoughtlessly used the dear old man's things.—American Agriculturist.

A Legend of the Mistletoe.

Shakespeare certainly knew of the mistletoe legends, for he speaks emphatically of "baleful mistletoe," as do other writers of his day. Among the many legends told this has no tragic feature. A prince is the hero, and he got separated from his friends while hunting. He wandered about for a long period and finally discovered a humble cottage. Here he took shelter for a time and fell in love with the occupant's lovely daughter. His identity was not suspected, and owing to his shabby appearance resulting from his long wandering he was regarded as an undesirable suitor and was summarily ejected. Broken hearted, he again resumed his apparently endless journey and at night slept under an oak tree. There a good fairy told him that a twig of mistletoe would reconcile the irate parent to the match, but it must be gathered from a hollow oak tree growing by the side of a stream opposite a peculiarly dwarfed weeping willow.

In the morning he was preparing to search for the tree, but found, to his delight, that it was evidently the one he had been sleeping under. Climbing to the topmost branches, he found the mistletoe, tore it off and descended the tree in triumph. He found the cottage without difficulty, presented his peace offering and was promptly given the young lady, with whom he returned to the palace, where he lived the remainder of his days in the usual legendary condition of bliss. The story is told in other ways, but the power of the mistletoe is enlarged upon, and the ending is always happy.—St. Louis Globe-Democrat.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

UNCLE SAM'S COURSE

In Regard to the Recent Outrages Reported From Turkey.

INTERVENTION WAS DECIDED UPON

Only When Turkey's Request Was Seconded by England.

WASHINGTON, Dec. 12.—In compliance with the house resolution, the president sent to the senate a letter from Secretary Gresham relative to the Armenian outrages. The secretary's letter is as follows:

DEPARTMENT OF STATE, WASHINGTON, Dec. 10.

To the President: The secretary of state, to whom was referred the resolution of the senate of the 3d inst., requesting the president, "If in his judgment it is not incompatible with the public interest, to communicate to the senate any information he may have received in regard to alleged cruelties committed upon Armenians in Turkey, and especially whether any such cruelties have been committed upon citizens who have declared their intention to become naturalized in this country, or upon persons because of their being Christians, and, further, to inform the senate whether any expostulations have been addressed by this government to the government of Turkey in regard to such matter, or any proposals made by or to this government to act in concert with other Christian powers regarding the same," has the honor to submit herewith all the correspondence in the department of state bearing on the subject of the resolution.

The department has received no information "in regard to alleged cruelties committed upon Armenians in Turkey," other than the statements that have been made by the Turkish government, the current reports in the press and two telegrams from the legation of the United States at Constantinople.

Concerning Future "Citizens."

Those statements and reports contain nothing as to any cruelties committed upon persons who are described in the resolution as "Citizens who have declared their intention to become naturalized." The undersigned is not aware that there are American citizens in Armenia or elsewhere who are such otherwise than by birth or naturalization.

The department is not informed that Turkish subjects who have declared their intention to become citizens of the United States, and have acquired a domicile in this country, have, upon returning to the land of their birth, been subjected to cruelties. In the absence of authentic information in regard to matters in question, no "expostulations" have been addressed to the government of Turkey concerning the...

As to "Proposals made by or to this government to act in concert with other Christian powers," the undersigned has the honor to say that on the 13th ultimo the American minister at Constantinople telegraphed the sultan had expressed a desire that a citizen of the United States should accompany "a Turkish commission" to investigate the alleged cruelties.

A Declination.

This solicitation, which is doubtless one of the "proposals" referred to in recent public rumors, was, though fully appreciated, declined for the following reasons:

The position of the Christian subjects of Turkey is guaranteed by certain stipulations in the treaty of Berlin of 1878, which form part of what is known as the European concert. The government of the United States is not a party to that treaty. By its 61st article it is provided:

The sublime porte undertakes to carry out without further delay the improvements and reforms demanded by local requirements in the provinces inhabited by the Armenians, and to guarantee their security against the Circassians and Kurds. It will periodically make known the steps taken to this effect to the powers which will superintend their application.

It is obvious that the intervention of the United States, at the solicitations of Turkey, in a matter to which these stipulations relate, would not have been timely and judicious, either on the score of propriety or of expediency. On the contrary, it might have proved to be exceedingly embarrassing to the European powers, whose duty it is to see that the guarantees in favor of the Armenians are executed.

Subsequently, however, the British government, one of the principal signatories of the treaty, having taken steps in the matter, expressed a desire that a capable and upright citizen of the United States might participate with the commission in the investigation now to be made. With this request, which was supported by the porte, it was decided to comply, and Mr. Jewett, consul of the United States at Sivas, was designated for the duty.

The undersigned deems it superfluous to say it is the desire of the department that a complete and impartial investigation may be made of the matters referred to in the resolution of the senate, to the end that the facts may be fully elicited, and the requirements of justice and humanity, as well as of the treaty stipulations, be duly observed.

Respectfully submitted,

W. Q. GRESHAM.

Explicit Instructions.

Appended to the letter is the following cablegram:

DEPARTMENT OF STATE, WASHINGTON, Dec. 5.

To Terrell, Minister, Constantinople:

Since my telegram of the 2d inst., declining participation of this government in the proposed investigation of reported occurrences at Sassoun, your supplementary telegram of the same date has been received. The Turkish minister yesterday repeated the sultan's desire that an American join the Turkish commissioners in the investigation; and, moreover, the British government, a party to the treaty of Berlin, has expressed its desire that a capable and upright citizen of the United States participate and report his individual conclusions.

The president, therefore, directs that Mr. Jewett, consul at Sivas, accompany the Turkish commission, not, however, as a member of it, to the district in which the alleged atrocities were committed, and, after full and impartial investigation, report the facts for the information of his government. He will not join the Turkish or other commissioners in any report. You will inform the minister of foreign affairs, and, if necessary, ask proper escort for Mr. Jewett. GRESHAM.

The President's Views.

President Cleveland's letter of transmittal quotes from the report of the United States minister at Constantinople, at first discrediting, but later confirming, reports.

The president also says he has had no information of cruelties committed upon those who have a right to claim the protection of the United States government. Therefore, no "expostulations" had been addressed to Turkey.

Concerning any proposals to act in concert with other Christian powers, the president says: "The first proposal of the kind referred to was made by the Turkish government through our minister on Nov. 30, when the sultan then expressed a desire that a consul of the United States be sent with a Turkish commission to investigate the alleged atrocities on Armenians.

"This was construed as an invitation on the part of the Turkish government to actually take part with a Turkish commission in an investigation of these affairs and any report to be made thereon, and the proposition came before our ministers. A second dispatch was received, indicating that the statements made in the press were sensational and exaggerated, and that the atrocities alleged really did not exist.

"This condition very much weakened any motive for an interference based on considerations of humanity, and permitted us without embarrassment to pursue a course plainly marked out by our controlling incidents.

"By a treaty entered into at Berlin in the year 1877 between Turkey and various other governments, Turkey undertook to guarantee protection to the Armenians, and agreed that it would 'periodically make known the steps taken to this effect to the powers, who will superintend their application.'

Avoiding Complications.

"Our government was not a party to this treaty, and it is entirely obvious that, in the face of the provisions of such treaty above recited, our interference on the proposed investigation, especially without an invitation of the powers, which had assumed, by treaty obligations, to secure the protection of these Armenians, might have been exceedingly embarrassing, if not entirely beyond the limits of justification of propriety. The Turkish invitation to join the investigation set on foot by that government was, therefore, on Dec. 2, declined.

"On the same day, and after this declination had been sent, our minister at Constantinople forwarded his second dispatch, tending to modify his former report as to the extent and character of the Armenian slaughter. At the same time the request of the sultan for our participation in the investigation was repealed, and Great Britain, one of the powers which joined in the treaty of Berlin, made a like request.

"In view of the changed conditions, and upon reconsideration of the subject, it was determined to send Mr. Jewett, our consul at Sivas, to the scene of the alleged outrages, not for the purpose of joining with any other government in an investigation and report, but to the end that he might be able to inform this government as to the exact truth.

"Instructions to this effect were sent to Mr. Jewett, and it is supposed that he has already entered upon the duty assigned him.

"I submit with this communication copies of all correspondence and dispatches in the state department on this subject and the report to me of the secretary of state thereon."

From Turkish Standpoint.

The Turkish legation has received a communication representing that the Armenian agitators that made their appearance in the steep mountains of Talouri combined their forces at the instigation of one Hampartzoum, who made credulous people believe that he was a foreign agent, backed by all the European powers.

Gathering thus a large band, he attacked tribe after tribe, killing, robbing, insulting Mussulmans in their religion, torturing with horrible indignities, and burning villages. Regular troops were sent in pursuit, and Hampartzoum was finally captured, with many insurgents. They will be punished according to law.

Senator Sherman's Daughter Marries.

WASHINGTON, Dec. 12.—The wedding of Miss Mary Sherman, daughter of Senator Sherman, to James Ives McCullum, took place today at noon at Senator Sherman's house on K street. The ceremony was performed by Rev. Dr. McKim of the Church of the Epiphany. The bridesmaids were Miss Cecelia Miles, daughter of New York, and the best man was Lee Phillips of Washington. Britons Support Clarence.

COLON, Dec. 12.—Ex-Chief Clarence, the former ruler of the Mosquito territory, has been granted a maintenance of $22 a day by the British government. The Nicaraguan government will grant amnesty to all the members of the defunct Mosquito government, with the exception of Chief Clarence.

Scarlet Fever's Ravages.

GOFFSTOWN, N. H., Dec. 12.—An epidemic of scarlet fever prevails here, there being some 25 cases. Three deaths have occurred in one family in 24 hours. Schools are closed, and special efforts are being made to stamp out the disease. Typhoid fever is also reported.

Burglar Captured.

NORTH ADAMS, Mass., Dec. 12.—Two burglars broke into Strand's grocery store last night, but were seen by the clerk, who summoned the police by telephone. One burglar was captured and gave his name as Nicholas Nester. He was recognized as one of the Buffalo gang.

A Powerful Cyclone.

ATLANTA, Dec. 12.—A cyclone passed over Kingston and destroyed the convict camp, killing five mules, wounding three men badly and several others slightly. A large tree was blown across the camp. A barn was carried bodily for a mile. No one is reported killed.

LES ROSES DE SADI.

This morning I vowed I would bring thee my roses.
They were thrust in the band that my bodice incloses,
But the breast knots were broken, the roses went free.
The breast knots were broken; the roses together
Floated forth on the wings of the wind and the weather,
And they drifted afar down the streams of the sea.

And the sea was as red as when sunset uncloses,
But my raiment is sweet from the scent of the roses.
Thou shalt know, love, how fragrant a memory can be.

—Andrew Lang.

A MILD ORIENTAL.

If you consider the circumstances of the case, it was the only thing that he could do. But Pambe Serang had been hanged by the neck till he was dead, and nobody cared whether he was right or wrong.

Three years ago, when the Elsass-Lothringen steamer Saarbuck was coaling at Aden and the weather was very hot indeed, Nurkeed, the big fat Zanzibar stoker who fed the second right furnace 30 feet down in the hold, got leave to go ashore. He departed a "Seedee boy," as they call the stokers. He returned the full blooded sultan of Zanzibar—his royal highness Sayyid Burgash—with a bottle in each hand. Then he sat on the fore hatch grating eating salt fish and onions and singing the songs of a far country. The food belonged to Pambe, the serang, or head man of the lascar sailors. He had just cooked it for himself, turned to borrow some salt, and when he came back Nurkeed's dirty fingers were spading into the rice. A serang is a person of importance, far above a stoker, though the stoker draws better pay. He sets the chorus of "Hya, hulla! Heeah, heh," when the captain's gig is pulled up to the davits. He heaves the lead, too, and sometimes, when all the ship is lazy, he puts on his whitest muslin and a big red sash and plays with the passengers' children on the quarter deck. Then the passengers give him money, and he saves it for an orgie at Bombay, Calcutta or Pulu Penang.

"Ho, you fat, black barrel, you're eating my food!" said Pambe in the other lingua franca which begins where the Levant tongue stops and runs from Port Said eastward till east is west and the sealing brigs of the Kurile islands gossip with Hakodate junks.

"Son of Eblis, monkey face, dried shark's liver, pig man, I am the Sultan Sayyid Burgash and the commander of all this ship! Take away your garbage," and Nurkeed thrust the empty pewter rice plate into Pambe's hand. Pambe beat it into a basin over Nurkeed's woolly head. Nurkeed drew his sheath knife and stabbed Pambe in the leg. Pambe drew his sheath knife, but Nurkeed dropped down into the darkness of the hold and spat through the grating at Pambe, who was staining the fore deck with his blood.

Only the big white moon saw these things, for the officers were looking after the coaling and the passengers were tossing in their close cabins. "All right," said Pambe, and went forward to tie up his leg, "we will settle the account later." He was a Malay, born in India, married once in Burma, where his wife had a cigar shop on the Shwe Dagon road; once in Singapore to a Chinese girl and once in Madras to a Mohammedan woman who sold fowls. The English sailor cannot, owing to postal and telegraph facilities, marry so profusely as he used to do, but native sailors can, being uninfluenced by the barbarous inventions of the western savage. Pambe was a good husband when he happened to remember the existence of a wife, but he was also a very good Malay, and it is not wise to offend a Malay, because he does not forget anything. Moreover, in Pambe's case blood had been drawn and food spoiled. Next morning Nurkeed rose with a blank mind. He was no longer sultan of Zanzibar, but a very hot stoker. So he went on deck and opened his jacket to the morning breeze till a sheath knife came like a flying fish and stuck into the woodwork of the cook's galley, half an inch from his right arm, at. He ran down elbow before his time, trying to remember what he could have said to the owner of the weapon. At noon, when all the ship's lascars were feeding, Nurkeed advanced into their midst, and being a placid man with a large regard for his own skin he opened negotiations, saying: "Men of the ship, last night I know that I behaved unseemly to some one or another of you. Who was that man, that I may meet him face to face and say that I was drunk."

Pambe measured the distance to Nurkeed's naked breast. If he sprang at him, he might be tripped up, and a blind blow at the chest sometimes only means a gash on the breast bone. Ribs are difficult to thrust between unless the subject is asleep. So he said nothing, nor did the other lascars. Their faces immediately dropped all expression, as is the custom of the orientals when there is killing on the carpet or any chance of trouble. Nurkeed looked long at the white eyeballs. He was only an African and could not read characters. A big sigh, almost a groan, broke from him, and he went back to the furnaces. The lascars took up the conversation where he had interrupted it. They talked of the best methods of cooking rice.

Nurkeed suffered considerably during the run to Bombay from lack of fresh air. He only came on deck to breathe when all the world was about, and even then a heavy block once dropped from a derrick within a foot of his head and an apparently lashed grating on which he set his foot began to turn with the intention of dropping him on the cased cargo 15 feet below, and one insupportable night the sheathknife dropped from the fo'c's'le, and this time it drew blood. So Nurkeed made complaint, and when the Saarbruck reached Bombay fled and buried himself among 800,000 people and did not sign articles till the ship had been a month gone from the port. Pambe waited, too, but his Bombay wife grew clamorous, and he was forced to sign in the Spicheren to Hongkong, because he realized that all play and no work gives Jack a ragged shirt. In the foggy China seas he thought a great deal of Nurkeed, and when Elsass-Lothringen steamers lay in port with the Spicheren inquired after him and found he had gone to England via the cape on the Gravelotte. Pambe went to England on the Worth. The Spicheren met her by the Nore Light. Nurkeed was going out with her to the Calicut coast.

"Want to find a friend, my trap mouthed coal scuttle?" said a gentleman in the mercantile service. "Nothing easier. Wait at the Nyanza docks till he comes. Every one comes to the Nyanza docks. Wait, you poor heathen." The gentleman spoke the truth. There are three great doors in the world whereat, if you stand long enough, you shall meet any one you wish. The head of the Suez canal is one, but there death comes also. Charing Cross station is the second—for inland work—and the Nayuza docks are the third. At each of these places are men and women looking eternally for those who will surely come. So Pambe waited at the docks. Time was no object to him, and the wives could wait, as he did from day to day, week to week, month to month, by the Blue Diamond funnels, the Red Dot smokestacks, the Yellow Streaks and the nameless dingy gypsies of the sea that loaded and unloaded, jostled, whistled and roared in the everlasting fog. When money failed, a kind gentleman told Pambe to become a Christian, and Pambe became one with great speed, getting his religious teaching between ship and ship's arrival and 6 or 7 shillings a week for distributing tracts to mariners. What the faith was Pambe did not in the least care, but he knew if he said, "Native Ki-lis-ti-an, sar," to men with long black coats he might get a few coppers, and the tracts were vendible at a little public house that sold shag by the "dottel," which is even smaller weight than the "half screw," which is less than the half ounce and a most profitable retail trade.

But after eight months Pambe fell sick with pneumonia, contracted from long standing still in slush, and much against his will he was forced to lie down in his two and sixpenny room, raging against fate.

The kind gentleman sat by his bedside and grieved to find that Pambe talked in strange tongues, instead of listening to good books, and almost seemed to become a benighted heathen again, till one day he was roused from semistupor by a voice in the street by the dockhead. "My friend—he," whispered Pambe. "Call now—call Nurkeed. Quick! God has sent him!" "He wanted one of his own race," said the kind gentleman, and going out he called "Nurkeed!" at the top of his voice, and an excessively colored man in a rasping white shirt and brand new slops, a shining hat and a breastpin turned round. Many voyages had taught Nurkeed how to spend his money and made him a citizen of the world.

"Hi! Yes!" said he when the situation was explained. "Command him—black nigger—when I was on the Saarbruck. Ole Pambe. Good old Pambe. Dam lascar. Show him up, sar," and he followed into the room. One glance told the stoker what the kind gentleman had overlooked. Pambe was desperately poor. Nurkeed drove his hands deep into his pockets, then advanced with clinched fists on the sick, shouting: "Hya, Pambe! Hya! Hee, ah! Hulla! Heh! Takilo! Takilo! Make fast aft, Pambe! You know Pambe. You know me. Dek ho, jee! Look! Dam big fat lazy lascar!"

Pambe beckoned with his left hand. His right was under his pillow. Nurkeed removed his gorgeous hat and stooped over Pambe till he could catch a faint whisper. "How beautiful!" said the kind gentleman. "How these orientals love like children!"

"Spit him out," said Nurkeed, leaning over Pambe yet more closely.

"Touching the matter of that fish and onions," said Pambe—and sent the knife home under the edge of the rib bone, upward and forward.

There was a thick, sick cough, and the body of the African slid slowly from the bed, his clutching hands letting fall a shower of silver pieces, which ran across the room.

"Now I can die!" said Pambe.

But he did not die. He was nursed back to life with all the skill which money could buy, for the law wanted him, and in the end he grew sufficiently convalescent to be hanged in due and proper form.

Pambe did not care particularly, but it was a sad blow to the kind Christian gentleman.—St. James Gazette.

Helmholtz's Remarkable Brain.

In order to satisfy scientific men as to the real cause of Professor Helmholtz's death, says the London Telegraph's Berlin correspondent, a post mortem examination was made at the desire of his relatives, the chief results of which are as follows: As a consequence of the paralytic strokes the left portion of the brain was considerably softened, while the right portion was perfectly normal and sound. The brain displayed unusually numerous cerebral sinuations, such as are known to be generally observed in the brains of persons of very great intellect. The physicians and pathologists who conducted the examination were extremely interested in what they saw, and a cast of the brain was immediately taken. Other organs of the body showed some signs of disorder, but in his lifetime the deceased had not experienced any inconvenience therefrom.

PLANS OF CONGRESS.

Both Branches Have Long Lists Scheduled For Debate.

OUR NEW TREATY WITH JAPAN

Shows No Lack of Concessions to the United States.

WASHINGTON, Dec. 10. — The second week of the session in the house promises to witness a fierce struggle over the income tax in connection with the appropriation to be incorporated in the urgency deficiency bill to provide for the collection of the tax, which begins Jan. 1, 1895.

Mr. Sayers, chairman of the appropriation committee, intends to call up the bill tomorrow, after the railroad pooling bill is disposed of. Mr. Bartlett of New York is at the head of the opposition to the appropriation, and although the opposition is not considered strong enough to defeat the appropriation, it is expected that the debate will abound with acrimonious reference to the late election, and that much bad blood will be manifested.

The consideration of the income tax appropriation may consume several days. Today is District of Columbia day, and tomorrow the fate of the pooling bill will be decided, as Mr. Patterson of Tennessee, in charge of the measure, has given notice that at 3 o'clock he will demand the previous question. The general opinion is that the bill will not pass as reported, but will probably be carried when amended so as to give to the interstate commerce commission absolute control of the conditions of railroad pooling and final authority in the matter of revoking pooling orders.

As soon as the urgency deficiency bill, which will follow, is out of the way, it is the intention of the appropriation committee to bring forward the fortification appropriation bill. The Nicaragua canal bill will not be brought up this week. Thursday, according to notice already served, Mr. Brown, chairman of the elections committee, will call up the North Carolina contested election case of Williams vs. Settle.

The Week's Program In the Senate

will depend largely on the decision of the Democratic steering committee with reference to the order in which bills preferred by the Democratic caucus are to be taken up.

It is not supposed by any one that the proposed currency bill will be given first place, for the reason that no currency bill has yet been formulated. The friends of the other bills will unquestionably press their respective measures, and it is as yet impossible to say which of the bills mentioned will receive the preference.

While the committee is undecided, Senator Morgan will be improving his opportunity to press the claims of the Nicaragua bill. He gave notice of his intention to call the bill up today, and he opened the proceedings of the day, after the disposal of the morning business, with a speech devoted to an explanation of the merits of the bill. This speech will consume the greater part of the day. The speech made, the decision of the committee will probably be allowed to control as to whether the canal bill shall continue to receive attention or shall be displaced by one of the favored measures.

Our Treaty With Japan.

The full text of the new treaty between the United States and Japan is the main subject of comment in diplomatic and official circles. It was scanned with great interest yesterday, as it gave the first exact details of the instrument by which the United States formally recognizes Japan as a first-class power in the sisterhood of nations.

The treaty shows how fully the United States has accorded Japan the recognition she has now as an enlightened, modern nation. All previous treaties have been based on the theory that the relics of Eastern barbarism still remained with Japan. Accordingly she was not allowed to conduct her own courts, or to make her own tariff laws, but special treaty regulations were made to protect American litigants and American commerce in Japan on the presumption that the native laws would not afford adequate protection.

Running throughout the new treaty are the concessions recognizing her courts and laws as ample for Americans as well as natives. This is the chief feature of the treaty. The old consular courts, in which United States consuls tried cases at Japanese treaty ports are abandoned. Instead of them, all cases, civil and criminal, in which an American is concerned, will be tried by the native courts.

The right of Japan to make her own tariff laws is also recognized. Heretofore the United States has been free to make such tariff laws as she saw fit affecting Japan, but the latter was forbidden by treaty from fixing duties above 5 per cent ad valorem.

The protocol of the new treaty recognizes the general statutory laws of Japan concerning the tariff, and articles 4 and 5 give her for the first time the "favored nation clause," by which she is guaranteed against any higher duties than those the United States imposes on other countries. The abolition of the foreign settlements and their absorption by the native cantons of Japan is another recognition of her advanced municipal organization.

Advantages to Americans.

On the other hand, the United States secures many substantial advantages. The missionaries, who make up such a very large class in Japan, are guaranteed freedom of worship and protection in that worship.

The main concession, however, is that of article 2, by which Japan is opened up to American commerce. Heretofore, Americans have been restricted to a few treaty ports of Japan. They could not reside or carry on business, or even travel in the interior.

Now, however, every corner of the country is opened to Americans. They can establish business and manufactures, lease lands, etc. It is the opening of the heart of Japan, hitherto inaccessible to American enterprise and commerce. In giving the Japanese a similar right to settle throughout the United States, care has been taken to provide that their coming must be subject to our alien labor and immigration laws.

The provision of the treaty that it must be ratified within six months makes it incumbent for the senate to act on it at the present session or the treaty will fail. There is every probability, however, that the senate will act promptly. Minister Kurino has forwarded a copy of the treaty to his government, where it will be considered and ratified by the privy council of Japan.

The Best Food For Children?

is worthy every parent's study; not only what they can eat, but what gives the most nourishment. No children are better, and most are worse, for eating lard-cooked food. If, however, their food is prepared with the healthful new vegetable shortening,

COTTOLENE

instead of lard, they can eat freely of the best food without danger to the digestive organs. You can easily verify this by a fair trial of Cottolene. Sold in 3 and 5 lb. pails by all grocers.

MORE KIND WORDS.

Bro. Waterman of the Athol Chronicle Comments at Length.

Mrs. Elizabeth Green has sold her interest in the plant of the Quincy PATRIOT to Mr. George W. Prescott, with whom she has been associated in business under the firm name of Green & Prescott, printers and publishers, for a great many years. When Mrs. Green first entered the field of journalism, there were but few, if any, of her sex engaged on the local or editorial staff of either daily or weekly papers.

After a while the firm of Green & Prescott was formed, and continued much longer than the average of business firms. Both members of the firm were competent in their respective places, both were willing workers, and success crowned their efforts. Now that Mrs. Green has thought best to retire from the firm, we congratulate Bro. Prescott on becoming the sole owner of so desirable a piece of newspaper property, the more so as its high value is largely due to his good management.

Mr. Prescott has taken his son into company with him, and hereafter the Quincy PATRIOT, the oldest weekly paper in Norfolk County, the Quincy DAILY LEDGER, and other publications, will be printed and published under the firm name of George W. Prescott & Son. The junior Prescott, is a a "chip of the old block," cradled in the printing office, and like his father, a practical printer as well as a thorough newspaper man. Bro. Prescott is fortunate in having a daughter as well a son to assist him—Miss Annie L., a young lady of considerable literary talent,—and she will have charge of certain departments of the PATRIOT. The *Chronicle* extends its congratulations to the new firm of Geo. W. Prescott & Son, and its best wishes for the continued success of the PATRIOT and its offsprings. Mrs. Green in the early history of the Massachusetts Press Association, became a member, and afterward a member of the Suburban Press Association. Those who so often enjoyed her agreeable company on the pleasant annual re-unions of the Associations, while regretting her retirement, will wish her much happiness in her declining years.

Young Men's Christian Association.

The talk on "Real Estate," announced for Thursday evening, has been postponed.

The district conference of the Women's auxiliary will be held at Brockton Friday. A number of Quincy members will attend.

The talk on the "Glandular System" by Dr. Johnson this evening will be of unusual interest to all young men.

The attendance at the Congress Tuesday evening was small, but the discussions were of more than usual interest. Mr. D. King spoke in favor of the "Income Tax," and Mr. W. P. Bailey opposed it. Messrs. Pinkham, Branch, Holden, Sparrow and Colton also participated in the discussions.

THE RECOUNT TODAY.

Mayor Hodges Majority Reduced Two In Ward One.

Some Changes in the Votes for Councilman-at-Large--Johnson Has Lost,

The recount of the vote at the city election for Mayor, Councilman-at-large and Councilmen from Ward Three, was begun at City Hall this morning at nine o'clock by the Board of Registrars, Messrs. Pratt, Moynihan, Marsh and Keith.

The result of the election count for these candidates was as follows:—The majority for Mr. Hodges being but 30, that of Mr. Johnson 32, and Mr. Falconer but 1.

*Elected by returns.

Mayor Hodges was not represented by legal talent. Candidate Moxon had Lawyer Powers of Hyde Park to look after his interests. Councilman Johnson was present in his interests, and also President Fairbanks of the Republican City Committee. Candidates Grindell and Falconer of Ward Three were also represented, the former personally and the latter by Mr. Swingle. City Messenger Tirrell was on duty and also representatives of the press, and interested citizens dropped in from time to time.

The recount begun with Ward One and the first change came in block three. Candidates Johnson and Bigelow each lost one and Candidate Shackley gained them both.

Many say that a recount is just as liable to be wrong as the election count but these people do not understand the circumstances. Those who make the recount have the tally sheets for each block of fifty votes and if both counts tally it is reasonable to suppose the first count was right. If the two counts differ, a search is made for the discrepancy and those who make the recount make sure which has made the error. The recount should be absolutely correct.

In block four Mr. Shackley gained another at the expense of Mr. Blank.

Again in block five Mr. Shackley gained one and Mr. Bigelow also added one, while blank again suffered.

No change was found in blocks six and seven, but block eight raised the Republican hopes.

Hodges Loses Two

Or rather his majority is cut down two, as his total was one less and that for Mr. Moxon one larger.

In block nine Mr. Bigelow gained 2, and and there was a loss of 1 each for Messrs. Adams and Shackley.

In block ten, eleven and twelve completing Ward One, there was no change.

The election count and recount for Wards One and Two are given below. A comparison of Ward One shows gains for Anderson, Bigelow, Shackley and Sprague, and loses for Adams and Johnson.

The recount of votes in Ward Two was completed at 2 o'clock when adjournment was made for lunch. There was no change in the vote for Mayor but a number of minor changes in the vote for Councilmen-at-large.

In Ward Two there was one ballot where the voter evidently intended to vote for five Democratic Councilmen at Large, but instead of making a X against the names he made a figure 5. This ballot was objected to but was counted by the registras.

The Italian Voters.

Editors of the Daily Ledger.

Now that the election is over, I desire to place the Italians of Quincy before the citizens in the right light. The Italian voters take honor in their citizenship and the right that has been given them to go to the ballot box, and they resent any reflection on their character and honest intentions. They were grossly misrepresented at the city election this year by one of their people. They are not controlled by one man, their votes are not for sale, neither does this man carry the Italian votes of Quincy in his vest pocket.

At a meeting of the Independent Electoral Club Sunday, December 9th inst., Nicolas Garbarino, the man who on investigation, the Quincy Electoral Globe found to be the author of these stories, was expelled.

I trust that you will give this space in your paper, as it will show the citizens of Quincy that the Italian residents will not allow to pass unnoticed anything that attacks their good citizenship.

Respectfully Yours,
JOHN GRIMALDI.

MAY ESCAPE PUNISHMENT.

Convicted City Official In a Conspiracy Case Makes a Confession.

HAVERHILL, Mass., Dec 11.—Henry H. Hoyt, one of the convicted aldermen in the "conspiracy case," has made a full confession of all matters connected with that business, which has been accepted by District Attorney Moody and will be used in case a new trial is granted, which may be the case, as the counsel for the defense has filed exceptions to the verdict of the jury.

There are other indictments against the alderman which may be tried. Meanwhile it is understood that Hoyt will not be punished. It is thought that Hoyt will be used as a government witness.

The confession has caused considerable commotion here. It is said that District Attorney Moody accepts the confession in order to make plain to the public that the verdict was absolutely correct and also that the full particulars of the matter may be made known to the public.

Sent to an Asylum.

DEDHAM, Mass., Dec. 11.—A hearing on the question of the sanity of Mrs. Rhoda V. Keefe and her son, James F. Keefe, was had before Judge Lilley yesterday. Mother and son were under indictment for making assaults with intent to kill and murder Henry B. Terry, a trial justice, and Andrew D. Rooney, a police officer, and the mother was further charged with making a like attempt on the life of Alexander Schwab, a police officer. Judge Lilley ordered them committed to the insane asylum at Taunton until further order of the court.

The Parson's Rebuke.

A mean man invited the village preacher to dine with him, but placed before the preacher only a dish of greens and corn bread.

"Will you say grace, parson?" asked the host.

"I will," replied the parson. "Lord, make us thankful for greens and corn bread, and put it into the heart of our brother to raise hogs next year!"—Atlanta Constitution.

Made Bold by His Brush.

Detaille, the French painter whose studies are all of military life, looks every inch a soldier. He is tall, slender and has a martial air. Detaille knows absolutely nothing of the life of a soldier except what he has read. At the age of 20 he was rather timid, but his character began to change as soon as he devoted his brush to military subjects.

The name of Lake Ontario was first noted as Skanodairo (beautiful lake). It was also, at various times and by different men, denominated Lac de Frontenac, Lac de Iroquois, and Lac de St. Louis. The Mohawks called it Cayndaraconi.

RECOUNT ORDER.

The City Council Instructs Board of Registrars to Count Votes.

Tho only absent member at the special meeting of the City Council held Tuesday was Councilman Litchfield.

A communication from the City Clerk was received stating that petitions had been filed for a recount in all the wards for Mayor and Councilmen-at-large and for Councilmen from Ward Three.

Councilman Robbins offered an order that the board of Registrars of Voters open the envelopes containing the ballots cast at the elecion held in the City of Quincy, Dec. 4, 1894, and determine the number of ballots for each of the candidates for Mayor and Councilmen-at-large in each ward, and for ward Councilmen in Ward Three.

Councilman Moxon said he felt that the Council was exceeding its duties in adopting the order, but upon advice of the City Solicitor he would move its adoption.

The order was then adopted, and at 7.43 the meeting adjourned.

Relief Corps Officers.

Paul Revere Woman's Relief Corps elected these officers Wednesday evening:

President.—Mrs. Isabelle Souther.
Senior Vice.—Mrs Almeda Gourd.
Junior Vice.—Mrs. Angie D. Loud.
Treasurer.—Mrs. Laura Cameron.
Chaplain.—Mrs. Lizzie W. Pratt.
Conductor.—Mrs. Farrell.

Representative. Mrs. Lizzie A. Monk.
Alternate, Mrs. C. Alice Litchfield.

Bigelow Street Fire.

The alarm from Box 35 at 8.15 Tuesday evening was rung in for a lively little blaze in a closet on the second floor of the house of W. W. Osborne on Bigelow street.

The fire was probably caused by an electric wire and as it was between the walls it was a stubborn one. It was however extinguished without the use of water by the department, although Mr. Osborne used some. He calls the damage about $200.

In responding to the alarm the leading horse on the steamer fell and that piece of apparatus was delayed somewhat.

Castle Square Theatre.

Last Monday evening at the Castle Square Theatre Mr. A. S. Lipman assumed the title role of Captain Paul and will play the part for the remainder of the engagement. Mr. Lipman is well and favorably known in Boston for the excellent work he has performed in the past and at present he is more than verifying the expectations of his friends. The character of Captain Paul is singularly fitted to Mr. Lipman's abilities.

Commencing last Monday evening, the scheme of running cars from various points specially for Castle Square theatre patrons, without expense to the patrons and without transfer was successfully begun, and the result was highly gratifying to the management. Quincy patrons can take a car at 7.36 at the Kneeland street depot and ride direct to theatre.

The Italian Voters.

To Editor Daily Ledger:

The Italian voters of this city who form the Italian Independent Electoral club, take means through your newspaper to notify the public, that they are independent of any political party; that they will always vote for those persons who will do more good in the municipal, state or governmental positions, and more especially to the laboring classes.

Furthermore, it notifies the public that the club or the Italian colony of this city has never been captained by Mr. Nicholas Garbarino (commoly called Billy, the Barber) and that he has never received the faculty to interview any political candidate. That the said Garbarino is not even a member of the club, nor can he be one, owing to his having violated one of its rules.

POPGUN TARIFF BILLS

May Yet Be Sprung by Their Supporters In the Senate.

SUGAR WILL COME UP FIRST

If Plans of Vest and Berry Are Carried Out.

WASHINGTON, Dec. 12.—There is a well-defined movement on the Democratic side of the senate to get up the supplemental tariff bills, notwithstanding the decision of the caucus of last week to give the preference to other measures and virtually to shelve the tariff bills.

Senators Vest and Berry are engineering this movement, and there were strong indications during the morning hour yesterday that they considered themselves strong enough to move. Absentees were sent for, and the senators interested were evidently on the qui vive.

SENATOR VEST.

The fact, however, that Senator Morrill had given notice of a speech cut them off in the morning hour, and at 2 o'clock the Nicaraguan canal bill was taken up as unfinished business, thus causing them to further postpone their efforts. The opponents of the bill express the opinion that it will be impossible to get the bills up.

It is understood that the sugar bill would have been given the preference if the tariff bill had obtained a hearing. It is now considered probable that there will be an effort today to displace the Nicaraguan bill with the sugar bill.

Congressional Doings.

The struggle over the bill to authorize railroad pooling was terminated by the passage of the bill by the decicisive vote of 166 to 110. The Cooper substitute which placed the entire control of the conditions of pooling in the hands of the interstate commerce commission and gave them absolute power in the matter of revoking pooling orders, was defeated, as were all subsequent efforts to amend and recommit it, and the bill passed as reported from the committee. Several attempts were made to defeat the bill by filibustering, but they, too, were unsuccessful.

The consideration of the Nicaragua canal bill was continued in the senate. Senator Dolph made a long speech in favor of the pending bill, in the course of which he advocated the abrogation of the Clayton-Bulwer treaty.

The venerable senator from Vermont (Mr. Morrill) made some remarks, in which he criticised the currency inflation bills reported adversely from the finance committee. The day closed with an executive session in which a large number of nominations were confirmed.

Seely Owns Up.

CHICAGO, Dec. 12.—The man arrested as Seely, the embezzling New York bank clerk, has confessed that he is the man wanted. United States Marshal Arnold made an effort to get possession of the prisoner on a telegram from Marshal McCarthy of New York, but Inspector Shea declined to yield him up. Shea said he was a bit fond of money himself, and expected to get a share of the reward of $6000 offered for Seely. He said that Macfarland, who gave the first information which led to the capture, and the men who brought Seely to the station, would share in the reward.

The Labor Congress.

DENVER, Dec. 12.—The delegates to the Federation of Labor left this city yesterday morning for a day's tour through Clear Creek canyon. A great deal of preliminary caucusing was done during the day, and it looks now as though there will be a spirited contest over the election of a president. Prescott is being put forward by the Gompers opposition, and it is now claimed that his following controls the majority of the votes represented by the delegates in attendance.

Carved His Visitor.

BANGOR, Me., Dec. 12.—While George Reynolds of Costigan was visiting Harvey Emery of this city last night, the latter became enraged at some remarks of Reynolds, and, seizing a big butcher knife, proceeded to carve Reynolds' face. Emery was locked up. Reynolds' wounds are painful but not fatal. Both men were drunk.

Liberal Won.

MONTREAL, Dec. 12.—The bye-election in Bonaventure county to fill the vacancy in the provincial house of assembly, caused by the death of ex-Premier Mercier, resulted in the election of F. M. Lemieux, Liberal, by a majority of 219 over Arsenault, Conservative.

Accounts Are Short.

BROOKLYN, Dec. 12.—Joseph T. Nightingale, who has been the secretary of the Long Island Building and Loan association since 1888, is short in his accounts about $6000 and has taken himself into hiding.

Caught on a Steamer.

ST. LOUIS, Dec. 12.—A telegram received by Chief of Police Harrigan from Natchez, Miss., states that Bernard Foglia, the New York wife murderer, has been arrested on the steamer Valley Queen.

Wants Tarsney's Seat.

WASHINGTON, Dec. 12.—R. T. Vanhorn, editor of The Kansas City Journal, has, through counsel, served notice on Representative Tarsney of his intention to contest the latter's seat in the house.

Passed the Four Score Mark.

WAYNE, Pa., Dec. 12.—Barnes Greeley, the last surviving brother of the great Horace Greeley, died at the old Greeley homestead in this town. He was 82 years of age.

TRIPLE MURDER.

Crazy Man's Wrath Led Him to Slaughter His Defenseless Family.

RIDGEWAY, Mo., Dec. 12.—The most horrible human butchery ever recorded in this section was committed near this city yesterday afternoon. David G. Spragg, in a fit of insanity, murdered his wife and two children and mortally wounded his two stepchildren with a butcher knife. He then took his own life with a rifle.

The particulars of the butchery are learned from Dora Onstatt, a stepdaughter of Spragg. She is a child of 11 years, and, after eluding her stepfather's murderous grasp, escaped to neighbors and gave the alarm. Her statement is substantially as follows:

Spragg had been complaining all the morning of a raging headache, and his nearest neighbor, Mr. Meyers, was sent to Ridgeway for a physician. Soon after Meyers' departure, Spragg tied the hands of one child behind him, and deliberately cut his throat.

Mrs. Spragg ran into the room at this point and attempted to interfere. Spragg made a lunge at her. She ran into the yard, around the house and then into it again, closely followed by Spragg.

In the house he caught her and a desperate struggle ensued. He literally hacked her head and face into slices, and then cutting her head from her body, dragged her by the hair into the yard.

Covered with blood, and every minute becoming more frenzied, the human monster returned to the house again to continue his work. Dora, who was sick in bed, had climbed out of a window in the meantime and escaped.

When the people first began to arrive, they were deterred from entering by Spragg, who stood in the doorway with a loaded shotgun.

Finally Spragg locked the door, and it was then that he butchered his stepchildren. Just as the crowd was preparing to break into the house, two shots were heard, and when the door was finally forced open Spragg was dead and a terrible scene was presented to view. The two stepchildren, who were still alive, were cared for, but cannot recover.

DELIBERATELY SCUTTLED.

Whaling Bark Sunk by Her Crew In Order to Defraud Insurance Companies.

NEW BEDFORD, Mass., Dec. 12.—Captain E. J. Reed of the whaling bark Petrel of this port, in a letter just received here, relates the incidents of the destruction of the Mysterious Star, of Liverpool, by her crew. He secured before the vessel sank evidence which convinces him that the sinking of the craft was carefully planned and premeditated.

On Oct. 22, in the vicinity of the Cape Verde islands, while on a whaling cruise, Captain Reed saw the boats of a bark some distance away from his vessel lowered. From their actions his suspicions were aroused, and he ordered boats lowered, and endeavored to overtake them, without success. Becoming satisfied that something was wrong aboard the vessel, he went aboard the deserted bark.

She had been scuttled and would soon sink. Before deserting the craft the crew had taken nearly everything in the nature of documents and records. Captain Reed learned, from what papers were left, that the bark was bound for a Chilian port, loaded with coke; also, that she was heavily insured. The object of the crew was, presumably to sell the vessel to the insurance companies for considerable more than her full value, cargo included.

The Mysterious Star was of 362 tons burden and was built in Sunderland, England, in 1867. Her hailing port was Liverpool, and she was engaged by R. T. Telford.

A Grave Foreboding.

REYNOLDSVILLE, Pa., Dec. 12.—The coal miners in the coal fields in this vicinity continued at work under protest against a reduction of 5 per cent until Saturday, when a notice called on the men to demand the 5 per cent on Jan. 1. The reduction is now felt to be one which may result in a strike about that time. This strike would affect from 12,000 to 14,000 miners.

A Cranky Letter.

NEWPORT, R. I., Dec. 12.—Mrs. F. W. Vanderbilt has received an anonymous letter, charging her with encouraging anarchy in giving newsboys a Thanksgiving dinner. It says the boys would cut her throat when they grow up.

IS ANXIOUS TO RACE.

Dunraven Not Particularly Desirous of Securing the America's Cup.

SOME FURTHER CORRESPONDENCE

Between Yachtsmen Concerning Main Points at Issue.

LONDON, Dec. 12.—Lord Dunraven was seen last night and showed the cabled interview with Commodore Smith, chairman of the America's cup committee of the New York Yacht club.

Lord Dunraven said: "Commodore Smith is perfectly correct in what he says about the New York Yacht club being willing to advance the dates, and in view of his statement I regard that the difficulty is quite settled. It could never have been a real difficulty, as if I can build and fit out our yacht for trials here, then refit her for the Atlantic passage and again refit her for the cup races, surely the New York Yacht club people would not find difficulty in merely building and fitting out a defending yacht in time to race before October.

"This question of time alone has troubled me. I have the greatest objections to racing after the end of September. Now that that trouble is over, the only stumbling block seems to be the question of the receipt for the cup. This matter never entered my mind when I decided to challenge, and Mr. Grant, secretary of the Royal Yacht squadron, wrote the challenge in the same form as that sent in 1892, and posted it without a suspicion that it would not be accepted.

"If the New York club insists that this question of receipt shall be settled before the challenge is accepted, at least a month will transpire before a meeting of the Royal Yacht squadron can be held, and time will thus be dallied away. Anyhow, the matter quite concerns the two clubs and not me. I have sent Commodore Smith's remarks, in regard to this matter, to the Royal Yacht squadron, which will deal with them.

"I am only anxious that the New York Yacht club accept the challenge in order to enable me to commence the building of the new yacht, and that it let the receipt matter stand over for settlement between the two clubs."

Lord Dunraven concluded by saying: "You can tell the people on the other side that all I want is to be allowed to race. If I win I do not care whether they give me the cup or not."

The American End.

NEW YORK, Dec. 12.—The letter from the America's cup committee of the New York Yacht club to Lord Dunraven, which left today by the steamship New York, and which is explanatory of the cable reply to Lord Dunraven's challenge, is as follows:

"My Lord—The committee have to acknowledge the receipt of your letter of Dec. 1. We think it much better to leave all unsettled minor questions until you arrive in this country, with the assurance that your views will receive every consideration.

"While we cannot consent to racing at Marblehead or Newport, we are convinced that you overestimate their advantages. The accessibility of the starting point, a great convenience at either of these places, would, in our opinion, increase the number of accompanying vessels, and neither course would be so clear or free from tides as that of New York.

"We much regret that you were not earlier to announce your intention of challenging, so that we could have had ample time to arrange terms. The correspondence in 1892 ended very hurriedly, and can hardly be said to have reached a definite and satisfactory conclusion. The committee at that time held that the challenge was satisfactory only if explained by your letters, and you, though consenting to this for yourself, distinctly disavowed any authority for the squadron to consider your letters as explanatory of the challenge.

Doubts Entertained.

"For this reason, we much regret that the present challenge does not state the few necessary primary conditions without reference to previous negotiations. The indefiniteness as to the right to use your letters in 1892 as explanatory meant uncertainty as to the terms of holding the cup if won by you, and this brings us back to the point on which you insisted in 1892, namely, that the challenger should limit his rights, as a winner, by a previous covenant with the New York Yacht club.

"We cannot but believe that much difficulty will be removed, could you be persuaded to take our point of view on this question. We cannot understand why, with power to make any agreements desired for a match, a holder of the cup, the squadron for example, should expect us to covenant that they must do what they can do and want to do, and why, after all the correspondence which has taken place there should be any fear, in the absence of such an agreement with us, of even appearing to expect, as the party challenged, terms different from those under which you challenged, as expressed in your letter of Nov. 7, 1892.

"Now, we think that as any challenging club can bind itself in honor to all interested parties by announcing what it will or will not exact in the event of winning the cup, we should not be expected to become parties to any agreement as to future terms to which our consent is in no way requisite.

"We have gone into this subject somewhat at length, as we consider that the holding of the cup is fully and liberally provided for in the deed, and do not consider any additional stipulations proper or permissible.

"We endeavored in the dispatch sent you yesterday by cable to remove any possible cause for misunderstanding, should you win the America's cup from us next year, and to express this in the simplest and most direct form."

Old Concern Burned Out.

OSHAWA, Ont., Dec. 12.—The Ontario malleable iron works were totally destroyed by fire yesterday. It was the oldest and most important industry of tais kind in Canada. Loss, $120,000.

BARGAINS IN STAPLE MERCHANDISE.

IN CONNECTION WITH THIS SALE WE MAKE A

SPECIAL OFFER.

This Will Tell You All About It.

EVERY CUSTOMER PRESENTED WITH A

Handsome Souvenir.

Owing to the value of our Souvenirs, we must ask you to purchase $2.00 worth or upwards.

After long negotiations, we have just succeeded in purchasing several thousand ART PICTURES of the very artistic excellence. These we have put into beautiful torchon mats or frames, the whole measuring 14x21½ inches. They are truly beautiful in subjects and coloring, and should not be confounded with cheap chromos, for they are worthy of a place in the homes of refined people. Art stores would ask from one to three dollars for similar pictures—for that reason our great offer will seem all the more wonderful, and must become very popular. Among the great variety our customers may choose from, are child's faces, that look alive; dogs and kittens, too cute for anything; animals that seem in the flesh; water, floral, landscape and fruit pieces, that bring physical nature right into your home. They are truly beautiful, exquisite, delicate and true to nature.

Call and see the Art Pictures now on exhibition in the windows before purchasing.

REPUBLICANS IN CONTROL.

Democrats Get a Surprise at Boston. Other Municipal Elections.

BOSTON, Dec. 12.—Boston's election has resulted in some remarkable surprises. It was uneventful but for the heavy vote cast and the equally heavy defection of Democrats from Peabody to Curtis. Curtis' Republican plurality in the city is estimated at about 3000. The Democrats elected five aldermen and the Republicans seven, thus giving them control of the board. The council is Democratic. The city voted overwhelmingly for license.

Ten cities outside of Boston held city elections and chose new city governments. The newest city in the commonwealth, young Beverly, elected the venerable John I. Baker mayor by a unanimous vote, and put its face against license.

Cambridge swept Mayor Bancroft into office for another term for his faithful service in the past, and stemmed the tide for license almost as strongly as last year.

Chelsea put an approving endorsement upon Mayor Carter, and elected him for another term to that office.

Newburyport re-elected Mayor Orrin J. Gurney for his fourth term, and elected a solid Republican city council.

Medford took the palm for exciting elections. Baxter E. Perry was elected mayor by the plurality of one vote, and is in danger of a recount. This is the narrowest margin anywhere in the commonwealth this year. Medford reversed her position on license, and went for no-license very heavily.

Salem went for license, after two years of no-license, and re-elected Mayor Turner.

In Lowell it will be Mayor Courtney next year. The candidate who was connected by common report with the A. P. A. movement was defeated by several hundred votes. It is said that a great many Republicans voted with the Democrats rather than help along the A. P. A. cause, and these votes swelled the Democratic vote sufficiently to elect Mr. Courtney.

The following shows the general result in a nutshell:

Kin-Chow Taken.

TIEN-TSIN, Dec. 12.—The Japanese have landed in force and captured Kin-Chow, 50 miles north of Shan-Hai-Kwan. A dispatch from Antong says that a Japanese division on Dec. 10 defeated the Chinese near Kin-Kwa-Hu. The Chinese lost 100 killed and a large number wounded. The Japanese, whose loss was only 40, killed and wounded, captured two banners, 10 prisoners and a large number of rifles. Four thousand Chinese were engaged. The Chinese fled toward Tso-Hun-Kou.

A Munificent Bequest.

BOSTON, Dec. 12.—The Massachusetts general hospital is to receive $100,000 under the will of Thomas E. Proctor. This sum is to be held in trust until the principal and interest reach the amount of $400,000, when it is to be expended in erecting a suitable building on the new grounds of the McLean Asylum for the Insane at Waverly, to be devoted to that department of the hospital. The rest of his bequests are to kin and friends.

Not Owned by the Boston and Maine.

GLOUCESTER, Mass., Dec. 12.—The report which was recently published that the Boston and Maine railroad had purchased the franchise of the Gloucester, Essex and Beverly street railway is denied by President Ferguson of the street railway. He says the company has no intention of selling and are to begin active work on the road in the early spring.

Libel Suit Settled.

GLOUCESTER, Mass., Dec. 12.—The libel against the schooner Alice T. Boardman of Calais, Me., by the owners of the schooner Hattie M. Graham of this port, has been settled by agreement for $900. The Boardman, lumber laden, was abandoned 75 miles off Highland Light, Oct. 6, and was picked up by the Graham and towed to this port.

Killed and Cremated.

WASHINGTON, Dec. 12.—Indian Agent Estumvello of the Mission School agency in southern California reports the murder of Mrs. Mary J. Platt, matron of the Pechango school. Two Indian suspects are now under arrest. All clews were destroyed by piling wood on Mrs. Platt's remains, in Indian fashion, and firing the whole.

Queer Financiering.

ST. JOHN'S, N. F., Dec. 12.—It is stated that two more of the largest concerns in this city are to make assignments. It is feared that the Union bank will be unable to stand the strain. The Commercial bank will be wound up. One merchant's indebtedness to the bank was over $300,000, a sum greater than the bank's capital stock.

A Disgruntled Politician.

OTTAWA, Dec. 12.—Honore Robillard, senior Conservative member of parliament for Ottawa city, resigned his seat yesterday. He was disgusted with the patronage system, he said, his chief complaint being that new men were placed in positions of trust, while older hands were overlooked.

Collided In a Tunnel.

CHICAGO, Dec. 12.—In a collision between cable cars in a tunnel last evening, two men were killed, seven more people were seriously injured and a score of others were more or less bruised. The cars were set on fire by the stoves, and for a time there was a fearful panic.

Again In Court.

OLATHE, Kan., Dec. 12.—The Little murder case, which has been postponed a number of times, came up today for a hearing. A. W. Little is a prominent Kansas City lawyer, and is on trial for shooting and killing J. P. Johnson two years ago.

A Felonious Offense.

ALBANY, Dec. 12.—The court of appeals affirmed the conviction of Eugene A. Marvin of printing in his establishment green goods circulars. The decision holds that the circular is felonious, even if it does not on its face refer to counterfeit money.

The West Quincy branch of the Thomas Crane Public library has been moved from Dobles store to the post office.

Miss Fairbanks will give an exhibition of china and water colors at her home on Central avenue, Wollaston, on Tuesday and Wednesday afternoons and evenings of next week.

Mrs. Thos. W. Carter met with a serious accident on Monday evening. While walking along the sidewalk in front of Whall's apothecary store, she fell on the ice and broke her arm. Dr. J. A. Gordon set the bone.

One can hardly keep house without the Old Farmers Almanac. Everybody desires to keep posted on the sun, the tides, the moon, and the many other features which make this book a necessity. For sale at Souther's news stand.

Saville & Jones is one of Quincy's long established reliable business houses, with whom it is a pleasure to trade. They are "up to date" and so are their goods, and they have a large Christmas stock of useful gifts which should be inspected. Note their page advertisement.

Mrs. Green has sold her interest in the Quincy PATRIOT to George W. Prescott and Son, and it will be issued under their management hereafter. Since 1837 the paper has followed the pathway of success. We extend our good wishes to Editors Prescott and the PATRIOT.

The funeral of Miss Mabel Perkins was held from the residence of C. W. Guy on Butler road, Tuesday at 9.30 A large number attended including many high school pupils, which school she attended. Many beautiful floral tributes were made, including a large piliar of roses. The interment was at Peabody.

Christmas Numbers.

Really beautiful Christmas poems are rare, and nothing more exquisite than "Child Jesus' Birth-Night, weich opens the Christmas *Babyland*, has appeared in the magazines, old or young, for years. It is by Ella Farman Pratt. "A New King Baby" gives a lovely picture of the little English Prince Edward of York, and another of the Queen Victoria family cradle which she has presented to her great-grand-child.

The Christmas *Little Men and Women* opens notably, with a fanciful tale by Mary E. Wilkins. "Jimmie Scarecrow's Christmas" is in Miss Wilkins' happiest vein, and will be enjoyed by young and old alike. The publishers pleasantiy announce that "the story is so delightfully long that it will run over into the New Year number."

TODAY'S COURT.

The continued case of Stephen Donahoe of Weymouth for being drunk came up this morning. Donahoe was discharged on payment of costs, which amounted to $5.51.

The case of David Sabni of Weymouth for disturbing the peace was continued for three weeks.

John O'Leary of Brockton was arraigned for cruelty to a horse at Randolph. Case continued till Saturday.

A Hearing.

A hearing was held on the case of Theodore Weld of Hyde Park, which was to determine the question as to his sanity, and whether he should be committed to an asylum.

Dis. Partrige and Holmes testified they had examined Mr. Weld on Nov, 10th and found an inability of Mr. Weld to carry on a connected conversation. There was also a lapse of memory in regard to things he should have remembered. They had previous to this examination noticed a peculiar gait of Mr Weld and his hesitancy of speech. Dr. Alvin V. Holme's testimony agreed with that of Dr. Partridge.

David Higgins, the petitioner in the case, testified as to Weld's eccentricities which led to the filing of the petition.

The hearing was then continued.

Twelfth Night In Scotland.

And at last all winds up with Twelfth Night itself, and "alms" and spicy cake are given in the daytime to all the children that come for them singing:

Hogmany, trollolay,
Give us your white bread and none of your gray.

And in the evening there are games; gay games of snap dragon, where raisins are snatched from the flames of burning brandy, and impromptu charades, and there shall be conjuring and fortune telling and riddles, and perhaps a little play will be given, and stately historical tableaux, and in their pictorial senses break and eat the Twelfth Night cake. All the little children come in, bearing a lighted taper to be stuck in the top of it. The hidden ring is found with much sport, and all drink the wassail bowl, no longer compounded of hot wines and spices, but freshly foaming cider taken through straws or the stems of new clay pipes. And then the whole company say good night, all going our separate ways, singing:

Yule's come and Yule's gone,
An we hae feasted weel.
Sae Jock maun to his flail agin,
An Jenny to her wheel.

English Bread Sauce For Fowl.

Put a cupful of bread crumbs into half a pint of milk, add a clove of garlic or a small onion left whole, a blade of mace, a lump of butter about the size of a pecan nut, pepper and salt. Let the mixture boil until it thickens to the consistency of drawn butter. The onion and mace are removed when it is put into the sauce tureen. It is much daintier and more wholesome than gravy.

Cold boiled ham is always served with roast fowl in England, and those who have so eaten it approve highly of the combination.—Chicago Record.

IS SOLID FOR SILVER.

Voorhees Has Come Out Squarely For Free Coinage.

ANOTHER ONSLAUGHT FROM HILL

Expected When the Income Tax Reaches the Senate.

WASHINGTON, Dec. 11.—Senator Voorhees, chairman of the committee on finance, furnished an interview yesterday which in some degree confirmed the report which has been current about the Capitol since the beginning of the session that he would seek to secure legislation favorable to silver before the final adjournment of the Fifty-third congress. He said:

"I have no change of views to express. Silver is the money of the constitution, and so specified in that great instrument, and should be coined on the same terms that gold is coined, 'without discrimination against either metal and without charge for mintage.'

"I voted against the passage of the famous Sherman act, and labored to secure its repeal, because it was the enemy of silver coinage. The free coinage of gold means the free coinage of silver, to my mind. The plain working people have been benefited in the last hundred years more by silver money than by gold money, and the whining cant of sordid avarice which we now hear, that gold is 'sound money' and silver is not, has the profound contempt of every man familiar with the history and the developments of his country.

"As to the parity of the two metals when coined, even the small children of finance know that the purchasing power of a dollar is not fixed by the quality or quantity of the material which composes it, but by the law which makes it a legal tender in the payment of debts. When silver is coined, therefore, at the ratio of 16 to 1 in gold, or at any other ratio, and clothed with the authority of law, it has never failed to be on a par with gold in its purchasing and its debt-paying power.

"The coinage act of 1837 proved itself a wise and safe measure, and I believe that its re-enactment now would be an excellent thing. I care but little for the attitude of foreign nations on this subject. We are not subject to their dictation, and for their disapproval we may compensate ourselves with the approval of our own people."

Senator Voorhees also announced himself in favor of the amendment of the rules of the senate so as to provide for cloture and against further effort at tariff legislation at the present time.

Hill Primed For Battle.

While the appropriation to carry out the provisions of the income tax will be strongly antagonized in the house and efforts made to repeal the law, there is very little chance of anything being done in that body to compass its defeat.

There is still a very large majority on the Democratic side in favor of enforcing this tax, but when it reaches the senate there is likely to be some interesting acrimonious contention. Senator Hill, who bitterly antagonized this tax at every stage of its progress, is understood to be arranging his plans for another onslaught when it comes before the senate.

He has thus far refused to disclose what that plan is, but he is confident that, with co-operation of Republicans, he will be able to defeat an appropriation to carry it out. Secretary Carlisle and friends of the administration, however, do not appear to give themselves any concern in regard to the matter, and are going ahead making their arrangements for carrying out and enforcing its collection. The secretary has been assured by members of the finance and appropriation committees in the senate that an appropriation will be passed in ample time to enforce the tax.

Congressional Doings.

The house devoted yesterday, under the rules, to business reported from the District of Columbia committee. Several bills of purely local importance were passed, and a resolution was adopted setting aside the third Saturday in January for eulogies on the character of Marcus D. Lisle, late a representative from the Tenth Kentucky district. A joint resolution was also passed to pay the officers and employes of the house and senate their salary for the present month on Dec. 20.

The feature of the day was a speech of about 40 minutes by Champ Clark (Dem., Mo.). He had his time extended several times, and made a rambling talk on tariff, his late defeat and many other matters, being frequently interrupted by Republicans, who gibed and laughed at his statements. The latter part of his remarks had no bearing on the subject under discussion. After passing a few local bills, the house adjourned.

Senator Morgan occupied the attention of the senate for two hours in a speech in favor of the bill providing for the construction of the Nicaraguan canal. He expressed himself favorable to government ownership in the enterprise, and declared that prompt action should be taken, as to abandon the project now would be a dereliction to the people, who would not forget.

Senator Call introduced two resolutions of interest. One requested the government to commence negotiations with Spain for the recognition of Cuba's independence and for the guarantee by the United States of the payment of such a sum as shall be agreed upon between the United States and Spain for Spain's relinquishment of her control of Cuba. The other resolution declared that the interests of the world require that all governments shall unite in negotiating with China and Japan for a settlement of the war.

Banking and Currency.

Much interest centered in the committee on ways and means room yesterday, where Secretary Carlisle and Comptroller Eckels appeared by invitation before the house committee on banking and currency to explain and advocate the new banking plan prepared by those two and endorsed in the president's message. Secretary Carlisle was examined and cross-examined by the members of the committee. He had a draft of a bill in his possession, but after his examination concluded to revise it in certain particulars before submitting it to the committee. Mr. Carlisle and Mr. Eckels differed somewhat as to the details of the proposed banking scheme, but agreed upon the principles to govern it.

Lady Rosebery's Necklace.

Some years ago an old Frenchwoman died in a poor part of Dublin, and her little effects were put up for auction. Among other odds and ends was a necklace of dirty looking green stones, which did not attract much attention. However, a shrewd pair of Jews thought there might be "money in it" and decided on purchasing, clubbing together £5 for the purpose.

On taking it to a well known jeweler he promptly offered £1,500, which sum they refused, and sold the necklace of purest emeralds for £7,000 in London, where Lord Rosebery on his marriage purchased it for something like £20,000.

The old Frenchwoman's mother had been attached to the court of France, and the emeralds had once formed part of the crown jewels.—London Answers.

ANOTHER ELECTION NECESSARY.

To Fill Vacancy Caused by a Tie for Ward Three Councilmen.

Recount for Mayor and Councilmen-at-Large Not Completed But No Change Expected.

The Board of Registrars have reached the last ward in the recount of the votes of Mayor and Councilmen-at-large, but were enjoying dinner at City Hall when the DAILY LEDGER went to press and the full result cannot be given in this edition.

Mayor Hodges majority still stands at 28 and that is where it is likely to remain.

The standing of the Councilmen at large is unknown by the recount, as the Registrars have not made a final summary of Ward Three, Four, Five or Six.

In most every ward some changes have been made, and Mr. Johnson is known to have lost some and Mr. Anderson has gained. How they balance is a mystery.

The Registrars of Voters worked all day Wednesday on the recount, and at 6 o'clock had completed three wards, at which time they adjourned until this morning.

In the three wards counted the only change in the Mayor's vote was in Ward One, which as noted in Wednesday's LEDGER, reduced the majority of Mr. Hodges by two.

There were however a number of minor changes in vote for Councilmen at large, but as they have not added up the totals in all of the wards counted, just what the changes are, is not known, but the result will not probably differ from that announced the day after the election.

In Ward Four there were no disputed ballots and there was no change in the head of the ticket. In the Councilmen-a large there were several minor changes.

In Ward Five there was one disputed ballot. On this ballot there was a faint cross against the name of Mr. Moxon, At the first look the ballot would be counted blank but a second look showed the cross. The election officers called it a blank. With the Registrars the two Democratic members called it a blank, while the two Republican members called it for Moxon. It was finally decided to call it a blank.

Recount for Mayor.

	—HODGES.— First Count.	The Recount.	—MOXON.— First Count.	The Recou't
Ward One,	308	307	264	265
Ward Two,	281	282	206	206
Ward Three,	359	359	281	281
Ward Four, 1—	220	220	109	109
2—	178	178	164	164
Ward Five,	110	110	285	285
Ward Six,	121	009	238	000
Total,	1577	0000	1547	0000

The recount of the vote for Councilmen from Ward Three resulted in some changes. Grindell and Clark each gained one vote and Lennon lost a vote. This makes a tie between Messrs. Clark and Falconer and another election will be necessary.

The vote gained by Mr. Clark was a peculiar one and there is a difference of opinion as to whether it should be counted or not. The voter had a method of his own for marking the ballot and as it was the first one of the kind ever noted he should have it patented. The voter instead of making the required X to designate who he desired to vote for, made five straight marks, IIIII, against five Councilmen at large and against the name of Mr. Clark for Ward Councilman and these were all he voted for.

The election officers called it a defective ballot and threw it out but the Registrars counted it which made the tie.

Lawyer Powers who looked after Mr. Moxon's interest, and is an authority on the Australian system, says that the ballot should not have been counted, but the Registrars argued that the intent of the voter was evident and it was counted.

WEST QUINCY'S DANGER.

People Living Over a Veritable Cesspool and Epidemic Liable.

Editors of the Daily Ledger.

Right in the very business portion of Ward Four, and not more than fifty yards from the Willard school house, stands a large business structure, known as Farnum's Block. On the ground floor are three stores, one used for the sale of confectionery, cigars, etc., another as a public restaurant, and the third as a laundry. The second floor contains a number of sleeping apartments, the third floor is used as a public hall, while the basement is fitted with a steam-engine and machinery for the manufacture of ice cream in the summer time. In this basement are stored vegetables and other things for the use of the restaurant above. Everyone will see that it is a very public place and that a great many persons frequent the building every day.

In a place of this description, and with diphtheria raging around us, rendering necessary the closing and disinfecting of public schools, absolute cleanliness should prevail. But what do we find?

A visit to the basement reveals a horrible sight. The floor is flooded to the depth of a foot with sewage from an adjacent cesspool, impregnating the atmosphere with disease-breeding germs, and rendering the building an unfit habitation for any human being.

The residents of Quincy will be surprised to learn that this condition of affairs has existed for months. It is a wonder that an epidemic has not broken out and swept away half of our population.

Appeals have been made to the agents of the building, to the inspector and other members of the Board of Health, and, on two occasions to Mayor Hodges. This is the second time it has been noticed by the LEDGER, and, we trust in the interest of decency and good health that something will be done immediately to remove this nuisance from our midst.

No one appears to know by whose authority the place can be purified and, if the above named officials are powerless to effect a change in the sanitary conditions of the place, we would like to be informed to whom we can next appeal.

Yours for health,
T. L. WILLIAMS.

POLISHED CHIPS.

A new monument to the memory of the great Southern statesman, John C. Calhoun, is to be erected in Charleston, S. C., to take the place of the one unveiled with elaborate exercises in that city seven years ago. This new monument is the outcome of considerable dissatisfaction regarding the artistic merits of the present one. Indeed, at the time it was dedicated, it was said in the correspondence to The New York Times: "It might easily have been a more artistic work, and some severe criticisms have been made upon it." The old one is to be completely demolished, bronze figures and all. The granite pedestal alone will be left, and upon this a tall, graceful column of granite will be erected, to be surmounted by a thirteen-foot bronze statue of the famous advocate of States' rights and nullification.—New York Times.

At a regular meeting of Gregg Post at Bellefonte, Pa., the other night with Gen. James A. Beaver as chairman, John C. Miller, S. H. Williams, James Harris and William T. Fitzgerald were appointed a committee on the Curtin monument. The Centre County Veteran Club starts the fund with a subscription of $500, and the committee is now ready to receive aid from any and all soldiers' organizations in the State that wish to assist in memorializing the "Old War Governor" in marble.

The body of Gen. John C. Fremont, the famous old "Pathfinder," and the Republican party's first candidate for President of the United States has been removed to its final resting place. The spot selected was in the Rockland Cemetery, near Sparkill, N. Y. Gen. Fremont died on July 13, 1890. The design for the proposed monument was prepared by J. Massey Rhind, and is to bear the sign of the cross, as desired by Mrs. Fremont, in recognition of Gen. Fremont's custom of making his discoveries in that way and of the reverence in which he held the emblem. The monument will be erected either by the widow or by the California pioneers. It will be of granite with the wreath and inscription.—New York Sun.

Mr. John W. Rose of this city is playing in "Paul Kauvar" at the Bowdoin Square Theatre this week, and is receiving favorable notice from the press:

The Journal says: "To Mr. John W. Rose, whose comedy part of the character Dodolphe was very funny, belong the honors."

The Herald says: "In the part of Dodolphe Potin, Mr. John W. Rose does an eccentric bit of acting, which was well received. In this part lies about all the humor in the piece, and Mr. Rose is quick to make the most of whatever chances there may be."

COMMENT ON the "greater Boston" plan or the federation scheme is hardly necessary, as neither will amount to much this year or next. Metropolitan commissions created from time to time by the Legislature can secure joint action on sewers, parks, water, etc., as is found desirable. They have done much in this direction already, but somehow the towns south of Boston have not been favored like those on the north. The latter are in a Metropolitan sewerage district while Quincy is not only out in the cold but her shores have to take the sewage of those favored.

Why is not Quincy included in the sewerage district, as well as Milton, Hyde Park, Brookline, Newton, Watertown, Waltham, Belmont, Cambridge, Somerville, Arlington, Medford, Everett, Chelsea, Winthrop, Malden, Melrose, Stoneham, Winchester and Woburn?

But we are in one Metropolitan district, that of parks. The help of Quincy was wanted to pay for the expensive reservations.

The greater Boston plan should be annexation or no annexation. At present annexation does not seem desirable, and it would be better to wait until such time as it is.

THE PETITION of Mr. Clark for a recount was most unwise from a political standpoint. Had he been successful in being counted in, it would only have displaced a Republican and the party strength would have remained the same. The results in a tie and the chances are that there will be another Democratic Councilman. Special elections generally result that way.

Owing to the overwhelming Republican majority it matters little in this case whether the man elected is a Republican or Democrat, as the Republicans will have not only a majority but two-thirds of the Council of 1895. It is a grand chance to elect the best man, the man who will give the city the best service.

A RECOUNT in Chicopee made a change of 46 votes for Mayor, and Andrew Gale, the Republican, is elected in place of Mr. Mellen, who by the election count had a plurality of 10. The error was all in one block of fifty votes; 35 votes counted for Mellen were cast for Gale, and 11 counted for Gale were cast for Mellen.

THE YOUNGEST city in the commonwealth has the oldest man for Mayor. Beverly unanimously elected John I. Baker who was born in 1812. Mayor-elect Perry of Medford was born in 1826, and Mayor-elect Marsh of Worcester in 1836.

BIGELOW STREET has had its first fire and residents in the vicinity of Faxon hall realize the more the need of a fire-alarm box.

EVERETT ALSO has a baker for Mayor. Mr. Cate is also a heavy taxpayer and a Mason.

CHURCH WEDDING.

Miss Clara Louise Hight of Ashmont becomes Mrs. Charles A. Hall of Atlantic.

All Saints' church at Ashmont was the scene Wednesday evening of a brilliant wedding in which Dorchester, Quincy and Boston people were interested. It was beautifully decorated for the occasion with palms and white pinks.

Miss Clara Louise Hight, the bride, is the daughter of Mr. and Mrs. George W. Hight of Ashmont, and the groom, Mr. Charles A. Hall is a well-known young man of Atlantic. The bride was gowned in ivory white satin Duchess and carried bride roses. Rev. C. T. Whittemore, pastor of the church, officiated and Mr. Percival A. Hall was best man.

The maid of honor, Miss Ellenor M. Lydecker of New York city, was attired in a white brocade satin with points. There were two bridemaids, Miss Florence L. Willey of Brockton and Miss Louise C. O'Brien of Abington, cousins of the bride.

The ushers were Mr. George V. Hight, Jr., Mr. William Hight of Ashmont, Mr. Alfred H. Nash of Abington, Mr. J. D. Gordon and Mr. Rufus R. Moxon of Quincy, and Mr. W. C. Smith of Boston.

Following the ceremony there was a pretty reception at No. 169 Walnut street, Neponset.

The Last of the Beer Episode in Ward Two is Not Yet.

The Republican Committee are determined to probe the charges that have been laid at their door, that they were responsible for the beer that was furnished in several of the wards of the city at the recent municipal election. At a meeting held Wednesday evening, the matter was discussed at length, after which the committee instructed President Fairbanks to proceed in the matter and employ the necessary counsel.

POETRY AND PROSE.

The High School Debate on Superiority—Pleasing Entertainment.

Mr. Northcott, the president, took the chair at the meeting of the Quincy High School debating club on Wednesday. Mr. Winlock, secretary, read his report.

Under unfinished business Mr. Mudgett gave a declamation. The board of decision on the last debate then retired. Mr. McIntyre, '96, gave the critic's report. The board of decision gave the victory to the affirmative side of the last debate.

The election of officers followed. These nominations were made:

For President,—Miss Cashman, Mr. Warshaw, Miss Bemis.

For Vice President,—Miss Briggs, Miss Emery, Miss Temple.

For Secretary,—Miss Pierce, Miss Sullivan.

For Treasurer,—Miss Jones, Miss Lowe.

The results will be reported next week.

The entertainment included:

Essay, "My Dreams," Mary Pitts; an interesting account of an interview with Æneas, the boy Ascanius, the heroes of mythology. An ingenious and well written essay.

Recitation, Miss Bryan. Given clearly.

Essay, "A ghost story," Miss Hay. A good essay.

The board of decision on the last debate appeared to arouse some opposition to their decision. Miss Greany, Miss Mary Sampson, and Miss Alice Sampson took part in the discussion. President Northcott declared the discussion out of order and proceeded with the entertainment.

Recitation, Miss Keating. A severe criticism on the effects of college education for girls.

Music, duet, Miss Flood and Miss Emery. A very pleasing duet. The voices of these young ladies blend beautifully. The duet was given with very delicate expression. Miss Bemis, '95 accompanied the singers with characteristic musical skill.

Essay, "The Adventures of a Diver," Mr. Winlock. A very interesting account of the strange life beneath the wave.

Recitation, Miss Lowe, '95. One of James Whitcomb Riley's poems. Received with applause.

Essay, "An Old Apple Tree," Miss Lowe. An excellent essay. The old apple tree tells its own story.

The debate followed: Resolved, That Poetry is Superior to Prose.

The speakers in the affirmative were: Miss Pierce, '95; Miss Pope, '95; Miss A. Sampson, '95; Miss M. Sampson, '95; Miss Sullivan, '95; Miss Thomas, '95.

In the negative,—Miss White, '95; Miss Temple, '95; Mr. Barry, '95; Miss Briggs, '96.

The debate was very contested. The decision was postponed.

A musical entertainment, banquet and dancing followed the business meeting.

Elected Officers.

The annual meeting of the Republican Editorial Association was held at the United States Hotel, Boston, at 2 o'clock yesterday afternoon. Officers were elected to serve during the next term as follows:

President,—William H. Cook of the Milford Journal.

Vice President,—Col. Albert Clarke, Home Market Bulletin.

Recording Secretary,—F. H. Miller, Hingham Journal.

Corresponding Secretary,—A. M. Bridgman, Brockton.

Treasurer,—J. O. Hayden, Somerville Journal.

Executive Committee,—W. H. Cook, Milford, Albert Clarke, Wellesley, F. H. Miller, Hingham, A. M. Bridgman, Brockton, R. S. Barrows, Jamaica Plain, George T. Newhall, Lynn Transcript, C. L. McCleary, Lowell Mail, C. S. Parker, Arlington Advocate, F. E. Beach, Southbridge Journal, L. W. Standish, Stoughton Sentinel.

A committee consisting of W. H. Cook, F. L. Almy, Edmund Anthony, Jr., E. A. Hall, and J. O. Hayden, was appointed to draft a bill to be presented to the next Legislature relative to a change and modification of the present libel laws.

Committees were also appointed to act in conjunction with committees from the Massachusetts Press Association, the Boston Press Clud and the Suburban Press Association at a hearing before the Legislative Committee.

A MYTH OF THE RHINE

VARIOUS VERSIONS OF THE ORIGIN OF CHRISTMAS TREES.

How the Custom of Decorating a Spruce Has Spread to All Christian Nations—A Legend of Martin Luther—Memories of Tiny Tapers and Sweet Surprises.

One may read in the folklore of the Rhine district of a mysterious tree that blooms only on the night before Christmas, and the old myth assures us we have only to go to a certain spot to find it all to be true. As the first authentic accounts of a Christmas gift tree are in the annals of this same Rhine neighborhood, may we not believe that the holy mystery supposed to be concealed in the blossoming tree was commemorated and perpetuated in the decoration of the Christmas spruce? At all events, it is in historical records of Strasburg from the year 1605 we first read of a real Christmas tree. The man who has left the record writes:

"During the Christmas holidays a spruce is set up in Strasburg homes, on which are hung horses of many colored paper, apples, consecrated wafers, clay cuckoos, sugar," etc.

The use of the tree spread very slowly during the 200 years following, and we next read of it in 1646 in a theological work called "Milk of the Catechism." This time it is not mentioned lovingly, but the author inveighs against its use in the home in these words:

"Among other frivolities with which more than with God's word the holy days are celebrated the Christmas spruce is found, which is set up in the houses and decorated with puppets and sweet things. Finally one shakes it, and so its blossoms fall. Whence comes this custom I know not. The whole thing is child's play. Better would it be if one allowed the children to keep holy day around that spiritual cedar tree, Christ Jesus."

Next we hear of it from the standpoint of the jurist in 1737. In a very learned treatise "On the Gifts Bestowed on Our Redeemer's Birthday" a jurist striving for position of docent at Wittenberg speaks of the candle decked Christmas tree, under whose boughs the gifts to the housefolk are spread, gifts whose justification he sees from a legal standpoint.

Late in the eighteenth century the tree was more frequently mentioned, and it was even the great Goethe who introduced it to the literary world in his "Sorrows of Werther." Goethe first saw a Christmas tree in 1765, when he was 16 years old, at the house of Theodor Korner's grandmother. He says, "It was hung with all kinds of sweets, mangers holding the Christ child, the Virgin Mary and Joseph standing beside the oxen, asses and lambs."

Do you remember Werther's visit to Lotte on the Sunday before Christmas, when he finds her alone, preparing packages of presents for her small brothers and sisters? Just as he, suspecting nothing, pours out his ecstasy over their friendship the door suddenly opens, and the Christmas tree bursts on his view, with its glimmering wax candles, its cakes and apples.

Germany's other idol, Schiller, does not himself write of any Christmas tree, but in a work by a friend of his we learn that at Christams time, 1789, he became betrothed to Lotte von Lengefeld and withdrew from an engagement to "pass the holidays under the Christmas tree" with a family in Jena in order to be with her.

The following Christmas he and his wife Lotte stood beneath a "brightly glowing tree" in their own home.

The first time the Christmas tree was enshrined in verse was in 1805, just 200 years from its first historic mention. From that year the custom of decorating a spruce at Christmas spread rapidly all over Germany until about 1830 it went over the border into France and was introduced in 1840 by Helen, duchess of Orleans, into the Tuileries. Now over 40,000 trees are decorated annually in France. The French people observe the custom with all their characteristic enthusiasm and warm piety. They have a very pretty way of protecting the roots of the tree and planting it again after the holidays are over.

The Christmas tree found its way into England through Prince Albert soon after his betrothal to Queen Victoria. A peculiar English custom is that of passing a small tree round the table after the Christmas dinner, from which each person plucks the gift previously placed there for him or her.

Nor are these the only countries to follow the Germans in their Christmas festival. In Italy, the Netherlands, Russia and Scandinavia the little ones are made happy by the blooming of the Christmas tree. Indeed an old German legend ascribes the origin of the custom to Sweden, whence it was introduced into Germany at the time of the Thirty Years' war. But this is only legendary and has no more claim to our belief than that other legend of Martin Luther taking a forest tree into his house and decking it with numerous lights to symbolize the glory of the starlit heavens.

In our own country the history of the Christmas tree is young, and although many foreigners think the only kind we have ever seen is one from which the poetic sentiment is fled, one made of iron and lighted by the pressing of a button with gas or electricity, we, who have our delightful memories of trimming the fragrant evergreen, of helping it blossom and bear fruit full of sweet surprises, and who have lighted the tiny tapers amid much merriment, not unmingled with tender awe at the thought of the starlight whose rays have beamed upon us since that first Christmas long ago—we can testify to the beauty, the poetry, the warm glowing love, surrounding our Christmas tree, which blooms perennial in our hearts long years after the mystery of hearts.—Boston Transcript.

WHAT THE MOON SAW.

A little blue eyed innocent
Out in the yards at play
Had chased, without a thought of wrong,
A mother hen away.

Her father spoke in earnest tones,
And grave the words he said,
While she, sad for her thoughtlessness,
Went to her little bed.

Again at night she sought the yards,
Fearless of ghosts or owls,
Where, upon porch or nest or tree,
Slumbered the precious fowls.

When they with terrifying noise
Flew out and off, all wild,
The master sought to know the cause
And met his pantin child.

"Father, I came to kiss the hen,"
She said in her sweet way,
"And tell her I was sorry 'cause
I scared her yesterday."

The father clasped her in his arms
In happiest embrace.
"And I, too," said the gentle moon,
"I kissed the dear sweet face."

MY BET.

At the little dinner of three which Alec Bradford was giving I hadn't drunk more than three glasses of wine in all. But I have been a temperate man throughout my life, and possibly even this moderate indulgence made me unwontedly rash.

Perhaps my unstrung nerves had a good deal to do with the matter as well. I had fled from the home of a tyrannical stepfather here in New York about six years ago, when the merest boy, just after my mother's death. Countless hardships had beset me since then, but now I had gained in the far west at least a hopeful semblance of prosperity. I had come back with only a single purpose—to find my twin sister, Ruth Amberley, and bring her to dwell out there in Kansas with myself and my beloved young wife.

Tearful, yet striving to smile through her tears, Clara had bidden me goodby. "It's dreadful to have you go alone, Frank," she faltered. "Still, you know, you owe it to your sister. You never wrote to tell her where you were for a long time after you'd driven your tent stakes here into Ashbyville."

"I know—I know, Clara. It was my jealousy, I suppose"—

"Jealousy of a stepfather! And of such a shocking despot as you paint him all! And how could Ruth have run away with you as you proposed in your madly boyish fashion? And as for her not answering the letters you've written her since remorse has begun to prick you—why, there isn't a doubt that she never received them. Her stepfather's probably moved away from where he used to live, or it may be that he's died and"—

"That Ruth's dead, too," I broke in dismally, "or driven out into the bitter world by that same brute who drove me there!"

I was destined to learn on my arrival in New York that my stepfather had died over two years ago. Concerning Ruth no one could tell me. Our former home held new tenants. I made countless inquiries and even put advertisements into newspapers. My stepfather had left all his money, I discovered (no great sum either), to certain relations in Baltimore. These, answering my letters regarding the whereabouts of Ruth, could only tell me that she had left her stepfather a good while before his death, and that they believed some kind of quarrel had caused the separation.

"Some kind of quarrel!" I forlornly mused. "Oh, how horrible to think that the sister I once so dearly cherished may be in want and suffering! But of one thing I am certain. Ruth could never go wrong, no matter what hateful crisis overtook her. She was and will always stay purity and refinement to her finger tips. Our dear dead mother taught her that and gave it to her as well as the strange and sweet sanctity of inheritance.

I wrote to my wife several sad letters, and one was so desperately repentant in its tenor that she answered it with a kind of sweet savagery.

"How dare you say, Frank, that you feel as if you had killed Ruth?" ran her response. "If you want to make my loneliness, which I am trying to bear as bravely as I can, still more distressing to me, you will not write again in a mood both so morbid and so absurd."

That evening, when I dined at the Brunswick with Alec Bradford and John Hathaway, two friends whom I had made in the west, and who were in New York for commercial reasons, far different from my own, I felt far more wretchedly hopeless than I cared to reveal.

At the end of dinner, while we were drinking our coffee and smoking our cigars, Bradford advanced his little theory, born of some converse we had held about the wickedness and depravity of "darker New York."

"I believe I could do just what you say I can't," came my words after a little flurry of discussion.

John Hathaway was rather flushed with champagne. He knocked his fist against the table and said, merrily, yet seriously:

"Make him take your bet, then, Alec. We'll all go 'slumming' together, as they call it."

"The bet," I said, "gives me big odds. Ten dollars from myself to $100 from Alec that nothing will happen to us if I go with both of you wherever you shall direct and in each place make it known that I carry on my person the sum of $5,000!"

"Never mind," laughed Bradford in his breezy, staccato way. "I'll stick to my bet." He turned to Hathaway. "Jack, you'll hold the stakes?"

"Oh, yes," came Jack's reply. "We may all get ourselves murdered, so I propose to raise my courage with a brandy and soda."

While the waiter obeyed his orders Hathaway received my $10 and Alec's $100. Then two little paper rolls were constructed, each ensheathed in a greenback. These I was to carry in either inner breast pocket. The season was June, and the night a bland one; hence neither of us wore an overcoat. When all was arranged, I resumed my argument about the safety of going unprotected into quarters of the lowest classes. But I did not tell why there had lately come upon me this boldness and security. I did not choose openly to avow that in seeking my poor lost sister "everywhere" I had not neglected haunts of poverty and sorrow.

Of course it was all a mad kind of venture. If Bradford and Hathaway had not both been in that devil may care mood which sometimes comes to visitors in a great city after dining rather too well, I would readily enough have thrown our whole plan to the winds. But presently we had entered a cab, and in half an hour or so we were over in the east side of the town, among streets many of whose names I had scarcely heard. Then we dismissed our cab and went into a horrid flaring den of a place, with electrics in its windows and pictures of huge "schooners" from which the tawny beer prodigally overfoamed.

"Take nothing but seltzer water," I whispered to Bradford, but he laughingly refused and called for three glasses of beer.

"Now begin," he rejoined, and in his twinkling eyes I read hints of inebriety by no means pleasant.

"Come," I said, while we were all three sipping our beer in presence of a great, blond, moon faced barkeeper and watched by a group of shabby loungers, "it's very plain, Bradford, that this whole scheme has been idiotic."

"Aha!" giggled Alec, "you're backing out! I thought you would!" He called for three more glasses of beer, having drank his own, and the barkeeper, with great alacrity, whisked all the glasses away and supplied us with fresh ones.

Hathaway slipped in between Bradford and myself. "Yes, Alec," he anxiously whispered, "Frank is backing out, and very sensibly. The idea of three sane men like ourselves attempting this bravado game of silliness in five different places! We might regret it all our lives. Come, now, let's go up town and call the bet off."

But Bradford tossed his head stubbornly. He was the best fellow in the world at ordinary times, but drink, even in limited supply, had the ugly trick of demoralizing him.

"Not a bit of it," he muttered. "The bet isn't off at all. Frank Amberley's got to begin." Then he loudened his voice so it could be heard in every corner of the big, vulgar gilded tavern. "How much money, Frank, did you say you had about you tonight?"

"Alec," pleaded Hathaway's low voice, "look at that gang of rowdies over there! We'd best all concede that we've behaved like fools. Do pull yourself together, old fellow, and"—

"How much, Frank?" cried Bradford, with an obstinate smile and a saucy shoulder shrug.

Something in his tones challenged my reckless anger. I spoke as loudly as he did and at once began to act out my prearranged part.

"Five thousand dollars," I said. Then from one pocket I drew one roll of sham bank notes and from another the second. "Twenty-five hundred dollars in each of those little packages!" Here I lifted them both and gave to each a little ostentatious flourish. Then I replaced them, adding, still in tones clear and high, "It makes me feel kind of nervous, but still I don't doubt I'll get home all right."

"Oh, Jack and I will see you safely home!" cried Bradford, with a glance across his shoulder at the listening group of loafers.

Just then something touched my arm. A young woman, who must have entered the place but a few minutes ago, stood at my side. Some trick of the garish light left her face in partial shadow, but I could see that it was very pale and hollow cheeked as if from want.

"Oh, sir!" she said to me in a trembling voice, "if you've got all that money, perhaps you'll spare me just a few coins! I've never (I swear it to you) been in such a place as this before. But I was so sick that I lost my chance of work in the big shirt factory not far off, and tonight my landlady has turned me into the streets, and, oh, sir'"—

"Frank, what's the matter?" flew from Alec Bradford's lips as he saw me reel a little and put my hand dizzily to my head.

"Good God, Ruth! It's you!"

I caught her to my breast and showered kisses on her poor wasted face.

My two friends got us a carriage before long. I learned afterward that Ruth behaved like the strong, brave little creature she had always been, though the tears streamed down her shrunken cheeks, but that I babbled in the silliest way and narrowly escaped being dragged to prison as a disorderly bacchanalian.

Ruth is at home with Clara and myself now, and we are both very happy in her company, though the return of healthful bloom to her cheeks often makes us believe that one admirer out of a half dozen whom we know may soon partially rob us of her.

Bradford would never accept my money, but insisted on calling the bet "off." And, by the way, as he lives not far from our Kansas town, and accompanied me with my sister back into the west, I should not be greatly surprised if—

But perhaps, as their mutual affairs are still quite unsettled, sister Ruth might object to further details on that rather delicate point.—Edgar Fawcet. in Once a Week.

CURRENCY REFORM.

Leaders Think There Should Be No Delay In the Matter.

BLAND AGAIN TO THE FRONT.

He Makes Big Claims In Support of Free Coinage.

WASHINGTON, Dec. 13.—Secretary Carlisle is urging Chairman Springer and the other members of the banking and currency committee to press the currency reform scheme as rapidly as possible and not allow the hearings to be extended any longer than is absolutely necessary.

The proposed measure, the secretary says, should be reported to the house at an early day with a view of securing its passage before the holidays. If it should be allowed to go over until after that period the secretary fears that it would not reach the senate in time for that body to give it the necessary consideration.

Chairman Springer and the others assured the secretary that there should be no delay, and that as soon as the parties from Boston, New York and other cities had had an opportunity of presenting their views, the committee would at once proceed to the consideration of the bill, get it before the house and pass it, if possible, before the holiday recess. Speaker Crisp and the rules committee have indicated a willingness to aid in securing prompt action when the measure is brought before the house.

Bland and his extreme free-silver advocates are threatening to antagonize Carlisle's scheme by bringing in from the coinage committee a bill for the free coinage of silver. Bland has been making a canvass, and he claims that a majority of the coinage committee will support him in his effort to report a free coinage bill.

He will probably discover that, when he calls for a vote of the committee, he is in the minority. He had a majority of the committee at the last session, but there are three or four Democrats on the committee who have changed their opinion concerning free silver, and they see no good that is likely to result from a reopening of the agitation of the silver question at this time.

Several of the free silver Democrats on the committee are inclined to favor the currency reform plan proposed by President Cleveland and Carlisle.

Congressional Doings.

The house yesterday entered upon the consideration of the urgency deficiency appropriation bill. The bill contained two disputed items—the appropriation for special pension examiners and the appropriation for the collection of the income tax.

The former appropriation opened the doors for a debate on the conduct of the pension office, and especially the practice of summarily suspending the payment of alleged fraudulent pensions. The debate on the income tax appropriation was especially lively. The motion to strike it out was defeated by a vote of 54-127.

Senator Gray made an unsuccessful attempt to have considered in the senate the bill reported from the finance committee striking out all the differential duty in favor of refined sugar and leaving all sugar dutiable at 40 per cent ad valorem.

There were a great many absentees, so that the defeat was not so decisive as to discourage further efforts of the same kind. The majority vote of 10 against taking up cloture resolutions, which followed, indicates, it is believed, the improbability of changing the rules at this session.

Mr. Morgan again addressed the senate on the Nicaragua canal bill, and, in concluding, expressed his intention of soon asking that unanimous consent be given, fixing a time for a vote on the bill.

In the executive session of the senate, Mr. Higgins interrogated Senator Morgan as to the probabilities of any European governmental objection to this government's aiding in the construction of the Nicaragua canal. Senator Morgan replied that he knew of no opposition from that source, and he did not believe that any would be manifested.

Icemen Will Save Money.

PORTLAND, Me., Dec. 13.—A company has been organized in this city for the purpose of doing a freight business between the Kennebec and Baltimore by means of barges towed by tugs. The barge scheme will shorten the passage between the Kennebec and Baltimore about five days. This scheme will save the ice shippers thousands of dollars and be a severe blow to the shipping interests.

Shutters Are Up.

NEW YORK, Dec. 13.—The excise board has revoked the license of the Hotel Tortoni, and the police were instructed to see that the establishment is not operated in violation of the excise law. The Tortoni matter has been before the Lexow committee.

For State Championship.

HARTFORD, Dec. 13.—Harry Lane of Bridgeport and James Gaffney fought for the 140-pound championship of Connecticut. Lane got the award in the second round on a foul, Gaffney having slightly the better of the bout at its close.

Creditors Stepped In.

NEWPORT, R. I., Dec. 13.—Thomas F. McCormick, a plumber, has been missing since Monday, and his creditors have taken possession of his place. It is stated that financial difficulties was the cause of his leaving town.

"A Grand Citizen."

NEW YORK, Dec. 13.—President Cleveland, in a letter respecting the Parkhurst testimonial, writes: "The man whom you propose to honor is a grand citizen, and deserves all his fellow townsmen can do for him."

Sent to Jail.

PORTLAND, Me., Dec. 13.—Charles R. Lyman and Francis Robinson of Springfield, Mass., who broke into the postoffice at North Anson, were arraigned here and sentenced to 15 months in jail.

Republican Gets It.

CHICOPEE, Mass., Dec. 13.—The recount of votes gave Gale (Rep.) a plurality of 36 votes over Mellen (Dem.), who had previously been announced as mayor-elect.

Overdrew Accounts.

WASHINGTON, Dec. 13. — Comptroller Eckels is informed that the City National bank of Quanah, Tex., failed yesterday owing to overdrafts by the cashier.

SIR JOHN THOMPSON.

Canada's Premier Expires Suddenly While on Business In England.

LONDON, Dec. 13.—Sir John S. D. Thompson, premier of the Dominion of Canada, died suddenly at Windsor yesterday afternoon, shortly after adjournment of the council, which he went to Windsor to attend. Sir John had a conference Tuesday with Lord Ripon upon the subjects of intercolonial copyright and the importation of Canadian cattle. He went to Windsor yesterday afternoon, accompanied by the Marquis of Ripon, Henry Hartley Fowler, secretary of state for India, and Arnold Morley, postmaster general.

Sir John Sparrow David Thompson, Q C., K. C. M. G., was a studious and clever lawyer and an able parliamentarian. He was only 46 years of age. His father was the late John Sparrow Thompson, a native of Ireland, and a prominent member of the Methodist church, who at one time filled the position of queen's printer of Nova Scotia.

Sir John was born at Halifax, and educated at the Free Church academy there. He studied law, was called to the bar in 1865, and appointed a queen's counsel in 1879. In 1883 he became a Roman Catholic, and in the following year married Miss Annie Affleck, the present Lady Thompson.

He acted as arbitrator for some of the proprietors on the Prince Edward Island land purchase commission in 1875, and was counsel on behalf of the United States before the Halifax fishery commission in 1878. He was returned to the Nova Scotia assembly in 1877, and in the following year became attorney general of the province.

In 1882, on the retirement of Mr. Holmes, he became premier, but at the general election in that year his party suffered defeat, and he was appointed a judge of the local supreme court, which position he resigned in 1885. In 1890 he was knighted by the British government.

His Accounts Short.

BOSTON, Dec. 13.—A Herald special from Nashua, N. H., says: The people of this community are shocked to learn that one of the most popular and highly regarded citizens has left his home in this city and that irregularities have been discovered in the affairs of a large financial concern of which he was a responsible head. Frank A. McKean, cashier of the Indian Head National bank, has not been in the city since last Monday. Mr. McKean was twice mayor of the city, Democratic candidate for governor in 1878 and was city treasurer for many years. He had been connected with the Indian Head bank for many years in responsible positions. The amount of the shortage is now believed to be from $15,000 to $25,000.

Olney Gives Bonds For Trial.

WILLIMANTIC, Conn., Dec. 13.—Jeremiah Olney, school fund commissioner for the state of Connecticut, who was arrested at his home yesterday, charged with misappropriating the income of the state school fund, and with receiving money resulting from the investment of the fund, in addition to his salary of $2000 as commissioner, was brought here and gave bonds of $5000 for his appearance for trial, probably in Feburary next. Comptroller Staub is quoted as saying that the state of Connecticut has lost from $150,000 to $200,000 through the mismanagement of the school fund.

Stephenson Found Guilty.

NEW YORK, Dec. 13.—Ex-Police Captain Stephenson was pronounced guilty last night by the jury before which he has been on trial for three days on a charge of bribery. The verdict was a surprise. The minimum penalty for the crime is 10 years' imprisonment and $5000 fine. The charge on which he was tried and found guilty was the least of any made against the police captains—that of taking four baskets of peaches for permitting a violation of the sidewalk ordinance. The ex-captain was remanded one week for sentence.

All About a Pocket Knife.

BOSTON, Dec. 13.—Up the rickety stairs of 7 North square yesterday rushed Guisipte Indigaro, a young Italian laborer, with a loaded pistol in one hand. The man's mission was murder, and all because of a trifling dispute as to the proper ownership of a pocket knife. Three reports rang out from the pistol in quick succession, and Pasquale Capparello lay dead upon the floor of a little room on the third flat, blood flowing from a wound just above the heart. Then confusion reigned, and in the midst of this excitement the murderer escaped.

Maine Savings Banks.

AUGUSTA, Me., Dec. 13.—The state assessors have made up a report of the condition of the Maine savings banks, and the table shows a gain in reserve funds and undivided profits for the past six months of $287,178, and state tax assessed the past six months $200,142. The table indicates that Maine money is being more largely invested in Maine.

Visited Quaker Poet's Birthplace.

HAVERHILL, Mass., Dec. 13.—The sessions of the state grange convention were yesterday held with closed doors, and no full report of the proceedings is attainable. C. A. Desmen was re-elected member of the executive committee. At noon 175 of the delegates visited Whittier's birthplace.

Lynn's License Commission.

LYNN, Mass., Dec. 13.—Mayor Harwood last night appointed a license commission. The members are: David H. Sweetzer, Alfred A. Mower and Alderman Neal. The salary of the chairman is fixed at $500, and $300 for the other members of the commission. There were 40 applicants.

Poor Prospect of a Race.

NEW YORK, Dec. 13.—Lord Dunraven seems to have dropped all responsibility in the matter of negotiating for a race, and has foisted the load on the shoulders of the members of the Royal Yacht squadron. The prospect of a race seems as far off as ever.

Couldn't Reform.

BENNINGTON, Vt., Dec. 13.—James Meredith, a plumber, aged 42, committed suicide by taking aconite. He had been despondent, and had given up all business because of the return of the drinking habit.

A Rare Specimen.

WATERVILLE, Me., Dec. 13. — Three Lewiston men, who have been deer hunting in the Maine woods, have brought in a magnificent albino buck, as white as snow, and of fine proportions. The white deer is rare.

Passed a Bogus Check.

PORTLAND, Me., Dec. 13.—H. W. Morgan was arrested in Lewiston for passing a worthless check for $90 on the Preble House of this city. He is thought to have swindled others here besides the hotel.

SINGER WON'T YIELD.

He and His Followers Will Never Cheer For the Kaiser.

HOT SHOT FROM LEIBKNICHT

Which He Is Afterward Compelled to Modify.

BERLIN, Dec. 13.—The committee to which has been referred the motion to punish the Socialist members of the reichstag who refused to rise and cheer for the emperor on Thursday last, at the opening of the house, is the standing orders committee, of which Herr Singer, the socialist leader, is chairman. In view of the inquiry, in which he himself is involved, he will resign the chairmanship.

It was Herr Singer who declared in the reichstag that he and his fellow socialists would never cheer for a man who told his soldiers that at his command they must fire upon their fellow citizens. It is said that the committee is certain to present an adverse report.

During the budget debate yesterday in the reichstag, Herr von Kardoff declared that the Imperial party placed the fullest confidence in Prince Hohenlohe.

Herr Rickert asserted that General von Caprivi was compelled to resign the chancellorship before the onslaught of the Agrarians. But, he added, they would never be able to burst the barriers of Germany's commercial treaties

Hypocrisy Charged.

Herr Leibknicht said that when the speech from the throne announces the removal of burdens from the shoulders of the weaker classes, and in the same breath increases the tobacco tax, which only affects the poor, "I call this a piece of hypocrisy."

An uproar followed the remark, and Herr von Levetzow, president of the reichstag, called Herr Leibknicht to order, saying that he would not permit the use of such disrespectful language towards the emperor. Thereupon Herr Leibknicht corrected his speech in order that it might read as follows: "Two passages of the emperor's speech alluded to an implied contradiction, which could not be more marked."

It was reported, late yesterday, that the Socialists will force a debate on the proposition to prosecute them in order that the privileges of members of the reichstag may be more clearly defined.

Herr Leibknicht declares that the prosecutions are foolish, and that the Socialists could not be blamed for "refusing to honor a man who is the enemy of their party. Such prosecution," he adds, "are possible in Germany alone of all civilized countries."

THE ONWARD MARCH.

Japanese Are Making Great Headway In the Flowery Kingdom.

YOKOHAMA, Dec. 13.—A detachment of the second Japanese army have occupied Foo-Chow, a town some 75 miles north of Port Arthur. They met with no resistance. The Chinese are retreating in a northeasterly direction toward New-Chwang.

A dispatch from Kobe, Japan, states that it is supposed that the first and second Japanese armies will join forces and take New-Chwang and then make a combined advance on Pekin. Further reenforcements will leave for the front within a few days.

A Shanghai dispatch says the discovery is reported of documents signed by the viceroy of Nankin offering rewards for Japanese heads. The dispatch adds that it is stated that the Chinese soldiers at Wei-Hai-Wei intend to desert if the Japanese appear.

It is stated that the Japanese have effected a landing at Shan-Hai-Kwan and near Taku. The Japanese are said to number 25,000 men.

Count Inouyere, the Japanese minister to Seoul, has had an interview with the King of Corea, the result of which, it is said, will probably be that the regents will resign.

Large numbers of Tong Haks made an attack upon Koshin on Nov. 28, and were defeated by the Japanese with great slaughter. Two of the rebel chiefs were killed.

Marriage In High Life.

LONDON, Dec. 13.—The marriage of Prince Adolphus of Teck to Lady Margaret Grosvenor, daughter of the Duke of Westminster, the richest peer in the United Kingdom, took place in the chapel of Eaton Hall, Chester. There was a brilliant company of guests present. The pair left by special train for Newport, Shropshire, the seat of the Duke of Sutherland.

Not a Slugging Match.

LONDON, Dec. 13.—Ten thousand people saw the annual football game, Rugby rules, between teams representing the universities of Oxford and Cambridge. The result was a draw. Each side made splendid open play. The men wore light jerseys and thin knickerbockers. Their knees were bare.

Great Scientist Sick.

PARIS, Dec. 13.—Professor Louis Pasteur is seriously sick. Professor Pasteur is best known to Americans, perhaps, by his cure for hydrophobia. His latest great discovery was the success, so far at least as animals are concerned, of anti-choleraic vaccination.

The Yankton Bond Case.

LONDON, Dec. 13.—A receiving order was granted yesterday by the bankruptcy court against J. T. M. Pierce, of the firm which is alleged to have been dealing in the so-called forged Yankton (S. D.) school bonds. A warrant for his arrest was issued.

Volcano's Awful Work.

VICTORIA, B. C., Dec. 13. — Steamer Warimoo, from Australia, brings word that the island of Anbrym, New Hebrides, was destroyed by volcanic action Nov. 13. A native village, with all its inhabitants, was swept into the sea.

Editor In the Tangle.

PARIS, Dec. 13.—M. Raoul Canivep, manager of The Paris and Petit Paris, a chevalier of the Legion of Honor, has been arrested in connection with the blackmailing scandals.

A Warning.

ROME, Dec. 13.—It is reported that King Humbert will dissolve the chamber of deputies should there be a repetition of the scenes growing out of the Banca Romano scandal.

WHEN YOU FEEL LANGUID, dull and heavy, it's your liver that's at fault. A sluggish, torpid liver deranges your stomach and kidneys and bowels. It poisons your blood. You feel it "all over."

The best-known remedy in the world is Carlsbad. People go there, not only for a disordered liver, but for all the diseases that follow it, and for jaundice and chronic liver complaint, and every ailment of the kind.

There's no need for you to go. You get precisely the same treatment in the Carlsbad Sprudel Salt (the water solidified at the Spring) or in the imported waters. In catarrh of the stomach, dyspepsia, habitual constipation, diabetes, or any gouty or rheumatic affection, they have been a specific for hundreds of years.

Take only the genuine imported article, with the signature of "EISNER & MENDELSON Co., Sole Agents, New York," and the seal of the city of Carlsbad on every bottle. Beware of the many worthless imitations sold here as "improved" or "artificial" Carlsbad Salt, which consist only of a mixture of common Glauber Salt and Seidlitz Powder, and in no way have the same action as the genuine natural remedy of Carlsbad. Insist upon the genuine.

FEELS BETTER NOW.

Great Load Has Been Lifted From Defaulter Seely's Mind.

REFUSES TO DISCUSS HIS CASE

Further Than to Say That Baker Was Implicated.

CHICAGO, Dec. 13.—At 5 o'clock last evening President Crane of the Shoe and Leather National bank of New York walked into United States Marshal Arnold's office. Half an hour later he was sitting in Inspector Shea's office, when the door opened and his defaulting bookkeeper, Samuel C. Seely, stepped into the room. Mr. Seely reached out and took the extended hand of President Crane.

As the president shook Seely's hand with the warmth of an old friend, it was readily seen that Seely was much affected. His body trembled with emotion, his lips quivered, and in a low and stammering tone of voice he said: "Mr. Crane, I did not think you would want to shake hands with me."

Mr. Crane, pushing Seely into the chair beside him, replied in kindly tones: "Why, Sam, I am glad to see you; sit down." The door closed on the two men. For half an hour they were closeted together.

Inspector Shea, at the request of Mr. Crane, then invited the newspaper reporters in waiting to enter the room. Mr. Crane said: "Gentlemen, from the importance of this affair, you naturally expect some startling developments from this conversation I have had with Mr. Seely. I have called you in that I might speak in his presence.

"He absolutely refuses to talk about his case. He says he is entirely in the hands of his counsel, who has requested that he talk to no one about the matter. He has told me that there is no one to whom he would rather tell all than to me, but that he would obey the injunction of his counsel. He stubbornly, if you please, refuses to talk."

Turning to Seely, he said: "Is that not so, Sam?" "Yes, sir; I refuse to talk about the matter."

Baker and Seely Alone.

At the suggestion of a reporter, President Crane asked the question of Seely: "Was there any one else connected with this defalcation besides Baker?"

"That is the man," replied Seely.

"Were there no others?"

"No one else."

As to the question of authority in the return of Seely to New York, Mr. Crane said that it was probable that Seely would be turned over to the federal authorities. Seely said that he preferred to go back with the government officials.

"There will be no clash of authorities," said Inspector Shea. "I have received the following telegram from New York, touching the matter this afternoon: 'Inspector Shea—It is the wish of District Attorney Fellows to avoid conflict of authority; that Seely be remanded in the custody of the United States marshal when he arrives. Detective Nugent will reach you today. Impart this information to him.

"'WILLIAM MCLAUGHLIN, Inspector.'"

Detective Nugent, who was present, said he was not disposed to make any objection, and Marshal Arnold requested him to accompany the deputy, who will return with Seely this afternoon.

After the arrangements for the return had been perfected, President Crane said: "I believe that Mr. Seely is glad that the thing is all over. A great load has been lifted from his mind. He has been a wanderer for the past few weeks, and I know that he feels better now." Seely smiled in assent, and was taken back to his cell in Harrison street station.

Mr. Crane said that under the terms of the reward offered for the arrest of Seely, it will be paid only after the conviction of the prisoner. This will be sad news for McFarland, who has made several calls on the police department to see when he was going to get that $5000. He wants it all at once, and he wants it now.

Died of Old Age.

NEWBURY CENTER, Vt., Dec. 13.—Wells Goodwin died yesterday afternoon at the age of 100 years and 1 month. He was born at Ryegate. He entered the military service in 1813, and fought in the battle of Chippewa, Prescott and Lundy's Lane. In the battle of Niagara Falls he received a wound for which he received a pension of $12 a month. Eleven days ago he stopped taking nourishment, except stimulants. Previous to that he enjoyed good health.

Cash Is Getting Low.

ST. JOHN'S, N. F., Dec. 13.—The safety of the Union bank is assured. The People's bank of Halifax will establish a branch here. Canadian banks will do likewise. The run on the savings bank continues. All its specie will be exhausted tomorrow. Quantities of specie for the government and private concerns are now on the way from England and Canada.

The Blenn Murder.

AUGUSTA, Me., Dec. 13.—The indictment against George Silver of Gardiner for manslaughter was nol prossed yesterday. This establishes the innocence of both Silver and Edgar C. Wakefield, who were charged with killing Charles Blenn. Wakefield was convicted and fined $500. He will ask the legislature to remit his fine.

Murderer Married.

CHATTANOOGA, Dec. 13.—General Kennedy, one of the murderers of the night railway telegraph agent at Shellmount, who is to be hanged next Monday, was married in jail at Jasper last evening to Miss Martha Taylor.

Hammered the Officer.

PORTLAND, Me., Dec. 13.—Herbert Blaisdale of Hallowell was arrested by United States Marshal Prescott for violating the internal revenue law. He resisted arrest and assaulted the officer, both of whose eyes were blackened.

Thief Is a Murderer.

BOSTON, Dec. 13.—James Slamin, coachman for Lawyer C. P. Curtis, who was shot by a thief on the evening of Dec. 4, died last night. There is no clew to the man who did the shooting.

Foundryman Killed.

BOSTON, Dec. 13.—Lewis W. Day, an employe of F. E. Foster & Co.'s iron foundry, was caught in the shafting yesterday, and he sustained injuries from which he died.

SHORT ROAD TO WEALTH.

Swindler Harris Said to Have Made $2500 In Twenty-Eight Days.

NEW YORK, Dec. 13.—The Cincinnati suspect, William H. Harris, who is accused of "flimflamming" a number of people on the pretext of being connected with several corporations, will be brought up with a round turn in the Buckeye city within the next 24 hours.

Detective Reilly left yesterday afternoon to bring him here on a bench warrant, charging him with a felony. The complainant is Charles F. Blandin of this city, and he claims that Harris swindled him on the pretense that he would make him (Blandin) general manager of the General Electric, Gas and Iron company, of which he had sole control.

After swindling several other individuals in the same manner as Blandin, Harris has at last been brought within the meshes of the law. From Feb. 9 to March 9, exactly 28 days, Harris managed to get $2500 upon his representations to other people.

It is stated that Harris has been "kiting" on his own hook several gas and electric lighting companies, but the authorities in this city, when questioned, were very much reserved and declined to give information.

Due to Fog.

BOSTON, Dec. 13.—The dense fog that hung over the harbor yesterday held shipping at a stagnation point, and resulted in two accidents. Schooner Richard C. Steele, a Gloucester fisher, was coming in from the Banks with a full fare of fish when she went on the Devil's Back rocks, where she remains, in a bad position, full of water. The ferryboat City of Lynn of the Boston, Revere Beach and Lynn line collided with the Leyland line steamer Bostonian. Neither was seriously damaged.

Strong Accusations.

BATH, Me., Dec. 13.—A mass temperance meeting last night supplemented the action of the city government Tuesday evening, when the mayor demanded that names and witnesses be given before he should prosecute alleged offenders of the prohibitory law. The mayor was flatly charged with being in league with the rumsellers and of refusing to enforce the prohibitory law.

Held Without Bail.

RUTLAND, Vt., Dec. 13.—Henry Harris and Albert Brown, under arrest for the murder of Henry D. Lawrence, were arraigned yesterday. Harris waived examination and Brown pleaded guilty. The latter plea was changed to accord with the former, and both men were held without bail.

Burton Found Guilty.

AUGUSTA, Me., Dec. 13.—A. P. Burton was found guilty of assault on Miss Ida Katon of Hallowell, and was sentenced to pay a fine of $100 and costs or to serve six months. He was committed. Burton was charged with chloroforming Miss Katon, with intent to kill her, on the night of Nov. 10.

Trying to Get a Robber.

ALBANY, Dec. 13.—An application has been filed at the executive chamber for requisition papers on the governor of Connecticut for the extradition of Theodore White, now held at Hartford. White is wanted for robbery.

TELEGRAPHIC BREVITIES.

Rev. Rolin T. Hack was installed pastor of the Second Parish church at Portland, Me.

Fred G. Durgin, a prominent citizen and business man of Saco, Me., is dead, aged 35.

Baroness de Rothschild, widow of the late head of the Frankfort house, died at Frankfort, Ger.

Rev. Charles H. Parkhurst, D. D., was elected to honorary life membership in the Jekyl Island club.

Seven convicts of the Connecticut state prison were transferred to the Connecticut hospital for the insane.

Pokohoket tribe of Red Men publicly dedicated its new hall in Gurnsey's block, Keene, N. H., and initiated 30 candidates.

The governor and council of New Hampshire reappointed Rev. E. R. Wilkins of Concord, N. H., chaplain of the state prison.

Charles M. Noyes has been appointed keeper of the lifesaving station at Plum Island, Mass., vice James W. Elliott, deceased.

John Worthy, president of the Commercial Trust company and Metropolitan Railway company of Chicago, died at New York.

John Meeker, employed on Cornelius Vanderbilt's new stable at Newport, R. I., fell from a staging and was probably fatally injured.

Editor Johnson has severed his connection with the St. Johnsbury (Vt.) Republican. He had been editor of the paper since it was started in 1885.

The winter meeting of the New Hampshire state board of agriculture and Granite State Dairymen's association will be held in Laconia Dec. 26, 27 and 28.

Rev. E. W. Preble of the Universalist church in Webster, Mass., has resigned and accepted a position offered him as financial agent of Buchtel college.

A dispatch from Shanghai announces the death of Captain Peter Hussey, of heart disease. Captain Hussey was well known as a shipmaster in eastern Massachusetts.

The Yale faculty have decided to give special honors in both the one and two years' courses in the new department of music, thus placing the department on a parity with the other departments of the university.

The wholesale liquor stores of Edward Wagner, Michael Prout, William Hayes, Patrick Harrington, Vincent Trudeau and Lawrence Connor at Manchester, N. H., were raided by the police, and in each instance liquor was seized.

OYAMA'S ORDERS

Would Not Permit Outrages by Japanese, as Alleged.

WASHINGTON, Dec. 13.—The following statement has been issued from the Japanese legation: "The Japanese minister expresses the strongest disbelief in the reports of the atrocities alleged to have been committed by the Japanese troops at Port Arthur.

FIELD-MARSHAL OYAMA.

"He does not hesitate to denounce as unqualifiedly false the statement contained in one account telegraphed from Yokohoma that there was an unrestrained reign of murder at Port Arthur for three days after its capture, and that practically all of the inhabitants were butchered in cold blood.

"The high reputation of Marshal Oyama, whose orders to his troops against excesses of any kind were of the strictest nature, and the discipline maintained in the Japanese army, in his opinion, renders such a state of things impossible.

"He believes, therefore, that these reports are grossly exaggerated, and thinks that the official account of what really happened, which will certainly be made public, will prove them to be so."

They Like Governor Waite.

DENVER, Dec. 13.—Rev. Myron W. Reed addressed the labor convention yesterday on the subject of "Paupers and Millionaires." Referring to the general methods of dispensing charity, he said it was much of it conscience money from rich robbers to poor victims. Governor Waite, he said, called out the troops to protect the poor. A resolution was adopted reaffirming the former position of the Federation that no stand should be taken regarding any religious creed. It was decided to invite Governor Waite to address the convention, and President Gompers expressed himself in hearty sympathy with the governor.

Ministry Resigned.

ST. JOHN'S, N. F., Dec. 13.—The government decided that its position was untenable and offered to amalgamate with the Liberals until the crisis shall be over. The Liberals made no reply to this letter, but demanded that the governor dismiss the ministers. Governor O'Brien refused, but summoned the assembly to meet on Saturday. The ministers, knowing that their defeat is certain should they face the assembly, tendered their resignations. Mr. Green, leader of the opposition, has been called upon to form a cabinet. His task is an almost impossible one, as he has no men behind him of sufficient ability to grasp the situation.

Considered Church Work.

PORTLAND, Me., Dec. 13.—The international commission of Maine held a meeting here yesterday. Its object is to promote co-operation in the organization and maintenance of churches in Maine. The commission is composed of representatives of the Baptist, Congregational, Free Baptist and Methodist denominations. The session was devoted to discussion of work.

Four-Master Launched.

THOMASTON, Me., Dec. 13.—The four-masted schooner C. S. Sheldon, built by Dunn & Elliott, was launched yesterday. She is a vessel of nearly 1100 gross tons; length over all, 210ft.; keel, 185ft.; beam, 41ft.; hold, 19ft. She is owned by her builders and cost nearly $60,000. She is already chartered to a West Indian port, and will be commanded by Captain Fales.

A Dangerous Individual.

NEW YORK, Dec. 13.—A crank created a panic in Ludwig Bros.' dry goods establishment yesterday. He drew a revolver and tried to shoot some of the girls in the place, which was crowded with Christmas shoppers. Women and children fainted, screamed and rushed for the door. After a fierce struggle the fellow was overpowered.

Fast Flowing Away.

WASHINGTON, Dec. 13.—The net gold balance in the treasury yesterday received another severe shock by the withdrawal of $2,150,000 from the sub-treasury in New York, which leaves the true net balance of $103,378,475. When the full tide of gold exportation will cease is a problem the treasury officials do not care to discuss.

Did a Big Business.

SAN FRANCISCO, Dec. 13.—J. M. Turner, a real estate dealer, has been arrested for swindling operations, which may aggregate nearly $500,000, with many victims. He is charged with illegally mortgaging property, and the selling of the same land to several different purchasers.

A Domestic Tragedy.

NEW YORK, Dec. 13.—Joseph Kniriem, 80 years old, shot his wife last night, and she will probably die. She accused him of infidelity, and threatened to throw him out of the window. She caught hold of him and he drew a revolver and shot her. Kniriem was arrested.

Quick Work.

RICHMOND, Ky., Dec. 13.—The trial of William Taylor for assassinating Magistrate Doty took place yesterday. The jury found him guilty and fixed the punishment at death. This is the speediest trial ever known in the state.

Lawyer Dore's Case.

BOSTON, Dec. 13.—John F. Dore, the lawyer who was brought from Seattle, Wash., this week by Chief Inspector Watts and Inspector Houghton, under indictment for forgery, is held in $10,000 bail.

ASK THEM Why?

Ask the men who are making imitations of COTTOLENE, the new vegetable shortening, why they give up lard and try to trade on the merits of COTTOLENE? Perhaps you can guess why.

ASK HIM Why?

Ask the grocer who attempts substitution, why he tries to sell an imitation when people call for that pure, palatable and popular vegetable shortening, COTTOLENE? Perhaps you can guess.

ASK YOURSELF Why?

Why should not YOU use COTTOLENE, instead of Lard for all cooking purposes? It has the highest possible endorsement; from Physicians as to healthfulness; from Cooking Experts as to superiority; from housekeepers as to economy. Use COTTOLENE and stick to it.

Sold in 3 and 5 pound pails.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Regular meeting of the City Council this evening.

Mr. John S. Gay is quite sick with acute bronchitis.

Why not begin your Chrismas advertising tomorrow?

Several dancing parties are announced for the week before Christmas.

The street railway is equipping its cars with new and powerful motors.

John Foster of Foster Bros. has gone to New Hampshire for a week's trip.

The official count at the city election will be declared tonight by the City Council.

The Wollaston Cycle Club will hold its first annual ball at the Town Hall, Braintree, Monday evening Dec. 31.

The street railway is fitting another large electric snow plow and will be ready in a few days to meet the hardest of storms.

No new cases of diphtheria have been reported for several days and those that are now sick with the disease are reported as out of danger.

Our local storekeepers are trying to outdo each other in making their show windows attractive, and as a result some of them look very pretty.

At the drive-whist tournament on Wednesday evening by the members of the Granite City club, the first prize was taken by George W. Prescott and the second by Alonzo G. Durgin.

Invitations are out for the wedding of Miss Lela M. Pinkham, daughter of Mr. and Mrs. George F. Pinkham, Wollaston, and Mr. Charles E. Goodspeed, at the Wollaston Baptist church on Tuesday evening, Dec. 25.

J. L. Miller, of the firm of Thomas & Miller, returned on Wednesday from an extended trip on business and pleasure, having traveled about six thousand miles, and visiting twenty states, including all the south. He has made up his mind that Quincy is good enough for him; that we do not know what deprivations are in the North, among the laboring people, as compared with the South.

Rev. Nathan Hunt, pastor of the East Milton and South Quincy Baptist churches, has received a call from the Maine Baptist Missionary Convention, to become evangelists and missionary. He has resigned his pastorates here and has accepted the call from Maine. He will enter upon his new work Jan. 1. 1895. His family will reside in East Milton until some time in the spring or summer.

An enthusiastic meeting was held on Tuesday evening at Odd Fellows' hall, Wollaston, to take the initatory steps towards the formation of a Rebekah lodge. Mr. Theo. C. Gram was elected chairman of the meeting and Mr. E. S. Thomas, secretary. Addresses were made by Past Grand Master Hamlin, P. G. Brown, P. G. Delano and Dr. Homer Clark. After the speaking lunch was served. The petition for the charter was circulated and now contains the names of about fifty people.

AN OLD MAID'S VIEW.

KATE SANBORN ON THE JOYS AND SORROWS OF CHRISTMAS.

She Says It Should Be Exclusively a Children's Day—The Ideal Found In the Home Gathering—What an Old Bachelor Confessed.

[Copyright, 1894, by American Press Association.]

YES, for decades, centuries, eons, there has been but one authorized, stereotyped, fatiguingly uniform view of this annual festival—at least as given to us conscientiously, and with unflagging voluminosity by the universal public press—the editorials, the long, inevitable historical articles, the cheerful, moralizing appeals for general charity and good deeds, the last usually from a woman's pen, are exactly like those ground out in '84, '74, '64, '54, '44, and so on ad infinitum and ad nauseam. The lay sermons at the end of all magazines agree with these entirely in information vouchsafed, in mellow reminiscences, in rather patronizing greetings to their large clientelle. Encyclopedias are searched, the same old bits from favorite carols given. Carols are kindly explained. The "boar's head" they all bring is at last associated in a general way with the brain that so bores me that I sympathize just a little with that old tyrant, Caligula, who "wished the Roman people had but one neck that he might cut it off at a blow."

"Gallinbursti" was the name of the old original bore, not boar. Let us push him once for all "down the back entry of time" and have a little rest.

I do not believe that these facts, many of them doubtful; these quotations; these gentle lessons, so many, many times exhumed and reprinted, are even read through by any one. Why feel obliged to follow on in the same old path? I am going to dare to give another side of the subject, one that will find an answering echo in many an honest heart, for after one has arrived at middle age he or she, married or unmarried, finds the recurrence of Thanksgiving and Christmas rather sad occasions, when one must try to push away the past, shut the eyes to the dear dead faces that come up so vividly, forget oneself in making the time pass pleasantly for those whose lives are still unsullied by sin or sorrow or bitter disillusions and try to give the children as good a time as possible.

Christmas should be exclusively a children's day. Let us give it to them, who can find glowing delight in transparent myths, a few toys and bags of popcorn and bright colored sugar plums. For us grownups it has degenerated into a laborious farce that to some is approaching the tragic. Presents must be exchanged through the entire family circle, relatives expect remembrances, and especially intimate friends, not forgetting a set of claimants who only send you greeting and a cheap card, but carefully estimate the cash value of your enforced remembrance and treat you accordingly. The rich waste thousands in endeavoring to excel each other in needless trinkets, bric-a-brac, bonbons, superfluous gems, luxurious nothings, big dinners, costly wines, illustrating that text so true, yet so difficult to explain, to those less fortunate, "To him that hath shall be given," or, in everyday parlance, "The Lord gives apples to those who have no teeth." It is with such simply "a quid pro quo," and there is very little honest merriment in the system.

In big, blessed, unbroken, congenial families the ideal Christmas is often realized, where the boys and girls return with families of their own, never forgetting the old people, return loaded with gifts and goodies, and bringing the lively music of happy, satisfied hearts. But to the starved out, the repressed, who make a brave pretense of being at peace and gladsome, it is a hard part to play. In stories written expressly for such people the old lover returns faithful and fond; the generous old bachelor carries away captive the youngest, prettiest maiden of the lot. Alas! in real life the young flirt captivates the aunt's most devoted standby and laughs at the ancient bachelor who tries to be gallant.

One old bachelor confessed to me last year that he was so forlorn at the glad Yuletide that he wished he could be made unconscious until it was over. He longed to skip it and escape from its depressing horrors. As he must live right through it, however dismal the experience, he would always take the cars for a long trip, or even cross the ocean, armed with a lot of exciting novels to drive away sad thoughts. He was a fine looking, prosperous, popular fellow, and I know his generosity to others to have been unbounded. He made Christmas a day of feasting and junketing to many. All that does not cure the aching old heart.

Throw off the conventional shackles and don't try to be so terribly, so unnaturally, jovial yourself, and soon the smiles on the dear faces, as yet free from lines of care and sorrow, will be reflected way down in each lonely heart. Then we shall not have to say, with Longfellow, "How inexpressibly sad are all holidays!" KATE SANBORN.

It is estimated that New York spends $1,500,000 for its Christmas candies.

CHRISTMAS IN INDIA.

A Lazy Picnic Amid the Tropical Surroundings of Calcutta.

The sun shines gloriously overhead. The sky is a pale, cloudless blue, and the foliage around us shows every shade and tint from brown to scarlet, from the palest to the deepest green. We saunter along the grass under the trees beside the avenue and find a quiet spot, with a pool of clear water haunted by swans before us. The ground is carpeted with soft grass and shaded with trees. On one side, 300 yards away, is a bank of shrubs, with the most gorgeous variety of coloring, from mauve and lilac to crimson red; on the other three, cool, restful green leaves. On such a Christmas morning it is good to be alive.

Let us think of it as we shiver over our fires in England. We spread our rugs and coats on the ground and lie down and smoke lazily. Presently the Khidmutgars arrive with hampers. We do not move, for in India we have not that irrational and idiotic notion that a picnic is no picnic unless you wait upon yourselves, lay your own lunch and burn your own fingers over your kettle. The lunch is admirable from the solids to the fruit, from the drinks to the ice. Nothing has been forgotten, for once a Khidmutgar has been taught a thing he may be relied upon to do it again with absolute exactitude on a similar occasion till the crack of doom unless he is idiotic.

A picnic is a complete rest, with nothing to do save to lie still and enjoy. No one even talks unless the spirit moves him. For the most part we sit quiet, drinking in the beauty of the scene. The servants pass silently to and fro, handing dishes, which are accepted or rejected as silently. It is waste of energy to speak. The cool breeze fans us gently. There are no mosquitoes. All is peace. Last of all come the coffee and the cigars.—Saturday Review.

Christmas Holly.

No one can tell when holly was first used for Christmas decorating, though it was certainly at or soon after the Christian era. Indeed it may have been long before, for some of the traditions concerning it have an appearance of antiquity about them which cannot be ignored. Thus it is said that holly is or was a sacred tree to destroy which was to insure disease or disaster. An early legend, ordinary tale, runs in this way: A youthful hunter lost himself in a forest, and his supplies running out he was in danger of starving. No game could he discover, and in the midst of his distress a wild beast, the like of which he had never seen before, appeared. Taken by surprise, he seized the bough of a tree, tore it off and prepared to defend himself with it. It chanced to be a holly tree, and the moment he disfigured it he fell to the ground and was turned into a stone. His brother, after many months' searching, was informed by a friendly fairy of the mishap that had befallen his brother, whose body he was told would be found lying under the bough he had torn off. A charm was given the searcher to enable him to restore the headstrong youth to life, and after a long journey the task was accomplished, and the two brothers were reunited.—Selected.

Christmas Table Decorations.

In planning for Christmas festivities the question of table decorations is of real importance. Therefore suggestions for a unique and artistically arranged dinner table may be of service. The covers may be laid for as many as may be desired. In the center have a square bed of holly, from the middle of which there may rise a small Chistmas tree suitably decorated. At either end of the table stand the candelabra, which for this occasion should have red candles and red shades. At each lady's place have a corsage bouquet of bright red flowers tied with red ribbon and for the gentlemen boutonnieres of mistletoe. Have suspended over the table a little above the tree a large bell of red flowers, from the top of which, reaching to each plate, may hang red ribbons about an inch wide, held in place by the weight of the dinner card, which should be perforated near the top, allowing the end of the ribbon to pass through and tie in a bow. On the upper side of the card should be written the guest's name.—Ladies' Home Journal.

Christmas at Osborne.

The royal boar's head, the baron of beef and woodcock pie, which are indispensable for a British sovereign's Christmas feed, are all sent from Windsor to Osborne ready cooked. The boar's head is brought in in solemn state, preceded by choir boys singing a carol as follows:

The queen's boar's head in hand I bear
Bedecked with bays and rosemary,
And I pray you, my people, be merry.
Quot eatis in convivio
Caput apri defero
Reddens laudea Domino.

Lord steward has provided this
In honor of the king of bliss,
On Christmas to be served
In Reginenæ Atrio
Caput apri defaro
Reddens laudea Domino.

—Exchange.

A Servian Christmas Dinner.

The poorest family in Servia will pinch themselves all through the year so as to have money enough to buy a pig at Christmas. Skewered to a long piece of wood, the pig is turned over a blazing fire until cooked, the guests watching the process with increasing interest. After dinner stories are told and songs are sung. Santa Claus, who, in the person of an honored guest, is present to receive instead of to give presents, departs after the feast, decorated with a long ring of cakes around his neck and laden with such gifts as his friends can bestow. The feasting room is symbolically strewn with straw.—New York Journal.

Why Santa Claus Drives Reindeers.

That Santa Claus comes with reindeers simply means he's interested in the wee little fellows still in lapland.—Philadelphia Times.

APPLE TARTS. Line round patties with paste; in each one place the half of a tart peeled apple (use those only you are sure bakes quickly), a tablespoonful of sweet cream, butter size of hictory-nut, tablespoonful of sugar and a pinch of nutmeg. Put core side of apple down, and sugar, etc., on top. Bake until the apples are soft.

APPLE FLOAT. Pare ripe apples; stew and strain; beat for every quart of apples the whites of six eggs, and mix in carefully with one pound of sugar; flavor with lemon extract, and serve immediately.

A Reminder For Christmas.

A wise economy may readily be displayed in the selection of Christmas Gifts. It is a pleasure to suggest presents within the reach of all our citizens—presents that are singularly suggestive, for they not only adorn, but add a constant air of welcome to every dwelling.

52 VILLAGE ST., BOSTON, Nov. 5, 1894.

To the Boards of Health and all Owners of Neat Cattle in the Counties of Nantucket, Dukes and Barnstable:

1st. All the states and territories of the United States, the District of Columbia, Canada, Great Britian, and all other localities without the limits of this Commonwealth, are hereby declared infected districts.

2d. It is hereby ordered that all neat cattle brought within the limits of this Commonwealth from any of said localities on and after November 20, 1894, are hereby made subject to quarantine until they have been inspected and released by this Board or one of its members thereto duly authorized.

3d. Except as hereinafter provided no such neat cattle shall be unloaded except in case of accident, for any purpose whatsoever within this Commonwealth, at any place or places other than at such quarantine stations as are herein designated, or which may hereafter from time to time be designated by this Board, unless upon written permit signed by the Board of Cattle Commissioners or one of its members.

4th. The Union stock yards at Watertown; the Boston & Albany stock yards at Brighton and the premises of the New England Dressed Beef and Wool Company in Somerville, are hereby designated as quarantine stations.

5th. All neat cattle entered at any quarantine station, except as hereinafter provided, are hereby declared quarantined and, shall so remain, at the expense of the owner or consignee, for a period of not less than twenty-four hours, or until they are released by the Board of Cattle Commissioners, or one of its members, during which time they shall be subjected to the tuberculin test. This test shall be made only by the Board of Cattle Commissioners or one of its members, or a duly authorized agent thereof, and without expense to the owner.

6th. Every such animal which, in the opinion of this Board or any of its members, is affected with tuberculosis, will be condemned and slaughtered as provided in Sections 45 and 53 of said Chapter 491 of the Acts of 1894.

7th. All animals which upon such inspection shall be adjudged free from tuberculosis and other contagious disease shall be branded with the seal of the commission. This brand will be placed upon the right hip.

8th. All neat cattle passing through this Commonwealth, consigned from points without its limits, for exportation from this State will not be examined as herein provided, but such animals shall remain in quarantine until transported without the limits of the Commonwealth.

9th. All neat cattle brought within this Commonwealth consigned directly to the Brighton Abattoir for slaughter, shall be confined by themselves for identification, and shall not be released except after an examination as above provided, or for immediate slaughter.

10th. It shall be the duty of every person or persons, corporation or corporations, desiring to drive or cause to be driven any neat cattle into this State from any point without its limit, to notify in writing the Board of Cattle Commissioners of his, their or its intention so to do, which notice shall state the town or city in this Commonwealth through which it is the intention to enter, and the time when the drove will arrive within such city or town. After crossing the border all such cattle are hereby declared quarantined upon premises which shall be defined in the permit, within the limits of such city or town, at the expense of the owner or consignee, and shall there remain until they have been examined and branded, or destroyed, as hereinbefore provided. No neat cattle shall be driven within this State from any point without its limits, except as herein provided.

11th. All neat cattle branded as herein provided shall be free to all markets in this Commonwealth.

12th. No person shall sell or offer for sale, or have in his possession, except under quarantine, within the stock yards in Brighton, Watertown or Somerville, any neat cattle which are not branded as provided for in section 7, except as provided in sections 8 and 9 of this order.

13th. It is further ordered that a copy of this order shall be sent to each city and town throughout the Commonwealth, and that every town shall cause a copy thereof to be posted in two or more conspicuous places within its limit, and shall cause a copy of the same to be published once a week for three successive weeks in a newspaper published therein, or if no newspaper be published within the limits of said town, then in a newspaper published within said county; and that each such city shall cause a copy of the same to be published twice a week for three successive weeks in a newspaper published within its limits.

14th. This order shall take effect upon November 20, 1894.

6 WASHINGTON STREET, QUINCY.

BLAND IS WATCHED.

Thought to Have a Scheme to Thwart Carlisle's Plans.

THE EASTERN WAR QUESTION

A Subject of Much Speculation In Diplomatic Circles.

WASHINGTON, Dec. 14.—The announcement of Bland's determination to devote the few months that remain of his congressional career to an effort to get a bill from the coinage committee providing for free and unlimited coinage of silver has had a disturbing influence on those Democrats who favor and hope to pass Carlisle's reform bill.

They fear that Bland and the extreme silverites will join with the Republicans and others who are opposed to Carlisle's scheme and defeat its passage before the holidays. Bland has thus far refused to disclose his views concerning the bill. He proposes to wait until he ascertains the exact provisions of the one that he pressed.

The membership on the coinage committee consists of 17, of whom nine are known to be in favor of the free coinage of silver. It is a singular fact that during the last session, whenever it was known that free silver was marked for consideration, one or more of the silver men failed to appear, and taking advantage of their absence, the opposition would resort to dilatory tactics and thus prevent action.

It looks very much as if the same experience will attend the meetings of the committee at this session. It is doubtless true that free coinage is numerically as strong in both branches as at any time within the last two years, but no one familiar with existing conditions will agree with Bland in his declaration that the chances of passing a free coinage bill are better now than they have heretofore been.

Even if a bill could be gotten through both houses it would encounter a prompt executive veto. Hence there are many Democrats who do not believe in wasting the time of congress in contention over this question when it is impossible to accomplish any satisfactory results.

Our Foreign Affairs.

The house committee on foreign affairs yesterday passed the resolution of Representative Blair of New Hampshire, calling on the president for information as to what steps had been taken by this country toward mediating in the war between China and Japan.

A general understanding was reached that full information would be furnished during the coming month. The Blair resolution will not be reported to the house for a week, as it was feared it might have a tendency to complicate the consideration of the Japanese treaty in the senate.

The committee also urged unanimously the resolution of Representative Hitt of Illinois, asking for information as to the proposed payment of $425,000 as a result of the Behring sea trouble.

Some Power Has Interfered.

Considerable surprise is manifested here at the failure of the Chinese government to appoint an ambassador to conduct peace negotiations with Japan.

The latter part of last week the state department received word from Minister Denby at Pekin that the Chinese government would immediately make the appointment, the preliminary arrangements for which had been conducted by the American ministers at Tokio and Pekin, respectively.

While no information to that effect is obtainable at the state department, or the Japanese or Chinese legation here, the belief is expressed in some circles that a hitch of some kind has occurred tending to interfere in the appointment of the ambassador.

It is suggested that some of the foreign influence so effective in China affairs has made itself felt with that government, and has succeeded in stiffening somewhat its attitude respecting the peace negotiations and caused it to hestitate about making an appointment.

Congressional Doings.

The house passed three appropriation bills—the urgent deficiency, fortifications and Military academy—and made fair progress on the pension bill. Mr. Cockran secured a record-making vote on the appropriation for the collection of the income tax by moving to recommit the bill, with instructions to strike it out, but his motion was defeated by 120 majority, the vote standing 49 to 169.

The fortification bill passed carries $1,879,057, which is $5,478,646 less than the estimates, and the Military academy $497,678, which is $127,372 less than the estimates. The pension bill, which today is being devoted to, carries $141,381,570, which is $200.000 less than the estimates and $10,200,000 less than the appropriation for the current fiscal year.

The senate adjourned until next Monday. Practically all the time of the session yesterday was consumed in the discussion of the bill to establish a national university at Washington and the Nicaraguan canal bill. Senators Hunton of Virginia and Vilas of Wisconsin addressed the senate in support of the former and Mr. Morgan practically concluded his speech on the latter. During the day he asked the senate that unanimous consent be given, fixing a time for a vote on the bill, but this was refused.

Left Boston Behind.

BOSTON, Dec. 14.—David D. Snow, of the firm of I. N. Snow & Sons, dealers in provisions, groceries and general ship stores, has left town, and with him went Miss Alice V. Howard, bookkeeper for the firm. A keeper has been placed in the store by a beef merchant, who has placed an attachment upon the stock for $3000.

Nebraska Bank Closed.

KEARNEY, Neb., Dec. 14.—The Kearney National bank closed its doors yesterday. Liabilities about $125,000. The suspension was caused by a rumor which caused a run on the bank. None of the business houses have closed, and there are no indications of a run on the other banks.

Badly Scorched.

GALLOP, N. M., Dec. 14.—Two-thirds of the business portion of this city was burned. The fire started in a butcher shop from an unknown cause. The loss is $50,000.

Heavily Punished.

BOSTON, Dec. 14 - Salvatore Razzo, an Italian, was sentenced in the superior court to 20 years in the state prison for stabbing Guisseppe Lettirie last October.

The Patriot and Ledger.

Mrs. Elizabeth Green has sold her interest in the plant of the Quincy PATRIOT to Mr. George W. Prescott, with whom she has been associated in business under the firm name of Green & Prescott, printers and publishers, for a great many years. When Mrs. Green first entered the field of journalism, there were but few, if any, of her sex engaged on the local or editorial staff of either daily or weekly papers.

After a while the firm of Green & Prescott was formed, and continued much longer than the average of business firms. Both members of the firm were competent in their respective places, both were willing workers, and success crowned their efforts. Now that Mrs. Green has thought best to retire from the firm, we congratulate Bro. Prescott on becoming the sole owner of so desirable a piece of newspaper property, the more so as its high value is largely due to his good management.

Mr. Prescott has taken his son into company with him, and hereafter the Quincy PATRIOT, the oldest weekly paper in Norfolk County, the Quincy DAILY DEDGER, and other publications, will be printed and published under the firm name of George W. Prescott & Son. The junior Prescott, is a a "chip of the old block," cradled in the printing office, and like his father, a practical printer as well as a thorough newspaper man. Bro. Prescott is fortunate in having a daughter as well a son to assist him—Miss Annie L., a young lady of considerable literary talent,—and she will have charge of certain departments of the PATRIOT. The *Chronicle* extends its congratulations to the new firm of Geo. W. Prescott & Son, and its best wishes for the continued success of the PATRIOT and its offsprings. Mrs. Green in the early history of the Massachusetts Press Association, became a member, and afterward a member of the Suburban Press Association. Those who so often enjoyed her agreeable company on the pleasant annual re-unions of the Associations, while regretting her retirement, will wish her much happiness in her declining years.—Worcester West Chronicle.

One of the best papers published in Masssachusetts is the Quincy PATRIOT which is now published by the new firm of George W. Prescott & Son who are so well and favorably known by the newspaper fraternity. This paper was established in 1837, and during these many years has been a power for good, not only in its own city, but in all those through which its influence extends. We have nothing but good wishes for the PATRIOT.—Foxboro Reporter.

The firm of Green & Prescott, publishers of the Quincy PATRICT, has been dissolved, Mrs. Green, the senior partner, retiring. Geo. W. Prescott and Son will continue the business, which, by the way, is one of the best in Norfolk County.—Hyde Park Times.

The Quincy PATRIOT and Quincy LEDGER are now owned by G. W. Prescott & Son, they having purchased the interest of Mrs. Green, in both papers. Green & Prescott have given the public splendid newspaper service and the new firm has a splendid outlook for a successful business. —Sharon Advocate.

Mrs. Green has sold her interest in the Quincy PATRIOT to George W. Prescott and Son, and it will be issued under their management hereafter. Since 1837 the paper has followed the pathway of success. We extend our good wishes to Editors Prescott and the PATRIOT.—*Dedham Transcript.*

Metropolitan District.

The "Greater Boston" commission is sending out these questions to the city and town officials and the representative citizens of the metropolitan district, accompanied with a request for replies:

1. Are you in favor of annexing your city or town to Boston, or of a metropolitan federation of the nature described in clause A, section 1, of the inclosed act?
2. If either, why?
3. What public service can be better performed by metropolitan control than under the existing conditions?
4. Would the improvement be in greater efficiency, or reduced cost, or both?
5. What effect would metropolitan control have on taxes in your city or town?
6. In creating a metropolitan federation, what form of government would you suggest?
7. Would you have its members appointed by the Governor, chosen by the city or town governments, or elected by the people?
8. Would you advise having the Metropolitan district formed into one county?
9. What system of taxation should be adopted to meet expenses of federated public service?

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles. THE INCOME TAX LAW

Exempts None Who Are In Receipt of Incomes Above $3500.

SOME DEDUCTIONS ALLOWED.

Points of Interest In the Much-Discussed Document.

WASHINGTON, Dec. 14.—The secretary of the treasury has approved the regulations prescribed by the commissioner of internal revenue for the enforcement of the collection of the income tax under the late tariff act. Under the regulations provided and approved pursuant to law, every citizen of the United States, whether residing at home or abroad, and every person residing or doing business in the United States, who has an annual income of more than $3500, shall make a full return of the same, verified by his oath, to the collector of internal revenue of the collection district in which he resides, or, if not a resident, in which his business or property from which income is received is situated, on or before the first Monday in March of each year.

The first return under the law shall be made on before the first Monday in March, 1895, and shall include all income from any source received in the year 1894, from Jan. 1 to Dec. 31 in said year. Guardians, trustees and all persons and corporations acting in any financial capacity are required to make similar returns, on or before the date mentioned, for all minors, wards or beneficiaries for whom they act.

Persons having less than $3500 annual income are not required to make the return, but all persons having an income in excess of that amount, whether it reaches the taxable limit of $4000 or not, must make returns as prescribed. The

Gross Gains, Profits and Income

returned by persons shall include:

1. Gross profits of any trade, business or vocation, wherever carried on.
2. Rents received or accrued during the year.
3. Profits from sales of real estate purchased within two years.
4. Farming operations and proceeds.
5. Money and value of all personal property acquired by gift or inheritance.
6. Premium on bonds, stocks, notes and coupons.
7. Income from trade or profession not by stated salary and not heretofore enumerated.
8. From salary or compensation other than that received from the United States.
9. From salary or compensation paid by the United States.
10. Undivided gains and profits of any partnership.
11. Interest received or accrued from all notes, bonds or other securities.
12. Interest on bonds or coupons paid of any corporations.
13. Dividends from corporations.
14. Income of wife or minor children or child.
15. All other sources of income not above enumerated.

The Deductions Allowed

on the return and therein enumerated are:

1. Four thousand dollars exempt by law.
2. Interest due and paid within the year.
3. National, state, county, school and municipal taxes paid, not including assessments for local benefits.
4. Amount expended in purchase or production of live stock or produce sold within the year.
5. Necessary expenses, specified by items actually incurred in carrying on any business or trade.
6. Losses actually sustained during the year specified.
7. Actual losses on sales of real estate purchased within two years.
8. Debts contracted and ascertained in the year to be worthless.
9. Salary or compensation over $4000, from which the tax of 2 per centum has been withheld by disbursing officers of the United States government.
10. Dividends included in the estimate gross profits from corporations on which the 2 per centum has been paid by such corporation.

How Corporations Are Affected.

All corporations, companies and associations, both resident and foreign, doing business for profit in the United States, shall make an annual return of all net profits above business and operating expenses on a separate blank prepared for them, and when duly verified by the oath of the president or other chief officer of such corporation, the returns must be delivered to the collector on or before the first Monday in March of each year.

The first return of corporations shall cover all net profits and income for the calendar year 1894. The exemption of $4000 allowed to persons is not extended to corporations, but the return must cover all net profits without exemption. The annual return of corporations must include:

1. The gross profits from all kinds of business.
2. The expenses, exclusive of interest, annuities or dividends.
3. The net profits, without allowance for interest, annuities or dividends.
4. The amount paid on account of interest, annuities and dividends.
5. The amount paid in salaries of $4000 or less to each employe.
6. The amount paid in salaries of more than $4000 to each employe, and the name and address of each of such employe.

The Gross Profits Include:

1. All profits of any trade or business.
2. Interest or coupons from bonds or other securities of any corporation.
3. Dividends received from any corporation.
4. Undivided profits of any corporation.
5. Premium on bonds, notes or stocks.
6. Commission or percentage.
7. Interest on government securities, not exempt by law.
8. Interest on other notes, bonds and securities.
9. Profits from sales of real estate.
10. From rents.
11. Profits from all other sources, to be enumerated.

The Operating Expenses

shall include:

1. Interest paid or accrued within the year on bonds or other indebtedness of such corporation.
2. Losses actually sustained during the year, which must be separately stated and fully described as to cause, date and amount.
3. All taxes actually paid.
4. Salaries and pay of officers and employes actually paid during the year.
5. Rents and necessary repairs.
6. All other necessary expenses which must be itemized and fully explained in the return.

The Net Profits

shall include:

1. All amounts paid to stockholders or shareholders.
2. The amount of undivided profits on hand or carried to surplus or any other fund.
3. Amount of net profits used for construction, enlargement or improvement of plant.
4. All other expenditures or investments from the net profits.

A MAINE MURDER.

Two Hired Men Are Suspected of Having Killed Their Employer.

PORTLAND, Me., Dec. 14.—A murder was committed in Gorham last night, the victim being Byron G. Coburn, a man 60 years old. Byron Coburn is the son of the late Edwin Coburn, and lives about seven miles from Portland on the old Coburn homestead. A hired man and a housekeeper reside with him. Last evening about 6:30 o'clock the inmates of the house heard a noise in the stable, which is a few steps away. Mr. Coburn thought it was a horse loose, and at once started for the barn. Shortly afterward the old man's dead body was discovered.

The old man's body was first discovered by James Lewis, the hired man. Coburn was lying with his feet to the door, and the top of his skull was smashed in. His hat lay on the floor in a position showing that on his entrance to the barn a scuffle had taken place.

A window about two feet square, used for throwing manure into the yard, was partly open. This window is quite high from the ground, and it would take an athlete to enter the barn in this way.

Lewis is suspected of having committed the murder, and is now under arrest, as is Joseph A. Coleman, another hired man. Both of these men were absent from home at the time the crime was committed.

It is thought that an investigation into his money affairs, which Lewis is said to be mixed up with in some way, may lead to fastening the crime upon him. Coroner Perry of Portland will at once summons a jury.

Vain Regrets.

NEW BEDFORD, Mass., Dec. 14.—Daniel M. Robertson, the wife murderer, has prepared a written statement of his case. He expresses sorrow for the crime, and warns young men to profit by his experience. Robertson spent much of yesterday sobbing and praying. His daughter Helen visited him yesterday afternoon. The interview ended in complete reconciliation, the daughter forgiving her parent and praying with him for forgiveness.

Disappointed in Love.

LYNN, Mass., Dec. 14.—G. W. Lattimer was shot yesterday by Annie M. Brewer because he intended to break off his engagement with her. His recovery is doubtful. Miss Brewer confessed the shooting to Dr. Wilkinson, and expressed the hope that it would be fatal. Dr. Wilkinson was arrested for failing to notify the officers of the woman's presence at his house. She has not been captured.

Worthy of Consideration.

WASHINGTON, Dec. 14.—The house committee on pensions favors an increase in the pension of Hosea Brown, aged 103, a veteran of the war of 1812, from $40 to $60 a month. Brown served as private in the New York troops. He is now helpless and almost blind. The report urges immediate action by congress, as Brown has no relatives on whom to depend.

For a Greater Portland.

PORTLAND, Me., Dec. 14.—Papers of notification were served in the city clerk's office of both Deering and Portland, yesterday, informing the two municipalities that the question of annexation will be brought before the legislature. Large petitions from cities will go to the legislature and a determined effort will be made to bring about annexation.

Dr. Maxwell's Treatment.

PORTLAND, Me., Dec. 14.—Dr. Maxwell, a veterinary surgeon, attended a sick horse belonging to the city. The animal was suffering from inflammation of the bowels, and Maxwell treated him by pouring liniment into his ear. The city claims this killed the animal, which died in great agony. Maxwell was fined $20 and costs yesterday. He appealed.

Fegan For President.

BOSTON, Dec. 14.—At the annual meeting and dinner of the Boston Shoe association the following officers were elected for the ensuing year: President, W. J. Fegan; vice president, J. A. Moore; secretary, Avalon Graves; treasurer, H. J. Vinal; directors, T. C. Burgess, Ralph Mears, James J. Brophy, A. W. Davis, A Clark Newhall.

Opposing Gregory's Ejection.

PROVIDENCE, Dec. 14.—The Democratic state central committee has filed application for writ of injunction to prevent William Gregory from taking seat as senator from North Kingston, to which he was elected, action being taken on the ground that Gregory is a resident of Providence, and not of the town where he was elected.

Recovered Her Reason.

NEW YORK, Dec. 14.—Mrs. Catherine Fitzgerald, who was committed to the insane asylum last June, after having been found guilty of the murder of Mrs. Carrie Pearsall, was examined yesterday and found to be sane. She was thereupon released and returned to her home. She is a sister of Police Inspector McLaughlin.

High Winds Interfered.

BOSTON, Dec. 14.—The tug Curlew, with a lighter and steam derrick, proceeded to the stranded schooner Richard C. Steele, which is sunk on Devil's Back ledge, but owing to the high northwesterly gales it was not possible to do anything. It is feared that the heavy gales will badly damage the vessel.

To Improve Warships.

WASHINGTON, Dec. 14.—Secretary Herbert has initiated the policy of reducing the woodwork aboard men-of-war by appointing a board to consider the subject and taking up the designs of our warships in detail to report wherein reductions of joiner work can be made.

Street Murder at New Orleans.

NEW ORLEANS, Dec. 14.—J. J. Davis yesterday shot and killed George Boya on a street corner. Davis was the crier and Boya the deputy sheriff who were dismissed last week for being implicated in the charge of tampering with the petit jury list.

Mansion Too Small.

ALBANY, Dec. 14.—Governor-Elect Morton's winter retinue at Albany will consist of 15 servants. The mansion will prove inadequate for the family, and Superintendent Perry of the capitol will prepare at once for an addition.

Whitecappers Indicted.

ATLANTA, Dec. 14.—The United States grand jury has indicted 36 prominent men of Murray county for whitecapping.

BIRTHDAY REMEMBERED.

The Reporter's Story of a Surprise to Editor Prescott.

A quiet little game of whist on Coddington street had scarcely got underway Thursday evening, when there was a descent upon the house, and this was surprise No 1 for Mr. and Mrs. George W. Prescott and Mr. and Mrs. Marshall P. Nye.

The former couple were summoned home to meet some relatives from out of town, and were ushered into the presence of a house full of neighbors, business associates of Mr. Prescott and many of his brother editors, who were pleased to assemble and congratulate Mr. Prescott upon his 60th birthday. Boston, Revere, Dedham, Randolph, Braintree and other towns were represented.

Surprise No. 3 followed a few minutes later when the employes of the PATRIOT and LEDGER, some twelve or fifteen entered in a body, bringing with them a comfortable Morris chair. The presentation speech came later and was made by Editor M'Ewan of the Braintree Observer, which paper is also published by George W. Prescott & Son. Attached to the chair was a souvenir ribbon badge with the names of the employes.

The Boston paper firm of A. Storrs & Bement Co., had also forwarded a beautiful banquet lamp with a brass and onyx stand and a little later came another Morris chair, a gift of the Granite City Club. There were other tokens including some choice flowers from Mrs. Col. Packard and others.

The daughters of Mr. Prescott had planned the surprise and the guests found abundance of refreshments in the dining room, and were entertained by music, etc.

Wales was the caterer and his ices and creams, salads and escalloped oysters, were unusually good. He personally superintended the table, and the appeal of the inner man was well supplied.

The music by Rossi's orchestra of three pieces, was mostly new selections and rich in quality, and can be highly recommended for such occasions.

Four generations in the family were represented on this pleasant occasion: Mrs. Joshua Fisher, the mother of Mrs. Prescott,—a lady of 84 of remarkable vitality—the five children of Mr. and Mrs. Prescott, and their oldest grandson, Carl Fisher Prescott.

Mr. Prescott received regrets from all over New England, from editors who were unable to be present, and he will always prize highly the congratulations and kind wishes extended.

It was a social gathering where all seemed to enjoy themselves and Mr. and Mrs. Prescott were pleased to see them all.

The QUINCY PATRIOT with which Editor Prescott has been associated almost all his life is but three years younger than its proprietor, and few citizens of Quincy can keep house without it. The LEDGER is the daily edition of the PATRIOT, and a vigorous infant in its sixth year, while the firm publish a weekly for Braintree known as the OBSERVER.

Quincy Night.

Thursday night was Quincy night at the "Dilkhush" which is being held in the East Armory, East Newton street, Boston, in aid of the Free Home for Consumptives. Many Quincy people were present, among whom were Rev. Fr. Cunningham, Postmaster Burke, Mr. Durgin and many others. The ladies wish to thank those who so kindly contributed, amongst whom were all the store keepers of Quincy and Mr. Callahan and Mr. Little of West Quincy and also the ladies who generously donated.

A BUSY EVENING.

The City Fathers Wrestle With Important Matters.

THEY REFUSE TO INCREASE DEBT

Widening of Coddington Street and Other Improvement Postponed.

The only absent member at the meeting of the Council Thursday evening was Councilman Sullivan.

Coddington and Adams Street.

The order widening Coddington street came up for its final passage.

Councilman Anderson thought this an important matter. It never could be widened any cheaper than now and thought order should pass.

Councilman Federhen Jr., asked if there was no way to widen without taking the whole of Mr. Furnald's lot.

Councilman Holden replying said the matter was gone over thoroughly and all argued it was better to take the whole of it, as the part left would be but a small piece. Of the appropriation now called for one third or one quarter would come back in betterments.

Councilman Adams, thought with our tax rate at $17 and other heavy burdens upon us we have got to economize. There was no pressing need of widening these streets. No accident had ever happened and it is probable within the next five years the tracks will have to be relocated. We ought to limit ourselves to the necessary expenditures that are upon us. He saw no reason why we should select Coddington and Adams streets.

The Council refused to pass the order by the following vote:

YEAS — Anderson, Babcock, Holden, Litchfield, Moxon, Robbins—6.

NAYS—Adams, Baker, Bigelow, Federhen, Jr., Holbrook, Johnson, Lamb Lennon, McKeon, O'Brien, Rooney, Shackley, Snow, Waterhouse—14.

ABSENT—Clark, Sullivan.

The order rebuilding a part of Adams' street, the Council also refused to pass by the following vote:

YEAS,—Anderson, Babcock, Federhen, Sr., Lamb, Lennon, Litchfield, McKeon, O'Brien, Robbins, Rooney—10.

NAYS,—Adams, Baker, Bigelow, Holbrook, Holden, Johnson, Moxon, Shackley, Snow, Waterhouse—10.

Absent,—Clark, Sullivan.

Petitions were received from the New England Telephone and Telegraph Co., to locate 3 poles on Spear street and from Mrs. C. F. Carlson to keep an intelligence office. Referred.

Report of Committes.

The Committee on Elections reported the result of the election of Dec. 4. (This did not include report of recount.) Report accepted.

Public Hearing.

At 8 o'clock the public hearing on discontinuing a part of Quarry street, and relocating the same was called.

J. W. McAnarney appeared for Mr. Dell. The entrance to Mr. Dell's quarry was from this street. He owned part of the way to his quarry but was obliged to now go over a small strip of land owned by the Adams Temple and school fund. The proposed change removed Quarry street some 200 feet north, but Mr. Dell would not object if the Council before passing the order would see to it that he had a right of way over this 200 feet which belonged to another party.

Councilman Holden asked if Mr. Dell had anything in his deed to show his right to Quarry street.

Mr. McAnarney replied that they did all but a small piece which they claimed a right to cross by adverse use.

Peter T. Fallon did not care about saying much about the matter. He was unfortunate enough to do business in Quincy and his quarry was on Quarry street. He then went into the history of Quarry street. A blast had thrown part of the street into his quarry. He promised that he would relocate the street and this was the plan. The street its entire length was in a dangerous condition. He was not a lawyer, jeweler or dry goods merchant, who could move their desk anwhere. Other places helped business men but here they did not.

Councilman Holbrook asked if there were any other business men that would be benefitted by the relocation, to which Mr. Fallon replied yes.

Upon questions by Mr. McAnarney, however, it came out that Mr. Fallon would be about the only party aided.

Mr. Fallon promised to see to it that Mr. Dell had a right to the street if relocated.

W. G. A. Pattee, Esq., argued early action in this matter. Mr. Fallon had left him in such a way that he could not let his property. The city had been liable to an indictment for the past three years. He either wanted the old way restored as it was, so he could reach his quarry, or this new way built.

Councilman Holden said the committee had done all that was possible to push this matter through.

At 8.45 the hearing closed.

A motion was made by Councilman Moxon that the matter be recommitted with instructions that they request Mr. Fallon procure rights to abuttors.

Councilman Federhen, Jr., objected, and classed Mr. Fallon's remarks as nickle plated nerve. When a man comes here and admits he has taken two-thirds of the road we should consider the matter as a committee of the whole. He did not consider it a part of the Council's duty but the executive who should with the City Solicitor proceed to sue Mr. Fallon.

Councilman Moxon said there was an agreement made with Mr. Fallon on such a plan as this and action was withheld. We should not delay this matter any longer

Councilman Johnson objected to the latter part of the motion.

Councilman Moxon withdrew the latter part of the motion, after which the matter was recommitted.

Permanent Men and Horses.

The Committee on Fire Department, reported an order changing ordinance No. 1, so that it should read for Hose companies 3 and 4, ten men to each, two of whom shall be permanent at a salary of $14 each per week.

Councilman Federhen, Jr., offered an amendment changing it to one permanent man each.

Councilman Lennon was not in favor of putting horses in Wards 2 and 4.

Councilman Moxon believed their should be two permanent men and two horses in each station. The horses to be for fire service, but to be used by the city within a certain distance of the station.

Councilman Holbrook believed Ward Six should have horses and permanent men. He also thought men could be hired for $12 per week.

Councilman McKeon did not believe in reducing salary.

Councilman Baker thought Wards Five and Six should have permanent men and horses.

Councilman Lennon said the councilmen had pledged themselves at the dedication of new hose houses, but he did not pledge himself for a plate of beans.

Councilman Federhen, Jr., moved the order be laid on the table until the next meeting of the Council.

Councilman Moxon amended that it be referred to Committee on Salaries.

The order was referred to the Committee on Salaries.

The Committee on Fire Department reported an order appropriating $250 for a horse for Hose 2, and that the horse used at West Quincy be transferred to the Fire Department. To Committee on Finance.

The Committee on Finance reported, ought to pass, an order transferring $200 from enforcement of liquor law to special police. Under suspension of the rules the order was passed to be ordained.

The same committee reported an order appropriating $100 for use of Board of Health. All rules were suspended and the order passed to be ordained.

The Committee on Streets reported an order granting the Electric Light and Power Company permission to erect five poles on Sumner street. Ordered to a second reading.

The Committee on Streets recommended leave to withdraw on a petition of Manet street railway to cross Sea street and relocating and regrading School street. Adopted.

The Committee on Streets recommended that the following orders be referred to the incoming council: Extension of Glencoe place; laying out and accepting Holmes and Moscow streets, Faxon road, portion of Broadway, Billings road, Madison street, Glover, Nightingale and California avenues; regarding portion of West near Centre streets; paving gutters on Walnut street; and enlarging culvert on Washington street near its juncture with Canal street.

Councilman Holbrook moved that part relating to Broadway be referred back to Committee on Streets with instructions to report order at next meeting accepting the street.

After some discussion Councilman Holbrook's motion was lost and the report was then adopted.

The order transferring $100 from enforcement of liquor law to the police station, was passed to be ordained. Councilman Holbrook voting no.

The orders appropriating $3,600, and $3,000 for schoolhouse lots at West Quincy and Norfolk Downs came up for final passage.

Upon motion of Councilman Moxon they were laid on the table.

Upon motion of Councilman Moxon, the Committee on Public Buildings were instructed to ascertain if a suitable lot could be obtained on the south west corner of Willard and Robertson street.

Councilman Holbrook moved to adjourn. Lost.

Councilman Moxon moved the suspension of rule one which prevailed, and it was then voted that the Council adjourn until next Thursday evening.

Adjourned at 10.50.

Reform Club Still Lives.

The annual meeting of the Quincy Reform club was held on Monday evening and the following officers were re-elected:

President,—John D. Nutting.

Vice Presidents,—Henry H. Faxon and Charles H. Hersey.

Directors,—Theophilus King, Nathaniel Nightingale and Elmer W. Baker.

Secretary and Treasurer,—Henry Chubbuck.

RECOUNT FINISHED.

A Change in the Vote of 14 of the 18 Recounted

MAJORITY OF 28 FOR HODGES.

The Plurality of Councilman Johnson Reduced from 32 to 26.

The recount of the votes for Mayor, Councilmen at-large and Councilmen from Ward Three is complete, and except in Ward Three there is no change in the grand result.

The recount, however, changed the vote of 14 of the 18 candidates for the offices.

For Mayor, Hon. William A. Hodges lost one and Stephen O. Moxon gained one, and the majority for Mr. Hodges is 28.

Only two of the ten councilmen-at-large have the same vote given them by the election count, Messrs. Sprague and Hearn. Gains were made by Messrs. Bigelow, Shackley, Anderson, Avery and Holbrook. Loses by Messrs. Adams, Johnson, and Baker.

The greatest gains were 5 each for Bigelow, Shackley and Anderson. Councilman Adams lost 7 and Councilman Baker 5.

LADIES' NIGHT.

The Royal Arcanum of Wollaston Royally Entertain.

John Adams Council, Royal Arcanum of Wollaston, gave a successful Ladies' Night at the K. of H. hall on Thursday evening. The hall was crowded. Regent William C. Pierce was the master of ceremonies.

Grand Regent Reynolds and Past Grand Regent Goodwin spoke upon the developement and benefits of the order.

The Royal Arcanum is a fraternal beneficiary order, with just enough of secret society machinery to make it interesting. It was incorporated under Massachusetts laws is 1877. The objects of the order are (1) fraternal union; (2) moral and material aid to members and their dependents; (3) education of its members and assistance of widows and orphans of deceased members; (4) relief of sick and distressed members; (5) payment of death benefit of $3,000 to full, and $1,500 to half-rate members.

The entertainment which consisted of singing by the Boston Singers, Mr. T. E. Johnson, first tenor; Mr. W. A. Walker, baritone; Mr. J. F. Hanshne, second tenor; and Mr. W. H. Clarke, basso; assisted by Mr. Harry James, humorous was of surpassing merit.

Musicale.

Through the efforts of Mr. A. L. Hood, a very successful musicale was given by the Congregational Church choir on Thursday evening at Miss Mary A. Gardner's home, 7 Franklin street. The programme was as follows:

Piano solo, Mrs. A. L. Hood.
Soprano solo, Miss Alice Litchfield.
Vocal duett, Misses Hayward and Dinnie.
Soprano solo with violin obligato, Miss May McPhail and Mr. Hood.
Tenor solo, Mr. Wigmore of Boston.
Alto solo with violin obligato, Miss Edith Gray and Mr. Hood.
Bass solo, Mr. Robert Van Buskirk of Allston,
Duett, Misses Mary Evans and Mabel McKenzie.
Baritone solo, Mr. Albert Hayden.
Contralto solo, Miss Gardner.
Tenor solo, Mr. Ernest Gourd.
Tenor and bass solo, Messrs. Bianchi and Hood.
Bass solo, Mr. Parker Souther

The next meeting relative to the formation of a Rebekah lodge will be held in Odd Fellow's hall next Thursday evening. Odd Fellows wives, and daughters of members, and unmarried ladies over 18 years of age are eligible to membership.

TIME IS UP.

The Deposit of Candidate Moxon Still With Mr. Faxon.

Monday, Mr. Moxon, the Republican candidate for Mayor at the recent municipal election, deposited in the hands of Henry H. Faxon $200 in accordance with a proposition which he that day made to the editor of the Quincy Advertiser.

The proposition was that he (Moxon) could pay to any person or persons who would prove to Mr. Faxon's satisfaction, that he (Moxon) had in any way authorized or directed to be used or distributed in Quincy or elsewhere, for election purposes, any quantity, large or small, of any kind of intoxicating liquor.

He also stated that if the amount named was not attractive enough he would increase it to $500. This proposition was to remain open until Friday noon, Dec. 14.

The time therefore expired today at noon and up to that time the Advertiser had not accepted the proposition. Mr. Faxon, however, says he has received some confidential information about the liquor used but will make no statement at present

The Pigeon Show.

The mammoth pigeon show held in Horticultural hall, Boston, this week is the most successful affair of its nature ever held in this country, there being on exhibition 1250 of the finest high class pigeons in existence.

Many of these birds are valued at very high figures, there being several instances during the show when more than one hundred dollars was refused for a single specimen and that not a first prize winner.

The exhibitors did much to educate the public concerning the fancy and to teach it that there is something in the term pigeon beyond the ordinary "duffers" that fly about the streets.

Dr. W. G. Kendall, of Atlantic, exhibited 37 specimens on which he was awarded 7 first prizes, 11 seconds, 7 thirds, 7 fourths; 32 prizes in all, which will give an idea of the quality of his stock.

The exhibition will remain open until 10 o'clock Saturday night, this last day having been added for the accomodation of school children, who can learn more from an hour spent looking at these beautiful pets than in days reading of them. Also for the benefit of children the admission fee to them has been placed at but fifteen cents.

FREE SPEECH UPHELD

Socialist Liebknecht Will Not Be Punished by the Reichstag.

TALK OF CRIMINAL PROSECUTION

Is Now Causing a Sensation In the German Empire.

BERLIN, Dec. 14.—The committee of the reichstag, to which the matter was referred, has rejected, by a vote of 9 to 4, the proposal to prosecute Herr Liebknecht. The committee also rejected as extraneous Herr Singer's proposal to formally record the privileges of the reichstag. Dr. Pieschel was appointed to report to the house that the constitution prohibited the prosecution of the Socialists. A majority of the members of the committee appeared to be of the opinion that prosecution after the close of the session would be inadmissible.

WILHELM LIEBKNECHT.

Some of the papers state that the government is preparing a bill to extend the existing legislation for the protection of the emperor. The North German Gazette publishes a remarkable article advocating the revival of the cartel.

How It Was Brought About.

Herr Liebknecht was one of the Socialists who refused to cheer for the kaiser a week ago, and who on last Wednesday protested against the action of the Conservatives in denouncing the Socialists for remaining seated during the cheering for the kaiser. The behavior of the members of the Right, he said, ought rather to be denounced.

The reichstag had been slighted by the ruling authority. A change had been made in the chancellorship without the reichstag being considered worthy a single word of explanation. "The speech from the throne," he said, "speaks of equitable justice, while it concurrently announces muzzle law. That is hypocrisy."

Here Herr Liebknecht was interrupted by a storm of protests from the Right. Liebknecht said also that the capitalistic state was un-Christian and contained the

Sources of All Immorality.

not the social democracy, but the corrupt social system, needed reform. Nothing in existing conditions justified the proposed repressive legislation.

On Monday, Chancellor von Hohenlohe informed Herr von Levetzow, president of the reichstag, that the Socialist members of that body who remained seated and refused to take part in the cheers for the emperor called for by President Levetzow at a week ago Thursday's sitting might be prosecuted upon charges of lese majeste. The public prosecutor has requested President von Levetzow to give his sanction of the

Criminal Prosecution of the Deputies.

The proposal is causing a tremendous sensation. Paragraph 11 of the German penal code has hitherto been generally interpreted as affording immunity from punishment to the representatives of the people on account of actions in parliament undertaken by them in their capacity as deputies.

The public prosecutor of the government opposed this issue on the ground that the refusal of the Social Democrats to take part in an act of homage to the emperor must, in the first place, be construed as an act of treason, and secondly cannot be considered as one of the "modes of expression necessary for the performance of parliamentary duties."

Left to England and Russia.

VIENNA, Dec. 14.—Germany, Austria and Italy have decided to allow Great Britain and Russia a free hand in the Armenian question. They will not themselves send delegates with the Turkish commission appointed to inquire into the outrages. The czar has intimated that he is resolved to allow no modification of the Berlin treaty with regard to Armenia.

The Rothschilds' Terms.

LONDON, Dec. 14.—The Jewish Chronicle asserts that the Rothschilds secured, as a precedent to their placing the recent Russian loan, a promise from Russia that Jews in that country would be accorded better treatment than they have heretofore received.

Famous Frenchmen Dead.

PARIS, Dec. 14.—Captain Morhain, who accompanied the Count of Paris to America in 1863, is dead. M. Jean Francois Raoux, the well-known French painter, is also dead. He was born in 1808, and was made an officer of the Legion of Honor in 1889.

SYMPATHY FOR M'KEAN.

Indian Head Bank Cashier Could Easily Have Stolen Thousands.

NASHUA, N. H., Dec. 14.—Relative to the transactions at the Indian Head National bank, Cashier McKean was away at the time of Commissioner Dorr's examination on Saturday morning, and the irregularities were discovered during his absence. On his return to the bank he was asked to explain.

He labored hard all that day and Sunday to make balances. He went home Sunday night and appeared a good deal worried, but no one suspected anything wrong.

Monday he came to the bank early in the morning, and left word that he was going to Boston to see his bondsmen. At 7:30 he was last seen going in the direction of the Boston and Lowell depot. As he stated he was intending to return to Nashua from Boston, his absence did not attract much attention. It is now thought he went north on the morning train.

Had he desired to rob the bank he could have taken thousands of dollars in bills when in the bank Sunday, but he did not carry away a dollar. He bade his wife good-by as he left home.

The bank officials say that there will be no loss to that institution, and there is much sympathy expressed by citizens for the missing man.

Ex-Policeman Failed to Kill.

PROVIDENCE, Dec. 14. — Ex-Policeman Thomas F. McCusker attempted to murder his wife yesterday afternoon. McCusker had been dissipating for a long time, and his wife had left him and was working as a domestic. McCusker fired two shots through a door panel, and, hearing his wife's outcries, fled to the yard, where he fired three shots to intimidate any pursuers, and then decamped. Mrs. McCusker was hit by both bullets, but her wounds proved not to be serious. McCusker was arrested.

To Fight Their Employers.

HAVERHILL, Mass., Dec. 14.—Eight lasters employed at Hussey & Hodgdon's shoe factory struck yesterday because their new price list was not accepted by the firm. Posters were put up yesterday warning lasters to keep away from factories where workmen are on a strike. The conditions seem favorable to a bitter war by the Lasters' union against lasting machines.

A Final Decision.

WASHINGTON, Dec. 14.—Secretary Lamont has addressed a letter to the presidents of the New York and New Jersey bridge companies, finally insisting that the bridge to be constructed across the Hudson river at New York must be a suspension bridge, or at least without a pier in the river.

Virtually a Dictator.

TIEN-TSIN, Dec. 14.—Prince Kung, president of the tsung-li-yamen, president of the admiralty and co-director in the war operations, has been appointed president of the grand council. This makes him virtually dictator, and will facilitate a settlement when Japan is ready to treat for peace.

May Result In Death.

RICHMOND, Me., Dec. 14.—Mrs. Angenette Blanchard was found by neighbors to have been nearly asphyxiated by coal gas. It is thought she will die. She is the widow of the late Captain Samuel Blanchard, well known as a steamboat captain on the Kennebec and Boston line.

New Cruiser In Commission.

WHITEWAY LINES

Will Be Followed by Newfoundland's New Cabinet—Financial Conditions.

ST. JOHN'S, N. F., Dec. 14.—The new government has assumed office, with Mr. Green as prime minister and attorney general. It is understood that the policy of the government will be on the lines of the previous Whiteway ministry. The feeling among the most intelligent people here is that the colony should accept the British government's suggestion of a royal commission to put the country's finances on a firm basis.

The rumor is reiterated to the effect that an appeal had been made to the imperial government for assistance.

The local banks keep closed. No statement as to their liabilities has yet been published. A committee of the shareholders of each bank has waited upon the directors and asked for statements of the banks' condition. The committees were informed that statements could not be completed before another week.

Meanwhile the facts obtainable show that the banks are in an extremely bad condition, and especially the Commercial bank.

Hon. Moses Monroe has issued an appeal to the shareholders of the banks and business people generally, asking them to combine, in the hope of securing an improvement in the financial condition.

He urged that experts from Canada be obtained to investigate the banks' estimate of what it is possible to advance on the assets, so as to enable trade to face its pressing needs, and then endeavor to obtain help from a syndicate of banks to reconstruct the whole financial fabric, as in the Baring liquidation.

Labor Resolutions.

DENVER, Dec. 14.—At the convention of the American Federation of Labor yesterday a spirited discussion was precipitated by a favorable report on the resolution asking congress to pass a law making it an offense, punishable by fine and imprisonment, for any employer to employ, during a strike or lockout of his employes, aliens who have resided in this country less than one year who have not expressed an intention of becoming American citizens. A substitute was offered that the resolution be referred to the incoming executive council, with instructions to secure legal advice regarding such law if passed. A resolution against land monopoly was adopted.

Many Islands In Danger.

VICTORIA, B. C., Dec. 14.—Steamer Warimoo brings startling news that a majority of the New Hebrides group are passing through a baptism of fire, earthquakes and volcanic disturbances, threatening the very existence of several of the largest and best islands, including Ambrym, celebrated for the excellence of its coffee. On the latter an entire village of natives was carried into the sea, the loss of life being estimated at 60 to 75 men, women and children, while in others of the group fatalities are also reported.

Indigaro Captured.

BOSTON, Dec. 14.—Guiseppe Indigaro, who is charged with killing Pasquale Capparelo, was arrested in Wilmington yesterday. He admitted his guilt, and tried to tell the officers that he was driven to commit the act by being constantly bothered by Capparello and other Italians in the house. The revolver with which the deed was done was found in his pocket. It is a 32-caliber, and of the bulldog pattern.

A Big Oil Deal.

TOLEDO, Dec. 14.—A big deal was consummated here yesterday involving from $6,000,000 to $8,000,000, which will make Toledo the most important oil center in the Ohio field, and give the Standard Oil company a new and formidable competitor. It is a combination of three independent companies with chances in favor of two more going into it.

A Mile In 1:52 3-5.

BUFFALO, Dec. 14.—In a trial for John S. Johnson's straightaway road record here, Leonert of the Buffalo Press Cycling club reduced the record-breaker's time, mile flying start, paced, to 1:35, and knocked off several seconds from Johnson's time for the mile, unpaced, making the distance in 1:52 3-5. Johnson's best time was 1:57 4-5.

Hopeful Women.

PORTLAND, Me., Dec. 14.—The annual meeting of Maine's Women's Suffragist association was held yesterday. President Hannah J. Bailey said it may be true that bad women will vote in the future, but bad men vote now. When women have a share in the government, no degraded women or degraded men will be allowed to vote.

Stopped by Olney.

ST. LOUIS, Dec. 14.—Attorney General Olney has ordered that a nolle prosequi be entered in the case of the Missouri American Railway union strikers. They were charged with violating the interstate commerce or anti-trust law, and with obstructing the mails by stopping trains.

Investment Company Sued.

BOSTON, Dec. 14.—Edward A. Sanborn has brought a suit in equity against the Debenture Investment company. Mr. Sanborn claims to be a creditor of the concern to the amount of $3000. The company will be requested to show why a receiver shall not be appointed.

Has a Bad Record.

PORTLAND, Me., Dec. 14.—H. W. Morgan was bound over to the grand jury yesterday for passing worthless checks. He committed the same offense in Manchester, N. H. Officers from that city came here last night and identified him.

No Decision.

ST. JOHN, N. B., Dec. 14.—The sparring exhibition last night between Eddie Connolly of this city and Johnny Griffin of Braintree, Mass., was the most scientific exhibition ever seen in this city. The six rounds ended without a decision.

In Statu Quo.

NEW YORK, Dec. 14.—The America's cup committee are anxiously awaiting some reply to their cabled message of Monday last. Until the committee's ultimatum is answered, the condition of affairs will remain unchanged.

In Behalf of the Persecuted.

BOSTON, Dec. 14.—A delegation from the United Friends of Armenia left this city last night for Washington, where they will endeavor to confer with President Cleveland relative to the Armenian massacre.

Suicide at Sea.

SAVANNAH, Dec. 14.—Benjamin Benham, a ship carpenter from Bridgeport, Conn., jumped from the steamship Tallahassee, en route for Tampa, and was drowned.

RUSSIA'S HAND SEEN

In Connection With Troubles Between Armenians and Turks.

AN AMBASSADOR AT WASHINGTON

Said to Be Engaged In Keeping Up the Strife.

LEXINGTON, Mass., Dec. 8.—Dr. Cyrus Hamlin of this town, whose article in The Congregationalist on the Armenian troubles a year ago has been translated by the Turkish government and sent out to the European powers as a defense for the recent atrocities committed upon the Armenians by the Moslems, was seen yesterday by a reporter.

Dr. Hamlin was for years a missionary in Turkey, and knows something of the temper of the Turks regarding Christians. He had a seven years' contest with the Turkish authorities before he succeeded in having the famous Roberts college built in Constantinople.

He said: "The Turks are capable of being incited to atrocious acts upon the intense Mahomedan feeling. They are capable of religious excitement that would lead them to the most horrible extent, without fear of a revolution. The danger is that the populace would become excited, and that the Armenians would be destroyed by a mob. That has been my fear.

"At the same time I have always said that the revolutionary movement is of Russian origin. Russian gold and craft govern it. That is my opinion still.

Revolution Impossible.

"The Armenians are so scattered in Turkey that the very idea of a revolution on their part is absurd. The Turkish population has been growing unfriendly to the Armenians for the past three or four years on account of their comparative prosperity.

"The Turkish government is wholly in excusable for these atrocities. It has been published in the newspaper reports that word was sent from Constantinople to subdue the rebellion. It would be just as reasonable to guard the wolves of Kurdistan from the attacks of the lambs from the plains. The Turkish government shows that it knows the weakness of its position by its frantic efforts to hide the truth from Europe.

"I have a strong suspicion that Navaro Yeni, the Turkish ambassador at Washington, is in league with Russia. He is a Greek. He belongs to the Greek church, and he is in natural league with Russia. I cannot see why the Turks have sent a Greek to represent them in America.

Yeni's Claims Refuted.

"Yeni has reported to the Turkish government that the Armenians in America are sending all arms through Persia into Turkey for revolutionary purposes. That is nonsense to anybody that knows anything about the matter. I venture to say that there has never been a rifle or a pound of ammunition sent into Turkey by the revolutionists of America. The whole idea of the thing from the Russian view is to give a good occasion for Russia's marching into the country and taking control.

"I am strongly opposed to Russia's going in, for her government will be much worse than the government of Turkey, if you only set assassinations aside. Russia will deprive the Armenians of their language on the Pan-Slavistic system. That has been Russia's scheme of late years in all the additions of territory she has made. The Armenians will have to give up their beloved language, which they have held to for centuries.

Misrepresented by Turks.

"I am profoundly disappointed at the folly and the wickedness of the Turkish government. And it's using what I have written for purposes for which it was never designed is exactly opposed to my views. That is evident to people who read the whole article. You may depend that the Turkish government has not produced it in full.

"The Turkish government can never exculpate itself from these atrocities by reference to any proposed revolution by the Armenians. The Armenians are, perhaps, 2,500,000 to 3,000,000 of unarmed peasantry, scattered among 20,000,000 of the Moslems, armed and accustomed to arms. Now, isn't such a revolution an absurdity on the face of it?

"I had hoped that in the present horrors the published report had been greatly exaggerated, but later advices only seem to show a greater degree of barbarity. The Turkish government has sent a commission to investigate the affair, and at the head is a shah, who is known to be an enemy of the Armenians. Of course that commission will not make a true report. It will be utterly unreliable. I feel that the Christian world ought to protest against these horrors emphatically. But I feel that the signatories of the Berlin treaty are under obligations to take up the question in their power.

Europe Could Stop It.

"Turkey lives only by the sufferance of the European powers. They can put a stop to these atrocities when they will. England, which has such immense interests in the country, can, without any great effort on her part, cause a discontinuance of such horrors. The Turks in this matter are financially foolish, for the Armenians pay larger taxes to the government than any equal number of Moslems, and have always been quiet, industrious and progressive.

"The revolution the Turks talk about is not in Turkey. It is in England, Russia and America. The revolutionists in those countries send out their publications to the Armenians in the districts of Turkey. These publications fall into the hands of the newspapers, and they are translated and published.

"The Turks, knowing of the existence of the secret revolutionary party, take these facts as an excuse to open attack on the Armenians. The idea that the Turks fear the Armenians or a revolution among them, is utterly absurd.

Uncle Sam's Representative.

WASHINGTON, Dec. 8.—Milo A. Jewett, United States consul at Sivas, Turkey, has been selected as the representative of the United States to join the commission of inquiry in the case of the Armenian outrages.

Smith Furnished Bail.

NEW YORK, Dec. 8.—Alderman "Silver Dollar" Smith, charged with felonious assault on August Glostein, was held in $2000 bail to await the action of the grand jury. Bond was furnished.

NOTE AND COMMENT.

It was just as we feared. The Cleveland limp got into the message.

Still the Democratic party is in official ignorance as to what hit it last month. The great leader let the subject severely alone.

Japan's suggestion that every time she has to wallop China that country will have to pay for the whipping in cash is calculated to hasten peace.

Secretary Carlisle still urges freer trade along with his financial scheme. The first has been pronounced bad by the people of the county, and can hardly inspire confidence in his other proposition.

As congress has practically decided to do nothing but pass necessary bills, such as appropriations and the like, the country has nothing to do but pull itself together and make the best of the present situation. The future looks brighter than it has since November, 1892.

WHAT OTHERS ARE SAYING.

After all Harvard should be content to have her head work lead that of the heels. It's surer and more profitable in the end. —[Taunton Gazette.

Ex-Senator Blair of New Hampshire, who was non grata to China, feels so chipper over the impending defeat of that nation by Japan that he is reaching for Mr. Chandler's senatorial seat.—[Philadelphia Record.

Uncle Sam's locker has ample gold now. He borrowed it. Uncle Sam's credit is good, thanks to Republican administration in time past; but it will not remain good if he has to continue long to borrow money to pay current bills with.—[Lowell Courier.

It is said that Cleveland's un-American policy has never made itself obnoxious in South Africa; but as England has a good, firm grip there, he apparently thought there was no reason for himself and Mr Gresham to do any work in that quarter —[Kennebec Journal.

With due respect to the Fifty-third congress it is proper to say that the public will probably prefer to have a permanent financial scheme envolved by a party and an administration which will not find it necessary to issue bonds bearing a high rate of interest to pay the ordinary expenses of government in times of peace.—[Milwaukee Sentinel.

Even if "a complete reform of the currency system is necessary," as Mr. Cleveland is quoted as declaring, no student of our financial history will venture to hope for any satisfactory work in that line from a Democratic congress or a Democratic commission. There are neither figs on the thistles nor grapes on the thorns this year.—[New York Tribune.

We suggest to those readers who find little or nothing in the message to hold their interest, and yet regard it as a patriotic duty to wade through the entire document, that they peruse it continuously with a view to identifying and separating all the passages which Mr. Cleveland himself wrote. This will lend at least the zest and sport of a literary game or puzzle to what would be otherwise a dreary task.—[New York Sun.

ANYTHING AND EVERYTHING.

There is no state in the union so anxious as is Texas to secure immigrants.

At first thought, it is rather surprising to hear of book publishing houses in Denver, and at Portland, Ore. But there are book publishers in these places and they get out some volumes that are creditable to their enterprise.

A Williamsburg saloon keeper, who calls his place Tammany Hall, has gone into mourning over the election. He has a stuffed tiger in his window decorated with a black patch over its right eye, a black crape bow around its neck, and a long crape streamer from its tail.

Sportsmen who have never seen a moose will be interested in the dimensions of one recently killed near the Ebeeme lakes in northern Maine. The animal measured 7 feet high at the shoulders and his body was 9 feet long. The measurement from his nose to his feet was 15 feet. The spread of his horns was 4 ft. 4 in.

A London firm engaged in the transportation of Jews from Russia to American countries has made a report that between January and October of this year the number reported was nearly 250,000, the majority of whom obtained pecuniary assistance from funds raised in their behalf. The country which most of them favored was the United States.

PERSONAL.

The first Japanese woman to study law and become a lawyer is said to be Mme Tel Sono, who belongs to an aristocratic family in Tokio.

The first colored woman to receive the degree of M. A. in the United States was Miss Mary Patterson, who was graduated from Oberlin college in 1862.

James E. Watson of Rushville, Ind., who defeated Objector Holman for congress, will be one of the youngest members of the house. He has been a politician and debater from boyhood. He lost the nomination for secretary of state last June by only 12 votes. Much of his popularity is due to his prominence in the Knights of Pythias and the Epworth league. During the campaign he made 150 speeches in his district.

It is said that James J. Tissot, the celebrated French artist, has entered a monastery of a most severe order. His water colors, "The Life of Christ," which were exhibited last year in the Champs de Mars, created a sensation, and were considered among the chief attractions of the exhibition. Some years ago Tissot was exiled from France for being a Communist, but when it was afterward explained that his object in joining was in case of revolution to protect the Louvre and Luxembourg galleries, he was pardoned by the government. He returned to Paris and fitted up a handsome studio on the Avenue des Bois de Boulogne. He has given the last few years of his life entirely to his water colors of "The Life of Christ," spending several months of each year in Jerusalem.

CONTEST FOR PRESIDENT

Mr. Bass Will Have a Rival in Councilman At-Large, Johnson.

Who will be the President of the next City Council, E. W. Henry Bass, or Charles H. Johnson? There is the question, who will answer it?

Mr. Bass has filled that office for the past two years in an impartial manner and has thus won the respect of both parties, and he has announced himself as a candidate this year.

Mr. Johnson, who is also reelected, and will doubtless step into Mr. Moxon's shoes as the leader of the Republican forces of the Council of 1895, is also mentioned as a candidate for the speakership, although in that position he could take no active part in the important questions that must necessarily come before this body.

Mr. Bass' abilities as a presiding officer of the Council are well known, while as yet those of Mr. Johnson are unknown quantity.

A majority of the Republican members of next years' Council are new members and it is hard to tell who they will favor, but a caucus of members elect will probably be held and it is hoped that it will not be a repetition of the one last year.

It is well known that last year a majority of the Republican members supported Mr. Moxon as president and that the Democrats came to Mr. Bass rescue which made a tie vote which was only settled by Mr. Bass voting for himself.

Whether the Democratic members of the next Council will support him again is an open question. There is no possibility of their electing one of their own members, and it would not be surprising if they support Mr. Bass again this year.

It is rumored that a quiet canvas is being made among the new members in favor of Mr. Johnson's candidacy, and friends of Mr. Bass are also stirring themselves in his behalf.

SERIOUS STABBING.

A Boy of Thirteen Uses a Jack Knife Upon a Schoolmate.

A school boy fight, a blow, quick to anger, a knife and a stab, tells the facts of a serious stabbing affair that occurred on Water street, yesterday afternoon shortly after 4 o'clock.

The principals in the affair were James Furmingham, aged 13 years, son of John Furmingham of Town Hill, and Leslie Smith aged 16 years, a son of James Smith of Packard's lane.

Both boys attended school at the John Hancock building and after school the boys with others got into a fight among themselves. During the progress of the row, the Furmingham boy got a blow in the face, which he says Smith gave him. His anger was instantly aroused and reaching into his pocket he drew forth his jackknife and made a lunge at Smith.

The blade entered Smith's chest just over the right lung. The point struck a rib which caused it to turn downward making a long jagged cut, which bled profusely, and the boy upon being carried into the school building fainted away.

Dr. Sheahan was summoned and upon his arrival he pronounced it a very serious case and immediately removed him to his home. During the first part of the night the boy was very low and at times it was thought he would not live until morning. This morning, however, he was reported as a little better.

Officer Gordon arrested Furmingham and took him to the police station where he was locked up. While in the police station he did not seem to realize that he had done anything very serious and when questioned about the affair, said he did not mean to cut Smith but the blow angered him and he drew his knife and made a lunge at Smith intending to frighten him so that he would keep away.

The knife with which the cutting was done was a large sized jacknife, the blade being about 2 1-2 inches in length and 3-4 of an inch in width.

Last night the Furmingham boy said it was a jackknife he cut Smith with, but later developments proves it to have been a shoe knife with a keen edge. After he had stabbed Smith he ran home and was seen to throw the knife through a window where it was found this morning.

Furmingham has the name of being a bad boy among his neighbors and at school, as it is said that he has threatened to cut schoolmates when he became angry.

JOLLY TARS.

A Social Held at Atlantic By the Squantum Yacht Club.

The boys composing the members of the Squantum Yacht club were under full sail Friday evening at Atlantic, not to participate in a regatta, for the sails of their yachts had been furled for the winter, but to trip the light fantastic upon the waxen floor of Music hall.

The occasion was the first grand social of the club and it goes without saying that it was a grand success from beginning to end.

Sprague's orchestra furnished music and from 8 until 2 o'clock A. M., all thoughts of worldy cares were forgotten in the enjoyments of the occasion.

Refreshments were served during a brief intermission, and when the final notes of the orchestra had died away it was with regrets that the affair had come to an end.

The New York Press prints a symposium of answers from Senators and Representatives; first, to the above question; and second, the causes of Republican success. Congressman Morse furnished the following:—

The Republican party in the Fifty-fourth Congress, as well as in the remainder of the present Congress, should hold the ground we already have and prevent further slaughter of our American industries in the direction of free trade as promised by President Cleveland and Chairman Wilson.

The Republican party should resist to the uttermost any legislation in the direction of free silver or vitiated currency, State banks, etc., and should do their uttermost to bring about an international agreement of the ratio of gold to silver.

The Republican party should do its uttermost to enact laws to restrict immigration, should favor the Nicaragua Canal, the annexation of the Hawaiian Islands under proper restrictions and safeguards and should make an attempt to repeal the odious, inquisitorial, income tax in the Fifty-fourth Congress.

The chief cause of Republican success was the assault upon every interest of the North in the direction of free trade by the Southern and controlling end of the Democratic party.

Second, the want of patriotism and national spirit and a humiliating and disgraceful diplomacy in the management of our foreign affairs.

Third, the absolute incompetency of the Democratic party to manage the affairs of this government, as demonstrated by eighteen months of rule, the issue of bonds and the increase of the national debt to meet the running expenses of the government.

LOOK OUT FOR PEDDLERS

The Quincy Police Scooped in Two on Friday—An Old Game.

Officer Ferguson arrested two Jews Friday noon upon suspicion that they were doing a swindling business.

The two men were going from house to house in the Centre soliciting photographs to enlarge. If the party at the house where they called had none to enlarge, they would produce a pair of gold bowed (?) spectacles which they claimed they had found and offer them at an extremely low price.

When searched at the police station, eleven pairs of these same gold bowed (?) spectacles were found on one of the men and eight pair upon the other. There was also a book containing a number of names with $1 paid marked against them, and a lot of old photographs.

The spectacle game is an old one and has undoubtedly been worked this time upon some of our citizens.

The men will appear in court this morning.

ALMOST A RIOT.

Work Suspended Yesterday on the Rebuilding of Liberty Street.

There came near being a riot on Liberty street Friday morning. Just before noon a taxpayer of Ward Three approached Foreman Lowe and asked for work but was told he could have none. A windy war followed, and as the indignant citizen had sympathizers near by, it looked as though a riot was about to break out, for it needed only one blow to set the two crowds to fighting. Some of the men stepped in between Foreman Lowe and the angry citizen, when the foreman evidently believeing that he who fights and runs away, lives to fight another day, made his retreat. He returned a little later and pulled off all the men and carts at work.

The Ward Three citizen who started the trouble claimed that he paid taxes amounting to $40 a year and that partiallity was show, as he could not get work, while men who only paid a $2 tax had work all the time.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles. With a commendable enterprise, in view of the universal interest aroused by the death of one of America's brightest intellects, the Lothrop Publishing Company of Boston has brought out a new edition of Emma E. Brown's "Life of Oliver Wendell Holmes. The chatty volume has always been a popular one, and, Miss Brown has revised it so as to cover the whole pleasant story of the helpful life of the "Autocrat." Miss Brown has done her work well. We catch glimpses of the man in all his phases—as poet, humorist, philosopher, physician, novelist, man of letters and man of the world. Admirers of his writings, lovers of his personality, will welcome this volume, which presents the life of one of the best-known, the best-liked and the best-loved of American men of letters.

RESERVE IS INVADED

Withdrawal of Gold Brings It Below the $100,000,000 Mark.

DEFEAT OF CARLISLE'S PLAN

Lay Result From a Combination of Senators.

WASHINGTON, Dec. 15.—The gold reserve yesterday took another downward plunge by the withdrawal of $4,875,000, leaving the net reserve at the close of business $96,341,884, or $3,658,116 below the $100,000,000 limit.

Assistant Secretary Curtis, in speaking of the situation, thought that the heavy demand for gold during the last week was to meet dividend and other payments falling due on Jan. 1 of each year. During the first two weeks of each December sterling exchange always advanced, and very often to the shipping point, as is the case at present.

After this week, Mr. Curtis thought the exportations of gold would materially decrease, if they did not cease altogether. Of course, it was a matter of serious regret that our monetary system was such as to permit these withdrawals against our will, but, until congress took the matter in hand, nothing could be done except to hand out the gold whenever demanded.

Carlisle's Bill May Fail.

Secretary Carlisle, having been assured by his Democratic friends on the banking and currency committee and in the house that his currency reform measure would pass that body, is devoting all his spare time among his friends in the senate.

He has had several conferences with the Democratic members of the finance committee. The bill, in many respects, is not entirely satisfactory to all the Democratic members of the committee and their associates in the senate.

But as the president and the secretary are very anxious to secure its passage, believing that it will tend greatly to relieve the present financial stringency and the industrial condition of the country, and that it is the only financial legislation that is likely to be enacted, they may be induced to give it their support.

They very much doubt, however, whether its passage can be secured in that body. All of the Populist senators are opposed to it, and will talk and vote against it. If the Republican senators array themselves in opposition to it, they can prevent its passage. Senators Aldrich, Sherman, Hoar, Lodge and others on that side have expressed themselves as decidedly opposed to Carlisle's scheme. They seem to be very positive that it cannot pass the senate

Concerning Anarchists.

The judiciary committee of the house agreed on numerous amendments to the anarchists bill as passed by the senate. The main amendment gives the foreign inspection of immigrants to United States consuls under the decision of the state department, instead of treasury inspector, as proposed by the senate bill. Another amendment requires every immigrant to have a certificate from the United States consul from the port at which the immigrant embarks.

Congressional Doings.

The time of the house was consumed with debate on the pension appropriation bill, and although it abounded in charges and counter charges, it lacked interesting detail. The bill carries $141,381,570 and was passed without amendment. The Hitt resolution of inquiry calling on the secretary of state for the correspondence relating to the payment of $425,000 to Great Britain in connection with the fur seal controversy was adopted The evening session was devoted to the consideration of private pension bills, and the house adjourned over until Monday.

Sultan Changes His Mind.

WASHINGTON, Dec. 15 — The United States will take no part in the investigation of the Armenian outrages. Finding that the limitations imposed by President Cleveland upon the functions of United States Consul Jewett were such as to prevent his joint action with the representatives of the old powers, the sultan has withdrawn his invitation to the United States to appoint a commissioner.

Turkish Oppression.

ODESSA, Dec. 15 —Hundreds of Turkish Armenians are crossing into Russia. The south Russian papers are full of their harrowing stories. A telegram from Tiflis says that the Turkish government has caused the arrest of the bishop of Moush and the members of his church council, because they informed the British consul of the Armenian outrages.

Death of General Porter.

NEW YORK, Dec. 15 Adjutant General Josiah Porter died last night at his home here. For the 24 hours previous to his death General Porter lay in a comatose condition. His death was the outcome of an apoplectic stroke at the Seventh regiment banquet a few days ago.

Nantucket Cattle Healthy.

NANTUCKET, Mass., Dec. 15.—The state cattle commission have about ended their labors in Nantucket. Over 600 animals have been inoculated at an expense of about $2 per head. Very few animals have been found to have any trace of tuberculosis.

BELVIDERE, N. J., Dec. 15.—The Pennsylvania, Poughkeepsie and Boston railroad was sold by Special Master in Chancery Gray yesterday. W. B Scott, chairman of the reconstruction committee of the bondholders, purchased it for $350,000.

Samoan Politics.

VANCOUVER, B. C., Dec. 15.—Latest Samoan advices say that local German residents are very confident that either German annexation or a protectorate will shortly be declared. If either takes place, no doubt internal troubles will cease.

As In Days Gone By.

ATLANTA, Dec. 15.—In a trial of whitecappers yesterday a sensation was created by witnesses testifying that a far-reaching Kuklux organization existed in that section, and that prominent government officials are members of it.

Jail Breaker Captured.

LACONIA, N. H., Dec. 15.—Word has been received from Granby, Que., of the capture of Fred S. Hunt, a notorious horse thief, who broke jail a year ago. Marshal Scott left to bring the prisoner back.

ROBERTSON HANGED.

New Bedford Wife Murderer Pays the Penalty of His Crime.

NEW BEDFORD, Mass., Dec. 15.—Daniel M. Robertson, the wife murderer, was hanged at the jail here at 10:42 a. m. yesterday. The execution was without special incident.

Robertson was born in Frederickton, P. E. I., 49 years ago. He murdered his wife Sept. 9, 1893, when she was in the house in New Bedford which she was keeping up by her own exertions.

Robertson married Mary McKenzie, who was a native of Belfast, P. E. I., about 20 years ago, in pique, because of disappointment in love for another woman. There appeared to be only love and trust on the wife's side, however, against brutal treatment and almost hate on the other.

Months were spent by Robertson in the correctional institutions of this county, until life with him became a burden, and Mrs. Robertson finally resolved upon a divorce. The suit was pending when Robertson was released from serving a sentence in the house of correction on the morning of the murder.

He went to his wife's house, demanded food and money. She was obdurate. and in his anger he seized a table knife, plunged it into his wife's face and fled. In a short time she died. Robertson was arrested shortly after he had committed the deed.

All efforts to bring about executive clemency proved futile. Thus it happened that for the first time within 40 years Bristol county had a hanging, the last being that of Murderer Clough of Fall River, who was executed in Taunton.

Seely Locked Up.

NEW YORK, Dec. 15.—Samuel C. Seely is a prisoner in Ludlow street jail, having arrived last evening from Chicago. President Crane of the Shoe and Leather National bank was with him. Mr. Crane had been, during the run from Chicago, unceasing in his efforts to get Seely to talk, but Mr. Crane, speaking to a reporter, said: "We know now no more of his methods than when I left New York. He would say nothing, absolutely nothing. The man has left me completely in the dark."

China Guarantees Protection.

SHANGHAI, Dec. 15.—The Chinese government has intimated to the foreign ministers its objection to receiving military guards in Pekin, the government answering for the efficient protection of the legations. Accordingly, the guards, numbering 50 each, at the British, French, German, Russian, American, Italian and Spanish legations, have been ordered to remain during the winter at Tien-Tsin, where are also stationed warships of Great Britain, France, Germany, Russia and the United States.

Looks Like a Farce.

PORTLAND, Me., Dec. 15.—The special committee to investigate the police were in session two days, and during that time not a single complaint had been made to them. No effort was made by the committee to receive evidence. The legislature may be urged to appoint a legislative committee, and grant immunity to all witnesses. If this is done, startling developments are expected.

Moriarity's Ride.

BANGOR, Me., Dec. 15.—William Moriarity created a sensation here last night by dashing through the principal streets whooping on a broncho, winding up with an attempt to ride into a restaurant. When put under arrest Moriarity drew a knife, but did no damage. The horse was nearly dead from exhaustion.

Foxy Japs.

LONDON, Dec. 15.—The special correspondent of The Times at Japanese headquarters says that Japan has arranged a fully-manned civil service, down to the minutest detail, ready to step in to administer north China, and especially the treaty ports, at the first sign of disorder or anarchy.

Final Vote Not Taken.

ITHACA, N. Y., Dec. 15.—The meeting of the Cornell faculty to decide whether or not to adopt the proposition to abolish intercollegiate athletics was a victory for the supporters of intercollegiate contests. The final vote was postponed until the second meeting of the next term.

Fighting the Pool Law.

PROVIDENCE, Dec. 15. — Evangelistic clergymen of Rhode Island held a meeting here yesterday to prepare a petition calling for the repeal of the pool law. The petitions will be circulated throughout the state and presented to the legislature.

Indoor Records Fall.

PHILADELPHIA, Dec. 15.—Two world's records for indoor cycling were lowered here last night. W. A. Barbeau reduced the half-mile record from 1:10 2-5 to 1:09 2-5, and W. C. Roome the two-mile record from 4:48 to 4:45 1-5.

A Brutal Husband.

BOSTON, Dec. 15.—Eliza M. Shea of South Boston was beaten by her husband last night, and so badly hurt that she was removed to the hospital. Shea was fined $20 only yesterday for assaulting his wife a few days ago.

Germany and France Are Interested.

PRETORIA, Dec. 15.—President Kruger says that the new Swaziland convention is practically a repetition of the old convention. Neither Germany nor France, he adds, will permit Great Britain to annex Delagoa Bay.

Combat Inevitable.

BOMBAY, Dec. 15.—A dispatch from Kajurikuch says that the Mahsud Waziris have finally refused the terms of the Indian government, and that a punitive expedition against them is inevitable.

Crew Saved.

NORFOLK, Dec. 15.—The schooner Williamine was abandoned at sea, her crew having been picked up by a British steamship. She loaded at this port and was bound for Plymouth, Mass.

Bullet Through His Head.

TORONTO, Dec. 15.—Ed Houghton, the well-known artist and cartoonist of The Star, fatally shot himself through the head last night. Despondency was the cause of the act.

No Case Against Them.

MEMPHIS, Dec. 15.—The jury in the lynching case brought in a verdict of not guilty in the cases of Richardson and Smith, and nol prossed the balance of the cases.

Attacked Wife With a Knife.

FALL RIVER, Mass., Dec. 15.—Patrick Madden seriously stabbed his wife in the breast and back last night. His wife is in the hospital. Madden was arrested.

Editorial Comment.

THE STABBING affair as South Quincy only shows that there are growing up in our midst a crowd of boys, who if not checked in their present career will some day help to swell the number who fill the State prisons of the country.

During the past year there have been a number of these young boys arraigned in court, and their crimes seem to form a kind of step ladder, running through the various stages such as being a stubborn child, larceny, setting fires, and the top round, has been reached, by perhaps a murder. Is it any wonder then that parents should ponder and say, "What shall we do with our boys?" It is a serious question and one that should be carefully considered.

Parents now-a-days are altogether too easy with their boys. In many cases they are allowed as much freedom as though they were of age, and the companionship into which they have been thrown nightly while on the streets has done much to bring about this change, for it is no uncommon thing to see even the smallest of boys puffing a cigarette, and to hear them utter oaths at the least provocation that would make an ordinary man blush. Yet these things are apparently allowed to go on without the least effort to check.

Anyone who is about the Centre can tell you about a young boy not over 10 or 12 years of age, who should be taken care of. He is a boy, who, instead of being at school, is roaming about the streets, loafing in different places and riding on teams, singing songs of an obscene nature to a crowd of men who give their encouragement by contributing a few coppers, which the next moment find their way into the money drawers in our stores in exchange for tobacco or cigarettes, notwithstanding the 16-year law. This being so, is there any wonder that in all seriousness the question is asked: "What shall we do with our boys?"

Social Club Dramatics.

Another of those pleasing dramatic entertainment by the First Church Social club, was given last evening in the chapel. It was the first of the season of 1894-5 and ushered in a series of events which are always looked forward to with pleasure. There was a large audience which manifested app oval of the rendering by the amateur actors.

The comedietta of "Old Cronies," in one act was first presented with this cast:

Dr. Jacks, a very mild old gentleman, Mr. Crane
Capt. Pigeon, a bluff sea officer, Mr. Boyd

It would be difficult to tell which gentleman excelled; both were excellent.

The amusing farce entitled, "That Box of Cigarettes" followed, with this cast:

Americus Vespucius Oldboy, a representative American citizen, Dr. Davis
Christopher Columbus Oldboy, his son and a backslider, Mr. Field
Tom Darling, a Nineteenth Century hero, Mr. Crane
Freddy Blake, a "Soph." and one of "the fellows," Mr. Russell
Miss Anastasia Bluebloodchester, a woman of mind and principle, Mrs. Crane
Mrs. Christopher Columbus Oldboy, her niece, a "foreign importation," Miss Whicher
Molly Blake, another niece, not to be trampled on, Miss Russell
Phyllis Darling, not yet "out" and bound to be "in it," Miss Adams

There were many amusing situations, and each member of the cast sustained well his or her character. There were three acts.

WEYMOUTH.

The Ladies' Auxiliary celebrate their anniversary, Friday evening, Dec. 28.

A sale was held in Clapp's hall on Wednesday evening under the management of The Temperance League of First Baptist church.

The matrons of the Quintette held a meeting Dec. 13, at the residence of Mrs. L. J. Hart.

The Tip Top Club of Weymouth, held their ladies' night at the residence of one of the members on Thursday night.

The Kindergarten and Miss Whelan grades of Braintree have been closed on account of diphtheria.

The Quintette club are going to observe their second annual ball, Dec. 31, at Clapp's hall, J. Howard Richardson's orchestra of Boston will furnish music.

BRAINTREE.

The Braintree Street Railway has hired one of the Brockton Co.'s snow plows.

George H. Howes and his mother leave for their Florida home next week. Good luck!

The Methodist and Baptist people will meet together at the M. E. church next Sabbath morning and hold union services.

Owing to the death of Elmer Morrison the Star Course concert, at First church, was postponed to Tuesday evening, Dec. 18.

Next Wednesday evening a parlor social or dime party will be held at the home of Mrs. E. C. Hatherway, president of the Universalist Ladies' Aid Society.

The Pansy society will give their annual entertainment Tuesday evening in the chapel. There will be vocal and instrumental music, recitations and a dialogue. Also a sale of fancy articles.

One of the converts who was baptized last Tuesday evening at the Baptist church was 81 years old. His wife, who was baptized at the same time, was about the same age. They were from Quincy. Never too late to choose the better way.

Mr. Cook, principal of the High school, while out picking evergreen, was taken ill opposite N. F. Hunt's place on Plain street. He was bought over to Dr. Bridghan's office by John Shay on a baker wagon.

The pastor of the First Parish will preach a sermon on charity on Sunday A. M., Dec. 16th, at 10.30 o'clock. He invites all benevolent orders to the service, Masons, Odd Fellows, Relief Corps, Knight of Pythias, etc., who are not bound to other churches.

At the Baptist church the pastor gave a good company of hearers a sermon from words found in John 14:22, and at the close of the sermon the right hand of fellowship was given three new members. In the evening a good congregation were present, and Rev. Mr. M'Elwain gave them a Bible reading, followed with very interesting and instructive remarks. Miss Bueluier's singing in both services made them the more pleasing.

Meetings have been holden every afternoon and evening during the week, and great interest was manifested. On Tuesday evening Rev. Mr. Hunt baptized five candidates for admission to the Calvary Baptist church in Quincy, of which he is pastor. A very large number were present; there were five ministers and quite a number of strangers from out of town. Tuesday evening's service will be remembered, and the plain remarks of Mr. M'Elwain on Free Salvation will not be forgotten. It is expected Miss Bueluier will be present next Sabbath afternoon and evening, and Mr. M'Elwain in the evening.

Last night Nahanton Tribe, No. 81, I. O. R. M., had their annual "Peace dance" in the Town Hall.

There was a large gathering of the tribe, their friends including "Squaws," and spectators.

Music was furnished by Tirrell's orchestra of Weymouth.

Installation of Pastor.

Rev. Robert Westly Peach, the pastor elect of the Presbyterian church, Water street, will be installed next Friday evening, Dec. 21, at 7 o'clock. The sermon will be by the Rev. Luther H. Angier; charge to the pastor, by the Rev. Scott F. Henshey, Ph. D.; charge to the people by the Rev. James T. Black. Other pastors from abroad and from Quincy will take part. A hearty invitation is extended to all the Christian people of Quincy of every name, and to the general public, to be present.

Blue Hill Predictions.

During the coming week the warmest days will probably be on the 15th to 16th and 19th, and the coldest on the evening of the 17th to 18th and on the 20th to 21st. The temperature will probably continue above freezing near the coast on the 15th and 16th, but is likely to average below freezing during the latter part of this week and the beginning of next. Rain or snow is probable on the 16th or early morning of the 17th and again between the morning of 19th and of the 20th. The remainder of the week will probably be fair, with the greatest probability of clear weather on the 15th, 18th and 21st.—Norfolk County Gazette.

THREE TURKEYS.

Three turkeys came sorrowing home to roost—
Home to roost as the sun went down.
Each thought of the usual Christmas boost
That the poultry trade would receive in town.
For birds must fatten,
And men must eat,
And the juicy worm
Makes the best of white meat,
So what is the use of bemoaning?

Three forms through the dark'ning barnyard stalk
With axes as sharp as sharp can be.
There's a scuffle of wings, a smothered squawk—
Three gobblers are sailing the jasper sea.
For birds may flutter,
But cooks must kill
And pile the Christ-
Mas table until
The festive board is groaning.

Three corpses lay in the morning light
On the kitchen dresser all ready to roast.
They are trimmed and skewered and rammed full tight
With sage and with everything else almost.
For "turks" must sizzle
And change to brown,
And if there's a turkeyless
Man in town
I've a bird that I don't mind loaning.
—San Francisco Examiner.

CHRISTMAS MIRACLE.

Once upon a time—it was so long ago that everybody has forgotten the date—there was a little boy named Wolff.

He was 7 years old. He had neither father nor mother and was left to the care of an old aunt, who was so cold hearted that she never embraced her nephew except on New Year's day and was so penurious that she heaved a deep sigh every time she served him to a dish of soup. The poor little fellow was naturally so good that he loved the old dame, only he had such a dreadful fear of her that he could not look at her without trembling.

Because Wolff's aunt was known to have a house upon a good street and a stocking full of gold she did not dare to send her nephew to the school for the poor, but she had so haggled with a teacher for a reduction in her prices that the teacher was vexed to have a scholar who brought her in so little. Little Wolff was also dressed so poorly that the fool's cap was often unjustly inflicted upon him or dunce was written upon his back, and his comrades were unreasonably prejudiced against him.

All the other pupils were sons of rich citizens and made the orphan the butt of their jokes or the object of their malice. The poor child was wretchedly unhappy and would often hide himself away in corners to weep.

The time of the Christmas festival approached. On Christmas eve the schoolteacher conducted all of the pupils to midnight mass and afterward led them back to their homes.

As the winter was extremely rigorous that year, and as for several days a great quantity of snow had fallen, the children all came warmly bundled and muffled in fur caps which turned down over their ears, double and triple coats, knit gloves and mittens and good heavy boots that had iron nails and thick soles.

Wolff alone presented himself, shivering in the same clothes that he wore every day and Sunday, summer and winter, and his feet were covered with only the low wooden shoes of Strasburg.

His naughty companions, seeing his poor appearance, made a thousand jests at his expense, but the orphan was so occupied in breathing upon his cold fingers and by the aching chilblains that he did not heed them.

Soon the band of boys, marching two by two, with the schoolmaster magisterially at their head, started for the priest's house.

It was good to reach the church, which was brilliant with lighted candles. The children, excited by the gentle heat, sweet perfumes and glittering snow, profited by the organ's din and the swelling chants to prattle in a low voice.

Each boasted of the delights which awaited him in his own family circle.

The burgomaster's son had seen before his departure a monstrous goose, with truffles spotted with marks like a leopard. At the house of an alderman was a spruce tree, all planted in a box, from which were suspended oranges, sugar toys and jumping jacks, and the notary's cook had fastened behind her head with a pin the streamers of her cap, which she never did except on days of inspiration, when she was sure to succeed in her famous sweet dishes.

And then the pupils also talked of what the Christ child would bring them, what he would put in their shoes, which all would take care to leave at the fireplace before going to bed.

In the eyes of all sparkled the anticipation of joy. They thought of the paper roses, the bags of nuts, the trumpets and drums, the laden soldiers arranged in battalions, menageries smelling of the varnished wood and purple puppets that could tumble and jump.

Little Wolff knew very well from experience that his old avaricious aunt would have him go to bed without any supper, but innocently he hoped that the Christ child would not forget him, for had he not been all the year as good and hardworking as possible? He, too, planned to put his pair of wooden shoes close to the ashes in the fireplace.

The midnight mass terminated, the faithful went away impatient for the treats which were to follow, and the troup of pupils, always two by two and following the teacher, left the church.

But under the porch, sitting on a stone bench surmounted by a stone niche, a child was sleeping—a child covered with a white woolen robe, but with naked feet, notwithstanding the cold. He was not a beggar, for the robe was clean and new, and near him upon the pavement of the vestibule, wrapped in a coarse cloth, were a square, a plane, a hatchet, a polisher and the other tools of a carpenter's apprentice.

Lighted by the stars, the child's face, with its closed eyes, had an expression of divine gentleness, and his heavy red brown ringlets seemed to shine like an aureole around his white forehead.

But it would have made you grieve to see the child's feet blue with the cold that cruel December night.

The pupils so well clothed and shod for the winter passed indifferently before the unknown child. Some of them cast upon the little vagabond a look in which could be read all the common contempt of the rich for the poor—of the well fed for the hungry.

But little Wolff came out of the church the last of all and stopped, very much moved, before the beautiful sleeping child.

"Alas," said the orphan, "it is frightful for the poor little one to go without shoes when the weather is so cold. And it is still worse not to have either slippers or shoes to put before him while he sleeps on this of all evenings, so that the Christ child might have a place to put something in to comfort his misery."

Carried away by his good heart, Wolff drew off the wooden shoe from his right foot and softly put it before the sleeping boy. Then, as best he could, hopping on one foot, soaked with snow water, footsore and forlorn, he returned to his aunt's house.

"Look at him, the good for nothing!" cried the old woman, full of fury upon seeing him return with but one shoe.

"What have you done with your other shoe, you little, miserable young one?"

Wolff did not know how to lie, and though he trembled and stammered with fright he tried to relate his adventure.

But the old woman broke out into gruff, frightful laughter. "So monsieur unshoes for beggars! So monsieur strips off his covering for a barefoot! This is a fine way to do. Oh, well, I will leave the remaining shoe in the fireplace tonight, and the Christ child will put in it something to whip you with in the morning. I will answer for it. And tomorrow you shall pass the day upon dry bread and water, and we will see if the next time you will give your shoes to the first beggar that comes along."

The wicked woman, having given the child two blows, made him go up to the attic, where under the eaves he climbed into his hard cot, but he was comforted with the sleep of the innocent, though in his sorrow he had soaked his scanty pillow with bitter tears.

The next morning, when the old aunt was awakened by the cold, she descended to her lower room.

Oh, marvel! She saw the great chimney full of sparkling playthings, bags of magnificent bonbons, riches of all sorts, and in front of that wealth of treasure the shoe that her nephew had given the sleeping child. It was close beside its mate, which she had left there, intending to put therein a bundle of whips before calling Wolff.

Now, when he ran to her, awakened by her cries and in ecstasies at seeing the beautiful gifts of the Christ child, the attention of both was called to a noise in the street. They ran to learn what was the matter and saw all the gossips of the neighborhood assembled at the fountain in the public square.

"Oh, a very pleasant thing has happened, and a very extraordinary," they were saying.

"All the rich people's children, whose parents wished to surprise them by suspending from trees the most beautiful gifts, had found nothing but whips in their shoes. The beautiful things had all disappeared."

Then the old woman and the child, remembering the marvelous presents in their chimney place, were full of fright.

Suddenly there was seen approaching Father Zwingh, the benevolent faced priest.

Behind the bench at the church door in the same place where on the previous evening a child clothed in white, but with naked feet in spite of the great cold, had rested his sleeping head, the priest had just found a circle of gold imbedded in the hard stone.

All the bystanders crossed themselves devoutly, comprehending that the beautiful child who had dropped asleep there and who had near him the carpenter's tools was Jesus of Nazareth, who had become again for one hour such as he was when he labored in the house of his earthly parents, Mary and Joseph.

They bowed before the miracle which the good God wished to perform to recompense the confidence and charity of a child.

"Ah, it was good," said the people, "to have the poor and innocent rewarded and the rich and contemptuous punished!" — Translation From Francis Coppee in Romance.

Christmas Gifts.

Give by all means out of the plenitude of your heart and your purse. Give wise gifts. In your own home circle some little thing, fashioned and designed by your own hands and worked with joyous secrecy, will give more pleasure than anything bought in a shop. To the poor give money, if you do it wisely and know the recipient. To the rich send a card or a bunch of chrysanthemums. To the children—this is a very sweet point—give what you think each individual boy or girl most desires. The gun desiring boy may not hanker after the symbol of the diluvian navy that anchored on Ararat, and the proud possessor of many dolls may possibly yearn for a growling mechanical bear or a live white mouse. Study the children's wants. Find out what they most wish for and then play Santa Claus to your heart's content.—Gentlewoman.

Santa Claus Coming.

Oh, happy are the little folks,
For Christmas is most here.
Then get your stockings ready,
For now the time draws near.

Old Santa Claus is on the way.
He left home yester noon.
His great sleigh packed with Christmas gifts,
He'll be here very soon.

His reindeers six are flying fast.
He cracks his whip—away
They're speeding over hill and dale.
Three cheers for Christmas day!

GUILTY OF CONTEMPT

Debs and His Associates Sentenced by Judge Woods.

THE LEADER GETS SIX MONTHS

While The Others Will Serve but Half That Time.

CHICAGO, Dec. 15.—Eugene V. Debs was found guilty of contempt by Judge Woods. Debs was sentenced to six months' imprisonment and the rest of the defendants to three months in jail, with the exception of McVean, whose sentence was suspended.

Attorney Darrow, representing the defendants, asked that his clients might retire for a consultation regarding what they should say, and after a brief recess the strike leaders filed back into court, ranging themselves before the bench. Attorney Darrow, speaking for them, advised the court that Director McVean, one of the defendants, was out of the city during the strike. A lengthy argument between attorneys followed over the proposition to discriminate in McVean's favor, which the court terminated by suspending sentence on McVean.

EUGENE V. DEBS.

In sentencing the other defendants, Judge Woods said punishment should be neither vindictive nor trivial.

These men were in willful contempt. These men were the leaders of lawbreakers, and are responsible as leaders. Ignorant men who followed have been punished. Mr. Debs is more responsible than any other. He is a man of marked ability and power over men. I feel constrained to discriminate between him and the others. The punishment against all defendants except Debs is three months in jail, and against Debs six months.

The defendants did not appear particularly crushed at the punishment. Debs bowed his tall, gaunt form, and whispered a few words to his sister, who sat near, and they both laughed heartily. Howard and Hogan exchanged smiling glances, and Keliher grasped his attorney's hand and appeared to offer congratulations. It was evident that all had expected more severe sentences, and all wore a look of relief.

Debs drew his people together and instructed them to say nothing for publication, setting them an example by refusing to discuss the case at all. After the murmur of excitement had subsided, the court announced that the punishment was not to take effect for 10 days, in which time the defendants' attorney will prepare an appeal.

The prospective prisoners, after a short consultation with their attorneys, left the courtroom.

The defendants, with their official positions in the American Railway union, are President Debs, Vice President Howard, Secretary Keliher, Treasurer Rogers, and Directors Burns, Elliott, McVean, Hogan and Goodwin.

History of the Case.

As one issue of the great Chicago strike, a federal writ was issued on July 2, by United States Judges Grosscup and Woods, at Chicago, enjoining President Debs and others of the American Railway union from any interference or inciting of interference with trains carrying mails or engaged in commerce between states.

On July 10 President Debs, Vice President Howard and other officials of the American Railway union were arrested and arraigned before the United States commissioner on the charge of obstructing the United States mails and hindering the execution of the United States laws.

The arrests followed a vigorous charge to the federal grand jury by Judge Grosscup and an indictment by the grand jury for conspiracy against the laws of the United States. It was as a defiant response to this action that an order to quit work was issued by the two great labor organizations as soon as the arrests were made known.

On July 19 the federal grand jury found indictments for contempt of court against 43 individuals, among them being Debs, Howard and all the board of directors of the A. R. U. They were arrested the next morning. They refused bail, and remained in jail until Sept. 25, after two postponements of trial, when they were put on trial for contempt of court in violating the injunction issued July 2 by Judges Woods and Grosscup.

The question involved was "whether courts shall assume the function of inflicting summary punishment without jury trial for acts punishable by ordinary criminal proceedings." The result of that trial is now evident in the dispatch above. The result of this great strike has not been without its obvious lessons as to the supremacy of the law.

President Debs is reported to have said, Aug. 1, "I will never again have any official connection with a strike. * * * So long as strikes are repugnant to society it is useless to inaugurate them."

To Prevent Disturbances.

Forced to the Wall.

BOSTON, Dec. 15.—Charles Green & Co., wholesale and retail clothing dealers and tailors, have assigned to A. C. Ratshesky. The failure will probably be a large one.

Differ on Quarantine Views.

BUENOS AYRES, Dec. 15.—A conflict has arisen between Brazil, the Argentine Republic and Uraguay on the subject of quarantine.

CREEDEN'S CONFESSION

Has Caused a Decidedly Uneasy Feeling In Gotham Police Circles.

NEW YORK, Dec. 15.—Police Captain T. J. Creeden confessed before the Lexow committee that he had paid $15,000 to secure his captaincy. A few hours later he was suspended from the force by the board of police commissioners on recommendation of Superintendent Byrnes, who was instructed to prepare charges against him.

The Lexow committee had agreed that Creeden should be granted indemnity from punishment for his purchase of the captaincy, and when the action of the police commissioners became known, they, as well as Superintendent Byrnes, were subpœnaed to appear before the investigating body of the senate.

Captain Creeden's confession was the biggest sensation yet brought forth by the Lexow committee. The startling facts essentially interwoven with this sensational expose affix the taint of dishonor and corruption upon men who have held some of the most responsible offices in the gift of the community.

The affair not only involves and implicates men who have filled some of the most important positions in the police department, but verifies and corroborates the gravest charges of official corruption that were ever preferred against the constabulary of New York city.

The inquisitorial senators have almost reached the climax of their investigating labors. But public censure is not heaped on Creeden's head. It falls on those who are supposed to have induced him to enter into the deal.

Captain Creeden had served in the local police department for 30 years with honor and distinction. He is a war-scarred veteran, whose record shows that he has been in 23 engagements of the civil war. In all his 30 years of police service, he was fined only six days' pay for trivial and minor derelictions, and the captain's one fault was forgotten by the popular mind in sympathy for his present trying position and respect for his past deeds.

Richard Croker has been invited to appear before the committee and deny the charges made against him. In an interview, Croker was uniformly silent. "I have nothing to say to this," was the only reply he made to all inquiries.

Bowen Knocked Out.

NEW ORLEANS, Dec. 15.—The fight between the lightweights, George Lavigne and Andy Bowen, was won by the former. Bowen was knocked out in the 18th round. Up to a late hour this morning he had not regained consciousness. Lavigne is detained by the police, awaiting the outcome of Bowen's injuries.

Father Held Responsible.

SPRINGFIELD, Mass., Dec. 15.—James Weldon was arrested on a charge of causing the death of his 19-year-old son, John, who died from the overturning of a kerosene lamp. The police claim that they have testimony which will show that Weldon threw the lamp at the boy.

Birk Wouldn't Rise.

BERLIN, Dec. 15.—At a meeting of the Munich municipal council, Herr Birk, a Social Democratic member, retained his seat when a motion was made that all the members should rise as a token of gratitude for the prince regent's numerous charitable gifts.

Women Are Guilty.

BURLINGTON, Vt., Dec. 15.—The jury in the Fournier poisoning case, after 20 hours' deliberation, brought in a verdict of guilty of manslaughter in the case of both Mrs. Fournier and Mrs. Whalen.

Minister Resigned.

MADRID, Dec. 15.—The chamber of deputies adopted a motion—82 to 39—to raise immediately the import duty on wool. Senor Salvador thereupon announced his resignation.

TELEGRAPHIC BREVITIES.

William Baker of Boston, business manager of The Saturday Evening Gazette, is dead.

Philip Marcey, a prominent merchant of Amesbury, Mass., is dead. He served in the late war.

Frank N. Poor of Haverhill, Mass., was arrested at Boston, charged with passing a forged check for $65.

Downs & Watson company, shoe manufacturers, of Beverly, are to remove their business to Lynn, Mass.

Unusually severe and repeated earthquake shocks have been experienced at Rangoon, British Burmah.

Walter Carroll, aged 18, of Chicopee Falls, Mass., was drowned while fishing through the ice on the Chicopee river.

A cat belonging to Jackson & Co., Boston furriers, set off the automatic burglar alarm, and caused a great disturbance.

Robert Cody, arrested for safe breaking at Boston, was identified as the highwayman who robbed a messenger in that city.

As a result of the inspections at Watertown and Brighton, Mass., for evidence of tuberculosis, finer cattle are sent to the market.

The Massachusetts board of registration in Medway, Mass., is confronted with the necessity of licensing graduates of quack medical schools.

Postmaster Coveney believes that if a pneumatic tube system for the transmission of mails is built in Boston it will have to be handled by private capital.

The Lynn (Mass.) police have arrested Maud Brewer and she has been held in $15,000 bonds to await the result of the injuries of G. W. Lattimer, Jr., whom she shot.

Three patrolmen who were on a street car, close to where Slamin, the coachman, was murdered, coolly rode along without investigating the cause of the shots.

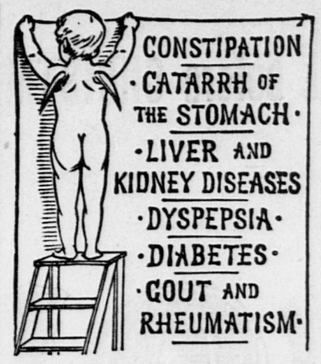

Rev. P. F. Jernigan, pastor of the Baptist church at Middletown, Conn., who recently resigned, has withdrawn his resignation, in compliance with a vote of the church.

The Massachusetts Mutual Fire Insurance company has reinsured all its outstanding risks, amounting to about $20,000,000 in the Firemen's Fire Insurance company.

Michael Quirk of Portland, Conn., who attempted three times to throw himself in front of a train at East Hartford, is to be sent to his friends in Ireland. He has accumulated considerable property.

Eli Barrett and Charles W. Gillman of Attleboro, Mass., were thrown from a moving wagon at Pawtucket, R. I. Gillman escaped with slight injuries, but Barrett's injuries will probably prove fatal.

The Christian Secretary, a weekly religious paper of the Baptist denomination, published at Hartford, by Rev. C. A. Piddock, will appear hereafter in magazine form of 24 pages. It will be the beginning of the 74th year of issue.

ESTIMATE OF WAGES

Computed For This Year Shows Higher Averages Than Last.

INDUSTRIAL SITUATION REVIEWED.

Condensed Report of Canada's Trade Conditions.

NEW YORK, Dec. 15.—R. G. Dun & Co.'s Review of Trade is enabled by the kindness of several thousand manufacturers who have forwarded statements of their payrolls for November of this year, in 1893 and in 1892, to make a very encouraging comparison of earnings for that month, which shows an increase of total payments of 15.2 per cent over last year, but a decrease of 18.3 per cent in comparison with 1892.

The accompanying statement of hands employed shows that in the same establishments 10.2 per cent more persons were employed than a year ago, but 8.6 per cent less than 1892. The average of earnings for over 250,000 hands is 4 per cent larger than 1893, but 14½ per cent less than in 1892, and this statement takes no account of hours of work in the months compared or of the establishments not working at all this year. In some of the industries more hands are at work than in 1892, but in others the decrease is large. With the other statements which are now being received daily, a more exact comparison will be possible.

Review of Manufactures.

The detailed reports regarding the chief industries are not altogether encouraging. The iron output increased during the month of November, and was 168,762 tons weekly Dec. 1, against 162,666 Nov. 1. but the increase in stocks unsold was 50,149 tons, which averages 11,700 tons a week, indicating that the increase in production during the month of November was not supported by the demand for products. Accordingly, prices have been declining.

In boots and shoes the shipments continue to exceed those of last year, being 185,899 cases for two weeks of December, against 93,592 last year. New orders are coming in fairly, but the endeavor of the manufacturers to obtain a slight advance in prices has caused hesitation, and in some quarters reduction or cancellation of orders.

The textile manufactures are on the whole weaker, although sales of wool for the past week, in part for speculative purposes, have been larger than one year or two years ago, and for two weeks of December have been 9,610,200 pounds, against 7,857,200 last year, and 10,628,800 in 1892.

Movements of Wheat.

Wheat stocks in the United States have begun to decrease earlier than customary, and the price of wheat may be affected by this movement if sustained within the next few weeks. Exports of wheat (flour included as wheat) from both coasts of the United States (Canada none) amount to 2,536,000 bushels, against 3,411,000 bushels last week, and 3,217,000 bushels in the week last year. Two years ago the total was 3,277,000 bushels, three years ago it was 5,495,000 bushels, but in the second week of December, 1890, it was only 2,171,000 bushels.

Failures.

The failures for the past week have been 349 in the United States, against 399 last year.

Canadian Trade.

Toronto reports trade quiet, with no prospect for recovery until the new year. Stock taking there, as at Montreal, constitutes the feature at the moment. Unfavorable weather further checks trade in the province of Quebec.

Little or no effect is reported at Montreal of the financial crisis in Newfoundland, "only a few houses being slightly interested." In Newfoundland, business is at a standstill, nearly all wage earners are out of employment and wages are being paid in provisions instead of cash.

Trade in Nova Scotia is dull, but collections are up to the average.

The number of business failures reported from the Canadian dominion this week is 34, against 33 last week, 46 in the week a year ago and 30 two years ago.

Admiral Ammen Pleased.

WASHINGTON, Dec. 15.—Admiral Ammen, the designer of the ram Katahdin, which recently underwent a preliminary trial on Kennebec river, is highly encouraged by the results, which have just reached the navy department. They show that the vessel made 14.4 knots an hour, with 132 revolutions of the propellers.

Bowell's Position.

MONTREAL, Dec. 15.—With reference to the reports that Mackenzie Bowell had consented to form a cabinet, it is not believed here that he has accepted the task. All he promised to do was to take the matter under consideration and consult with his former colleagues.

Places Responsibility In the Chancellor.

BERLIN, Dec. 15.—An imperial ordinance has been issued placing the entire administration of the territories under German protection in the control of the colonial department of the foreign office and under the direct responsibility of the chancellor.

A Costly Joke.

PROVIDENCE, Dec. 15.—Simon Bergan, 17 years old, lost sight of one if not of both eyes by the explosion of a cigaret he was smoking. The cigaret had probably been "loaded" for a joke.

Schools to Reopen.

NASHUA, N. H., Dec. 15.—The board of education last night voted to reopen the schools on Monday. They have been closed three weeks because of scarlet fever.

Killed by an Electric.

BOSTON, Dec. 15.—James Turner, aged 50, was struck by an electric car of the West End company, and died shortly afterward from his injuries.

Volcano Is Busy.

SEATTLE, Wash., Dec. 15.—The volcano on Mt. Rainer has broken out again, and smoke is pouring from the crater, which is also emitting jets of steam.

Figures Grow Larger.

NASHUA, N. H., Dec. 15.—It is now stated that Cashier McKean's shortage is fully $40,000 in his Indian Head bank accounts.

Died of Apoplexy.

ROME, Dec. 15.—Father Denza, director of the Vatican observatory, died yesterday of apoplexy after an audience with the pope.

LEWIS IS SUSPECTED

As Having Been the Person Who Took the Life of Coburn.

PORTLAND, Me., Dec. 15.—The mystery of the Gorham murder is still unsolved, although it is the general belief that James Lewis, who discovered the body of Byron Coburn, and who had lived with the murdered man for over a year, is guilty of this brutal crime.

A visit to the scene of the tragedy found the house in charge of the sheriffs and Coroner Perry and the dooryard filled with the teams of farmers, who had come for miles around to see the house. Many wild tales were flying from mouth to mouth, but the premises were closely guarded, and even newspaper men were forbidden entrance to the house or barn.

The finger of suspicion points strongly to James Lewis, one of the hired men who is now locked up in the police station at Westbrook. He said that he was at Lowell's house until 7:30 o'clock. Abner Lowell thinks he left earlier than this. Young Lowell and Miss Lowell also think he went home about 7:15. This was about the time, as nearly as Mrs. Kimball can remember, that Coburn went to his death in the barn, and about the time she heard the noise which called him there.

Lowell's house is only about 100 yards away from the house of Coburn. It wouldn't have taken Lewis long to walk this distance. Had he an object in killing his employer, he could not have had a better opportunity of doing so, as the other hired man was at Lowell's, and only the old man and Mrs. Kimball were in the house.

If Lewis did commit this crime, he is a man of remarkable nerve, as he must have calmly entered the house and faced Mrs. Kimball after killing her employer. Many people suspect Mrs. Kimball as being an accomplice of Lewis.

A Ghastly Spectacle.

CHICAGO, Dec. 15.—The body of Charles Miller, hanging head downward from a two-story window at 2115 State street, blood dripping from a wound over the heart, collected a crowd, shortly before noon yesterday, which blocked State street traffic for half an hour. Miller had been shot by Maggie Tiller, who claimed that he had robbed her, and that she did the shooting in self-defense. In attempting to jump from the window, after he was wounded, Miller's feet caught, and he hung dying until the police arrived. He died soon after help reached him.

The Armenian Commission.

CONSTANTINOPLE, Dec. 15.—The porte has consented that the consuls of Great Britain, Russia and France shall sit with the Armenian commission. This decision is regarded as a triumph for British diplomacy, and it is also significant as indicating that an Anglo-Russo-Franco entente actually exists. It is believed that the question of sending United States Consul Jewett to investigate the stories of Turkish atrocities in Armenia has collapsed, as the porte objected to the American proposal of an independent inquiry.

A Point In Law.

PORTLAND, Me., Dec. 15.—The Edwards Manufacturing company of Augusta sent a telegram to Canada, making arrangements, it is claimed, for the importation of a crew of Frenchmen to work in the mill. The company was charged with violating the contract labor law. The company argued that a telegram could not be considered a contract. To this Judge Webb agreed, and instructed the jury to return a verdict for the defendants.

Another Charge Against Howgate.

WASHINGTON, Dec. 15.—The application of Henry W. Howgate for an appeal from the decision of Judge Cole, overruling demurrers to the indictments against him, has been denied. An additional indictment was reported by the grand jury yesterday, charging Howgate with forging the name of Treasurer Rochester of the Western Union Telegraph company on vouchers to the amount of $11,800.

Serious Riot In Georgia.

FORSYTHE, Ga., Dec. 15.—Nolly and Budd McCord and Clyde Holder, white, went to the house of Calvin Diskell, colored, to settle an old difficulty. Diskell escaped, and, raising an alarm, returned with a mob of negroes, who attacked the three white men. The whites were all badly wounded. More trouble is expected.

Good Progress Made.

SPRINGFIELD, Mass., Dec. 15.—General Doe, assistant secretary of war, paid an official visit to the Springfield armory yesterday. He expressed himself well pleased with the progress made in the manufacture of the new army rifle and the condition of the works generally.

An A. P. A. Trifle.

AMESBURY, Mass., Dec. 15.—Pupils in the town school at West Newbury claim they were punished for wearing A. P. A. pins. The teacher says they were punished for abusiveness. The school committee exonerate the teacher.

No Cars Running.

WASHINGTON, Dec. 15.—The drivers and conductors of the Metropolitan street car line, whose wages were reduced, stopped their cars on one of the busiest thoroughfares of the city yesterday afternoon. The difficulty is still unsettled.

The Blenheim's Assignment.

GIBRALTAR, Dec. 15. — The British cruiser Blenheim has been ordered to proceed at once to England for the purpose of conveying to Canada the body of Sir John Thompson.

In Budd's Favor.

SAN FRANCISCO, Dec. 15.—The action begun by the Republicans to contest the election of Budd as governor was thrown out of the state supreme court yesterday.

Cross Sues For Damages.

LYNN, Mass., Dec. 15.—J. F. Cross, the hostler at the Central stable, who was seriously assaulted by Hiram L. Newhall in September, has brought suit for $5000.

Jury Disagreed.

PORTLAND, Me., Dec. 15.—The jury in the case of Joseph Jeckyll, who broke into a letter box at Augusta, failed to agree. Jeckyll will have a new trial.

Escaping the Law.

NEW YORK, Dec. 15.—Eugene Marvin, the green goods man, who was sentenced to one year's imprisonment and to pay a fine of $1000, is missing.

Christmas Candies.

The candy season has set in and perhaps a few receipts for making good wholesome candies at home will not be amiss at the present time. The following receipts will be found useful for Christmas, church fairs, and for candy parties.

There are several ways of making *fondant* says the Ladies' Home Journal. The easier way is to add a teaspoonful of vanilla to the white of one egg, and an equal quantity of ice water, and beat until the mixture froths. Then add gradually a pound, or more if it is necessary, of confectioner's XX or XXX sugar. Ordinary pulverized sugar will not do, and the confectioner's sugar in either of these grades can be secured from any large grocery establishment. The sugar should be added until the mixture forms a stiff paste, when it should be worked very smooth with a spoon, then put it in a cool place, as it is ready for use.

Chocolate Creams. Chocolate creams are made by dipping from the end of a long pin, small balls of the *fondant* into melted chocolate.

Cocoanut Snow-Balls. Knead some desiccated cocoanut into the *fondant*. Make into balls and when cool brush with beaten white of egg and sprinkle with grated cocoanut.

Delicious Nut Loaf. Chop all kinds of nut into small pieces and work into the *fondant*. Make into a roll and serve in small square slices.

Fruit Bonbons. Candied cherries may be stoned and refilled with small rolls of the *fondant*. White grapes may be coated in similar fashion.

Chocolate Peppermint Creams. Make like the above, and when the drops are almost cooled dip into a pan of melted and sweetened chocolate. These are particularly delicious.

ONE CHRISTMAS EVE.

Disguised as a Beggar, the Christ Child Seeks Shelter—A German Legend.

Here is a Christmas story that has been told the little children in Germany for many hundreds of years:

'Twas the night before Christmas. A little child was wandering all alone through the streets of a great city. People were hurrying hither and thither, and express wagons were being rattled through the streets. Even the snowflakes seemed happy with the expectation of the coming Christmas morning.

But the little child seemed to have no home and wandered on from street to street. No one noticed him except perhaps Jack Frost, who bit his bare toes and made his fingers tingle. The north wind, too, pierced his ragged garments and made him shiver with cold. Home after home he passed, looking with longing eyes through the windows in upon the happy children who were trimming Christmas trees and hanging stockings for old Santa Claus to fill.

Cold and alone the little wanderer softly tiptoed his way up to a beautiful window through which he could see a tree loaded with gifts and glittering with lights. He tapped on the glass, but a little girl coming to the window frowned and shook her head, saying: "Go away. We are too busy to take care of you now."

Back into the dark street he went. Coming to another happy home, where he heard the song and laughter of merry children, he climbed up the broad steps and gently tapped on the door. It was opened by a tall footman in white hat and gloves. He looked at the child then sadly shook his head and said: "Go down off the steps. There is no room for such as you here."

Again and again the little child rapped softly at door or window pane. At each place he was refused admission. Later grew the night and colder blew the wind. Farther and farther the little one wandered. The street was lengthy, when suddenly there shone ahead of him a single ray of bright light. He hurried on, saying, "I will go where the little light beckons me."

He soon reached the end of the street and went straight up to the window from which the light was streaming. It was a poor, little, low house. What do you suppose the light came from? A tallow candle. Looking in, the little one saw standing upon a small wooden table a branch of a Christmas tree. Near the fire sat a lonely faced mother, with a baby on her knee and an older child beside her. She was telling them a Christmas story.

The little wanderer crept closer and closer to the window pane. So sweet seemed the mother and so loving the children that he took courage and tapped gently, very gently, on the door. The mother stopped talking; the little children looked up. "What was that, mother?" asked the little girl. "I think it was some one at the door. Run quickly, dear, for it is too cold a night to keep any one waiting in the storm."

The child ran to the door and threw it wide open. The mother saw the little stranger, cold and shivering, clothed in rags, and his little feet almost bare. "Oh, you poor, dear child! Come in quickly and get warm. Have you no home? No Christmas to celebrate?"

The mother put her arms around the strange child and drew him close to her. She sat beside the fire with the little one on her knee, and her own two little ones warmed his half frozen hands and, bending low over his head, kissed the little wanderer's brow. They gave him the bowl of bread and milk that had been put away for their own breakfast, and when he had eaten it the little girl said, "Now let us light the Christmas tree and share our presents with this little child."

So busy were they lighting the tree and getting the presents ready that they did not notice that the room had filled with a strange and beautiful light.

They turned and looked at the spot where the little wanderer was. His ragged clothes had changed to garments white and beautiful. His tangled curls seemed like a halo of golden light, and his face shone with a light that they could scarcely look upon.

The little room seemed to grow larger, the roof of the low house to expand and rise until it reached the sky.

With a sweet smile the child looked upon them for a moment and then slowly rose and floated through the air, higher even than the clouds themselves, until he appeared like a shining star in the sky and at last disappeared from sight.

The wondering children turned and whispered to the mother, "Oh, mother, it was the Christ child!" And the mother said in a low tone, "Yes, my children."—Exchange.

What Christ Taught.

Before Christ came men did not know God. They did not understand his fatherhood and affection. They had all along supposed that whoever would enjoy God's favor must purchase it in some way, and so before the coming of Christ men crouched and trembled before God as though he were an almighty tyrant and they worshiped before him with sacrifices of slavish fear. But the coming of Christ brought a new element into human faith. He taught not the Jew alone, but he taught all men everywhere that God loves them; that he loves them as sinners; that he loves them with a love that is more devoted and tender than any mother bears her child; that he is not only ready to forgive them all that is past of transgression and sin, but to make them heirs of a glorious and eternal inheritance; that all God asks of man is love.—Christian Advocate.

Editorial Comment.

THE STABBING affair as South Quincy only shows that there are growing up in our midst a crowd of boys, who if not checked in their present career will some day help to swell the number who fill the State prisons of the country.

During the past year there have been a number of these young boys arraigned in court, and their crimes seem to form a kind of step ladder, running through the various stages such as being a stubborn child, larceny, setting fires, and the top round, has been reached, by perhaps a murder. Is it any wonder then that parents should ponder and say, "What shall we do with our boys?" It is a serious question and one that should be carefully considered.

Parents now-a-days are altogether too easy with their boys. In many cases they are allowed as much freedom as though they were of age, and the companionship into which they have been thrown nightly while on the streets has done much to bring about this change, for it is no uncommon thing to see even the smallest of boys puffing a cigarette, and to hear them utter oaths at the least provocation that would make an ordinary man blush. Yet these things are apparently allowed to go on without the least effort to check.

Anyone who is about the Centre can tell you about a young boy not over 10 or 12 years of age, who should be taken care of. He is a boy, who, instead of being at school, is roaming about the streets, loafing in different places and riding on teams, singing songs of an obscene nature to a crowd of men who give their encouragement by contributing a few coppers, which the next moment find their way into the money drawers in our stores in exchange for tobacco or cigarettes, notwithstanding the 16-year law. This being so, is there any wonder that in all seriousness the question is asked: "What shall we do with our boys?"

Social Club Dramatics.

Another of those pleasing dramatic entertainment by the First Church Social club, was given last evening in the chapel. It was the first of the season of 1894-5 and ushered in a series of events which are always looked forward to with pleasure. There was a large audience which manifested app oval of the rendering by the amateur actors.

The comedietta of "Old Cronies," in one act was first presented with this cast:

Dr. Jacks, a very mild old gentleman, Mr. Crane
Capt. Pigeon, a bluff sea officer, Mr. Boyd

It would be difficult to tell which gentleman excelled; both were excellent.

The amusing farce entitled, "That Box of Cigarettes" followed, with this cast:

Americus Vespucius Oldboy, a representative American citizen, Dr. Davis
Christopher Columbus Oldboy, his son and a backslider, Mr. Field
Tom Darling, a Nineteenth Century hero, Mr. Crane
Freddy Blake, a "Soph." and one of "the fellows," Mr. Russell
Miss Anastasia Bluebloodchester, a woman of mind and principle, Mrs. Crane
Mrs. Christopher Columbus Oldboy, her niece, a "foreign importation," Miss Whicher
Molly Blake, another niece, not to be trampled on, Miss Russell
Phyllis Darling, not yet "out" and bound to be "in it," Miss Adams

There were many amusing situations, and each member of the cast sustained well his or her character. There were three acts.

WEYMOUTH.

The Ladies' Auxiliary celebrate their anniversary, Friday evening, Dec. 28.

A sale was held in Clapp's hall on Wednesday evening under the management of The Temperance League of First Baptist church.

The matrons of the Quintette held a meeting Dec. 13, at the residence of Mrs. L. J. Hart.

The Tip Top Club of Weymouth, held their ladies' night at the residence of one of the members on Thursday night.

The Kindergarten and Miss Whelan grades of Braintree have been closed on account of diphtheria.

The Quintette club are going to observe their second annual ball, Dec. 31, at Clapp's hall, J. Howard Richardson's orchestra of Boston will furnish music.

BRAINTREE.

The Braintree Street Railway has hired one of the Brockton Co.'s snow plows.

George H. Howes and his mother leave for their Florida home next week. Good luck!

The Methodist and Baptist people will meet together at the M. E. church next Sabbath morning and hold union services.

Owing to the death of Elmer Morrison the Star Course concert, at First church, was postponed to Tuesday evening, Dec. 18.

Next Wednesday evening a parlor social or dime party will be held at the home of Mrs. E. C. Hatherway, president of the Universalist Ladies' Aid Society.

The Pansy society will give their annual entertainment Tuesday evening in the chapel. There will be vocal and instrumental [music, recitations and a dialogue. Also a sale of fancy articles.

One of the converts who was baptized last Tuesday evening at the Baptist church was 81 years old. His wife, who was baptized at the same time, was about the same age. They were from Quincy. Never too late to choose the better way.

Mr. Cook, principal of the High school, while out picking evergreen, was taken ill opposite N. F. Hunt's place on Plain street. He was bought over to Dr. Bridghan's office by John Shay on a baker wagon.

The pastor of the First Parish will preach a sermon on charity on Sunday A. M., Dec. 16th, at 10.30 o'clock. He invites all benevolent orders to the service, Masons, Odd Fellows, Relief Corps, Knight of Pythias, etc., who are not bound to other churches.

At the Baptist church the pastor gave a good company of hearers a sermon from words found in John 14:22, and at the close of the sermon the right hand of fellowship was given three new members. In the evening a good congregation were present, and Rev. Mr. M'Elwain gave them a Bible reading, followed with very interesting and instructive remarks. Miss Bueluier's singing in both services made them the more pleasing.

Meetings have been holden every afternoon and evening during the week, and great interest was manifested. On Tuesday evening Rev. Mr. Hunt baptized five candidates for admission to the Calvary Baptist church in Quincy, of which he is pastor. A very large number were present; there were five ministers and quite a number of strangers from out of town. Tuesday evening's service will be remembered, and the plain remarks of Mr. M'Elwain on Free Salvation will not be forgotten. It is expected Miss Bueluier will be present next Sabbath afternoon and evening, and Mr. M'Elwain in the evening.

Last night Nahanton Tribe, No. 81, I. O. R. M., had their annual "Peace dance" in the Town Hall.

There was a large gathering of the tribe, their friends including "Squaws," and spectators.

Music was furnished by Tirrell's orchestra of Weymouth.

Installation of Pastor.

Rev. Robert Westly Peach, the pastor elect of the Presbyterian church, Water street, will be installed next Friday evening, Dec. 21, at 7 o'clock. The sermon will be by the Rev. Luther H. Angier; charge to the pastor, by the Rev. Scott F. Henshey, Ph. D.; charge to the people by the Rev. James T. Black. Other pastors from abroad and from Quincy will take part. A hearty invitation is extended to all the Christian people of Quincy of every name, and to the general public, to be present.

Blue Hill Predictions.

During the coming week the warmest days will probably be on the 15th to 16th and 19th, and the coldest on the evening of the 17th to 18th and on the 20th to 21st. The temperature will probably continue above freezing near the coast on the 15th and 16th, but is likely to average below freezing during the latter part of this week and the beginning of next. Rain or snow is probable on the 16th or early morning of the 17th and again between the morning of 19th and of the 20th. The remainder of the week will probably be fair, with the greatest probability of clear weather on the 15th, 18th and 21st.—Norfolk County Gazette.

THREE TURKEYS.

Three turkeys came sorrowing home to roost—
Home to roost as the sun went down.
Each thought of the usual Christmas boost
That the poultry trade would receive in town.
For birds must fatten,
And men must eat,
And the juicy worm
Makes the best of white meat,
So what is the use of bemoaning?

Three forms through the dark'ning barnyard stalk
With axes as sharp as sharp can be.
There's a scuffle of wings, a smothered squawk—
Three gobblers are sailing the jasper sea.
For birds may flutter,
But cooks must kill
And pile the Christ-
Mas table until
The festive board is groaning.

Three corpses lay in the morning light
On the kitchen dresser all ready to roast.
They are trimmed and skewered and rammed full tight
With sage and with everything else almost.
For "turks" must sizzle
And change to brown,
And if there's a turkeyless
Man in town
I've a bird that I don't mind loaning.
—San Francisco Examiner.

CHRISTMAS MIRACLE.

Once upon a time—it was so long ago that everybody has forgotten the date—there was a little boy named Wolff.

He was 7 years old. He had neither father nor mother and was left to the care of an old aunt, who was so cold hearted that she never embraced her nephew except on New Year's day and was so penurious that she heaved a deep sigh every time she served him to a dish of soup. The poor little fellow was naturally so good that he loved the old dame, only he had such a dreadful fear of her that he could not look at her without trembling.

Because Wolff's aunt was known to have a house upon a good street and a stocking full of gold she did not dare to send her nephew to the school for the poor, but she had so haggled with a teacher for a reduction in her prices that the teacher was vexed to have a scholar who brought her in so little. Little Wolff was also dressed so poorly that the fool's cap was often unjustly inflicted upon him or dunce was written upon his back, and his comrades were unreasonably prejudiced against him.

All the other pupils were sons of rich citizens and made the orphan the butt of their jokes or the object of their malice. The poor child was wretchedly unhappy and would often hide himself away in corners to weep.

The time of the Christmas festival approached. On Christmas eve the schoolteacher conducted all of the pupils to midnight mass and afterward led them back to their homes.

As the winter was extremely rigorous that year, and as for several days a great quantity of snow had fallen, the children all came warmly bundled and muffled in fur caps which turned down over their ears, double and triple coats, knit gloves and mittens and good heavy boots that had iron nails and thick soles.

Wolff alone presented himself, shivering in the same clothes that he wore every day and Sunday, summer and winter, and his feet were covered with only the low wooden shoes of Strasburg.

His naughty companions, seeing his poor appearance, made a thousand jests at his expense, but the orphan was so occupied in breathing upon his cold fingers and by the aching chilblains that he did not heed them.

Soon the band of boys, marching two by two, with the schoolmaster magisterially at their head, started for the priest's house.

It was good to reach the church, which was brilliant with lighted candles. The children, excited by the gentle heat, sweet perfumes and glittering snow, profited by the organ's din and the swelling chants to prattle in a low voice.

Each boasted of the delights which awaited him in his own family circle.

The burgomaster's son had seen before his departure a monstrous goose, with truffles spotted with marks like a leopard. At the house of an alderman was a spruce tree, all planted in a box, from which were suspended oranges, sugar toys and jumping jacks, and the notary's cook had fastened behind her head with a pin the streamers of her cap, which she never did except on days of inspiration, when she was sure to succeed in her famous sweet dishes.

And then the pupils also talked of what the Christ child would bring them, what he would put in their shoes, which all would take care to leave at the fireplace before going to bed.

In the eyes of all sparkled the anticipation of joy. They thought of the paper roses, the bags of nuts, the trumpets and drums, the laden soldiers arranged in battalions, menageries smelling of the varnished wood and purple puppets that could tumble and jump.

Little Wolff knew very well from experience that his old avaricious aunt would have him go to bed without any supper, but innocently he hoped that the Christ child would not forget him, for had he not been all the year as good and hardworking as possible? He, too, planned to put his pair of wooden shoes close to the ashes in the fireplace.

The midnight mass terminated, the faithful went away impatient for the treats which were to follow, and the troup of pupils, always two by two and following the teacher, left the church.

But under the porch, sitting on a stone bench surmounted by a stone niche, a child was sleeping—a child covered with a white woolen robe, but with naked feet, notwithstanding the cold. He was not a beggar, for the robe was clean and new, and near him upon the pavement of the vestibule, wrapped in a coarse cloth, were a square, a plane, a hatchet, a polisher and the other tools of a carpenter's apprentice.

Lighted by the stars, the child's face, with its closed eyes, had an expression of divine gentleness, and his heavy red brown ringlets seemed to shine like an aureole around his white forehead.

But it would have made you grieve to see the child's feet blue with the cold that cruel December night.

The pupils so well clothed and shod for the winter passed indifferently before the unknown child. Some of them cast upon the little vagabond a look in which could be read all the common contempt of the rich for the poor—of the well fed for the hungry.

But little Wolff came out of the church the last of all and stopped, very much moved, before the beautiful sleeping child.

"Alas," said the orphan, "it is frightful for the poor little one to go without shoes when the weather is so cold. And it is still worse not to have either slippers or shoes to put before him while he sleeps on this of all evenings, so that the Christ child might have a place to put something in to comfort his misery."

Carried away by his good heart, Wolff drew off the wooden shoe from his right foot and softly put it before the sleeping boy. Then, as best he could, hopping on one foot, soaked with snow water, footsore and forlorn, he returned to his aunt's house.

"Look at him, the good for nothing!" cried the old woman, full of fury upon seeing him return with but one shoe.

"What have you done with your other shoe, you little, miserable young one?"

Wolff did not know how to lie, and though he trembled and stammered with fright he tried to relate his adventure.

But the old woman broke out into gruff, frightful laughter. "So monsieur unshoes for beggars! So monsieur strips off his covering for a barefoot! This is a fine way to do. Oh, well, I will leave the remaining shoe in the fireplace tonight, and the Christ child will put in it something to whip you with in the morning. I will answer for it. And tomorrow you shall pass the day upon dry bread and water, and we will see if the next time you will give your shoes to the first beggar that comes along."

The wicked woman, having given the child two blows, made him go up to the attic, where under the eaves he climbed into his hard cot, but he was comforted with the sleep of the innocent, though in his sorrow he had soaked his scanty pillow with bitter tears.

The next morning, when the old aunt was awakened by the cold, she descended to her lower room.

Oh, marvel! She saw the great chimney full of sparkling playthings, bags of magnificent bonbons, riches of all sorts, and in front of that wealth of treasure the shoe that her nephew had given the sleeping child. It was close beside its mate, which she had left there, intending to put therein a bundle of whips before calling Wolff.

Now, when he ran to her, awakened by her cries and in ecstasies at seeing the beautiful gifts of the Christ child, the attention of both was called to a noise in the street. They ran to learn what was the matter and saw all the gossips of the neighborhood assembled at the fountain in the public square.

"Oh, a very pleasant thing has happened, and a very extraordinary," they were saying.

"All the rich people's children, whose parents wished to surprise them by suspending from trees the most beautiful gifts, had found nothing but whips in their shoes. The beautiful things had all disappeared."

Then the old woman and the child, remembering the marvelous presents in their chimney place, were full of fright.

Suddenly there was seen approaching Father Zwingh, the benevolent faced priest.

Behind the bench at the church door in the same place where on the previous evening a child clothed in white, but with naked feet in spite of the great cold, had rested his sleeping head, the priest had just found a circle of gold imbedded in the hard stone.

All the bystanders crossed themselves devoutly, comprehending that the beautiful child who had dropped asleep there and who had near him the carpenter's tools was Jesus of Nazareth, who had become again for one hour such as he was when he labored in the house of his earthly parents, Mary and Joseph.

They bowed before the miracle which the good God wished to perform to recompense the confidence and charity of a child.

"Ah, it was good," said the people, "to have the poor and innocent rewarded and the rich and contemptuous punished!"—Translation From Francis Coppee in Romanca.

Christmas Gifts.

Give by all means out of the plenitude of your heart and your purse. Give wise gifts. In your own home circle some little thing, fashioned and designed by your own hands and worked with joyous secrecy, will give more pleasure than anything bought in a shop. To the poor give money, if you do it wisely and know the recipient. To the rich send a card or a bunch of chrysanthemums. To the children—this is a very sweet point—give what you think each individual boy or girl most desires. The gun desiring boy may not hanker after the symbol of the diluvian navy that anchored on Ararat, and the proud possessor of many dolls may possibly yearn for a growling mechanical bear or a live white mouse. Study the children's wants. Find out what they most wish for and then play Santa Claus to your heart's content.—Gentlewoman.

Santa Claus Coming.

Oh, happy are the little folks,
For Christmas is most here.
Then get your stockings ready,
For now the time draws near.

Old Santa Claus is on the way.
He left home yester noon.
His great sleigh packed with Christmas gifts,
He'll be here very soon.

His reindeers six are flying fast.
He cracks his whip—away
They're speeding over hill and dale.
Three cheers for Christmas day!

ESTIMATE OF WAGES

Computed For This Year Shows Higher Averages Than Last.

INDUSTRIAL SITUATION REVIEWED.

Condensed Report of Canada's Trade Conditions.

NEW YORK, Dec. 15.—R. G. Dun & Co.'s Review of Trade is enabled by the kindness of several thousand manufacturers who have forwarded statements of their payrolls for November of this year, in 1893 and in 1892, to make a very encouraging comparison of earnings for that month, which shows an increase of total payments of 15.2 per cent over last year, but a decrease of 18.3 per cent in comparison with 1892.

The accompanying statement of hands employed shows that in the same establishments 10.2 per cent more persons were employed than a year ago, but 8.6 per cent less than 1892. The average of earnings for over 250,000 hands is 4 per cent larger than 1893, but 14½ per cent less than in 1892, and this statement takes no account of hours of work in the months compared or of the establishments not working at all this year. In some of the industries more hands are at work than in 1892, but in others the decrease is large. With the other statements which are now being received daily, a more exact comparison will be possible.

Review of Manufactures.

The detailed reports regarding the chief industries are not altogether encouraging. The iron output increased during the month of November, and was 168,762 tons weekly Dec. 1, against 162,666 Nov. 1, but the increase in stocks unsold was 50,149 tons, which averages 11,700 tons a week, indicating that the increase in production during the month of November was not supported by the demand for products. Accordingly, prices have been declining.

In boots and shoes the shipments continue to exceed those of last year, being 185,899 cases for two weeks of December, against 93,592 last year. New orders are coming in fairly, but the endeavor of the manufacturers to obtain a slight advance in prices has caused hesitation, and in some quarters reduction or cancellation of orders.

The textile manufactures are on the whole weaker, although sales of wool for the past week, in part for speculative purposes, have been larger than one year or two years ago, and for two weeks of December have been 9,610,200 pounds, against 7,857,200 last year, and 10,628,800 in 1892.

Movements of Wheat.

Wheat stocks in the United States have begun to decrease earlier than customary, and the price of wheat may be affected by this movement if sustained within the next few weeks. Exports of wheat (flour included as wheat) from both coasts of the United States (Canada none) amount to 2,536,000 bushels, against 3,411,000 bushels last week, and 3,217,000 bushels in the week last year. Two years ago the total was 3,277,000 bushels, three years ago it was 5,495,000 bushels, but in the second week of December, 1890, it was only 2,171,000 bushels.

Failures.

The failures for the past week have been 349 in the United States, against 399 last year.

Canadian Trade.

Toronto reports trade quiet, with no prospect for recovery until the new year. Stock taking there, as at Montreal, constitutes the feature at the moment. Unfavorable weather further checks trade in the province of Quebec.

Little or no effect is reported at Montreal of the financial crisis in Newfoundland, "only a few houses being slightly interested." In Newfoundland, business is at a standstill, nearly all wage earners are out of employment and wages are being paid in provisions instead of cash.

Trade in Nova Scotia is dull, but collections are up to the average.

The number of business failures reported from the Canadian dominion this week is 34, against 33 last week, 46 in the week a year ago and 30 two years ago.

Admiral Ammen Pleased.

WASHINGTON, Dec. 15.—Admiral Ammen, the designer of the ram Katahdin, which recently underwent a preliminary trial on Kennebec river, is highly encouraged by the results, which have just reached the navy department. They show that the vessel made 14.4 knots an hour, with 132 revolutions of the propellers.

Bowell's Position.

MONTREAL, Dec. 15.—With reference to the reports that Mackenzie Bowell had consented to form a cabinet, it is not believed here that he has accepted the task. All he promised to do was to take the matter under consideration and consult with his former colleagues.

Places Responsibility In the Chancellor.

BERLIN, Dec. 15.—An imperial ordinance has been issued placing the entire administration of the territories under German protection in the control of the colonial department of the foreign office and under the direct responsibility of the chancellor.

A Costly Joke.

PROVIDENCE, Dec. 15.—Simon Bergan, 17 years old, lost sight of one if not of both eyes by the explosion of a cigaret he was smoking. The cigaret had probably been "loaded" for a joke.

Schools to Reopen.

NASHUA, N. H., Dec. 15.—The board of education last night voted to reopen the schools on Monday. They have been closed three weeks because of scarlet fever.

Killed by an Electric.

BOSTON, Dec. 15.—James Turner, aged 50, was struck by an electric car of the West End company, and died shortly afterward from his injuries.

Volcano Is Busy.

SEATTLE, Wash., Dec. 15.—The volcano on Mt. Rainer has broken out again, and smoke is pouring from the crater, which is also emitting jets of steam.

Figures Grow Larger.

NASHUA, N. H., Dec. 15.—It is now stated that Cashier McKean's shortage is fully $40,000 in his Indian Head bank accounts.

Died of Apoplexy.

ROME, Dec. 15.—Father Denza, director of the Vatican observatory, died yesterday of apoplexy after an audience with the pope.

LEWIS IS SUSPECTED

As Having Been the Person Who Took the Life of Coburn.

PORTLAND, Me., Dec. 15.—The mystery of the Gorham murder is still unsolved, although it is the general belief that James Lewis, who discovered the body of Byron Coburn, and who had lived with the murdered man for over a year, is guilty of this brutal crime.

A visit to the scene of the tragedy found the house in charge of the sheriffs and Coroner Perry and the dooryard filled with the teams of farmers, who had come for miles around to see the house. Many wild tales were flying from mouth to mouth, but the premises were closely guarded, and even newspaper men were forbidden entrance to the house or barn.

The finger of suspicion points strongly to James Lewis, one of the hired men who is now locked up in the police station at Westbrook. He said that he was at Lowell's house until 7:30 o'clock. Abner Lowell thinks he left earlier than this. Young Lowell and Miss Lowell also think he went home about 7:15. This was about the time, as nearly as Mrs. Kimball can remember, that Coburn went to his death in the barn, and about the time she heard the noise which called him there.

Lowell's house is only about 100 yards away from the house of Coburn. It wouldn't have taken Lewis long to walk this distance. Had he an object in killing his employer, he could not have had a better opportunity of doing so, as the other hired man was at Lowell's, and only the old man and Mrs. Kimball were in the house.

If Lewis did commit this crime, he is a man of remarkable nerve, as he must have calmly entered the house and faced Mrs. Kimball after killing her employer. Many people suspect Mrs. Kimball as being an accomplice of Lewis.

A Ghastly Spectacle.

CHICAGO, Dec. 15.—The body of Charles Miller, hanging head downward from a two-story window at 2115 State street, blood dripping from a wound over the heart, collected a crowd, shortly before noon yesterday, which blocked State street traffic for half an hour. Miller had been shot by Maggie Tiller, who claimed that he had robbed her, and that she did the shooting in self-defense. In attempting to jump from the window, after he was wounded, Miller's feet caught, and he hung dying until the police arrived. He died soon after help reached him.

The Armenian Commission.

CONSTANTINOPLE, Dec. 15.—The porte has consented that the consuls of Great Britain, Russia and France shall sit with the Armenian commission. This decision is regarded as a triumph for British diplomacy, and it is also significant as indicating that an Anglo-Russo-Franco entente actually exists. It is believed that the question of sending United States Consul Jewett to investigate the stories of Turkish atrocities in Armenia has collapsed, as the porte objected to the American proposal of an independent inquiry.

A Point In Law.

PORTLAND, Me., Dec. 15.—The Edwards Manufacturing company of Augusta sent a telegram to Canada, making arrangements, it is claimed, for the importation of a crew of Frenchmen to work in the mill. The company was charged with violating the contract labor law. The company argued that a telegram could not be considered a contract. To this Judge Webb agreed, and instructed the jury to return a verdict for the defendants.

Another Charge Against Howgate.

WASHINGTON, Dec. 15.—The application of Henry W. Howgate for an appeal from the decision of Judge Cole, overruling demurrers to the indictments against him, has been denied. An additional indictment was reported by the grand jury yesterday, charging Howgate with forging the name of Treasurer Rochester of the Western Union Telegraph company on vouchers to the amount of $11,800.

Serious Riot In Georgia.

FORSYTHE, Ga., Dec. 15.—Nolly and Budd McCord and Clyde Holder, white, went to the house of Calvin Diskell, colored, to settle an old difficulty. Diskell escaped, and, raising an alarm, returned with a mob of negroes, who attacked the three white men. The whites were all badly wounded. More trouble is expected.

Good Progress Made.

SPRINGFIELD, Mass., Dec. 15.—General Doe, assistant secretary of war, paid an official visit to the Springfield armory yesterday. He expressed himself well pleased with the progress made in the manufacture of the new army rifle and the condition of the works generally.

An A. P. A. Trifle.

AMESBURY, Mass., Dec. 15.—Pupils in the town school at West Newbury claim they were punished for wearing A. P. A. pins. The teacher says they were punished for abusiveness. The school committee exonerate the teacher.

No Cars Running.

WASHINGTON, Dec. 15.—The drivers and conductors of the Metropolitan street car line, whose wages were reduced, stopped their cars on one of the busiest thoroughfares of the city yesterday afternoon. The difficulty is still unsettled.

The Blenheim's Assignment.

GIBRALTAR, Dec. 15. — The British cruiser Blenheim has been ordered to proceed at once to England for the purpose of conveying to Canada the body of Sir John Thompson.

In Budd's Favor.

SAN FRANCISCO, Dec. 15.—The action begun by the Republicans to contest the election of Budd as governor was thrown out of the state supreme court yesterday.

Cross Sues For Damages.

LYNN, Mass., Dec. 15.—J. F. Cross, the hostler at the Central stable, who was seriously assaulted by Hiram L. Newhall in September, has brought suit for $5000.

Jury Disagreed.

PORTLAND, Me., Dec. 15.—The jury in the case of Joseph Jeckyll, who broke into a letter box at Augusta, failed to agree. Jeckyll will have a new trial.

Escaping the Law.

NEW YORK, Dec. 15.—Eugene Marvin, the green goods man, who was sentenced to one year's imprisonment and to pay a fine of $1000, is missing.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

But ten days to Christmas.

Mrs. Thomas E. Furnald of Edwards street is critically ill.

The Sunday services will be found on one of the inside pages today.

Granite Lodge, I. O. O. F., M. U., is arranging for its annual ball.

Ralph G. Crane, who has been quite sick with diphtheria, is convalescent.

Dr. McLennan continues critically ill but was a little more comfortable this morning.

Look in the show window of Saville & Jones and see a sample of that 50 dozen neckties at 25 cents each.

Manet Encampment, I. O. O. F., worked the Royal Purple degree on five candidates ast evening, after which a collation was served.

The Christadelphian Bible Lecture will be held at Bent's hall, Washington street, Sunday evening at 7 o'clock. Subject: "Today, thou shalt be with me in Paradise." Luke 23: 43.

The board of government of the association of the Quincy High School alumni met last evening, and will be prepared to report to the adjourned meeting of the association next Friday evening.

The half page of D. E. Wadsworth & Co. today certainly is metropolitan in appearance and so is their store in The Greenleaf block. Better bargains may be obtained here than in Boston and now is the time to buy, while the stock is large and before the grand rush.

TODAY'S COURT.

Nat Mendlowitz and Phillip Freeman of Boston, were arraigned for peddling jewelry in Quincy without a license and were fined $10 each.

Walter S. Rowell of Randolph was arraigned for drunkenness, and fined $5.

James Furmingham of Quincy was arraigned for felonious assault on Leslie Smith. Case continued until next Thursday.

John O'Leary was arraigned for cruelly neglecting a horse at Randolph and fined $5. Appealed.

Frank Morallez of Weymouth was fined $1 for being an idle and disorderly person

Christmas Candies.

The candy season has set in and perhaps a few receipts for making good wholesome candies at home will not be amiss at the present time. The following receipts will be found useful for Christmas, church fairs, and for candy parties.

There are several ways of making *fondant* says the Ladies' Home Journal. The easier way is to add a teaspoonful of vanilla to the white of one egg, and an equal quantity of ice water, and beat until the mixture froths. Then add gradually a pound, or more if it is necessary, of confectioner's XX or XXX sugar. Ordinary pulverized sugar will not do, and the confectioner's sugar in either of these grades can be secured from any large grocery establishment. The sugar should be added until the mixture forms a stiff paste, when it should be worked very smooth with a spoon, then put it in a cool place, as it is ready for use.

CHOCOLATE CREAMS. Chocolate creams are made by dipping from the end of a long pin, small balls of the *fondant* into melted chocolate.

COCOANUT SNOW-BALLS. Knead some desiccated cocoanut into the *fondant*. Make into balls and when cool brush with beaten white of egg and sprinkle with grated cocoanut.

DELICIOUS NUT LOAF. Chop all kinds of nut into small pieces and work into the *fondant*. Make into a roll and serve in small square slices.

FRUIT BONBONS. Candied cherries may be stoned and refilled with small rolls of the *fondant*. White grapes may be coated in similar fashion.

CHOCOLATE PEPPERMINT CREAMS. Make like the above, and when the drops are almost cooled dip into a pan of melted and sweetened chocolate. These are particularly delicious.

ONE CHRISTMAS EVE.

Disguised as a Beggar, the Christ Child Seeks Shelter—A German Legend.

Here is a Christmas story that has been told the little children in Germany for many hundreds of years:

'Twas the night before Christmas. A little child was wandering all alone through the streets of a great city. People were hurrying hither and thither, and express wagons were being rattled through the streets. Even the snowflakes seemed happy with the expectation of the coming Christmas morning.

But the little child seemed to have no home and wandered on from street to street. No one noticed him except perhaps Jack Frost, who bit his bare toes and made his fingers tingle. The north wind, too, pierced his ragged garments and made him shiver with cold. Home after home he passed, looking with longing eyes through the windows in upon the happy children who were trimming Christmas trees and hanging stockings for old Santa Claus to fill.

Cold and alone the little wanderer softly tiptoed his way up to a beautiful window through which he could see a tree loaded with gifts and glittering with lights. He tapped on the glass, but a little girl coming to the window frowned and shook her head, saying: "Go away. We are too busy to take care of you now."

Back into the dark street he went. Coming to another happy home, where he heard the song and laughter of merry children, he climbed up the broad steps and gently tapped on the door. It was opened by a tall footman in white hat and gloves. He looked at the child then sadly shook his head and said: "Go down off the steps. There is no room for such as you here."

Again and again the little child rapped softly at door or window pane. At each place he was refused admission. Later grew the night and colder blew the wind. Farther and farther the little one wandered. The street was lengthy, when suddenly there shone ahead of him a single ray of bright light. He hurried on, saying, "I will go where the little light beckons me."

He soon reached the end of the street and went straight up to the window from which the light was streaming. It was a poor, little, low house. What do you suppose the light came from? A tallow candle. Looking in, the little one saw standing upon a small wooden table a branch of a Christmas tree. Near the fire sat a lonely faced mother, with a baby on her knee and an older child beside her. She was telling them a Christmas story.

The little wanderer crept closer and closer to the window pane. So sweet seemed the mother and so loving the children that he took courage and tapped gently, very gently, on the door. The mother stopped talking; the little children looked up. "What was that, mother?" asked the little girl. "I think it was some one at the door. Run quickly, dear, for it is too cold a night to keep any one waiting in the storm."

The child ran to the door and threw it wide open. The mother saw the little stranger, cold and shivering, clothed in rags, and his little feet almost bare. "Oh, you poor, dear child! Come in quickly and get warm. Have you no home? No Christmas to celebrate?"

The mother put her arms around the strange child and drew him close to her. She sat beside the fire with the little one on her knee, and her own two little ones warmed his half frozen hands and, bending low over his head, kissed the little wanderer's brow. They gave him the bowl of bread and milk that had been put away for their own breakfast, and when he had eaten it the little girl said, "Now let us light the Christmas tree and share our presents with this little child."

So busy were they lighting the tree and getting the presents ready that they did not notice that the room had filled with a strange and beautiful light.

They turned and looked at the spot where the little wanderer was. His ragged clothes had changed to garments white and beautiful. His tangled curls seemed like a halo of golden light, and his face shone with a light that they could scarcely look upon.

The little room seemed to grow larger, the roof of the low house to expand and rise until it reached the sky.

With a sweet smile the child looked upon them for a moment and then slowly rose and floated through the air, higher even than the clouds themselves, until he appeared like a shining star in the sky and at last disappeared from sight.

The wondering children turned and whispered to the mother, "Oh, mother, it was the Christ child!" And the mother said in a low tone, "Yes, my children."—Exchange.

What Christ Taught.

Before Christ came men did not know God. They did not understand his fatherhood and affection. They had all along supposed that whoever would enjoy God's favor must purchase it in some way, and so before the coming of Christ men crouched and trembled before God as though he were an almighty tyrant and they worshiped before him with sacrifices of slavish fear. But the coming of Christ brought a new element into human faith. He taught not the Jew alone, but he taught all men everywhere that God loves them; that he loves them as sinners; that he loves them with a love that is more devoted and tender than any mother bears her child; that he is not only ready to forgive them all that is past of transgression and sin, but to make them heirs of a glorious and eternal inheritance; that all God asks of man is love.—Christian Advocate.

ABSOLUTELY PURE

CONTEST FOR PRESIDENT

Mr. Bass Will Have a Rival in Councilman At-Large, Johnson.

Who will be the President of the next City Council, E. W. Henry Bass, or Charles H. Johnson? There is the question, who will answer it?

Mr. Bass has filled that office for the past two years in an impartial manner and has thus won the respect of both parties, and he has announced himself as a candidate this year.

Mr. Johnson, who is also reelected, and will doubtless step into Mr. Moxon's shoes as the leader of the Republican forces of the Council of 1895, is also mentioned as a candidate for the speakership, although in that position he could take no active part in the important questions that must necessarily come before this body.

Mr. Bass' abilities as a presiding officer of the Council are well known, while as yet those of Mr. Johnson are unknown quantity.

A majority of the Republican members of next years' Council are new members and it is hard to tell who they will favor, but a caucus of members elect will probably be held and it is hoped that it will not be a repetition of the one last year.

It is well known that last year a majority of the Republican members supported Mr. Moxon as president and that the Democrats came to Mr. Bass rescue which made a tie vote which was only settled by Mr. Bass voting for himself.

Whether the Democratic members of the next Council will support him again is an open question. There is no possibility of their electing one of their own members, and it would not be surprising if they support Mr. Bass again this year.

It is rumored that a quiet canvas is being made among the new members in favor of Mr. Johnson's candidacy, and friends of Mr. Bass are also stirring themselves in his behalf.

SERIOUS STABBING.

A Boy of Thirteen Uses a Jack Knife Upon a Schoolmate.

A school boy fight, a blow, quick to anger, a knife and a stab, tells the facts of a serious stabbing affair that occurred on Water street, yesterday afternoon shortly after 4 o'clock.

The principals in the affair were James Furmingham, aged 13 years, son of John Furmingham of Town Hill, and Leslie Smith aged 16 years, a son of James Smith of Packard's lane.

Both boys attended school at the John Hancock building and after school the boys with others got into a fight among themselves. During the progress of the row, the Furmingham boy got a blow in the face, which he says Smith gave him. His anger was instantly aroused and reaching into his pocket he drew forth his jackknife and made a lunge at Smith.

The blade entered Smith's chest just over the right lung. The point struck a rib which caused it to turn downward making a long jagged cut, which bled profusely, and the boy upon being carried into the school building fainted away.

Dr. Sheahan was summoned and upon his arrival he pronounced it a very serious case and immediately removed him to his home. During the first part of the night the boy was very low and at times it was thought he would not live until morning. This morning, however, he was reported as a little better.

Officer Gordon arrested Furmingham and took him to the police station where he was locked up. While in the police station he did not seem to realize that he had done anything very serious and when questioned about the affair, said he did not mean to cut Smith but the blow angered him and he drew his knife and made a lunge at Smith intending to frighten him so that he would keep away.

The knife with which the cutting was done was a large sized jacknife, the blade being about 2 1-2 inches in length and 3-4 of an inch in width.

Last night the Furmingham boy said it was a jackknife he cut Smith with, but later developments proves it to have been a shoe knife with a keen edge. After he had stabbed Smith he ran home and was seen to throw the knife through a window where it was found this morning.

Furmingham has the name of being a bad boy among his neighbors and at school, as it is said that he has threatened to cut schoolmates when he became angry.

JOLLY TARS.

A Social Held at Atlantic By the Squantum Yacht Club.

The boys composing the members of the Squantum Yacht club were under full sail Friday evening at Atlantic, not to participate in a regatta, for the sails of their yachts had been furled for the winter, but to trip the light fantastic upon the waxen floor of Music hall.

The occasion was the first grand social of the club and it goes without saying that it was a grand success from beginning to end.

Sprague's orchestra furnished music and from 8 until 2 o'clock A. M., all thoughts of worldy cares were forgotten in the enjoyments of the occasion.

Refreshments were served during a brief intermission, and when the final notes of the orchestra had died away it was with regrets that the affair had come to an end.

The New York Press prints a symposium of answers from Senators and Representatives; first, to the above question; and second, the causes of Republican success. Congressman Morse furnished the following:—

The Republican party in the Fifty-fourth Congress, as well as in the remainder of the present Congress, should hold the ground we already have and prevent further slaughter of our American industries in the direction of free trade as promised by President Cleveland and Chairman Wilson.

The Republican party should resist to the uttermost any legislation in the direction of free silver or vitiated currency, State banks, etc., and should do their uttermost to bring about an international agreement of the ratio of gold to silver.

The Republican party should do its uttermost to enact laws to restrict immigration, should favor the Nicaragua Canal, the annexation of the Hawaiian Islands under proper restrictions and safeguards and should make an attempt to repeal the odious, inquisitorial, income tax in the Fifty-fourth Congress.

The chief cause of Republican success was the assault upon every interest of the North in the direction of free trade by the Southern and controlling end of the Democratic party.

Second, the want of patriotism and national spirit and a humiliating and disgraceful diplomacy in the management of our foreign affairs.

Third, the absolute incompetency of the Democratic party to manage the affairs of this government, as demonstrated by eighteen months of rule, the issue of bonds and the increase of the national debt to meet the running expenses of the government.

LOOK OUT FOR PEDDLERS

The Quincy Poltce Scooped in Two on Friday—An Old Game.

Officer Ferguson arrested two Jews Friday noon upon suspicion that they were doing a swindling business.

The two men were going from house to house in the Centre soliciting photographs to enlarge. If the party at the house where they called had none to enlarge, they would produce a pair of gold bowed (?) spectacles which they claimed they had found and offer them at an extremely low price.

When searched at the police station, eleven pairs of these same gold bowed (?) spectacles were found on one of the men and eight pair upon the other. There was also a book containing a number of names with $1 paid marked against them, and a lot of old photographs.

The spectacle game is an old one and has undoubtedly been worked this time upon some of our citizens.

The men will appear in court this morning.

ALMOST A RIOT.

Work Suspended Yesterday on the Rebuilding of Liberty Street.

There came near being a riot on Liberty street Friday morning. Just before noon a taxpayer of Ward Three approached Foreman Lowe and asked for work but was told he could have none. A windy war followed, and as the indignant citizen had sympathizers near by, it looked as though a riot was about to break out, for it needed only one blow to set the two crowds to fighting. Some of the men stepped in between Foreman Lowe and the angry citizen, when the foreman evidently believeing that he who fights and runs away, lives to fight another day, made his retreat. He returned a little later and pulled off all the men and carts at work.

The Ward Three citizen who started the trouble claimed that he paid taxes amounting to $40 a year and that partiallity was show, as he could not get work, while men who ouly paid a $2 tax had work all the time.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

With a commendable enterprise, in view of the universal interest aroused by the death of one of America's brightest intellects, the Lothrop Publishing Company of Boston has brought out a new edition of Emma E. Brown's "Life of Oliver Wendell Holmes. The chatty volume has always been a popular one, and, Miss Brown has revised it so as to cover the whole pleasant story of the helpful life of the "Autocrat." Miss Brown has done her work well. We catch glimpses of the man in all his phases—as poet, humorist, philosopher, physician, novelist, man of letters and man of the world. Admirers of his writings, lovers of his personality, will welcome this volume, which presents the life of one of the best-known, the best-liked and the best-loved of American men of letters.

RESERVE IS INVADED

Withdrawal of Gold Brings It Below the $100,000,000 Mark.

DEFEAT OF CARLISLE'S PLAN

Lay Result From a Combination of Senators.

WASHINGTON, Dec. 15.—The gold reserve yesterday took another downward plunge by the withdrawal of $4,875,000, leaving the net reserve at the close of business $96,341,884, or $3,658,116 below the $100,000,000 limit.

Assistant Secretary Curtis, in speaking of the situation, thought that the heavy demand for gold during the last week was to meet dividend and other payments falling due on Jan. 1 of each year. During the first two weeks of each December sterling exchange always advanced, and very often to the shipping point, as is the case at present.

After this week, Mr. Curtis thought the exportations of gold would materially decrease, if they did not cease altogether. Of course, it was a matter of serious regret that our monetary system was such as to permit these withdrawals against our will, but, until congress took the matter in hand, nothing could be done except to hand out the gold whenever demanded.

Carlisle's Bill May Fail.

Secretary Carlisle, having been assured by his Democratic friends on the banking and currency committee and in the house that his currency reform measure would pass that body, is devoting all his spare time among his friends in the senate.

He has had several conferences with the Democratic members of the finance committee. The bill, in many respects, is not entirely satisfactory to all the Democratic members of the committee and their associates in the senate.

But as the president and the secretary are very anxious to secure its passage, believing that it will tend greatly to relieve the present financial stringency and the industrial condition of the country, and that it is the only financial legislation that is likely to be enacted, they may be induced to give it their support.

They very much doubt, however, whether its passage can be secured in that body. All of the Populist senators are opposed to it, and will talk and vote against it. If the Republican senators array themselves in opposition to it, they can prevent its passage. Senators Aldrich, Sherman, Hoar, Lodge and others on that side have expressed themselves as decidedly opposed to Carlisle's scheme. They seem to be very positive that it cannot pass the senate.

Concerning Anarchists.

The judiciary committee of the house agreed on numerous amendments to the anarchists bill as passed by the senate. The main amendment gives the foreign inspection of immigrants to United States consuls under the decision of the state department, instead of treasury inspector, as proposed by the senate bill. Another amendment requires every immigrant to have a certificate from the United States consul from the port at which the immigrant embarks.

Congressional Doings.

The time of the house was consumed with debate on the pension appropriation bill, and although it abounded in charges and counter charges, it lacked interesting detail. The bill carries $141,381,570 and was passed without amendment. The Hitt resolution of inquiry calling on the secretary of state for the correspondence relating to the payment of $425,000 to Great Britain in connection with the fur seal controversy was adopted. The evening session was devoted to the consideration of private pension bills, and the house adjourned over until Monday.

Sultan Changes His Mind.

WASHINGTON, Dec. 15.—The United States will take no part in the investigation of the Armenian outrages. Finding that the limitations imposed by President Cleveland upon the functions of United States Consul Jewett were such as to prevent his joint action with the representatives of the old powers, the sultan has withdrawn his invitation to the United States to appoint a commissioner.

Turkish Oppression.

ODESSA, Dec. 15.—Hundreds of Turkish Armenians are crossing into Russia. The south Russian papers are full of their harrowing stories. A telegram from Tiflis says that the Turkish government has caused the arrest of the bishop of Moush and the members of his church council, because they informed the British consul of the Armenian outrages.

Death of General Porter.

NEW YORK, Dec. 15.—Adjutant General Josiah Porter died last night at his home here. For the 24 hours previous to his death General Porter lay in a comatose condition. His death was the outcome of an apoplectic stroke at the Seventh regiment banquet a few days ago.

Nantucket Cattle Healthy.

NANTUCKET, Mass., Dec. 15.—The state cattle commission have about ended their labors in Nantucket. Over 600 animals have been inoculated at an expense of about $2 per head. Very few animals have been found to have any trace of tuberculosis.

Sold For $350,000.

BELVIDERE, N. J., Dec. 15.—The Pennsylvania, Poughkeepsie and Boston railroad was sold by Special Master in Chancery Gray yesterday. W. B. Scott, chairman of the reconstruction committee of the bondholders, purchased it for $350,000.

Samoan Politics.

VANCOUVER, B. C., Dec. 15.—Latest Samoan advices say that local German residents are very confident that either German annexation or a protectorate will shortly be declared. If either takes place, no doubt internal troubles will cease.

As In Days Gone By.

ATLANTA, Dec. 15.—In a trial of whitecappers yesterday a sensation was created by witnesses testifying that a far-reaching Kuklux organization existed in that section, and that prominent government officials are members of it.

Jail Breaker Captured.

LACONIA, N. H., Dec. 15.—Word has been received from Granby, Que., of the capture of Fred S. Hunt, a notorious horse thief, who broke jail a year ago. Marshal Scott left to bring the prisoner back.

ROBERTSON HANGED.

New Bedford Wife Murderer Pays the Penalty of His Crime.

NEW BEDFORD, Mass., Dec. 15.—Daniel M. Robertson, the wife murderer, was hanged at the jail here at 10:42 a. m. yesterday. The execution was without special incident.

Robertson was born in Frederickton, P. E. I., 49 years ago. He murdered his wife Sept. 9, 1893, when she was in the house in New Bedford which she was keeping up by her own exertions.

Robertson married Mary McKenzie, who was a native of Belfast, P. E. I., about 20 years ago, in pique, because of disappointment in love for another woman. There appeared to be only love and trust on the wife's side, however, against brutal treatment and almost hate on the other.

Months were spent by Robertson in the correctional institutions of this county, until life with him became a burden, and Mrs. Robertson finally resolved upon a divorce. The suit was pending when Robertson was released from serving a sentence in the house of correction on the morning of the murder.

He went to his wife's house, demanded food and money. She was obdurate, and in his anger he seized a table knife, plunged it into his wife's face and fled. In a short time she died. Robertson was arrested shortly after he had committed the deed.

All efforts to bring about executive clemency proved futile. Thus it happened that for the first time within 40 years Bristol county had a hanging, the last being that of Murderer Clough of Fall River, who was executed in Taunton.

Seely Locked Up.

NEW YORK, Dec. 15.—Samuel C. Seely is a prisoner in Ludlow street jail, having arrived last evening from Chicago. President Crane of the Shoe and Leather National bank was with him. Mr. Crane had been, during the run from Chicago, unceasing in his efforts to get Seely to talk, but Mr. Crane, speaking to a reporter, said: "We know now no more of his methods than when I left New York. He would say nothing, absolutely nothing. The man has left me completely in the dark."

China Guarantees Protection.

SHANGHAI, Dec. 15.—The Chinese government has intimated to the foreign ministers its objection to receiving military guards in Pekin, the government answering for the efficient protection of the legations. Accordingly, the guards, numbering 50 each, at the British, French, German, Russian, American, Italian and Spanish legations, have been ordered to remain during the winter at Tien-Tsin, where are also stationed warships of Great Britain, France, Germany, Russia and the United States.

Looks Like a Farce.

PORTLAND, Me., Dec. 15.—The special committee to investigate the police were in session two days, and during that time not a single complaint had been made to them. No effort was made by the committee to receive evidence. The legislature may be urged to appoint a legislative committee, and grant immunity to all witnesses. If this is done, startling developments are expected.

Moriarity's Ride.

BANGOR, Me., Dec. 15.—William Moriarity created a sensation here last night by dashing through the principal streets whooping on a broncho, winding up with an attempt to ride into a restaurant. When put under arrest Moriarity drew a knife, but did no damage. The horse was nearly dead from exhaustion.

Foxy Japs.

LONDON, Dec. 15.—The special correspondent of The Times at Japanese headquarters says that Japan has arranged a fully-manned civil service, down to the minutest detail, ready to step in to administer north China, and especially the treaty ports, at the first sign of disorder or anarchy.

Final Vote Not Taken.

ITHACA, N. Y., Dec. 15.—The meeting of the Cornell faculty to decide whether or not to adopt the proposition to abolish intercollegiate athletics was a victory for the supporters of intercollegiate contests. The final vote was postponed until the second meeting of the next term.

Fighting the Pool Law.

PROVIDENCE, Dec. 15. — Evangelistic clergymen of Rhode Island held a meeting here yesterday to prepare a petition calling for the repeal of the pool law. The petitions will be circulated throughout the state and presented to the legislature.

Indoor Records Fall.

PHILADELPHIA, Dec. 15.—Two world's records for indoor cycling were lowered here last night. W. A. Barbeau reduced the half-mile record from 1:10 2-5 to 1:08 2-5, and W. C. Roome the two-mile record from 4:48 to 4:45 1-5.

A Brutal Husband.

BOSTON, Dec. 15.—Eliza M. Shea of South Boston was beaten by her husband last night, and so badly hurt that she was removed to the hospital. Shea was fined $20 only yesterday for assaulting his wife a few days ago.

Germany and France Are Interested.

PRETORIA, Dec. 15.—President Kruger says that the new Swaziland convention is practically a repetition of the old convention. Neither Germany nor France, he adds, will permit Great Britain to annex Delagoa Bay.

Combat Inevitable.

BOMBAY, Dec. 15.—A dispatch from Kajurikuch says that the Mahsud Waziris have finally refused the terms of the Indian government, and that a punitive expedition against them is inevitable.

Crew Saved.

NORFOLK, Dec. 15.—The schooner Willamine was abandoned at sea, her crew having been picked up by a British steamship. She loaded at this port and was bound for Plymouth, Mass.

Bullet Through His Head.

TORONTO, Dec. 15.—Ed Houghton, the well-known artist and cartoonist of The Star, fatally shot himself through the head last night. Despondency was the cause of the act.

No Case Against Them.

MEMPHIS, Dec. 15.—The jury in the lynching case brought in a verdict of not guilty in the cases of Richardson and Smith, and nol prossed the balance of the cases.

Attacked Wife With a Knife.

FALL RIVER, Mass., Dec. 15.—Patrick Madden seriously stabbed his wife in the breast and back last night. His wife is in the hospital. Madden was arrested.

GUILTY OF CONTEMPT

Debs and His Associates Sentenced by Judge Woods.

THE LEADER GETS SIX MONTHS

While The Others Will Serve but Half That Time.

CHICAGO, Dec. 15.—Eugene V. Debs was found guilty of contempt by Judge Woods. Debs was sentenced to six months' imprisonment and the rest of the defendants to three months in jail, with the exception of McVean, whose sentence was suspended.

Attorney Darrow, representing the defendants, asked that his clients might retire for a consultation regarding what they should say, and after a brief recess the strike leaders filed back into court, ranging themselves before the bench. Attorney Darrow, speaking for them, advised the court that Director McVean, one of the defendants, was out of the city during the strike. A lengthy argument between attorneys followed over the proposition to discriminate in McVean's favor, which the court terminated by suspending sentence on McVean.

EUGENE V. DEBS.

In sentencing the other defendants, Judge Woods said punishment should be neither vindictive nor trivial.

These men were in willful contempt. These men were the leaders of lawbreakers, and are responsible as leaders. Ignorant men who followed have been punished. Mr. Debs is more responsible than any other. He is a man of marked ability and power over men. I feel constrained to discriminate between him and the others. The punishment against all defendants except Debs is three months in jail, and against Debs six months.

The defendants did not appear particularly crushed at the punishment. Debs bowed his tall, gaunt form, and whispered a few words to his sister, who sat near, and they both laughed heartily. Howard and Hogan exchanged smiling glances, and Keliher grasped his attorney's hand and appeared to offer congratulations. It was evident that all had expected more severe sentences, and all wore a look of relief.

Debs drew his people together and instructed them to say nothing for publication, setting them an example by refusing to discuss the case at all. After the murmur of excitement had subsided, the court announced that the punishment was not to take effect for 10 days, in which time the defendants' attorney will prepare an appeal.

The prospective prisoners, after a short consultation with their attorneys, left the courtroom.

The defendants, with their official positions in the American Railway union, are President Debs, Vice President Howard, Secretary Keliher, Treasurer Rogers, and Directors Burns, Elliott, McVean, Hogan and Goodwin.

History of the Case.

As one issue of the great Chicago strike, a federal writ was issued on July 2, by United States Judges Grosscup and Woods, at Chicago, enjoining President Debs and others of the American Railway union from any interference or inciting of interference with trains carrying mails or engaged in commerce between states.

On July 10 President Debs, Vice President Howard and other officials of the American Railway union were arrested and arraigned before the United States commissioner on the charge of obstructing the United States mails and hindering the execution of the United States laws.

The arrests followed a vigorous charge to the federal grand jury by Judge Grosscup and an indictment by the grand jury for conspiracy against the laws of the United States. It was as a defiant response to this action that an order to quit work was issued by the two great labor organizations as soon as the arrests were made known.

On July 19 the federal grand jury found indictments for contempt of court against 43 individuals, among them being Debs, Howard and all the board of directors of the A. R. U. They were arrested the next morning. They refused bail, and remained in jail until Sept. 25, after two postponements of trial, when they were put on trial for contempt of court in violating the injunction issued July 2 by Judges Woods and Grosscup.

The question involved was "whether courts shall assume the function of inflicting summary punishment without jury trial for acts punishable by ordinary criminal proceedings." The result of that trial is now evident in the dispatch above. The result of this great strike has not been without its obvious lessons as to the supremacy of the law.

President Debs is reported to have said, Aug. 1, "I will never again have any official connection with a strike. * * * So long as strikes are repugnant to society it is useless to inaugurate them."

CREEDEN'S CONFESSION

Has Caused a Decidedly Uneasy Feeling In Gotham Police Circles.

NEW YORK, Dec. 15.—Police Captain T. J. Creeden confessed before the Lexow committee that he had paid $15,000 to secure his captaincy. A few hours later he was suspended from the force by the board of police commissioners on recommendation of Superintendent Byrnes, who was instructed to prepare charges against him.

The Lexow committee had agreed that Creeden should be granted indemnity from punishment for his purchase of the captaincy, and when the action of the police commissioners became known, they, as well as Superintendent Byrnes, were subpœnaed to appear before the investigating body of the senate.

Captain Creeden's confession was the biggest sensation yet brought forth by the Lexow committee. The startling facts essentially interwoven with this sensational expose affix the taint of dishonor and corruption upon men who have held some of the most responsible offices in the gift of the community.

The affair not only involves and implicates men who have filled some of the most important positions in the police department, but verifies and corroborates the gravest charges of official corruption that were ever preferred against the constabulary of New York city.

The inquisitorial senators have almost reached the climax of their investigating labors. But public censure is not heaped on Creeden's head. It falls on those who are supposed to have induced him to enter into the deal.

Captain Creeden had served in the local police department for 30 years with honor and distinction. He is a war-scarred veteran, whose record shows that he has been in 23 engagements of the civil war. In all his 30 years of police service, he was fined only six days' pay for trivial and minor derelictions, and the captain's one fault was forgotten by the popular mind in sympathy for his present trying position and respect for his past deeds.

Richard Croker has been invited to appear before the committee and deny the charges made against him. In an interview, Croker was uniformly silent. "I have nothing to say to this," was the only reply he made to all inquiries.

Bowen Knocked Out.

NEW ORLEANS, Dec. 15.—The fight between the lightweights, George Lavigne and Andy Bowen, was won by the former. Bowen was knocked out in the 18th round. Up to a late hour this morning he had not regained consciousness. Lavigne is detained by the police, awaiting the outcome of Bowen's injuries.

Father Held Responsible.

SPRINGFIELD, Mass., Dec. 15.—James Weldon was arrested on a charge of causing the death of his 19-year-old son, John, who died from the overturning of a kerosene lamp. The police claim that they have testimony which will show that Weldon threw the lamp at the boy.

Birk Wouldn't Rise.

BERLIN, Dec. 15.—At a meeting of the Munich municipal council, Herr Birk, a Social Democratic member, retained his seat when a motion was made that all the members should rise as a token of gratitude for the prince regent's numerous charitable gifts.

Women Are Guilty.

BURLINGTON, Vt., Dec. 15.—The jury in the Fournier poisoning case, after 20 hours' deliberation, brought in a verdict of guilty of manslaughter in the case of both Mrs. Fournier and Mrs. Whalen.

Minister Resigned.

MADRID, Dec. 15.—The chamber of deputies adopted a motion—82 to 39—to raise immediately the import duty on wool. Senor Salvador thereupon announced his resignation.

THE NICARAGUA BILL

Promises to Occupy Senators' Attention Throughout the Week.

CARLISLE'S NEW BANKING BILL

Will Be Under Fire in the House of Representatives.

WASHINGTON, Dec. 17.—The Nicaragua canal bill holds its place as the unfinished business in the senate calendar, and the general understanding appears to be that it will continue to occupy the attention of the senate, with few interruptions, and those by consent, until a vote is taken upon it.

The bill only comes up on each day after the disposal of the morning business, and it will surrender this place temporarily on Thursday to permit the ceremonies in commemoration of Webster and Stark, and of the unveiling of their statues which have been placed in the Capitol.

There is also a probability that the committee on appropriations may ask consideration for the urgent deficiency bill toward the last of the week. It is understood that Senator Cockrell, chairman of this committee, will lay stress upon the importance of getting this bill through before the holidays, and that he will ask the committee to pass upon it today or tomorrow. There is little probability, however, that any of the other appropriations will receive the attention of the senate during the week.

About Adjournment.

The disposition among senators is favorable to an adjournment on Thursday until after the Christmas holidays, but it is probable that the house will not consent to this arrangement, and that the adjournment will be delayed until Saturday. The program, therefore, with reference to any holiday adjournment, so far as one has been arranged, is to adjourn Saturday until Thursday, Jan. 3.

Some senators predict that the final vote on the Nicaragua bill will be reached this week, but the friends of the bill scarcely hope for this result. They realize that the precedents of the senate are all against action so speedy on a measure of such importance and presenting so many points for debate and set speeches, and they are also prepared to encounter opposition which has not yet taken definite shape.

Senator Caffery's objection to a vote on the bill on Wednesday is understood to have been made upon constitutional grounds, and it is quite probable that he, with Senators Vest, Teller, George and Vilas, will desire to be heard in opposition to the measure before it shall be disposed of. Senator Cullom today opened the speaking for the week with a speech on this question.

In the House.

This week promises to be an exciting one in the house. The banking and currency committee have arranged to bring forward the Carlisle banking bill, and will make a request to the committee on rules for a special order which will set aside the remainder of the week, beginning tomorrow, for debate on the Carlisle bill, with provision for a final vote on Friday next.

The banking committee desires to prolong the sessions so as to begin at 11 a. m. and continue till 10:30 at night, with a recess from 5 until 8 p. m. The terms of the special order will be at once submitted to the committee on rules.

There is considerable opposition by the Republicans of the house to the short limit it is proposed to set upon the debate. Many of them feel that a measure involving such gigantic interests, contemplating as it does a revolution in the entire banking system of the country, should not be crowded through in haste.

This feeling is shared by some of the most prominent Democratic leaders of the house, and there is a strong possibility that the banking and currency committee will be overruled and the special order will give this week to debate, with provision for a final vote after the holiday recess.

The adjournment for the holiday recess will probably occur on Saturday. The talk of continuing the session without the customary recess seems to be based on very slight foundation.

A Good Starter.

ROME, Dec. 17.—The Lyons Society for the Propagation of the Faith has promised the pope an annual subsidy of 500,000 francs to found colleges and schools in the East, with a view to uniting the Eastern and Western churches. The pope will ask the episcopates in Austria, Germany and the United States for subsidies for the same object.

Suicide or Murder?

NATCHEZ, Miss., Dec. 17. — Detective Formoso of New York has in charge the alleged fugitive wife murderer, Bernardo Foglia, who was arrested here on board a steamer. Foglia is confident that his story that his wife committed suicide will be proven. Formoso says the belief prevails in New York that she committed suicide.

For Dead Premier's Wife.

WINNIPEG, Dec. 17.—W. W. Ogilvey, president of the Montreal board of trade, has telegraphed $2500 to head the Montreal trade subscriptions to Lady Thompson, wife of the late Canadian premier. The subscription will be made a national affair.

An Alleged Swindler.

NEW YORK, Dec. 17.—Perry Yarrington of Boston, who, it is alleged, has been buncoing New Yorkers by selling them the agency for a gas generator, of which he claimed to be the owner and patentee, is under arrest. He denies the charge.

To Start Anew.

MINNEAPOLIS, Dec. 17. — The Esterly Harvester company has made an assignment. The assets are given as $938,742, and the liabilities as $385,013. The company will be reorganized.

To Fight It Out.

CHICAGO, Dec. 17.—Eugene Debs and his associates on the board of directors will take an appeal from the jail sentence of Judge Woods. This was agreed upon at a meeting of their counsel.

Burglars Are Busy.

WEST DERBY, N. H., Dec. 17.—E. N. Whitney's store was broken into yesterday and over $100 worth of goods and money were taken. It is supposed that the same parties stole a team belonging to Mr. Stokes of Londonderry.

STEVENSON DEAD.

The Popular Novelist Passes Away at His Home In Samoa.

AUCKLAND, N. Z., Dec. 17.—Advices from Apia, of the date of Dec. 8, are to the effect that Novelist Robert Louis Stevenson died suddenly from apoplexy. His remains were interred on the summit of the Palma mountains, 1300 feet high. At the time of his death Mr Stevenson had half completed the writing of a new novel.

ROBERT L. STEVENSON.

Robert Louis Balfour Stevenson was born in Edinburgh, Nov. 13, 1850. He was educated at private schools and at the University of Edinburgh, and was called to the Scottish bar, but traveled and devoted himself to literature.

One of his earliest works was an account of his travels in California, but the work which established his reputation as a writer of fiction was "Treasure Island," published in 1883. Among the most popular of his works is "Dr. Jeykll and Mr. Hyde," which was dramatized and played at the Lyceum theater in London in 1888, and subsequently in the United States. Among his other works are "Kidnapped," "The New Arabian Nights" and "The Black Arrow."

Some time ago Mr. Stevenson was suffering from lung trouble and went to the South Pacific for his health. He became enraptured with the Samoan islands and decided to take up his residence and spend the rest of his days there. He took a close interest in Samoan affairs, and has written many letters to the newspapers in favor of the natives as against the treaty powers under whose direction the government of the islands is conducted.

About $60,000 Gone.

NASHUA, N. H., Dec. 17.—The Indian Head bank officials refuse to make any statement as to the amount of McKean's defalcation, but the general belief is that it is in the neighborhood of $60,000. All sorts of stories are afloat, the latest being to the effect that McKean was maintaining two or three households in Boston. This is not believed by those most closely connected with him, who, although they admit that the fact would explain where a great deal of the missing money has gone, declare that the bulk of it was lost in unsuccessful stock operations. The officials are as much in the dark as ever as to McKean's present location.

Plain Language.

BERLIN, Dec. 17.—The Vorwaerts, the Socialist organ, says that those members of the reichstag who heart and soul stood up for the government in its attempt to punish the Socialists are in spirit descendants and heirs of those robber knights by whose subjugation the Hohenzollern dynasty gained the right of existence four and a half centuries ago. The National Zeitung warns its readers against encouraging any extension of the conception of lese-majeste if the emperor constantly and personally interferes as William II does.

Not a Candidate, Unless—.

INDIANAPOLIS, Dec. 17. — George W. Turner, editor of the New York Recorder, has been in the city two days in close consultation with ex-President Harrison. Mr. Turner made the following statement: "Nothing could be more repugnant to Mr. Harrison than a third nomination, and he would much prefer to remain at his home here in Indianapolis and practice law. Mr. Harrison will not be a candidate unless great pressure is brought to bear upon him."

Granite State Officials.

LACONIA, N. H., Dec. 17.—The following gentlemen have been selected to serve on the staff of Governor-Elect Busiel: Adjutant general, Augustus D. Ayling; inspector general, J. P. Wellman; quartermaster general, William F. Knight; commissary general, John H. Brown; judge advocate general, Frank S. Streeter; surgeon general, Samuel P. Carbee; aides-de-camp, William J. Hoyt, Bertram Ellis, Alvin T. Thoits and Lyford A. Merrow.

An Unhappy Couple.

BRIDGEPORT, Conn., Dec. 17.—A sensation was created when society people of this city learned that William A. Greisinger and his wife had separated. The cause of the separation is alleged to be the intolerable cruelty of the husband. Mrs. Greisinger has conducted the most elaborate and fashionable millinery establishment in this city. Her attorney says there is little hope of a reconciliation.

Indians Getting Restless.

PINE RIDGE, Dec. 17.—The Indians on the reservation are getting restless, and the settlers are fearful of another outbreak. The Sioux have never been peaceful since the Pine Ridge incident. It is believed that extreme measures will be necessary to prevent trouble, as the approach of cold weather is making the situation more critical.

Efforts For Savage's Pardon.

BIDDEFORD, Me., Dec. 17.—A movement is being made here to secure the pardon of Alfred Savage, who is serving a life sentence in state prison for the murder of Rose Vincent, 16 years ago. The couple went rowing on the Saco river. They quarrelled, and Savage choked the girl to death. Jealousy was the cause of the crime.

Yarn Firm Embarrassed.

PHILADELPHA. Dec. 17.—Executions amounting to nearly $50,000 have gone out against Job Beatty's Sons, yarn manufacturers of this city. The firm operated 2800 spindles and made 10,000 pounds of yarn a day. The pressure of hard times and lack of profit on sales brought about the firm's embarrassment.

Defaulting Treasurer.

SALEM, S. D., Dec. 17.—Public Examaminer Meyers has caused the arrest of Stephen Welbes, treasurer of McCook county, on the charge of embezzling $6000.

QUINCY'S OLDEST.

Mrs. Alpheus Spear Dies in Her 98th Year—Was a Smart Old Lady.

Mrs. Ann (Adams) Spear, widow of Alpheus Spear, and the oldest person in Quincy, died of old age Sunday morning, aged 97 years, 9 months and 12 days.

For some time past Mrs. Spear has been living with her daughter, Mrs. Abigial M. Newcomb, on Hancock street, and although having long passed the three score and ten mark, enjoyed life and took an active interests in the welfare of her children. Up to six months ago she always busied herself about her knitting, but then her health began to fail and although she was visibly growing weaker, she still retained that mild, gentle disposition that had always been characteristic with her through life.

About four weeks ago she took to her bed, and although she was able occasionally to sit up in bed, she never left it. The end came peacefully, the eyes that had looked upon the world so long, closed and she dropped to sleep as quietly as a little child, but to that sleep from which there is no awakening on this side of the river,

"And calm and peaceful is her sleep,
Rocked in the cradle of the deep."

Mrs. Spear was born in Quincy, nearly opposite the house where she died, March 4, 1797, and was the daughter of Micajah and Alice Adams. Twenty-two years later she was united in marriage by Rev. Peter Whitney, to Mr. Alpheus Spear who was one year her senior.

The fruits of this union were eight children, three sons and five daughters, namely: Charles A., who married Caroline A. Green; Ann M., who married Thomas H. Plumer; Louisa, who married Joseph W. Whitney; Sophia, who married Joseph T. Berry; Abigail M., who married James Newcomb; Warren W. who married Viana M. Moore; John M., who died unmarried and Emily E., who married James N. Blake.

Of this large family but four are now living, Mrs. Berry, Mrs. Newcomb, Warren W. and Mrs. Blake. There are however 14 grandchildren and 7 great grandchildren.

Mrs. Spear has always lived in Quincy, her husband being one of the founders of the First Universalist Society and its first treasurer. Mr. Spear died May 4, 1847, at the age of 51 years and for the past 10 years Mrs. Spear has made her home with her children. She was kind hearted, and lived to do good, and always had a pleasant word for all.

Funeral services will be held from the residence of her daughter, Mrs. Newcomb, Tuesday afternoon, at 2.30 o'clock.

CHURCH AND CHAPEL

The Sunday School Reopen After the Diphtheria Scare.

The New Pastor of the Presbyterian Church Preaches on "The Sower."

Sunday morning in the Presbyterian church the Rev. Robert Westly Peach, delivered an earnest discourse on "The Sower," taking his sermon on Matthew XIII, verses 3 to 8. We have heard this subject treated of by clergymen of various capacities; some thoughtful and some, alas, mere "snappers up of unconsidered trifles." Mr. Peach infused an earnestness, simplicity, and appositeness in delivering the result of his meditation, that one felt this parable was handled in the spirit and application designed by its author. In the evening the text was: James 5:16. "Confess your faults one to another, and pray one for another."

Rev. E. W. Virgin preached Sunday morning in the West Quincy Methodist church on "The Unspeakable Gift."

The West Quincy Methodist Sabbath School held their annual meeting Sunday and elected the following board of officers: Superintendent, Jonas Shackley; Assistant Superintendent, Rev. E. W. Virgin; Treasurer, C. S. Jose; Secretary, Miss Mary Trask; Librarian, R. Newcomb. The school are to have a Christmas and New Year's entertainment on New Year's eve. A unique and interesting program will be provided.

The Rev. Edward A. Robinson, pastor of the Wollaston Congregatioal society, exchanged on Sunday with the Rev. Preston Gurney, pastor of the First Baptist society.

The Christmas musical service of the Wollaston Baptist Sunday School will be given on next Sunday evening at 6.30 o'clock.

The "neighborhood meeting" will be held at the home of Rev. Preston Gurney Wollaston, on Tuesday evening at 8 o'clock.

On Wednesday afternoon at three the Ladies' Foreign Mission Society will meet with Mrs. Sparrow of Wollaston.

The trustees of the First Presbyterian church, Water street, immediately upon the acceptance of the call given by the parish to the Rev. Robert Westly Peach to become pastor of the church, began making improvements upon the manse, No. 39 Quincy street. A new Magee furnace was put in, double floors laid in the second story, and repairs added which make the house very comfortable and pleasant; and it is now occupied by the new pastor and his family.

Rev. Edward A. Robinson occupied the pulpit of the Baptist church church, Wollaston, on Sunday and preached a very fine sermom, taking his text from Isaiah 57: 20-21. The singing by the quartette, Mrs. Frank A. Page, Mrs. E. A. King, Mr. C. B. Dickey and Mr. C. F. Wilde, was especially good.

Sunday at Wilson's hall, Rev. Wm. Steele preached on "The Testimony of John" John 1: 19 to 27, and "A Love beyond Knowledge" Ephesians 3-19. Attendance and interest is increasing. Solo singing by Mrs. Steele was much appreciated. All are cordially invited to all our services.

The song service at Norfolk Downs Sunday was well attended. The address was by Rev. James E. Bagley of the Unitarian church, Wollaston. After the srvice those interested remained and the constitution and by-laws as arranged by the committee were read and accepted. It was decided to call the society The Park and Downs Union Society. About 25 names were signed to the constitution and became members of the society.

Cottolene.

An important and interesting trade-mark suit, which has been before the courts for some time, has recently reached a decision in the United States Circuit Court for the Southern District of New York, Judge Townsend presiding.

The decision was in favor of the proprietors of Cottolene, a well known and high prized substitute for lard, by many of the ladies in Quincy.

It seems to be the law that when manufacturers have educated the public to ask for a certain article by its trade-mark name, they have acquired the right to insist that products manufactured by others shall not be given to the public under that name. It is just that it should be so for the benefit derived from such name can only be obtained by faithful service in furnishing articles of recognized value. Moreover, if the trade-mark name might be adopted by others, inferior articles might then be produced and sold under it; and thereby the value to manufacturers of the reputation of the name used by them as a trade-mark would be destroyed.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

MAGAZINE NIGHT.

Three Papers Read and Discussed by the Literary Society.

The weekly meeting of the Quincy Literary Society was held in Doble's building on Friday evening, the vice president, Mr. William Traynor in the chair.

The regular business was the reading of the articles contributed to the monthly magazines and their consideration by the members.

The first one read by the editor was upon the familiar domestic theme, "Home life."

To a considerable extent, observed the writer, home is what me make it. It may be a place for meals, or a shelter for the night, but if so, the fault is with those who make it such. In our large cities, the facilities that are offered for young married people in the way of family hotels and furnished rooms are temptingly great.

The worst effect of such a mode of living is in the rearing of children. There is none of that domestic privacy and parental oversight, without which home life in its truest and best sense is a mockery. When children prefer outside society to that of home there is generally something wrong. Parents should never be too old to play with their children. When the home is made cheerful with music, and instructive with entertaining books such as children can understand, it is a glorious harbor of refuge, to which the mind in after years can look back with infinite pride and satisfaction. In the criticism that followed the reading of the paper, the sentiments of the writer were sincerely approved. In the hurry and bustle of modern life, it is well sometimes to be reminded of the incomparable pleasures of home; to realize the obligations and responsibilities that accrue to home life, and the far reaching effect that its training has upon individual and national development. The inspirations that such a subject as home life suggests, are fraught with the most tender and purest ideals of life.

The next contribution submitted was of a poetical character. The new applicant for lyrical honors chose for his title the somewhat unpoetical heading of "Profit and Loss." The mercantile nature of the production was perhaps affected by the visions of trade methods and shady commercial transaction which the opening appellation suggested, as the verses were thought to smack too much of the vagueness and uncertainty that characterize the modern stock market, to be readily appreciated. Hopes were expressed however, that an opportunity for more extended examination would be afforded than was possible at one casual reading, and the editor was instructed to request the anonymous bard to allow it to be published, so as to grant members and others fuller privileges of mental dissection.

The last and most discussive paper of the evening was upon the philsophy of pain, a question that has been provocative of more diverse debate, during the centuries than almost any other subject.

Next Friday evening an essay will be given by Mr. Alex. M. Craig upon the philosophy of Emerson.

THE CRISIS IN ITALY

Becomes More Exciting Because of the Action of Premier Crispi.

SESSION OF DEPUTIES PROROGUED

To Give Time to Think Over the Points at Issue.

ROME, Dec. 17.—A royal decree proroguing the session of the chamber of deputies was published yesterday in the Official Gazette. The Gazette also contains the report of Prime Minister Crispi to King Humbert. The prime minister, in his report, said:

"It is only a few days since your majesty, in a speech from the throne, outlined the work of this session. Everyone believed that there had been opened a period of fruitful peace. The financial program was everywhere received with favor, its sincerity inspiring conviction that we were on the right way towards an economical recovery. Your government was occupied with useful measures. Moving serenely above parties, we thought only to justify public confidence by the sure and fruitful guidance of affairs.

"Suddenly your hopes and those of the country were deceived. An eager attempt was made to revive the bank scandal by a handful of disturbers, who placed themselves at the head of a strange coalition. They attacked the institutions of the country and those who upheld them, disregarded all the tolerance and sought only to create disorder.

"Thus the work of parliament was interrupted, calmness of judgment obscured, even the authority of the president was disregarded, and in the confusion created the parliamentary system was compromised. It is not institutions which need defending under such circumstances. It is a question of rendering nugatory the attacks on the usefulness of the chamber.

Prorogation Suggested.

"The council of ministers has unanimously decided that I propose that your majesty prorogue the session in order that the chamber, guarding itself against ambushes and surprises, may have time to recover the calmness necessary to secure wisdom in its resolutions."

Sig. Crispi's coup has caused the most intense excitement throughout the country. Sensational rumors of all kinds are afloat. The Don Chisciotte (newspaper) says that the prime minister's action is the gravest constitutional error that has been committed since the foundation of Italian unity.

The Messaggero reports that ex-Prime Minister Giolitti and others said to be implicated in the bank scandals will be arrested. Troops have been hurriedly summoned and are already arriving to re-enforce the garrison at Rome.

A meeting attended by 150 Opposition members of the chamber of deputies was held yesterday afternoon, the Marquis di Rudini presiding. He was supported by Sigs. Brin, Cavallotti and Zanardelli. The meeting was convened for the purpose of discussing the advisability of charging the Opposition members to draw up a protest against the prorogation. Marquis di Rudini declared that it was his intention to address a protest to his constituents.

The result of the meeting is not known, but it is stated that indignation was expressed because of the government's action, and that the speakers insisted upon an appeal to the country as the judge between Sig. Crispi and the Opposition.

King Humbert's Summons.

As parliamentary prorogation is regarded as the inevitable prelude to dissolution, King Humbert has summoned the various leaders to confer with him on the situation.

The Riforma, Sig. Crispi's organ, approves the demand of the Opposition that an appeal be made to the country.

A decree has been issued suspending indefinitely the police officials who were implicated in the abstraction of documents connected with the Banca Romano trial.

Sig. Mazzino, a member of the chamber of deputies, and several others, have written letters protesting against the divulging of the contents of private letters in the Giolitti affair.

The Marquis di Rudini and Sigs. Brin, Cavalotti and Imbrini have decided to issue a joint manifesto to the electors protesting against the prorogation of parliament.

A Hint to Uncle Sam.

LONDON, Dec. 17.—In its financial article this morning, The Daily News says that if the American congress will sanction a 2 per cent gold loan, it could be placed here on advantageous terms to any required amount. Such a loan wouldn't imply any large withdrawals of gold from here, but would check the arrivals, which threaten to intensify the congestion here, while creating recurring distrust in America.

Many Persons Poisoned.

BERLIN, Dec. 17.—At Freiburg, Saxony, 150 persons were suddenly stricken with all the symptoms of arsenical poisoning. All had partaken of rolls from a certain bakeshop, and an analysis revealed that the rolls contained arsenic. One child died from the effects of the poison. An inquiry has been opened.

Declines the Emolument.

BERLIN, Dec. 17.—Chancellor von Hohenlohe has gratefully declined Emperor William's offer to give him extra emolument to the amount of 100,000 marks annually, to compensate him for the loss in salary he sustained by giving up the stadthaltership of Alsace-Lorraine to accept the chancellorship.

A Temporary Arrangement.

LONDON, Dec. 17.—The Times says that the selection of Mackenzie Bowell as prime minister of Canada was the simplest expedient that the Dominion could adopt under the calamity, though it can hardly be expected that the arrangement will be more than temporary.

One Resignation Accepted.

MADRID, Dec. 17.—As a result of an interview Prime Minister Sagasta had yesterday with the queen regent, the resignation of Senor Salvador, minister of finance, was accepted. Her majesty would accept no other changes in the ministry.

To Help Indian Finances.

CALCUTTA, Dec. 17.—The vice-regal council met today, when the Indian minister of finance introduced a bill to amend the tariff act of 1894, by providing for the imposition of duties on cotton.

THE NEXT COUNCIL.

Number One of a Series of Sketches of the Councilmen-Elect.

Mr. Charles M. Bryant, who so ably represented Ward Five in the Council in '91 and '92, and was chairman of the Committee on Streets during the latter period, has again been elected for councilman from that ward by the Republicans. Mr. Bryant was born in Lowell on Nov. 29, 1857. When he was fifteen years of age his parents moved to Bridgewater. He was

educated the Bridgewater Academy and at the Chauncey Hall school, Boston. Upon entering active life he entered the paper business which he has successfully followed for many years. Mr. Bryant is the treasurer of the paper corporation of A. Storrs & Bement & Co., of Boston.

In 1881, Mr. Bryant was married to a New Bedford lady. He lives in a beautiful estate on Fenno street, Wollaston.

He promises to be one of the leaders in the next Council, and is likely to again be at the head of the street committee. A lover of horse flesh, he is naturally interested in good streets, but who of us are not interested in better streets, and who is not pleased that they have so able a champion.

The Bowling Teams.

At a meeting of the Wollaston Bowling club held on Saturday evening at the Duck's Nest, these teams were formed:

TEAM A,—Edmund S. Taylor, captain; Frederick McIntire, H. B. Sanborn, Edmund F. Taylor, Martin F. Burns.

TEAM B,—C. L. McClintock, captain; George F. Briggs, George Barker, H. W. Battison, James Casey.

TEAM C,—V. J. Emery, captain; William I. Dewson, Edward A. Lyman, Charles M. Bryant, Hon. H. O. Fairbanks.

TEAM D,—Edgar A. King, captain; Howard Gannett, Jr., Richard R. Freeman, Elbert H. Broch, Benjamin S. Beale.

Substitutes,—Charles T. Baker, George Weston.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

Holidays Books and Calendars.

"Our Poets" is one of the holiday fine art publications of L. Prang & Co. It gives life-like portraits in colors of Longfellow, Whittier, Lowell, Holmes, Bryant and Emerson, and is mounted on heavy English mat, size 14 by 18. The firm also issues a "Calendar of American Authors for 1895," and a set of views entitled "Homes of the Poets."—Boston and New York.

"In the Midst of Alarms" is an original novel of American life, the first of a series by Robert Barr, said to be one of the six best writers of short stories in the world. The situations are marked by humor, but are the basses of a very pretty love story. The leading character is a New York newspaper correspondent, and the scene is the frontier of Canada at the time of the Fenian invasion.

The New York Life Association has issued a beautiful four-leaf floral calendar—For the first quarter, violets; for the second, apple blossoms; for the third, clover and daisies; for the last quarter, chrysanthemums.

F. T. Appleton in Faxon's block is presenting a calendar with good plain figures. Above the pad is a warship.

"Marie" is another of Laura E. Richard's charming books, a companion to the famous "Captain January" and "Melody." It is issued by Estes & Lauriat of Boston in pretty white and olive covers, and make an acceptable holiday gift. The firm has issued a holiday catalogue which will be sent upon application.

☞ Christmas just around the corner. For useful presents at modest prices, read the adv. of Henry L. Kincaide & Co.

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy a home or on a trip away from home.

A RARE GIFT.

A CHRISTMAS STORY BY MAY D. ENGLE.

"Christmas eve!" soliloquized Van Wentworth, leaning back in his armchair and indolently clasping his hands behind his handsome blond head. "Christmas eve! Well, according to all that's orthodox, I ought to be feeling peaceful and good willish toward man. But I don't. Not a bit. Who does? Who but a child or a fool ever feels happy at Christmas? Not a soul. There is always the remembrance of some other happier time. Always one thinks of the vanished faces that were once so dear. Taken altogether, old Father Christmas, you're a monstrous fraud,

"WHY, WHO?" STAMMERED VAN.

cheat, a whited sepulcher! The whole thing is an affectation, and the world has grown too old, too sad, too hard, to keep it up longer."

He sat up and lighted the cigar between his teeth and then sank, with a sigh of comfort, into his sleepy hollow.

When next he opened his eyes, they rested on a charming girlish figure, all fur clad, from the cap on her bronze gold curls to the shoes on her slender feet. The lovely face, turned toward Van, wore an expression of sternness, evidently foreign to it, as she quietly awaited his pleasure to break the silence.

"Why, who?" stammered Van, greatly startled. "What—how? Who on earth?" then making a desperate attempt at coherency, "Who are you?"

His visitor smiled with sudden, irrepressible amusement as she replied, quite as serenely as if it were an ordinary occurrence: "I am the spirit of Christmas, and very busy I am at this season, as you should know. I can ill spare the time I've been spending here, but I overheard your gross misstatements as I passed through the house, and it is my duty to bring you to a better frame of mind. The idea of a man so young giving vent to such bitter, misanthropical sentiments! Shame upon you! Are you better than the rest of mankind," with growing severity, "that you need feel so aggrieved over your woes? Do they exceed the sum of human endurance? Whose fault is it that you are solitary?" becoming almost vituperative. "Haven't you kept yourself to yourself and obstinately repelled all advances?"

Van looked somewhat dazed, but the spirit kept on relentlessly: "Do you remember the pretty model you snubbed so unmercifully when she seemed to take a little interest in your affairs?"

Van shrugged his shoulders dissentingly. "She wanted to flirt with me," he muttered.

"Well, what if she did?" queried the spirit, smothering a dimpling smile in its birth. "It wouldn't have hurt you. Then there was your chum, upon whom you churlishly turned your back when he came too close"—

"Yes!" grumbled Van, "because he wanted to steal my method."

The spirit gazed at him with some disgust.

"And your fellow students at the art galleries, and the old porter on the first floor, your master across the river and those pleasant people you met on the Rhine last year—all these and many more would have been your friends, but you would none of them! Now you sit here and whine—yes," seeing that Van winced, "whine, because you're all alone. You deserve to be!" And the spirit stamped her foot in a very human way and gazed at him out of lovely, accusing eyes.

"But," said Van, bewildered, but never stopping to ask where she got her very accurate information, "what can I do? Tell me how I can better my lot!"

The spirit frowns. "There it is again! Why don't you ask, 'How can I better my neighbor's lot?' So long as you think only of yourself, just so long will nobody else think of you."

Van leaned back and sighed resignedly.

The sweet voice went on. "Go look up your friend. Send some remembrance to the pretty model. And the pleasant people of the Rhine are in the city. Go see them. Being strangers, doubtless they will be glad to see even you."

Van was thoroughly aroused now. "But you must stay with me," he pleaded. "I can never do all that by myself. No, don't go!" seeing her look about as if meditating flight. "You must stay. Ah, do!" turning upon her the full fire of magnetic eyes, whose power, when he chooses to exert it, the tender sex find it hard to resist. The spirit, being feminine, hesitates.

"How can I devote all my time to one mortal when I have so much to do?" she said perplexedly. "No; it is impossible! Still," marking Van's dejection, "I can help you. But no man can have two spirits, so you must rid yourself of that ugly, morose one that you have now. If you do that, I can endow you with half of my soul—the half will be large enough for a man—but the old spirit must leave first. Will you do this?"

"Gladly," said Van.

Then the spirit softly kissed his eyes, a strange lethargy stole over him, and he felt and knew nothing more till he opened his eyes again, and they fell on a figure seated comfortably opposite to him and watching him with mocking smile, a figure oddly like his own.

Van was startled for an instant, and then it grew clear to him that this was his old soul that he had abandoned for the Christmas spirit.

"Well," he said genially, "there you are!"

"Evidently," murmured the soul.

"And, now," pursued Van, "what shall I do with you?"

The soul surveyed him with the utmost nonchalance. "I think I shall just stay around here a bit with you, old man," it said airily. "It will be somewhat of a relief to move without having to take you along, body."

"Oh!" said Van in some alarm, "but that won't do! No man wants two souls going about with him. I don't need you. I've got a better one now, and I think I'll dispose of you. Tell you what," with sudden inspiration, "I'll give you to old Golthwaite. He hasn't any soul at all; sold it to the devil, they say, long since." And Van laughed contentedly. "Will that suit you?" he asked courteously.

The soul glanced at him with smiling contempt. "Well, hardly!" it sneered. "It's all very pretty to be so generous, but it is scarcely the part of a man of prudence to give himself away in any sense. And you would do it completely. Have you realized what it is you would do? Nothing more nor less than make another man a present of the entire history of your life, not only the deed, but the motive. Ha!" laughing lightly. "I touch you there, eh?"

Van gasped. "But," he said, "the motive was yours. How can I be blamed for that? Everything I've done has been at your instigation. It is all your fault."

"Yes?" mockingly. "But you pay the penalty, not I."

Van was silent with dismay. The soul glanced casually at him and smiled with satisfaction.

"No; I think you will not give me to old Golthwaite. I shouldn't care for it myself. He is too feeble to do my bidding. I need some one strong and lusty," with slow malice, "some one like you. The last body I had," it continued pensively, "was old—old and weak! It failed me many times, and I grew very tired of it. I was glad when it died and I was assigned to you. You have not always done as I would have you."

Van shuddered. "You have no further power," he asserted. "I have rid myself of you—entirely."

The soul smiled. "Hardly!" it said softly. "Don't you know that when you sleep your soul's at liberty to go whither it will, bound only to be back by the time you awaken? You know? Well, when next you sleep, your Christmas spirit and I will try our strength, that's all!" And from its confident expression and Van's hopeless one it is enough too.

"No, body," resumed the soul jovially, "I'm too fond of you to leave you lightly. And why all this unflattering despair? You're used to me now. You wouldn't know how to obey any other sort of spirit. That new one of yours hasn't half my intellect. Come, let us be as we were."

But Van, with a mighty effort, flung off the depression that he knew and hated so well. "Never!" he declared. "I've done my last task for you, old fellow. If you won't go to old Golthwaite, you must wander around without a body. You can't have me. I defy you!"

"A little rash!" it chuckled. "Yes, decidedly rash. I can make it most unpleasant for you. On the whole, I think I will. It will make my dominion so much the greater when I do regain possession of you. You shall plunge into all the excesses and dissipations that I have so far only suggested to you."

Van had gradually become conscious of a strangely oppressed feeling, together with a passionate desire for sleep, but he resolutely fought it off, dreading lest the threatened conflict between his old soul and the new spirit should take place before the latter had attained sufficient strength to withstand the power-

THE SOUL GLANCED AT HIM WITH SMILING CONTEMPT.

ful old soul, in which event he knew he was doomed to a hopeless slavery, from which there would be no escape but death.

But he could no longer keep his eyelids propped open. They closed heavily, though he made a frantic endeavor to at least keep his mind clear.

Vain! Even as he so resolved he was surrounded by light clouds that stifled him. Flashes of red light played around him. The clouds grew denser.

He ceased to struggle and awaited the end with calm certainty, quite sure that he would be the old soul's captive and not rousing himself to care much about the issue in either case. It seemed to him that he could actually feel the opposing forces as a heavy, deadly stupor crept upon him.

Suddenly he was revived by a rush of cold air, and the next instant Tom Russell was eagerly pulling him out of his chair, stamping out the flames on the floor, and scolding, shouting, congratulating and expostulating all at once.

"Confound it, Van!" he roared. "Up to your old tricks again, flinging your dirty rags all over the place and then calmly dropping hot ashes on 'em! Just like you! I don't believe you could stop it to save your soul."

Van grasped his friend's hands warmly, while he said slowly, "To save my soul I wouldn't, Tom."

And to this day Tom never quite understands why Van spoke so solemnly.—Short Stories.

Astonishing Methods of Conducting a Campaign at Savannah.

HENCHMEN OF RIVAL POLITICIANS

Caused a Big Drain on the Finances of the City.

SAVANNAH, Dec. 17.—The most unique, the most disorderly and generally accepted as the most disgraceful period of politics in the history of this city, has come to a breathing pause. Two factional Democratic candidates are in the field for the mayoralty, the election taking place in January. Under the first use of the Australian ballot system here, no one can vote who has not paid all his taxes, including those of this year, and registered.

This provision led to a wild scramble at first, and then pitched battles daily between large forces for choice positions in line to the tax collector's office. He could issue only about 200 receipts a day, and as the registration closed Saturday, it was inevitable that many citizens would be shut out.

The two factions hired two gangs of toughs, each numbering about 100, and including the most desperate whites and negroes of the city. These men were paid from $5 to $10 a day. To each was given a list of six names, the largest number the collector would accept taxes for from one person, and the money to pay their taxes with.

Each morning for 10 days past the two armies of political mercenaries have slugged each other in front of and inside the courthouse, hundreds of citizens gathering from all parts of the city daily

To Witness the Big Mills.

For two weeks, at least, no citizen paid taxes for himself, all entrusting their names and money to the hired heelers. At times, nearly the entire police force of the city had to be called out to establish order, and for over a week the presence of about 40 policemen has been constantly required at the tax collector's office.

The armies of heelers were fed at the rival headquarters, where many of them remained all night, going out early each morning to resume the battle, and at the courthouse, where beer, whisky, coffee and sandwiches were given them. Two or three times a day a number of the workers skipped with their lists and money, disfranchising many citizens.

It is calculated that the cost of keeping up the two armies, which in the last few days had been increased to about 300, to fight for polltax receipts, was over $10,000. The next legislature will be appealed to.

Jurist and Soldier.

ST. PAUL, Dec. 17.—After an illness of several weeks, Chief Justice James Gilfilan of the Minnesota supreme court died yesterday, in his 65th year. He was born in 1829 and was admitted to the bar in 1850. In 1857 he began the practice of his profession in this city. He served through the Indian wars, and during the rebellion in the Eleventh Infantry, but when the war closed he was commander of a division. Mr. Gilfilan held high rank among jurists. The cause of death was kidney troubles. Mrs. Gilfilan and six children survive him.

The Irony of Fate.

NEW YORK, Dec. 17.—The World says: Count Joseph de Susini, who was once called the Napoleon of cigaret manufacturers, is dying of pneumonia and erysipelas at his home in this city. Count de Susini is now 76 years old. He introduced in Havana the first street car, electric light, lithographic machinery, steam fire engine and many other modern inventions. Although quite penniless and almost isolated now, he was once worth $10,000,000. He comes from one of the oldest families in Corsica.

Wound May Result Fatally.

NEWPORT, R. I., Dec. 17.—William Anthony, who keeps vicious dogs, went to Hardy's boarding house just before midnight and blamed boarders with stoning them. They denied the charge, and in a dispute Anthony stabbed Daniel Hunter and E. L. Doucette. Hunter's wound is very serious and he is not expected to live. Anthony was arrested, but released on $3000 bail.

Fixed Themselves Up.

THOMPSONVILLE, Conn., Dec. 17.—The clothing and gents' furnishing store of C. B. Belinski was entered last night and jewelry and clothing to the amount uf $300 were stolen. The thieves left all their old clothes behind, and fitted themselves out with a new stock instead.

Perhaps Fatally Stabbed.

MERIDEN, Conn., Dec. 17. — William Priebe was slashed on the left cheek through the ear and down about four inches in the neck, on Veteran street last night. He had tried to pass through a crowd on a corner in a row. Priebe does not know who cut him.

An Unknown Suicide.

PITTSFIELD, Mass., Dec. 17.—An unknown man was found dead in bed at the Burbank House last night. Three full bottles of sulphate of morphine and one partly filled were found on him. He registered as Harry Wright of New York.

Old Doctor Dead.

FITCHBURG, Mass., Dec. 17.—Dr. George Jewett, a well-known physician and surgeon, was found dead in bed yesterday. The cause of death was apoplexy. He was born in Rindge, N. H., 69 years ago. He practiced here 43 years.

Union Labor's Tribute.

BOSTON, Dec. 17.—The Boston Central Labor union voted to tender a public reception to John Burns, M. P., on Jan. 2.

IN HINKEY'S FAVOR.

Yale Football Captain Did Not "Knee" Wrightington at the Springfield Game.

NEW YORK, Dec. 17.—Immediately upon the close of the football season, the Yale Football association, in view of the charges made against Captain Hinkey, requested a committee to investigate. The committee thus appointed was accepted as perfectly satisfactory to the Harvard eleven. These gentlemen have found that all the charges of roughness in the Springfield (Mass.) game have centered in the alleged willful injury of Wrightington by Hinkey. They therefore requested all of the officials to give their testimony as to the occurrence.

The committee examined Captain Hinkey, who stated most positively that he did not "knee" or otherwise maltreat Wrightington in the Springfield game, and that he has never been guilty of unfair roughness in any of the games in which he has taken part. Furthermore, although he has played for seven years at Andover and at Yale, no official has ever found it necessary to adjudge him guilty of or disqualify him for unfair play.

The testimony given all tended toward the belief that Captain Hinkey was in no way individually responsible for the injuries received by Wrightington.

The statement of A. M. Beard, the Yale tackle, follows: "The play in which Wrightington was injured occurred about 10 yards from Harvard's goal, nearly in front of the goal posts. Thorne had punted from about Harvard's 45-yard line. Wrightington caught the ball on the fly, and started to run to Harvard's side of the field. He was running diagonally across the field and I was running straight down the field in the direction of Harvard's goal line.

"He had run about 10 yards when I tackled him, both of us being on a dead run. I made a diving tackle, jumping and tackling him about the knees. He fell on his side, falling toward Harvard's goal. It was a hard tackle, Wrightington striking the ground heavily. Before I made the tackle, I heard Hinkey some distance behind me, shouting to me to tackle him (Wrightington). Wrightington got up almost immediately, working his shoulder.

"I had heard the umpires whistle for Harvard's off-side play, and when I looked back I saw Hinkey for the first time during that play, fully 10 yards back toward our own goal, running toward the umpire, who had blown his whistle near the center of the field. Hinkey was claiming a penalty for violation of the rules by Harvard, which the umpire allowed, while Wrightington was being helped off the field by Harvard players."

FIRST ATTACK FAILED.

Chinese Were Subsequently Routed by a Vigorous Attack of Japanese Troops.

HIROSHIMA, Dec. 17.—A dispatch from the front states that re-enforcements were sent to the Japanese detachment which, on Dec. 12, was compelled by a superior Chinese force to retire from Saibashu. On Dec. 14 the strengthened Japanese force made another attack on the Chinese, who were advancing from Saibashu. The latter fought with vigor, but were completely routed, fleeing in disorder. The Japanese pursued the enemy as far as Chokinshi, and captured four guns and several prisoners. The Japanese loss was three officers wounded and 70 privates killed or wounded.

The Chinese are still confronting the Japanese division commanded by General Tatsumi, and fighting is expected shortly.

A dispatch from Shanghai says that Chang Yin Kwan, president of the board of revenue, has been appointed ambassador to Tokio to arrange terms of peace. An imperial edict has been issued commanding the gens d'armes of Pekin to give special protection to the legations in that city and to the residences of foreigners. The gens d'armes are ordered to arrest any person who attempts to disturb the peace.

Andy Bowen Dies.

NEW ORLEANS, Dec. 17.—Andy Bowen died at the Charity hospital from the effect of the knockout blow dealt him by Lavigne Saturday night. Bowen was the New Orleans lightweight pugilist who was knocked unconscious at the Auditorium club in a glove contest with "Kid" Lavigne. Lavigne was arraigned and held in $10,000 bail. All the accessories, Referee John Duffy, the seconds and timekeeper, Pugilist Jim Hall, Sam Fitzpatrick, Martin Murphy, George Considine and Layton, were held in $5000 bail apiece.

Seely Visited by His Wife.

NEW YORK, Dec. 17.—Samuel C. Seely, charged with stealing $354,000, saw his wife yesterday for the first time since he abandoned his home and fled to Chicago. They were sobbing in each other's embrace for a long time. The evening was well advanced before Mrs. Seely went away. A sad scene was enacted at their parting. The two clung to each other for a long time without saying a word, and then, moaning and supported by her brother the woman slowly left the jail.

A Mixed-Up Row.

EASTON, Pa., Dec. 17.—During a fight at the Willow Grove hotel, Matthew Morrow, Jr., was shot and fatally wounded by Harry Ritter. Morrow was with a party of friends who had been ejected from the hotel. They returned later and broke in the barroom. The shooting then took place. William Stout, another member of the attacking party, had two ribs broken. Ritter has fled.

The condition of Leslie Smith, who was stabbed by James Furmingham, is reported as comfortable and he will probably recover. Furmingham is out on bail.

Rev. Robert T. Osgood of Cambridge preached Sunday morning at the Memorial Congregational courch, giving a good discourse on the theme "Universal Brotherhood."

Joseph Silva, who is well known in this city where he was located for many years, has been at his old tricks again and was last week sentenced by the United States court to one year in jail and to pay a fine of $100 for passing counterfeit money.

The residents of Old Colony and Standish avenues, Wollaston, appreciate the brilliant street light which Mr. Al. Williams has had placed over the entrance to the Duck's Nest at his own expense.

The statement in Saturday's Ledger that Councilman Bass voted for himself for the Presidency of the City Council was an error. The vote for President was: Bass 13; Moxon 8; Bigelow 1; Holden 1. Mr. Bass voted for Councilman Rigelow and Mr. Moxon for Councilman Holden.

Sunday's Herald says: The accidental death of the lemented Sylvester Brown, principal of the Martin school on Huntington avenue, caused a vacancy which it was indeed very difficult to fill, for Mr. Brown was an ideal teacher. There was an opportunity, however, to fill the vacancy on something like a civil service principle. The sub-master of the school was Mr. Edward W. Schnerch. The school committee promoted him, and he now presides over the Martin school.

Adjudged Insane.

Mrs. James Paul of Atlantic, stepmother of James C. Paul, who is now serving a 15 year sentence for shooting Ella Whitefield at Ashmont last September, was adjudged insane by Judge Humphrey this morning and sent to Westboro.

OLD RETALIATION ACT

May Be Resurrected if Germany Persists in Her Discriminations.

WASHINGTON, Dec. 17.—In view of the disinclination of congress to take up the sugar schedules of the tariff act, and the consequent improbability of any action as was recommended by the president looking to the repeal of the duty of one-tenth of one cent on sugar produced under the bounty system, the future action of the German government is being awaited with some apprehension here.

The speech of the German chancellor in the reichstag, in which he made a strong point of the discrimination imposed by the United States toward German sugar, is believed to indicate a strengthening of the policy which the government has adopted directed to the exclusion or severe restriction upon American products sought to be imported into Germany.

At present Mr. Runyon is working hard to secure an amelioration of the rigid orders of exclusion in the case of American cattle, and Secretary Gresham is in almost daily consultation with the German minister here upon the same subject, as well as upon that of cottonseed oil, which has just suffered a severe blow from the increase of the import tax to 200 per cent, practically exclusive.

Up to this time no appreciable degree of success has attended these efforts of our government, the character of the negotiations appearing to indicate a purpose on the part of the German government to procrastinate until congress decisively announces its intention in the matter of the sugar duty.

As long as these conditions obtain, our government is likely to wait patiently, but should there be any fresh attacks by the Germans upon American interests, there is good reason to believe that the administration will have recourse to the retaliation act of 1890, and singling out some German article, the importation of which into the United States about equals in volume the normal American cattle and meat trade with Germany, forbid its importation.

The Price of Peace.

LONDON, Dec. 17.—The Times, discussing the Newfoundland question, says: Even if we were disposed to do so, we cannot, in our position as a naval power, view with indifference the disaster to and possibly the ruin of the colony we may some day regard as among the most valuable of our naval stations. If we interpret public feeling rightly, it will be in favor of giving the colony the help that may be found essential, but if the assistance required takes anything like the radical proportions that at present seem necessary, it can only be granted at a price—the surrender of the constitution and the return of Newfoundland to the condition of a crown colony.

Books Were "Off."

COUNCIL BLUFFS, Ia., Dec. 17.—A tragedy was enacted in the private office of the Citizens' State bank of Council Bluffs yesterday. John Huntington, assistant bookkeeper and collection clerk, shot C. A. Cromwell of Minneapolis and M. F. Hayden, representative of the Fidelity and Casualty company of New York, and then emptied his revolver in his own breast, inflicting a wound from which he died two hours later. Cromwell and Hayden, it is thought, will recover. Huntington's books were crooked, and the two men whom he shot had exposed him.

Ate Human Flesh.

TIFLIS, Dec. 17.—A letter in a paper here states that, after Zekki Pasha's treachery in offering peace, 60 Armenian young men were seized and tortured horribly for three days. Then all were murdered and their bodies buried in a ditch. Among the Armenian heroes who lost their lives was Derbedros, who was captured and flayed to the waist. Pieces of his flesh were cut off, broiled and eaten by the savage Turks while he was still alive.

Disorderly Houses Closed.

FALL RIVER, Mass., Dec. 17.—The police raided three disorderly houses Saturday night, and the proprietors of the houses were taken to the central station, together with the women and five men found in the houses. Charges of vagrancy and keeping disorderly houses were preferred against them. They have recently received several warnings to close their places, and they temporarily obeyed.

On a Week's Vacation.

WASHINGTON, Dec. 17.—President Cleveland, accompanied by Dr. O'Rielly, Captain Evans and Charles Jefferson, left here last evening for a hunting trip on the coast of South Carolina. The trip is taken in the hope that the outing will benefit the president and eradicate the remnant of his rheumatism which still lingers with him. The party will return in about a week.

A Dangerous Plaything.

NEW YORK, Dec. 17.—Johnny Long and Tommy Lelly, two boys, found a revolver in Long's father's store, where it had laid unused for years. Long pointed the pistol at Lelly, cried "Money or your life, Tommy! Throw up your hands!" and pulled hard on the rusty trigger, when Lelly fell, mortally wounded, with a bullet hole between the eyes.

An Old Man Murdered.

STONEHAM, Mass., Dec. 17.—Michael H. Day, 57 years old, living on Oak street, was stabbed twice Saturday evening and died in a few minutes. His son-in-law, Patrick Kane, and Thomas Kane, his brother, are locked up, charged with having committed the murder, while Michael H. Day, Jr., and Mrs. Patrick Kane are held as witnesses.

Pugilist Daily May Die.

ST. LOUIS, Dec. 17.—Danny Daily, the featherweight pugilist, is lying dangerously sick at the city hospital, from the effects of a broken jaw, received in his fight with Tommy White two months ago. Daily is threatened with gangrene and will have to submit to an operation.

Robbers Got $10,000.

ERIE, Pa., Dec. 17.—David Slocum and his wife, living near Edinboro, have a reputation of being miserly. Last night four men, heavily armed, entered the house and took away $10,000 which they discovered in an old trunk.

BRUSSELS, Dec. 17.—A monument to Father Damien, the leper's friend, was unveiled in Louvain, amid great rejoicing of the people.

THE Y. M. C. A.

Evangelist Avery Going to a New Field of Labor.

The Boys' Bible class will meet tonight at 7 o'clock.

Mr. H. M. Fillebrown, assistant State Secretary gave an interesting talk Sunday on "A favored young man." There is a growing interest in the spiritual work, and the meetings of the past few weeks have yielded good results.

An Inter Association Congress consisting of all the organizations within twenty miles of Boston has been organized. The first meeting will be held in Boston tomorrow evening. The subject to be discussed is "Greater Boston." All members of the local Congress are invited to participate.

Evangelist Geo. S. Avery of Wollaston, who is so favorably known to many of our citizens, especially those of South Quincy, who remember with pleasure his work in the tent last summer, has accepted a call to become assistant pastor of the Central Presbyterian church, on West Fifty-Seventh street, New York city. He will have charge of the Rescue Mission on Forty-Second street. During the past three months Mr. Avery has conducted a large Bible class of men every Monday evening, in the Association parlor. Several young men have come several miles regularly to attend this class. All who have attended have been wonderfully blessed. Tonight Mr. Avery will close the course. He will speak on two subject, Personal Work and the Second Coming of Christ. A most cordial and urgent invitation is extended to all young men to attend. The meeting will begin at 7.30. Mr. T. B. Emery will conduct the singing. This will probably be the last opportunity the many friends of Mr. Avery will have to see and hear him before he leaves for his new field of labor, Jan. 1.

The Christmas Puzzle.

Answers are coming in thick and fast to the prize Christmas puzzle of the Daily Ledger, but the time is not up until noon tomorrow.

The gift was a happy thought, as it has interested a great many. It has also called attention to the Christmas advertisements of the Daily Ledger, and the advertisers will undoubtedly profit. The offer was:

To the child under twelve years of age who will find the word "Christmas" the largest number of times in the Saturday Ledger before noon of Tuesday, Dec. 18, the Ledger will give a Christmas gift.

Send answers to "Christmas," care Daily Ledger, Quincy:

A Ledger advertiser has also caught the idea, and today offers a gallon and half gallon of ice cream as prizes. See announcement of J. H. Wales today, and remember that the Ledger prints "a black whale every day. Christmas dinner is not complete nowadays without ice cream, and no one makes better than J. H. Wales.

Accident This Morning.

Howard Rogers met with quite an accident this morning and while his injuries are not so serious as at first thought it was a narrow escape for him. He was taking orders on Bigelow street and in jumping from his team before the horse had come to a full stop, he caught his foot in some way and fell, striking on his side on the curbing.

He was carried into the residence of Hazen E. Ricker. It was thought at first that he had fractured his ribs. Dr. Welch who was called said after examination that he had not, although he came near it.

—No change was made by the recount in Medford, and Baxter E. Perry is elected Mayor by one vote.

BY R. K. MUNKITTRICK.

Draw up the chair about the logs
That sparkle bright and gay;
That in quaint flowers on the wall
In madcap frolic play.
Oh, toss all sorrow to the winds,
For this is Christmas day.

What if the chilly winds without
About the chimney blow
And high against the frosted panes
Make minarets of snow
When Christmas cheer this cozy nest
With comfort sets aglow!

The happy child upon the floor,
With feelings luscious ripe,
Plays with the red toy animal
Of curious spot or stripe
While deep within his little heart
The birds of springtime pipe.

He roams beneath his loaded tree
Beside the inglenook,
Alive with candies, blocks and drums

And many a picture book
From dear old Santa Claus, who came
Last night—but hush—oh, look!

Here comes the plump and luscious goose
So savory and brown,
A golden promise on a dish,
Our cares and fears to drown,
And place on our triumphant brows
A rich though fleeting crown.

Come, let us carve him while he's hot
And breathing fumes of spice,
And pile the pungent stuffing high
Upon each juicy slice,
And in dream shallops lightly drift
Through flowery paradise.

And afterward we'll light our pipes
While twilight shades appear,
And when we break the wishbone frail,
Amid the blazing cheer,
Let him who wins wish for us all
A happy, glad New Year.

THE GAME OF SNAPDRAGON.

Players Must Be Quick and Not Mind Burned Fingers.

Few "Christmas gambols" exist in their original form. But the old games modified to suit modern taste as well as the new ones are just as full of fun and are entered into by the young folks nowadays with as much zest as were the rougher gambols over which in old England the "Lord of Misrule" presided. Although the authority of this lord was generally acknowledged at Christmas merrymakings 200 or 300 years ago, and he made things very lively, such disorders finally crept into his brief burlesque reign that he was suppressed.

One of the most quiet and genial of the gambols over which he was master has been handed down under the name of "Snapdragon." Raisins are put into a large bowl, covered with spirit, which is ignited. Lights in the room are extinguished, and each one attempts in turn to grasp a raisin, a feat requiring some skill and courage. Meanwhile an appropriate accompaniment is the "Song of the Snapdragon," beginning thus:

Here he comes with flaming bowl.
Don't he mean to take his toll?
Snip! Snap! Dragon!

Take care you don't take too much,
Be not greedy in your clutch,
Snip! Snap! Dragon!

With his blue and lapping tongue
Many of you will be stung.
Snip! Snap! Dragon!

A Bit of Pathos at Christmastide.

There is a little girl of 6 who has proved herself one of the ministering children not in name only. A few weeks ago the baby of the family died. The children as well as the mother had looked forward to hanging up the baby's stocking at Christmas with a great deal of pleasure. But the loss of the baby brought such anguish to the mother that she decided to have no Christmas celebration of any kind. Last Sunday evening, as the family sat in partial darkness, recounting their loss with all its sad circumstances, a tender little voice pierced the gloom:

"Mamma, isn't there any Christmas in heaven?"

"Yes, darling," answered the weeping mother. "It is always Christmas there."

"Then why don't you keep it here?" persisted the little girl. "Jus' make b'lieve baby isn't dead, an hang up her little stockin, mamma, an le's all have Christmas jus' the same an be happy, like she is."

The child's wisdom prevailed against the unreasoning sorrow of the mother, and the little ones are happy and busy filling the stocking of the baby who will keep Christmas in heaven.

AN OLD GRANITE MAN.

Death of Patrick McGrath, a Pioneer in Marble and Granite Business.

Mr. Patrick McGrath, a well known resident of Quincy, and one of the pioneer marble and granite manufacturers of this city, died this morning at his residence on Pleasant street in his 83d year.

Mr. McGrath has been able to be about and made trips to Boston up to two weeks ago, when he was taken ill, and since that time he has failed rapidly, his demise being due principally to old age.

Mr. McGrath was born in Ireland and came to this country, locating in Quincy where he entered into a business co-partnership in 1854 with Charles and Chester Mitchell for the manufacture of marble and granite monuments.

Mr. McGrath had charge of the marble branch, which was the first and only marble industry in Quincy. One of Mr. McGrath's first pieces of work was the granite arch over the entrance to Mt. Wollaston cemetery, which stands today as a lasting monument to his memory.

Later he withdrew from the firm and entered the marble business alone; still later taking his sons Henry and James into business with him, under the firm name of McGrath & Sons.

Eighteen years ago he withdrew from active business and the firm is now carried on under the style of McGrath Bros.

Gradually the firm has worked into the granite part of the business and is today one of the largest firms in the city.

The deceased leaves a widow, three sons and two daughters; one of the latter being Mrs. Mary Elizabeth Blake, wife of Dr. John G. Blake, and a well known literary writer.

Funeral services will be held Thursday and will be strictly private. The family also request that no flowers be sent.

THE NEXT COUNCIL.

Number Two of a Series of Sketches of the Councilmen-Elect.

Hiram W. Phillips, one of the new Republican councilman from Ward Two, was born in that part of Quincy known as

the Neck, in 1850, although at the time of his birth it was a part of Braintree, and for the greater part of his life he has claimed Quincy as his home. He received his education in the public schools of Quincy and Pembroke.

By occupation Mr. Phillips is a submarine diver in which vocation he enjoys an enviable reputation.

Letter From California.

Mr. Thomas Talbot, for many years a citizen of this town, and also a worthy member of Mount Wollaston Lodge of Odd Fellows, writes us the following excellent letter:

ROCKLIN, CAL., DEC. 10, 1894.

Bro. Prescott: Enclosed you will find express money order for two dollars and fifty cents, and also my thanks for the regular and prompt manner in which I receive my paper.

Your correspondent who signs himself "June," and who is such an able and interesting writer, comes near being right when he reminded us by saying that few imagine how much they would miss their daily and weekly local papers if their issue should cease.

I suppose there are a good many copies of the PATRIOT sent to neighboring towns and cities, and to distant lands; and I assure you sir, that if I may judge others by myself who are far from home, the PATRIOT is received and opened as if it was the only newspaper in existence; and I heartily agree with "June," and hope that the local papers, as he calls them, will keep right along publishing the news and truth, without fear or favor, and as long as they do that their issue will never cease.

It has been raining here for a week, but the sun is shining once more, bright and warm, and the grass is looking fresh and green. Fraternally yours,

THOMAS TALBOT.

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy a home or on a trip away from home.

CRONIN EXECUTED THIS MORNING

For the Brutal Murder of Albert Skinner In 1893.

HARTFORD, Dec. 18.—John Cronin was hanged at 1:01 o'clock this morning at the state prison in Weathersfield, and was pronounced dead 19 minutes after. The automatic gallows worked perfectly. His body was taken down at 1:40 o'clock and interred at Bluehill cemetery at 5 o'clock.

Cronin spent yesterday, as usual, reading religious books. He ate a hearty supper and retired to his couch in the steel death cage in the evening. When the warden came to him at midnight to read the death warrant Cronin was soundly sleeping. He had nothing to say why sentence should not be pronounced.

He replied to the warden's statement that he must carry out the law: "I have no hard feeling toward you, warden." These were his last words, except in his meditations with his spiritual advisers. He was dressed in a black suit and wore the crucifix and emblem of the Sacred Heart.

The moon was shining through a partially cloudy atmosphere when the witnesses were escorted from the warden's house into the interior court of the prison. The scene was a weird one, not alone for the novelty of the hanging occurring at such an hour, but for the complete military discipline displayed by the warden in conducting the men to the execution house.

Every detail was carried out with a strict precision, such as characterizes an execution at a court-martial. Within the execution room was another uncanny sight. Lighted up by 12 gas-jets, the room was bare in its outlines, save the closet in the corner, enclosing the mechanism and a chair which had been provided should Cronin faint. At the center of the room hung the noose, and on the wall was the dial which was to tell the story of the progress of the automatic movement.

On the Way to the Gallows.

Cronin met death with only a slight tremor. His arms were bound when he left the cage and was marched into the room with Keepers Doolittle and Perkins on either side. As he stepped on the platform he trembled slightly, and stood with his head bowed forward. The fine shot in the machine were started by the warden by putting his foot on a lever. Deputy Warden Baisden placed a black hood over Cronin's head, and the keepers bound his legs at the knees and ankles. Dr. Fox, the prison physician, adjusted the noose so that the large knot in the five-eighths inch manilla rope was placed directly under the left ear.

The dial on the wall showed that the shot had been running in the machine for 20 seconds. Surgeon Fox turned away, and the deputy warden raised his hand toward the warden, signifying all was ready. The warden did not wait for the shot to run slowly out, which would require 20 seconds more. He at once pressed his foot on a second lever and jumped the shot at once.

Cronin's body shot up into the air five feet at an angle of 35 degress and fell back instantly, his feet being about 18 inches from the floor. The body was motionless for about 10 seconds, and then a perceptible twitching of the whole body was noticeable for a few seconds. His hands became very firmly clenched, growing tighter and tighter until rigor mortis set in, just nine minutes after the trap was sprung.

"Successful," said the warden, and nearly every one present stepped up to him and shook hands with him. W. R. Sill, one of those present, who has attended 15 executions, said that he had never seen any so perfectly carried out as this. The whole affair was perfectly noiseless, the dull thud of the heavy weight as it struck the ground not being noticeable in the excitement of the moment.

Cronin's Crime.

John Cronin's crime was the murder of Albert Skinner at South Windsor, a small village about five miles north of this city, on Oct. 5, 1893. Cronin was prompted by revenge. He had been boarding with Skinner for several months, when the latter ordered him away. A fight ensued at the time, and Cronin then went on a protracted debauch.

The night before the murder he slept in the house of Edward Tucker, who lived a short distance from the Skinners. He arose early in the morning and went toward Skinner's farm. He entered the house, and, going to the kitchen, awaited the approach of Skinner, who was at work in the barn. As soon as Skinner appeared, Cronin drew a revolver and shot him through the side, inflicting a mortal wound.

Mrs. Skinner, attracted by the shot, saw what had been done and immediately went into hysterics. Three workmen, passing the house a few minutes later, saw the woman in the yard tearing her hair and screaming. They undertook to pacify her and discovered her husband in a pool of blood and in a dying condition. Other neighbors hastened to the scene and medical attendance was secured, but the injured man died within an hour.

All this time the murderer was boisterously walking through the house and yard with the pistol in his hand, and defying the spectators to interfere with him. Robert Skinner, stepson of the dead man, seizing a favorable opportunity, grappled with the man, and, others coming to his aid, the murderer was overpowered, tied hand and foot with ropes and taken to the county jail. The prisoner had little to say, except to repeat that he was glad he had "fixed the d——d dog."

Albert Skinner, the murdered man, was 45 years of age, a joiner by trade, and had always resided in South Windsor. He was sober and industrious, and left a widow and two small children. Mrs. Skinner attempted suicide twice after the murder, and had to be constantly watched to prevent her accomplishing this end.

A Savage Attack.

BRADFORD, Vt., Dec. 18.—Ed B. Pike, president of the Pike Manufacturing company, had discharged Philip Fitzpatrick Saturday, and ordered him to leave the place. On finding that Fitzpatrick had not done so, Pike went to his room and attacked him with a pitchfork, inflicting severe wounds. Pike was bound over in $1000 bonds for trial.

GOMPERS OUSTED.

John McBride Elected President of the Federation of Labor.

DENVER, Dec. 18.—At the election of officers of the Federation of Labor it was evident at the start that that question had been settled so far as the individual members were concerned. The result of the vote for president was: McBride, 1162; Gompers, 937. President Gompers moved to make the vote unanimous for McBride but objection was made.

PRESIDENT M'BRIDE.

For first vice president, Mr. McGuire of Philadelphia was elected. James Duncan of Baltimore was made second vice president. For third vice president Roady Kenehan of Denver was elected. Mr. Elderkin was elected fourth vice president. A. McCraith of Boston was elected secretary. For treasurer, John B. Lennon, present incumbent, was nominated and elected by acclamation. The two fraternal delegates to be sent to the British trades congress, to be held in Cardiff, Wales, are Samuel Gompers and P. J. McGuire.

Mr. Gompers has held the position of president of the American Federation since 1882. Until 1886 there was no salary attached to the office. That year it was decided to make the office a permanent one, and the salary was fixed at $1200. This was raised to $1800 in 1892.

The mine workers, with 320 votes, were for McBride for personal reasons. The radical socialist members felt that Gompers was very strongly opposed to them, and the president's own action during the convention had done much to defeat him. He was sick when he came here, and his rulings have been noticeably arbitrary and erratic. More than once he has lost his temper, and occasionally he has reversed his own rulings. The feeling generally is friendly to Gompers.

New York was decided on for the next meeting of the federation, defeating St. Louis by a vote of 1335 to 558.

"The Law of Charity."

NEW YORK, Dec. 18.—Archbishop Corrigan yesterday made his regular visit to St. Leo's church, of which Rev. Father Ducey is pastor. When the mass was over, the archbishop, much to the surprise of many, arose to deliver a sermon on the "Law of Charity." "The people of St. Leo's," he said, "have reason to respect and be proud of their most reverend priest, and should hold up his hands in everything he does. The most reverend priest is a highly worthy man, and when calumny attacks one he should not be affected by it. All good men of the church are at times subject to such misfortunes, and, in such cases, the only thing they can do is, after making frank statements, keep silent and leave the matter in the hands of the Lord."

Students Poisoned.

BRUNSWICK, Me., Dec. 18.—More than a dozen Bowdoin students are members of an eating club, whose dining hall is in a private dwelling of the town. A mess of frozen sherbet, left standing in the shed a few days ago, was found to be covered with green powder, probably paris green. The sherbet was thrown away, but other food standing near it was used that day at table. The members of both the club and the family in the house are now sick with symptoms of poisoning. There is absolutely no clew to the perpetrator.

Needs Looking Into.

NEW YORK, Dec. 18.—Deputy Coroner Westor is to hold an autopsy on the body of Gilbert Cooper, aged 67 years, an inmate of the almshouse on Blackwell's island. Three supposedly harmless lunatics attacked Cooper, and inflicted injuries from which he died. Several deaths have occurred at the almshouse of late, and the coroner will make a searching investigation.

Requests Not Granted.

WASHINGTON, Dec. 18.—Chief Justice Fuller announces the decision of the supreme court in the ex-parte case of Isaac L. Rice, who asked for writs of mandamus and prohibition in the matter of the reorganization of the Reading railroad and coal and iron companies. Both requests were denied.

For Annexation.

PORTLAND, Me., Dec. 18. — A public meeting was held here for an informal discussion of the subject of the annexation of Deering to Portland. The annexation of Deering was considered to be a good thing for both cities, and resolutions were passed to this effect.

Fayerweather Will Case Ended.

NEW YORK, Dec. 18.—Judge Cruax has rendered his decision in the long contested Fayerweather will case. The opinion rules out the deed of gift, and therefore the 20 colleges originally named will get the money allotted to them.

Killed at a Crossing.

ASHLAND, Mass., Dec. 18.—A two-horse milk wagon, in which were a man and a boy, was struck by a train at the Cordaville crossing last evening. The man and horses were killed and the boy fatally injured.

Denied by Harrison.

INDIANAPOLIS, Dec. 18.—A story that ex-President Harrison, W. H. Miller and John G. Williams had formed a partnership for the practice of law and would open an office here is denied by Mr. Harrison.

Extension Granted.

NEW YORK, Dec. 18.—John R. Tait, the defaulting paying teller of the Chemical National bank, charged with embezzling $15,000, was arraigned yesterday. His counsel was granted further time to plead.

In a Serious Condition.

PROVIDENCE, Dec. 18.—The condition of Osceola Cook, the divekeeper, who was shot by Editor Lingane, is more serious, and physicians fear that blood poisoning will set in.

WEAVING THE WEB

"Green Goods" May Have Been a Factor In Ging Murder Case.

MINNEAPOLIS, Dec. 18.—The latest development in the Ging murder case is the discovery of evidence that leads the authorities to believe that Harry Hayward is the western agent of a green goods combination, whose headquarters are in New York, with a principal branch at Chicago.

The first clew to this was given by one of the members of the gang, whose conscience was quickened by the murder of Catherine Ging. A day after the murder, Julia Ging, a sister of Kittie, who resides at Auburn, N. Y., received an anonymous letter from New York city, stating that her sister had been murdered and she had better have the matter investigated. A search, the letter intimated, would bring the facts to light in the case and the guilty parties to justice.

The tone of the letter, as well as several hints therein, leads the authorities to believe that if the murder had not been solved as quickly as it was, the writer would have furnished evidence enough to lead to the truth of the affair. In fact, the authorities of New York discovered that the writer was a member of a green goods gang which had been operating extensively.

What additional facts the officers discovered have been kept secret, but it has been learned that the connection of Harry Hayward with this organization has been of long standing.

The money which Catherine Ging obtained from Hayward just prior to her death will be shown to have been a portion of the green goods which passed into her possession from Hayward, who afterwards found it necessary to put his victim out of the way to prevent exposure. The authorities do not claim that this was the main cause of Miss Ging's removal, but that it was a factor which counted.

AUBURN, N. Y., Dec. 18.—Miss Julia Ging denies she has received any such letter mentioned in the Minneapolis dispatch, and, further, that she has received no information relative to her sister's murder further than that contained in the newspapers. She has no knowledge, she asserts, of any green goods deal between her dead sister and Hayward.

Uxoricide and Suicide.

BOSTON, Dec. 18. — A husband and father, 60 years of age, fatally assaulted his wife yesterday morning and then ended his own life with a razor. The affair occurred about 8 o'clock at 32 South Russell street. The man was Thomas Murphy. He had been employed in a laundry and had the reputation of being a steady, industrious man and a good father. There are seven children in the family, six of them belonging to Mr. and Mrs. Murphy, the seventh being a 2-year-old girl of whom Mrs. Murphy had been taking care. Mr. and Mrs. Murphy were sent to a hospital, where they both died in a short time. There is no doubt that the deed was committed in a fit of insanity.

Munificent Bequests.

SALEM, Mass., Dec. 18.—By the will of the late Henry Saltonstall, filed here yesterday, he bequeathes all his property to his wife, and at her death makes the following bequests: Harvard college, $59,000; Boston Society of Natural History, $15,000; Institute of Technology, $50,000; Massachusetts general hospital, $10,000; eye and ear infirmary, $10,000, and $20,000 to be given in charities at the discretion of the trustees.

Investigators at Work.

RICHMOND, Dec. 18.—The committee appointed to investigate the charges of misuse of money contributed for decoration purposes, preferred against Phil Kearney post of Richmond, have begun their work. It is said that circulars were sent out by the post five years ago stating distinctly that any surplus left over would go to the Memorial hall fund.

The President's Outing.

GEORGETOWN, S. C., Dec. 18. — The president's party arrived here yesterday and took a steamer to South island, the winter home of General Alexander. The members of the party will be his guests during their stay. The opportunities for shooting and other sports are excellent about his land.

Portland Man Gets It.

WASHINGTON, Dec. 18.—The secretary of the treasury has awarded to John W. Burrows of Portland, Me., the contract for the interior finish, plumbing, approaches, etc., of the new government building at St. Albans, Vt., with the contract price of $17,000.

To Exchange Positions.

OTTAWA, Dec. 18.—It is stated that Mr. Bowell will not long remain premier, but will soon make way for Mr. Tupper, who will pilot the party through the coming elections. Bowell, it is said, will then take the high commissionership, now held by Tupper.

Ashinger Ahead.

PHILADELPHIA, Dec. 18.—Only three of the starters in the six-day bicycle race are on the track. The are Ashinger, Foster and Gannon. But little local interest is being taken in the match, and the attendance is very poor. Ashinger is in the lead.

Below $93,000,000.

WASHINGTON, Dec. 18.—The total withdrawal of gold at New York yesterday was $3,295,000, of which $2,000,000 was for export, leaving the treasury gold reserve standing at the close of business at $92,882,810.

A Secret Inquest.

GORHAM, Me., Dec. 18.—The coroner's jury in the case of Byron D. Coburn, who was found murdered in his barn, was in session yesterday. The inquest was secret and the jury adjourned until tomorrow.

Of Rapid Growth.

NEW YORK, Dec. 18.—J. L. Erving, treasurer of the Parkhurst testimonial, announces that the fund is now beyond the $5000 mark. The collections have aggregated an average of $1000 a day.

A Widow's Suit.

PROVIDENCE, Dec. 18.—Mrs. Mary Moffitt has brought suit for $10,000 damages against the Consolidated road for the death of her husband, who was killed last month.

Augusta Officials Want Him.

PORTLAND, Me., Dec. 18.—Ogier Bean, traveling under six allases, was arrested here yesterday. He is wanted for forgery in Augusta, whither he will be taken at once.

Paskola

A Flesh Forming Food

Artificially Digested.

For pale, thin people. The tired and weary feeling which accompanies all WASTING diseases will be relieved at once, the wasting will be arrested and new healthy tissues will be formed so that they will become plump and strong. An increase in weight will be noticed at once. It is stimulating although it contains no alcohol. It is assimilated without digestive effort. PASCOLA supersedes Cod Liver Oil, but bas not its repulsive taste. You can buy it at any drug store. Send your name to the Pre-Digested Food Co., 30 Reade street, New York, and get their interesting pamphlet.

Editorial Comment.

If Greater Boston extends its limits any further, and business Boston does not spread out more or make its thoroughfares wider at holiday time, citizens will have to shop by special permit from the City Government, or the streets will be impassable. Those who have let their Christmas shopping go are now doing mathematical problems to find out the chances of getting it done in season. "If it takes all day to make two purchases, how many days will it take to make all of them?" is the problem that puzzles many women.—Journal.

The problem is easily solved if people of suburban cities will read the local papers instead of the Boston papers, and note the bargains at home. They can make better trades at home, saving time, money and bother, and obtain more reliable goods. The Quincy stores are well stocked with holiday goods, and they also will be crowded the remainings evenings of the week. But read the thirty odd columns of announcements in today's LEDGER and then start out some morning. You will be better pleased with your purchases and it will be "A Merry Christmas."

Holiday Numbers.

The Delineator for January which is called the Holiday Number, offers a table of contents that is extremely attractive and promises well for the New Year. The Fashions are illustrated and described in the usual satisfactory manner, and there is a special article appropriate for the season on Misses' and Girls' Party Dresses. The spirit of the time is reflected in The Display of the Shops, and Among the Holiday Books; and there is an exceedingly pretty "Good-Night" Drill for children.

The Magazine of Travel is the attractive title of the newest candidate for public favor in the field of periodical literature. The most interesting regions of Europe and America are drawn on for materials, and when these are woven into narrative and sketch and story and poetry, by such minds as the Hon. Chauncy M. Depew, the Hon. Theo. Roosevelt, Christine Terhune Herrick, Ella Wheeler Wilcox, Chas. D. Lanier, Frank Chaffee, and others equally well known in their respective fields, they should bring instant and marked success to the publication which gives so valuable a contribution to the world's choicest literature. The editor of the Magazine of Travel is Mr. E. H. Talbott, the founder of the "Railway Age," and the home office of the publication is at 10 Astor Place, New York.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

SCHOOL COMMITTEE

High School Building Granted for Annual Reunion of the Alumni.

The members present Monday evening at the special meeting of the School Committee were: Messrs. Gordon, Gurney, Sheahan, Harlow and Burns.

In the absence of Chairman Crane, who was reported sick, Dr. Sheahan presided.

The Superintendent was instructed to close the fall term Friday, at 3.30, and to begin the new term Wednesday morning, Jan. 2, 1895.

Voted, that the next regular meeting be held Thursday, Dec. 27.

The Superintendent reported that there was need of another teacher at the High school, and he was given authority to secure one.

A request was received from the High School Alumni Association for the use of the High School building Monday evening, Dec. 31, for the purpose of holding the first annual reunion.

The request was granted, the Superintendent being instructed to see that necessary care was taken of the building.

The sub-committee of the High School, together with the Superintendent and principal were empowered to attend to the matter of the lunch counter in the basement.

The resignation of Miss Rogers of the Adams school, to take effect at the end of the present term, was reported.

A petition was received from residents at Quincy Neck asking that some means of conveyance be provided for the children of that district to the Washington school. Referred to sub-committee on finance.

Adjourned at 8.45.

The Christmas Puzzle.

The time is up for the answers to the "Christmas" word puzzle of the DAILY LEDGER, but it will take a day or two to open the many envelopes and award the prize. Santa Claus will be told in season, however, to select a good present for the smart boy or girl.

The demand for black whales has begun, and inquiries have been made for wholesales lots of the LEDGER. During this contest old papers, each containing a whale, will be sold for a cent apiece. Some papers may have two or three whales. Large and small ones will be received by Mr. Wales at the Quincy Cafe.

OIL HEATERS, just the thing to heat a chamber. Touch a match and your fire is going full blast, no dust, no ashes, no wood to chop, no coal to bring. Just think of the comfort too. $2.75 to $12.00. Henry L. Kincaide & Co.

THE LISTENER.

Colonel L. C. Weir, the president of the Adams Express company, has been in its service for 28 years.

Edward Bulwer Lytton Dickens, the youngest son of Charles Dickens, is a member of parliament in New South Wales.

The last honorable distinction that has come to Senator Lodge is that of grandfather, and he is said to bear it with becoming modesty.

Mustafa Bey, formerly private physician to the sultan of Marocco, is said to derive an income of $100,000 a year from his profession.

Archbishop Corrigan of New York holds more than $50,000,000 worth of real estate in his own name, all of which is exempt from taxation.

Purgatory is a queer name for a Virginia village, but it does not sound stranger than that of George Godbethere, who is the new postmaster.

Baron Hirsch, besides being one of the greatest financiers and philanthropists, is a princely entertainer. Although over 60, he is well preserved and athletic.

Governor McKinley does not know how to shake hands with the people and is superstitious about the number 13. Great men have generally great failings.

Blondin began to toddle across a rope when he was 4. At the age of 8 he performed before the king of Italy. Since then he has appeared in all parts of the world.

The late president of the Argentine Republic, Dr. Pelligrini, is now a partner in a firm of auctioneers, while the ex-minister of finance is very appropriately a money lender.

Two men named McLaughlin met casually the other day in a San Francisco hotel and discovered that they were twin brothers who had not seen each other for 51 years.

Lord Lorne, who has been called the least important of the queen's sons-in-law, is a regular writer for the press and sketches for several of the London illustrated papers.

Earl Grey, who died recently at 92, was the oldest living peer and the last survivor of Lord Melbourne's cabinet, the cabinet which held office when Queen Victoria ascended the throne.

J. W. Longley, attorney general of Nova Scotia, is probably the most brilliant and graceful writer in Canada. He devotes himself mainly to the early political history of the Dominion.

The oldest pensioner in the country is Andrew Franklin of Burlington, Kan., who was born in 1791, fought in the war of 1812, in two Indian wars and served as a teamster in the civil war.

Charles Sumner was perhaps the handsomest senator of modern times. His figure was commanding, and his splendid head was covered with a mass of dark brown hair. His costume was always picturesque.

Hiram Maxim, the flying machine man, says he will not consider his invention complete until he can have it under perfect control at a point so high that it can neither be seen nor heard by gunners underneath.

Twenty years ago W. H. Sheppard was a poor little colored boy in the streets of Waynesboro, Va. Now, at the age of 30, he is the only American negro who has ever been made a fellow of the Royal Geographical society.

THE JEWELER.

Opal brooches are shown with the opal nearly 3 inches in their longest diameter.

A Minerva's helmeted head in enamel was surrounded with colored stones like a wreath.

A gold wreath on the back of a tortoise shell comb is intended to complete an empire toilet.

A unique brooch is a bunch of colored enamel grapes suspended from a couple of green enamel leaves.

A settee of perforated silver of beautiful workmanship was found to be a penrack and held a penholder designed to conform to its style.

The prettiest side combs have a line of wrought gold punctuated by turquoise and pearls. Others disclose a sort of gold lace work on the shell.

The czarinas, or collar ornaments, grow in beauty like the night. From the simplest to the most sumptuous they adorn every window and hold the gaze of every woman who ventures by.

Beautiful examples of round brooches are seen with interlacings of fine black enameled lines. These make the background, as it were, for other forms in white or colored enamel or are accented by gems or pearls.—Jewelers' Circular.

THE WRITER.

McNeil Whistler, the London artist, was born at Lowell, Mass., and was educated for a soldier at West Point.

Zola has been pleased to remark in nice French that Kipling has shown evidences of talent. This will strongly incline Kipling to return the compliment after battering it up a bit.

Miss Braddon has now been writing for over 30 years with undiminished reputation. She usually commences work soon after breakfast and considers her task completed when she has composed some 3,000 words.

Henry James writes almost as fine French as he does English. He was the first writer to call attention to the absurdities of American matchmaking campaigns abroad. He is a little over 50 and in the maturity of his powers.

F. Hopkinson Smith is well known to the public as an artist, an author and a playwright, but in summing up what he has accomplished in his life work he says the most satisfactory achievement to him has been the construction of the Race Rock lighthouse in New London harbor.

GERMANY'S NEW CHANCELLOR.

RUDINI TO THE FORE

Strong Objections to the Prorogation of Italy's Parliament.

A DISMAL OUTLOOK FOR CRISPI.

His Standing With King Humbert Entirely Shaken.

ROME, Dec. 18.—The Marquis di Rudini, ex-prime minister, has written a letter to his constituents, in which he protests against the prorogation of parliament. He says: "The high wisdom, loyalty and moral courage of our sovereign justify us in hoping that the work of legislation has not been interrupted owing to the intemperate spirit shown by parliament, but for another cause, and that it will be resumed with the object of restoring our country to that tranquil position she has obtained through friendships she has contracted."

DI RUDINI.

Sigs. Zanardelli, Bran and Cavillotti and the Marquis di Rudini held an informal conference yesterday and agreed that it would be best to conform to the mandate of the meeting held Sunday by each preserving entire freedom of action. Each will address the electors by speech or manifesto.

Crispi In a Bad Mess.

It is reported that the total amount of the discounts obtained from the Banca Romano by Sig. Crispi, his family or his friends, at Sig. Crispi's request, was 563,000 francs.

Prime Minister Crispi's resignation is expected at any moment. His standing with King Humbert has been entirely shaken. It is believed that he will not long survive his fall, being of an apoplectic nature.

The newspapers publish violent attacks upon Premier Crispi. The Secolo, for instance, declares that from a constitutional standpoint there are only two methods of solving the present situation—the resignation of Sig. Crispi and the appointment of a ministry to carry out the budget and to order a general election; or to continue Sig. Crispi in office, with all its attendant consequences, which we do not desire to indicate at the present moment.

Troops continue to arrive in the city. Everything is quiet. Many members of the chamber of deputies have gone home to spend the Christmas holidays.

Deputies Voted Confidence.

PARIS, Dec. 18.—In the chamber of deputies yesterday, M. Gustave Rouanet (Socialist) censured the government for allowing the names of convicted persons to remain on the rolls of the Legion of Honor. He called upon the chamber to enforce the regulations governing the Legion of Honor. This was rejected by a vote of 239 to 234. A motion declaring that the government would cause the rules of the legion to be respected, which motion the ministry stated would be accepted as a vote of confidence, was carried by a decisive majority.

Stirring Up Spaniards.

MADRID, Dec. 18. — Mr. Taylor, the United States minister here, has been directed by his government to inform the government of Spain that if it persisted in enacting discriminating duties upon imports into Cuba from the United States, the action could be regarded only as inviting the exercise of the power of retaliation conferred by the act of 1890. This threat has caused a commotion in ministerial circles.

The Dead Premier.

LONDON, Dec. 18.—The coffin containing the remains of Sir John Thompson was finally sealed last evening. The body is in a leaden coffin with a glass lid. This coffin is enclosed in a mahogany casket. The cruiser Blenheim will convey the remains to Halifax. The Blenheim is not likely to leave England before the end of the week.

Cautious Belgians.

ANTWERP, Dec. 18.—In consequence of pleuro-pneumonia having been detected in cattle landed at this port from Canada, the importation of cattle from Canada to Belgium has been prohibited. Transit through Belgium will be allowed only in sealed cars of animals shipped from Canada prior to Dec. 10.

Sung's Plans.

TIEN-TSIN, Dec. 18.—General Sung has an army of 20,000 men at New-Chwang, including 6000 who escaped from Port Arthur. General Sung originally tried to save Port Arthur, but finding his attempt useless, went north, and is now awaiting a Japanese attack upon New-Chwang.

For Insubordination.

BERLIN, Dec. 18.—A Magdeburg paper states that 183 of the non-commissioned officers of the gunnery school have been found guilty of insubordination and sentenced to terms of imprisonment ranging from eight days to nine months.

Governors Interfering.

MOSCOW, Dec. 18.—Encounters between Armenian and Turkish villagers on Russian territory are said to be becoming so serious that the governors of Erivan and Kars are taking energetic measures to quell the disturbances.

Quickly Settled.

LONDON, Dec. 18.—The match for £200 between Frank Craig, the "Harlem Coffee Cooler," and Ted Pritchard, was pulled off last night, Craig winning the fight in less than two minutes.

A Fight Probable.

SHANGHAI, Dec. 18.—The first and second Japanese armies have joined each other north of New-Chwang, and are now marching direct on Tien-Tsin.

Crisis In Bulgaria.

SOFIA, Dec. 18.—The entire ministry has resigned.

WAS UNEXPECTED.

Further Details of the Death and Burial of Novelist Stevenson.

AUCKLAND, Dec. 18. — Details of the death of Robert Louis Stevenson show that Mr. Stevenson died on the evening of Dec. 3. He was talking with his wife, seemingly as well as usual, when he suddenly said to her: "I have a strange pain in my head." Immediately afterward he fell back insensible, and within two hours of the seizure he died. The cause of death was sudden paralysis of the brain, accompanied by collapse of the lungs.

The funeral took took place on the 4th. The grave was dug on the summit of Pala hill, which stands on Mr. Stevenson's estate. The body was carried up the mountain with great difficulty by the faithful Samoan servants, who so dearly loved their employer. To allow of the passage of the coffin and its bearers, it was necessary to cut a track through the dense forest which covers the whole slope of the hill. An obelisk will be erected over the grave, which will form a prominent landmark from the sea.

It is stated that Mr. Stevenson had suffered from brain exhaustion. He was haunted by a fear that his popularity as a writer was waning. He left three unpublished works.

Against Lattimer.

LYNN, Mass., Dec. 18.—Mrs. Hattie L. Hammond, the divorced wife of Gideon W. Lattimer, the man who was fatally shot by Annie M. Brewer, will be a prominent witness in behalf of Miss Brewer. She states that the murdered man was always of ugly disposition. At one time he threatened her life with a revolver, and was only prevented from using it by his mother knocking it from his grasp. At another time he struck her on the head, stunning her for a long time, because she could not stop hiccoughing when he wanted her to. Mrs. Hammond procured her divorce on the grounds of adultery. There has been a decided change in public sentiment, and the story told by Miss Brewer that the act was done in self-defense is gaining more credence. Miss Brewer was yesterday held without bail on the charge of causing the death of Lattimer.

Held In $2500 Bail.

BRATTLEBORO, Vt., Dec. 18.—E. A. Willard, Jr., was brought before Justice Parmelee in Wilmington, charged with embezzlement and larceny. He waived examination, and E. E. Wheeler furnished bail in the sum of $2500. Willard was formerly treasurer of the Wilmington Savings bank. He resigned his position in the bank in August, after discrepancies in his accounts were discovered. Willard is in business in Des Moines. He came to Wilmington Saturday to surrender himself.

Senators Scored.

BOSTON, Dec. 18.—About 150 members of the Young Men's Democratic club of Massachusetts sat down to the club's annual banquet last night. Charles S. Stratton presided. George F. Williams demanded the retirement of Senators Gorman and Hill, and blamed them for the general party disaster, characterizing them as "traitors and tricksters." John E. Russell said that the Republicans' victory may be that party's ruin.

Three Persons Burned to Death.

GARDINER, Me., Dec. 18.—Amos Marston's house on Windsor street was destroyed by fire yesterday, and Mrs. William Ready, Lillie Folsom, aged 7, and George Folsom, aged 4, were burned to death. There are no suspicious circumstances attending the case, but it is thought that the woman was intoxicated and that a lamp was upset. Coroner Hitchcock did not deem it necessary to hold an inquest.

An Investigation Ordered.

WORCESTER, Mass., Dec. 18.—The city council last night passed an order requiring the city clerk to investigate and report how many members of the city council, heads of departments or subordinates accepted and used passes on the street railways in this city.

And Yet He May Recover!

PORTLAND, Me., Dec. 18.—James Wallace jumped off an engine last night and was run over, having both legs, several ribs broken and his head badly cut. He was taken to the Maine general hospital and the doctors say he will recover.

Alleged Bribe Receivers.

NEW YORK, Dec. 18.—Police Superintendent Byrnes has preferred charges against Captain Frederick Martens, Captain Max Schmittberger, Sergeant William O'Toole and Dectective Sergeant Frink, for receiving bribes.

The Reading Presidency.

PHILADELPHA, Dec. 18.—John Wanamaker has received petitions urging him to accept the candidacy of the Reading presidency. He is considering the matter, but intimated strongly that he would not accept.

It Was Paris Green.

AMESBURY, Mass., Dec. 18.—The official report of the board of health says that the green powder found in the well in the Goodrich poison case is paris green. One of the parties implicated has skipped.

Demand of Unemployed.

MONTREAL, Dec. 18.—Three thousand unemployed men invaded the city hall yesterday yelling for bread. The crowd finally dispersed, yelling, "If we don't get bread by Wednesday, we'll take it."

TELEGRAPHIC BREVITIES.

Boston is to have a library of textile works.

Madagascar has yielded to France unreservedly.

Spain will allow Cuba to elect a council to sit at Havana.

England, France and Russia are to join in a humanitarian campaign.

The Massachusetts state highway appropriation next year is likely to be $1,000,000.

Great Britain is reported as scheming to restore ex-Chief Clarence to power at Bluefields.

The place of consulting engineer on the Boston and Albany railroad is to be abolished.

Charges of bribery against former town officials of Plaistow, N. H., are to be investigated.

Engineer Charles Waterman of Portland, Me., who was injured in an accident, is not dead, as was reported, but will recover.

Mrs. Charles Sawyer alighted from a horsecar at Portland, Me., and was run over by a team. She is in a precarious condition.

A boy named Little, while riding in his pony team at Portland, Me., collided with an express team and was badly hurt. He will recover.

Carlisle's Currency Bill Will Meet With Stormy Opposition.

THE STATE BANK PROVISION

Will Lead to a Test of the Strength of the Bill.

WASHINGTON, Dec. 18.—It is learned that quite a number of Democrats are not disposed to allow the new currency scheme to be rushed through the house without thorough investigation. They think that ample time should be allowed for the consideration of a measure which proposes to reconstruct the entire banking system of the country.

Chairman Springer only secured a bare majority to report it to the house. There are at least two Democratic members of the committee who believe that the bill should be amended in several particulars. The vote, it is understood, does not bind members of the committee touching their action in the house when the bill shall be taken up for consideration.

It is customary when a bill is favorably reported for the majority which directed the report to stand by the action of the committee and resist all material amendments offered, but in this case the rule will be suspended and any member is at liberty to offer amendments in the house and to vote against the final passage of the bill if he should so desire.

There is a strong desire on the part of the majority to pass the bill before holiday adjournment. Secretary Carlisle thinks it very important that the measure should be disposed of by the end of this week.

The time proposed for debate is regarded as ample, in view of the important and valuable testimony taken last week and which will be printed in time to be available in the coming debate.

Many Amendments Ready.

There are a large number of amendments prepared, which will be offered at the proper time, and when they are in order. The first, which is the most important, will be to strike ont the state-bank provision. This will receive nearly the solid Republican vote, and the vote of a number of Democrats; in fact, it will be the test of the strength of the bill.

Another will be an authorization to the secretary of the treasury to issue a sufficient amount of low-interest bonds to redeem the outstanding greenbacks and treasury notes of 1890 which are now so great a source of trouble to the treasury, as they are used in depleting it of its supply of gold. It is understood that the administration approves of this latter amendment.

It is pretty safe to predict, however, that neither of these amendments will be adopted. It is believed by the president and his advisers, as well as by many of his friends in both houses, that the proposed bond issue would go far towards solving the entire financial trouble of the government.

To Vote on Jan. 7.

Speaker Crisp and his associates on the house committee on rules have decided on a special rule by which Secretary Carlisle's bill for currency revision will be debated and voted on in the house. The original purpose of securing a vote before the holiday was given up.

Instead of that, it was arranged that the general debate should begin today and continue until the recess at the end of the week. When congress reassembles, Jan. 3, the currency debate will be resumed, the 4th and 5th being given to debate under the five-minute rule. The vote will probably be taken on Monday, Jan. 7, at noon.

To Protect Forests.

The bill to protect forest reservations, which was a bone of contention during the last session, and which has twice been under discussion during the present session, was finally passed yesterday under suspension of the rules. The motion to suspend the rules rendered the opposition helpless to prevent a vote, and as the bill secured the necessary two-thirds, it was passed.

The bill provides that no public forest reservation shall be established, except to improve and protect the forest for the purpose of securing favorable conditions of water flow. It gives the secretary of the interior authority to make regulations for protection against fire and depredation. It also gives him authority to prescribe regulations under which such dead or matured trees may be removed as may be necessary to preserve the remaining timber.

Under this authority he is empowered to sell such timber in limited quantities. He is authorized to make a detail of the troops for the protection of reservations. The bill further provides for the restoration of agriculture and mineral lands in forest reservations to the public domain.

The remainder of the day was devoted to the army appropriation bill. The bill reduced the number of paymasters in the army by five and the number of captains in the sustenance department by four, and has transferred the Fort Leavenworth military prison to the department of justice. The bill was passed without amendments.

Congressional Doings.

More than three hours of the session of the senate were occupied in the discussion of the Nicaraguan canal bill. Mr. Peffer favored the measure under certain conditions, but was opposed to issuing bonds payable in gold to raise the money required. Mr. Squire declared unequivocally in favor of the construction of the canal, while Mr. Turpie, though approving a canal, expressed his decided opposition to the pending bill. Mr. Kyle submitted some remarks in behalf of the bill and the establishing of a national university at Washington.

Senator Hawley introduced a bill for the reorganization and increase of the army. It provides a battalion of engineers as now organized—10 regiments of cavalry, five regiments of artillery and 25 regiments of infantry.

The bill also provides that there shall be one colonel and one lieutenant colonel, one adjutant and one quartermaster in the cavalry and infantry regiments, and allots only two majors to the infantry and cavalry companies, while it gives the artillery companies three majors. The president is to direct the number of privates in all cases.

France on Sugar.

PARIS, Dec. 18.—The supreme council of commerce has voted against a sur-tax on sugar imported from non-European countries.

VACCINATION MAD.

Washington's Recent Smallpox Scare a Bonanza For the Apothecaries.

During the recent smallpox scare in Washington one apothecary sold 18,000 "vaccine points" within 24 hours. On a Friday, when the general fright was greatest, the supply gave out. Physicians telegraphed in every direction for points. In the drug store referred to a big crowd was waiting. A small quantity arrived, and the people scrambled for them. The scene was a most extraordinary one. Holding their money in their hands over their heads, men, women and children struggled like anxious bettors at a race track. One would have supposed that their lives depended on procuring the points, of which there were not nearly enough to go round.

"Here's my money!" yelled one man.

"You promised me four points yesterday!" cried a woman.

"I'll pay you a dollar apiece for six points!" shouted another man, evidently the anxious father of a family.

In one day of the scare the apothecary said that he had made more money than he had ever made in two days out of his business. Somebody came to him and offered to buy out his entire stock of points at the figure he charged for them retail. The druggist refused because there was reason to believe that an attempt was being made to corner the supply.

A well known physician in town ascertained that a patient of his possessed an extra vaccine point. He went and begged it of him. One little colored boy called at the Emergency hospital and asked, with tears in his eyes, to be vaccinated.

"You go and get one of those things," said the surgeon in charge, "and I'll vaccinate you."

The boy went to the apothecary and begged a vaccine point. Then he returned to the hospital and was operated upon.—Washington Star.

LONDON'S REIGN OF TERROR.

A Mysterious Veiled Woman In Black and Her Thirst For Blood.

Two ladies of the writer's family were making calls just after dusk yesterday in Kensington. They had some difficulty in finding the new address of a friend, and not seeing a policeman stopped to inquire the way to Queen's Gate Terrace of a group of four women who happened to be approaching. Before they had time to speak two words of their question the four women turned and fled, with every evidence of sudden terror. The ladies walked on a few steps, met two more women and attempted to make the same inquiry. The second couple seemed seized with even greater alarm than the first group. They gathered up their skirts, ran across the street and away without waiting to hear the question.

This extraordinary power to put British maids and matrons to flight by a word so amused the two American women that they tested it once or twice more, with the same result, except that one woman retained sufficient self possession to call back, "Don't know," over her shoulder as she ran away.

The incident furnishes striking proof of the literal reign of terror now prevailing in one of the most fashionable quarters in London by reason of the series of strange crimes about which the cable has already told you something. A mysterious veiled woman in black, whose mania is to stab others of her sex, has appeared no less than five times within a week in a district less than a half mile square, and although scores of detectives are lying in wait for her she is still at large. In each case she has approached her victim with an inquiry about a certain street. Her first victim lost an eye, and the second was stabbed in the neck, narrowly escaping a fatal wound. The fear of her was now widespread, so that the others she accosted fled before she could strike them. There is some suspicion that she is a small man in disguise, as all describe the person as having a gruff voice, but the police believe it is a woman, and that she is undoubtedly insane.—London Letter.

Lining Their Winter Duds.

Two newsboys sat on the stairs, with a pile of newspapers on the steps above them. One had his coat off, and both were busy lining the inside of the tattered garment with folded papers. They handled their large needles clumsily, but after a time succeeded in lining the coat. The boy who owned the coat slipped it on, and turning up the collar remarked, "That'll keep the wind out."

Then the other boy took off his coat, and soon his summer jacket was made over into a winter reefer by lining it with newspapers.

A policeman watched the little tailors. "The kids caught the idea from the gripmen and hack drivers," he said. "You see, a newspaper ain't so warm itself, but it keeps the wind out, and the newsboys suffer a great deal from the winds which come sliding down the sides of the high office buildings. They have seen hack drivers double up paper and slip it inside of their vests, and they caught on."—Chicago Record.

Wanted a Swing With the Ax.

A good story is told on one of the newly elected Republican members from Ohio who has never seen the great governmental machinery in active operation at the national capital. Just as soon as he made sure that he was elected he sat down, took his pen in hand and wrote the following incisive telegram:

Maxwell, Fourth Assistant Postmaster General, Washington:
Stop all appointments in my district until I can see you. I'm elected.

General Maxwell's policy since the receipt of this ukase has not come within the ken of those who are circulating the story at the capital.—Washington Post.

Compulsory Fire Insurance.

English insurance men are discussing a proposition to make fire insurance compulsory.—London Globe.

Where Science ends and Common Sense should rule. Persons of sedentary habits are liable to indigestion or dyspepsia. These, in turn, will bring on nervous disorders, kidney complaints, constipation, etc. This is especially the case with merchants, students and scientists. They will give you the exact dimensions of Jupiter, the distance from Saturn to the sun, to a foot, but they cannot or will not tell themselves what will cure this train of disorders.

For ailments resulting from sedentary habits—inactivity of the liver, habitual constipation, etc.—the entire medical fraternity of Europe and America almost unanimously recommend the genuine Carlsbad Sprudel Salt and the Waters of Carlsbad.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Christmas next Tuesday.

Dr. R. McLennan is still very low.

It is delightful weather to be about, but bad weather for health.

J. E. Drake's new factory on Sumner street is about ready to start up.

The afternoons are two minutes longer

Now a little snow for Christmas.

One by one our aged and respected citizens are being taken from us by death.

Candy, fruit and nuts are the Christmas specialties at the Boston Branch grocery.

Several dances are announced for Monday and Tuesday evening next week.

More new advertisements today. They offer valuable suggestions for Christmas.

The alterations on the Page house on Foster street give it a more attractive appearanee.

Guy & Shaw are with us today with a two column announcement. Useful presents is what they offer.

Who will the Republicans select tonight for President of the Council of 1895, Mr. Bass or Mr. Johnson?

H. L. Kincaide & Co. are up to the times, and have had an arc light placed over the entrance to their store.

The Electric Light Co. is complaining of the number of lamps that are being broken on Newport avenue, probably by boys.

The scenes in our local stores evenings are interesting, for they are thronged nightly with people buying Christmas presents.

Dr. George B. Rice has accepted a professorship in the Boston University, his specialty being diseases of the throat and nose.

Scores of people are making daily trips to Boston to be jammed and crushed in the crowds in the big stores. Why not trade at home?

Milk 2 cents a glass, sandwiches, doughnuts, etc., at corresponding prices will be the rule at the lunch counter at the High school next year.

Work has commenced on a large block near the Norfolk Downs depot. There will be two stores on the lower floor and five tenements up stairs.

W. R. Lofgren is the builder of the new house for Mr. James Craig on Franklin street, which promises to be one of the finest houses in Ward Three.

Have you read General Order No. 3 of the Cattle Commissioners? It appears in the LEDGER today and may be of interest to all buying or keeping cows.

A twelve inch water pipe has been laid as far as the junction of Sea and Palmer streets and will be pushed to Houghs' Neck in the early spring.

As the regular meeting of Merry Mount lodge, A. O. U. W., falls on Christmas night, the meeting will be held Friday evening of this week, at which time officers will be elected.

W. H. Bennett completed this week the grading about the new house of Mr. C. Theodore Hardwick on Chestnut street. It is another good job for Mr. Bennett.

John S. Williams of Elm street has broken up housekeeping and will board in Boston. Miss Williams will reside with her aunt at Wollaston.

All our readers saw the half page "ad" of the Granite Clothing Company yesterday, and they should see their attractive stock of holiday goods; just the place to obtain presents for men and boys.

OUR YOUNG FOLKS.

Diogenes, the Cynic, the Witty Philosopher of the Tub and Lantern.

The cynics, a sect of Greek philosophers, held that a man should be indifferent to either pleasure or pain, good or evil fortune. They reduced all their wants to the bare necessities of life, considering wealth and luxury the greatest of evils and a contented mind the only blessing. They received their name from Cynosarges, a gymnasium at Athens, where Antisthenes, the founder of the sect, delivered his discourses. The last part of the word cynosarges means a dog, and as Antisthenes was of rough, snappish manners his followers came to be called dogs, and Diogenes, the most celebrated of them, appears to have been proud of the name.

Diogenes was born about 412 B. C. After he became a philosopher he went about poorly clad, with a wallet in

DIOGENES.

which he put any food that was given him, and carrying a rough stick in his hand. He slept wherever he could find shelter; but, discovering a large cask or tub, he made that his dwelling place. He was very popular with the Athenians of every rank, constantly making witty or sharp remarks to them. Many stories, accepted by some historians and ridiculed by others, are told of Diogenes. One bright sunshiny day he appeared in the streets carrying a lighted lantern and peering into the face of every one he met, and on being asked why he did so he replied that he was "looking for an honest man."

Another time he was eating his dinner in the market place when the people surrounded him, calling out "Dog, dog!" "It is you who are dogs," said he, "standing around me when I am at dinner." On being reproached afterward for eating there he replied, "But it was in the market place that I was hungry."

When asked what advantage he derived from philosophy, he answered, "At least I am prepared for every kind of fortune." And when any one inquired of what country he was he used to say, "I am a citizen of the world."

A famous interview between him and Alexander the Great is said to have taken place at Corinth:

"I am Alexander the Great," said the king.

"I am Diogenes the cynic," replied the philosopher.

"Can I oblige you in any way?" asked Alexander.

"Yes. You can stand out of the sunshine," answered Diogenes.

This famous philosopher, whose history in some respects reads like that of a modern tramp, was nearly 90 years old when his death occurred on the same day that Alexander the Great died at Babylon.

Mischievous Mat.

Mischievous Mat has crept in to look.
If granny is really reading her book,
Down it slipped with a bang on the floor,
And there came a sigh that was half a snore.

"Oh, what a joke! If I'm only quick,
I can play dear granny the jolliest trick.
She'll wake up and think it such fun," Mat said,
And plumped the cat on the old lady's head.

Boys' Doings.

A Big Rapids (Mich.) boy thought that he would dig a cave and live in it, after the manner of Robinson Crusoe. His father took two hours digging his boy out after the earth caved in on him, and the Crusoe experiment was indefinitely suspended.

The 4-year-old son of James Weir of Fayetteville, Ark., traveled from that city to Goshen, Ind., where his uncle lives. A tag was attached to the little one's coat, and he made the journey alone.

William J. Wicks of Parkdale, Ont., has during the last 12 months rescued 14 people from death by drowning and in most of the cases entirely unaided by any one else.

James Michael, who holds the 100 yards Australian bicycle record, is only 17 years of age. He expects to visit the country next season, when he will endeavor to wrest laurels from American cyclists.

Albert S. Keen, a graduate from the schoolship Saratoga in 1892, now holds an important position on board the Japanese steamship Yokohama Naru.—Golden Days.

THE REIGN OF THE BICYCLE.

The Present Passion For the Wheel Is Not Likely to Die Out Ever.

What may be called not improperly the bicycle passion has full possession of several leading countries of the world. England and France, notably those parts of them in and about London and Paris, have been so given over to it for some time that a large proportion of their population come and go on their errands of business or pleasure on a wheel. Americans who have recently traveled abroad have been astonished at the general use of the bicycle there and have been still more astonished on returning to their own country during the past year to discover what headway the passion had made here. It is said to be a conservative estimate by competent authorities that during the year now closing 250,000 bicycles have been sold in this country, and that the number of riders approaches 1,000,000. There are said to be over 50,000 in New York and its neighborhood and fully half that number in and about Boston. The latter city caught the passion from Europe some time before New York did and has a larger proportion of its population, male and female, regularly devoted to it.

Observers of the phenomenon are wondering whether it is merely a passing whim or whether it has come to stay, whether those who have taken it up will continue it after the novelty has worn off or whether they will drop it for the next new fad that shall come along. There are many reasons for thinking that its stay will be permanent. Undoubtedly many of those who take it up because of its vogue will tire of it after awhile, but these will not constitute a large proportion of the whole number. The great body of riders find in the bicycle a new pleasure in life, a means for seeing more of the world, a source of better health through open air exercise, a bond of comradeship, a method of rapid locomotion either for business or pleasure and many other enjoyments and advantages which they will not relinquish. The bicycle has, in fact, become a necessary part of modern life and could not be abandoned without turning the social progress of the world backward. Few who have used it for a tour through the country would think for a moment of giving it up and returning to pedestrianism instead. Aside from the exhilarating joy of riding, which every bicycle devotee will assure you is the nearest approach to flying at present possible to man, there is the opportunity of seeing a constantly changing landscape.

The bicycle is indeed the great leveler. It puts the poor man on a level with the rich, enabling him to "sing the song of the open road" as freely as the millionaire and to widen his knowledge by visiting the regions near to or far from his home, observing how other men live. He could not afford a railway journey and sojourn in these places, and he could not walk through them without tiring sufficiently to destroy in a measure the pleasure which he sought. But he can ride through 20, 30, 50, even 70 miles of country in a day without serious fatigue and with no expense save his board and lodging. To thousands of men and women the longing of years to travel a little as soon as they could afford it is thus gratified, virtually without a limit, for a "little journey in the world" can be made on every recurring holiday or vacation.—Century.

TROUT WALK OVER LAND.

A New Fish Story That Comes From the Pine Tree State.

Captain Barker has built a nice camp, with a good cellar, near his hatchery at Bemis, which overlooks the spring, and has a man on guard night and day. He also has a number of traps set in the stream and on the banks. In one the other night he caught a monster owl.

In constructing his hatchery he excavated a place about 20 feet square in the bank, where he found a large boiling spring which is connected with the original spawning ground. The trout have gone over the old bed into the house, where they are clearing off the ground and seem to prefer it to the open water.

The captain will ship a few trout from other places and hatch them in trays in the spring in the hatchhouse.

The captain says that trout will go over dry land to get to their spawning ground. The above statement is based on facts, as he and several of his workmen a few days ago saw a trout come up stream to where it was filled with leaves. The trout rested a moment or two, then started overland some three or four feet to open water. One of the men remarked that all that was needed for the trout to reach the hatchery was to have a road swamped for them.

The captain has also enlarged the old spring about one-third. He has a way of securing the trout for stripping without any injury. He catches many sheldrake by the head by setting a baited trap on the bottom of the stream.—Phillips (Me.) Phonograph.

The Last of the Cantinieres.

To a good many English people it will be a surprise to learn that the cantiniere, who figures so picturesquely in French military pictures and on the stage of comic opera, is nearly as extinct as the dodo. M. Casimir-Perier granted an audience lately to almost the last specimen of this interesting class, who is known as Mme. Veuve Bouvier. In honor of the occasion the goddess, for so she was styled in the Fifth cuirassiers when Louis Philippe was king, donned her black glazed sailor hat, her blue tunic, with its triple array of gleaming buttons, and the rest of the uniform. A strange figure must this old lady have cut as she marched through the village streets to the presidential chateau. But they order things better in France, and instead of laughing the good country folk were moved to tears, while the president received his visitor with respectful emotion.—London Public Opinion.

GENERAL ORDER No. 3.

Commonwealth of Massachusetts.

BOARD OF CATTLE COMMISSIONERS, 52 VILLAGE ST., BOSTON, Nov. 20, 1894.

To the Boards of Health and all Owners of Neat Cattle in the Counties of Nantucket, Dukes and Barnstable:

1st. All the states and territories of the United States, the District of Columbia, Canada, Great Britian, and all other localities without the limits of this Commonwealth, are hereby declared infected districts.

2d. It is hereby ordered that all neat cattle brought within the limits of this Commonwealth from any of said localities on or after November 26, 1894, are hereby made subject to quarantine until they have been inspected and released by this Board or one of its members thereto duly authorized.

3d. Except as hereinafter provided no such neat cattle shall be unloaded except in case of accident, for any purpose whatsoever within this Commonwealth, at any place or places other than at such quarantine stations as are herein designated, or which may hereafter from time to time be designated by this Board, unless upon written permit signed by the Board of Cattle Commissioners or one of its members.

4th. The Union stock yards at Watertown; the Boston & Albany stock yards at Brighton and the premises of the New England Dressed Beef and Wool Company in Somerville, are hereby designated as quarantine stations.

5th. All neat cattle entered at any quarantine station, except as hereinafter provided, are hereby declared quarantined and shall so remain, at the expense of the owner or consignee, for a period of not less than twenty-four hours, or until they are released by the Board of Cattle Commissioners, or one of its members, during which time they shall be subjected to the tuberculin test. This test shall be made only by the Board of Cattle Commissioners or one of its members, or a duly authorized agent thereof, and without expense to the owner.

6th. Every such animal which, in the opinion of this Board or any of its members, is affected with tuberculosis, will be condemned and slaughtered as provided in Sections 45 and 53 of said Chapter 491 of the Acts of 1894.

7th. All animals which upon such inspection shall be adjudged free from tuberculosis and other contagious disease shall be branded with the seal of the commission. This brand will be placed upon the right hip.

8th. All neat cattle passing through this Commonwealth, consigned from points without its limits, for exportation from this State will not be examined as herein provided, but such animals shall remain in quarantine until transported without the limits of the Commonwealth.

9th. All neat cattle brought within this Commonwealth consigned directly to the Brighton Abattoir for slaughter, shall be confined by themselves for identification, and shall not be released except after an examination as above provided, or for immediate slaughter.

10th. It shall be the duty of every person or persons, corporation or corporations, desiring to drive or cause to be driven any neat cattle into this State from any point without its limits, to notify in writing the Board of Cattle Commissioners of his, their or its intention so to do, which notice shall state the town or city in this Commonwealth through which it is the intention to enter, and the time when the drove will arrive within such city or town. After crossing the border all such cattle are hereby declared quarantined upon premises which shall be defined in the permit, within the limits of such city or town, at the expense of the owner or consignee, and shall there remain until they have been examined and branded, or destroyed, as hereinbefore provided. No neat cattle shall be driven within this State from any point without its limits, except as herein provided.

11th. All neat cattle branded as herein provided shall be free to all markets in this Commonwealth.

12th. No person shall sell or offer for sale, or have in his possession, except under quarantine, within the stock yards in Brighton, Watertown or Somerville, any neat cattle which are not branded as provided for in section 7, except as provided in sections 8 and 9 of this order.

13th. It is further ordered that a copy of this order shall be sent to each city and town throughout the Commonwealth, and that every town shall cause a copy thereof to be posted in two or more conspicuous places within its limit, and shall cause a copy of the same to be published once a week for three successive weeks in a newspaper published therein, or if no newspaper be published within the limits of said town, then in a newspaper published within said county; and that each such city shall cause a copy of the same to be published twice a week for three successive weeks in a newspaper published within its limits.

14th. This order shall take effect upon November 26, 1894.

DURGIN & MERRILL'S BLOCK

A CHRISTMAS QUEEN.

BY MARTHA M'CULLOCH WILLIAMS.

[Copyright, 1894, by the Author.]

Aunt Charlotte came sturdily across the Lee plantation. The fields were all sere, as became mid-December. Yet in the flower garden roses, pansies and chrysanthemums were rapidly unfolding in the warm, slow rain, rather ragged and discolored, to be sure, but flowers for all that.

"Dem's de ve'y tings fer dressin up de table," Aunt Charlotte muttered to herself as she scudded betwixt the borders and on to the back porch. Before she could knock, the hall door opened, and Mrs. Lee called out:

"Howd'y, Aunt Charlotte? Come right in my room to the fire. You'll catch your death yet, running about so in bad weather. Sit down and dry your feet while you tell me all the news."

Aunt Charlotte stuck her torn, muddy shoes toward the blazing logs, fetched a sort of groaning sigh and said: "La, Miss Ma'y, you know I never hears no news, but dey nor'ated it at church meeting 'istiddy dat ole lady Brantley wus metty low wid de brown-skeeters, an ole Miss Calishaw's Flo'ence had done runned off an married dat Dodd boy."

"Well, well, she has driven her ducks to a bad market. Girls are so foolish. Oh, did you hear from old Mr. Pegram? I am told he was badly hurt last week."

"Yessum; he clumb up de stable lof', huntin fer de boyses jug er licker, an fell through on dat young mule, an de critter kicked him. So de doctor say de spine er he back is querrelized."

"Dear me! You don't say so!" Mrs. Lee returned.

For an hour the talk slipped along the channels of local gossip. Aunt Charlotte knew there was nothing like tidbits of news to put Miss Ma'y in good humor. Whatever happened in ten miles around was reported, with enlargement and variations, at the colored church. Besides Aunt Charlotte herself was outdoor laundress for some half dozen families, so of course knew all about them. When her feet were dry, she got up, picked her sunbonnet from the floor and said, balancing herself on one foot:

"Well, I mus' be goin. Miss Ma'y, is you got any gole paper?"

"Let me see. Yes, I think—I know I have. Do you want some? Are they going to have another Christmas tree at the church?"

"Yessum—no'm. I does wants some, but 'tain't fer no Chrismus tree. Dey done had so many er dem, an fesservuls, an May suppers, an so on, de folks is tired on um. Mist' Pasco, de teacher at de free school, is metty high larnt. He been one session ter de Frisk nuniversity, up hat Nashville, so de church call on him ter pervent um somp'n new An he tole um dey mus' have er queen er Chrismus."

"Indeed? That is something new. Tell me all about it."

"I ain't zactly got de whole thing straight yit, but fur es I kin make out my Meely—dey choosed her fer queen—is gwine be dressed up in white, wid er crown on, an red shoes, an set up on er cheer on top de teacher's table, wid er big stripe-ed shawl all hangin down ter de flo', an de schoolchilluns is ter come up 'fore her an say dey speeches—'bout de boy stood on de burnin deck, an twinkle, twinkle, little stars, an de reaper whose name is debt, an all dem yothers. Den dey gwine have di-logs fer the big chilluns, an arter dat all de young men will march an sing around her, an she ha' ter choose one on 'em fer king. Dat's whut gits Meely whar de wool's short. You know she ain't forard lek de yother gals."

"No; Meely's a good girl—the best I know. Is that all?"

"Oh, no'm. Dey gwine have er supper, sot in de schoolhouse eend er de church. Dat'll be 50 cents an eat all you wants er barbecue an pie. De church don't git none er dat; hit all goes ter dem wha' 'vides de vittels. But the side table whar dey gwine sell cake an candy an reasons an oringes an seegyars will be all fer de paschure sal'ry. 'Sides dat he git de dime at de do' too. De church owes him $40, an dey had ter promus ter git up somp'n would make it fer him Chrismus, 'fore he'd 'gree ter baptize any er dem las' converts. He 'lowed his body wus des as well wuth savin as dey souls, an he wasn't gwine ruint his las' suit er clothes in de water 'dout he had de inshorance er gittin money ter buy mo'."

"I see. Does it come off Christmas eve?"

"Oh, no'm. Hit's gwine be Saddy night in Chrismus. De yother churches an school 'tainments will be through by den, so we git er big crowd. De s'ciety from town—de Sons and Daughters of I Will Arise, say dey comin out ter see how us country niggers does, an I wants ter 'stonish um good one time sho."

"You want me to help you?"

"Yessum; I be metty proud ef you will. I got three dozen eggs. Ef you des let me heve de sugar an butter an flour, I'll make two cakes fer de side table an bake um in your big rosepans. An I thought maybe you'd len me de money ter git Meely's dress an shoes, an make de crown fer her, an len me you buggy blankit ter go over de cheer. Ef you will, hit'll be er mighty big 'commerdation."

"Has Meely outgrown the white dress I made her last summer?"

"No'm, but hit's been washed. 'Sides hit nuver wus nothin but swiss muslin. Now she got ter have tarlton. Teacher say queens don't nuver w'ar nothin else, an nuver puts one on dey back but des de one time. Hit's boun ter be right new."

"You had better get her yellow shoes. She can wear them afterward."

"Teacher say dey mus' be red—dat's what de town niggers will be spectin, an dey shan't have no scuse ter laugh ef I can help it."

"You want me to make the dress?"

"Yessum, ef you will."

"And the crown?"

"Ain't nobody but you would do it fer me."

"Do you want it like this?" showing a picture of a royal diadem.

"No'm," said Aunt Charlotte. "De chilluns is gwine w'ar silver ones when dey say dey speeches an Mist' Pasco he made um one fer er pattren. Hit's des er ban big 'nough to go on de head, wid sharp p'ints stannin up around de top. Meely's mus' be dat way, too, only gole an bigger."

"H-m-m! Is that all you want?"

"Yessum—'ceptin 'tis dem flowers out yonder in de gyarden. An I'll sweep de yard, an make your soap in de springtime, an irun all Miss Lucy's nice clothes next summer."

"I know you will, you blessed Aunt Charlotte," said Miss Lucy Lee, running in with her arms full of finery. "And Meely shall be as fine as Friday in this tarlatan dress of mine—I've only worn it once—and a red sash and stock-

"IS YOU GOT ANY GOLE PAPER?"

ings as well as the shoes. And her crown shall have 17 tiny sharp points to it, one for each year of her life and mine. You know we were born the same day, and have grown up just the same size."

Aunt Charlotte beamed all over.

"God love you, Miss Lucy! You is one good child. I wus thinkin 'bout dat dress all de way ober here—studyin up how I could git it. If your foots des wan't so little dat Meely couldn't git mo'n her big toe in your shoes, I'd ax you fer dem white slippers and let de red stockin's do."

"Oh, she shall have shoes—never fear!" Lucy said, holding the sash to the light. "But how will she get to church without spoiling them? It's a mile from your house, and the mud will be knee deep. You know it always rains a week when the wind is in the south."

"Yessum, hit's gwine be bad. Dey done 'cided at church meetin dat Meely mus' dress in de clostes' house dar an den come out, an be sot up in er no top buggy, an have eight er de big boys pull her up ter de church do'. Den Mist' Pasco, he gwine take her outen hit an tote her up de aisle an set her in de cheer on de table."

Lucy laughed aloud. Her mother frowned and said, a trifle sharply:

"I would not allow that, Charlotte. Meely is no child."

Aunt Charlotte looked at the floor in meek obstinacy.

"Dey tells me queens don't walk none 'tall," she said, "an de buggy cain't git no nigher 'an de do'."

"Then let two of the big girls make a bee saddle and tote her. That won't look half so bad as to see Pasco lugging her like an old cat does her kitten," Mrs. Lee said, still sharply.

"It's the hugging, not the lugging, ma objects to," Lucy said through her laughing, "but that does not matter. I believe Mr. Pasco wants to marry Meely."

"He do," said Meely's mother, "but she done sot her min on dat ar' owdacious Pete Meacham, who've got no 'ligion 'tall, is des always whistlin reels an potillions an singin 'bout

"Oh, Master Rabbit, yo' years mighty long.
Yes, my dear, dey are sot on wrong.

Dat's what make me try so hard ter git her fix up nice fer dis yere time. I'm gwine git all de things an den tell 'er she cain't have um 'dout she'll 'gree ter take Mist' Pasco."

Lucy's eyes flashed, but before she could speak her mother said:

"Well, I hope you'll succeed, but it does seem to me that when a girl sets her heart on a trifling, no account fellow there is no use trying to change it. I didn't know Meely was like the rest, but I'll help you all I can."

"So will I," said Lucy, running away, with scarlet cheeks. Meely's case was her own. Bert Wilmer had her heart and her troth plight; rich Dave Allen, the backing of her parents. Possibly it was this fellow feeling that made her so wondrous kind to Meely. Possibly also the fact that Pete had been postman for the lovers ever since Bert was forbidden the Lee house had something to do with the case.

Then, too, the Lees were a habitual providence to the poor blacks about them. Love for the merry, careless, simple-shrewd race was in their blood, comprehension likewise. They saw under the grotesque extravagance of the "queen of Christmas" a germ of self reliance and furthered it accordingly.

When at last it came to pass, Lucy, with her brother and a dozen more young folks, stood outside and looked on through the window back of the pulpit. The church was a big log structure, lit with kerosene lamps in flaring tin reflectors, and fairly crammed with dark humanity.

Besides the country negroes for miles around the Sons and Daughters of I Will Arise were out in full regalia, a hundred strong. Each brother wore a red sash crossing his breast, with a tin star over the heart, a green apron turned up with yellow, and a blue and white rosette upon the left lapel. Each sister was gorgeous in a purple cape, a long white, freely ruffled apron, deep red sash about the waist and orange turban with green plumes. They marched to their allotted places, droning out a weird, wordless chant, and vainly tried to maintain an attitude of solemn criticism. The crowd was dotted with smiling familiar faces, the savory scent of barbecue was in the air, and Brudder Paschure, otherwise the Rev. Mr. Barker, shook hands up and down the benches with a fervor that almost set them shouting.

Presently the deacons hustled and squeezed the crowd back from the aisle, and Mr. Pasco came through with Meely in his arms. She was a slim slip of a girl, but he staggered under her weight and would have fallen when mounting to her chair throne if Pete Meacham had not sprung forward and relieved him of his burden.

"Umph! My Lord! I wouldn't have dat nigger fer soap grease ef he cain't tote no better'n dat!" exclaimed the foremost Daughter of I Will Arise, while one of the country lads murmured: "Lordy! Wouldn't I des lek ter see 'im put 'ginst Pete at er log rollin! He done stay dar in dat school'ouse twell he ain't no stronger'n er skeeter."

Meely reached her throne about equally crumpled in clothes and feelings. While the speeches and dialogues went on she sat trembling and half blind, only kept from running incontinently away by the knowledge that her mother's eye was on her. She knew what was expected of her—that she would choose Mr. Pasco as king—and she hated him so! If only she might choose Pete! But he would not be in the line. Aunt Charlotte had managed to have him left out. After he put her in the chair he sat down on the pulpit floor back of it,

SENT HIM SPRAWLING TO THE FLOOR.

where the drapery hid him from the crowd, but let him look his fill at her. That was her only consolation. If they tried to make her bodily over to Mr. Pasco, he was close at hand, and Miss Lucy and Marse Bert looking in at the window, ready to give him countenance for her protection.

At last the march began. Two by two, a man and woman, they came into the small clear space before her and moved around singing:

My Lord called Sister Marthy.
Sister Marthy would not answer.
Sister Marthy's into de gyarden,
Talkin erbout my Lord.

Five minutes of slow, heavy stamping; then came a wild whirl to

Dar war ban's o' music,
Dar war ban's o' music,
Dar war ban's o' music
Rumblin fro' de sky.

Then the words died away to a wild groaning shriek, with a tempest of footfalls under it. The marchers formed a wheel with the women in the center and whirled at top speed in front of and up to the poor distracted queen. The pastor came, too, with an oily smile, and put his buggy whip in her hand, saying: "Now, Miss Permeely, hit your king and lemme set him down up yere 'side you. Hit is not good fer 'ooman ter be erlone, de Scripture says. Now, shet your eyes an hit de nex' who-'er passes." With that he seemed to release the whip, yet adroitly flung the lash around Pasco's neck. Instantly there went up a great laughing shout, and by the time Meely had drawn one sobbing breath the teacher was beside her, holding her hand. The preacher had drawn a book and a folded paper from his pocket and was beginning to read that the document authorized him to solemnize matrimony betwixt Cæsar Augustus Pasco and Pamela Mills.

Out from the wonder stricken crowd came a shrill cry: "O-o-o! you vilyun! I hain't dead yet!"

The next minute a small and vicious looking Daughter of I Will Arise streamed up to the throne, clutched the royal bridegroom and shaking him till his teeth chattered cried out: "I married dis yere slab sided, low down, no 'count triflin fly up de creek two years ergo, up to Nashville, an took in washin ter spote 'im so he might go ter school an git book sense ernough ter be er preacher. An dis is whut I gits fer it. Fine um yere tryin ter marry er gal 'at don' 'ant um an does 'ant somebody else. I been knowin ever sence he runned away he was mean as gar broth thickened wid tadpoles, but I never did thought he'd come quite ter sech er pass as dis."

Mr. Barker put on his most judicial aspect. Pasco's countenance betrayed his guilt. Nevertheless the minister asked:

"Is this woman your wife, Brother Pasco?"

"I married her once, but I was a minor then, and I propose to get me a divorce next spring—as soon, in fact, as school is out," Mr. Pasco said, calling all his grammar to his aid.

"Den you better wait till you git it 'fore you try ter marry agin," Pete Meacham said, catching his rival round the waist and sending him sprawling on the floor. Then he gathered the sobbing Meely in his arms and turned to face the preacher, saying: "Mr. Paschure, my boss is got license for me ter marry dis same little gal. Git um from him, please, an tie de knot right yere. I wus gwine steal her as we went home, but I don't wanter take no mo' risks er losin 'er."

Then a wonderful thing happened. The party outside came in and stood in a half circle, back of Pete and Meely, until they were made one, when a grave gentleman, whom nobody quite knew, stepped in front of Bert Wilmer and Lucy Lee, and in less time than it takes to write it they had likewise entered the holy estate of matrimony. Pete and his boss, it seemed, had planned a double runaway. The happenings of the evening only precipitated the crisis.

Aunt Charlotte and Mrs. Lee in time became reconciled to their sons-in-law, but the church meeting has never yet ventured upon another queen of Christmas.

SEAMEN CALLED UPON

To Preserve Peace at the Capital of British Honduras.

A SERIOUS INDUSTRIAL UPRISING

Checked by the Presence of British Warships.

NEW ORLEANS, Dec. 19.—The Central American Times of Dec. 14, published at Belize, British Honduras, received here by mail yesterday, contains a long account of a labor riot which took place there on the 11th inst. The origin of the present disturbance is purely industrial. The men engaged in mahogany and logwood cutting, who constitute the bulk of the laborers of the colony, demanded higher wages than the merchants were inclined to pay, and having failed to obtain relief by application to the authorities, they became exasperated and began to wreck the stores of their employers.

When the mob had reached Mutrie's store it was confronted by the clerks, armed with revolvers. They fired over the heads of the mob and wounded a man and woman. The mob then rushed into Cramer's store, smashing a number of glass cases, musical boxes and musical instruments, and carried off a large number of watches. Several were slightly bruised by being struck with clubs.

At about 3:30, when the riot began, and until 5 o'clock, the town was unprotected and

At the Mercy of the Mob.

The constabulary were not idle, but the rioters were not in a temper to listen to reason, and all efforts of the officers were insufficient to produce a cessation of disorder. All that they could do was to take into custody and confine in the police station a man whom they looked upon as a ringleader.

The rioters then turned their attention to the police station. The windows were broken and the attitude of the mob was so threatening that the prisoner was released. A few minutes before 5 o'clock, 40 blue jackets and three files of marines were landed and marched up to the courthouse wharf. On the blue jackets being drawn up in front of the police station, all signs of disorder ceased.

From the steps of the council chamber, the governor addressed a few remarks to the crowd, urging them to disperse. During this time the more violent spirits had crossed the bridge and were reassembling at Currie's store and became exceedingly threatening again. The sailors were then brought over to keep them in check.

The attorney general mounted a box and gave the men a few minutes to disperse, threatening, if they did not, he would read the riot act, and the sailors

Would Use Their Firearms.

The men stood sullenly around for a short time, but gradually melted away.

On the 12th, there was an attempt made by the strikers to rescue 11 prisoners as they were being transferred from the police station to the jail, but the blue jackets drove them off.

On Wednesday, Cramer & Co. posted a notice offering to pay wood choppers $15 a month. This is the amount the strikers demanded. Then they sent a white flag to the governor and asked that their comrades in prison be only fined, and that they be paid $15 a month.

So far, the governor's answer has not been made public. H. M. S. Pelican has arrived and the Canada is expected.

Flinging Personalities.

DENVER, Dec. 19.—A resolution against compulsory arbitration was adopted by the American Federation of Labor without discussion. A resolution was submitted by Henry Weissman of New York, asking the convention to disapprove of the action of a number of New York unions in affiliating with and supporting the Central Labor Federation of New York. Delegate Morgan said: "There is war to the knife between Weissman and other leaders." Here he was called down by the chair. Delegate O'Sullivan of Boston said: "I enter my protest against the chair permitting that scurrilous whelp (pointing to Morgan) being permitted to attack delegates on this floor." The convention voted to extend sympathy and aid to Debs.

Funny Financiering.

ST. JOHN'S, N. F., Dec. 19.—The overdrafts made by firms, members of which are directors of the Commercial bank of Newfoundland, are, according to a revised statement, as follows: Duder, $951,000; Goodridge, $211,000; Goodfellow, $164,000; Job, $122,000, and Pitts, $300. The total amount of overdrafts is $1,941,000. The legislature has appointed a committee from both houses to investigate the banks.

Inspector Got the Lion's Share.

NEW YORK, Dec. 19.—Sergeant Taylor testified before the Lexow committee yesterday that while he was acting captain in Schmittberger's precinct, he had collected $200 from the steamboat squad. Of this, he said, he paid 80 per cent to Inspector Steers, keeping only 20 per cent. He did this, he said, on Steers' orders.

Train's Deadly Work.

BRIDGEPORT, Conn., Dec. 19.—A train struck a wagon containing three men at Sterling street crossing last night. The wagon was demolished and the horse was killed. Jacob Weiss was hurt internally and will die. Louis Gross had his skull fractured and will also die. The third man was slightly hurt.

Portland Cadets' Anniversary.

PORTLAND, Me., Dec. 19.—The Portland Cadets will celebrate their anniversary by visiting Bath and holding a banquet. Governor Cleaves and staff, some military officials and many people from this city will accompany the Cadets on the occasion.

Turkish Outrages Denounced.

NEW YORK, Dec. 19.—At a general mass meeting in Chickering hall last evening resolutions were adopted denouncing the Turkish massacre of Armenians and appealing for government aid to prevent the recurrence of such outrages.

Won't Acknowledge Guilt.

WASHINGTON, Dec. 19.—Henry Howgate pleaded not guilty to seven indictments brought against him for embezzlement while disbursing clerk of the signal service when arraigned yesterday.

Meriden's Election.

MERIDEN, Conn., Dec. 19.—The Republicans carried the city election. L. E. Coe beat L. L. Sawyer for mayor. The Republicans got 13 out of 15 members of the city council.

HYPNOTIC INFLUENCES

Hinted at In Connection With Hayward's Alleged Influence Over Blixt.

MINNEAPOLIS, Dec. 19.—W. W. Hayward, Harry's father, declares that both his sons will be cleared, that Blixt is confessedly a notorious liar and that his various confessions will have no weight. He added that the evidence was that Blixt was in the power of a gang and committed the crime under their dictation, with the understanding that, if discovered, it should be ascribed to Harry Hayward. Mr. Hayward refused to account for the behavior of Adrian, the elder brother, saying it would be explained later.

Mrs. Clause A. Blixt yesterday made a long statement to R. R. Odell, her husband's attorney, the purport of which was that she had long known of the immense influence exerted over her husband by Harry Hayward. She tried in vain to counteract it. Blixt said several times that Hayward would be the death of him, and that he dared not disobey him.

Just before the crime, Blixt went around like a man in a dream. It was hard to attract his attention, and his memory became defective. Hayward impressed on Blixt what he had to do many times a day, and kept the idea of the crime constantly before him, according to the wife's statement.

The evidence is to be used in connection with that of Blixt's father and brother, to show that the man was of a temper most susceptible to any influence that approached the hypnotic.

Murder Case at Newport.

NEWPORT, R. I., Dec. 19.—Daniel Hunter, who was so savagely wounded by a weapon which the police have as yet been unable to find, died yesterday. William C. Anthony, who had already been arrested on the charge of assault with a dangerous weapon, and was out on bail, was again taken into custody, and later pleaded not guilty to the charge of murder. The other charge was discontinued. Anthony was admitted to bail, his brothers giving security in the sum of $20,000 for his appearance on Friday. Self-defense is the probable claim to be set up.

Complete Recantation.

NEW YORK, Dec. 19.—The Times says: Rev. Edward McGlynn has made a complete recantation. He is no longer an apostle of the doctrines for preaching which he brought on himself the ban of excommunication from the Roman Catholic church. His penitential season, which began Dec. 23, 1892, is now over, and Archbishop Corrigan will soon put him in charge of a parish.

Incident Probably Closed.

WASHINGTON, Dec. 19.—The president has taken no fresh action in the matter of sending Consul Jewett to investigate the Armenian outrages since his last report to congress. The matter remains in exactly the same state as it was when the porte refused to allow Mr. Jewett to accompany the commission on the terms offered by the president.

Young but Wicked.

BOSTON, Dec. 19.—Three express thieves, named William Devine, 18; Michael Lynch, 18, and Michael McNierney, 17, were sentenced last night. Devine was given two years' hard labor in the house of correction, and Lynch and McNierney were sent to the Massachusetts reformatory until of age.

Fighting In Honduras.

NEW YORK, Dec. 19.—A special cable to The World from Kingston, Jam., says: Troops have gone to Belize, British Honduras, to suppress riots resulting from the imposition of English currency on the inhabitants. A state of anarchy prevails, and there has been some blood shed.

DID YOU EVER

hear tell of a purchaser wanting to buy an imitation? Why do men who try to sell such articles speak of the act as "working them off?" Simply because people want the best, and it takes work and likewise deception to sell them the worst. This unpleasant experience may befall the housekeeper who determines to

BADGER—CAMPBELL.

The Enterprising Secretary of the Granite Manufacturers' Association Weds.

Miss Mirtella C. Campbell and Mr. Fred L Badger were united in marriage Tuesday evening at the residence of the bride's father, Mr. Hiram W. Campbell, the Rev. E. W. Virgin of the Methodist church officiating. Only the immediate relatives of the happy couple were in attendance.

Mr. Campbell, a brother of the bride, and Miss Maggie Badger, attended the couple, and there was also a little flower girl, Miss Lowe.

The presents were many and beautiful. Ice cream and cake were served, and all went merry, the climax being reached when Mr. and Mrs. Badger departed in a carriage for Boston amid a shower of rice.

Miss Campbell was one of West Quincy's most popular young ladies, and Mr. Badger one of the most progressive young men of the city. In addition to the office business of the enterprising firm of Badger Bros., granite manufacturers and machinists, he has been secretary of the New England Granite Manufacturers' Association, and is today the secretary of the Quincy Association. May prosperity attend Mr. and Mrs. Badger.

Junior Henchman,—Joseph B. Brown.
Senshall,—James Rose.
Warder,—John Birnie.
Sentinel,—Robert Smith.
Examining Physician,—Dr. McLennan.
Trustee for three years,—John Russell.
Auditor for three years,—William T. Cumming.
Standard Bearer,—Alexander Souden.

Art Exhibition

That there is no lack of interest in art matters at Wollaston was strikingly evinced on Tuesday afternoon and evening at Miss Fairbank's first public exhibition of water colors, India ink sketches and China decorations. The house was thronged with interested visitors during the hours set apart for the view.

Miss Fairbanks was assisted by her mother, Mrs. Henry O. Fairbanks, and also by Mrs. William P. Chase, Jr. The chocolate was poured by Miss Wilcutt of Ashmont and Miss Hall of Wollaston.

The exhibition will be concluded this evening.

—Fall River, one of the poorest and most poverty stricken cities in the state, went strong for license at its recent election. It has a large foreign element, work has been scarce and wages low for the past year, and charity has had to do its utmost to keep the poor from suffering. And yet, in the face of this, these miserable, half-fed, poorly housed people vote for rum and beer, and support two or three hundred saloons and beer shops. Thousands and thousands of dollars will go for drink that ought to be spent for bread, meat, shoes and clothing. —*Norwood Review.*

BASS RENOMINATED.

He Will be President of Council for Third Year.

CHOICE IS MADE UNANIMOUS.

Hall for Auditor, Spear for Clerk and Tirrell for Messenger Renominated.

Fourteen of the sixteen Republican members of the next City Council met in caucus Tuesday evening to nominate candidates for the several offices to be filled by that body when it organizes in January. The two absent members were Messrs. Phillips and Sidelinger, both of Ward Two.

Mr. Shackley was elected chairman of the caucus and Mr. Pinkham, secretary.

Mr. Johnson thought the caucus should consider whether it should act until all members were present.

Mr. Bass said he had sent all members a notice of the caucus.

Mr. Rinn thought every member should be present before action was taken.

Mr. Bryant said a dozen meetings might be held before they got all members present. He moved that Mr. Bass be nominated as candidate for President by acclamation.

Mr. Rinn objected.

Mr. Grindell moved the caucus proceed to vote to see if it should proceed with business.

The motion was seconded by Mr. Nickerson, but was voted down.

Mr. Johnson thought we should consider this matter carefully. There was no haste.

Mr. Bryant renewed his motion.

Mr. Nickerson thought it unwise to postpone action. There was no proof that there would be more present at another meeting.

Mr. Pinkham thought it foolish to decide in this way. He thought an informal ballot the proper thing.

Mr. Bryant thought the members ought to be willing to stand up and show their hands.

Mr. Sprague moved as a substitute that an informal ballot be taken, which prevailed.

Messrs. Sprague and Spear were appointed as tellers.

At this point Mr. Johnson said his name had been mentioned as a candidate, but while thanking the gentlemen he wished to withdraw his name as a candidate for the office of President.

The result of the informal ballot was as follows:

Whole number of votes	14
Necessary for choice	8
E. W. H. Bass had	7
Charles H. Johnson "	3
John P. Bigelow "	3
Edgar F. Hayden "	1

A formal ballot was then taken which resulted as follows:

Whole number of votes	14
Necessary for choice	8
E. W. H. Bass had	8
Charles H. Johnson "	3
John P. Bigelow "	3

Mr. Bass was declared the nominee.

The Secretary was instructed to wait upon Mr. Hall to see if he would accept the office of City Auditor.

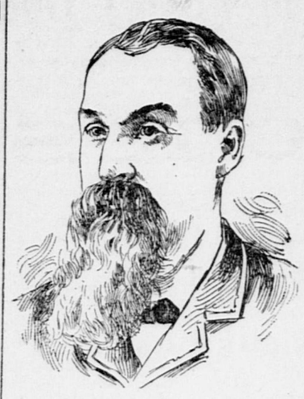

Receiving an affirmative reply, a ballot was taken which resulted as follows:

Whole number of votes	14
Necessary for choice	8
John O. Hall	12
Roger H. Wilde	1
Blanks	1

Mr. Hall was declared to be the choice.

The secretary was instructed to cast one ballot for Christopher A. Spear as Clerk of Council and Clerk of Committees.

Upon the ballot for City Messenger, Harry W. Tirrell the present incumbent received the full vote of the caucus.

Mr. Bass thanked the gentlemen for the honor conferred upon him and hoped to merit the good opinion of the new as well as the old members.

Upon motion of Mr. Rinn the nomination of Mr. Bass for President was made unanimous.

Mr. Bryant hoped there would be more meetings of this kind during the coming year. When important questions came up they could be fought out in meetings of this kind rather than in the Council chamber, and see to it that the orders of the Council are carried out by the Mayor or impeach him.

Mr. Bryant also criticised the action of the Mayor in the matter of building the Hose house in Ward Two contrary to the order of the Council, and the Auditor for approving the bills. He should have refused to do so, and reported back to the Council.

The caucus then adjourned.

Tribute to Sylvester Brown.

The Unitarian Sunday School Union met Monday evening at the Church of the Disciples, Vice President Charles H. Porter presiding.

After the routine business Mr. Porter feelingly alluded to the death of the president, Sylvester Brown, killed by an accident at Wollaston, Nov. 30. Rev. E. A. Horton read a set of resolutions outlining the upright character of the deceased, and expressing the sympathy of the union with the bereaved widow.

Mr. Frank A. Page from the Wollaston Sunday School and church, spoke of intimate social relations with the deceased, and of how he inspired the best work in the Sunday School and cheered every one by his happy disposition.

Mrs. John H. Litchfield of Wollaston also spoke on "Teachers and their Duties."

I. O. O. F. Officers.

Mt. Wollaston lodge, No. 80, I. O. O. F., elected the following officers Tuesday evening:

N. G.,—Alex. Shirley.
V. G.,—T. W. Good.
Secretary,—Franklin Jacobs.
P. S.,—A. W. Stetson.
T.,—C. F. Pettengill.
Trustee for three years,—W. J. Williams.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

TRIBUTE TO A FRIEND.

Thoughts Suggested to a Prominent Citizen on Death of Mr. Patrick McGrath.

As our friend passes from our sight, it may not be unseemly to give a parting word of farewell, to one of the noblest, purest and truest of men.

Oblivion shrouds us all so quickly when the hour of life is past, that we can only say Good-bye and then, we too, are lost.

He, who was almost, the incarnation of that exalted spirit, that preserves the race and keeps it from mercenary *rot*, has spoken to us for the last time, and we live on, under the influence of the principles he instilled and the recollection of the simple earnest life he hallowed. Broad and tolerant, bright and cheerful, free from envy and vanity, keen and observing, better than most men recognizing the "fitness of things" with a happy optimism, he was always so gladly welcomed.

No better wish can any one make, than that he or his may grow into the likeness of this man our friend Patrick McGrath.

IT IS NOTHING BUT MEDICINE.

It is wholly medicine, **all** medicine.

Here's the Formula:

Trifolium . . Red and White Clover
Taraxcum . . . . . Dandelion
Barosma . . . . . Buchu
Gentiana Lutea . . . . . Gentian
Podophylium . . . . May Apple
Rumex Crispus . . . Yellow Dock
Apocynum Andros and Mifolium } . . Bitter Root.

The combination is named

Clover Blossom Billers

Nature has provided the ingredients; the combination is the result of the medical knowledge of over twelve centuries in all countries in the world. Not witchcraft, nor chance, quackery, or theory, but an absolutely standard medical preparation that is **all** medicine. Acts directly upon the seat of the disease, because it's made that way, and therefore starts right. The result of starting right is that it works quicker, surer, and with unfailing accuracy, and drives all symptoms of disease before its action, curing completely. Therefore it will cure you.

ISSUE OF COIN NOTES

Bland's Latest Scheme For Helping the Treasury—and Silver.

CLOTURE, NICARAGUA AND SUGAR

The Topics Which Occupied Senators' Attention.

WASHINGTON, Dec. 19.—Representative Bland will move to strike out the enacting clause in the Carlisle currency bill, now before the house of representatives, and substitute therefor a measure he has prepared for a currency system based on coin and coin notes.

Mr. Bland's plan does not interfere with the existing national bank system, but instead of allowing banks to issue notes, as the Carlisle plan proposed, Mr. Bland proposes that the government issue the notes, calling them coin notes. These are to be redeemed in gold and silver coin, and the government is to coin both metals.

The Bland measure would have been offered as a substitute for the pending bill, but as Mr. Walker of Massachusetts has given notice of presenting a substitute embodying the Republican view of the subject, Mr. Bland's plan will be offered in connection with a motion to strike out all after the enacting clause.

The Bland bill provides for the free coinage of silver and for the deposit of gold and silver bullion and the issuance of legal tender notes upon it. The bullion is to be subsequently coined and the coin notes are to be redeemed in gold or silver without discrimination, as may be most advantageous to the government. Provision is also made for issuing coin notes on standard silver coin. All the outstanding gold and silver certificates are to be retired and coin notes are to be substituted therefor.

Provision is also made for the redemption of outstanding greenbacks and treasury notes in gold and silver coin without discrimination. An emergency fund is created so that, in case of panic or money stringency, the secretary of the treasury may, on deposit of United States interest bearing bonds, issue to depositors of the bonds coin notes. Interest on such bonds is to go to the government while they are on deposit, and, should they mature while on deposit, they are to be cancelled.

Debate Was Dull.

The debate on the Carlisle currency bill begun in the house yesterday, but the opening of the debate was a disappointment. It lacked both spirit and interest and was devoid of sensational features.

Mr. Springer, the chairman of the banking and currency committee, who made the first speech in support of the measure, gave a plain statement of its objects, its details, and gave a review of the arguments in its favor on the lines of those contained in the report.

Mr. Walker, the leader of the minority of the committee, devoted most of his time to an elaboration of his own bill. He was incisive, emphatic and aggressive, and the house gave him close attention.

An effort to agree upon the limitations of the debate failed, and it will probably be allowed to run on for the remainder of the week without a vote. After the holidays the committee on rules will, unless the measure loses caste in the meantime, bring in a rule to close debate and force a vote.

Mr. Dolph reported adversely on the house general land grant forfeiture bill.

Mr. Lodge introduced a resolution calling on the president for the correspondence in the extradition case of General Ezeta, and asked for its present consideration, but Mr. Gray (Dem.) objected.

The house committee on military affairs agreed to a favorable report on the bill establishing a national military park at Gettysburg, Pa., and appropriating $100,000 therefor.

Hill Pleads For Cloture.

Another resolution providing for union with Canada made its appearance in the senate, having been introduced by Mr. Gallinger, who stated that he would do everything in his power at any time to further the consummation of such union.

Senator Hill delivered a speech on his proposition for a rule to close debate, which was listened to with close attention by many of the senators. Mr. Hill said: "It is an open secret, or at least it is largely believed, that during the recent tariff debate many concessions were made and amendments accepted to the bill for the very purpose of averting interminable debate, which was threatened or proposed by some of the minority.

"However this may have been, it may be safely asserted that the tariff bill, as finally perfected, would have been materially different in many particulars had there existed in our rules some appropriate provision whereby a majority could have fixed an early date for a final vote thereon."

The senator also argued in favor of counting a quorum, and closed by declaring that no silly cry of "gag law" should prevent amendment to the rules.

The Nicaragua Canal.

There was some discussion of the change of rules by Senators Hoar and Aldrich, but at 2 o'clock the Nicaragua canal bill was taken up. Mr. Turpie continued his speech in denunciation of the bill, declaring that it appeared to him to have every indication of a gorgeous bubble.

In beginning his speech, Senator Turpie introduced several amendments to the pending bill, the most important of which was the following: "No part of the contract for said work shall be let to the Nicaragua Construction company, nor to any other corporation associated with or allied to or legally succeeding the said Nicaragua Canal Construction company. Contracts on said work shall be let only by the Maritime Canal company of Nicaragua, and shall be settled and paid for only by the officers of said company, subject only to such prior inspection of the said work in sections as completed as congress may hereafter provide, and subject to the previous approval of the secretary of war."

An urgent deficiency bill, appropriating $100,000 for public printing and binding, was passed.

Sugar Again.

Senator Vest was engaged the greater part of the day in trying to find an opening for the revival of his effort to get up the bill striking out the differential duty on refined sugar. He is not satisfied with the adverse result of his former trial, and is now quoted as saying that he wants another opportunity to test the pleasure of the senate on this proposition. The outlook for an early move in this direction is not very good.

AGAINST BELL COMPANY.

Judge Carpenter Orders the Surrender of the Berliner Patent.

BOSTON, Dec. 19.—The Bell Telephone company's monopoly of the telephonic business of the country will be most seriously affected by Judge Carpenter's decision in the United States court yesterday, declaring the company's patent void, and ordering that it be surrendered and cancelled.

The verdict is given in favor of the people of the United States in their suit against the American Bell Telephone company.

The Berliner patent was the subject at issue. This was to run 17 years, until November, 1908, holding out of competition until that time any other companies which might seek to enter the field to compete in furnishing the people with telephonic service at lower rates.

The government counsel sought to annul the patent upon three grounds; first, because, as they allege, the original application did not describe the invention sufficiently; secondly, because the patent is anticipated by a prior patent, granted to Berliner himself in 1881, in which the microphone is claimed in combination with a receiver.

The third and main ground is the delay in the issue of the patent, which, though applied for June 4, 1877, was not granted till Nov. 17, 1891, a period of 14 years.

The contention of the government has been that the Bell people intentionally delayed the issue of the patent that they might prolong their monopoly of the telephone in the manner already indicated.

The case was argued June 14, 15, 16, 18, 19 and 20 before Judge Carpenter. The costs in the case are enormous; the record alone takes two large printed volumes and cost over $3000. By the court's decree the costs are to fall on the telephone company. An appeal will undoubtedly be taken.

SOUTHERN "COURTESY"

Illustrated In a Little Incident In South Carolina's Legislature.

COLUMBIA, S. C., Dec. 19.—In the house of representatives yesterday Mr. Magill introduced a concurrent resolution reciting that President Cleveland was in the state, and that as a courtesy to the chief magistrate of the country he be invited to visit the legislature and be accorded the privileges of the floor.

As soon as the resolution had been read, several members objected to its consideration, and J. T. Duncan moved that it be laid on the table, as the legislature "should not honor a man for whom it had so little respect."

Seeing that a debate might be precipitated, efforts were made by the more conservative members to get Magill to withdraw the resolution. He refused, and others thought that it would be as much an insult to withdraw it as to reject it. At last Speaker Jones hurriedly put the question to a vote, and it went through without a dissenting voice. The speaker announced that it had been "unanimously agreed to."

When the resolution was presented in the senate there was no debate, but, when the motion to adopt was put, it was carried, two senators dissenting without expressing their reasons therefor.

Unpopular School Officials.

ANSONIA, Conn., Dec. 19.—The board of education are constantly receiving letters against the action in abolishing religious exercises in city schools. One from Boston advises that a prescription be administered to the board combining a portion of American marrow with red pepper. Another from the same city declares that the board is without a drop of American blood. Local Protestant clergymen condemn the board's action from pulpits. There is but one Catholic on the board of nine members.

Old Sound Captain Dead.

NEW LONDON, Conn., Dec. 19.—Captain Samuel Geer, aged 80, died at his home in Groton yesterday. He was the oldest steamboat captain living. He formerly ran steamboats which plied Long Island Sound. He leaves three sons, all steamboat men.

Close of Christian Workers' Session.

PORTLAND, Me., Dec. 19.—The last day's session of the Christian Workers was the best attended and most interesting of the series. Rev. E. F. Lewis and others read interesting papers. The evening session was addressed by prominent clergymen.

Still Lower.

WASHINGTON, Dec. 19.—The gold reserve was further reduced yesterday by the withdrawal at New York of $1,800,000, which leaves the true amount of the reserve at the close of business $91,554,909. The cash balance was $155,048,459.

Will Fill a Pulpit Abroad.

SPRINGFIELD, Mass., Dec. 19. — Rev. Douglass P. Bernie, pastor of the Congregational at Alstone, has accepted a call to a church at Honolulu. The church has a membership of 800 and a building costing about $150,000.

Should Be Cleaned Up.

NEW YORK, Dec. 19.—The president of the board of health has received another batch of reports on the Trinity corporation tenements. Their condition is described as generally bad.

PORT ARTHUR'S FALL

Must Be Satisfactorily Accounted For by Chinese Generals.

MURDER AND PILLAGE BY JAPS

Provoked by the Persistent Atrocities of the Chinese.

SHANGHAI, Dec. 19.—An imperial decree has been issued ordering Li Hung Chang to arrest Kung, the taotai of Port Arthur, and the four Chinese generals who were in command at Port Arthur, and to send them to Pekin for trial and punishment for the loss of that important dockyard and fortress.

Admiral Ting, who was in command at the disastrous naval engagement of the Yalu river, has been arrested for failing to defend the dockyard of Port Arthur against the Japanese forces.

The Chinese government has heard of the Japanese excesses at Port Arthur, and a strict inquiry is now proceeding. Some of the Japanese officers are now being tried by court-martial for not restraining their men after the capture of Port Arthur.

Most of the foreign correspondents declare that the excesses were excusable by parallel cases which have occurred in the best European armies.

The officials of Port Arthur report that the Japanese have made stringent resolutions for the protection of the inhabitants of that place, who are now said to be returning. Many of them are receiving food from the Japanese.

The Port Arthur Atrocities.

A Che-Foo dispatch on Nov. 28 announced that Chinese fugitives declared that the Japanese sacked Port Arthur, shooting every one, old and young, and that pillage and murder were supreme for three days. The dead, they asserted, were barbarously mutilated, their hands, noses and ears being chopped off and other atrocities committed.

No resistance, it was added, was offered by the people; but the Japanese soldiers scoured the country for days, killing all the Chinese they could find. All the streets of Port Arthur, the fugitives further declared, and the harbor, were filled with dead bodies.

These reports of the Japanese atrocities at Port Arthur were, on the following day, confirmed from various sources. But, it was stated, they were provoked by the persistent atrocities of the Chinese.

Changes In Japan's Army.

No news respecting the movements of the first Japanese army in Manchuria has been received this month, and the announcement of a sudden change of commanders opens a new field of speculation as to its future operations.

General Yamagata has resigned, and is succeeded by General Nezu, whose promotion from the grade of lieutenant general is understood to be an appropriate reward for his successful management of the Ping-Yang campaign. General Yamagata's retirement is said to be caused by sickness.

The winter cold is already severely felt in Manchuria. At Hong Kong the temperature averages 5 degrees below zero. The Yalu river is frozen over, and can be crossed on horseback near Moukden.

Figuring on the Future.

Orders have been issued by the Japanese marine authorities that the Chinese ships of war are not to be molested hereafter, except under circumstances of absolute necessity, as they are expected presently to form a part of the Japanese navy. To these instructions the immunity of the Chen-Yuen from attack may be perhaps attributed, as that vessel is now lying beached at Wei-Hai-Wei, in a position which might be reached without much difficulty by the Japanese long-range guns, but is thus far unmolested.

The attitude of the Li family, the still powerful faction of which the viceroy is the center, is regarded with deep interest. The conviction is general that Li Hung Chang had a great opportunity before him two months ago, and that, if he had chosen to act with promptness and energy, the destiny of China would now be in his hands; but, as on a former occasion, he lost too much time in weighing chances and allowed his supporters to grow cold while he was making up his mind to strike a decisive blow.

The Peiho and Tung-Chow might have been his rubicon, but he would not cross it when he should have done so, at the head of forces sufficient to dominate the situation, and now he dares not venture beyond his official quarters in Tien-Tsin. Although several times summoned to the capital, he refuses to stir, evidently fearing the intrigues of his enemies, who are now in the ascendant at Pekin.

Pro and Con.

ROME, Dec. 19.—The Opposition papers declare that King Humbert is seriously exercised over the political situation, and several of the ministers contended that the government ought to resign. The government organs deny this and maintain that the ministers are in complete accord, and that Premier Crispi has not the remotest idea of resigning. They add that Sig. Crispi enjoys the complete confidence of the king.

Turks Take a Tumble.

TIFLIS, Dec. 19.—Advices from Moosh, Turkish Armenia, show that since the appointment of the commission to inquire into the outrages, Turkish oppression has greatly lessened. Many Armenians who had been arrested have been liberated. The Kurds have been held in check.

Not a Bad Idea.

VIENNA, Dec. 19.—It is reported that the sultan is contemplating inviting the signatory powers of the Berlin treaty to send delegates to Kurdistan for a period of five years, in order to superintend the introduction of reforms there.

Mr. Tupper's Duty.

PORTSMOUTH, Eng., Dec. 19.—Sir Charles Tupper, Canadian high commissioner, will escort the remains of the late Sir John Thompson to Canada.

Johnson Outdone.

COLUMBIA, Pa., Dec. 19.—John J. McLaughlin rode an unpaced mile, over the Ironville pike, in 1:21, flat, thus beating the record held by Johnson in 1:35 2-5.

Burglars Used Dynamite.

SALEM, N. J., Dec. 19.—The safe in the railroad station at Woolstown was blown open by dynamite by burglars. About $100 was secured.

Mayor Hodges asks all having bills against the city to present the same this month.

A meeting of Hancock Council, A. L. of H. tonight. Special business, election of officers.

The first death among the pupils of the Woodward Institute was that of Miss Joanna J. Sweeney who died Sunday.

The new '95 bicycle manufactured by the Quincy Cycle Co., will be known as the Quincy, and is a very handsome wheel.

Mr. Faxon says he has not given up trying to find out who furnished the beer at the municipal election and is now conducting a still hunt.

Mr. James O'Donovan, proprietor of the boot and shoe store in Tirrell's block, has the sympathy of the community in the loss of his wife who died last evening aged 43 years.

The disturbance of religious meetings still continues in Atlantic. Last Sunday evening a large light of glass was broken in a window of Memorial church during the service.

The Unity Club of Wollaston discussed "The Use and Abuse of Stimulants and Narcotics" at the regular meeting, which was held on Tuesday evening. Mr. H. W. Lull was the leader.

Howard Rogers, who was injured Monday, is still confined to his home. Although fortunately no bones were broken he was severely bruised and will be sore in places for some time.

D. E. Wadsworth & Co., have succeeded in purchasing another assortment of those famous art pictures which they gave away souvenir week. Owing to the number who wanted to purchase them, they have decided to sell them at 25 cents apiece.

Invitations are out for the marriage reception of Miss Harriet Woodbury, daughter of Mr. and Mrs. A. A. Lincoln, and Mr. Ralph Flynt Alvord of Newton, which will take place at the residence of the bride's parents Grand View avenue, Wollaston, on Tuesday evening, Jan. 1.

The funeral of Mrs. Ann Spear was held Tuesday afternoon from the residence of her daughter, Mrs. Abigail Newcomb on Hancock street, and was largely attended. Services were conducted by Rev. A. E. White, pastor of the Universalist church, and the interment was at Mt. Wollaston cemetery.

There has been considerable talk in Ward Three as to the possible candidates for Councilman to fill the vacancy. From the present appearances neither Mr. Falconer or Mr. Clark will receive the nomination by the Republicans but a new man will be selected. Among the names mentioned are W. H. Mitchell, J. C. Murray and James Copeland.

One of the most attractive show windows is that of T. L. Williams, the West Quincy jeweller. The window is prettily trimmed with crepe paper and in the centre their is a representation of the golden stairs. On each of the four posts of the stairs is a bright little electric and on the stairs and about the window are shown watches, etc., in abundance.

GOT INTO WET WATER.

The Experience of a Well Known Wollaston Gunner the Other Night.

A good story is going the rounds at Wollaston about a well known gunner of that place, and an experience he had a few nights ago while at Adams' beach after ducks.

He, we will call him Mr. Dennis to hide his identity, invited his neighbor, Mr. Blank to go down to the shooting stand and lay for ducks. Arriving there the guns were loaded when a stray bird was sighted off shore and slowly tolled in. When about 75 yards from the beach both gunners fired and toppled it over. The punt was run out and Mr. Dennis kindly offered to row out and get the bird. Mr. Blank did not object as it was an exceedingly cold night with a sharp northwest wind sweeping across the bay, Dennis went out and as he turned to row back, the boat capsized and threw him into the water. He struck bottom, and, as the icy water playfully caroted around his gold collar buttons, he struggled ashore.

Mr. Blank stood on the beach kindly lending moral assistance.

"How is it out there, said Blank, "is the water very wet?"

"W-w-w-w-water w-w-w-wet you old f-f-f-fool" sputtered the half frozen sportsman, "d-d-d-do I look as if I h-h-h-had been w-w-w-walking on it?" and the chatter of his teeth drowned the roar of the surf.

THE NEXT COUNCIL.

Number Three of a Series of Sketches of the Councilmen-Elect.

Herbert Stuart Barker is one of the new members and will represent the citizens of Ward Six in the Council of 1895. He is but little known in Quincy as a whole, although he is well and favorably known in his own ward, where he has resided for the past year and a half. He is a thorough Republican and has always supported its nominees ever since he became a voter.

Born in Boston, June 21, 1864, he received his education in the public schools of his native city from which he graduated with high honors. In 1878 he entered the employ of Messrs. Blacker & Shepard, the well known Albany street lumber dealers, of Boston, and still holds a responsible position in their employ. Desirous of a home in the suburbs he selected that part of Quincy known as Atlantic, and as noted above, he moved his family, consisting of wife and two children to his present residence Hancock street opposite Glover avenue. Mr. Barker is a thorough business man and will make a valuable member to our City Council.

Wollaston Bowling Club.

RIGHT NAME IS ELLIS.

Byron Coburn's Alleged Slayer Has Been Traveling Under an Alias.

BIDDEFORD, Me., Dec. 19.—Information has been received here to the effect that James Lewis, now under arrest for the alleged murder of Byron D. Coburn of Gorham, is James P. Ellis, who worked as a farmhand in Buxton and North Saco, and who, while in South America, dropped the name of Ellis, assuming that of Lewis.

Ellis came to Buxton about 14 years ago, being about 16 years old. He worked with Jonathan Lewis for several years, and then entered the employ of John Milliken, a farmer of North Saco. He left this place about six years ago to go to South America. About four years afterward a letter was received by his former employer, saying he owned a ranch and was prospering finely.

Last July he appeared at the home of Mr. Lewis in Buxton, and stated that he had dropped his own name and was now known as James Lewis. He refused to tell why he had changed his name, but said he had good reasons for so doing. The next day he disappeared, and nothing more was heard from him till his arrest at Gorham. While in Buxton he never told where he was born, or where he had lived before coming to that town. He was a great student of languages, taking special interest in Spanish.

Another Cashier Goes Wrong.

ROME, N. Y., Dec. 19.—John E. Bielby, the trusted cashier of the Central National bank, is a defaulter in the sum of $27,000. Bielby admits that he had taken about $27,000, and says that he speculated in stocks, was caught in a downward market, and took the bank funds to recover himself. Sam Gillett, the teller of the bank, who is also mayor of Rome, disappeared Monday evening. Bielby, however, says no one is at fault besides himself. The stability of the bank will not be impaired.

Wreck Stalled Trains.

PAWTUCKET, R. I., Dec. 19.—A wreck occurred last night at Central Falls. What is termed the "Dolly Varden" of a freight engine broke and dropped under the forward trucks of the first car. The obstruction threw the car from the track, and in its travel tore up sleeper, rails and the roadbed in general for quite a distance. It stalled trains for a length of two miles. No one was injured.

A Conditional Compliance.

MONTREAL, Dec. 19.—The application made by certain American citizens for permission to erect a monument to General Montgomery, the American invader, who fell in his attempt to capture the city in 1775, is granted on the condition that the choice of the site, the plans of the monument, and, above all, the inscription, be submitted to the approval of the council.

Hosiery Mills Idle.

PROVIDENCE, Dec. 19.—There is danger of a long lockout at the mills of the British Hosiery company at Thornton. The operatives received notice that it would be impossible for the company to continue the present rate of wages, owing to foreign competition. The operatives voted not to accept less wages, and Manager Cooper ordered the mills closed.

Will Protect Themselves.

NASHUA, N. H., Dec. 19.—The directors of the Indian Head National bank, when asked if they would take steps to take possession of the property used by the Boston woman whom McKean has been supporting, replied that they would take steps to protect themselves in any way they could, and would secure all property that belonged to McKean.

Charges Piling Up.

WASHINGTON, Dec. 19. — Additional charges are made against C. P. Taylor, recorder of deeds for the District of Columbia, alleging that he offered to enter an agreement to make clerical appointments in his office and pay money to Calvin Chase, editor of a negro journal, to cease the publication of attacks on him.

Opened Under Favorable Auspices.

BANGOR, Me., Dec. 19.—The 21st annual meeting of the Maine state grange opened with 457 delegates present. The reports show that 800 members have been added during the year. The meeting will discuss mutual insurance of farm buildings and co-operative stores, besides the other topics of interest to farmers.

Charged With Fraud.

NEW YORK, Dec. 19.—W. E. Midgely, president of the American Casualty and Insurance company, charged with having fraudulently caused the sum of $21,000 of the insurance company to be transferred to the accounts of the American Steam Boiler company, has had his case postponed until tomorrow.

Not a Paying Affair.

PHILADELPHIA, Dec. 19.—The six days' bicycle race has disappointed expectations, and the indications are that it is likely to end at any moment. Ashinger is steadily rolling up the miles, with Forster and Gannon in his wake. The receipts are away below the paying basis.

Made a Big Haul.

BOSTON, Dec. 19.—Chairman Martin of the police commission, a deputy superintendent, two captains and a dozen police officers descended on an alleged policy resort at 5 Warrenton place last night and arrested 29 persons. Several loads of stuff were confiscated.

A Bad Boy's Escapade.

PORTLAND, Me., Dec. 19.—A boy named Asa Archibald entered the smoking car of a Pullman yesterday and stole two overcoats. He was arrested after a hard chase, and when caught destroyed $1000 worth of papers found in the coats.

Robbers' Victim.

KINGSTON, N. Y., Dec. 19.—Dr. H. A. Starkey was shot near here last night by burglars. About 18 months ago Dr. Starkey was shot and sandbagged in Chicago and left for dead. He will probably recover from his wound.

Not Guilty.

BOSTON, Dec. 19.—The board of police commissioners last night handed down their decision on the cases of Patrolmen Ryan and Smith, charged with receiving bribes. The board finds them not guilty.

A $5000 Fine Imposed.

DUBUQUE, Ia., Dec. 19.—Dr. Kissel, the pension swindler, pleaded guilty. He was fined $5000.

—Way up in one of the most inaccessible portions of the Huachuca range of mountains, near Prescott, Arisona, there is situated, perhaps, the most curious mining camp in the world. The Sixteen men who daily toil in the General Booth mine are all members of the Salvation Army, and the profits of the mine all go into the treasury of that organization.

Editorial Comment.

IT IS probable that North Adams, the largest town in the commonwealth, will petition the next Legislature for a city charter. It has long had the requisite population, having now about 18,000. Norfolk county will then have the largest town—Brookline, with Hyde Park and Weymouth in line. Clinton and Peabody were the only others with 10,000 in 1890.

DEDHAM DESIRES to enter the metropolitan sewer district, and will act upon the matter at a special town meeting Dec. 31. Why should not Quincy take similar action?

INSTALLED IN MAINE.

A Quincy Man Becomes Pastor of Church at Wells Depot.

An Ecclesiastical Council was convened at Wells Depot, Maine, Dec. 13, to consider the advisability of ordaining Mr. William Clements of South Quincy, pastor elect, to the work of the Gospel ministry. A number of churches were represented at the Council, that of Quincy by Rev. Nathan Hunt, pastor of the candidate.

After a thorough examination the council voted itself satisfied with the statements of the candidate and recommended to proceed with the ordination, which took place at the afternoon session, Rev. Nathan Hunt preaching the sermon.

The occasion was one of very great interest, and it is hoped that a large blessing will attend the labors of our former townsman in his new field of labor at Wells Depot.

A Pretty Calendar.

"The Children of the Year" is the title of a calendar for 1895, in which every month in the year is supplied with an illuminated page, expressive of the meaning of the season, and showing how the little folks may amuse themselves at that time in the year. The pictures are exquisitely printed in Bavaria, and make it one of the most delicate and delightful calendars which has reached us this season. It is supplemented by another calendar for the four seasons, which is very delicately gotten up, and is intended to be hung in one's chamber as a series of wall pockets. The calendar faces are illuminated with pictures of flowers and birds, and it is a beautiful and brilliant exhibition of the new year. E. P. Dutton & Co., New York.

A Substantial Christmas Gift.

In another column Mason & Hamlin advertise one of the handsomest organs which has yet been put upon the market. The instrument is in every respect a perfect beauty, and will prove a great ornament to any house. No Christmas gift could be more acceptable than such an organ. Write to Mason & Hamlin, Boston Mass., and they will send you their fully illustrated catalogue free. lp1w

CHRISTMAS MUSIC.

Programmes for Two Churches Today—More Tomorrow.

Music is always a feature for Christmas Sunday in the churches, and the DAILY LEDGER hopes to receive promptly the programmes. Three are given today and others will follow:

At the Unitarian chuch special music will be given by a quartette choir. In the afternoon at four o'clock, a Christmas vesper service will be held. The music for the day includes:

"Sing and Rejoice," Barnby
"Hark what news the Angels Bring," Oliver King
"Hark the Glad Sound," E. V. Hall
"O Zion that Bringest Good Tidings," Stainer
"Like Silver Lamps," Barnby
"The City's Hum was Hushed and Still," Fay
"Nazareth," Gounod
"Before the Heavens were Spread Abroad," Horatio Parker

At the Christmas services at the Wollaston Unitarian church, Sunday morning at 10.45 o'clock, the order of services will be:

Voluntary, Mrs. Alma Faunce Smith
Invocation.
Anthem—By the choir, Sing and rejoice. Joseph Barnby
Responsive service—Pastor to Congregation
Anthem—By choir, O Holy Night. By Adams, arr. by Dudley Buck
Reading Scripture—Pastor.
Prayer.
Christmas Lullaby—Choir. Carl Pflueger
Hymn by Choir to Congregation.
Notices.
Sermon—By Pastor.
Christmas offering.
Anthem—By Choir, The Birthday of a King W. H. Neidlinger
Hymn—Congregation.
Benediction.

Christmas at Atlantic

Memorial Congregational church, Sunday morning, service 10.45. Dec. 23.

Organ Voluntary—Mrs. C. L. Coe.
Anthem—Choir, "O Merry Chiming Xmas Bells." A. F. Loud
Baritone Solo—"Birthday of a King." Neidlinger
Mr. Hersome.
Offertory in Bb.
Soprano Solo—Mrs. Cummings
Tenor Solo—Mr. Owen.
Anthem—Choir. "While Shepherds Watched Their Flocks by Night." Klein

The morning sermon will be delivered by Mr. Charles F. Merrick.

Sunday evening at 6.30.

Chrismastide Vespers.
Contralto Solo—"The Gift," Behrend
Mrs. Carver.
Tenor Solo—Mr. Hersom.
Special exercises by the children of the Sunday school.

THE NEXT COUNCIL.

Number Four of a Series of Sketches of the Councilmen-Elect.

For a second time Charles H. Grindell will represent Ward Three in the Council of 1895, his first term of service being in 1893, when he served on the Committees

of Fire Department and Police, and Sewers and Drains. He was born in Penobscot, Maine, in 1839 and was educated in the public schools of that place. In 1870 he located in Fitchburg remaining there several years, coming to Quincy in 1880, where he has since resided and worked at his trade, that of a stone blacksmith. He is well and favorably known in labor circles and has been a member of the Ward Three Republican Committee for several years.

DIED

HUFF—In Braintree, Dec. 18, Mr. Joseph Huff, aged 84 years
MAY—In Atlantic, Dec. 19, Mrs. Elizabeth K., wife of Mr. Ethelred May, aged 63 years and 11 months.

HIGH SCHOOL PUPILS.

Ought They to be Self Governed—Pupils Debate the Question.

President Northcott called the meeting of the Quincy High School Debating Society to order on Wednesday. Mr. Winlock, the secretary, presented his report, which was accepted.

Under unfinished business the results of the election were announced:

President,—No choice.
Vice President,—Miss Mary Pitts, '96.
Treasurer,—Miss Lowe, '95.

The society then took another ballot for president. Mr. Warshaw was elected and took the chair.

Miss Vogler made up her debate. The Board of Decision on last week's debate then retired. Miss Willett, the critic, presented her report which was duly accepted.

The entertainment consisted of these selections:

Recitation, — Miss Thomas, '95; a pathetic selection founded on an incident in our civil war.

Recitation,—Miss Vogler, '95; a fine patriotic selection, "The Revolutionary Rising in the North." Enunciation, pronunciation, and sympathy with the poem, excellent.

Essay, "Westminister Abbey," — Miss Jones, '95; particularly interesting, as Miss Jones has visited the Abbey; a well written and entertaining essay.

Recitation,—Mary Sampson, '95; a well rendered prose selection.

Recitation,—"The Smack In School" Miss Pierce, '95; given in a very spirited and realistic way.

The debate was: Resolved—"That High School Pupils Ought to be Self Governed,"

"The affirmative side of the question was upheld by: Miss Butler, Miss Dunham, Miss Edwards.

Those to speak in the negative were: Miss Cummings, Miss Emery, Miss Annie Healy, Miss C. E. Healy.

When the debate was opened to the society, Miss Dunham and Miss C. E. Healy spoke.

The critic, Miss Lowe, gave an excellent report. The Board of Decision decided in favor of the negative.

"Prose and Poetry" were so ably defended by their respective admirers that the Board of Decision, in the absence of a fifth member, was unable to give either side the victory.

—Fall River, one of the poorest and most poverty stricken cities in the state, went strong for license at its recent election. It has a large foreign element, work has been scarce and wages low for the past year, and charity has had to do its utmost to keep the poor from suffering. And yet, in the face of this, these miserable, half-fed, poorly housed people vote for rum and beer, and support two or three hundred saloons and beer shops. Thousands and thousands of dollars will go for drink that ought to be spent for bread, meat, shoes and clothing. —*Norwood Review.*

REV. ROBERT W. PEACH

Installation Ode Written for the Services of Friday Evening Dec. 21, 1894.

Editors of the Daily Ledger

The standard-bearer call.:
The King is in command;
Then let the people all
Be eager to withstand
The gathered hosts of hell and sin,
Determined victory to win.

The red-cross banner wave—
The banner of the free;
The Crucified can save:
Opposing armies flee;
His soldiers everywhere prevail,
Whose power endures and cannot fail.

The right, the true, the good,
Be ever kept in view;
For these resist to blood;
Each day your strength renew;
Upon us is the Captain's eye,
And He is Lord of earth and sky.

Go, standard bearer, thou
Shall waver not, nor fear;
Thy band is waiting now
With hope and faith sincere;
O, "Onward," shall the watchword be,
Until from toils of earth set free.

J. L. B., Ashtabula, Ohio.

The Golden Rod for December is out today and as usual is bright and newsy. In the editorials will be found sensible advice for old and young. Then there is "A Ghost Story"; part two of "The Song of the Wind"; personals; athletic notes; "Wayside Sprays"; exchanges, and last, but not least, two columns of interesting locals about the school.

OIL HEATERS, just the thing to heat a chamber. Touch a match and your fire is going full blast, no dust, no ashes, no wood to chop, no coal to bring. Just think of the comfort too, $2.75 to $12.00. Henry L. Kincaide & Co.

Several Find the Word "CHRISTMAS" Over Fifty Times

IN THE SATURDAY LEDGER.

A Difficulty However in Awarding the Present Offered.

The puzzle editor of the LEDGER has not been content to take the number sent in as the actual number found in the Christmas word puzzle. On the face of the returns a little girl found 72 but we are unable to verify her returns, in fact she drops below others. The same is true with one who reported 71.

If Bessie Hallowell or Evylyn Barry can show us the word 67 or more times in Saturday's LEDGER we will hand their names to Santa Claus for a present each. If they can verify but 66 there may be ties.

There were four who reported finding 66. In event of the failure of the above two to verify their returns, these four are next in order and a tie. Archie Frew and Susie Cannon however have errors, while the editor is unable to find one claimed by both Kenneth McKenzie and Hutcheon Mitchell, the former claims 8 on the first page, third column of reading while we find but 7, the latter claims one on the sixth page, fourth column, which we cannot find. Will young McKenzie and Mitchell please call at the office or send a marked paper on Friday.

In the list below are many with 65, who have yet a chance. The list contains all who found over 50, and the LEDGER is pleased with the interest taken.

TODAY'S COURT.

Henry N. Blanchard and William Moulton of South Weymouth, each aged about 13 years, were arraigned for the larceny of dry goods valued at $8 from the house of Noah Stowell, and the larceny of a robe valued at $10 from the stable of Otis Cushing. Blanchard was put on 6 months' probation and Moulton was given in charge of the State board.

James Furmingham, the 13 year old boy who stabbed his schoolmate Leslie Smith last Friday afternoon, was arraigned in court this morning for assault with a dangerous weapon. After hearing the evidence the case was continued one week to allow the District Attorney to be consulted. Furmingham was held in $500 until that time.

Patrick Garrity was fined $5 for drunkenness at Quincy.

Louisa Penniman of Braintree was arraigned for allowing her fowl to trespass upon the property of Nelson Torrey. Case continued until Jan. 21, 1895.

LOOKS LIKE DEFEAT.

Carlisle's Currency Bill Meeting With Unexpected Opposition.

THE WHITE METAL ADVOCATES

Will Antagonize the Measure at Every Opportunity.

WASHINGTON, Dec. 20.—An unexpectedly strong opposition to the Carlisle currency bill, now before the house, is disclosed by the list of those who have asked for time to speak on the measure.

Two lists have been made, one for members of the banking committee, who wish to be heard, and the other for members not on the committee. The committee list shows the members divided on party lines, except Representative Ellis (Dem., Ky.), who has asked for time to speak against the bill. The other list shows 14 members who will speak for the bill and 30 against it. All of those for the bill are Democrats. Those against it: Democrats, 18; Republicans, 7; Populists, 4, and Silver, 1.

There is such a difference of sentiment among the Democrats in regard to the currency reform bill that it has been suggested that a caucus should be held with a view of trying to reconcile conflicting opinions and also to consider and decide upon a course of action with regard to the disposition of the pending bill.

How Republicans Stand.

The Republicans will vote against the bill because they say it is unsafe as a currency measure and unfair as a banking measure. The state bank privilege which it contains commends it to nearly all southern representatives. But many of them from the south and southwest are so completely carried away with the free coinage craze that they are apprehensive that if the pending measure should be carried through both houses it would not only prevent but defeat hereafter any legislation looking to the free coinage of silver. Hence extreme advocates of the white metal, like Bland and his adherents, are determined to antagonize the pending measure at every stage of its procedure.

A canvass of the house is now being made, and should it show a majority in that body for the free coinage of silver Bland will move his bill which he has in preparation as a substitute for the pending measure. While there may be a majority in the house for free coinage, there are many southern Democrats who will not vote for the Bland substitute.

It is intimated that the Republicans might be induced to vote for the Bland scheme in order to kill the pending bill, and then vote against the Bland substitute, and thus defeat all proposed legislation on the currency question.

The continued depression in the business of the country, and also the unfortunate condition of the treasury, are causing the Democratic leaders much concern in this connection.

Debate to Close Jan. 8.

Speaker Crisp called his Democratic associates on the committee on rules together yesterday for the purpose of agreeing upon a time for closing the debate on the currency bill. While the committee was discussing the matter, Secretary Carlisle entered the speaker's room and participated in the conference.

Carlisle desired early action on the bill, but the speaker informed him that the feeling among the members on all sides was against fixing any limit. He thought that some arrangement could be made that would obviate the necessity of bringing in any rule. He and his associates on the committee thought that Jan. 8 would be satisfactory to both sides.

The understanding is, therefore, that debate will continue until that day, when by general consent voting will commence on the bill and amendments under the five-minute rule.

No Change at Present.

The senate committee on rules was in session yesterday and was attended by all the members. Nothing was done looking to a change in the rules, and the greater part of the time of the meeting was devoted to the consideration of questions connected with the work of the senate with which the committee is entrusted. Senator Gorman announced himself as adverse to any amendment to the rules, and the two Republican senators, Aldrich and Manderson, opposed a change at the present time.

The other two members, Senators Blackburn and Harris, were of the opinion that something should be done to expedite business, but they did not submit any proposition. Consequently, nothing was left for the committee but to either report adversely or postpone further consideration until after the holidays, and this was decided upon.

Congressional Doings.

The debate on the currency bill continued uninterruptedly in the house yesterday. Messrs. Johnson (Rep., Ind.) and Ellis (Dem., Ky.) opposed it, and Mr. Warner (Dem., N. Y.) supported it. The speech of Mr. Ellis was of rather a sensational character, and the applause it received from the free silver Democrats indicated plainly the unalterable opposition of the silver men of the house to the Carlisle plan. Mr. Bland gave notice that he would offer his free silver bill as a substitute for the Carlisle bill.

Practically all the time of the senate was occupied by speeches on the Nicaragua canal bill. Mr. Turpie (Dem., Ind.), who has been speaking daily since Monday, completed his speech against the bill, making a critical analysis of the various provisions of the measure. At its conclusion he offered an amendment providing for the appointment of a board of three engineers to make a survey and estimate of the cost of the canal. This, he thought, was as far as congress ought to go at this session.

Mr. Cullom earnestly advocated the measure, and incidentally put in a good word for the Hennepin and Illinois ship canals. Senator Perkins of California also favored the building of the canal, and pointed out the benefits which he thought would accrue from its construction.

Speaker Crisp and the house leaders have reached a house agreement by which the adjournment for the holiday recess will be taken at the close of the session next Saturday, and the reassembling will be at noon Jan. 3.

Died of Apoplexy.

BUFFALO, Dec. 20.—W. H. Power, manager of the Star theater, dropped dead at his theater yesterday afternoon. The cause of death was apoplexy.

WEBSTER AND STARK.

Statues of Great Men of Days Gone by Presented to Congress.

WASHINGTON, Dec. 20.—The statues of Daniel Webster and General John Stark were formally presented by the state of New Hampshire to the congress of the United States, today, for permanent exhibition in Statuary hall in the Capitol.

Senator Chandler of New Hampshire had charge of the presentation of the Webster statue, and Senator Gallinger of the same state presented the Stark statue. The ceremonies were not a departure from ceremonies customary on such occasions. There were speeches in the senate and house, just as there have been on many previous occasions of the same sort.

The ceremonies begun with the reading of a letter from the governor of New Hampshire to the president of the senate, announcing in a few words that the statues have been purchased by the state and given into the custody of the architect of the Capitol of the United States, and that a formal acceptance of the same is awaited.

Resolutions were then offered by the New Hampshire senators, for adoption by the senate, thanking the governor and the people of New Hampshire, in the name of congress, for the statues, and referring in a few words to the services of Webster and Stark to the nation. These resolutions directed that the statues be assigned a place in Statuary hall, in the old house of representatives.

Blow Doesn't Count.

NEW ORLEANS, Dec. 20.—The Auditorium Athletic club management has been declared by the coroner's jury to have been responsible for the death of Andy Bowen, and Lavigne's blow did not cause Bowen's death. Death was due to a hemorrhage caused by concussion of the brain was the verdict of the jury, who further found that it was neglect on the part of the club in not having the ring padded.

Not a Success.

QUANTACO, Va., Dec. 20. — Professor Langley of the Smithsonian institute has been experimenting here for several days with the air ship, about which much has been recently written by scientific men. It appears that Professor Langley has not made a success of aerial navigation, although he is not discouraged. No further experiments will be made this winter.

A Mismanaged Case.

NEW YORK, Dec. 20.—William H. Hale, who put himself forward to bring charges against Police Justice Pat Divver, could produce no witnesses when the case was resumed yesterday. Hale was himself placed on the witness stand, but gave no material evidence. It looks as if the case would go to pieces through mismanagement.

Nabbed at Last.

AMSTERDAM, N. Y., Dec. 20.—Kid Waddell, a noted bunco sharp, was yesterday lodged in jail at Fonda on the charge of being one of the men who swindled Moses Weldon, a wealthy farmer, out of $4800 by means of the three-card monte game. Waddell is wanted by the police of Illinois, Indiana, Ohio and Pennsylvania.

Central National Is Closed.

ROME, N. Y., Dec. 20.—Although it was supposed that the dispatches had told the worst about the Central National bank, whose cashier has confessed to stealing $27,000, later indications make the matter look more serious. Bank Examiner Van Vranken has been obliged to close the bank summarily.

Wedding Won't Come Off.

NEW YORK, Dec. 20.—Mrs. Margaret A. Harrison, who is over 80 years of age, is found by a sheriff's jury to be sane, but incompetent, because of the infirmities of age, to care for her property, worth about $106,000. A young man wanted to marry her, and the woman's relatives objected.

Dropped Dead.

BOSTON, Dec. 20.—William A. Alley, 52 years old, a member of a wholesale boot and shoe firm, dropped dead on Devonshire street yesterday afternoon from heart disease. Mr. Alley had just started for the Emergency hospital, but died when only a block from his store.

Both Very Rich.

NEW YORK, Dec. 20.—Mrs. Ida Knowles, the widow of the late Homer S. Knowles, one of the wealthiest pottery manufacturers in the world, was married last evening to Miles A. Stafford. Mr. Stafford is a retired business man of independent means. He is a widower.

Good News For Shoemakers.

BOSTON, Dec. 20.—Secretary Dulea of the Boot and Shoe Workers' International union has received a telegram stating that the boot and shoe workers' joint label has been endorsed by the executive committee of the American Federation of Labor.

On a Sad Mission.

WASHINGTON, Dec. 20.—Vice President Stevenson left last night for Asheville, N. C., and will probably not return until after the holidays. It is intention to accompany his daughter, who is sick at Asheville, to some place farther south.

Held High Positions.

WORCESTER, Mass., Dec. 20.—Phineas Ball, ex-mayor of Worcester, died last night, aged 75 years. He was civil engineer of the state board of health and harbor commissioners one time, and he also built the Springfield water works.

Found Not Guilty.

DEDHAM, Mass., Dec. 20.—Mrs. Susan J. Taylor, who has been on trial on the charge of burning her stock of millinery goods at Walpole on July 31, 1894, and thus attempting to defraud an insurance company, was acquitted.

Proprietors Had Guns Ready.

SANDY HOOK, Dec. 20.—Four burglars, while entering the store of Glover, Taylor & Curtis, were fired upon by the proprietors. The burglars returned the fire and fled. No one was hurt and no booty obtained.

New Trial Granted.

COVINGTON, Va., Dec. 20.—Judge McLaughlin has granted a new trial in the case of Thomas Goodman, convicted last summer of the murder of H. C. Parsons and sentenced to 18 years in the penitentiary.

Prominent Mason Dead.

NEW YORK, Dec. 20.—John Hoole, aged 78, died here yesterday from softening of the brain. Since 1863 he has devoted his time exclusively to masonry in various capacities.

Monster Auction Sale.

NEW YORK, Dec. 20.—The largest sale of domestic cotton goods ever made at auction took place yesterday, the sales amounting to about $2,000,000.

CLEAR EYES,

a clear skin, a clear head, a clear system—come from the Carlsbad Sprudel Salt.

Partly, because of its cleansing, purifying action upon the blood, and because of its solvent, strengthening, stimulating action upon the liver, kidneys, stomach and bowels. It brings them back to a healthy, natural condition, in a natural way.

Habitual constipation, biliousness, loss of appetite, defective nutrition, dyspepsia—every one of these has a time-tried remedy in the Carlsbad Sprudel Salt. It is the actual water of the Sprudel Spring, solidified and put into powder form on the spot. For chronic catarrh of the stomach and other stomachic diseases use the imported Carlsbad Sprudel Water, and add a small dose of the Carlsbad Sprudel Salt to a tumblerful of the water whenever a laxative action is desired.

Do not be imposed upon by unscrupulous dealers, who will sell you a mixture of Seidlitz Powder or Glauber Salt as "Improved Carlsbad Salt" or "Artificial Carlsbad Salt," "German Salt," or under other names.

Insist upon the genuine article, which must have the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every bottle.

The Patriot and Ledger.

Mrs. Elizabeth Green has sold her interest in the plant of the Quincy PATRIOT to Mr. George W. Prescott, with whom she has been associated in business under the firm name of Green & Prescott, printers and publishers, for a great many years. When Mrs. Green first entered the field of journalism, there were but few, if any, of her sex engaged on the local or editorial staff of either daily or weekly papers.

After a while the firm of Green & Prescott was formed, and continued much longer than the average of business firms. Both members of the firm were competent in their respective places, both were willing workers, and success crowned their efforts. Now that Mrs. Green has thought best to retire from the firm, we congratulate Bro. Prescott on becoming the sole owner of so desirable a piece of newspaper property, the more so as its high value is largely due to his good management.

Mr. Prescott has taken his son into company with him, and hereafter the Quincy PATRIOT, the oldest weekly paper in Norfolk County, the Quincy DAILY DEDGER, and other publications, will be printed and published under the firm name of George W. Prescott & Son. The junior Prescott, is a a "chip of the old block," cradled in the printing office, and like his father, a practical printer as well as a thorough newspaper man. Bro. Prescott is fortunate in having a daughter as well a son to assist him—Miss Annie L., a young lady of considerable literary talent,—and she will have charge of certain departments of the PATRIOT. The *Chronicle* extends its congratulations to the new firm of Geo. W. Prescott & Son, and its best wishes for the continued success of the PATRIOT and its offsprings. Mrs. Green in the early history of the Massachusetts Press Association, became a member, and afterward a member of the Suburban Press Association. Those who so often enjoyed her agreeable company on the pleasant annual re-unions of the Associations, while regretting her retirement, will wish her much happiness in her declining years.—Worcester West Chronicle.

One of the best papers published in Masssachusetts is the Quincy PATRIOT which is now published by the new firm of George W. Prescott & Son who are so well and favorably known by the newspaper fraternity. This paper was established in 1837, and during these many years has been a power for good, not only in its own city, but in all those through which its influence extends. We have nothing but good wishes for the PATRIOT.—Foxboro Reporter.

The firm of Green & Prescott, publishers of the Quincy PATRICT, has been dissolved, Mrs. Green, the senior partner, retiring. Geo. W. Prescott and Son will continue the business, which, by the way, is one of the best in Norfolk County.—Hyde Park Times.

The Quincy PATRIOT and Quincy LEDGER are now owned by G. W. Prescott & Son, they having purchased the interest of Mrs. Green, in both papers. Green & Prescott have given the public splendid newspaper service and the new firm has a splendid outlook for a successful business.—Sharon Advocate.

Mrs. Green has sold her interest in the Quincy PATRIOT to George W. Prescott and Son, and it will be issued under their management hereafter. Since 1837 the paper has followed the pathway of success. We extend our good wishes to Editors Prescott and the PATRIOT.—*Dedham Transcript.*

CHICAGO ROASTS.

If Chicago politics were as clean as her wheat, the city would have occasion to rejoice.—Milwaukee Journal.

Mr. Stead's continued absence leads the citizens to hope that the devil is not coming to Chicago.—Cleveland Leader.

They say Chicago's goodness is only skin deep, but that is pretty deep in Chicago.—Detroit Free Press.

Chicago is swallowing the bitter pill of being made aware that St. Louis has the finest passenger depot in the world.—New Orleans Picayune.

Chicago enjoys an easy feeling arising from a sure knowledge that William T. Stead is likely to be engaged for some time in scolding London.—Washington Times.

Chicago people are always doing new and startling things. Professor Sloan has just demonstrated by experiment that if a man refrain from eating a sufficient length of time death will result.—Topeka State Journal.

The enthusiastic reception received by Dr. Conan Doyle at the hands of the Chicago people is now understood. It seems that Dr. Doyle reached Chicago on the rear end of a local impression that he is the man who broke the bank at Monte Carlo.—Washington Post.

A Chicago health officer has been looking into a report that wornout street car horses are being butchered and sold as beef and finds there is no law against the practice. Why should there be in Chicago? That jaw, when not occupied in bragging, is a match for sole leather.—Cleveland Plain Dealer.

And one who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

BYRNES BULLDOZED.

Masonry Afterward Caused Him to Relent, Says Witness Marrett.

SUPERINTENDENT DENIES CHARGES

He Will Answer When the Proper Time Comes.

NEW YORK, Dec. 20.—Superintendent Byrnes figured conspicuously in the testimony of two witnesses before the Lexow committee yesterday. John Barrett, formerly an agent of the Society for the Prevention of Crime, testified that Superintendent Byrnes had bulldozed him with threats and force into divulging the secrets of his society, and had afterward relented when he learned that the witness was a brother Mason. Hattie Ross, a colored woman, who some years ago conducted two disorderly houses in this city, swore that she paid "protection" money to wardmen under Captain Byrnes, now superintendent of police. Superintendent Byrnes denies the allegations against him.

Sergeant Taylor, who testified that he had turned over to Inspector Steers moneys collected from patrolmen, which they had received from steamboat and railroad companies, swore that Steers had accepted the money as bribes to permit the policemen to remain on their respective beats. Taylor did not know what Steers did with the money, but to him it appeared that some of the boodle was divided with some one else. The sergeant also denied Steers' statement that his testimony was false.

Taylor acknowledged that he had called on the ex-inspector Saturday night, but had merely told his former superior officer that he intended to tell the truth to the Lexow committee. Ex-Inspector Steers was in the courtroom. He announced his readiness to go on the stand and deny Taylor's accusations.

Interman Changed His Mind.

Policeman Herman Interman swore that he did not testify truthfully Tuesday when he said that he never paid over any of the money given him by the American steamship line to his superior officers. He had given up half of his extra earnings to Captain Gastlin, and then $25 out of $40 a month to Captain Schmittberger.

Interman also acknowledged that policemen were afraid to testify before the Lexow committee, because they feared the displeasure of their superior officers.

Sergeants Byrne and Cornelius Reid of the steamboat squad testified that it was very improbable that Sergeant Taylor had sent money to Inspector Steers in the manner he described.

Captain Allaire, commander of the steamboat squad, denied all knowledge of the collection of money from steamship and railroad lines. Mr. Goff questioned him long and earnestly, but Allaire's entire testimony was a repudiation and denial of all allegations made against him by other witnesses. Allaire said he owned a house valued at $27,000, and had money in the bank, not exceeding $4000. The captain swore that he had always done all in his power to suppress infractions of the law.

Cost Her $150 a Month.

Hattie Ross, colored, swore that in 1879 she opened three disorderly houses in the Fifteenth precinct. She paid $50 a month as "protection" money for each house to Wardmen Rolland and Slavin. Captain Byrnes, now superintendent, was in command of the precinct at the time. She also paid similar sums of money to wardmen under Captain Brogan, who succeeded Byrnes.

Incidentally, Hattie testified that in eight years Al Adams, a policy dealer, had victimized her out of $47,000. She also ran a disorderly house in the tenderloin district when Captain McAvoy was in command, but she did not have to pay "protection" money there.

Superintendent Byrnes heard of the testimony given against him by John Marrett a few minutes after that witness testified. He immediately locked himself in his office at police headquarters, and for an hour examined papers bearing on the matter referred to by Marrett.

Byrnes Will Speak Later.

Afterward, the superintendent said of Marrett: "All he says is unfrue, except that he came to my house under false pretenses. When the proper time comes I shall tell my story in the proper place." Further than this, the superintendent absolutely refused to say anything.

Marrett said before the committee that he had gone to the home of Superintendent Brynes with a letter for Mrs. Brynes, which had been given him by another Parkhurst agent; that the superintendent had taken the letter, read it, took him by the collar, threw him into the parlor, and forcibly detained him there; that Brynes threatened to have him imprisoned for 10 years, and by force and threats forced him to reveal all he knew of the case of Charles W. Gardner, another Parkhurst detective, who had been accused of extorting blackmail from Lillie Clinton. Marrett also said that Superintendent Brynes had trumped up the case against Gardner.

Senator Lexow expressed his opinion that Superintendent Byrnes had a right to extract information from Marrett. Then the witness said: "He would have sent me to prison, except for one reason—we were both Masons."

Investigation Echoes.

Police Captain Schmittberger, whose trial on a charge of bribery was yesterday set for Jan. 7, was again arrested yesterday afternoon on an indictment found Oct. 26 last, charging him with accepting a $500 bribe from Augustin Forget, agent of the French steamship line. Schmittberger's bail on the last indictment was fixed at $7500, the amount of bond which he had furnished on the previous charges.

Schmittberger was bailed later by John H. Breslin and John Koster. After the bail was accepted by Judge Ingraham, at the latter's residence, Schmittberger resumed command of his precinct.

Policeman Thomas Bambrick was on trial yesterday before Commissioner Murray on a charge of assaulting John F. Ferguson, a Lexow witness, on the morning of Thanksgiving day. The senate committee engaged counsel to prosecute the case.

Rumors of impending arrests of high police officials continue to gain currency hourly, and additional developments in the Lexow committee sensations are looked forward to with keen interest, not only by those directly and indirectly interested, but by the entire community.

AN ALLEGED CONFESSION.

Officials Ssid to Have Learned All the Details of the Coburn Murder.

PORTLAND, Me., Dec. 20.—James Lewis was formally arrested last night for the murder of Byron G. Coburn. He stated that he had no doubt he could prove his innocence. All the evidence against Lewis is circumstantial. Graffam and Coleman are now in jail and will be held as witnesses.

Ever since the arrest of Edward Graffam in connection with the murder, there has been a rumor that he had told the officers the story of how Lewis did the deed. After the coroner's jury had rendered its verdict yesterday afternoon, a partial version of Graffam's story was obtained.

According to Graffam, Lewis said that when he went over from the Lowell house he went directly into the barn and loosened one of the horses in the tie-up that the noise might draw his unsuspecting and feebie victim from the house to the place of death.

Lewis stood in the cow stall, beside the cow, with the ax all ready in his hands, and when Mr. Coburn entered through the doorway he struck him on the head in such a way that he fell toward Lewis into the stall. Then other terrible blows were struck upon the prostrate body of the victim.

Graffam further testified that Lewis said he killed Coburn because he thought he had a large sum of money in the house. After the crime Lewis went to the house and with extraordinary coolness took up a paper and began to read. Mrs. Kimball mentioned Coburn's absence and asked Lewis to go to the barn to see about it.

Mrs. Kimball says she watched him and saw him light a match at the door of the tie-up, which he himself had fastened but a few moments before. This is the substance of Graffam's testimony.

Victory For Operators.

CLEVELAND, Dec. 20.—The Massillon arbitration committee yesterday made public its decision on the pending dispute between miners and operators, by a majority report, the award which was in favor of the operators. Judge Blandin and W. S. Kerruss signed the report. Father Kuhn also attached his signature to the report, but said, however, he would not agree to the decision. The board abolishes the heretofore existing differential of 15 cents, and places the Massillon district on the same basis as the Hocking Valley.

Under the Catholic Ban.

NEW YORK, Dec. 20.—One of the most important results of the recent visit to this diocese of Archbishop Satolli became known yesterday when it was announced that by his promulgation of an edict from the pope, three additional secret societies have been placed with the Masonic order under the ban of the Catholic church. They are the Odd Fellows, Knights of Pythias and the Sons of Temperance.

Acts Like a Dog.

SOUTH BEND, Ind., Dec. 20.—William B. Smith of Fall River, Mass., was found yesterday in a railroad station here barking and snapping like a dog. The police overpowered him after a fierce fight. In a lucid interval Smith said he was bitten by a dog five months ago. In jail he snapped, hopped in the bed on all fours and acted like a dog.

Griffo Money Was Scarce.

PHILADELPHIA, Dec. 20.—George Dixon, champion featherweight pugilist, and "Young" Griffo were matched yesterday to fight 25 rounds before the Seaside Athletic club, Coney Island, on Jan. 19, for a purse of $3000, the winner to take all the money. O'Rourke offered to bet a big sum on Dixon, but no one covered his money.

That Unlucky $15,000.

NEW YORK, Dec. 20.—The executive committee of the New York state Democracy last night accepted the resignation of John W. Reppenhagen, leader of the organization in the Third district, on account of Reppenhagen's confession that he had handled the $15,000 obtained from Captain Creeden.

Very Much Alive.

CHICAGO, Dec. 20.—George H. Barbour, supposed to have been murdered at Pana, walked into the morgue yesterday, where a half dozen of his friends had gathered to identify his body. Barbour's father was present, and an affecting scene followed.

Majority Slightly Reduced.

BRIDGEPORT, Conn., Dec. 20.—The probate recount resulted in 13 majority for A. M. Talmadge (Dem.) over John C. Chamberlain (Rep.). The original count gave Talmadge 29 majority.

Manetto Sent to State Prison.

BOSTON, Dec. 20.—Carmine Manetto was sentenced yesterday to 15 years in the state prison for manslaughter, in causing the death of Stefano Capobianca, Nov. 18, at the North End.

Wasted Away.

BEVERLY, Mass., Dec. 20.—Pugilist Dick Moorehouse died at his home yesterday from consumption, aged 28 years. He had been sick for some time.

SIXTY THOUSAND MEN

Were Sent Against Armenians For "Defying the Government."

THE MOST HORRIBLE ATROCITIES

Practiced by Turks Upon Their Helpless Victims.

LONDON, Dec. 20.—The Anglo-Armenian association has a letter from a correspondent at Aleppo, Asiatic Turkey, which states that the archbishop of Marasch who was confined in the Aleppo jail, has disappeared, and the Armenians fear that he has been hanged. The British consul at Aleppo has made efforts to discover his whereabouts, but has been unsuccessful.

The bishop of Hadjin and the archbishop of Zeitoun have been condemned to death. They long have been victims of insult and outrage by the Turkish officials. Father Gavork of Marasch is also under sentence of death. Sister Elizabeth and 25 other prisoners from Zeitoun are still retained in jail, although their sentence of three years' imprisonment has passed.

The church at Beylan has been closed, and its priest and 15 notables of Beylan are confined in the Aleppo prison. Much hostility still exists between the Mohammedans and Armenians.

The letter says that the Turkish garrison at Erzeroum, Irisa, Van, Tigranocerta, Babert and Moosh, altogether about 60,000 men, were sent against the Armenians. The commanders of these troops announced to the inhabitants of the villages: "We are ordered to put you to the sword for openly defying the government."

The attack began on Aug. 18. The Turks were repulsed in the first instance. The

Massacres Began Sept. 5.

Those Armenians who submitted unconditionally were bound to stakes and then their limbs were cut off with saws. In other cases the victims were disemboweled and their eyes gouged out. Children were thrown into burning oil, and women were tortured and burned to death. The troops plundered and burned the churches. Among those who fell victims to the savagery of the soldiery were 40 priests, who were brutally massacred.

The British consul at Erzeroum was prevented from going to the scenes of the atrocities on the ground that it was not safe for any Armenian, he being an Armenian, to approach the places where the trouble had occurred. This did not deter him from making an attempt to learn the truth, but as he was trying to approach one of the devastated villages he was arrested.

Among those who witnessed the atrocities was a Spaniard named Ximenes. The Turkish authorities approached him and offered him large bribes to induce him to deny in the English papers the truth of the reports of outrages. They also sought to bribe him to to go England for the purpose of delivering lectures on Armenia, in which he was to dwell upon the contented condition of the Armenians. Senor Ximenes rejected the offers made to him.

Gioletti Under Fire.

ROME, Dec. 20.—La Nazione publishes a report to the effect that ex-Premier Gioletti, who is said to be in Berlin, has taken with him documents which he intends to use in an endeavor to discredit Premier Crispi with the members of the dreibund. Fresh and greater scandals, La Nazione adds, appear imminent, which will probably lead to the ministry's dowfall.

Confirmed by Patriarch.

ROME, Dec. 20.—The Armenian Catholic patriarch residing at Constantinople has addressed a long report to the pope confirming the stories of the outrages perpetrated upon Armenians. In view of the amicable relations existing between the sultan and the pope it is not believed that the Vatican will join in any public protest.

A Good Trade.

SHANGHAI, Dec. 20.—The dowager Empress of China has conveyed to Charles Denby, the American minister, her thanks for the gift of a New Testament made to her by the foreign ladies resident in Pekin. The empress sends valuable silks, laces, etc., to Mr. Denby to be given to the ladies who made the present to her.

Praise For Bowell.

LONDON, Dec. 20.—In a leader this morning upon the new Canadian ministry formed by Mr. Bowell, The Daily News says: Mr. Bowell has shown good taste and sound judgment in not disturbing the arrangements made by Sir John Thompson.

Not Afraid of Us.

MADRID, Dec. 20.—The feeling in political circles here is that President Cleveland does not intend to raise the duty on sugar imported from Cuba into the United States or to make other reprisals in consequence of the Cuban duties on American flour.

Riot News Confirmed.

LONDON, Dec. 20.—The colonial office has received confirmation of the labor riot at Belize, and a detachment of 150 soldiers has been dispatched from Jamaica to Belize to relieve the marines who were landed to protect the police force of the town.

On Foreign Flour Only.

BRUSSELS, Dec. 20.—M. de Nayer, minister of finance, denies that the government proposes to import a duty on foreign cereals. It is proposed, however, to place a moderate duty on foreign flour.

Fresh Insurrection Predicted.

BUENOS AYRES, Dec. 20.—Admiral da Gama, one of the leaders of the recent Brazilian insurrection, predicts a fresh invasion of the state of Rio Grande do Sul before January.

Threatened by Tonghaks.

LYONS, Dec. 20.—A letter from the Catholic missions in Corea states that the situation of the native Christians is grave. Hordes of Tonghaks threaten to invade northern Corea.

Count Suits William.

BERLIN Dec. 20.—It is stated that Emperor William has requested the czar not to remove Count von Soouvaloff, the Russian ambassador to Germany.

Aghinst Chinamen.

KOBE, Japan, Dec. 20.—The Corean government has announced that Chinese will be allowed to reside only in the treaty ports of Corea.

SANDWICH WITH BEER

Will No Longer Pass as an Order For "Food" In Boston Hotels.

BOSTON, Dec. 20.—The sandwich as an article of food has been tabooed by the police commissioners, so far as it affects the ordering of a drink in any of the hotels in Boston. Yesterday notice was served upon several hotel proprietors that hereafter more substantial food must be served to the person who wants a drink after 11 p. m.

In order to procure a drink, a dinner of one or more courses must be ordered, or else the individual must have a key to a room in his possession, and thereby be, to all intents and purposes, a full-fledged guest.

The hotel men were not at all pleased at the outlook for their business, because much of the trade comes after 11 o'clock. The average Bohemian who called at the leading houses and wanted to invest in a sandwich and a glass of beer looked very much disgusted when the cafe doors were closed to him last night for the first time in the history of Boston.

The action of the police created as much of a sensation as the famous order which was issued under Governor Brackett, forbidding a stand-up drink.

There is some likelihood of a test case being made to ascertain how far-reaching is the definition of the word "food."

Lil Should Surrender.

WASHINGTON, Dec. 20.—Hawaii has a stable government, which, for its security, needs only to have Liliuokalani surrender her claims to the throne for a pension. Such is the opinion of Rear Admiral Walker in one of his letters to the navy department. He further says: "While I would not hesitate in the least to leave the islands entirely alone, I deem it unsafe to leave them under British protection. It jeopardizes our influences there and might lead to awkward complications. I trust that another ship will be sent to Honolulu at the earliest practicable moment."

Police Investigating.

BOSTON, Dec. 20.—Margaret Hagerty, 18, claiming to hail from Worcester, fell from a third-story window of the Hotel St. Nicholas about midnight and probably received fatal injuries. Eugene A. Wilkins, who says he lives in Salem, who was in company with the woman at the hotel, is detained by the police. They hold that there is a possibility that the fall was not wholly an accident.

Farmers Want Taxation Equalized.

BANGOR, Me., Dec. 20.—At the second day's session of the state grange meeting a resolution was adopted calling for a representation of the agricultural interests on the board of state assessors. Resolutions were also passed, calling for an equalization of taxes. The farmers claim that the burden of taxation falls unjustly heavy upon them.

Edgar's Heart Injured.

NEW HAVEN, Dec. 20.—At Manchester, Robert Edgar has brought suit for breach of promise and $2000 damages against Sarah Edgar, his cousin, claiming that she refused to marry him after all the preparations had been made. The defendant is 27 years old, and the plaintiff 54, a widower, with several children.

Charged With Embezzlement.

BOSTON, Dec. 20.—Joseph D. Lowe, a broker, was arrested yesterday on the charge of embezzling $4800 from Amanda C. McLellan. Lowe says that the money was entrusted to him to invest in stocks, and that it was lost in a legitimate way. Lowe was held in $6000 bail.

Christians Elect Officers.

BOSTON, Dec. 20.—The New England Christian association delegates elected the following officers: President, Rev. J. M. Foster; vice president, Rev. D. B Gun, recording secretary, Elizabeth E. Flagg; corresponding secretary, J. P. Stoddard; treasurer, E. F. McIntyre.

Hermits Robbed.

BETHLEHEM, Pa., Dec. 20.—In a wilderness at Bursonville, Thomas and David Athold, father and son, live as hermits. Six masked men surprised them in their cabin, and, after gagging and torturing them, secured over $2000 in money besides other plunder.

Overturned a Lamp.

BOSTON, Dec. 20.—A woman about 45 years old, named Mrs. Lane, occupying an attic room at 92 Curve street, was suffocated by smoke last night. The woman was under the influence of liquor and overturned a kerosene lamp, which set fire to the room.

Destitute Mariners.

NEW BEDFORD, Mass., Dec. 20. — The crew of the whaling schooner Agate, just arrived here from a three years' voyage, are in destitute circumstances. Measures will be taken to have them taken care of by the Spanish vice consul at Boston.

Keeps His Own Counsel.

PHILADELPHIA, Dec. 20.—John Wanamaker says he has made no reply to the request to accept the presidency of the Lehigh Valley company. He would neither confirm nor deny the report that he would accept the presidency.

Faulty Finances.

LEWISTON, Me., Dec. 20.—The city auditor made public last night the report for nine months, ending Dec. 1. It shows a startling condition of affairs. Several appropriations have been overdrawn, with expenditures of $248,000.

Girls Went Out.

WORCESTER, Mass., Dec. 20.—The heel makers at Isaac Prouty & Co.'s shop in Spencer, numbering 21 girls, went out on strike yesterday. They refuse to work at the present great reduction of wages over last year.

Parted by Law.

BROOKLYN, Dec. 20.—Judge Brown in the circuit court yesterday signed the papers granting an absolute divorce to Millionaire Francis C. Oakes from his wife, Luella Oakes.

Two Deaths May Result.

ELYRIA, O., Dec. 20.—The dwelling house of C. J. Cook was almost totally destroyed by fire yesterday. Both Mr. and Mrs. Cook were probably fatally burned.

Alderman Must Answer.

NEW YORK, Dec. 20.—Alderman Charles "Silver Dollar" Smith was indicted by the grand jury for assault. Smith stabbed August Gloistein in a saloon.

All that's Yellow is not Cottolene

There's hardly a housekeeper in the country but has heard of Cottolene the new vegetable shortening. It is a strictly natural product; composed only of clarified cotton seed oil, thickened for convenience in use, with refined beef suet—pure and sweet. So composed,

COTTOLENE

Was bound to win, and to drive out lard from the kitchens of the world. When housekeepers wish to get rid of the unpleasant features and results of lard, they should get Cottolene, taking care that they are not given cheap counterfeits with imitative names, spuriously compounded to sell in the place of Cottolene.

It's easy to avoid disappointment and insure satisfaction. Insist on having Cottolene.

Sold in 3 and 5 pound pails.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Regular meeting of the City Council tonight.

Howard Rogers is upon his team again today.

Rumor has it that a golf club is to be formed shortly in Quincy.

Mr. Charles L. Coe of Atlantic is spending the week in New York city.

These are beautiful shopping days and Quincy stores are doing a good Christmas trade.

Keep a sharp lookout for those black whales. There is often more than one in a paper.

A meeting of Hancock Council, A. L. of H. tonight. Special business, election of officers.

All the churches are requested to send their Christmas music to the PATRIOT and DAILY LEDGER.

Councilman John O. Holden, who has been confined to his home by illness, is about once more.

Miss King gives a private Christmas season german at her home, Adams street, on Saturday evening next.

Mrs. Lark, the LEDGER news agent at Brewer's corner, has her windows prettily decorated for Christmas.

The funeral of Mrs. O'Donovan, wife of James O'Donovan, was held from St. John's church this morning.

Installation exercises of Rev. Robert Westly Peach, will be held at the Presbyterian church, Friday evening.

Granite Lodge, I. O. O. F., M. U., is arranging for its annual ball which will be held at West Quincy, New Year's eve.

The street department is picking up the rocks that are as thick as flies in summer time on some parts of Hancock street.

This is fine weather for bicycle riding and owners of wheels are making the most of it before putting them away for the winter.

The successful competitors in the drive-whist contest at the Granite City club on Wednesday evening were Mrs. Joseph C. Morse and Mr. W. W. Ewell.

Only a few more days left in which to buy your Christmas presents, and our local storekeepers invite you to inspect their stock before purchasing out of town.

Mr. J. H. Wales has presented the High school with Ridpath's Cyclopœdia of History in four large and handsome volumes. Such gifts are very acceptable.

Finer weather than that we have been enjoying the past week was never known at this season of the year. No snow, no dust; clear and pleasant. Air bracing and cool.

The funeral of Mr. Patrick McGrath was held from his late residence on Pleasant street this morning at 10 o'clock and was strictly private. The interment was at St. Mary's cemetery, West Quincy.

Some of Quincy's young people are looking forward to dancing out 1894 and dancing in 1895. The german is to take place in Wollaston and Mesdames Rice, Whicher and King are to be matrons.

Northampton schools developed mumps, necessitating some skirmishing. This, compared to diphtheria in our own schools, seems trifling. A Northampton teacher returned here yesterday with mumps.

E. B. Souther, the newsdealer, and James McConnell, the fruit man, have just put in the National cash register. The machines are very handsome and while accurate in every particular are very simple.

On Tuesday evening at Memorial church, under the direction of Miss Annie Hall, will present the cantata, "Santa Claus' Vision," after which the tree will be stripped of its fruit. Admission Free. The public invited.

Miss Floretta Vining presided Wednesday at the meeting of the Woman's Press association, and gracefully introduced the speakers, among the number Mrs. A. M. Palmer of New York, Mrs. Mary A. Shaw and Mrs. Sara A. Palmer. Sweet vocal and instrumental music was interspersed.

The Ladies Social Union of the West Quincy Methodist church held an oyster supper and apron sale Wednesday evening which was largely attended. From 6 to 8 o'clock a delicious oyster stew was served and on the several tables were aprons of all sizes and kinds which met with a ready sale.

An adjourned meeting of the High School Alumni Association will be held in the High School building on Friday evening at 8 o'clock, to which all graduates are invited. It is understood that an effort will be made to reconsider the recent action confining the banquet strictly to graduates. Many think members should have privilege of taking at least one other: husband, wife or escort.

Mr. George A. Brown has ten houses underway at Atlantic,—one of the prettiest and best villages in this city. Some of them are nearly done, and will soon be occupied. J. R. Hewett of South Boston has purchased one and will soon move in. Mr. Herrick Nash of Wollaston has bought another, which he will soon occupy. Mr. Loring of Nebraska has rented another. This suburb is growing quite fast.

PRATT ON TRIAL.

The North Weymouth Crank Who Has been Arrested for Horse Stealing.

Franklin C. Pratt of Weymouth is again on trial at Dedham for stealing a horse from Stephen Penniman & Son over a year ago. It is a singular case and is well told by the Herald today:

On May 8, 1893, Pratt hired a horse and carriage of Stephen Penniman & Son of Quincy, for a short journey. Several days passed and neither Pratt nor the team were heard from. The matter was placed in the hands of the Quincy police for investigation, and Officer Ferguson was detailed on the case.

The horse was finally recovered from a Boston firm of horse dealers, who had purchased it from Pratt. The Boston parties had sold the animal to down East parties, and after considerable trouble it was finally recovered and returned to its rightful owners in Quincy.

After disposing of the horse, Pratt went to New York, where he created a sensation by engaging the celebrated law firm of Howe & Hummel to bring suit against Lawyer Edward J. Moran of Brooklyn to recover $5000 damages.

Pratt's Munchausen stories evidently at first made an impression on the eminent law firm, but they soon realized his true character and dropped him.

Pratt, soon after this episode, returned to Weymouth and was placed under arrest for stealing the Penniman team. He was indicted by the Norfolk grand jury and placed on trial in the Norfolk superior court, for the crime.

This was at the September term of the court of 1893. He set up a plea of insanity, and his mental condition was so represented to the court that this plea was accepted, and the court ordered him committed to the insane asylum at Taunton, but was subsequently removed to the insane department of the State workhouse at Bridgewater.

After being confined in the Bridgewater institution for some time, he demanded his release on the ground that he was not insane, and through the influence of an aunt he was examined by medical experts who pronounced him sane.

He was released from the workhouse on this showing of the physicians, but was immediately taken to the Dedham jail to await his trial for the crime referred to above.

In the mean time his wife, who is a most estimable woman, and greatly respected, secured a divorce from him, owing to the abusive treatment to which he subjected her in his crazy tantrums.

Better Freight Facilities.

The inadequate freight facilities from which Quincy has so long suffered, have been partially remedied under the present time schedule. Freight received at the Boston freight depot up to 2 o'clock P. M., is forwarded to West Quincy on train leaving Boston at 2.45 P. M., running express to Atlantic and reaching West Quincy at 3 25 P. M., when freight is ready for immediate delivery.

Already several of our expresses have transferred their business to this train at West Quincy, and other consignees at Quincy and Quincy Adams, are beginning to avail themselves of the facilities it affords for quick transit from Boston by daylight instead of by night service as at Quincy and Quincy Adams.

Inward-bound, the train leaves West Quincy at 6.50 P. M., reaching Boston at 7 25 P. M.

The New York, New Haven & Hartford management intends at no distant date, to change over and run on the right hand track, instead of the left as at present on the Old Colony system.

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy at home or on a trip away from home.

—Delphi lodge, K. of P., of Weymouth, celebrated its silver anniversary Wednesday night. There was an entertainment with addresses, followed by a banquet and dance.

"THE LEAST OF THESE."

She had little of earthly beauty;
She had less of earthly lore;
She climbed by a path so narrow,
Such wearisome burdens bore!
And she came with heart a-trembling
To the warden at heaven's door.

And said, "There were hearts of heroes."
She said: "There were hands of might.
I had only my little children,
That call to me day and night.
I could only soothe their sorrows,
Their childish hearts make light."

And she bowed her head in silence,
And she hid her face in shame,
When, out from a blaze of glory,
A form majestic came,
And sweeter than all heaven's music,
Lo, some one called her name!

LET THE HUNTER DON GAY COLORS.

It Lessens the Chances of Somebody Taking a Shot at Him.

"You would naturally think that the hunter out for game would wear clothes of soft, unobtrusive colors harmonizing with the landscape," said the veteran sportsman. "Yet, stalking moose and deer in the Maine woods, I select apparel pronounced in hue and often wear a red necktie or hatband. This I do to lessen the danger of being shot through mistake.

"Of the great army of hunters that each fall range the woods of the Pine Tree State there are few that will not sometimes venture a shot into moving bushes on the chances that the invisible object that rustles them may be a deer. The fool sportsman, who is largely in evidence in the shooting season, will do so every time. If it be a man in the bushes, any striking colors of his costume are apt to catch the eye of the one preparing to fire and prevent the shot being fired.

"The danger of alarming game by such costume? That is not enough to be taken into account. Everything striking in color is more likely than not to excite their curiosity and draw them toward the hunter if he work with proper slowness and caution. Besides that all the antlered game trust almost wholly to their senses of hearing and smelling to warn them of the approach of danger, and if you can baffle those faculties you need have little fear of their taking alarm from the sight of you.

"But, speaking of costume, don't wear black, else every ninny, and even some experienced sportsman, seeing you among the trees, would let drive at you, believing he was going to bag a bear."
—New York Sun.

Scotch Terms and Customs.

Everybody knows that the word mac (pronounced in Gaelic machk) means son, so that, for example, MacDonald literally means the son of Donald. But it is not generally known that when a woman is spoken of the highlanders substitute for mac the feminine nich, which means daughter; that the vocative of mac is vichk (we spell phonetically), which always replaces mac when a person is addressed, and that the nominative plural is michk (sons) or claun (children). Sir Walter Scott's ignorance of Gaelic frequently led him into error upon these points, both in his poetry and in his novels.

The meaning of the Gaelic word clan, as just stated, is children, and the obedience which clansmen owed to their chief was considered by them rather as the affectionate obedience due by children to a father than as that due by subjects to a ruler. They believed themselves to be all blood relations descended from a common ancestor, of which their chief was the living representative. The clansman who hesitated to save his chief's life at the expense of his own was regarded as a coward who fled from his father's side in the hour of peril. On the other hand, the chief was expected at all times to acknowledge the meanest of his clan as his relation and to shake hands with him wherever they might happen to meet. Subordinate to the chief and generally related to him were the chieftains and tacksmen.—London Spectator.

Turning Up the Trousers.

I doubt not through the ages one increasing purpose runs, and that is why I have always felt sure that there must be some reason for the "astronmary and ascentric" behavior of people who turn up the bottoms of their trousers in dry weather. The New York exquisites who copied the fashion from London will be disgusted at the vulgar origin of the practice, for I understand that it had its rise in the inventive brains of some bank clerks, who used to go down to the city on those bad old "razor back" buses. They found that their nether garments got frayed by rubbing against the woodwork under the seats until one day one of them exclaimed, "Go to, and let us turn up our trousers." And they did so. And having turned them up it didn't seem worth while to turn them down again, so the custom became crystallized. If only somebody would now inform us why we wear silk hats and have pockets in our coattails which we never use, we might even yet be moderately happy.—London Figaro.

Superior to Time.

It is strange, said a jeweler on Twenty-third street, but women seldom ever consult the official timepiece in the window. A man involuntarily pulls out his watch to set it by the standard time from the United States observatory, and if he passes ten timekeepers in a day would be apt to compare with half of them, but a woman, unless she is very businesslike, wouldn't pull out her watch to regulate it, not if she passed 100 standard timepieces. She is superior to time.—New York Recorder.

The habit of turning around three or four times before lying down has survived in the domestic dog from his savage ancestry. It then served to break down the tall grass and make a bed.

The Spaniards called Key West Cayo Huesco, or Bone islands, some say from their coral origin.

COVETED BY GERMANY

Chief Obstacle to Her Possession of Samoa Is Removed.

ENGLAND LOOKING FOR A BARGAIN

Will Trade African Possessions To Make Greater Gains.

BERLIN, Dec. 21.—It may safely be assumed that the colonial politicians in Germany are preparing a crusade against Great Britain on the subject of Samoa The obituary notices of Robert Louis Stevenson published in German papers do not conceal the feeling that his death has removed one of the chief obstacles to the extension of German influence in the islands.

The Neuste Nachrichten claims to know that Great Britain is willing to exchange Zanzibar for Samoa, and says that the idea could only be entertained if Great Britain was willing to cede Zanzibar, Witu and Uganda, and even then the surrender of Samoa would be a source of great annoyance to Germany.

The Vossische Zeitung says that the suggestions of the Neuste Nachrichten are proof of the ambition engendered by Chancellor von Hohenlohe's colonial program.

Settlement In Sight.

LONDON, Dec. 21.—A correspondent of the Times states that the affairs of the British East Africa company appear to be approaching a settlement. The government, he adds, favors making a payment of £200,000 to the company for the complete cession of the latter's rights on the coast and in the interior. The company states that it has spent £450,000. Several alternative schemes are being discussed, and it is believed that a settlement is not far distant.

Credentials Were Defective.

LONDON, Dec. 21.—In a leader this morning, The Times says that the tone of the letter of Li Hung Chang to Mr. Detring was so remarkable that it could hardly be expected that Japan would enter into negotiations. It adds that it is evident that Mr. Detring had no credentials from the emperor of the direct and positive kind that would have been required in any negotiations with a European state.

An Alleged Hypnotizer.

MUNICH, Dec. 21.—Czestans Czynfki, a teacher of languages, was placed on trial here on a number of charges, among them being one of having hypnotized a lady and then marrying her, in order to obtain her fortune, and has been found guilty of forgery and of offending against public order. The court sentenced him to three years' imprisonment and to five years' deprivation of his civil rights.

A Hot Cricket Game.

SYDNEY, Dec. 21.—What is pronounced to be the most remarkable cricket ever played before in any part of the world was concluded here yesterday. Stoddart's All England eleven played against All Australia. In the first inning All Australia scored 586, of which Gregory made 201 runs. The Englishmen won the match, which lasted four days, by a score of 762 to 752, winning by 10 runs.

Believed to Be a Hoax.

PARIS, Dec. 21.—There is no truth in the story giving what is alleged to be the text of an Anglo-Italian agreement in regard to the Soudan and Morocco by which Italy is to occupy Khartoum and to take possession of Morocco, with the exception of Tangiers, which was to be, according to the story, a British possession. The whole matter is looked upon as a hoax.

Campania's Fast Time.

QUEENSTOWN, Dec. 21.—Steamship Campania, from New York, made the passage to Queenstown in 5 days, 9 hours and 18 minutes, reducing her best previous eastward record by 1 hour and 29 minutes. The Campania came within 40 minutes of equalling the best eastward record made by her sister ship, Lucania.

Statesman Lied.

HANOVER, Dec. 21.—Herr Leuss, a member of the reichstag, was convicted of perjury in denying charges of adultery in the divorce proceedings brought by Dr. Schautz against the latter's wife. Leuss was sentenced to three years' penal servitude and five years' deprivation of his civil rights.

Will Be Accepted.

VIENNA, Dec. 21. — Dr. Wekerle, the Hungarian prime minister, has tendered the resignations of himself and his cabinet to King Francis Joseph. His majesty has as yet made no reply to the communication, but he will doubtless accept the resignations.

Dr. Balfour's Letter Discredited.

LONDON, Dec. 21.— There is not the slightest reason to suppose that Robert Louis Stevenson is alive. The letter which Dr. Balfour has written, saying that he believes Mr. Stevenson is not dead, is merely personal opinion.

Tariff Coming Down.

BRUSSELS, Dec. 21.—The government announces that it will propose a considerable reduction in the sur-tax on sugar. It would also reduce the drawback on candied sugar.

Settled at Last.

LONDON, Dec. 21.—The long-pending dispute in the tin plate trade in south Wales has been settled, the masters and men agreeing upon a 10 per cent reduction in wages.

Needs to Be Confirmed.

SYDNEY, Dec. 21.—It is stated here that the real Sir Roger Tichborne has been found in an insane asylum at Paramatta under the name of William Cresswell.

Out of Prison.

NEW YORK, Dec. 21.—Ex-Justice Richard V. B. Newton of Gravesend will be released from the Kings county penitentiary this morning, having completed his nine months' imprisonment for participation in the McKane election frauds. He married a Coney Island girl a little while before he became a convict, and when he rejoined his wife today he saw his bouncing baby for the first time.

Summoned to Court.

HAVERHILL, Mass., Dec. 21. — Summonses were issued upon all of the hotel keepers of the city holding licenses to appear in court to answer to charges of illegal selling. The raid has caused consternation among the proprietors.

GOLD BUGS' HANDS

Said to Be Visible In the Plans For the Defeat of Carlisle's Bill.

WASHINGTON, Dec. 21.—Secretary Carlisle was again at the Capitol yesterday in consultation with the Democratic members of the committee and other friends in the house, explaining certain provisions of the bill which are being objected to by the bankers in New York and the east.

These bankers do not hesitate to assert that the Carlisle currency plan is the cause of the disturbed condition of the gold market in the money centers. They think it remarkable that the secretary should at one moment call for bonds to supply the treasury with gold and at the next urge legislation, the very fear of which began to cause withdrawal of gold.

It is asserted by leading Democratic representatives who favor the secretary's currency plan that there is a conspiracy among the bankers to create an unfavorable condition of affairs by withdrawing gold from the treasury and hoarding it, and thus make it appear that the cause for this was the apprehension of the adoption of this currency plan. This is pointed to by facts that show that a good deal of gold is finding its way into bank vaults.

Some of the bankers in their communication assert that the effect of the passage of the pending bill would be to precipitate a financial convulsion far greater than that which occurred in the summer of 1893. One prominent banker expressed the opinion that if the plan were adopted, the circulation of the national bank notes would practically come to an end.

SAM BROWN'S "BOMB"

Failed to Have the Desired Effect Upon a Toledo Bank President.

TOLEDO, Dec. 21.—A shabbily attired young man entered the Second National bank, and walked directly into the private office of George W. Davis. Inquiring if Mr. Davis was president of the bank, and receiving an affirmative reply, the stranger said: "Well, I'm a poor man and want some money."

"You cannot have it, sir," Mr. Davis replied.

The stranger pulled from his pocket a round package, and holding it above his head, shouted: "This is a bomb. If you don't give me money, I'll smash it on the floor and kill both of us."

Mr. Davis jumped to his feet and ordered the man out of his office. The noise brought the clerks to the rescue, and the man was secured and taken to the station house, where he is held on suspicion. He gave the name of Sam Brown, born in Russia, but residing in New York city. The bomb was a large orange, wrapped in paper.

At His Old Tricks.

ST. MARY'S, O., Dec. 21.—John L. Sullivan reached here yesterday. Members of his company groomed him all they could before his appearance last night, after which he cut loose again. While waiting on the depot platform at Lima yesterday Sullivan assaulted Officer Wingate and Expressman Devoe. The latter ran into his office for a gun, when members of the Sullivan company hustled the pugilist out of the way. Sullivan started on his spree early in the week and has been uncontrollable.

Politics Eliminated.

ST. JOHN'S, N. F., Dec. 21.—A most rigid inquiry into the affairs of the Commercial bank will be held. The trustees anticipate that the winding up will be completed within a couple of months, unless legislative intervention is secured. All the bank's debtors who have overdrawn their accounts will so far as possible be compelled to make immediate payments. Party politics are being excluded from the settlement of the bank's affairs.

A Poor Showing.

OTTAWA, Dec. 21.—Official trade returns for the first five months of the present fiscal year reveal continued depression. The falling off in trades total amounts to nearly $10,000,000. The total imports, compared with the corresponding period of 1893, show a decline of $7,219,817. Total exports show a decrease of $2,314,758, or a total decrease of both imports and exports of $9,534,575, equal to $23,000,000 for the year.

Weavers Becoming Restless.

NEW BEDFORD, Mass., Dec. 21.—A meeting of the Cotton Weavers' Protective association of this city has been called for the purpose of reviewing the condition of the cotton goods trade and to consider the advisability of making an early demand for a restoration of the scale of wages paid previous to the cutdown of last August, which resulted in the big strike. The meeting will probably vote to make some demand.

Defaulting Teller Tait's Case.

NEW YORK, Dec. 21.—John R. Tait, the defaulting teller of the Chemical National bank, was arraigned in court yesterday. His counsel alleged insufficiency of grounds for the indictment, and the argument was set down for next Monday. It is said that Tait is suffering from incipient paresis.

In the Interest of Stockholders.

NEW YORK, Dec. 21.—Messrs. Sternberger, Fuld & Finn have been requested by stockholders of the Whisky trust to issue a general appeal to stockholders to combine for mutual protection, and are prepared to assist in forming a stockholders' protective committee.

Canadians Clamoring For Bread.

MONTREAL, Dec. 21.—The crowd of unemployed, who two days ago clamored for bread at the city hall, returned yesterday. They were received by a strong force of police to prevent them getting into the hall. The aldermen promised that the city would give them work.

Not Ready For Trial.

NEW YORK, Dec. 21.—The trial of Police Captain Westervelt, charged with having permitted policy shops to operate in his district, was called before the board of police commissioners yesterday. It was postponed to Jan. 15.

Will Be a Cup Race.

NEW YORK, Dec. 21.—The American cup committee cabled yesterday that they would accept the eight months' notice and leave to the Royal Yacht Squadron the decision about the deed of gift.

Wollaston Sociable.

The regular monthly sociable of the Wollaston Unitarian society was held in the vestry on Thursday evening. There was the usual large attendance, both at the supper and at the entertainment. The menu was out of the ordinary run of such things. It was planned after an Australian ballot.

At the entertainment which followed there was some excellent music and reading. Mrs. Frank A. Page and Mrs. Edgar A. King sang solos; Miss Packard played with her usual good taste selections upon the piano; Mrs. John H. Litchfield, Jr., held the close attention of the audience while she read a selection; and Mr. Wallace Bennett recited in good style a selection.

The committee consisted of Mrs. Thomas F. Mitchell, Mrs. Herman Wieting, Mrs. Wm. Logan, Mrs. Seymour Field, Mrs. Chas. S. Comins and Mrs. M. E. Merrill.

Granite Commandery.

The semi-annual election of officers of Granite Commandery 182, United Order Golden Cross, took place at Faxon hall, on Wednesday evening, Dec. 19:

N. C.,—A. F. McLeod.
V. C.,—Lady E. Walker.
Prelate,—James F. Merrill.
K. of R.,—Henry Chubbuck.
F. K. of R.,—James H. Webb.
T.,—Lady R. Bachelder.
W. H.,—Levi D. Berry.
W. I. G.,—N. Q. Bachelder.
W. O. G.,—Lady B. Porterfield.
Rep. to Grand Commandery,—Ed. O. Pierson.
Alternate,—Henry Chubbuck.
Trustees,—N. Q. Bachelder, A. F. McLeod, R. McLennan.
Organist,—Effie L. Rhines.

Meetings are held on the first and third Wednesday evenings in each month.

Severely Burned.

A little child of Mrs. John Gregory of Brackett street was seriously if not fatally burned Wednesday. Mrs. Gregory left her infant in a cradle in charge of a three year old boy while she went out doors for a few moments. While she was out the boy became possessed with some matches, and with these he set the clothing about the helpless infant afire.

The fire thus started was burning briskly when the grandfather came in and lost no time in extinguishing the flames; thus saving the infant from a horrible death, although as it is the child was severely burned about the limbs and body, and its recovery is doubtful.

Mischievous Boys.

Atlantic is not alone in the fact of church windows being stoned, presumably by boys. Several holes have been made in the windows of the Methodist church at West Quincy, during the season. The boys stand at a safe distance, and with his little sling, makes sad havoc. We have been requested to mention this in these columns in hopes that boys would entirely refrain from this use of their rubber string and stone.

THE LATEST OF YEAR

The Fire Department Order Caused Long Debate in City Council.

VOTE TO PURCHASE SCHOOL LOT

Several Other Important Matters Before the City Fathers Last Evening.

The City Council handled matters in a business-like way Thursday evening. Important subjects received the consideration due them, and the full discussions prolonged the meeting until about 11 o'clock.

Twenty-one members were in attendance, the absentees being Councilmen Babcock and Litchfield.

Communications.

The Board of Registrars reported the result of the recount of votes for Mayor, Councilmen at large, and Councilmen in Ward Three. The LEDGER has already noted the changes.

Mayor Hodges forwarded a communication of the Commissioner asking a transfer of $300 from lights to streets. To Committee on Finance.

The Mayor also forwarded the following communication from the Principal Assessor:

We desire to call your attention to the fact that the duties of the Assessors are growing more arduous every year, and by recent legislation a portion of the duties of the Board of Registrars of Voters has been transferred to them. Although the assessors constitute one of the most important and responsible boards of the city, it is exceedingly difficult to induce proper and suitable citizens to serve in that capacity, because the time expended is so great and the salary so small, and we respectfully ask you to increase the salary of the Principal Assessor to $600 per annum, and the Ward Assessors to $350 per annum.

Councilman Bigelow offered an order amending the ordinance as asked, which was given one reading and referred to the Committee on Salaries.

Auditor Hall reported the appropriation for interest exhausted, and that for election expenses not sufficient. To Committee on Finance.

The Mayor forwarded a petition of Mrs. John La Pierre for increase in award for damages caused by widening of Fuller's lane from $750 to $1200. Referred.

Petitions of William Symonds for State Aid, and Electric Light Company for location of pole on Chestnut street were referred.

Reports.

The Committee on Streets reported an order for location of poles on Spear street. To second reading.

The same committee reported an order for relocation of Quarry street, which was given one reading.

Reference to the next Council was reported on the petition for closing Miller stile, and acceptance of Miller Stile road. Accepted.

The Committee on Streets reported that the order for extention of Walker street ought to pass. The rules were suspended upon motion of Councilman Moxon and the order unanimously passed.

The Committee on Salaries reported amendment to ordinance concerning salaries providing $3 per building for inspection of plumbing.

Fire Horses and Men.

A long discussion was opened by the report of the Committee on Finance, that the order ought not to pass, providing horse and harness and two permanent men for Hose 3 and 4.

Councilman Federhen inquired if the committee objected to the loan or the idea itself.

Councilman Moxon said the committee were opposed to expenditure.

Councilman Federhen was surprised. The trend was toward permanent men and horses, and they were expected on the completion of new hose houses. While Chief desired two men he believed one enough. The carriage weighed 3,800 and it was out of the question for men to pull, and we could not depend on a horse now.

Councilman Baker believed all wards should have permanent men and horses.

Councilman Moxon said Chief Williams had appeared before the committee and advocated two permanent men for all pieces. Ward Two, however, needed them the feast, as central apparatus covered it. Mr. Moxon showed by figures that permanent men and horses for all pieces would increase the tax rate 37 cents each year.

Councilman Shackley inquired as to value of horse on streets; but Chairman Holden could give no information.

Councilman Robbins favored permanent men and horses in Wards 2, 4, 5 and 6.

Councilman Holbrook opposed report, Believed horses could be profitably used on streets.

Councilman Anderson favored report because of the tax rate. It was a question if city can afford. The needs of Wards Four and Six were the most pressing. Hoped all might soon have permanent horses and men.

Councilman Federhen asked how much the improvement in Coddington and Adams street if passed would have increased tax rate.

Councilman Anderson replied that they were to be met by loan which would not fall due until 1901.

Councilman Holden was opposed to order unless provisions were made to use horses and men upon the streets.

Councilman Adams believed they could thus be utilized, but would effect no saving in department of public works. But can we afford it? Fire Department had been efficient and had come out better than the financial end of the city. Did not think city could stand 37 cents more on tax rate.

Councilman Rooney was not in favor of mixing street and fire departments, but would rather do that than go without. Thought street sprinkling could be done by the horses and men.

Councilmen Bigelow had come to the conclusion that Ward Two was well covered, in fact he had been told that no company was needed at Quincy Point. Dorchester was no better covered than Wards One, Two and Three now are.

Councilman Johnson thought there was no question but Ward Two needed a fire company, and it was of no use without a horse.

Councilman Federhen thought the Chief had made contradictory statement. To him he had advocated using the steamer less and outlying companies more. It looked as if Ward Two could not get anything, and that the only way to secure anything was by a deal with other wards as was too often the custom.

Councilman Moxon said emphatically that the assertions of deals was an insult. He knew of no deals while he had been a Councilman. Would vote for order if horses could be utilized.

Councilmen Shackley thought the services of men and horses on streets would offset increase of 37 cents in tax rate.

The adverse report of the committee was rejected, and it was voted 14 to 6 as follows, to lay orders 172 and 173 on the table:

YEAS,—Adams, Anderson, Baker, Bigelow, Clark, Holbrook, Holden, Lennon, McKeon, Moxon, Robbins, Shackley, Snow and Waterhouse—14

NAYS,—Federhen, Johnson, Lamb. O'Brien, Rooney and Sullivan—6.

The report relative to order 174, concerning salaries was not accepted.

Orders 172, 173 and 174 were then taken up for action.

Councilman Moxon offered a substitute for the three, increasing the appropriation to $1,500 and providing horses, carts and men for all wards.

Councilman Federhen raised the point that the order could not be a substitute, and it was ruled out of order.

Councilman Baker moved amendments to order 172 which sought to accomplish the same thing, but each was lost.

Order 172 took second reading.

Order 173 for transfer of horse in Ward Four from Street to Fire Department was passed.

Order 174 concerning salary of new permanent men was lost. Later this was reconsidered, and laid upon the table.

Order 172 was amended to provide for cost of horse from receipts from sale of lot in Ward Two, and the order was passed 11 to 10 as follows:

YEAS,—Barker, Bass, Federhen, Holbrook, Johnson, Lamb, McKeon, O'Brien, Rooney, Shackley and Sullivan—11.

NAYS,—Adams, Anderson, Bigelow, Clark, Holden, Lennon, Moxon, Robbins, Snow and Waterhouse—10.

New Business.

Councilman Adams offered an order that the Mayor be authorized to issue a deed to the Commonwealth for land of the Adams Temple and School Fund, taken for the Metropolitan Park Commission. The price received to be $5,000. Passed.

Upon motion of Councilman Moxon it was voted that when the Council adjourn it be until Thursday evening, Dec. 27.

Councilman Lennon offered an order that the Commissioner of Public Works cause the Electric Light & Power Co. to remove its poles from the inside to the outside of the sidewalk on Liberty street, between Quincy streets and Brooks avenue. Passed.

Upon motion of Councilman Holden the order granting a location to the street railway on Franklin street was taken from the table, and upon motion of Councilman Moxon it was recommitted.

School Lot at Rail.

Councilman Shackley for the Committee on Public Buildings reported that a lot of land could be procured on the south-east corner of Willard and Robertson streets. There were two lots which he described which could be purchased for $2500 each. He considered the Sargent lot however the best, and that could be purchased for $3000. Report accepted.

Upon motion of Councilman Shackley, the order relating to the purchase of schoolhouse lots in West Quincy was taken from the table.

Councilman Moxon was opposed to the Sargent lot. He had the opinion of four experts that it would cost considerable to remove the ledge on the lot. The lowest figure was $4,000 and the highest $5,000.

Councilman Shackley said he had lived among those rocks for 40 years and he could not see the obstacles. He had

Newsy Items of a Busy Association Which is Doing Good.

A small company of Swedish young men enjoyed the hospitality of the Association last Saturday evening.

The Association rooms will be open Christmas day and evening.

Mr. William Duff, teacher of the class in monumental drafting has been elected teacher in drawing in the Barre, Vt., public schools, where he entered upon his duties the first of this week. Mr. H. W. Beattie has been secured to fill the vacancy.

"Is it Manly to be a Christian" will be the subject discussed at the men's meeting, Sunday, Dec. 23. Mr. J. Roland Corthell, will open the discussion. All young men will be welcome.

"The Music of the Iroquois" will be the subject of an illustrated lecture to be given in the Association rooms, Thursday evening, Dec. 27, by Mr. Frederic A. Lyman, director of music in the Syracuse public schools; Associate and Examiner in American College of Musicians, and Vice President of N. Y. State Music Teacher's Association. A full set of Indian musical instruments, including one over one hundred years old is used to illustrate many traditional and authentic customs and songs of the six nations. Adult members of the association and auxiliary will be admitted by showing paid up membership ticket.

The ladies of the auxiliary will keep "Open House" New Year's day, from 4 to 9 P. M. The Malden High School Harmonica club, consisting of seven members, will furnish the music.

The men's meeting, Sunday Dec. 31, will be unique in character and unusally interesting to all young men. Mr. Roberts' subject will be, "The Young Man. His Physical and Spritual Nature, or How to make the most of life." The talk will be intensely practical, showing how, by the proper care of the body, young men can accomplish the greatest good in life. In short, it might be called "The gospel of Good Health." The meeting will be held in the gymnasium and Mr. Roberts will speak in his gymnasium suit, that he may illustrate what nature will do for the man who takes care of his health.

Disgraceful.

To the Editor of the Daily Ledger:

Lady patrons, who stop at Quincy Adams depot, often express their surprise and indignation at the rowdyism which prevails evenings, about said depot.

It appears that a certain set of giddy young girls invades the precincts of the station in the evening hours. Their immodest behavior as a matter of course, attracts the attention of a lot of cigarette puffing, tobacco eating youths, who seem to think that profanity and obscenity is smartness. The young "Knights-errant" present themselves in the ladies' waiting-room, or talk their abominable lingo through the open doors to the giddy maids afore-mentioned. For variety there is tapping on the window panes, cat-calls, whistling, etc.

Although there may not be what is deemed by some, sufficient reason for the officials of the station to interfere, yet there is certainly very urgent reasons for parents of these youngsters to use their authority, and use it at once.

Dr. Parkhurst Talks Plainly to the Lexow Investigating Committee.

CREEDEN'S $15,000 CONTRIBUTION

Shared by Martin, Voorhis and Reppenhagen.

NEW YORK, Dec. 21. — Policeman Mooney, formerly attached to Captain Creeden's command, yesterday testified before the Lexow committee that Reppenhagen had told him that ex-Assemblyman Martin and Police Commissioner Voorhis were each to receive $5000 of the $15,000 paid by Captain Creeden to secure his appointment. The remaining $5000 Reppenhagen is alleged to have saved for himself.

Rev. Dr. Parkhurst was present yesterday, and full of indignation, because of the failure up to this time to call Superintendent Byrnes to the witness stand. "My views on that subject are easily understood," said the doctor. "Byrnes should certainly be made to take the stand. He is the impersonation of the police department, the very man who should be made to tell, like any other witnesses, what he knows of the crimes alleged here."

It has been stated that when Superintendent Byrnes was called as a witness before the committee he would be questioned simply as an expert in police matters. It was said that he would be asked to suggest remedies, and would co-operate with the committee to effect legislation that would remedy the conditions now complained of.

The outline of what is said to be the intention of Mr. Goff and the committee regarding Superintendent Brynes has evidently stirred Dr. Parkhurst to his innermost depths, and for a time it looked as though there would be a clash between the doctor on one side and Mr. Goff and the committee on the other.

Dr. Parkhurst's Determination.

"To call him to the chair," said the doctor, "and not question him as to his character, is simply placing a stamp of approval on his official acts."

It was predicted in the courtroom that unless the superintendent was handled as the doctor thought he ought to be, without gloves, that the reverend gentleman would practically bolt the whole proceedings and leave in the minds of Mr. Goff and the committee no doubt as to what he thought of their action.

Before the session Mr. Goff and Senator Lexow had a conference outside the courtroom. When they entered the room Dr. Parkhurst held a short but earnest consultation with Mr. Goff. When the conference was ended they both shook hands cordially, and the doctor wore a confident smile.

Police Captain Strauss — like Captain Allaire — who testified before the committee Wednesday and yesterday, made a flat denial of all of the charges Lawyer Goff hurled against him. He denied positively that he had ever paid a cent for his appointment as captain, and knew nothing whatever about the collection of blackmail in his precinct.

He admitted having promised to make Policeman Wallensten, a cousin of his, a wardman, if he secured his appointment as captain, and that he had borrowed $2000 from that officer a few days before his appointment was made.

Forefathers' Night.

BOSTON, Dec. 21.—Last night was observed as forefathers' night by the Congregational club of Boston by a meeting and supper at Music hall. About 800 were present. Governor Greenhalge, in a speech, said that the good, peace and order of the commonwealth was advanced by gatherings of this nature.

Strikers on Parade.

HAVERHILL, Mass., Dec. 21.—Striking lasters, to the number of 1300, headed by a brass band, paraded the streets last night, being joined by representatives of other departments of the shoe factories. Transparencies bearing such inscriptions as "No Pullman for us," "The end is not yet," and others, were displayed.

Putnam's Trial Begun.

CONCORD, N. H., Dec. 21.—The trial of Warren F. Putnam, charged with wrecking the Granite State bank of Exeter, came up in the United States circuit court yesterday. His counsel moved to quash the indictment, but Judge Aldrich left the motion open and ordered the case argued.

Hoban's Mad Act.

BINGHAMTON, N. Y., Dec. 21.—Will J. Hoban, one of the wealthiest citizens of Waverly, fired at his father with a revolver, but missed, and then turned the weapon upon himself. The ball lodged near the heart, and the young man is dying. No cause for the tragedy is known.

Toronto Wants It.

TORONTO, Dec. 21.—An effort is being made to have the Dempsey-Ryan fight, which was to have taken place in New Orleans last Saturday, but was cancelled, owing to the fatal termination of the Lavigne-Bowen fight, pulled off in or near this city.

McKean's Stealings.

NASHUA, N. H., Dec. 21.—The report of Bank Examiner Dorr will show that Cashier Frank A. McKean of the Indian Head National bank embezzled $75,000. Besides this he took many thousands from his friends. He has not been found.

Death In Dentistry.

AMESBURY, Mass., Dec. 21.—George Sargent of Merrimac, aged 19, took vegetable vapor yesterday for the extraction of two teeth, and failed to recover, dying last night. No blame is attached to the dentist.

TO BE INVESTIGATED.

The Senate Will Look Into the Charges Preferred Against Clark.

WASHINGTON, Dec. 21.—The senate held a brief executive session yesterday to permit Senator Harris of Tennessee to enter a motion for a reconsideration of the vote by which the nomination of Judge Clark to be a district judge of Tennessee was confirmed. Mr. Harris said that he had been informed of serious charges against Mr. Clark, which he thought should be investigated while there was yet opportunity. This opinion was found in the fact that the time for reconsideration had not elapsed since his confirmation, which took place on the 18th inst.

Senator Harris' motion was agreed to by general consent, and the matter was referred to the judiciary committee for investigation. It is understood that the charge made against Judge Clark is that the firm of which he is a member accepted fees from both sides of a case in court. The senate adopted the resolution for reconsideration, with the understanding that its action did not imply acceptance of the charge, but merely desired to investigate it in the interest of the government and of Clark himself.

Fourteen speeches in connection with the presentation to the United States by the state of New Hampshire of the marble statues of General John Stark and Daniel Webster were delivered in the senate. The only legislative business of any importance transacted was the passage of a bill making deficiency appropriations for the census bureau and the department of justice for the current fiscal year.

The debate on the currency bill was comparatively dead in the house on account of the exercises in connection with the acceptance of the statues of Webster and Stark. Messrs. Sperry and Brosius championed and opposed the measure, respectively. The former was opposed to various features of the bill, but declared his intention of voting for it if nothing better could be secured.

Baby Farm Unearthed.

HARTFORD, Dec. 21.—At a special meeting of the state board of charities, Secretary Whittelsey presented a detailed report of a baby farm he has recently discovered at North Canaan, about a mile from the Massachusetts line. The place is an old farmhouse, occupied by Abel Stevens and his wife. It is in an isolated situation. The investigation shows that children have been received at Stevens' place from all parts of the state and Massachusetts. There are six children in the house at the present time.

Imprisoned By Turks.

HARTFORD, Dec. 21. — Malcon Aghamalian of this city has obtained the names of some of the American citizens who have been imprisoned by the Turks. They include: Rev. Mr. Papazian of Rawley, Mass., who is imprisoned at Auteb; Kavork Menisian of Troy, N. Y., and Garebad Menisian at Tokat; Sarkes Manugian of New York at Marzevan; Dickison Tarzian of Troy, N. Y.

Poisoners Heavily Punished.

BURLINGTON, Vt., Dec. 21.—Mrs. Effie Whalen and Mrs. Rose Fournier, convicted of manslaughter in administering to Mrs. Fournier's husband tartar emetic as a medicine, which resulted in his death, were each sentenced to serve 20 years in state prison at hard labor.

Bank the Prosecutor.

NEW YORK, Dec. 21.—In default of $2500 bail, John H. Tiernan, a well-to-do Connecticut farmer, was locked up here last night, a complaint having been entered against him by President George E. Jones of the Litchfield National bank of Litchfield, Conn., of forgery.

Fighting For a Divorce.

HARTFORD, Dec. 21.—Mrs. Catharine Moore of New Haven has filed a petition to the general assembly to be divorced from W. E. Moore, who is insane. The laws of the state do not allow dissolution of marriage ties by the courts on account of insanity.

Wanamaker's Psoition.

PHILADELPHIA, Dec. 21.—John Wanamaker says: "I am untrammelled as to both the Reading and the Lehigh Valley railroads, and if public interests demand that I should accept the presidency of either, I will do so."

To Revive Lacrosse.

CAMBRIDGE, Mass., Dec. 21.—Fifteen students of Harvard last night formed a lacrosse club with the intention of reviving the game. The men will endeavor to arrange games with other colleges in the spring.

SETTLE BY LUMP SUM

Is the Advice of Secretary Gresham In Behring Sea Claims.

IT WOULD SAVE TIME AND MONEY

In Addition to Being Satisfactory to All Concerned.

WASHINGTON, Dec. 21. — Secretary of State Gresham yesterday sent to the house, in answer to a resolution calling for an explanation of his reasons for arranging with Great Britain for the payment of claims of British sealing vessels, the following:

The undersigned is directed by the president to communicate to the house of representatives copies of the correspondence exchanged on the subject covered by the resolution, in which will be found a statement of the claims filed by Great Britain for damages sustained by British subjects by reason of seizure of their sealing vessels in Behring sea, or of being warned to cease operations therein.

The Paris tribunal of arbitration held that the United States had no right of protection of property in the fur seals in Behring sea outside of the ordinary three-mile limit.

Article 8 of the convention of Feb. 29, 1892, whereby the questions which had arisen between the two governments concerning the jurisdiction and rights of the United States in the waters of Behring sea, which were submitted to arbitration, recited that the high contracting parties had been unable to agree upon a reference which would include the question of the liability of each for the injuries alleged to have been sustained by the other, or by its citizens, in connection with the claims presented and urged by it, and that being solicitous that this subordinate question should not interrupt or longer delay the submission and determination of the main questions they have agreed that either may submit to arbitration any question of fact involved in said claims, and

Ask For a Finding Thereon.

Under this article the arbitrators unanimously found that a number of British sealing vessels were seized in Behring sea or warned therefrom by cruisers of the United States on the days and at the places in the special finding mentioned, leaving for future determination the questions as to the value of the said vessels or their contents, and the question as to whether the vessels mentioned in the schedule were wholly or in part the actual property of citizens of the United States.

If the plan of settlement raised by the president in his annual message is not acceptable to congress, the remaining controverted questions must be determined either by the organization of a joint committee or by negotiations between the two governments.

Experience has shown that international commissions are slow and expensive. Should such a course be resorted to, the evidence would be found mostly on the Pacific coast, widely scattered, and counsel would be needed to examine and cross-examine witnesses.

Side Issues Eliminated.

The question of indirect or consequential damage having been withdrawn from the tribunal of arbitration, the pending claims are for British vessels actually seized in Behring sea or warned out of it by cruisers of the United States. It will appear from the submitted correspondence that the agreement to pay a lump sum of $425,000 in full settlement of all demands was authorized to be made by the treaty, and that the award was proposed by this government. The amount is considerably below the damages claimed by Great Britain, exclusive of interest for a number of years.

If this agreement does not meet the approval of congress, and the disputed questions are submitted to any international committee, it is believed that the amounts allowed and the expense for the tribunal, including witnesses and the taking of their testimony, will largely exceed $225,000.

In view of the facts, and what may be reasonably expected as the result of a commission, the undersigned submits that a prompter final settlement of the vexatious controversy by an appropriation of the lump sum agreed upon is advisable. W. Q. GRESHAM.

Shutting Off Sunday Concerts.

BOSTON, Dec. 21.—As a result of the recent hearing on Sunday sacred concerts, the board of police revoked the licenses of the Howard Athenæum, the Palace theater and the Grand Dime museum, which allow those houses of amusement to give Sunday evening concerts. Action in the case of the Boston theater was suspended. The case of the Hollis Street theater has gone over for future consideration.

Rembert Was Incompetent.

WASHINGTON, Dec. 21.—The sensational story telegraphed from Atlanta, in which the inference was given that Ed Rembert, the Atlanta deputy collector of internal revenue, had been removed from office because of his connection with the whitecaps, is declared by Commissioner Miller to be untrue. Rembert was removed, he said, because of incompetency.

Report Probably Untrue.

WASHINGTON, Dec. 21.—The report that C. R. Breckinridge would resign his place as minister to Russia cannot be confirmed, and its correctness is doubted. It is said that Mr. Breckinridge has found the expenses of a diplomatic establishment at St. Petersburg very heavy. It is probable that the report came from this.

The Castine's Program.

NEW YORK, Dec. 21.—United States gunboat Castine will shortly proceed to Castine, Me., and will there be presented with a silver punch bowl by the citizens of that place. She will then return to New York and finish her preparations for a voyage to Brazil.

Deckhand Killed.

HARTFORD, Dec. 21.—Nicolo Lesizzo, a deckhand on the barge Volunteer, was found dead at the bottom of a hatchway last night, with a fractured skull. It is believed he met his death by accidentally falling into the hatchway.

Satolli's Part In the Matter.

WASHINGTON, Dec. 21. — Mgr. Satolli says, concerning the secret societies, that his only office in the matter was to transmit the communication exactly as it came from Rome, and that it involved no action or ruling on his part.

BASEBALL FINDINGS.

Barnie Reinstated and Pfeffer Rejected by the National League.

NEW YORK, Dec. 21.—A special meeting of the National Baseball board was held at the Fifth Avenue hotel yesterday. Several weeks ago this body virtually blacklisted Messrs. Barnie, Pfeffer and Buckenberger for being interested in the proposed new professional American association. At a subsequent meeting Buckenberger was reinstated, the board exonerating him from charges of treachery.

The board also desired to reinstate Barnie and Pfeffer, and with that object in view the meeting was held, at the conclusion of which it was announced that Barnie was reinstated, but that Pfeffer's disability would be continued.

While the board removed the suspension imposed on Barnie, it called the attention of all parties identified with the national agreement to the fact that Barnie declined to put himself on record as owing allegiance to the national agreement, and that they could give due notice of that fact and act accordingly. Barnie regarded this as virtually a request, if not a demand, that no club a party to that agreement should give him recognition or employment.

The findings were shown to Barnie. On reading them, he said: "I see they have reinstated me. I can act for myself in the future."

"You have reinstated me," said he to Byrne, "after insinuating to the clubs that I should not be employed. Upon what evidence was this decision reached?" Byrne declined to answer.

"You have joined here today," said Barnie, "to pull me down because I would not sign the document Mr. Young asked me to. I wouldn't sign it even if I were to be suspended. You know that I have always been an honest member of the League, and that is more than I can say for you."

"Here, gentlemen," said Mr. Barnie, addressing the reporters, "is the statement Mr. Young wished me to sign, but which I refused to do."

"And you took a copy of it," shouted Mr. Byrne, indignantly.

"Certainly," was the reply. "When I left Mr. Young, I not only submitted it to my lawyer, but copied it." The document read as follows:

To the National Board of Baseball Clubs:

GENTLEMEN—In appearing before you to make answer to certain charges made against me, and requesting this board to remove the disability imposed upon me by its action of Nov. 19, '94, in declaring me ineligible to be identified with any National agreement club, I desire to say that I was one of the framers of the original National agreement, and firm in the belief that the interests of the National game can best be subserved by the maintenance of the National Agreement of Professional Baseball clubs, I wish to declare my allegiance to the said National agreement club, now and for the future.

"I never asked for a hearing," said Barnie, "because it was unnecessary, as my actions were open and straightforward. They learned no evidence against me, and give this decision to destroy my business, while they are afraid to suspend me."

It is stated that Barnie will institute an action against the board for conspiracy in endeavoring to deprive him of a livelihood.

Drink Brought Disgrace.

NEW YORK, Dec. 21.—Edward L. Briggs pleaded guilty to the charge of grand larceny before Judge Martine and was sentenced to one year in the penitentiary. The prisoner's father, a clergyman, had been for years president of the Auburndale (Mass.) seminary. The prisoner had studied for the ministry, but had thrown away his chances through drink. For several years he was principal of the Rutgers school, a select uptown institution.

A Dastardly Deed.

MANCHESTER, N. H., Dec. 21. — Mrs. Mary Harrington, aged 65 years, an eccentric and very wealthy woman, was terribly assaulted in her own house by an unknown individual, whom she supposes to be one of her former tenants. She was savagely beaten and her clothing was nearly torn from her body. It is supposed that her assailant was looking for money. Mrs. Harrington generally carries large sums about her person.

Left Boston Behind.

BOSTON, Dec. 21.—Paul M. Swain, merchandise broker, has been missing from this city since a week ago last Tuesday. Several attachments have been placed on his property. To many of the firms with whom he has had business dealings for years it is a surprise that Mr. Swain should disappear, as he is known to have friends who would gladly have loaned him money to tide him over his troubles.

A Topeka Mystery.

TOPEKA, Dec. 21.—Mrs. A. D. Matson was found dead in her room yesterday. The indications are that the murderers first assaulted and then robbed her. The only person who seems to know anything about it, is a deaf and dumb colored man named George Knight. His brother is the only person who can understand him, and the two will be brought together at the coroner's office.

A Novel Suit.

BIDDEFORD, Me., Dec. 21.—A civil suit in the sum of $2265 was yesterday brought by George W. Wakefield of Lyman against Dennis O'Connor of this city to recover the value of a barn and its contents, burned by Alexander Briggs two years ago. It is alleged that Briggs was intoxicated when he set the fire, and that he purchased the liquor at O'Connor's drug store.

"A Common Gambler."

PITTSBURG, Dec. 21.—The grand jury returned five true indictments against George W. Irwin, the discretionary pool operator. The charges include misdemeanors, three counts; embezzlement, one, and larceny one. In the misdemeanor bill, Irwin is charged with being a common gambler, keeping a gambling house and inducing others to gamble.

Assets Cover Liabilities.

KEENE, N. H., Dec. 21. — The Read Furniture Manufacturing company of South Keene yesterday filed a petition in insolvency. Liabilities about $53,000; assets, $70,000. The principal creditor is the Keene National bank, which holds $39,000 of the company's paper.

Opposition to Gifts.

BOSTON, Dec. 21.—The board of police voted that this year the members of the State street bank squad, connected with the inspector's office, should not be allowed to accept the usual Christmas gift of money collected from bankers and brokers.

For Alleged Forgery.

PROVIDENCE, Dec. 21.—Stephen Tillinghast, 75 years of age, was arrested at Jericho on a warrant charging him with having forged pension claims. Tillinghast's home is in Scranton, Pa. He was visiting friends in Rhode Island.

DID YOU EVER

hear tell of a purchaser wanting to buy an imitation? Why do men who try to sell such articles speak of the act as "working them off?" Simply because people want the best, and it takes work and likewise deception to sell them the worst. This unpleasant experience may befall the housekeeper who determines to

TRY COTTOLENE

the new vegetable shortening. The healthfulness, flavor, and economy of this wonderful cooking product has won for it the widest popularity, which in turn has attracted the attention of business parasites who are "working off" imitations and counterfeits. THE CITY COUNCIL.

[Continued from fourth page.]

opinion of experts that lot could be put in condition for $1000.

Councilman Waterhouse was of the opinion that the Sargent lot was all right. He wanted to see the order passed.

Councilman Shackley said there was no need to dig a cellar, only to fill in around it.

Councilman Lamb said there was no quarry there, only a few bowlders.

Councilman Moxon still favored the two lots opposite. If you had a lot made for you it could not be better.

Councilman Holden hoped the order would not be hurried through, and that it would be put over until the next meeting that the matter could be looked up.

Councilman Rooney said the people of West Quincy were almost unanimous for the Sargent lot.

Councilman Adams moved the order be laid on the table. Voted. The vote was doubted and upon a yea and nay vote it was lost:

YEAS—Adams, Anderson, Bigelow, Clark, Holden, Johnson, Lennon, Moxon, Robbins—9.

NAYS—Baker, Federhen, Jr., Holbrook, Lamb, McKeon, O'Brien, Rooney, Shackley, Snow, Sullivan, Waterhouse—11.

Absent—Babcock, Litchfield.

The order was then passed to be ordained by the following vote:

YEAS—Baker, Bass, Bigelow, Clark, Federhen Jr., Holbrook, Johnson, Lamb, McKeon, O'Brien, Robbins, Rooney, Shackley, Snow, Sullivan, Waterhouse—16.

NAYS—Anderson, Holden, Lennon, Moxon—4.

Absent—Adams, Babcock, Litchfield.

New Ordinance.

Councilman Johnson offered an ordinance relative to the transfer of property.

City Solicitor Blackmur said the reason of this ordinance was that the mayor could have power to make conveyances and was simply in accordance with similar ordinances of other cities.

Referred to Committee on Ordinances.

Upon motion of Councilman Baker, the orders transfering $1300 from the appropriation for miscellaneous school expenses to that for books and stationery, and $100 from cooking to that of transportation were taken up and passed to be ordained.

Adjourned at 10 47.

At Christ's Church.

On Christmas eve, Monday night, there will be a children's festival in the church at 6 o'clock, with brief service and address by the Rector. Christmas Carols will be sung, and presents will be distributed from a tree. The tree will be lighted at 6 30.

On Tuesday, Christmas day, morning prayer, sermon and holy communion at 10.30. The special Christmas music will be under the direction of Prof. Wrigley, the morning numbers being:

Te Deum.	Stainer in A
Benedictus.	Stainer in A

Communion Service in A and D.

Anthem,—"Drop Down Ye Heavens." Barnby

Hallelujah Chorus. Handel

Sunday, Dec. 30, the above programme will be repeated at the 10.30 service, and at 7 P. M. the programme will be:

Organ Voluntary.

"Offertory on Two Christmas Carols" Guilmant

Magnificat, Nunc Dinietlis, Stainer in A

Anthems,—"Drop Down Ye Heavens." Barnby

Hallelujah Chorus, Handel

Voluntary.

"Second Offertory on Two Christmas Carols." Guilmant

Organ Recitals.

There will be a series of organ recitals at Christ's church on Thursday evenings during January, admission without card.

On Thursday evening, Jan. 24, there will be a short evening prayer and performance of a cantata "Rebeka" by Barnby, by a chorus of sixty voices, the solo parts being sustained by the soloists from the Church of the Advent. Admission free by card.

The organist for the first recital, Thursday, January 3d, will be Miss Ada G. Croft of Boston, pupil of Mr. Wrigley, assisted by Mr. Edward Phillips, baritone vocalist of Boston.

The Lutheran Church.

Christmas will be observed by the Swedish Lutheran church next Tuesday in an appropriate manner. In the morning at 5.30 o'clock there will be a special service conducted by the pastor, Rev. Mr. Johnson, and in the evening there will be a Sunday School with selections by the male choir and Swedish Lutheran band, to be followed by the distribution of Christmas presents to the children from two large trees. The interior of the church will be gaily decorated for the occasion. Everybody is invited.

Anyone who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles. For Sale by Druggists and Dealers Everywhere.

—A man employed at Bradley's works at North Weymouth, went to the depot in that village, Thursday afternoon, to take a train, when he suddenly dropped dead.

THE HOUSEHOLD.

The Artistic Selection of Wall Paper and Coloring For Woodwork.

"I have no sympathy with the common idea that you decrease the apparent height of your room by deep friezes. Suppose you do suffer from the optical delusion of losing six inches. Is there not a sense of quaintness and comfort in a room that is low? At any rate, we all feel how pleasant and cozy are the old farmhouses with low timbered ceilings. This sense of snugness is well illustrated at the chateau of Blois, where the timbered ceilings of the rooms are comparatively low and are colored a sea green blue, to which is superadded an abundance of colored and stenciled ornament," says a writer in The Decorator and Furnisher, the source of the following:

All papers used in staircases and other apartments where the light is defective should have their ornament bold and strong, delicate combinations of tones being reserved for rooms well lighted. There is a tradition that all ceilings should be light in scale. Well, many should be, but they may be successful in deeper and richer tones.

Remember the blue of a summer sky sometimes as a suggestion. Gold on ordinary papers, when perfectly flat, is not always pleasant. The true glory of gold refuses to express itself except on undulating surfaces, where its metallic luster is developed.

In coloring the surrounding woodwork of rooms it is a comparatively safe rule to select a tint from some section of the ornament in the wall paper. In selecting wall, frieze and ceiling papers

SECTION OF NURSERY FRIEZE.

it is well that the wall paper should be the darkest in tone, the others ascending in the scale of light and each having the same tint of color running through, but in varying degrees. This is recommended as avoiding an effect of disturbed harmony, but possessing a color instinct daring arrangements of contrasts may be accomplished with success.

It is an error to think that on a ground of strong color our pictures suffer. If we take care that our areas of color are flat and contain some sense of broad unity in the whole scheme, this will not occur. These backgrounds may be as strong as you like if the parts are well balanced and each color of pretty near the same depth of tone. Gold or black picture frames are a sufficient separation.

The old Venetians reveled in the fullness of tones. Why should we not follow their example and take suggestions from their source of inspiration, which was the barbaric splendor of eastern color? We all recognize and admire the redundant richness of color as found in Persian fabrics, Japanese lacquers and Moresque tiles. If this wealth and brilliancy is a delight in sunnier lands, it should be doubly welcome to us, where the needs of the joys of color are all the greater.

In a delightful nursery frieze the repeat consists of two panels, each containing two attractive children whispering secrets to one another. It is certainly a wide awake idea for the delectation of the rising generation.

The Tyrant Potato.

"Personally I should not care if I never saw another Irish potato," said I to a friend. "And nobody in my family cares particularly for them, yet somehow, like every other housekeeper, I feel obliged to keep them on hand and have them in one shape or another upon the dinner table every day."

"Your servants probably could not support existence without them?"

"On the contrary, I believe they prefer almost any other vegetable. Cold potatoes are invariably among the left overs."

After which colloquy I bought a peck and ordered them to be stored in the cellar for family consumption, writes Marion Harland in Harper's Bazar.

Mrs. Rorer declares the potato to be neither wholesome nor elegant. I add to these disqualifications for the place of universal favorite unpalatableness per se. When unripe, it is like chewing gum to the teeth and hot lead to the stomach. Medical authorities warn the public of the middle states against eating new potatoes before the Fourth of July at the earliest. Until they boil mealily they clog and irritate digestive canals. Yet at this stage of an arrogant career they are more in demand and command higher prices than at any other.

Bread is the housewife's strong staff and butter her beautiful rod of sovereignty, yet domestic statistics prove that in the great middle class there are not a few households in which the annual supply of potatoes costs as much as the flour or the butter purchased in the same time.

Labor Saving Devices.

A New York woman is said to have invented a darning machine, a miniature loom, which will darn any hole 3½ by 5 inches or less, and do it so neatly that no rough edges will remain.

A new device is a cake beater, by which it is claimed that it will mix any kind of cake from griddle cake to the finest fancy confection in one minut. Besides the saving of time and labor over the old spoon process it does not leave one with a tired back and arm and a lot of dishes and spoons to clean. In appearance it is somewhat like a flour sifter.

VACCINATION MAD.

Washington's Recent Smallpox Scare a Bonanza For the Apothecaries.

During the recent smallpox scare in Washington one apothecary sold 18,000 "vaccine points" within 24 hours. On a Friday, when the general fright was greatest, the supply gave out. Physicians telegraphed in every direction for points. In the drug store referred to a big crowd was waiting. A small quantity arrived, and the people scrambled for them. The scene was a most extraordinary one. Holding their money in their hands over their heads, men, women and children struggled like anxious bettors at a race track. One would have supposed that their lives depended on procuring the points, of which there were not nearly enough to go round.

"Here's my money!" yelled one man.

"You promised me four points yesterday!" cried a woman.

"I'll pay you a dollar apiece for six points!" shouted another man, evidently the anxious father of a family.

In one day of the scare the apothecary said that he had made more money than he had ever made in two days out of his business. Somebody came to him and offered to buy out his entire stock of points at the figure he charged for them retail. The druggist refused because there was reason to believe that an attempt was being made to corner the supply.

A well known physician in town ascertained that a patient of his possessed an extra vaccine point. He went and begged it of him. One little colored boy called at the Emergency hospital and asked, with tears in his eyes, to be vaccinated.

"You go and get one of those things," said the surgeon in charge, "and I'll vaccinate you."

The boy went to the apothecary and begged a vaccine point. Then he returned to the hospital and was operated upon.—Washington Star.

LONDON'S REIGN OF TERROR.

A Mysterious Veiled Woman In Black and Her Thirst For Blood.

Two ladies of the writer's family were making calls just after dusk yesterday in Kensington. They had some difficulty in finding the new address of a friend, and not seeing a policeman stopped to inquire the way to Queen's Gate Terrace of a group of four women who happened to be approaching. Before they had time to speak two words of their question the four women turned and fled, with every evidence of sudden terror. The ladies walked on a few steps, met two more women and attempted to make the same inquiry. The second couple seemed seized with even greater alarm than the first group. They gathered up their skirts, ran across the street and away without waiting to hear the question.

This extraordinary power to put British maids and matrons to flight by a word so amused the two American women that they tested it once or twice more, with the same result, except that one woman retained sufficient self possession to call back, "Don't know," over her shoulder as she ran away.

The incident furnishes striking proof of the literal reign of terror now prevailing in one of the most fashionable quarters in London by reason of the series of strange crimes about which the cable has already told you something. A mysterious veiled woman in black, whose mania is to stab others of her sex, has appeared no less than five times within a week in a district less than a half mile square, and although scores of detectives are lying in wait for her she is still at large. In each case she has approached her victim with an inquiry about a certain street. Her first victim lost an eye, and the second was stabbed in the neck, narrowly escaping a fatal wound. The fear of her was now widespread, so that the others she accosted fled before she could strike them. There is some suspicion that she is a small man in disguise, as all describe the person as having a gruff voice, but the police believe it is a woman, and that she is undoubtedly insane.—London Letter.

Lining Their Winter Duds.

Two newsboys sat on the stairs, with a pile of newspapers on the steps above them. One had his coat off, and both were busy lining the inside of the tattered garment with folded papers. They handled their large needles clumsily, but after a time succeeded in lining the coat. The boy who owned the coat slipped it on, and turning up the collar remarked, "That'll keep the wind out."

Then the other boy took off his coat, and soon his summer jacket was made over into a winter reefer by lining it with newspapers.

A policeman watched the little tailors. "The kids caught the idea from the gripmen and hack drivers," he said. "You see, a newspaper ain't so warm itself, but it keeps the wind out, and the newsboys suffer a great deal from the winds which come sliding down the sides of the high office buildings. They have seen hack drivers double up paper and slip it inside of their vests, and they caught on."—Chicago Record.

Wanted a Swing With the Ax.

A good story is told on one of the newly elected Republican members from Ohio who has never seen the great governmental machinery in active operation at the national capital. Just as soon as he made sure that he was elected he sat down, took his pen in hand and wrote the following incisive telegram:

Maxwell, Fourth Assistant Postmaster General, Washington:
Stop all appointments in my district until I can see you. I'm elected.

General Maxwell's policy since the receipt of this ukase has not come within the ken of those who are circulating the story at the capital.—Washington Post.

—Plans are being formulated for an Episcopal Cathedral at Washington. The Methodist University to be located there is already an assured fact, ground having been bought and a considerable sum for its construction raised. The Columbian University there is practically a Baptist institution. It is thought eventually all the great denominations will have educational institutions at the capitol.

More Church Programmes for Sunday and Christmastide.

WOLLASTON TO THE FRONT.

Special Sermons, Sunday School Concerts and Christmas Festivals.

Several of the church programmes for Christmas have appeared in the DAILY LEDGER. Those of the First church, the Wollaston Unitarian and Atlantic Congregational on Thursday, and on Friday the Christ and Lutheran churches. Others follow below:

The Atlantic Methodists have their Christmas tree Christmas night at 6 30.

Christmas at Quincy Point.

Christmas will be observed at the Washington Street church as follows: Sunday morning the pastor, Rev. Herbert A. Youtz, will preach from the subject "The Incarnation." A Christmas choir under the direction of Mr. T. B. Pollard will render music appropriate to the day.

At 7.15 o'clock Sunday evening, a Christmas concert in charge of Supt. Charles H. Sherburne will be given by the Sabbath school in the auditorium of the church.

On Monday night, Christmas eve, the exercises will be in the vestry commencing at 7.30 o'clock. These will consist of an entertainment and the unloading of the Christmas trees. Light refreshments will be served to the members of the Sunday school. Everyone is welcome to any or all of these services.

A committee will be in attendanee at the vestry from 1.30 to 3.30 o'clock on Monday to receive all presents that parents or friends may desire to have hung upon the tree.

The Wollaston M. E.

The annual Christmas concert by the Methodist Episcopal Sunday School will be held in the church Sunday evening Dec. 23, at 6 o'clock.

An interesting cantata will be given in the Methodist Episcopal church, Tuesday evening Dec. 25, at 6 o'clock by some of the children, assisted by older friends. Its title is "Catching Kris Kringle." At its close the distribution of presents from the Christmas tree will take plaee.

A MARTYR CAPTAIN.

Schmittberger Tells a Startling Story of Police Corruption.

WHOLE SYSTEM DECLARED ROTTEN

State of Affairs Which Could Not Be Worse.

NEW YORK, Dec. 22.—Maximilian F. Schmittberger, captain of police and now in command of the tenderloin district, made a confession before the Lexow committee yesterday to the effect that the entire police system of New York city, with the exception of Superintendent Byrnes and a few others, was rotten to the core; that blackmail and bribery, extortion and corruption were common crimes in the department, and that mercenary methods alone actuated his fellow officers.

His charges implicate Inspectors Alexander S. Williams and McAvoy, ex-Inspector Steers, Police Commissioners James J. Martin and John C. Sheehan, Captains Price, Gastlin and Frederick W. Martens, ex-Captain John Gunner, and Wardsmen Dunlap, Robert Vail and James Gannon. The greater part of Schmittberger's testimony was against Inspectors Williams and McAvoy.

Without question, this has been the most important day in the history of the Lexow committee. Schmittberger's confession is prolific not only of sensations but of evidence which

Confirms and Verifies

what have been hitherto considered the most exaggerated ideas of police and official corruption. It deals with more than individual cases; it shows the criminality that has pervaded the police department.

Captain Schmittberger is under indictment for bribery. He had previously refused to testify before the senate committee. On Thursday, however, he was rearrested and his bail increased. Yesterday he took advantage of an offer of immunity from punishment held out to him by Counsel Goff and agreed to make a clean breast of everything.

"The pillars of the church have fallen," said he on the witness stand, "and I deem it due my conscience, my wife and children to tell all I know."

Meanwhile dark circles had crept under his eyes, his face assumed a sickly pallor, an air of utter weariness and dejection possessed him, and he appeared as he was in extreme mental torture and agony.

But no spirit of sympathy moved the throng of spectators. Sneers and sarcastic laughter instead answered his acknowledgment of weariness, when at last Counsel Goff permitted him to vacate the witness stand.

The city is not turbulent with excitement as it was just a week ago on the occasion of Captain Creeden's confession. Instead, an atmosphere of suppressed indignation prevails. In official circles resignation is the ruling element. No attempt is made in contradiction or derogation of Captain Schmittberger's allegations, and everywhere is heard the comments: "It could not have been worse; it must end."

Where Bribery Money Went.

Captain Schmittberger declared that he had paid Inspector Alexander S. Williams bribes of $50 and $100 a month, in order to allow him to protect 10 policy shops and the score or more of excise law-breaking Bohemian saloons in the East Sixty-seventh street precinct; also that he paid Inspector Williams $200 a month for the same lack of action concerning 10 policy shops and three poolrooms in the East Eighty-eighth street precinct.

This money, he said, was carried to Williams at times by his wardman, Gannon, who is now a fugitive from justice. Schmittberger himself occasionally handed this money to the inspector when the inspector visited his precinct.

Captain Price, Schmittberger said, had been accused by Captain Gunner of receiving these bribes for Inspector Williams when Price was the sergeant in the inspector's room at police headquarters.

In the same way, Captain Schmittberger said, Inspector McAvoy received bribes of from $150 to $175 a month from him, being part of the "protection money" paid by policy dealers and keepers of disorderly houses in the West Forty-seventh street precinct.

Politics Play a Great Part.

Schmittberger acknowledged that the police department had been more efficient during the decade ending 1884 than it was from that year to the present. This was because policemen were chosen more for their merits during that interval, and since then they have owed their positions chiefly to political influence.

He promised when he took the witness stand to tell the truth unreservedly. Schmittberger made such rapid progress in this direction that all the other witnesses were excused. The captain's face was grave and solemn. He had evidently determined to make a full confession.

Just previous to adjournment, Senators Lexow and O'Connor both expressed themselves in favor of executive sessions of the committee next week, but Mr. Goff stated that he had several more witnesses to examine before the committee goes into executive session.

"We had fondly hoped," said Mr. Goff, "to complete our labors by this evening, but we cannot judge the time each witness will take, and consequently we find that we still have a great number of witnesses to examine, and most of them very important. In view of this fact, it is absolutely necessary that the committee should continue on next week." An adjournment until next Wednesday was then announced.

Must Be Sold at Auction.

BOSTON, Dec. 22.—The railroad commissioners have approved of the issue of 2000 more shares of stock by the Old Colony Railroad company, provided the stock is sold at auction. The company will probably realize about $360,000 from the sale.

Signs of an Agreement.

NEW YORK, Dec. 22.—Developments indicate that the long correspondence by cable and letter between the America's cup committee and the representatives of the Royal Yacht squadron will be productive of an amicable agreement.

Receiver For Iron Company.

MADISON, Wis., Dec. 22.—D. B. Dewey of Chicago has been appointed receiver of the Eagle Iron company, owner of the iron furnace at Spring Valley, which went into the hands of creditors 60 days ago.

GILLETT SURRENDERS.

He Is Suspected of Having Had a Hand In the Rome Defalcation.

ROME, N. Y., Dec. 22.—Rome's alleged defaulting mayor, Samuel Gillett, gave himself up to the authorities last evening. He called at the common council chambers and announced that he had received a card stating that the aldermen were to meet and name his successor, and thinking it advisable to save them that trouble he had decided to give himself up. Deputy Marshal Condon placed the mayor under arrest.

He was subsequently taken before United States Commissioner Howlands and Bank Examiner Van Vrankin. He entered a plea of not guilty, and immediately furnished bail in the sum of $7000 for his appearance before the commissioner Wednesday morning. Gillett was represented by counsel. He is charged with embezzling the funds of the Central National Bank of Rome while acting teller. He says he will be able to exonerate himself at the proper time.

He is severely censured by his friends for absenting himself in such a manner, although they still emphatically maintain his honesty. The mayor, however, refuses to give a satisfactory explanation as to his sudden disappearance, and will not tell where he has been staying.

He says the only object he had in leaving as he did was on account of the criticism he received on Monday from the examiner, who said that he was cognizant of the crooked manner in which ex-Cashier Bielby was handling the bank's money, and that he was just as liable to arrest as Bielby. This assertion frightened him, and his mysterious disappearance followed.

A Child's Misery.

LACONIA, N. H., Dec. 22.—Thomas H. Smith and his wife are under arrest here. For several months they have traveled over the state with Mrs. Smith's 8-year-old boy. They have forced the boy to beg from house to house. They have been sleeping nights in empty icehouses. One night recently the boy, losing his way, slept in the open air and froze both feet. After he was found he could hardly walk, but his stepfather made him hunt for wood while he remained beside the fire. The boy has been taken to the county farm and one foot will be amputated. He will lose all of the toes on the other foot.

A Generous Gift.

NEWBURYPORT, Mass., Dec. 22.—John T. Brown, on behalf of three sisters—Misses Jane, Maria and Mehitable T. Plumer of Newbury—has presented the Old South society of Newburyport with a costly Howard tower clock as a memorial to their brother, Albert Plumer, recently deceased. The clock will strike the hour and half-hour on a bell cast by Revere & Sons in 1802.

More Scandal.

ROME, Dec. 22.—It is learned that there are now in preparation a new series of libelous documents, with which efforts are to be made to cause trouble to men high in authority. Officials declare that the documents in question are forgeries.

TRADE IS RESTRICTED

By Gold Exports and Uncertainty on Financial Questions.

FUTURE HAS A BRIGHTER OUTLOOK

Although Showing Downward Tendency of Prices.

NEW YORK, Dec. 22.—R. G. Dun & Co.'s weekly review of trade says: But for the large exports of gold and uncertainty about financial legislation, the indications would be more encouraging.

Some increase is seen in orders given to manufacturing works, though until the year ends the force actually at work naturally diminishes. The holiday trade has been rather poor at most points, partly owing to mild weather.

There is distinctly more confidence shown about the future demand for industrial products, though prices are not better.

Prices of agricultural products do not improve. Wheat is unchanged for the week; although western receipts have fallen, the visible supply still grows. Corn fell 4 cents for the week, though western receipts were very low. Government estimates do not seem to affect actual transactions.

Cotton has declined 1-16th to 5.69 cents. The theory that producers will not market at current prices does not yet fit the facts.

Larger orders for manufactured products have appeared, and yet, except in boots and shoes, the tendency of prices is downward. In shoes manufacturers are obtaining a good many orders at 2½ and 5 cents over last year's prices, where still larger differences in cost of materials are claimed, but many jobbers hold off, as want of entire agreement among produce raisers doubt whether the advance will be maintained.

Cotton Market Glutted.

The heavy auction sale of cotton goods, resulting in prices about 10 per cent below those previously current, and the announcement of numerous reductions in prices by agents, are deemed evidence that many mills have accumulated larger stocks in advance of consuming demand than has been supposed. Quite large sales have followed, but the market is still irregular and uncertain.

Orders for spring woolens have been numerous, though relatively small for the time of year, and the opening of heavy weight woolens for the next season discloses some reaction in cheaper goods, with occasional advance in goods of the better grades. The confidence of manufacturers seems to increase, but purchasers of material are cautious.

The failures of the past week have been 349 in the United States, against 344 last year.

In Canada.

Bradstreet's says: Sales of staples at Toronto are slow, and the holiday trade is fair, only. At Montreal leading wholesale lines report business practically at a standstill, and the holiday trade not as good as expected.

At Halifax the movement of clothing and holiday goods has been better than expected. Advices from St. John's, N. F., are that cargoes of perishable Christmas goods in that harbor cause great loss to consignees because of inability of the latter to enter or pay duties.

There are 24 failures reported from the Dominion of Canada this week. Last week the total was 34, one year ago it was 35, two years ago 30 and three years ago 23.

Alleged Murderer Arraigned.

PORTLAND, Me., Dec. 22.—James Lewis Welch was arraigned here yesterday, charged with the murder of Byron G. Coburn at Gorham. Welch pleaded not guilty, speaking in a firm voice. He showed considerable nervousness, but was quite cool. The hearing promises to be lengthy, it being evident that counsel for the defense will force the government to bring out all their testimony at hand for the purpose of finding out the full strength of their case.

Should Be Stamped Out.

ALBANY, Dec. 22.—The state board of health has issued its report, which says in part: There can no longer be reasonable doubt that tuberculosis in cattle is extensively distributed through the dairies of the state; that the milk from such cattle is bad, and in many cases sufficiently dangerous to warrant as earnest precautions and as effective prophylactic measures as in the case of smallpox, typhoid and cholera.

Took All They Could.

MONTICELLO, Ills., Dec. 22.—Cracksmen gained entrance to the Mansfield State bank, forced the vault open, and blew the safe to pieces. The force of the explosion almost wrecked the vault and destroyed nearly all the money in the safe, so that the robbers got only $800. About $1000 in bills were so mutilated by the explosion that the safe blowers left them behind.

Canada's Cabinet.

MONTREAL, Dec. 22.—The new Dominion cabinet was sworn in yesterday in the temporary residence of Lord Aberdeen in this order: Premier, Mackenzie Bowell; minister of fisheries, John Costigan; minister of justice, Charles H. Tupper; W. B. Ives, minister of trade and commerce; A. R. Dickey, secretary of state, and Dr. Montague without portfolio.

Catholic Pythians Alarmed.

PROVIDENCE, Dec. 22.—The local leaders of the Knights of Pythias are much excited over the decision of Mgr. Satolli, and a delegation has been appointed to call upon Bishop Harkins and request his assistance on behalf of the Catholic members of the order, many of the lodges being principally composed of Catholics.

Tragedy Upset His Mind.

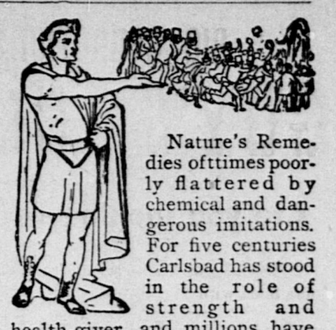

QUINCY, Ills., Dec. 22.—Frank Trumble, who witnessed the recent triple shooting affair in the Council Bluff bank, in which Clerk Huntington shot two detectives and himself, has become insane. His mind was shattered by the bloody scene.

"Not Guilty."

BOSTON, Dec. 22.—Richard Mack, charged with assault with a pistol with intent to murder—three counts—was acquitted on each count. The assault was alleged to have been made upon two boys and an officer.

FOREFATHERS DAY.

Historical Personages Visit Wollaston and All Enjoy Themselves.

Forefathers' day, although falling on Dec. 21, was fittingly observed by the Wollaston Congregational society on Thursday evening, Dec. 20. The vestry of the church was crowded, a large number of those present being dressed in old style, the men wearing jerkins, small clothes, ruffles around their necks, showing belts with silver buckles, short cloaks and steeple crowned hats. The women wore dresses in imitation of homespun goods, with slashed sleeves and embroidered caps. nearly everybody represented some historical personage.

Elder Brewster was represented by Mr. Charles G. Farrell.

Goodwife Brewster by Mrs. John Thompson.

Capt. Miles Standish, "Clad in doublets and hose and boots of Cordoran leather," by Mr. John A. Barbour.

Priscilla Mullins, "the Puritan maiden," by Miss Dickey.

Mary Chilton, she who first stepped on Plymouth rock, by Miss Thompson.

Goodwife Carver by Mrs. H. T. Whitman.

Goodwife Bradford, by Mrs. George A. Dickey.

Goodman Allerton, by Mr. Herbert A. Thompson.

John Alden, "the fair-haired, taciturn stripling," by Mr. Robert B. Witham.

Governor Bradford, by Mr. Charles P. Hutchins.

John Howland, who lived to the ripe old age of 80, by Mr. Harry C. Osgood.

John Billington, of Billington sea fame, by Mr. John Whall.

Dame Hopkins, wife of Stephen Hopkins, by Mrs. A. L. Baker.

Samoset, the Indian Sagamore, "a man free in speech and of a seemly carriage," by Mr. A. L. Delano.

Squanto, an Indian sachem, Mr. John L. Munger.

Hobomok,—"silent with folded arms stood Hobomok, friend of the white man," by Mr. William S. Washburne.

The make-up of the three sachems was a clever bit of work. Their faces were painted a copper color with the usual dashes of war paint and the totem upon their chests. They were dressed in buckskin breeches and shirts. Over this was thrown a gaudy blanket decorated with feathers and wampum, and upon their feet were moccasins. They were armed with bows and arrows and tomahawks.

Preceding the tableaux, a lunch of Indian pudding and other old fashioned dishes was served.

The tableaux consisted of realistic scenes from the "Courtship of Miles Standish."

Mrs. H. T. Whitman, who represented the wife of Governor Carver, sang the beautiful "Spring Song,"—

"While with her foot the treadle,
She guided the wheel in its motion."

This spinning wheel, by the way, is a very old one and was loaned by Mr. William I. Washburne.

And then there was an orchestra that played some original music. It was composed of Mr. W. M. Wight, violin; Mr. Charles B. Dickey, cello; Mr. I. W. Fannce, violin; and Mr. Joshua L. Nash, bass viol.

The committee having the affair in charge consisted of Mrs. John Thompson, Miss Farwell, Mrs. George A. Dickey, Mrs. Charles G. Farwell, Mrs. A. L. Baker and Mrs. C. E. Snow.

BRAINTREE.

On Tuesday evening, what was called a "Star Concert." took place in the First Congregational church, the proceeds we believe, going to the benefit of the Sabbath school of that church; Mr. Charles S. Bates, who takes great interest in church matters, a musician of no mean standing among us, acted as manager.

Last Sunday the streets in East Braintree presented anything but a Sunday appearance; something new in the history of the village, and, in the experience of the people; something that did not meet with general approval, either!

A Christmas party will be given in the Union church of Braintree and Weymouth, Monday afternoon.

The Universalist Sabbath school will have their Christmas tree on Monday evening at Pythian hall. All are invited.

The Sunday school connected with St. Francis' church are to have a concert and Christmas tree at their church on Wednesday evening.

Early Monday evening probably at 6 30 the Universalist Sunday School will have a Christmas entertainment and tree in Pythian hall. Care will be taken that each child is remembered.

Puritan lodge, I. O. O. F., have elected the following officers: Noble Grand, Charles G. Richards; vice grand, Charles W. Woodworth; recording secretary, Charles A. Hobart; permanent secretary, A. W. Hobart; treasurer, W. F. Woodsum.

The annual Christmas Sunday School entertainment of the M. E. church of East Braintree comes off on Christmas evening, beginning at 7 o'clock. At the close Santa Claus will appear and distribute presents among the children. A jolly good time is expected.

Santa Claus has made his plans to be at the Lower Town Hall on Monday evening, and the M. E. Sabbath School will meet him there. He will expect a small fee from those who do not belong to the school. All are invited to come and see his house; to bring presents to give their friends from the Christmas tree, and to enjoy the entertainment.

The ladies of the Univeralist society held a very successful entertainment and sale in the spacious parlors of their president, Mrs. E. C. Hathaway on Wednesday evening.

Ebenezer Coddington Thayer, formerly of Braintree, died at Fall River, Dec. 6, aged 90 years last August.

WEYMOUTH.

Rev. I. D. Morrison will preach a Christmas sermon at the Universalist chapel, North Weymouth, on Sunday morning, and special music has been prepared by H. F. Nye, the chorister.

At the Pilgrim church there will also be Christmas services. The choir will be assisted by Mrs. Drake of Quincy.

The Pilgrim Sunday school will present a Christmas dialogue in the vestry on Monday evening, and Santa Claus will be there.

Political.

Editors of the Daily Ledger

I read this morning the article written by "June," for the PATRIOT. It condemns our able Councilman Bryant for advocating caucus meetings of the Republican councilmen. But, stop a minute! Is not it wise? Have we not had a partisan adminstration the past year. The gentlemen who were honored by being elected Mayors of this city for the first five years worked for the best interest of the city, and appointed good men to fill the offices; both Republicans and Democrats. How was it when Mayor Hodges was inaugurated? He turned out every Republican, and more upright and honorable men than some of them, which is saying a good deal, could not be found in this city. He made a regular partisan adminstration, and now this mugwump "June," growls because our able Councilman Bryant, wishes not to tolerate such contemptible actions the coming year without some resistance. He does it manly too. No sneak-in-the-grass manner, which we have seen the past year.

FAIR PLAY.

Blue Hill Predictions.

During the coming week the warmest days will probably be on the 22d to 23d and 27th, and the coldest on the 25th to 26th and 28th to 29th. A cold wave is probable on the evening of the 24th or on the 25th. The week will probably average considerably colder than the past week with the temperature generally below freezing after the 24th. Rain or snow is probable on the 24th, possibly continuing till the early morning of the 25th, and again between the morning of the 27th and morning of the 26th. The remainder of the week will be generally fair, except possibly local showers on the 22d, with the greatest probability of clear weather on the 23d, 26th and 29. The 25th will probably be fair, or clearing during the day and much colder.—*Norfolk County Gazette.*

CIGARETTE SMOKING.

Dealers Openly Defy Law and Boys Won't Give Them Away.

Something should be done, and done immediately to put a stop to cigarette smoking among small boys. The extent to which this habit has grown has become alarming, and unless a check is made we shall have a generation of cigarette smokers.

Until one makes it a business to look into the matter no idea can be formed of the number of boys who are victims of this habit, yet it is a fact that nearly half of the young boys who are attending school in Quincy have acquired the habit and smoke whenever they can find money to buy cigarettes with, or some one who will treat.

These boys have no difficulty, providing they have the money, of purchasing all the cigarettes they want. To be sure there is a law against selling tobacco in any form to a boy under 16 years, but in face of that law there are dealers in Quincy who are so greedy for the almighty dollar that they do not hesitate or refuse to sell any boy, who has five cents, a box of cigarettes.

And the boys! They know as well as the storekeeper that every time a man sells them a bunch of cigarettes he violates the law; but they will not betray him. On the contrary they will tell any amount of lies, that the party who is administering to them the slow poison may be protected from the punishment at the hands of the law which he deserves.

One day this week Mr. Faxon found that through the acts of boys he was minus something like twenty-five panes of glass in one of his houses on Water street, and while at the Adams school building trying to find the boys who broke the glass he learned the extend to which cigarette smoking in that building is carried on.

Later with the assistance of Principal Nowland a number of the boys were interviewed to ascertain to what extent the boys were indulging in the habit. In nearly every instance the boys interviewed admitted after considerable questioning that they smoked. Only two or three of them would tell where they purchased.

The answers given by some of the boys served to show that they were on the road to ruin and would ultimately bring up behind the prison bars unless checked in their mad career. Some of the boys said they picked them up on the streets and smoked them; others said they had them given to them, and smoked every day, but the climax was reached when one boy made the sage remark, "If I told the man's name he would not sell me any more."

The boys all knew the law, but it was next to impossible to get any facts out of them, for they did not hesitate, or show any appearance of shame, at telling a lie about the matter.

What are storekeepers thinking of when they knowingly and openly violate one of the best laws, (if enforced) that was ever made? Something should be done, and that immediately, to prevent these storekeepers who thus disregard all semblance of honor from continuing to sell tobacco to boys under 16 years.

It is the duty of every parent to look carefully after their boys, and if they find that they have acquired this habit, find out from whom they purchase and bring the violators into court and punish them as they richly deserve. If one conviction is not enough keep it up until they have had their fill, and will be glad to abandon the business.

Stringent methods should be adopted, and the first thing to do is to shut off the supply, then to administer punishment to every boy caught smoking and the sooner parents wake up to this fact, the sooner respectable people will be spared the spectacle of constantly meeting on the streets and corners, boys with cigarettes and pipes between their teeth, or a cud of tobacco stowed away in the cheek.

It is also hoped that storekeepers who have been violating the law, will take warning unless they want to be brought before the courts.

Boston Theatre.

The season of "In Old Kentucky," which for nine weeks has held the boards at the Boston Theatre, attracting a phenomenally large attendance, is nearly at an end. But another week remains for witnessing the big, romantic melodrama, and all indications point to a crowded audience at every performance. Wednesday evening, Dec. 26, will undoubtedly prove a gala night, as signifying the 75th performance of "In Old Kentucky," and the second souvenir celebration. The souvenir on that occasion will be altogether different to that offered at the 50th performance but will be in every respect as artistic and unique, and will, besides, be characteristic "In Old Kentucky."

"Shore Acres" will follow "In Old Kentucky" Dec. 31, for a three weeks' run.

Castle Square Theatre.

The Louise Beaudet Opera Bouffe Company, which numbers 65 singing and acting people, will come to the Castle Square Theatre next week, opening Monday night, Dec. 24, on which occasion will be produced the new Mexican comic opera "Jacinta," the maid of Manzanillo. It is from the combined pens of Alfred G. Rabyn and Wm. H. Lepere. The action of the opera takes place in the port of Manzanillo and the garrison of the Alealde at Colima. The selection of Mexico as the scene of this opera is a very happy one in view of the fact that the picturesque scenery of that Central American country and the many colored garments effected by the subjects of Diag allows unlimited opportunities for the display of the scenic artist's brush and the costumer's art, all of which has been taken advantage of to the fullest extent.

All that's Yellow is not Cottolene

There's hardly a housekeeper in the country but has heard of Cottolene the new vegetable shortening. It is a strictly natural product; composed only of clarified cotton seed oil, thickened for convenience in use, with refined beef suet—pure and sweet. So composed,

COTTOLENE

Was bound to win, and to drive out lard from the kitchens of the world. When housekeepers wish to get rid of the unpleasant features and results of lard, they should get **Cottolene,** taking care that they are not given cheap counterfeits with imitative names, spuriously compounded to sell in the place of **Cottolene.**

It's easy to avoid disappointment and insure satisfaction. Insist on having **Cottolene.**

NEW CURRENCY BILL

Introduced as a Substitute For the Carlisle Measure.

THE REGULATION OF STATE BANKS

Materially Differs From the Original Propositions.

WASHINGTON, Dec. 22.—After conferences between the Democratic members of the house committee on banking and currency, and with the approval of the secretary of the treasury, Mr. Springer yesterday introduced a substitute for the Carlisle currency bill. It is substantially a new measure, although some of the sections of the original measure are retained in the new bill. The new bill is arranged so as to show the new features in parentheses. The first section is as follows:

(A) That (so much of) all acts and parts of acts as require, or authorize, the deposit of the United States bonds to secure circulation notes issued by national banking associations (or as require such associations to deposit, or keep on deposit, United States bonds for any purpose, except as security for public money) be and the same are hereby repealed (as to associations taking our circulation under this act), and such notes shall not contain the statement that they are so secured.

Section 2 is changed so that banks cannot only deposit legal tenders to secure circulation, but also currency certificates issued under section 5193 of the revised statutes of the United States.

Section 3 is retained entire, except that its provisions are restricted to apply to national banking associations "taking out circulation under this act."

Section 4 inserts "the comptroller of the currency" as the officer to designate the place where notes are to be redeemed.

Provisions For Collecting Tax.

In section 5 provision is make for keeping up this safety fund, and in addition to the terms of the original bill it is provided that "the collection of said tax of one-fourth of 1 per cent for each half year shall be resumed and continued until the said fund is restored to an amount equal to 5 per cent upon the total circulation outstanding. All circulating notes of failed national banks not redeemed on presentation to the treasury of the United States, or an assistant treasury of the United States, shall bear interest at the rate of 6 per cent per annum from the date of the suspension of the bank until 30 days after public notice has been given that funds are on hand for the redemption, and such notes shall constitute a first lien upon all moneys thereafter received into the safety fund."

Section 6, allowing the secretary of the treasury to invest money in the safety fund in bonds, is the same as in the original bill.

Section 7 is entirely new and takes the place of a section which has been eliminated. The new section is as follows:

Section 7. That every national banking association heretofore organized and having bonds on deposit to secure circulation may withdraw such bonds upon the deposit of lawful money of the United States, now provided by law, and thereafter such association may take out circulation under this act, and be entitled to all the rights, privileges and immunities herein conferred.

Section 8 specifies that the portion of the national banking act to be repealed is limited to so much of section 12 "as directs the secretary of the treasury to receive deposits of gold and to issue certificates thereon."

Section 9 is substantially the same as in the original bill.

Section 10, providing for state banks, is also the same as in the original bill, except that in the restrictions on state banks a new provision is made that the guaranty fund maintained by them may include "currency certificates issued under section 5913 of the revised statutes."

Concerning State Banks.

An entire new provision is added as to state banks, as follows:

Whenever the secretary of the treasury and the comptroller of the currency shall be satisfied that any banking corporation, duly organized under the laws of any state and which transacts no other than a banking business, as provided in this section, has been incorporated under the laws of the state in which it is located, which laws require that the stockholders shall be individually liable for the redemption of its circulating notes to the full extent of their ownership of stock, and that such laws require that the circulating notes thereof shall constitute a first lien on all assets of the bank, and also that such laws require said bank to keep on deposit at all times with an official of the state, authorized by law to receive and hold the same, a gurantee fund as required in the fourth paragraph of this section, they shall issue to said bank a certificate to that effect. Thereupon said bank may issue its notes as provided in this act, and thereafter the tax of 10 per cent heretofore imposed by law upon circulation of the notes of state banks shall not be assessed or collected upon the notes of such bank until it appears that said bank has issued circulating notes in excess of 75 per cent of its paid up and unimpaired capital, or that its capital is impaired and has remained so for 30 days, or that the bank has not kept on deposit with the state official authorized by law to receive and hold the same as a guarantee fund as required in the fourth paragraph of this section, or said bank has not promptly redeemed its notes in lawful money at par, or at one or more of its branches, and that no person or corporation other than the bank issuing such notes in violation of the provision of this act shall be liable to the tax of 10 per cent upon the circulating notes of state banks as now provided by law.

Most of section 11 is new and is as follows, the new portions being in parentheses:

(That any banking association organized under the laws of any state may deposit with the treasurer of the United States legal tender notes and receive certificates therefor in the manner provided in section 5193 revised statutes of the United States) the secretary of the treasury may, under proper rules and regulations to be established by him, permit such banks to procure and use in the preparation of their notes the paper used in printing United States securities; but no state bank shall print or engrave its notes in similitude of a United States note, or certificate, or national bank note.

Fournil Away Ahead.

NEW YORK, Dec. 22.—Edward Fournil, who is trying to make 3000 points while Thomas J. Gallagher is scoring 1500 in a match game of billiards, now stands in a fair way to do so. Fournil's total for five days is 2500; Gallagher's total for five days 1101.

Breweries to Close.

ST. LOUIS, Dec. 22.—The breweries of this city owned by an English syndicate are preparing to concentrate their output, and with that end in view, four breweries in their control will soon be closed.

PEACE NEAR AT HAND.

Chinese Envoys Will Endeavor to Arrange a Settlement With Japan.

TIEN-TSIN, Dec. 22.—The Chinese government has finally decided to send two envoys to Japan in order to treat for peace, and an imperial decree sanctioning the appointment of Chang Yin Huan and Fao for this purpose has been issued.

WASHINGTON, Dec. 22.—Minister Denby has cabled the state department that the Chinese government has appointed two peace commissioners, Chang Yin Huan and Fao, who will proceed at once on their mission from Pekin to the Japanese capital.

Chang Yin Huan is at present a member of the Chinese imperial council. He was a few years ago Chinese minister to Washington, and has the reputation of being thoroughly skilled in the diplomacy peculiar to Oriental countries.

Fao is now acting governor of the rich Chinese province of Huan, and in addition holds several minor offices in the imperial government.

There is some speculation here as to whether an armistice will be declared, pending the consummation of a treaty of peace. Such a course is usual in the case of wars between civilized countries, but there is reason to believe that the Japanese are indisposed to trust the Chinese in the smallest degree, and if an armistice is arranged it will be upon such conditions as to assure the Japanese that they will lose none of the advantages of position which they now hold.

It can be positively stated that in no case have the United States ministers to Japan and China, while engaged in mediation, undertaken even to discuss the terms of final peace. All such matters as the amount of war indemnity to be paid by the defeated country, the guarantee of the independence of Corea, the occupation of Port Arthur and the island of Formosa have been left untouched for the discussion of the peace commissioners, and the sole efforts of our ministers have been directed to bringing the principals together to discuss terms of peace.

Relics of War Times.

BOSTON, Dec. 22.—Besides the usual celebration of Forefathers' day the state house witnessed a ceremony today which recalled to the veterans of the war an incident which took place 29 years ago today. The memory of the grand reception of the colors of the Massachusetts regiments and batteries at the state house on Dec. 22, 1865, is still fresh in the minds of thousands. Today the achives in Doric hall were again opened, and sister flags to those received 29 years ago were added to "the mementoes of brave men and noble actions." Captain Adams, who on that other Dec. 22 commanded the color bearers of the gallant Nineteenth, three of whom were one-armed, placed in Doric hall the flags of the Fifteenth, Nineteenth, Twenty-third and Fifty-eighth regiments, which were captured by the Confederates before Petersburg, but were recently returned by the war department to this state, and the flag of the Seventh regiment, which was rescued lately from oblivion and presented to the governor.

Not Worried by Opposition.

WASHINGTON, Dec. 22.—Senater Cockrell, chairman of the committee on appropriations, is not alarmed over the prospect of opposition to the urgent deficiency bill, which is expected to be made in the senate because of the provision for collecting the income tax. He says he expects there will be some antagonism, and possibly a little delay in getting the bill through, but that he is confident of the support of the majority of the senate, and has therefore little apprehension of the final result.

Smallpox In the Steerage.

PHILADELPHIA, Dec. 22. — Steamer Southwark, which has been in quarantine for about a week, reached her dock yesterday. The steerage passengers were removed to quarters on shore prepared for them. Only one case of smallpox having occurred among the steerage passengers, the cabin passengers were allowed to land when the steamer reached her dock.

Bank's Affairs Are Straight.

BANGOR, Me., Dec. 22.—The directors of the Brewer Savings bank, whose treasurer, Edward P. Farrington, committed suicide yesterday, find the bank's affairs in good order. Worry over private business matters is believed to have led to temporary insanity, resulting in the suicide.

Fidelity Officials Indicted.

PITTSBURG, Dec. 22.—The grand jury returned a true bill against Harrison Dingman, Andrew Wall, S. W. Ewing, W. M. Henry, F. J. Holden, R. Haught, George Becker and B. B. Priest, officers and agents of the Fidelity Building and Loan association, charged with conspiracy.

Still In Partnership.

WASHINGTON, Dec. 22.— Coxey and Browne, who made such a stir here last summer, were at the Capitol yesterday to resume efforts in behalf of the Coxey bills. An arrangement was made with Representative Bryan to give Coxey and Browne a hearing about Jan. 15.

Bismarck at Home.

FREIDRICHSRUHE, Dec. 22.—Prince Bismarck arrived here last night from Varsien. The inhabitants greeted the prince with respectful silence, and escorted him and his party to his residence with torches.

Drink and Death.

MONTREAL, Dec. 22.—In the office of the Montreal Hunt club, James Bullick, the club secretary, blew out his brains. He had met with financial reverses, and had been drinking heavily.

American In Trouble Abroad.

PARIS, Dec. 22.—An American detective named Dauriac, who was an occasional reporter for The Figaro, has been arrested on a charge of attempting to blackmail Banker Senlis.

£10,000,000 For China.

SHANGHAI, Dec. 22.—Louis Spitzer asserts that the Rothschilds of London are arranging a Chinese loan for £10,000,000 on security of the Chinese customs.

Seismic Disturbances.

ATHENS, Dec. 22.—Severe earthquakes were felt yesterday at Atalanti. The shocks were accompanied by severe rumblings.

THE DIME SALE.

The Entertainment of the Sunny Hour Club at Wollaston.

It was a very happy thought on the part of the Sunny Hour club to hold a dime sale and entertainment to secure money to be used to pay for patching old clothes and shoes and give them to needy people.

The Sunny Hour club is composed of two classes of young men at the Wollaston Unitarian Sunday School,—Mrs. W. E. Simmons' and Mrs. F. A. Page's. Mrs. Simmons kindly gave the use of her house to the boys for the sale and it was held on Friday afternoon and evening. The boys had entire charge and made all of the articles displayed. Avery Bennett made a very tempting cake, and also poured the chocolate with the assistance of Freddie Thayer, Tyler Brigham and Ernest Armstrong and Horace Thomas and Fred Mitchell dispensed the lemonade. Jack Simmons and Henry Hervett presided over a table that netted something like five dollars, and of course it was the candy table. That kind of merchandise always goes when boys are around. And then there were three fancy tables with stuffed Brownies and kittens galore, holders and kindred things which a boy can deftly turn his hand to. These three tables were in charge of Harry Schumacker, Waldron Schumacker, Ernest Arnold, Lawrence Loring, Eddie Mitchell, Fred Jacobs, Fred Damon, George Judkins, Dwight Fenno, Richard Polson, Albert Armstroug and Harry Holmes.

At eight o'clock the boys gave a "bang up" entertainment, as they would express it. Tyler Brigham opened it with a piano solo, "A song without words;" this was followed by Harry Schumacker reciting "A Thanksgiving Dinner;" then a chorus of boys sang a Christmas Carol, Freddie Thayer singing a solo; Albert Armstrong then played on his violin "Little Romanze," and in responding to the encore played that wierd "Arkansas Traveller;" Horace Thomas recited "Good at Christmas;" and Avery Bennett closed the entertainment by playing on the piano Parcher's "Austrian Song," and in responding to the encore played Mendelssohn's "Song without words."

TRY IT AGAIN.

A Great Many Ties Make New Christmas Contest Necessary.

The puzzle editor knows of no better way to award the Christmas word prize than to inaugurate a new contest among the leaders. Those therefore who found 62 Christmases last Saturday will make another search today for the same word. This time the *first* to send in the largest number which proves correct, before 12 M. Monday, will receive the present.

Funeral Services of Mrs. Hubbard.

The funeral services over the remains of the late Mrs. Priscilla C. Hubbard were held her son-in-law's, Mr. Washington I. Godfrey, Elmwood avenue, Wollaston, on Friday afternoon. The services were conducted by the Rev. Edward A. Robinson, pastor of the Congregational society. The singing was by Mrs. Ralph J. Saxe and Mrs. N. G. Nickerson. Delegations were present from Ocean lodge, N. E. O. P., Beachmont, and the W. R. C. of Quincy. The floral tributes were beautiful. The body was interred at Hampton, N. H.

Mrs. Hubbard was born at Bradford, Mass., in 1814, and was for many years a resident of this town. Her husband, H. H. Hubbard was one of the contractors who build the old Boston & Worcester railroad, now known as the Boston & Albany. A daughter survives her, Mrs. Washington I. Godfrey of Wollaston.

TODAY'S COURT.

OUR NEW PASTOR.

The City as Well as Presbyterian Church to be Congratulated.

The installation of Rev. Robert Westly Peach as pastor of the Presbyterian church occurred Friday evening and was largely attended. The interior of the church was very prettily trimmed, especially about the altar, where there were numerous potted plants. The motto on the wall back of the altar was draped with evergreen, and the chandeliers also held sprays of holly and evergreen. The exercises were of an interesting nature and were listened with marked attention. The order of exercises were as follows:

Anthem, "O Worship the Lord in the Beauty of Holiness," Thomas Smith
The Choir
Invocation
Hymn, No. 585
Scripture Lesson, the Rev Chas. F. Clarke, Cambridge
Prayer, the Rev. Nathan Hunt, East Milton
Offertory anthem, "The Lord will Comfort Zion," W. O. Perkins
The Choir
Sermon, the Rev. Luther H. Angier, Boston
Hymn No. 589
Constitutional Questions, the Rev. Luther H. Angier, Moderator
Installation Prayer, the Rev. Minot S. Hartwell, South Boston
Installation Ode, written by the Rev. J. L. Burrows, Ph. D., Ashtabula, Onio
Charge to the Pastor, the Rev. Scott F. Hershey, Ph. D., Boston
Charge to the People, the Rev. James T. Black, East Boston
Right Hand of Fellowship, the Rev. Edward Norton, Quincy
Anthem,—"Thou Wilt Keep Him!"
L. S. Leason
Benediction the Rev. Robert Westly Peach.

THE NEXT COUNCIL.

Number Five of a Series of Sketches of the Councilmen-Elect.

Theodore Parker, who will represent Ward Six in the Council of 1895, was born in Atlantic, April 2, 1853, and is a son of the late Chase Parker. He received his early education in the Quincy grammar

and Dorchester high schools, and entered the Massachusetts Institute of Technology, graduating as a civil engineer in the class of 1881. A few months latter he accepted a position as assistant engineer on the C. B. & Q. R. R., with headquarters at Burlington, Iowa. He remained with this road for ten years, rising to the position of division engineer and stationed at Ottumwa, Iowa. Upon the death of his father he returned to Atlantic with his family in February 1891, and is now an engineer in the city of Boston.

Legion of Honor Officers.

Hancock Council at its meeting this week elected these officers:

Commander,—Elbridge Clapp.
Vice Commander,—Fred F. Green.
Orator,—Charles H. Winslow.
Past Commander,—C. F. Pettengill.
Secretary,—James S. Baxter.
Treasurer,—F. S. Davis, M. D.
Chaplain,—Andrew F. Mahoney.
Guide,—W. E. Drew.
Warden,—E. E. Newcomb.
Sentry—Amos E. Damon.
Representative to Grand Council,—Dr. Chas. H. French.
Alternate,—Elbridge Clapp.

The Collector Elbridge Clapp is commissioned by the Supreme Commander.

The Medical Examiner, F. S. Davis, M. D., is commissioned by Supreme Medical Examiner.

The Council was very much gratified by the presence of Dr. C. S. French, 79 years of age, first Commander of the Council.

Anyone who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

For Sale by Druggists and Dealers Everywhere.

OUR GRANITE TRADE

Another Railroad Proposed to Connect Quarries and Sheds

WITH N. Y., N. H. & H. R. R.

Land Bonded on Granite Street by a Leading Granite Firm of the City.

Although business in the granite industry is unusually quiet, the manufacturers are active and on the lookout to further their business, which of course means just so much more for the workmen.

During the past few days there have been rumors of a movement on the part of some of the manufacturers to obtain better transportation facilities, and while in part some of the rumors are known to be true, the others are only in the wind.

The first rumor is that the Craig & Richards Granite Company is to move its cutting sheds from their present location on Water street, to Granite street near the works of Swithin Bros.

While it is not known for a fact that this firm is to remove its works, at present, it is a well established fact that the firm have bonded part of the Veazie property. The property bonded is situated on the south side of Granite street, just east of the Veazie block.

The next rumor is in regard to a spur track that will connect the sheds in this locality with the main line at or near the Quincy Adams station of the N. Y., N. H. & H. R. R.

At present the only way the firms in this locality have of shipping their goods is by team over the road to Boston, or to Quincy Adams where for the want of proper facilities it is sometimes necessary to wait hours before the use of the derrick can be obtained.

The scheme on foot, is to start among the quarries on "the Common" and from there in a southerly direction to the main line near Quincy Adams, taking in Swithen Bros. sheds, the new sheds of Craig & Richards and others along the line.

If this project is carried through, its benefits will be great, and a new impetus will be given to the granite industry in this section.

THE FRIDAY CLUB.

It Studies One Foreign Country Each Winter—Now in Germany.

This ladies' club is in its fourth winter, and it is doing earnest work which is also a pleasure to its cultivated members. This year history is rampant; everywhere the attention of people seems to be turned to the past. We stumble over German emperors at every turn, and Napoleon confronts us at every step out of our beaten track.

The Friday club meets fortnightly in the afternoon, and imitates men's clubs in a bit of eating and drinking after the serious work of the hour is attended to. They have taken up the study of France, Italy, Spain, and this winter, Germany is receiving attention. A winter's session does not exhaust the study of a country, but much valuable knowledge can be gained in this time.

Well prepared original papers are read; extensive talks are given; old records, histories, maps, illustrated books, all help in the study of their subject. We think Quincy has never had a club exactly like this one, and although the members are generally young in years, good mental work is being done. A Scotland club is just peeping this winter, from which we may hear more in time.

The officers of the Friday club are:

President,—Mrs. George W. Morton.

Secretary,—Mrs. George G. Saville.

Executive Committee,—Mrs. G. W. Morton, Mrs. G. G. Saville, Miss E. Randall, Mrs. H. Gurney, Mrs. F. Illsley.

The members for 1895 are: Mrs. Z. S. Arnold, Mrs. W. T. Babcock, Mrs. L. Bass, Mrs. E. Crane, Miss G. Flint, Mrs. C. T. Hardwick, Mrs. N. S. Hunting, Mrs. F. Illsley, Mrs. G. W. Morton, Miss E. Randall, Mrs. A. E. Sproul, Mrs. G. G. Saville, Mrs. F. A. Tupper, Mrs. J. F. Welch, Mrs. T. H. Wason, Miss C. E. Small, Mrs. H. Barnes, Miss M. E. Hardwick and Mrs. H. Gurney.

Their work commences with the physical features of Germany, next taking Saxon and Franconian emperors. The first great period of architecture and literature follows. The Reformation and the Thirty Years' War come next. The age of Frederick the Great and Maria Theresa come then. The Seven Years' War, Napoleon and Europe, and the fall of Napoleon are next in turn.

Lessing, Goethe, Schiller are added. The revolution in Germany, the rebellion of 1848, the Austrian Empire and Kingdom of Prussia, the establishment of the new German Empire are the next numbers. Then come German home life, education, universities, scientists, cathedrals, painters, sculptors, architects, famous men, German political leaders, and Germany from 1871 to the present time.

This is only part of their comprehensive programme made out for this winter's work, and "unfinished work" which is last, makes one pleased at the determination to do thorough work in this admirable line. We hope the Friday club has come to stay and that these plucky and able members will extend their personal influence and efforts in other fields of excellence.

A DELIGHTFUL EVENING.

A Christmas Gift Shared With About Seventy-five Friends.

Mr. Theophilus King gave his daughter, Miss Zayma, a Christmas gift this year in the shape of a German on Saturday evening to which she invited about seventy-five friends from Quincy, Braintree and Boston. The house was handsomely trimmed with Christmas greens. Music for dancing was furnished by Loud's orchestra. Pretty little sprigs of holly bright with red berries and tied with ribbon were used for the favor german and looked festive in the button holes of the young men and on the handsome and many colored gowns of the young ladies. The ladies looked charming being in eveinng dresses of the daintiest of silks, crepes and muslins. Five or six germans were danced and the figures for each were very new and novel, and much enjoyed. A good old fashioned Virginia Reel was indulged in at eleven o'clock and wound up the evening's festivities, all scattering soon after for their homes. Those present were:

Miss Fay M. Hitchcock, Miss Jennie B. Field, Miss Sadie H. Whicher, Miss May Rice, Miss Mary Wales, Miss Remick, Miss Alice K. Prescott, Miss Marion Sherman, Miss Gertrude Sherman, Miss Kate Lincoln, Miss Lora Noyes, Miss Edith Noyes, Miss Jennie H. Richardson, Miss Ethel Keith, Miss Mary A. Souther, Miss Baxter, Miss Mary Huse, Miss Edith Huse, Miss Annie Eaton, Miss Edith Eaton, Miss Louise Farrington, Miss Katharine Lombard, and Miss Florence R. Emery, Miss Ethel Burke, Miss Mollie Dewson, Miss Fairbanks.

Mr. Arthur Sibley, Mr. Harry Rogers, Mr. Harry W. Porter, Mr. Robert B. Porter, Mr. Frank Southworth, Mr. Harry E. Russell, Mr. Barker, Mr. Ernest Wales, Mr. Harvey A. Field, Mr. Carl C. Lane, Mr. George Wendall, Mr. Remick, Mr. John Whicher, Mr. John Wood, Mr. Eaton Pierce, Mr. Arthur Holden, Mr. Edwin B. Pratt, Jr., Mr. Walter Burke, Mr. Raymond Burke, Mr. Jesse Litchfield, Mr. Allie Howland, Mr. Reed, Mr. Luther S. Anderson, Mr. Charles Slade, Mr. Harold Faxon, Mr. Max Butler, Mr. Eric St. J. Johnson, Mr. Edward Sturdevant, Mr. Jo. Sturdevant, Mr. Edward Bumpus.

THEY LOOK UP TO THEE.

Dedicated to His Excellency, Governor Greenhalge of Massachusetts.

Christmas brings cheer to every home in the nation,
A reunion of fond faces 'round their festival meal :
The fond hope of the morrow hangs o'er the officials,
That your Excellency may liberate them from Plymouth's revile.

Fear not the wrath of some cunning deceivers
For political purpose they e'en you would blackmail ;
Remember the officials fond hope of the morrow,
A reunion of fond hearts o'er the festival meal.

Thou art dear to the hearts of a tried noble people,
In thee, the keynote of their souls, will not fail ;
Remember the officials fond hope of the morrow,
A reunion of beloved ones 'round their festival meal.

PHILOSOPHY OF EMERSON.

The Subject of an Essay by Mr. A. M. Craig Before the Literary Society.

The "Philosophy of Emerson" was the subject of an essay read before the Quincy literary society Friday, by the able editor of the society's magazine, Mr. A. M. Craig. The vice president, Mr. William Traynor, occupied the chair, and the audience although not large was appreciative, and followed the essayist closely throughout.

Among American literary men Ralph Waldo Emerson stands preeminent as a thinker and teacher, appearing upon the world's stage at a period prolific of gifted writers, he assumed a position, and taught a philosophy peculiarly his own. Although opinions may differ upon the merits of his doctrines, there can be no question but he has wielded a vast influence upon the thought of the present century, both at home and abroad.

In the course of his essay Mr. Craig said: In treating of the philosophy of Emerson it will be necessary in the first place to define the term as simply as possible; and I know of no better definition than that given by Emerson himself." All the facts of natural history taken by themselves have no value, but marry them to human history and the result is full of life." In other words philosophy collects together all the facts that have been learned about nature from every available source, and applies the lessons thus derived to perfecting human thought. Emerson was well qualified for such a task. Receiving a liberal education. Possessing extensive knowledge of the results of scientific investigation, thoroughly independent in judgment, and unprejudiced by national or political liars, he constituted an ideal teacher. He had absolute faith in human nature; trusted implicitly in the supremacy of moral convictions, and never questioned the progressive triumph of good over evil. Of his unfaltering aptimism of his is one of the principal characteristics of his thought. Like an eternal star of hope its beams shine through every written page. To him earth itself was a heaven to which the human race was slowly but surely coming into harmony. To Emerson man seemed to have a dual personality; a spiritual and a material existence. Whatever was outside of man himself was unreal and indefinite; his own consciousness was all he could affirm."

After quoting Macaulay's remark that "to give the human mind a direction which it shall retain for ages is the rare prerogative of a few rare individuals," Mr. Craig proceeds: This prerogative is manifest in an unusual degree in the writings of Emerson. All that is sacred and noble in man's nature is irresistably lifted upwards in the perusal of his words. There is in them a lesson, an encouragement, an inspiration for the most lowly reader. His most eloquent language is used when impressively showing the blessings of self-respect, and urging the absolute necessity of self reliance. The pictures presented by Emerson stir up the dormant faculties to renewed activity; they inevitably bring to the surface all the latent power and strength that the reader is possessed of. He cannot fail to respond to the uplifting tendencies which engross him. The philosophy of Emerson is not an elaborate series of details for general adoption. It might briefly be summed up in the compound word "self-trust." Concluding the essayist said: There is in the writings of Emerson an inexhaustible supply of mental nourishment, an original insight that is profoundly infectious in its results, an accumulation of applied facts, a modest determination to stand firmly on revealed truth, and a dependence on moral obligation, "that time cannot dim nor criticism overcome."

Mr. Craig's paper which was exhaustive, and gave evidence of much study and research, was well received and as a literary production was very favorably commented upon. The remarks upon the subject of the essay indicated that among the members generally the writings of Emerson had not received that amount of attention which would enable them to give an intelligent estimate of the merits or demerits of his philosophy; but all agreed that in the essay read, ample proof had been given that a systematic study of the writings of the sage of Concord would well repay the time and effort thus expended.

Next Friday evening will be open night and sociable, and the society again begs to invite those ladies and gentlemen who on previous open nights favored the meeting with their presence, as well as others who may feel so inclined. Proceedings will begin at 7.30 prompt, and the committee will spare no pains to make this last meeting of the old year an unqualified success.

Christmas Economy.

Don't fail to read the adv. of Henry L. Kincaide & Co., you'll find something there to interest you.

Anyone who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

Christmas.

'Tis Christmas Eve!
All nature sleeps
'Neath Heaven's star-lit sky;
Bright little heads,
(In downy beds,)
To sleep now vainly try.
Visions of day,
Drive sleep away.
No thoughts of sorrow
On the morrow
Their little hearts will try.
With minds intent
On Santa bent
Beneath his load of toys,
A Christmas tree
In fancy see;
Ah, me! What lots of joys
In store for you
My little girls and boys!

* * * 'Tis Christmas day!
They gather now
Beneath the Christmas tree,
With anxious brow,
All eager now
Their presents for to see.
With joyous sound
They cluster round,
Their voices loud and gay,
And wait impatiently to hear
What "Santa" has to say.
Dear children:
May your youthful life
Be ever free from care and strife,
May Christmas joys
Be always thine,
No stormy days,
But all sunshine!

BARBARA TRUE.

THE NEXT COUNCIL.

Number Six of a Series of Sketches of the Councilmen Elect.

Albion I. Dixon, the new Democratic member of the City Council of 1895 from Ward Three, is one of the most popular young men of his district, and will be one of the youngest member in years, if not the youngest in the Council.

He first saw the light of day in Neponset, July 31, 1865. He received his education in the public schools of his native place, where he resided until nearly nine years ago, when he came to Quincy and entered the employ of W. H. Doble & Co., at South Quincy, and has been employed by that firm and its successors ever since.

He was a candidate for the Council of 1894, but was defeated, and the office of Councilman will be his first public service.

He at present holds the office of tanist in Clan McGregor, O. S. C., and during the palmy days of the Order of Clerks was one of its popular and efficient officers.

Mr. Dixon is married and resides on Goddard avenue.

TODAY'S COURT.

Otis O. Bishop, William Dunn, and Thomas Shiney, were each arraigned for drunkenness, Bishop at Quincy and the other two at Braintree. The court gave them their choice of paying $5 each into the County treasury or spending Christmas at Dedham jail.

William Connors of Weymouth was sent to the Massachusetts Reformatory for being a vagrant.

Christmas Word Puzzle.

An error crept into the announcement of the second contest over the word "Christmas." It would not be fair to allow those who found less than 65 the first time to enter, and that was the limit we intended to place, and therefore only those are considered today. No modifications of the word are included in a summary. The word Xmas, Chrismastide and even Christmases being excluded.

Four would be tied but for the stipulation that the first should receive the prize. It is therefore awarded to Miss Audrey Rhines with honorable mention for Georgie Howard, Bessie Hallowell and Mary McConnell each of whom sent 97 which were correct.

Another who sent 97 omitted four, while Henry Taylor, Mary Collins and Alice Webb are barred out because they did not find 65 in the first contest.

"The Birds' Calendar."

Mr. H. E. Parkhurst, in this little volume has made a contribution of some value to ornithology. He has undertaken to give an informal diary of a year's observations of the birds as they come from month to month to Central Park in New York. The book is the fruit of these visits and contains the work of a very acute and intelligent observer. The characteristic bird for each month in the year is also presented in a picture, and the work is as dainty and as bright as a true ornithologist can make it. The book is not too academic for the ordinary reader. It is comparatively free from technical terms, and yet it includes some account of most of the birds which are found in New England during the season. It will prove to be one of the choicest gift books of its kind for the season, and it has a permanent value for all who are interested in the study of birds. Charles Scribner's Sons; (16 mo.) New York.

A Pertinent Inquiry.

Whose business is it to look after City property? I see that vandals have broken one hundred panes of glass in the windows and doors of the old steamer house, and the whole structure is on the road to ruin. Where are the vigilant police? Are they color blind to sin?

HENRY H. FAXON.

Advertised Letters.

List of letters Dec. 24:

A. L. Anderson, Joseph Bartley, Charley Carlson, Dr. M. Collins, Frank W. Dewson, N. T. Glover, Fred Murray, Thomas Mulligan, Joakop Risker, Dr. Jas. Young.

Miss Margaret J. Manning, Miss Nellie Parson, Miss Katie Reynolds.

SISTER NURSING HIM.

Leader of the Notorious Cook Gang Dying From Bullet Wounds.

WICHITA, Kan., Dec. 24.—A special from Muskogee says that Bill Cook, the outlaw, is said to be lying at the point of death in the fastness of the Indian country, between this place and Fort Gibson. His sister Lou has reached there and is nursing him.

BILL COOK.

He is suffering from two wounds, and the deputy marshals have traced him by castaway bloody bandages. They are now within 24 miles of the dying bandit, and when they arrive trouble is expected, as Cook is in the midst of a strong force of his half-breed sympathizers.

Cherokee Bill was also wounded in the hip, and both were carried over 30 miles on litters by their friends.

A Drunkard's Deed.

VANCOUVER, B. C., Dec. 24.—George F. Ashford, a laborer, lived with his wife and five children in the east end of the city. For some time past he has been drinking heavily. He returned home late Saturday night and told his wife that her end had come. He then shot her in the head, killing her. Violet, aged 3, was next killed in a similar manner. Nine-year-old Mildred was also shot. The two boys escaped. The fiend fled, but seeing a car approaching, he threw himself in front of it, but the motorman pulled up in time to rescue him, handing him over to the police. Mildred will probably die.

Killed His Nephew.

WATERBURY, Conn., Dec. 24.—John P. Byrnes, aged 26 years, was fatally stabbed yesterday by his uncle, William T. Byrnes, aged 36 years. Byrnes at first denied having committed the murder, but afterward he confessed, saying that he acted in self-defense. John had charged William with owing him money, and struck him in the face. William pulled out a common clasp knife with two blades and struck John directly over the heart, the point of the knife piercing the apex of the heart. William is overcome with grief.

A Maine Camp Tragedy.

BANGOR, Me., Dec. 24.—Camelia Nashua and Charles Langley were murdered in a camp in Millinocket yesterday. It is supposed that the murders were committed by Joseph and Newell Gabriel, Indians, who belong in Oldtown. The murdered men, it is understood, had been hunting, and the supposition is that the Indians, who were their guides, killed them for the purpose of robbery. The Indians were captured by the lumbering crew and are now held prisoners at the lumber camp.

Unfortunate Seamen.

NEW BEDFORD, Mass., Dec. 24.—The crew of the whaling ship Agate, who were shipped to New York Friday, to be taken charge of by the Spanish consul, were returned by him to New Bedford. As they entered the country under the American flag, they will be obliged to return under the same flag. They are now thrown upon the city, and it is believed they will finally be sent to the state almshouse. They are unable to go coasting, as they suffer intensely from the cold climate.

Bonacum's Triumph.

OMAHA, Dec. 24.—The priests of the Lincoln diocese, who have been fighting Bishop Bonacum for two years, have surrendered. They admit that the bishop has won, and if he has not been sustained at Rome by the diplomacy of Mgr. Satolli, he left them no chance but to seek employment elsewhere. Father English, the tenth priest to quit the Bonacum diocese, came to Omaha yesterday, and now has charge of a parish in the city.

Determined to Remain Out.

PROVIDENCE, Dec. 24.—A meeting of the operatives of the hosiery mill at Thornton was held last evening, and it was decided that there was no immediate prospect for an end of the lockout. The men remained firm in their refusal to return to work for less than the present schedule rate, and it was asserted that fully 20 would return to England rather than surrender.

All Died the Same Way.

DANVILLE, Ky., Dec. 24. — Micajah Rowsey, a desperado, was killed at Junction City by Town Marshal Ellis, whom he resisted. Rowsey was the last of a family of seven sons, all of whom died with their boots on.

Little Ones Perished.

TOLEDO, Dec. 24.—Charles Clarke and wife went out to do their Christmas shopping, leaving their two children, aged 4 and 6, in bed. A fire broke out, and the children were smothered to death by smoke.

Attributed to Incendiaries.

TONAWANDA, N. Y., Dec. 24.—Fire in the lumber yards of A. Weston & Son destroyed 8,000,000 feet of lumber valued at over $150,000. The fire is supposed to have been of incendiary origin.

Sentence None Too Light.

HELENA, Mon., Dec. 24.—Charles J. Jones, a train robber, has been sentenced to 10 years' imprisonment. Jones and three other men held up a Northern Pacific train.

He Was Discouraged.

NEW YORK, Dec. 24. — Despondency, caused by approaching blindness, caused Jacob F. D. Solis, a lawyer, to commit suicide by shooting. He was 41 years old.

RACE WAR IMMINENT

Georgia Farmer's Murder Avenged by Killing Seven Negroes.

MOBS ARMED TO THE TEETH.

Blacks Said to Have Planned Wholesale Murder.

QUITMAN, Ga., Dec. 24.—With seven negroes dead and armed mobs of whites and blacks in near proximity to each other, the outlook for a race war in this county is startling in its certainty. The excitement is the result of the murder of Mr. Joseph Isom, a farmer. Seven negro lives were taken Saturday and Saturday night to pay the penalty, and this seems to be only the beginning of the end.

It had been discovered that a number of negroes had conspired to kill every man in the posse that arrested Jerry Jeffreth, for the killing of T. Moulden, a few weeks ago, and that the killing of Isom was the commencement to carry out this awful conspiracy. What the outcome of this will be in the next 24 hours cannot be foretold. No action has been taken to stop the action of the mob so far.

The names of the killed are: Sam Taylor, Eli Frazier, Sam Pike, Harry Sherad and three whose names could not be learned. No white men have been killed so far.

A Reign of Terror.

A reporter visited the scene last evening. Every crossroad was picketed with sentinels and every man in the county is armed to the teeth. When one of these excitements occur, King Terror rules in the homes of whites as well as blacks, and this is such a case. There were probably 500 men under arms, covering an area of about five square miles.

About a mile from the home of Isom were about 300 whites, all well armed and breathing all kinds of vengeance. A mile farther was a crowd of negroes of about the same size, armed with Winchester rifles, pistols, axes, clubs and every available weapon, waiting for the whites to attack them. They intrenched in and around a lot of negro cabins in the midst of a thin grove, and the last information is that the whites are advancing on many sides.

It is understood that the Waverleys, Pike, Jim McLelland and a negro named Herring were the others of the seven lynched. The county is comparatively sparsely settled, and the facilities for securing information are very meager. Pike is the negro who killed Isom. He has been in hiding near where the trouble has occurred, and the authorities do not consider it probable that he has been caught.

Captain Tillman, father-in-law of Isom, was doing everything in his power to restrain the whites. He had sent hurried messengers all over the country, summoning to his aid conservative men, in the hope that he could prevent further bloodshed. It will be impossible to know how well he succeeded.

Whites Won't Talk of Peace.

Details of the killing are meager. Taylor, Frazier, Pike and Sheard were together about sunset Saturday night. They were regarded as four of the ringleaders of the conspiracy to kill and burn, and were especially sought for. A half dozen whites, one of whom is said to have been Isom's brother-in-law, came upon them suddenly and ordered them to submit to arrest.

One of the negroes answered with a shot that struck one of the whites, and four blacks were shot down in their tracks. The other three were caught, one at a time.

Many of Isom's neighbors, who were interviewed, will not listen to any peaceful talk. They declare they must stamp out the gang that had sworn to murder, and that spirit seems to predominate.

Little Ones Burned.

BROOKLYN, Dec. 24.—A fire occurred last night in the flat at 209 South street, occupied by Charles Cornwall. Both Mr. Cornwall and his wife were away from home at the time, three children being left behind. In some unaccountable way the fire started, and two of the children were quite badly burned before being rescued. No one knew that another child was missing, but after the fire was extinguished the charred remains were found.

Judge Found Probable Cause.

PORTLAND, Me., Dec. 24.—The preliminary hearing in the Gorham murder case concluded in the finding of "probable cause" against James Lewis, alias James Lewis Welch. Lewis was committed without bail to await the action of the grand jury. J. A. Coleman was put under $1000 sureties and Edward Graffam under $2000 to appear as witnesses before the grand jury. They were unable to get bail.

Again In Good Standing.

NEW YORK, Dec. 24.—Dr. Edward McGlynn was appointed on Saturday by Archbishop Corrigan to the rectorship of St. Mary's church at Newburg. There are about 3000 parishoners, and the church is in a sound financial condition. Dr. McGlynn will say mass at the church of the Holy Cross tomorrow.

Outlawry Rampant.

OAXACA, Mex., Dec. 24.—There is such a disturbed condition of affairs on the frontier that the farms and ranches are being abandoned and the people are seeking places of safety from the depredation and crimes that are being constantly committed by the bandits and outlaws who follow in the wake of the soldiers.

Teck Suits Them.

BOSTON, Dec. 24.—The Armenians throughout the state are very much pleased with the proposal that the Duke of Teck be appointed protector of Armenia. The United Friends of Armenia have received letters from Lynn, Lawrence and Worcester endorsing the proposal.

Another Cashier Gone Wrong.

NEW YORK, Dec. 24.—Harold G. Butt, cashier of Hammerslough Bros., clothiers, is charged with embezzling $16,000 of that firm's money. Butt, it is said, systematically altered the books. He pleaded not guilty, and was held in default of $5000 bail for examination.

Lifeboat Swamped.

NEWPORT, R. I., Dec. 24.—Steamer City of Haverhill, from Boston to New York, in tow of the tug Ice King, nearly foundered off this port. The crew lost all their effects, having them in the lifeboat, which swamped.

HITT HAS OBJECTIONS

To the Payment by Uncle Sam of the Claims For Behring Sea Seizures.

WASHINGTON, Dec. 24. — Secretary of State Gresham's communication to congress relative to paying $425,000 for Behring sea seizures is occasioning much discussion among those who have been giving attention to the subject. Representative Hitt of Illinois, who introduced the resolution calling for the information, is not yet satisfied that the United States should pay the lump sum of $425,000 for the seizure, as he says the positive evidence already adduced shows this amount to be extremely excessive.

Mr. Hitt points out that the claims as filed foot up to $489,000, which is a little more than the amount of the proposed compromise. It is also shown that of the 18 ships claiming damages 10 were American ships. Some of these American sealers were flying the British flag merely for the sake of avoiding detection. Mr. Hitt urges that it is not for Great Britain to collect alleged damages to American ships.

The claims of these American ships are included in the settlement of $425,000, although Mr. Hitt says the United States should deal with its own ships in its own way, and not through Great Britain as an intermediary.

After deducting $357,000 for "probable earnings," and further deducting the claims of the American ships, Mr. Hitt holds that there is very little of the original claim left, and that $425,000 is far in excess of what it ought to be.

Heavy Blow to Clinton.

WATERVILLE, Me., Dec. 24.—The Waterville fire department was summoned to Clinton yesterday afternoon to help extinguish a fire that started from an overturned kerosene stove in a shoe factory. The principal manufactories in town were burned, including the shoe factory built by the Clinton Village Manufacturing association. The loss on this factory was $4700. The loss on the stock and fixtures was $2500. On the sawmill of the croquet factory the loss was $12,500. On the grist mill the loss was $4000. On the clothes dryer manufactory the loss was $300. On a dwelling house the loss was $600. The direction of the wind was the only thing that saved the town. There is no local fire department and the hand engine was frozen up. One hundred hands are thrown out of employment by the fire.

Burned Over Large Area.

WILLIAMSPORT, Pa., Dec. 24.—Fire at the village of Watsontown destroyed the opera house, four dwellings, a large livery stable, a general store and many outbuildings. Loss, $50,000.

A HUNDRED KILLED.

Seafaring Men Met Death In the Gale Off Great Britain's Coast.

MANY TOWNS BADLY DAMAGED.

Floods Play Havoc In Parts of Holland and Germany.

LONDON, Dec. 24.—Reports received from various parts of Great Britain show that the gale is abating. The storm raged with the greatest fury all day Saturday. Telegraphic communication with Scotland is completely interrupted, while the wires to the midland counties and Ireland are more or less damaged.

There is hardly a town of any size but reports personal casualities and loss of property. Manufacturing towns in the north and west suffered badly. Roofs were torn off and chimney stacks collapsed, crashing through adjoining buildings and killing and injuring a number of working people. In many places the residents were afraid to venture in the streets during the prevalence of the storm.

A number of fishing boats are missing. Three boats were swamped off Stornoway, and their 22 occupants drowned.

Much damage was done to houses in Dublin and the suburbs of that city. People in the Donegal hills are reported to be suffering terribly, their cottages

Being Wrecked and Flooded.

The ships America and Tamare Marshall went ashore near Greenock. The Arklow, for Ship Island, was driven ashore in Scalpsie bay, Bute, and has nine feet of water in her hold. It is expected that she will be a total loss.

All around the coast vessels are reported to be stranded or in the greatest danger. The ship Kirkmichael was wrecked off Holyhead and five of her crew were drowned. The other six men aboard her were rescued with much difficulty.

The four-master County of Kinross, for Hartlepool, was seen off that port lying on her beam ends and apparently sinking. Her crew were gathered in the stern with life belts on.

The exact number of deaths is unknown, but it is expected that the list will not be much less than 100.

The American ship Kennebec, from Port Blakeley, which had discharged her cargo at Belfast, broke adrift, and sunk a tug and damaged another vessel.

The Storm In Holland.

AMSTERDAM, Dec. 24.—Heavy floods have been caused by the storm in Holland. The rivers Maas and Rotte rose 12 feet, inundating parts of Rotterdam. Boats were used in the streets and in the market places. In several places the water succeeded in breaking through dykes, and the country in the vicinity of the breaks was flooded. Nine houses collapsed. At Utrecht several persons were drowned by the capsizing of a boat. Telegraphs and telephone wires were everywhere broken. The bark Caroline went ashore near Egmond-Aau-Zee. Part of her crew were drowned.

Belgian Villages Flooded.

BRUSSELS, Dec. 24. — The storm has caused much damage throughout Belgium. Many of the Belgian fishing fleet are missing. The town of Dendermonda was inundated by the overflowing of the Dender river. The inhabitants were aroused by the tocsin and escaped, but the property loss is great. The villages of Augdem, Denderville, Mespelacre, Appels and Baesrode were also inundated.

Hamburg's Flood.

HAMBURG, Dec. 24.—The river Elbe has overflowed its banks and inundated the lower portion of the town. The water is so deep in these sections of the city that tramcars are unable to run.

The Armenian Commission.

CONSTANTINOPLE, Dec. 24.—The porte has agreed to instruct the foreign delegates who will accompany the Armenian commission that they are empowered to personally examine witnesses. Abdullah Pasha has withdrawn from the presidency of the commission at the last moment, and has been replaced by two officials from the ministry of justice. Abdullah's recall is supposed to be due to representations that he is inferior in rank to Zedki Pasha, who, as responsible for the troops, it is alleged, that committed the atrocities, will have to be examined.

British Scheming.

ACAPULCO, Dec. 24.—The extended stay in this harbor of four British cruisers is a matter of much speculation as to the plans of England. The most generally accepted belief is that these cruisers have designs in connection with the present dispute over the boundary between Mexico and Guatemala. The attitude of the United States in the event of meddling on the part of England is also a matter being discussed.

Churchill Is Worse.

MARSEILLES, Dec. 24.—Lord Randolph Churchill has become worse since his arrival here. Symptoms of locomotor ataxy have appeared. Nevertheless, he was determined to proceed to London, and, accompanied by his wife and physicians, he started for Paris last night.

Czar's Envoy at Paris.

PARIS, Dec. 24.—General Tscherkoff, who was sent as special envoy to announce the accession of Czar Nicholas to Russia's throne, arrived here yesterday. He was received with military honors. Thirty thousand persons heartily cheered the general.

A Monarch's Clemency.

WARSAW, Dec. 24.—The czar has ordered the immediate release of the prisoners connected with the disturbances due to the populace opposing the closing of the church at Kroce, which led excesses on the part of the Cossacks.

The Dread Cholera.

BUENOS AYRES, Dec. 24.—Several cases of cholera are reported in Rosario. Great precautions have been taked to prevent the spread of the disease.

Signs of Progress.

TOKIO, Dec. 24.—The Corean government has agreed to open to foreign trade two additional ports, Kokego in the province of Chollado and Chiunampo on the Tatung river.

Back to His Home.

LONDON, Dec. 24.—Cruiser Blenheim, having on board the remains of Sir John Thompson, sailed from Portsmouth, Eng., yesterday, for Halifax.

HAND-TO-HAND FIGHT

Ten Thousand Chinese, Under General Lung, Routed by Japs.

NEWSPAPER ADVICES FROM JAPAN

Give Interesting Details Concerning the Eastern War.

YOKOHAMA, Dec. 24.—General Kasura on Dec. 19 attacked General Lung's position seven miles west of Haiti-Cheng. The position was defended by 10,000 Chinese, who were routed after four assaults.

A dispatch from Antonhg says that the Japanese force consisted of four regiments of infantry and five batteries of artillery. The latter bombarded the Chinese, who had established themselves in the village of Kung-Wasai. The infantry then thrice charged the Chinese lines. The fighting was stubborn, the combatants meeting hand-to-hand. The fight was the fiercest that has yet taken place. The Chinese loss is estimated at 500 killed or wounded. The Japanese also suffered severely.

A dispatch from Kobe says that thousands of Tonghaks defeated the Corean garrison of 300 soldiers at Challado, and then burned the houses. The inhabitants of the town fled. It is reported that a number of Chinese were among the Tonghaks.

Japanese Press Discussing Terms of Peace.

WASHINGTON, Dec. 24.—Recent newspaper advices received here from Japan show that the question of the terms of peace that Japan will demand from China is a fruitful subject of discussion by the native press. Opinions, however, differ regarding these terms, and while some journals content themselves with speaking generally on the subject, others are more specific in their demands.

One paper asserts that Formosa, important from a commercial and military point of view, must at all events be taken. After detailing what an immense expenditure must be incurred by Japan in supporting Corea and protecting Japanese interests in the north of China following the war, the paper declares that Formosa will have to be annexed as a resource from which to draw receipts at least equal to these prospective expenditures.

Another paper enters a strong protest against the claims advanced that China must surrender territory entirely out of proportion to the objects for which the war was undertaken.

Assuming that the war is practically over, the Japanese are already discussing the matter of Japan's prospects there after. Mr. Kaneko, the vice minister of state for agriculture and commerce, has been looking into the history of the United States after the great civil war and to that of Germany after the Franco-Prussian war for light on the subject, and the Noshomusho has been holding consultations about the matter for some time, but the investigations are far from concluded. The vice minister is personally of the opinion that the extension of facilities for direct exportation is of the greatest importance.

Complications In Corea.

According to a Seoul correspondent, affairs are again becoming serious in Corea, where there is trouble, in which Tai Won Kun, who is understood here to be practically prime minister, is involved. It had its origin in the surrender of Li Heiki, a favorite of Tai Won Kun, to the Corean police, in whose custody he is now held.

Li Heiki, it appears, took part in all the deliberations of the faction headed by the aged statesman, and is therefore acquainted with its secrets. Shortly afterwards he was made a police official, and had frequent occasions to meet members of the Japanese police now in the capitol. Intercourse with the latter gave him an insight into the real intentions entertained toward Corea by Japan.

Thus newly enlightened, says the correspondent, his hatred of the crooked artifices and ignorant devices of the faction with which he had been connected grew intense, and conscience finally drove him drove him to confess to the police officials what he knew of the faction's doings. He was placed in confinement and, although implored by several of the parties against whom he had informed not to confess, he made a clean breast of all he knew and had done.

Some objections were made by the Corean government to the demands of the Japanese minister, Count Inouye, for the examination of witnesses implicated in the affair, the Coreans asserting that such proceedings would be contrary to the time-honored usage of the country. The result of this collision between Count Inouye and the Corean government was not clearly known at the time the correspondent wrote.

Important Chinese Dispatches Captured.

Letters, by means of which the faction instigated the Tonghak insurgents, together with other documents bearing on the same point, and secret dispatches sent by Tai Won Kun to the Chinese generals in the Phyong-Yang, have all fallen into the hands of the Japanese authorities, and the sinister project of the old gentleman and his followers against Japan, the correspondent adds, is now an open secret.

Since these events transpired, news has come to the United States by telegraph to the effect that the Japanese government has "dispensed with the services of Tai Won Kun," and the natural presumption is that this action was the result of the occurrences referred to.

Factional strife in the Corean court is said by another paper to be the prime cause of all the evils now hampering the country's progress along the path of reform. Lately, another bone of contention has been superadded to accentuate the political confusion already existing in the field of politics. It is a question relating to the parentage of prominent members of the government, and the present trouble had its origin in the old-time Corean system of concubinage.

The Price of War.

A Japanese paper gives a summary of the losses of the Japanese and Chinese armies up to Nov. 23, exclusive of the battles at Fung-Wang-Chang, Kinchan, Talien-Wan and at Port Arthur. It shows that the Japanese lost about 330 killed and 835 wounded, while the Chinese lost 4800 killed and 4500 wounded, and 1018 of them were made captives, making a total of 10,318.

The Chinese have also had 211 cannon taken away from them, 4895 rifles, 36,384 cannon shot, 43,000,660 cartridges, beside enough ammunition to last a month, fighting with 20,000 rifles; 383 banners have been taken, 3400 tents, 1000 horses, 3,000,000 taels' worth of gold and silver, 111,090 mace coins, 2413 koku of rice, 5755 koku of unhulled rice, and in addition sufficient food to last an army of 20,000 men three days.

The Chinese have lost 13 vessels, a torpedo boat, five men-of-war sunk, and one of their war vessels captured, which makes a total tonnage of 9850 tons. The number of killed and wounded on the Japanese side is estimated at over 400, while those of the enemy is estimated at nine times that number.

WIND STARTED CAR.

Express Train Dashed Into It and Thirteen Lives Were Lost.

LONDON, Dec. 24.—The Manchester express, on the London and Northwestern railway, which was wrecked at Chelford Saturday night, consisted of two engines and 16 cars. A number of freight cars were being shunted near Chelford, when the wind started one of them back on the rails. A runaway car was driven slantwise across the main line just as the express approached.

The brakes of the express were applied and the engines reversed, but the momentum of the heavy train was so great that its speed was not quickly checked. The engines and three cars got clear before the freight struck the express. The cars which were hit by the freight were completely smashed, while those following were derailed and partially shattered.

The scene was a horrible one, the uninjured passengers screaming, the wounded groaning and the guards and porters shouting for assistance. Those passengers who had not been hurt formed a relief party. Thirteen bodies were taken out of the wreck, some of them badly mutilated. The injured numbered over 50.

Result of a Drunken Quarrel.

FALL RIVER, Mass., Dec. 24.—George Rusby, 60 years old, is locked up, charged with murdering his wife, Amelia, aged 43. The affair occurred on Tenth street, and was the result of a drunken quarrel, in which Rusby threw a lighted lamp at the woman. The lamp broke, and the oil and flames enwrapped her instantly. Mrs. Rusby received injuries from which she died. Rusby says she tipped the lamp over, but the woman in her dying statement to the police said he threw the lamp at her.

Louisiana Justice.

NEW ORLEANS, Dec. 24.—George King, a desperate negro, was lynched at a slaughter house last evening. He had a difficulty with some butchers, and went off and got a shotgun. Constable Guerre tried to arrest him, and the negro escaped to a barn from which he fired into the crowd, wounding half a dozen persons. The barn was burned down and the negro forced into the open, where he was shot and then dragged to a tree and hanged.

Bad Gang Captured.

ERIE, Pa., Dec. 24.—The ringleaders in the gang of masked burglars, who a week ago beat and bound and at the point of torture secured the $10,000 which David and Sarah Slocum had laid up for a rainy day, have been captured. They are Frank Anderson, Ralph Van Assler and Jeremiah Casey. Casey's fondness for his cups loosened his tongue and gave the scent which resulted in the capture of the gang.

Holiday Till Jan. 3.

WASHINGTON, Dec. 24.—Congress adjourned Saturday until Jan. 3 without having accomplished anything. A feeble protest was made by Senator George of taking a recess, when there was so much that ought to be done, but, realizing that there was no intention on the part of the managers of the senate to let any of this work be done, he withdrew even this remonstrance.

Eastern Capital In the Northwest.

CHEYENNE, Wy., Dec. 24.—A syndicate of eastern capitalists have organized two large companies with a capital of $500,000. The Aladdin Coal company will develop coal properties in this state and the Southeastern Coal company is to construct and operate a railroad from the coal fields through South Dakota to a point on the Missouri river.

Killed In Own Home.

CAMDEN, N. J., Dec. 24.—George Whittington, colored, was found dead yesterday at his hut near Collingswood. There is a bullet wound in his groin and he had bled to death. Three men and two women, who were also occupants of the house, have been arrested on suspicion of having murdered Whittington.

The President's Return.

WASHINGTON, Dec. 24.—President Cleveland and his party of duck hunters returned to the city yesterday. The president looks well, his rheumatism having been much benefited by the trip. Altogether the party killed about 300 ducks, the president being responsible for more than half of them.

Couldn't Crack the Safe.

CONTOOCOOK, N. H., Dec. 24.—Burglars entered the store of William E. Mudgett and stole a large quantity of goods. The safe was badly hammered, but the thieves failed to get it open. A horse and wagon were stolen from Nahum Whittier, six miles from here.

Case Dismissed.

ALBANY, Dec. 24.—A supervisor made the charges that District Attorney Kelly had neglected his duty. The governor appointed W. H. Henderson to take the evidence, and as referee he finds that the charges were unfounded. Governor Flower therefore dismisses the case.

Probably a Murder.

SYRACUSE, Dec. 24.—The body of Matthew Fulton, a lineman, was found yesterday beside railroad tracks in the Sand Hill district. A large gash was in Fulton's head and his pockets were empty. It is thought that Fulton was murdered.

Prominent Salemite Dead.

SALEM, Mass., Dec. 24.—Charles Tappan, a prominent chemist, died here yesterday at the age of 71 years. He was the inventor of a process for bleaching new flax so the fiber could be worked direct, and also an electrician of considerable note.

Must Toe the Mark.

TRENTON, Dec. 24.—The big western oleomargarine dealers have made this state their chief distribution center. They are not complying with the state laws, and a large number of firms are to be prosecuted for evasion.

Work Is Dull.

CHEYENNE, Wy., Dec. 24.—An order has been received to close the Union Pacific shops in this city indefinitely at the end of this month. Only about 80 men will be employed here.

Cottolene

The new vegetable shortening is the most popular food product of the day. Its use means good food, good health and a goodly saving in the end. Since the introduction of Cottolene, lard has no longer place in food or kitchen.

Cottolene

serves every purpose of lard, and serves it without grease, odor or indigestion. Those who have given Cottolene a fair trial never go back to lard. Be sure and get the genuine. Don't let any dealer palm off any of the many worthless imitations on you.

Mortgagee's Sale.

PURSUANT to and by virtue of the power of sale contained in a certain mortgage deed, given by Artemas B. Sherman to the City of Quincy, dated Dec. 1, 1890, and recorded with Norfolk Deeds, libro 649, folio 357, and for breach of the conditions contained in said mortgage, and for the purpose of foreclosing the same, will be sold by public auction, upon the premises hereinafter described, on THURSDAY, the tenth day of January, 1895, at ten o'clock in the forenoon, all and singular, the premises conveyed by said mortgage deed and therein described as follows:

The following parcel of land situated in that part of said Quincy known as Wollaston Park, being lot numbered 753, on plan of Charles S. Miller, dated April 10 1890, and recorded with Norfolk Deeds, Book of Plans 13, page 566, and bounded and described as follows:—Northwesterly by Ridgeway street fifty (50) feet; northeasterly by lot numbered 752 on said plan one hundred and thirty-eight (138) and 6-10 feet; southeasterly fifty-two (52) and 8-10 feet, according to said plan, and southwesterly by lots 754, 755 and 756, one hundred and fifty-five (155) and 6-10 feet, with the privilege of using Park Lake, so-called, in common with the owners abutting upon said Lake, containing 7,364 square feet according to said plan, being the same premises conveyed to said Artemas B. Sherman by Josiah P. Quincy and Josiah Quincy, Trustees, under an indenture dated January 22, 1877, and recorded with Norfolk Deeds, libro 486, folio 283, as modified by two indentures, one dated July 9, 1877, and recorded as aforesaid, libro 493, folio 289, the other dated January 31, 1884, and recorded libro 554, folio 401, by deed duly recorded in Norfolk Deeds.

Said premises are conveyed subject to the restrictions contained and mentioned in said deed of Josiah P. Quincy and Josiah Quincy, Trustees.

NORFOLK, SS. PROBATE COURT.

TO all persons who are or may become interested in the estate hereinafter mentioned, held in trust under the will of

ROBERT CRAIG,

late of Quincy, in the County of Norfolk, and to all persons whose issue not now in being may become so interested.

Whereas, Jennie Craig, trustee under the said will has presented to said Court her petition praying that she may be authorized to sell, either at public or private sale, certain real estate held by her as such trustee, situated in Quincy, in said County, and particularly described in said petition, for the reasons therein set forth.

You are hereby cited to appear at a Probate Court to be held at Dedham, in said County of Norfolk, on the second day of January, A. D., 1895, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is ordered to serve this citation by delivering a copy thereof to each person interested in the estate fourteen days at least before said Court, or by publishing the same once in each week, for three successive weeks, in the QUINCY DAILY LEDGER, a newspaper published in Quincy, the last publication to be one day at least before said Court.

Witness, George White, Esquire, Judge of said Court, this fourteenth day of December, in the year one thousand eight hundred and ninety-four.

CHRISTMAS NOTICE.

The DAILY LEDGER will not be issued on Tuesday, Christmas Day, but on Wednesday will teem with news of the glad holiday. May it be a Merry, Merry Christmas to all readers.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Hang up your stocking for Santa Claus tonight.

Mr. W. G. Corthell was last reported as being in Rome.

Mr. John C. Randall of Adams street has returned from Florida.

The School Committee and Council will meet on Thursday evening.

Mr. W. H. Owen of Atlantic is away on a business trip to New York city.

There has been a general shut-down in the granite sheds until after Christmas.

Mr. Ralph J. Saxe of Wollaston returned on Sunday from an extended Western business trip.

The street railway will run extra trips tonight to North Weymouth, leaving Quincy at 9 and 11.40.

Teams C and D of the Wollaston Bowling club will bowl at the Ducks Nest alleys on Wednesday evening.

Miss Ethel G. Pitkins of South Braintree entertains friends from Quincy and Boston on Christmas night.

Today will be a busy day among shoppers who have put off buying their Christmas presents until the last minute.

The postoffice will be open but a few hours Christmas morning and but one delivery will be made by the carriers.

Plenty of dancing the coming week for the young people, germans and social dances are announced for nearly every night.

The funeral of Thomas Lamb, father of Councilman Thomas J. Lamb, took place this morning. The interment was at St. Mary's cemetery.

Miss C. Belle Gannett of Wollaston who has been a teacher in the Pepperell public schools, has accepted a position in the Quincy schools.

One of the attractions for Christmas will be the masquerade at Faxon hall in the evening. A nice party is promised. Santa Claus will probably be there.

The Electric Light and Power company have just finished putting in 75 incandescent lights at John W. Sanborn's new house on the Butler estate.

Some one has sent a letter to this office complaining of John Callahan for cruelty to his horse on Saturday, by overdriving, etc., but forgot to sign his name.

Nearly all of the cars of the Quincy and Boston street railway are now supplied with electric heaters, and even on the coldest days they are warm and comfortable.

Secretary Battison of the High school Alumni Association gives notice that he will be at the office of the superintendent of schools on Friday evening to register graduates.

Mr. Henry H. Faxon is assisting Santa Claus as usual in distributing Christmas gifts, and many young ladies are thanking him for the very handsome presents they received.

Rev. Francis M. Hart of West Quincy, who was ordained to the priesthood Friday, Dec. 21, celebrated his first mass, Sunday, at St. Mary's church. The services were largely attended by many of his neighbors and former schoolmates.

When the janitor of Memorial church went to the church Sunday morning he found that some of the windows had been opened and a quantity of stones, onions, dog meat and other refuse thrown in. The windows were left open so that it was impossible to heat the church again before morning service.

☞ Wisdom in buying brings you to our store, Henry L. Kincaide & Co., complete house furnishers.

CHURCH AND CHAPEL

Christmas Services of Yesterday, Today, and Tomorrow.

CONCERTS, FESTIVALS, TREES.

Christmas the Theme of Many Excellent Sermons on Sunday.

Many of the churches will hold Christmas festivals for the children this evening.

The Wollaston Congregational Christmas festival will be held on Tuesday afternoon at 4.30.

The Sunny Hour Club of the Wollaston Unitarian Sunday school netted $32 at its sale and entertainment, which was held last Friday afternoon and evening.

The Christmas festival of the Wollaston Unitarian Sunday school will be held this evening at 7 o'clock.

The Wollaston Congregational society has collected about $190 for the Quincy City Hospital.

The attendance at the song service at Norfolk Downs seems to be larger each Sunday, and by the way the people are taking hold of the movement, it promises, in the near future, to be a society that will compare favorably with many of the churches of our city. The address Sunday was by Rev. H. L. Cummings of Boston, Mrs. Parker of Weymouth sang two contralto solos and Miss Haynes of the Downs acted as pianist.

There will be no Christmas exercises for the children at the Centre Congregational church today or tomorrow, on account of the new chapel not being in readiness. The chapel will probably be dedicated next Sunday and the Christmas festival will follow the next week.

The Wollaston Baptist Sunday School will hold its Christmas festival this evening at 7 o'clock.

There will be a Christmas tree and festival for the children at Christ's church this afternoon at 6 o'clock. Tuesday morning at 10.30 there will be a specia Christmas service.

Rev. Preston Gurney of the Wollaston Baptist society, preached an excellent sermon from Luke 2: 10. This was one of his happiest efforts and was greatly appreciated by his congregation. The choir was assisted by a chorus of twenty voices and the singing was very fine. Mr. Chas. B. Dickey's tenor voice was admirably displayed in the song, "The Holy City."

The article in Saturday's LEDGER on cigarette smoking among boys, meets with general approval and will have a good effect upon local dealers, who in the future will exercise more care in selling tobacco and cigars.

The four o'clock vesper services at the Unitarian church are becoming very popular and the attendance is on the increase. The church yesterday was handsomely trimmed with evergreen and holly and the special Christmas music was finely rendered. Many were present from other churches.

The Sunday evening service at the West Quincy, Methodist church was a Christmas vesper service, entitled "The Babe of Bethlehem," during which the pastor gave a short discourse upon the "Star of Bethlehem," illustrated by blackboard designs.

The services of the Independent church in Wilson's hall, were interesting, instructive and largely attended. In the morning Rev. John Moore of Boston having unexpectedly come in, preached an able sermon from Acts. 10: 38, "He went about doing good." In the evening Rev. Wm. Steele spoke on "Nutshell Troubles from many Lands." Text: 1 Samuel, 24: 13. The song service and solo singing by Mrs. Steele, were pleasing features of the evening service. Come. Christmas tree entertainment tonight.

West Quincy Methodist church, Rev. E. W. Virgin, pastor. On account of his many engagements already made Santa Claus will not be able to be at the Methodist church, West Quincy this week, but he has promised to attend the combined Christmas and New Year's entertainment which will be given in the church New Year's eve, Dec. 31, and he will not forget to bring his packs full of good things for the children in the Sunday School. Rev. Edward W. Virgin preached to a good congregation Sunday morning in the West Quincy Methodist church, on "The Meaning of Christmas and Santa Claus. He pointed out the lessons to be taken from this universal time of good cheer and showed the derivation of our Santa Claus from the Saint Nicholas the patron saint of children and also of the Dominican Friars.

THE BROWN INQUEST.

No One Criminally Negligent But Danger at Point Should be Reduced.

Judge Humphrey filed his return this morning on the inquest on the body of Sylvester Brown of Quincy, who was killed by the cars at Wollaston Nov. 30.

The report says: Sylvester Brown came to his death Nov. 30, 1894 in consequence of being struck by the engine of train No. 792 on the Old Colony system of the N. Y., N. H. & H. R. R., while attempting to cross the track of that railroad at the Wollaston station in Quincy.

The deceased had called at the Wollaston post office, and on the way home had come upon the westerly platform of the station just as the southbound express train was seen to be approaching, and, as soon as it had passed, he stepped upon the north bound tracks and was struck by the engine, before he had taken more than a second step, and thrown forward, nearly 75 feet, falling lifeless upon the westerly platform.

The train which caused the death of Mr. Brown, ran express from South Braintree, was due at Wollaston at 5.22 o'clock P. M., but was two minutes late, and was running at the rate of 40 miles an hour, or more. Its engine passed the rear car of the southbound train, either while under the Beale street bridge, or within a few feet of it, and the time which elapsed between the instant when the tracks of the railroad, at the point where Mr. Brown attempted to cross them, were clear from the southbound train, and the instant at which he was struck was scarcely more than three seconds.

No signals of the approach of this train was given, except the ringing of the engine bell, and this was ineffectual to give warning, since it appears by the act of Mr. Brown, and by the testimony of two witnesses, who were waiting on the platform to cross the tracks, that neither of the three had recognized the sound of it, up to the moment when Mr. Brown stepped from the platform.

It also appears that the projection of the westerly abutment of Beale street bridge shuts off the view of the headlight of that train from a person standing a few feet back from the edge of the westerly platform.

I find that the death of Mr. Brown was accidental, and that no person was guilty of criminal negligence in respect to its occurrence; but this death of an estimable citizen emphasises the fact that this point is dangerous beyond almost any other on this line of railroad and demands the immediate adoption of measures to diminish its hazards.

The Saturday Shoot.

Saturday's sharp wind reduced the scores at the Wollaston Trap club shoot. Prescott was high man with 18 on the first string and 19 double on second. Elcock, who is still suffering from his old malady, rheumatism, has to shoot his birds at a known angle. If it is pleasant the club will hold a shoot on Christmas forenoon at 10 o'clock and extends a cordial invitation to all to participate. The score:—

GEORGIA'S RACE WAR

Brought About by the Cold-Blooded Murder of a Bailiff.

SMALL ARMY OF WHITE PEOPLE

Determined to Rid the District of Lawless Characters.

QUITMAN, Ga., Dec. 26.—The northern portion of Brooks, portions of Worth, Berrien and other counties adjoining, have large numbers of negroes, mostly brought from North Carolina for the purpose of getting turpentine from the pine trees which abound there. These negroes live in camps.

When Bailiff Maulijn of Brooks sought to arrest a negro charged with some trivial offense, some two weeks ago, he was confronted by armed men with Winchester rifles and pistols. The bailiff found it safest not to attempt the arrest, and turning his horse's head started to ride away. Two negroes named Jeffreys fired on him and killed him instantly.

The citizens aided the officers, and, after much chasing, captured the two Jeffreys and confined them in the Brooks county jail. It is said that a number of negroes, under the leadership of Waverly Pike, formed an oath-bound organization to kill every man concerned in the arrest of the Jeffreys. In pursuance of this plot, Joseph Isham was killed a few days afterward and Henry Eilman was marked as the next victim.

The Cause of the Present Outbreak

is twofold. First, the arrest of Waverly Pike and bringing him to trial for the murder of Isman, and, secondly, to break up the gang of outlaws who have shot down good citizens.

The white people who have formed themselves into a small army have this purpose in view. So far it is supposed that the following negroes have been killed: Sam Taylor, Eli Frazier, Harry Sherod, Sam Pike, George Fritz.

A negro named McColl and two others named Hen[illegible] are in Brooks county jail because they were present at the killing of Isham, and are supposed to be accessories.

A state of terror exists in the northern portion of the county. Innocent negroes are coming into Quitman seeking protection, and more conservative citizens asked the governor for protection by the militia.

The trouble at this point is practically over. The Valdosta videttes were ordered here by the governor. The citizens assured them there would be no more trouble.

BRITONS SEE WAR

In the Disturbances Which Are Frequently Happening In the South.

LONDON, Dec. 26.—In a leader on lynching of negroes in the southern states, The Post and Morning says: It is hardly open to question that many parts of the former slave-holding states of the American Union the negro question is rapidly approaching a critical stage.

In the north the gravity of the situation is hardly recognized, although the whites refuse in practice to accord the negro that political and social equality to which he is theoretically entitled. In the south no hallucinations exist. In the parts of the south where white families are often isolated, each white man knows that he and his family are in a position of perpetual peril.

That a critical point has been reached, however, is shown by the fact that the negroes display a tendency to stand by men of their own race and aid them by force, if need be. It may be necessary to face a racial war some day. The result, of course, would be doubtful. The power of organization of the white man is superior that of the negro, and, in case of a racial war, the whites would have exclusive command.

Such a struggle, however, would be far from ending the negro question. The root of the trouble lies principally in the fact that negroes multiply more rapidly than the whites, who insist on ruling, no matter at what cost. Against such universal conviction there is no appeal, nor is it possible to say that this conviction is devoid of justification.

Hayti and Liberia do not furnish favorable evidences of the capacity of the negro to govern, and the negro press of the southern states does not afford any indication that the black population of the territory possesses either discretion or enlightenment.

The idea of settling the negro question by the ultimate fusion of the races is untenable. In many states of the Union mixed marriages are illegal, and white women who are willing to accept black husbands belong to the class which has nothing to lose. The progress of time increases the peril of the situation and does nothing to bring about a solution of the problem.

The government of the United States has before it the problem of the successful treatment of a question which concerns not only the republic, but the whole civilized world.

The Chronicle says: The racial troubles in Georgia appear to be practically entering the stage of civil war. How would general disarmament answer the purpose of peace? A fine, say of $50, for carrying revolvers, and imprisonment for the second offense?

Died In Exile.

WASHINGTON, Dec. 26.—General Henry K. Kalusowski, aged 88 years, died here Sunday. He was one of the most prominent leaders of the Polish rebellion of 1830 and the Austrian insurrection of 1848. During the latter outbreak, he was, with Louis Kossuth, exiled by the Austrian government for his sympathies with the insurrectionists.

A GRAND RECEPTION

Tendered Father McGlynn on the Occasion of His Restoration.

NEW YORK, Dec. 26.—Rev. Dr. Edward McGlynn celebrated high mass in this city yesterday for the first time in eight years. He was the celebrant of the solemn high mass in the Church of the Holy Cross in West Forty-second street at 4:30 in the morning, and at the 11 o'clock mass preached the sermon. An immense crowd gathered at the church on both these occasions. A great part of the throng was from Father McGlynn's old parish, St. Stephen's. The church was packed to the doors and standing room was at a premium.

At the early mass Dr. McGlynn said a few words in keeping with the day. Those who crowded into the church at 11 o'clock with an idea of hearing him discourse on his struggle for years and his restoration were disappointed. He made no reference to these subjects, but confined himself closely to the conventional Christmas sermon. His difference with Archbishop Corrigan was never mentioned.

At the close of the mass Father McGlynn was waited on by a large number of his old parishioners and presented with a well-filled purse. The reception almost took the form of a demonstration.

Big Lumber Fire.

BURLINGTON, Vt., Dec. 26.—The fire that broke out at 10.30 Monday night was finally checked at 3 o'clock yesterday morning, in spite of a high wind. The fire started in the Vermont Shade Roller company's storehouse. Then other lumber piles owned by J. R. Booth, sheds, one or two unused offices, a number of freight cars and an engine house of the Central Vermont were attacked. The fire burned 1,500,000 feet of lumber and swept over an area of several acres. Mr. Booth's loss on lumber is over $100,000.

Midwinter Racing.

LOS ANGELES, Dec. 26. — Ten thousand people saw the crack pacers and trotters of the country go against their own records yesterday. Directly, the champion two-year-old, went against his record of 2:07, but could only go in 2:09. Robert J beat Joe Patchen in the pacing race, winning the first, third and fourth heats in 2:08, 2:07 and 2:08. Patchen won the second in 2:13. Emil Ulbrecht, a local bicycler, raced against Flying Jib and beat the pacer, 2:04. Jib's time was 2:07.

For the Suppression of Vice.

WASHINGTON, Dec. 26.—It has been determined by the general officers of the World's Woman's Christian Temperance union to present the polyglot petition to the representatives of the United States government in Washington, Feb 17. This petition is signed in 50 languages and by as many nationalities throughout the world, and asks that the protection of the government may not be vouchsafed to the sale of intoxicating liquors and opium or to the legalization of social vice.

"Big Rube" Killed.

WASHINGTON, Dec. 26.—Reuben Mills, known as "Big Rube," a well-known character in the betting ring, was shot and killed in a saloon at Jackson City, Va., by Thomas Craven, also a frequenter of the race track. Craven gave himself up to the police. He claimed to have acted in self-defense. He said he was knocked down and kicked in the face by Mills. He has a broken nose, his eye is blacked and his face terribly scarred.

Cleveland's Ducks Served Up.

WASHINGTON, Dec. 26.—At the White House the Cleveland babies enjoyed their first Christmas tree, which was placed in the library. It was beautifully trimmed and decorated. A part of the menu of the cabinet dinners were ducks killed by the president on his recent hunting trip in South Carolina. The president and Mrs. Cleveland gave turkeys to all the employes of the house, and the servants received gifts in money.

Uncle Sam Rebuffed.

CONSTANTINOPLE, Dec. 26.—The sultan has made his final reply to the application of United States Minister Terrell to have Mr. Jewett, United States consul at Sivas, make an independent inquiry into the reports of Turkish atrocities in Armenia. The sultan positively declines to allow Mr. Jewett to accompany the Turkish commission appointed to inquire into the reports referred to.

Gold on His Farm.

BROWNSVILLE, Neb., Dec. 26.—James May, who lives two miles from here, began digging a well on his farm. At a depth of 25 feet he found gold-bearing ore, and continued digging until a depth of 70 feet had been reached. The specimens assayed proved to be rich in gold, and contained some silver, and a syndicate has been formed to work the lead.

Impersonating Santa Claus.

COLUMBUS, Ind., Dec. 26.—Christmas exercises were held in the First Baptist church here. Rev. Gilbert Dobbs impersonated Santa Claus, and was covered with cotton. He got too near to some footlights, when the cotton caught fire. Several persons extinguished the flames, but not until he had been badly burned. It is thought he will recover.

Holmes In New England.

FALL RIVER, Mass., Dec. 26.—David Holmes, the English labor leader, arrived in this city yesterday. Mr. Holmes is here to investigate the general condition of the textile trades. He will address meetings of spinners and weavers, will stay here a day or two, then go to New Bedford, Lowell, Lawrence and the Blackstone valley.

A $60,000 Fire at Albany.

ALBANY, Dec. 26.—The upper portion of the handsome six-story building of the Young Men's Christian association, adjoining the Kenmore hotel, was gutted by fire last night. The fire was discovered in the elevator shaft and soon spread over the entire upper part of the building. The loss will reach nearly $60,000.

Lost Two Seamen.

ST. JOHN, N. B., Dec. 26.—Ship Carles, from Dublin, reports a series of gales during her 32 days' voyage. Several sails were destroyed, and one sailor fell overboard and was drowned, and another fell from aloft and was killed.

Wenham Skater Drowned.

BEVERLY, Mass., Dec. 26.—A lad named Sargent of Wenham was drowned at Longham Meadow. The boy was skating, and fell through the ice. He was 10 years old.

EVERYTHING SEEMS WRONG

to the dyspeptic. The world is upside down; the times are out of joint; he's ready to turn his back upon his best friend.

Now, the thing that oftenest *is* wrong with dyspeptics, is their choice of a remedy. There are drugs and medicines on the one hand—the Carlsbad Sprudel on the other. They can't both be right; there's too much difference in their methods and in their results.

Carlsbad—the waters of the Sprudel Spring at Carlsbad have been curing dyspeptics for hundreds of years. *Curing* them. No remedy in the world has been so thoroughly tried and proved, in all digestive disorders, stomach troubles, lack of appetite, or perverted nutrition. Add a little of the genuine Carlsbad Sprudel Salt to the first *tumblerful* of the water, if you desire to increase its purgative action.

Do not be imposed upon by unscrupulous dealers who will sell you a mixture of Seidlitz Powder or Glauber Salt as "Improved Carlsbad Salt" or "Artificial Carlsbad Salt," "German Salt," or other names. Insist upon the genuine article, which must have the signature of "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

CHRISTMAS WEDDING.

The Goodspeed-Pinkham Nuptials at the Wollaston Baptist Church.

A very pretty wedding took place on Tuesday, at the First Baptist church, Wollaston, the contracting parties being Miss Leila May, daughter of Mr. and Mrs. George F. Pinkham, and Mr. Charles Elliot Goodspeed of Wollaston.

The ceremony was performed at half past seven o'clock by the Rev. Preston Gurney, pastor of the First Baptist society in the presence of a large gathering of relatives and friends of the bride and bridegroom.

The edifice was beautifully decorated with palms and ferns, and cut flowers.

The bride was becomingly gowned in a Swiss muslin trimmed with white satin ribbon, and the bridemaids, Miss Rippey and Miss Florence G. Olney, wore Swiss muslin with pink chiffon.

The maid of honor was Miss Ida Goodspeed, sister of the bridegroom, and the best man was Mr. J. Arthur Sparrow.

A pretty feature of the ceremony was that of eight young girls, gowned in white, who marched from the vestry of the church to the main entrance to meet the bride and her attendants, singing the Bridal Chorus from Lohengrin.

The ushers were Mr. Walter S. Pinkham, a brother of the bride; Mr. Thresha A. Kiffey, Mr. Frederick E. Litchfield, and Mr. William Myers.

After the ceremony a reception was given at the residence of the bride's parents on Warren avenue to friends from out of town. Mr. and Mrs. Goodspeed were assisted in receiving by the maid of honor and bridemaids.

On Wednesday, Jan. 16, a reception will be given to friends in Wollaston. Mr. and Mrs. Goodspeed will be at home at their house No. 5 Warren avenue, Wollaston, after Feb. 1.

Rescued from Brook.

As usual, on the night before a holiday there were numerous incidents that were not all pleasure.

About 6 o'clock Officer Ferguson was notified that a man under the influence of intoxicants had fallen into Town brook in the rear of J. R. Wild's manufactory. Investigation by the officer showed that a one armed man named Timothy Sheahan had rolled into the brook. He was taken to the police station wet, and his face and clothing covered with blood, which was flowing from a cut over the left eye probably resulting from striking against a rock on the wall when he fell over. City Physician Welch was summoned and dressed Sheahan's wounds.

THE DOCTORS MEET

With the Board of Health Relative to the Treatment of Diphtheria.

The Board of Health held a meeting Monday afternoon at which the physicians of Quincy were present by request, to devise some plan to more effectually cope with that dread disease diphtheria, now so prevalent.

The physicians responded and offered many valuable suggestions as to the manner in which the disease should be treated should an epidemic break out as was feared at one time.

The most feasible plan was to build a separate hospital for the treatment of those afflicted with the disease, that they might be more effectually treated and to prevent as far as possible from contagion; also that a thorough system of fumigation be adopted.

There were a number of other valuable suggestions offered which will be fully considered by the board at its next meeting.

XMAS IN CHURCHES.

The Joyous Season Generally Observed in Quincy.

SUNDAY SCHOOL FESTIVALS.

Santa Claus Kept the Ledger Reporters Busy, But All Enjoyed It.

It was a Merry Christmas for the Sunday School children of Quincy who generally observed the Christmastide. Many of the services and festivals are reported below.

First Church.

The children of the First church had a grand time Monday in the chapel which was tastefully trimmed for the occasion with evergreen.

From five o'clock until nearly six o'clock there were numerous games, in which all of the children participated. Then their came supper, and down stairs they went, where tables loaded with good things to eat had been arranged by the ladies.

At seven o'clock all assembled in the chapel once more where they were entertained with a little play entitled "The Ruggles." It was during this play that Santa Claus was introduced and he made it lively for the little ones, for he showed them a beautiful Christmas tree loaded with pleasing gifts for each and all.

It was a grand time, and if the truth was known, it was equally as enjoyable to the older persons present as to the children.

St. John's Church.

Special Christmas services were held at St. John's church Tuesday, mass being celebrated at 5, 9 and 10.30 o'clock. The church about the altar was handsomely trimmed with cut flowers and palms for the occasion.

At the 10.30 mass Gounod's Sacre Chœur mass was sung, the regular choir being augmented by Mr. Daniel Padula, Mr. Sullivan of Boston and Mrs. Ita Welsh Donovan.

At 8 o'clock in the evening special vesper services were held conducted by Rev. F. F. Hart, assisted by Rev. John J. Garrity and Rev. J. P. Cuffe, with Rev. F. A. Frigulietti as master of ceremonies. Generalis vespers were sung by the choir. A special feature of this service was the singing of Rossini's Creation by Mr. Daniel Padula and Mrs. Ita Welsh Donovan.

Presbyterian Church.

Tuesday evening at 6 o'clock occurred the Christmas concert of the Sabbath school. There were many pretty recitations and dialogues, the singing included duetts and quartettes, besides the beautiful carols, and Sullivan's "It came upon the midnight clear" as a solo by the pastor. Then followed the gifts of fruit and candy to the children, including the many little visitors. The attendance was large.

Swedish Lutheran Church.

The Sunday School of the Swedish Lutheran church, celebrated Christmas, Tuesday evening, at the church on Granite street. The church was appropriately decorated for the occasion with evergreen and on front of the platform were two trees heavily loaded with good things. Before these were distributed there was a concert by the children consisting of recitations, etc., singing by the male choir and music by the Lutheran band.

Independent Presbyterians.

The Independent Presbyterian society held a Christmas tree entertainment at the residence of Mr. Neil McDougall, Granite street, Monday evening. About 100 were in attendance. The scholars, with the aid of a magic lantern, gave an enjoyable entertainment. The tree, loaded with toys, fruit and "little houses that Jack built" filled with candy, was stripped. The good things were received with enthusiasm. The organist, Miss Lizzie Essons, was presented with a tiny purse containing a shining gold piece, as a token of appreciation. After thanking all who contributed to such a pleasant time for so young a society. The meeting was closed with the doxology and benediction.

Christ's Church.

All the children of the Sunday School of Christ's church received a present from a bountiful laden tree on Christmas eve, and each was also the recipient of a bag of candy. The tree festival occurred in the church. The rector spoke briefly, and carols were sung.

Christmas day there was a special service at 10.30 with excellent music, which will be repeated next Sunday morning.

At Quincy Point.

Monday night was a perfect Christmas eve and the large number in attendance at the Washington Street Congregational church proved how much it was appreciated. The vestry was prettily decorated with green and the Christmas trees were gorgeous with their bright decorations and many colored candles.

The entertainment was in charge of Mr. George A. Sidelinger and passed off successfully. At the intermission between the first and second parts of the program, cake and cream were served to the members of the Sunday school. Mrs. A. F. Kelley kindly furnished the ice cream for the occasion. Santa Claus was personated by Mr. C. F. Randall, and he made an excellent Kris Kringle as all will attest.

The several committees and aids fulfilled their parts perfectly and everything passed off in a satisfactory manner.

Superintendent Charles Sherburne who has always labored so assiduously in the Sunday School was made the recipient of an easy chair.

At Wollaston.

Christmas was observed by all of the Wollaston Sunday Schools this year.

On Christmas eve the Unitarian Sunday School held its annual festival in the vestry. A little play, "The Old Woman in a Shoe" was given by Mrs. Charles T. Baker and half a dozen bright children. Then Santa Claus, Mr. W. E. Simmons, appeared and distributed presents from a well laden tree.

The First Baptist Sunday School also held its festival on Christmas eve. Santa Claus, E. S. Litchfield, dropped down from the roof, by a rope and after distributing the presents disappeared as mysteriously as he came, to the great delight of the children. Mr. Corthell,' who is at present in Italy, did not forget the Sunday School which he has been superintendant of for so many years, and had a liberal supply of ice cream sent out from Boston.

The Congregational Sunday School celebrated Christmas on Christmas night. The vestry was crowded with little ones eager to catch a glimpse of Santa Claus,—Mr. A. L. Baker—as he scrambled out of the huge fire place. But when he did come a dozen little ones screamed with terror at the sight and had to be carried home. The Santa Claus in rhyme and story is always pictured as being dressed in white or gray fur, but this one wore a buffalo coat and cap, thus striking terror to the hearts of the children who had expected to see the regulation Santa Claus. But Santa Claus was a jolly good fellow and soon dispelled the fear as he distributed the presents from the great Christmas tree.

The Methodist society also held its tree on Christmas night. After a cantata the presents were distributed to an enthusiastic crowd of children.

A CHRISTMAS SERMON

The New Pastor of the Presbyterian Church Talks Plainly to His People.

Beginning with Sunday, the sermons were upon "The Christ Child," morning, and "Christmas Giving," evening. The latter discourse aroused a lively interest and has been followed by much favorable comment. The text was Col. 3:17: "Whatsoever ye do in word or deed, do all in the name of the Lord Jesus.

The speaker severely arraigned the practice of the Christmas exchange of valuable gifts. This is not true giving, but trading; and either party to the trade feels aggrieved if what he receives falls greatly below what he has sent in probable value.

Among friends and relatives who are all in comfortable circumstance, and all the more emphatically when they are rich, the presents should be mere mementoes, of little intrinsic value; while such people should all remember the poor and needy with substantial and wisely planned relief.

True Christmas giving is Christ-like giving, which expects no recompense. See the Saviour's teaching about the banquet Luke 14; 12:14. And all giving should be "in the name of the Lord Jesus." This forbids the custom of giving to the children in the name of Santa Claus. It is robbing childhood of its sweetest story to substitute a myth for the beautiful history of the Babe of Bethlehem. Surround Christmas giving to children with all the pretty mystery at your command, so long as you keep to the truth. But teach the little ones that the gifts come from or for the sake of the blessed Jesus, who loves them as he did when he bade them come to him. Thoughtful children when they are undeceived about Santa Claus, either feel hurt that their parents should have deceived them, or else believe that it is right to tell untruths if no harm is meant; but nothing untrue can be told "in the name of the Lord Jesus."

LOST A FOOT.

A West Quincy Man Meets With Serious Accident at Atlantic.

Geo. Ellis of West Quincy was run over by the 7.05 outward train from Boston Monday evening at the Atlantic depot. He came out on one of the earlier trains and was waiting for a branch train for West Quincy. He busied himself walking back and forth across the tracks when he was struck and thrown, the wheels of the engine passed over him taking off his right leg just above the ankle. He was also severely bruised and cut. He was removed to the Massachusetts General Hospital, and may recover.

TODAY'S COURT.

Dennis Whalan of Randolph was fined $6 for drunkenness.

John Walsh for drunkenness at Quincy was fined $5.

Timothy Sheahan for drunkenness at Quincy was placed on probation.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

MARRIED.

ARCHIBALD—GEORGE — In Chelsea, Dec. 24, by Rev. Francis W. Backerman, Mr. Joseph H. Archibald of Quincy, to Miss Lizzie E. George of Chelsea.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

The local storekeepers report a fairly good Christmas trade.

Meetings of the City Council and School Committee will be held Thursday evening.

Several of the churches which did not observe Christmas with festivals and trees will do so at New Year's.

The Christmas festival of St. John's Sunday school will be held this afternoon at 4 o'clock in Hancock hall.

No new cases of diphtheria were reported to the Board of Health this morning, although one death has occurred.

W. L. Ripley, of the Quincy Bicycle rooms, starts on the road next week with samples of the '95 Quincy wheel.

The new chapel of the Congregational church will probably be dedicated next Sunday with appropriate exercises.

Mr. and Mrs. Wrigley are receiving congratulation on the arrival of an eleven pound boy on Christmas morning.

Miss Anna M. Starbuck is spending the Christmas vacation of the East Greenwich, R. I. Academy, at her home on Howard street.

The street railway remembered all of its employes Christmas. The married men received nice fat turkeys and the single men warm gloves.

Miss Leila M. Pinkham who was married on Tuesday evening, has the distinction of being the first child born in what is now known as Wollaston.

This evening at 7.30 o'clock the Young Ladies' Aid Society of the Presbyterian church meets at Mrs. Chisholm's for the annual election of officers.

The store windows which looked so pretty the day before Christmas present a far different appearance today, as they have been stripped of their many pretty things.

The Christmas concert on Sunday evening at Quincy Point under the direction of Supt. Charles H. Sherburne was largely attended. An excellent programme was presented, and proved most entertaining.

Petitions are being circulated at Wollaston, requesting the management of the N. Y. N. H. & H. R. R., to place a gong at the Wollaston depot and also one on the waiting shed opposite, to warn people of approaching trains.

Edgar F. Hayden, Jr., was quite seriously injured on Monday. He jumped from a moving wagon and caught his foot in the spokes of the wheel. His leg was not broken as at first feared, but badly wrenched.

Thursday evening the prayer meeting at the Presbyterian church will be held in the auditorium at 7 o'clock, and will be followed by a reception in the Sabbath school rooms given by the ladies of the parish to the Rev. and Mrs. Robert Westly Peach. All members and friends of the church are most cordially invited to be present.

THE MASQUERADE.

A Pretty Party Enjoyed Christmas Night at Faxon Hall.

The masquerade at Faxon hall on Christmas night was a grand success and an enjoyable occasion. About 40 couples participated in mask and ten to twenty more couples joined in the festivities later. The grand march was led by Mr. Arthur Metcalf, as Little Lord Flaunteroy, and Miss Beatrice Porterfield as Baby. The fat boy and the fat girl were there, also the chevalier, the clown and Mexican, the milk maid and Bo Peep, the military man and Uncle Sam, Little Red Riding Hood and the darkey society girls, and a genuine cane and dude.

Prof. Holmes, violin, and Mrs. Rhines, piano, gave excellent music. Ice cream and cake were served at intermission. It was an enjoyable time, and the Roslindale, Weymouth, Braintree and Boston dancers will come again Feb. 22, when another party will be held.

Among those in costume were:

Mr. J. I. Condon, Horace Souther, Alice White, James Matherson, Frank Tarbox, Edward Myett, Louis Chapman, Harry Berry, B. J. Langhorn, Bert Halbert, Charles Merrill, John Bigelow, Charles Hobart, George Brackett, Monroe Perry, James Gillespie, Bert Curtis.

Miss Grace Cain, Grace Batson, Edith Chapman, Cora Dyer, Jennie Reith, Grace Spear, Mary Jilbert, Flora Gomez, Bessie Reith, Bertha Foss, Mrs. Porterfield, Mrs. Rice, Eva Bryant.

SKATER DROWNED.

Young Man Who Ventured on Ice at Braintree, Goes Through.

About eight o'clock Monday evening, William Smith of Braintree went upon the ice at Little Pond. The ice was thin and he broke through and was drowned before he could be rescued. He had been upon the pond but a few minutes, and being unfamiliar with the place he skated too near an open spot and broke through. He called loudly for help, but becoming numbed with the cold he sank.

A boat was put out from the shore by a young man named Whiting, who seized the coat of the unfortunate young man and pulled him into the boat, while his companion drew it to the firm ice.

The body of Smith was taken into the engine room of the pumping station and restoratives applied, but without avail.

Disturbers In Hawaii Not Likely to Cause Serious Trouble.

HILL OUT OF PRESIDENTIAL RACE.

Positive Assertions That Carlisle Intends to Resign.

WASHINGTON, Dec. 26.—No concern or alarm is felt at the Hawaiian legation here from the reports of fresh plotting by the Royalists to overthrow the provisional government and restore Queen Liliuokalani.

Mr. Hastings, the charge d'affaires of the legation, received telegraphic reports via San Francisco after the arrival of the Australia, about 10 days ago, and the Arawa a week later, which says that everything is quiet. Hastings says the natives are peaceable and willing to accept the new government as it is, and have never been inflamed nor stirred up since its formation.

He fears no danger from the band of men who are now reported as having designs against the government, and says that there is but one full native born in the list, and asserts that there is no fighting spirit in them. The result of any trouble they might precipitate would be needless bloodshed and then total defeat.

The state department gives little credence to the rumors. It is pointed out that the arrests of the conspirators were made six days before the steamer sailed that brought the news. A week or two weeks after a conspiracy had been discovered, and the leading conspirators arrested, is thought to be a poor time to begin a revolution, because the authorities would be on the alert and ready to nip anything of the kind in the bud

It is further said that the leaders of the republic are resolute men, and they would never give up without a desperate fight, which the natives would be very unwilling to meet. The idea of British interference is scouted.

Secretary Gresham said last night that he had not read the story of the alleged conspiracy. "We have no advices of such a conspiracy," said he, "and none that would even tend to show the possibility of such a thing. I should be much surprised to hear of any successful conspiracy there."

The secretary's manner left the impression that he put absolutely no credence in the alleged dispatch.

Not a Presidential Candidate.

Senator David B. Hill is not likely to be a candidate for the presidency in 1896. He has stated this plainly to a most intimate friend and well-known Democrat in the east.

Senator Hill since his gubernatorial race in New York has been keeping very quiet. He has been to Florida and recuperated.

Now that he has returned to Washington the politicians in both parties are keeping a sharp lookout for every move he makes. The senator, according to one of the leading Democrats, proposes to allow other people to assume the aggressive.

The senator from New York will insist upon immediate action upon the currency and other subjects, to carry out which he will urge the cloture. Senator Hill, a few days ago, told a well-known Democrat that the party must do something at this session to make good the pledges made in the Chicago platform.

Carlisle to Resign.

It is now definitely decided that Secretary Carlisle will resign. Since his appointment, it is said, others had dictated the financial policy, in view of which the Kentucky statesman has been greatly displeased. Secretary Carlisle proposes to run for governor next fall, but before he leaves the cabinet, it is said, he will make several important suggestions to the Democratic ar y g ne ally.

Secretary Carlisle's resignation is expected about April 1, and in certain circles much pressure is being brought to bear upon him to resign earlier. The secretary proposes to remain in the cabinet, however, until the result from the present congressional session is known.

Farmers Got the Worst of It.

UNION, S. C., Dec. 26.—Kent Gregory and Jack Crawford, two farmers, came to town yesterday and got drunk. Gregory was locked up, and when he had regained his sobriety he was released, took Crawford with him and hunted up Chief of Police Culp, who had arrested Gregory. The farmer shot at the c ief, hitting him in the thigh. Culp returned the fire, and was joined by two of his patrolmen. Gregory was hit four times and died immediately. Crawford, who joined in the shooting, was hit twice and will die.

The Electric Juggernaut.

BROOKLYN, Dec. 26.—Frank Tolrieka, aged 15, was struck by a trolley car while attempting to cross Myrtle avenue last night. With his legs nearly severed, he was wedged between the forward wheels and the motor box. In that position he remained for 45 minutes, gasping in agony. It was impossible to move the car without crushing out the little life left in the boy. A gang of men had to tear the car apart before the boy could be extricated. He will die.

A Remarkable Old Lady.

HARTFORD, Dec. 26.—Mrs. Emily Robbins Talcott of West Hartford, the oldest resident in this state, reached her 101th birthday yesterday. She was born in Wethersfield, and was married at 20 to Ansel Talcott, who died here a few years ago. She has four children living and grand and great grandchildren.

Two Victims of Consumption.

SCRANTON, Pa., Dec. 26.—Thomas Cahill, late manager of the Scrantons, died of consumption yesterday. He was 28 years of age. He was a graduate of Holy Cross college, Worcester, Mass., and for two years studied medicine at the University of Pennsylvania.

Old-Time Telegrapher Dead.

ST. LOUIS, Dec. 26.—Colonel Sol Palmer, one of the oldest telegraphers in the country, is dead. Colonel Palmer, at the time of his death, had been for about 26 years superintendent of construction of the Western Union Telegraph company.

Skater Drowned.

BRAINTREE, Mass., Dec. 26.—William Smith skated into an open spot in the ice on Little Pond and was drowned. The body was recovered after it had been in the water a quarter of an hour.

DEATH ON THE RAIL.

Editor M'Ewan of Braintree Observer Run Over on Crossing.

Braintree was shocked on Christmas eve by a horrible accident to one of its best known citizens, Mr. William M'Ewan, for many years editor of the Braintree Observer. Death relieved his sufferings a few hours later at the Massachusetts General Hospital.

Editor M'Ewan had just obtained his mail at the Braintree post office and intended to take the 6 24 outward train for East Braintree. He noticed, he said, the train approaching but thought he had time to cross, although warned to keep back. He was struck by the train and thrown some distance, landing between the platform and rail. At first it was thought he had been killed, but there was life and the unfortuate man was taken into the depot. Dr. Henry L. Dearing attended him and found a bad cut on the head, his right arm nearly severed so that it must be amputated and other severe injuries. The shock alone was sufficient to cause death. The doctor telegraphed to Boston for an ambulance to meet the train, and Mr. M'Ewan was placed upon the 7.06 train, Officers Damon and Qualey attending him to the Massachusetts General Hospital. There it was found that the injuries were even more serious, and he passed away about ten o'clock.

The body was taken in charge by Undertaker King of Weymouth, and the funeral services will be held Thursday at 2 P. M. from the Braintree and Weymouth Union church.

Mr. M'Ewan was born at Dimsbalt, parish of Antermuchty, county of Fife, Scotland, June 28, 1834, making him in his 61st year. He located in Brainree in 1863, and for some years was the village grocer. He was also depot master for awhile. In the old country he had done some newspaper work, and he followed it up in this country by becoming Braintree correspondent for the Weymouth Gazette. In 1879 he began the publication of the Braintree OBSERVER. For five years it was printed at the office of the Randolph Register, and for the past ten years at Quincy, George W. Prescott & Son being the present proprietors.

Everybody in Braintree knew "Mac." He had many friends among all classes. In giving Braintree a good local paper for nearly a score of years he has done much for the town: in preserving its history; in working for its upbuilding, its advancement, and its good name. Braintree was his pride, and his work should not be underestimated. His talents were above the ordinary man. Some years ago he was active in church work and a member of the Union church, and was a God fearing man. He is not known to have any relatives in this country, but the publishers of this paper and other friends have interested themselves in the deceased.

No axe to grind, at the store of Henry L. Kincaide & Co. A store that is run in the interest of the people. The best the market produces. The prices, mighty low.

CHRISTMAS SHOOT.

Remarkable Scores by Councilman Federhen at Wollaston.

The Wollaston Trap club held a successful shoot on Tuesday forenoon at its grounds off Elmwood avenue.

Federhen was high man and made a remarkable score. On the team shoot he broke 24 straight and missed the 25th. He followed that up on the first string with 25 straight, thus breaking 49 out of 50 birds and eclipsing all previous records at the club's matches. On the second string he broke 23, making a total of 72 out of a possible 75.

In the team shoot Federhen's defeated Prescott's, 108 to 100. The Eddy brothers of Dorchester, who are considered crack shots, came over, Lewis being on Federhen's team (broke 15), and Darius F. on Prescott's (broke 19) Morse, who happened to be in Wollaston heard the shooting and went over to the grounds. He did not have his own gun and consequently made an indifferent score. Olney has been out of practice so long that his score in the team shoot was unusually low for him, but in the first string he sent it up higher. Tucker was there with his new Choke bore L. C. Smith gun and broke 10 on the team shoot and 13 on the first string. Prescott did not show up to good advantage until the second string and then he retrieved his bad luck by breaking 23.

The next shoot will be held on Saturday afternoon at 3 o'clock.

NO DEFINITE NEWS

Of the Appointment of Japanese Commissioners to Treat For Peace.

WASHINGTON, Dec. 26.—No information has yet reached the Japanese legation here of the appointment of peace commissioners to treat with the two Chinese ambassadors recently appointed. The suggestion is advanced that the Japanese government is probably awaiting the arrival of the Chinese ambassadors before making the appointments. The Japanese commissioner will not, in fact, be appointed until some formal proposition is made by the Chinese envoys.

On account of the fact that communication from Pekin to Chinese ports is somewhat difficult because of the frozen condition of the rivers and canals, the arrival of the Chinese in Japan may be delayed for some time. Nothing concerning the report that Shao, one of the Chinese ambassadors, will be persona non grata to the Japanese, on account of his actions as governor of Formosa, has been received at the legation.

Horse Jumped Overboard.

BOSTON, Dec. 26.—A herdic containing Austin E. Snow and Miss Lillian A. Nute went into the river from the deck of the ferryboat Winthrop last night. Snow was drowned and the horse and herdic both lost. When the boat was within 30 feet of the East Boston slip, the horse became frightened, broke down the iron gates and plunged into the water. Miss Nute managed to crawl from the vehicle before it sank and was pulled out of the water. Snow was unable to get clear of the herdic and went down with it. The driver, E. T. Wilson, was in the cabin at the time.

Italy's Scandal.

ROME, Dec. 26.—Several papers which have hitherto been hostile to Prime Minister Crispi have suddenly taken up his cause. The Opposition assert that Sig. Crispi no longer has a majority of the chamber of deputies, and demand that he publish a list of his parliamentary adherents. Sig. Colajanni says that Sig. Crispi places Italy, which tolerates him, in dishonor and sad inferiority. The Riforma says that the ferocious war, in which Sig. Crispi's enemies united in the attack against him, can only add to the grandeur of his fight.

Summoned Before Lexow.

NEW YORK, Dec. 26.—Nine police captains have been subpœnaed to appear before the Lexow committee. It is understood that the committee will ask Inspectors Williams and McAvoy and Captain Martins some questions concerning the charges made against them by Captain Schmittberger. It is also understood that the committee will do a little probing into police affairs in the tenderloin district. Superintendent Byrnes has received a subpœna to produce certain records of the police department before the committee.

A Philadelphia Shindy.

PHILADELPHIA, Dec. 26.—While Policeman McFarland was attempting to arrest William Brown, one of a gang of toughs, he was set upon by Charles Gallagher, John Morrill and William Slaar, companions of Brown. McFarland fired three shots from his revolver, one of which tore out Gallagher's right eye and lodged at the base of his brain. Gallagher is dying and McFarland is in a serious condition. Morrill and Slaar are in custody and Brown escaped.

One Man Lost an Eye.

BRIDGEPORT, Conn, Dec. 26.—Early yesterday morning, while a dance was in progress in Sailors' hall, given by the Ribbon association, about 50 men and boys entered the hall and attempted to run things. They later went outside in the street. Fifty members of the Ribbon association marched out and a fight took place, and raged fiercely. William Clark of the Ribbon association was badly wounded, having an eye gouged out.

Checkered Career Ended.

RALEIGH, Dec. 26.—James H. Yarborough was found dead in bed here yesterday. He was a native of this state and eight years ago killed a man in Ohio, and was sentenced to life imprisonment. Just after sentence was passed he attempted suicide and his life was barely saved. Last August a pardon was granted and Yarborough returned to North Carolina. He had been drinking heavily several days.

Both Were Safe.

PARIS, Dec. 26.—The duel between M. Jaures, the Socialist leader, and Dr. Barthou, minister of public works, growing out of a discussion in the chamber of deputies, took place yesterday. Dr. Barthou, as the challenged person, selected pistols as the weapons to be used. Two shots were exchanged, with the result usually attending French duels, that is, nobody was hurt.

PALE, THIN AND EMACIATED PEOPLE.

The country is full of them. They do not know what it is to feel well like other folks. Medicines of all kinds have been tried without good results. Cod Liver Oil and the preparations of Malt have all failed. What is the reason? These emaciated people cannot digest starch foods. The fat of the body is produced with bread, potatoes and other starchy food. If they will eat food that is artificially digested they will grow fat, strong, plump and robust. They will commence gaining flesh at once. The Flesh Forming Food is called *Paskola*. You can buy it at any drug store. Send your name to the Pre-Digested Food Co, 30 Reade Street, New York, and get their interesting pamphlet.

MORAES IS POPULAR.

Peace and Prosperity Now Settling Down Upon Brazil.

MANY REVOLUTIONISTS SET FREE.

Reports of Cholera Epidemic Were Exaggerated.

NEW YORK, Dec. 26.—Dr. J. A. Tonner, late surgeon of the Brazilian cruiser Nictheroy, arrived home yesterday from Rio de Janeiro, per steamer Delcomyn. The doctor stated that he was present at the inauguration of President Moraes and was a guest at the reception given by the president the same evening. He describes him as being a tall, spare man, of dignified and serious expression and of broad and liberal views. He has every reason to believe that his administration will be peaceful and prosperous.

PRESIDENT DE MORAES.

There appears to be no indication of revolt. The navy is in a great measure hostile to the army and no insurrection can possibly succeed in Brazil without the concerted action of both the army and navy. The president is quite popular with the whole people; he has already granted amnesty to nearly all participants in the late rebellion, excepting Admirals de Mello and Da Gama. De Mello is still reported to be at Montevedio.

The editors of the principal Rio papers have been pardoned and have returned to the capital.

No Serious Sickness.

The sanitary condition of the city is excellent, very few cases of yellow fever being reported. The reported outbreak of cholera or cholerine took place at a small town about two hours ride by rail from Rio de Janeiro. The sanitary authorities took prompt measures to stop the spread of the disease.

The town was quarantined and communication cut off with Sao Paulo and other adjacent towns. Some 20 cases of the disease were reported, of which three were fatal, all the rest recovered, including a Chinese immigrant, who was suspected of having first brought the infection from the south.

The ironclad Aquidaban, which had been temporarily repaired at Rio, had sailed for Bahia, where she was expecting orders to proceed to Toulon for repairs. The Nictheroy was laid up in the navy yard at Rio de Janeiro.

Miserable Treatment of Immigrants.

PHILADELPHIA, Dec. 26.—A special dispatch to The North American from Chester says that the 365 steerage passengers of the steamer Southwark, which was recently detained off that city on account of the death of a passenger from smallpox, are confined at the quarantine station there in the most absolute filth and privation. In an interview one of the prisoners said that a petition complaining of the food was signed by 250 of them, but the officials in charge suppressed it.

Risky Business.

POUGHKEEPSIE, N. Y., Dec. 26.—Harry Meneer, an English bridge jumper, leaped from the top rail of the Poughkeepsie bridge with his parachute yesterday afternoon. The parachute worked successfully, and Meneer struck the water in just eight seconds after he started. Meneer showed no apparent injury from his perilous leap. Poughkeepsie bridge is 212 feet from the base of the rail to the water, which is about 60 feet deep.

Ecuado's President Criticised.

LIMA, Dec. 26.—The extraordinary action of the government of Ecuador in permitting the Ecuadorian flag to be used in the transfer of the Chilian cruiser Esmeralda to Japan has excited the greatest indignation in Ecuador and the adjacent republics. The only explanation offered by President Cordero is that Ecuador will derive advantage from the transaction.

Almost Totally Paralyzed.

LONDON, Dec. 26.—Lord Randolph Churchill is suffering from general paralysis. He lies in a semi-conscious and critical condition. The patient has not entirely lost the use of his lower limbs, but his weakness is extreme and his appetite is slight.

Didn't Forget Himself.

BERLIN, Dec. 26.—Emperor William has ordered that a medal be produced to commemorate the restoration of the palace church at Wittemberg. The obverse of the medal will bear the emperor's portrait, and the reverse a representation of the church.

Childbirth Caused Death.

LONDON, Dec. 26.—Lady Henry Grosvenor, wife of the second son of the Duke of Westminster, died Monday night at Chester. She gave birth to a boy last Sunday. Lady Grosvenor was married in 1887.

Alcohol's Victim.

QUEENSTOWN, Dec. 26.—The Teutonic reports that a second-class passenger named Charles B. Degnan died from delirium tremens on Sunday last and was buried at sea.

Train Ablaze.

NASHVILLE, Dec. 26.—A through passenger train was wrecked near Brentwood, nine miles south of here. The train is burning up. There was no loss of life.

An Accidental Shot.

BANGOR, Me., Dec. 26.—William Stewart, while hunting Monday with William Alger, was accidentally shot by the latter. He died yesterday.

SECRET BECOMES KNOWN.

Hetty Green Said to Be In Constant Fear of Death by Poisoning.

NEW YORK, Dec. 26.—Mrs. Hetty Green, said to be laboring for years under the belief that her father and her aunt were murdered, but unable to make a legal case against any suspected assassins, has had attached to her will papers and affidavits embodying the evidence upon which her belief is founded, and which has led her for many years to fear a similar untimely death.

The richest woman in America, who has appeared callous to gibes at her parsimonious habits, has all the time chafed under imputations which she deemed unjust. But she had despaired of ever being able to dispel them in her life, and so sought to protect her memory after death by this strange addition to her will.

She says that her father on his death bed told her that he believed he had been poisoned and bade her look out, as the same motives which led any one to take his life would influence the same person or persons to get rid of her.

She had been called from the home of her aunt, Miss Silvia A. Howland, with whom she had been staying in New Bedford, Mass., and, before she returned there after her father's burial, her aunt had died. A few years afterward she discovered what she considers evidence that her aunt, too, had been poisoned.

From that day she has lived in fear of a similar death, and she avers that attempts on her life and her son's have been made from time to time.

So, in mortal fear for herself and her son, she has cooked her own meals, and lived for long periods frugally on crackers and eggs. And she has frequently changed her place of abode.

Armenians of America Make Protests.

WORCESTER, Mass., Dec. 26.—In the Church of Our Saviour a national convention of the Armenians in America was held yesterday, and amid the wildest enthusiasm it was resolved to appeal to the powers of Europe and to the United States government to compel the porte to grant Armenia autonomy and freedom and make amends for the horrible butchery of human lives in the Sassoun region. The convention began at 1 o'clock in the afternoon, and was followed by a mass meeting, which did not come to an end until nearly midnight.

Will Try It Again.

BALTIMORE, Dec. 26.—John Coats won the title of champion lightweight pugilist south of Mason and Dixon's line last night. Paul Johnson had the title, having won it during the Richard K. Fox tournament last season by defeating Joe Gaus. The fight last night lasted 11 rounds, every one of which was fought on the hammer and tongs order. There was no stage in the fight when Coats had not the best of it. Backing to the amount of $1000 against $500 was offered on Johnson, and the battle will probably be fought again.

A Peculiar "Accident."

ST. JOSEPH, Mo., Dec. 26.—William Menzel went into Bloom Bros.' saloon and borrowed a revolver, saying that he wanted to "Get a man." He was given a 44-caliber pistol. A few minutes later he met a young man named Frank Tracey, and, without a word, shot the latter through the bowels. Tracey died in five minutes. Menzel claims that he did not intend to shoot Tracey, and says that it was an accident.

Tonghaks Gaining Ground.

YOKOHAMA, Dec. 26.—Although Japanese rule is accepted by the Coreans generally, the Tonghaks are still active. They have just captured Lai-Ju, capital of the province of Haido. They expelled the governor and installed one of their number in his place. Three towns in southern Corea have been burned by them. Their numbers are increasing, they getting reenforcements from the tiger hunters.

A Cool Proposition.

MINNEAPOLIS, Dec. 26.—A paper here states that Harry Hayward, now in jail on the charge of murdering Catharine Ging, has tried to bribe Sheriff Ege to kill C. A Blixt, who has confessed to shooting Miss Ging at Hayward's instigation, or to at least allow Blixt to kill himself. Hayward is quoted as saying that Blixt is a coward, and would commit suicide if he had a chance.

Is 198 Feet High.

WOODSVILLE, N. H., Dec. 26.—Baldwin's windmill tower at Wells River, Vt., built by Smith & Winchester of Boston, was successfully raised yesterday. The total height of the tower, with wheel, is 198 feet, and it is said to be the highest windmill tower in the world.

Driver Is Missing.

PLYMOUTH, N. H., Dec. 26.—A Montreal express killed a horse early yesterday morning in the road between here and Ashland. The horse was harnessed and a wagon was found near the track. Who the owner of the team is and how it came where found is a mystery.

Drowned In a Reservoir.

BOSTON, Dec. 26.—Alexander Wilkinson, 8 years old, was drowned in the reservoir on Dorchester heights while skating yesterday afternoon, and another lad named Holmes, who broke through at the same time, narrowly escaped.

A WARDMAN'S STORY

Police Captains Collected From All Classes of Evil Doers.

INSPECTOR WILLIAMS' TESTIMONY

He Proves to Be the Toughest Witness Yet Examined.

NEW YORK, Dec. 27.—Next to Superintendent Byrnes, Inspector Alexander Williams is looked upon by the residents of this city as the man who knows every detail in connection with the police department of New York. When it was made known that he would be called as a witness before the Lexow committee yesterday, there were numerous applicants for admission to the courtroom. Lawyers, doctors, bankers, brokers and men about town scrambled for seats to hear the famous "knight of the club" and Inquisitor Goff cross foils in a wordy fencing match.

During the early part of the proceedings former Wardman Shavely, who was Policeman Hussey's partner in the Twelfth precinct, was examined, and he told about his collections of bribe money from saloonkeepers, proprietors of houses of ill-fame and policy shops. He accused Captains Webb (retired), Doherty, Eakins and Schultz of receiving the bribes. During Schultz's regime, he said that the price on policy shops was raised 10 per cent, and that in nine months he paid over to Schultz about $4500.

Detective Sergeants Phil Reilly and "Jake" Vongerichten were called after recess, and they said they attended the races at Saratoga during their vacations, and that they received money from the owners of the track for keeping "crooked persons" away from it, but they denied ever having divided money they got with any of the police officials in New York.

Williams on the Stand.

Inspector Williams was then called. He was dressed in full uniform and seemed to be as unconcerned as if he were going to testify against an ordinary "drunk and disorderly." In reply to Mr. Goff, he said that he learned the trade of ship carpenter, and previous to 1866, when he joined the force, he had charge of shipyards in China and Japan. When he left there he was worth from $15,000 to $20,000 and had property in Japan.

He accounted for his transactions in real estate, and swore positively that he was never directly or indirectly connected with the sale of Hollwood whisky. The inspector had been accused of having an interest in the company which handled this brand of liquor, and it was stated that by displaying the company's sign in a prominent place, the proprietors of saloons were protected from arrest or annoyance for violation of the excise law.

Witness denounced Schmittberger as a liar, saying he was prompted to lie by a promise of immunity by the Lexow committee. He met Mr. Goff's attacks stubbornly, and frequently aroused merriment by his answers to questions. After 70 minutes of fencing, Mr. Goff asked for an adjournment, and the majority of the spectators said that Williams was the "toughest" witness that the investigators had met as yet.

It is expected that the examination of the inspector will occupy the whole of today's session.

ACCEPTED BRIBES.

Police Captain Stephenson Is Heavily Fined and Sent to Jail.

NEW YORK, Dec. 27.—Ex-Police Captain Stephenson, who was recently convicted of accepting bribes, was sentenced yesterday to three years and nine months' imprisonment by Judge Ingraham. Captain Stephenson was also fined $1000.

Stephenson was convicted Dec. 12. The charge against him was bribery in receiving four baskets of peaches from Martin N. Edwards, a produce dealer, as a partial consideration for allowing Edwards to violate the law by occupying the sidewalk to facilitate the transaction of his business. Policeman Thorne was mentioned as the go-between for Stephenson and was indicted. Subsequently Thorne made a confession, in which he stated all he knew of police corruption and blackmail.

At the trial of Stephenson before the board of police commissioners, Thorne denied any part in the blackmailing transaction of Stephenson. In his confession, however, he said he had perjured himself before the board and declared that Stephenson had endeavored to make him reperjure himself at the trial in Oyer and Terminer.

Claim False Pretenses.

PROVIDENCE, Dec. 27.—C. P. Trafford and Edward Metcalf, local officials of the Columbia and Commercial Alliance Life Insurance companies, have been arrested on complaint of A. B. Crafts, who claims that they have committed fraud in obtaining $300 from him under false pretenses. Both men were admitted to bail.

Into an Air Hole.

MILFORD, Mass., Dec. 27.—Annie Voyer, 17, and George Hugo, 22, while skating together on the Charles river yesterday, went into an air hole and the girl was drowned. Hugo was resuscitated with difficulty.

Crushed to Pieces.

MALDEN, Mass., Dec. 27.—A man, in whose pocket was found a discharge card from a hospital bearing the name of David Dunn, either threw himself or fell in front of a freight train and was ground to pieces.

Prefer Russia to China.

BERLIN, Dec. 27.—The Mohammedan inhabitants of Turfan, Kashgar, are in open rebellion, descrying to shake off the yoke of China and found an independent government under Russian suzerainty.

DEMOCRATS WILL RESIST

The Seating of Addicks Should He Win the Senatorial Fight in Delaware.

WASHINGTON, Dec. 27.—The latest advices from Delaware go to show that the chances of J. E. Addicks being the successor to Senator Anthony Higgins are much better than at any previous stage of the campaign. One of Senator Higgins' most intimate friends, who has just returned from Wilmington, says that the gas magnate is gaining strength daily.

J. E. ADDICKS.

The leading Democratic senators in Washington propose to make it interesting for the ex-Boston gas president in case he is elected to succeed Senator Higgins. They intend to make a most rigid investigation into the means resorted to to secure the gas magnate's election.

GENERAL STRIKE CALLED.

Haverhill Shoe Workers Have Abandoned All Hope of Arbitration.

HAVERHILL, Mass., Dec. 27.—A mass meeting of shoe operatives was held in St. Jean hall last night to consider the labor situation and it was voted to call a general strike of all shoe workers in the city today at noon. Additions to the ranks of the strikers have been frequent, and there were upwards of 500 men in line when the afternoon parade took place.

They proceeded to W. W. Spaulding's factory, and 35 of the remaining operatives joined them. Mr. Spaulding refuses to discuss the matter. After marching to several other factories, the parade disbanded.

Last evening the strikers reassembled, and, augmented by a sufficient number of sympathizers to make fully 3000 people, marched to St. Jean hall. There, several prominent labor leaders addressed the operatives, and when a decision was called for the majority was overwhelmingly in favor of a general strike.

There are some union men who still think the trouble may be settled by arbitration, notably the lasters, but the leaders in the movement assert that there is no course open but to call the strike.

Agent Pomeroy of the International union said that the time for a peaceable settlement is past, and that the trouble must be settled by a determined fight, and such a fight the majority of the operatives now seem disposed to make.

A Queer Document.

BOSTON, Dec. 27.—A will which contained an extraordinary provision was disallowed by Judge McKim in the probate court yesterday, on the ground of unsoundness of mind of the testator. The will was that of John Lithgoe, who died in this city about a year ago, leaving an estate valued at nearly $150,000. By the provisions of the will the property was left in trust to one son, and under its provisions the principal might have been kept locked up over 100 years, it being provided that it should be held until the death of all issue of his children, some of the latter being less than 20 years old when the testator died. It was the wish of all the children that the will be set aside.

Cornwell Claims Self-Defense.

BRIDGEWATER, Mass., Dec. 27.—Albert Pierce is in a very serious condition, the result of a knife wound inflicted by Benjamin Cornwell, he claims. The men had been drinking. They got into a quarrel, and Pierce says he pushed Cornwell to one side to prevent his using a knife he was known to carry, and was then stabbed in the breast. He has two ugly wounds. Cornwell claims Pierce drew a razor and that he stabbed him in self-defense.

Missing From Bangor.

BANGOR, Me., Dec. 27.—Dr. Thomas P. Marshall, a distinguished looking man with ruddy face and gray beard and mustache, who has been lecturing and treating patients here for a month, is missing. His manager says he left home Christmas day, saying that he was going to see a patient. He did not go to the patient and he has not given any intimation of his whereabouts since.

Classed as Vagrants.

BUFFALO, Dec. 27.—Johnnie Van Heest and Solly Smith, the featherweight pugilists, were arraigned as vagabonds in the police court yesterday afternoon, and ordered to leave town. Superintendent of Police Bull said: "I have made up my mind to rid the city of all idle persons of that class."

Signs of Prosperity.

ROCKVILLE, Conn., Dec. 27.—Belding Bros. & Co.'s silk mills, employing 400 hands, will begin running full time next week. The mills have been running short time for nearly a year.

THE WEATHER INDICATIONS.

ALMANAC FOR THURSDAY, DEC. 27.

SUN RISES	7 12	MOON SETS	4 34 PM
SUN SETS	4 19	FULL SEA	11 30 AM
LENGTH OF DAY	9 06		12 00 PM

Forecast for New England: Snow; cooler; high northeast winds.

The gulf depression moved northward to Virginia last night, becoming a severe and extensive storm. It will move northeastwardly, causing dangerous gales, snow or sleet from the Virginia to the Maine coast. The severe "cold wave" in the northwest and lake region will move east and cause a rapid fall of temperature in this section tonight and Friday. European steamers leaving New York, Philadelphia and Boston will have mostly easterly to northerly gales the next two days. Outgoing southern steamers will have rough seas and variable gales.

DEFEAT PREDICTED.

Chances For Passing the Currency Bill Look Decidedly Slim.

SOUTHERNERS OPPOSED TO IT.

They Want the Old State Bank System Restored.

WASHINGTON, Dec. 27.—Among the few members of the house who were at the Capitol yesterday, the prevailing feeling seemed to be that the Republicans had it in their power to pass or defeat the currency bill. The Democratic vote, it is said by one who has carefully canvassed the situation, will be about evenly divided for and against the measure. The Republicans are generally expected to vote against the bill.

While the bill is far from satisfactory to many of the Democratic members who will support it, they will, they say, support it because, in their opinion, it will improve the present situation. Judge Culberson put it in this way: "We are like a tramp," said he, "who has been ordered out of town. It does not matter whether he goes to New York, Baltimore or Richmond. But move he must. The situation of the treasury is identical. Something must be done to relieve. If this bill does not accomplish all it should, it will at least accomplish something."

Representative Bland, who has a free coinage substitute pending, is very doubtful of his ability to secure even a record making vote upon it. Chairman Springer has already given notice that he will make a point of order against the substitute on the ground that it is not germane, and Mr. Bland believes it will be the program of the advocates of the currency bill to rule this substitute out on this point.

Although he insists that the substitute, dealing as it does not only with coinage, but with currency, is germane, he seems inclined to the opinion that the point of order will be sustained. In the event it is not sustained, however, he says that inasmuch as the substitute will be defeated in committee of the whole, that fact will preclude the possibility of securing a record making vote on his proposition in the house.

How Southerners Stand.

Representative Bynum, who is spending holiday week here, said yesterday that owing to a great diversity of sentiment among the Democrats on the currency question, he did not believe there would be any legislation on the subject at the present session.

The Carlisle scheme was defective in many particulars, and could not have received a majority of Democrats in its support. The proposed substitute was little better in some respects, he thought, than the Carlisle bill, but Democrats of the south and southwest were unalterably opposed to the present national banking system. He did not believe they would support any measure that would perpetuate that system. They wanted the old state bank system restored.

These representatives unfortunately are confronted with the fact that a large majority of the Democratic party from the middle and eastern states in and out of congress, who strongly favor a national banking system, will never favor a state banking system which authorizes the issue by state banks of notes without security of government bonds or other securities that are equally as good.

It is objected by those who favor the present system, that under the substitute bill, while it is provided that national banks may not issue notes of denomination less than $10, there is no similarly proper restriction placed on the proposed state banks, and consequently they would be permitted to issue notes of any denomination. The advantages, therefore, would be all upon the side of the state banks.

The defects of the substitute bill are regarded by Republicans as equally serious in their character as those of the old Carlisle scheme. The surety or guarantee fund which is to be contributed by national banks to sustain their standing cannot be intelligently defended, because its object is to compel the strong to bolster and support the weak. Then again, say the Republicans, there is no settled point of redemption, this latter being left for the comptroller of currency to designate and to determine.

Suspected of Wrong Doing.

BOSTON, Dec. 27.—United States Customs Inspector William H. Warren of the Boston custom house force has been temporarily suspended by a special order from Washington, pending the report of Special Agent Smith of the treasury department, on an investigation relative to alleged misconduct on the part of Warren while on official duty and while on government business in a foreign country. Warren has been in the government service since 1878.

Took French Leave.

PERRY, O. T., Dec. 27.—Ira Terrell, who has been thrice convicted of the murder of William Embree and who is under a sentence to the penitentiary for 12 years, obtained access to the corridor in the jail. The jailer fell asleep and Terrell opened the door and walked away. He was a member of the first legislature of Oklahoma.

Others to Be Brought Up.

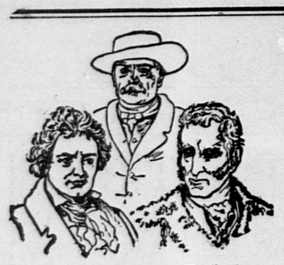

NASHUA, N. H., Dec. 27.—The contempt of court case against ex-Representative Joseph Labine, for having disobeyed an injunction to get out of the liquor business, was adjourned to bring in evidence against other dealers. The dealers are badly demoralized.

Drowned In Four Feet of Water.

LOWELL, Mass., Dec. 27.—Bertha Judd, 10 years old, was drowned at Hale's brook, and three other little girls narrowly escaped the same fate. There was only four feet of water where they broke through, but the soft bottom left no footing.

If you need a parlor stove for this season or next, there's no wisdom in waiting a minute before buying. Genuine manufacturer's prices at the store of Henry L. Kincaide & Co. Read their ad. in another column.

Kings and Queens innumerable, nearly all the minds that have changed the course of affairs in the world for centuries have been to Carlsbad for bodily aid. Not everybody can go even in these times of fast travel, but everybody can have the benefits of Carlsbad at a small cost at home in the Carlsbad Sprudel Water, or the Carlsbad Sprudel Salt, (which is evaporated from the Sprudel Spring).

The genuine Carlsbad Sprudel is a natural remedy which is *always* effective in all disorders of the stomach, liver and kidneys; for habitual constipation, gouty and rheumatic affections it is without equal. Be sure to obtain the genuine article, which has the seal of the city of Carlsbad, and the signature, "EISNER & MENDELSON CO., Sole Agents, New York," on every bottle.

THE NEXT COUNCIL.

Number Seven of a Series of Sketches of the Council Elect.

Councilman Shackley of Ward Four who has been handsomely reelected at large, will undoubtedly be the oldest gentleman in the Council of 1895. He was born in 1831, and will be 64 years old the 13th of next July. He is also one of the heaviest taxpayers and his experience in building and

real estate makes him a most valuable member. During 1894 he has not been absent from a meeting of the Council or of any of the committees on which he has served, while in 1893 he only missed one Council and one committee meeting. Both years he has been chairman of the standing Committee on Public Buildings and Grounds, and a member of the Committee on Sewers and Drains. In 1893 he was on the Johnson fund committee and on revision of rules, and this year on the special committee on the Squantum annexation matter.

Maine was his birthplace, and in 1847 he came to Massachusetts. Since 1852 he has been a resident of Quincy, being a carpenter and builder. He served three years in the war and was mustered out at the close of the war as a first lieutenant. He resides on Hall place.

THROUGH THE ICE.

Two Girls and Two Young Men Nearly Drowned in Canal.

There came near being a bad drowning accident on the Canal Wednesday afternoon but fortunately, beyond being frightened and taking a bath in the cold water, no serious results will follow.

The tide was about half out and a number of young people were skating near the locks. Two girls Mary Foy and Miss Harkins were together when the ice broke beneath them and they went into the water.

Arthur Mitchell started to the rescue when he went in and sank nearly up to his neck in mud and water.

Then Dr. C. W. Garey started to the rescue and he also got in, and before he could get out Harry Slade had waded in and drawn one of the girls ashore, and Channing Furnald had rescued the other by means of a pole.

When all were once more on dry land, the doctor looked them over and advised that they get home as soon as possible, which they did, the doctor setting the example.

SOMETHING AWFUL.

The Snow and Rain Makes the Walking Terrible, Terrible.

Fortunate are they who today can stay indoors out of the wet, for he who for business or pleasure is called out, cannot escape wet feet unless they wear a pair of long rubber boots.

The walking is something terrible even on the sidewalks, and to attempt to cross from one side of the street to the other it is necessary to wade through six or seven inches of water.

The crossings have been shoveled off, but the gutters have not been cleaned out and the places cleaned off and the crossings have become ponds. If once a person gets across, the street railway tracks are the best walking by far.

The city department may be at work, but up to noon only two men were seen in the centre, but they could not do much good.

The heavy rain is fast melting the snow and as the water has no place to go, the cellars in many of the houses must be flooded.

HARNESS THIEF.

He Made Two Visits to the John Quincy Adams Farm.

Someone evidently needs harnesses and not being willing to get them in the legitimate way, has resorted to stealing and have selected J. W. Dennen at the John Quincy Adams farm as their victim.

The first visit made was Monday evening when an express harness was taken. Wednesday evening the thief made another call at Mr. Dennen's and carried away another harness with the exception of the bridle. The fellow was seen as he was making away across the field and was chased, but he got away. Meanwhile Mr. Dennen had driven to the police station and notified Officer Hanson who drove toward Neponset in hopes to head him off. Officer Holloran of Atlantic was also notified, but although sharp watch was kept the fellow got away.

FURMINGHAM CASE

It is Continued One Year and Boy Sent to a Home.

The case of James Furmingham, for assault with a dangerous weapon on Leslie Smith, a schoolmate, came up on continuance for final disposition in the District Court this morning.

The court decided to continue the case one year, the boy in the meantime to be placed in the House of the Angel Guardian on Vernon street, Boston, under the charge of the State agent.

The Smith boy is reported as doing as well as could be expected and his recovery is only a matter of time.

I. O. O. F. Officers.

John Hancock Lodge, I. O. O. F., No. 224, Wollaston, held its election of officers on Wednesday evening. These officers were elected for the ensuing year:—

N. G.,—Edward E. Hoxie.
V. G.,—Charles P. Hutchins.
Recording Secretary,—E. S. Thomas.
Permanent Secretary,—Howard W. Batchelder.
Treasurer,—Judson L. Smith.
Trustee for three years,—E. S. Thomas.

—One hundred years ago Benjamin Franklin had $5000 put at interest to accumulate during the time since elapsed, and now one half of the amount (one half of $700,000) will be used to build and equip and industrial training school in Boston, and the other half is to be placed at interest another hundred years and the sum total is then to be divided equally between the city and state.—*Exchange.*

Anyone who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles.

Another meeting of the School Committee this evening.

Are you going to the reunion of the High School alumni?

The Atlantic Social club are arranging for a season's enjoyable dances.

Mr. E. Walter Arnold of Wollaston is slowly convalescing from his injuries.

The West Quincy Methodist church will celebrate New Year s instead of Christmas.

Miss Mary White has accepted a position in the choir of St. John's church.

Some changes in trains will be made on the N. Y.,N. H. & H. R. R. next Monday.

David Jordan was granted a pension this week. It was a very welcome Christmas present.

The nuisance in Farnum's block has been abated and the neighbors breath free once more.

That Copeland street needs repairing no one who has occasion to travel over it will deny.

The fire alarm bell in the old hose house in Ward Four will be placed in the new station.

The officials of the Quarry railroad are having a railroad bicycle constructed for their use.

Miss Josephine Mitchell of Hooksett, N. H., is spending the Christmas holidays with Mrs. Frank F. Prescott.

Invitations are out for a children's German to be given by Mrs. E. C. Bumpus for her daughter Christine.

The Willard school is being thoroughly cleaned preparatory to the opening of the winter term next week.

Rev. F. A. Cunningham has been presented with a gold pin by the Sunday School and teachers of St. John's church.

The heaviest snow storm of the season took place last night, and a heavy rain this morning makes very disagreeable walking.

In the sketch published of Councilman-elect Theodore Parker the date of his birth was given as 1853, when it should have read 1858.

The employes of George W. Prescott & Son, who publish the Braintree Observer, attended the funeral of Editor M'Ewan of Braintree this afternoon.

The Sunday School scholars and teachers of St. John's church held their Christmas festival Wednesday afternoon at Hancock hall, and had a grand good time.

The man struck by the cars at Atlantic, Monday evening, has been identified as Patrick Danahy of Dorchester, formerly of West Quincy, and not George Ellis as first reported.

A good opportunity will be offered tomorrow at the residence of John T. Williams on Elm street to obtain furniture and farmers' tools. F. F. Crane will be the auctioneer.

At the drive whist contest by the Granite City club, in Durgin and Merrill's block, on Wednesday evening, the first prize was taken by G. W. Prescott and the second by Warren H. Rideout.

If the ward lines are not changed in 1895 no change can be made for ten years. This should be borne in mind by the officials who will have authority in the matter. It would be more satisfactory to divide Wards One, Two and Three into precincts.

Mr. Andrew Erickson lost a valuable horse of black-water last night. The attack was an exceptionally severe one; the hind legs being completely paralyzed. If teamsters would only stop the horse at the first sign of weakness the mortality from this common trouble would be almost done away with.

The Guild of the Good Sheppard connected with the Wollaston Unitarian society gave a very pretty dancing party at the Knights of Honor hall, Wednesday evening. Mr. Percy A. Hull had charge of the arrangements, and Mrs. Hull, Mrs. Chas. T. Baker and Mrs. George W. Bennett was the matrons. The music was by Sprague's orchestra.

We begin to wonder where our old Quincy Shakespeare club is. The President Z. S. Arnold, was lately asked if there were a vacancy in it. Twenty-five, was the humorous reply. As change is the natural order, may be it needs only to be recruited with some fresh blood. Let us hear from it. It is too valuable a piece of Quincy to be allowed to run to seed.

Councilman elect Bryant of Wollaston has just received two valuable second prizes from the Country Club, Brookline. One is a beautiful pottery mug, silver mounted, won for a quarter mile dash with his black polo pony "Mouse." The other is a sterling silver cup of unique design, and was awarded for the best heavy weight polo pony, and was won by his chestnut pony "Beaulah." Both prizes are appropriately inscribed.

For rheumatism I have found nothing equal to Chamberlain's Pain Balm. It relieves the pain as soon as applied. J. W. Young, West Liberty, W. Va. The prompt relief it affords is alone worth many times the cost, 50 cents. Its continued use will effect a permanent cure.

MURDER AND SUICIDE.

A Terrible Tragedy Enacted at the Home of a Vermont Man.

BURLINGTON, Vt., Dec. 27.—William H. Whitman of Winooski, a manufacturing suburb of this city, shot and killed his wife severely and probably fatally wounded histwo boys, aged 13 and 15, respectively, at 9 o'clock last night, and then going upstairs shot himself, dying instantly.

Whitman is said to be of intemperate habits, on account of which his wife refused to live with him, and recently obtained a divorce. When he called at the house last night, he expressed a desire to say good-bye to their children, of whom there were six. On being admitted for this purpose, he at once began to quarrel with his wife.

It seems that Whitman's mother, who is very wealthy, died recently, leaving all her property to others, the will going into effect yesterday, and it was over this matter that he quarrelled with his wife. Words led to blows, and a scuffle ensued, during which the lamp was upset, and the house caught fire. Before much damage was done, the flames were extinguished, but the quarrel was resumed.

To prevent their mother from further injury, the boys interfered, whereupon the enraged father drew a pistol which had been concealed, and fired first at one boy and then at the other, the shots taking effect in the head of each. Then, before Mrs. Whitman could escape from the room, he shot her through the neck.

The wounded woman rushed into the street. Neighbors, alarmed by the sound of the shots and by the shrieks, rushed to the scene, one of them being just in time to catch the woman as she fell. She expired in his arms.

At that instant two more shots rang out. The neighbors ran into the house and upstairs. In a chamber they found that Whitman had completed his bloody work by firing two bullets into his own head. He lay dead in a pool of blood.

The boys were at once removed to a hospital, where it was discovered that the wounds of the elder would probably prove fatal, but that there was a possibility that the other would recover, and a council of physicians was called in the hope of saving his life, if not that of the other.

Heavy Shortage Alleged.

BROOKLYN, Dec. 27.—The World today says: Expert accountants have been spending a month or so looking over the books and papers in County Treasurer Adams' office, and their report will be presented to the board of county supervisors today. This report shows a total shortage of $89,649. Of this $65,549 was found in the accounts of the treasurer. A discrepancy of $24.100 is shown between the total amounts drawn by Cashier Lawrence J. Tormey for the payment of jurors and the total amounts actually paid jurors between the years 1884 and 1893. This discrepancy is against Tormey. Adams is under a bond which will require him to make good the $90,000 shortage.

Received by the King of Italy.

ROME, Dec. 27.—Ambassador Wayne MacVeagh's official reception, which had been deferred until the king's return to Rome, was held last evening. All the diplomatists, high government and court officials and cabinet ministers were present. The queen's master of ceremonies presented the ladies to Mrs. MacVeagh. The splendid rooms of the Piombino palace were decorated with flowers and illuminated with electric lights.

Blackstone's Ultimatum.

BLACKSTONE, Mass., Dec. 27.—The taxpayers, in a special town meeting, voted to offer the Woonsocket Electric Light company a contract to light the town, at the rate of 40 cents per lamp per night, instead of 50. If this offer is not accepted the town will put in an electric light plant of its own. The town is now lighted by the Woonsocket company. The electric light people say they will not accept the new proposition.

Reagan Arrested.

WESTFIELD, Mass., Dec. 27.—John W. Reagan, who quarreled with and struck Timothy Hollihan, Monday, was arrested at Granville yesterday on suspicion of having caused Hollihan's death. He will be arraigned on the charge of felonious assault and also assault with intent to kill. He admits he struck Hollihan, but says the blow alone was not sufficient to cause death. An inquest on Hollihan's body will be held.

After Breckinridge.

CINCINNATI, Dec. 27.—It is said that the attorneys for Madeline Pollard contemplate following Congressman Breckinridge on his lecturing tour throughout the country, in an effort to attach the receipts in payment of Miss Pollard's verdict for breach of promise. The colonel lectures in this city tonight, when the opening gun will probably be fired.

Delay Cost a Man's Life.

BIRMINGHAM, Ala., Dec. 27.—Mrs. Ida Ross has been awarded $16,000 damages by the federal court at Huntsville against the Western Union Telegraph company for failure to deliver a message which would have warned her husband of his proposed assassination and saved his life. Judge Boardman has, however, set aside the verdict as excessive.

Charged With Negligence.

BOSTON, Dec. 27.—The body of Austin E. Stone, who lost his life in the coupe accident at the East Boston ferry slip, was recovered yesterday afternoon by the harbor police. Edward T. Wilson will appear in court to answer to the charge of criminally neglecting to care for his horse and carriage on the ferry boat at the time of the accident.

Lena Koch's Sentenced Reduced.

ROCKLAND, Me., Dec. 27.—A few days ago Lena Koch and George Otis were convicted here of larceny. They were each sentenced to 10 months in jail at hard labor. Through the efforts of Rev. Mrs. Taylor, sentence was shortened to three months.

In Sight of Many Skaters.

SOUTH FRAMINGHAM, Mass., Dec. 27.—Joseph Hannagan, aged 12, while skating on Sudbury river, broke through thin ice. Rescuers could not recover the body before death ensued. The accident was witnessed by a large party of skaters.

Used a Knife.

LYNN, Mass., Dec. 27.—Francis J. Dowling, a shoemaker, tried to stab his wife yesterday afternoon, and the police are hunting for him. Dowling has borne a good reputation. It is said he has left the city.

Drowned In Mashapaug.

PROVIDENCE, Dec. 27.—While skating on Mashapaug pond, Joseph McSperry, aged 21, broke through the ice and was drowned. A companion had a narrow escape.

What Shall I Cook Today?

The women of New England are loud in their praises of the practical cooking recipes which are printed every day in The Boston Daily Globe. "What shall I cook today?" the question that worries more women than any other, is also answered every day in The Roston Globe. The Globe prints every day a simple bill of fare, giving three meals, and will do so all through 1895.

—Mrs. Lydia W. Harmon who obtained a verdict of $11,000 against the Old Colony Railroad at the first trial of her case, has now been awarded but $2,200.

--Peter Frasier, a granite dealer of Barre Vt., died in great agony Tuesday as a result of burns received Monday while kindling a fire at his works.

—Again the Dover street cars at South Boston have been taken off because of work by the city water departments.

MYSTERIOUS MAN.

A Hatless Fellow About Last Night Who Disappeared Suddenly.

A fellow without any hat on, his face covered with blood, and crazy drunk, created considerable excitement in the Centre Wednesday evening about 8 o'clock.

Where he came from, no one knew. They do know, however, that suddenly he dashed up the depot yard, crossed to the inward side and dashed up the tracks toward Boston running like a deer.

A crowd soon started in pursuit with a lantern as it was feared the inward train which was about due would pick him up. No trace of him could be found, however, as he had disappeared as mysterously as he appeared.

A $5,000 Monument.

The will of Mrs. Priscilla Brown Naramore of New York was filed Monday. Not intending to be forgotten after death, she made a will setting aside all her property for the purpose of erecting a fine monument to mark her last resting place. Further, she did not intend that her second husband, S. P. Naramore, who lives in New Haven, Conn., should share her post-mortem glory. Accordingly, she pointed out in her will just exactly who besides herself should be buried within the shades of the monument. The list included her first husband, but not Mr. Naramore. The latter's name does not figure anywhere in the document.

Mrs. Naramore gives all her furniture, books, bric a-brac, and pictures to her son, and leaves all of her clothing to her sister. Her will then states:—

"I wish when I die that no doctor be allowed to open me or experiment with my body in any way, but I wish to be embalmed in the most thorough manner that it can be done. I wish to be placed in a metallic casket and that inclosed in a slate coffin of the thickest kind. I have a lot in the Kensico Cemetery, paid for, the deed of which is in my box in the safety deposit vaults with this will; and I will that all the money that I leave, whether in cash, banks, stocks, or bonds, or whatever form, be used in building a mausoleum on my lot.

"If there is not money enough left by me to pay for the mausoleum I would like it to be made up by my son, a little at a time, until paid for. If that cannot be done, then I want all the money I leave to be used in building a monument at my grave as good a one as the money will allow for."

Her personal property amounts to $4,500 and there is some realty.

—The N. Y., N. H. & H. R. R has made a large purchase of land on Dorchester avenue to extend its improvements in that vicinity.

—Letters of administration were granted Wednesday on estates of Eliza French and S. M. Norton, late of Weymouth; the former to J. H. French and the latter to Royal Norton.

—Woburn was against annexation to Boston last night, but thought federation in some department desirable.

SUFFOCATED BY GAS.

A Young Man Formerly of this City Meets Death in San Francisco.

Mr. G. Edward Wennerberg, a well known friend among good many citizens and Swedes in this city and Boston, died in his room, No. 281 Stevenson street, San Francisco, Cal., the 10th of December. Coming from a concert in the evening accompanied by another friend, both went to his room about 10 o'clock in the evening. They read poems and one specially "The Death's Angel," and looked over some of his various photos. His roommate, Charles Johnson, was already asleep. His friend left about 11.30, and Wennerberg went with him as far as the door said "good night, sleep well," and those were his last words.

In the morning the cigar store that was owned by Mr. Wennerberg was found locked, and it was thought something was wrong.

Then Johnson was found dead. Wennerberg was alive but died shortly. The gas valve was half turned on and his collar, necktie and vest was hung on the bracket, so probably when he hung up these articles he must have accidently turned the valve.

Mr. Wenneberg was an Odd Fellow and was captain in the Golden Banner. The funeral took place Dec. 16 from the Golden Banner's Hall, and hundreds of friends followed him to the last resting place.

Mr. Wennerberg came to Boston from Sweden in company with Mr. W. R. Lofgren, when he made his visiting trip to his home six years ago. He was cabinet maker by trade, and worked in different shops in Boston. Then he went to work for the Edisan Electric Company and worked there till he left for San Francisco, about 15 months ago.

He was a member of an athletic club and gymnastic club in Boston. At the last presidential election he was captain of the Scandinavian club in Quincy, and also captain of the Scandinavian tug-of-war team in Quincy, which defeated the Clan McGregors two years ago. He was also a member of a tug-of-war team in San Francisco, on which he was the anchor on the winning side in the great $20,000 contest on Aug. 3. He was 25 years of age, single, but leaves a broken-hearted father and mother in Sweden, with despair at never seeing him home again.

☞ Common alum melted in an iron spoon over hot coals forms a very strong cement for joining glass and metal together. It is the best thing for holding glass lamps to their stands or for stopping cracks about their bases, as kerosene does not penetrate it. Housekeepers ought to keep this in remembrance for sad accident may be prevented by its use.

☞ A Saharan traveller says that the desert is not "a mere sand plain, with here and there an oasis." It is like any part of the earth stripped of vegetation. There are mountains, valleys, plains, hills, but not any green thing.

☞ Do not forget that the ordinary piano stool should never be given to children. A comfortable high chair should be provided with a back which supports the spine to the point of the shoulder blades, and if necessary a small hair cushion, fitted in the lumbar region. A foot beach should always be provided.

—The Barre Granite Manufacturing Company of Barry, Vt., will close up its business.

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy at home or on a trip away from home.

In the quarter just ending, Camp 27 has made a gain of nine, the total membership now being 69.

At the last meeting three recruits were mustered in, namely, Mr. Joseph Alden, Mr. Fred Hart and Mr. Frank Merrill.

In the loss of his wife, Brother James O'Donovan has the sincere regret and sympathy of the members of Camp 27.

In the reappointment of Past Captain Chas. E. Bowker to the position of 1st Sergt, the camp retains the services of a most efficient officer.

On Tuesday next, Camp 27 will hold a private installation under the supervision of installing officer, E. B. Estes of Brockton. A large attendence is expected.

The applications for membership of Mr. Seth Brown of Braintree and Dr. Garey of Quincy have been received and it is expected they will be mustered in at the next meeting.

'Tis Bravery Then.

'Tis easy, when the heart is light
And when no tears bedim the sight,
To smile—but 'tis not brave.

'Tis easy, when not o'erpprest
By troubles that provoke unrest,
To laugh—but 'tis not brave.

'Tis easy, when the power of gold
Inspires the mind and makes it bold,
To dare—but 'tis not brave.

'Tis easy, when in armor strong
Against the ills that come in throng,
To fight—but 'tis not brave.

'Tis bravery, when the heart is sore
And when the scalding tears flow o'er,
To smile—'tis bravery then.

'Tis bravery, when oppressive care
Wrinkles the brow and grays the hair,
To laugh—'tis bravery then.

'Tis bravery, when want's dismal form
Darkens the door from morn to morn,
To dare—'tis bravery then.

'Tis bravery, when the breast is bare
Against the ills that life impair,
To fight—'tis bravery then.

Then hail to him who, though oppressed
In sorrow, trouble, poor, distressed,
Yet battles on the best he can—
'Tis bravery then that proves the man.

Christmas Carols.

The first Christmas carol, as Milton and Jeremy Taylor have said, was sung by the angels on the plains of Bethlehem. This custom has prevailed in most Christian countries and is perpetuated in England and on the continent. Calabrian minstrels still leave their mountains during the last days preceding Christmas for Naples or Rome, saluting with their wild music the shrines of the Virgin Mother, to cheer her until the birth hour of the infant Jesus, now near at hand. The first Christmas carols were hymns in honor of the nativity. They afterward assumed a more secular character, many of them being songs of revelry accompanying the festivities of the season.

VISITED THE VATICAN

Yankee Blue Jackets Granted an Audience With the Pope.

HIGH PRAISE FOR AMERICANS

And Their Progress Among the Civilized Nations.

ROME, Dec. 27.—The pope received the officers of the United States cruiser Detroit at the Vatican yesterday. The officers present were Commander Newell, one lieutenant, six junior grade lieutenants, the surgeon and the paymaster of the ship. Commander Newell, in a brief address, thanked the pope for granting an audience to himself and his fellow officers. No American visiting Europe, he said, thought his visit complete unless he had seen his holiness the pope. The pope replied, saying he was always particular to receive citizens of the great republic.

The pope also proffered his thanks to the American government and to the president of the republic, and expressed his affection for and admiration of the people of the United States, for whom he wished happiness and prosperity. He then pronounced a solemn benediction upon the officers and their families.

Commander Newell and his companions were presented individually to the pope by Mgr. O'Connell, rector of the American college in Rome.

The Speech Which the Pope Made

was delivered in a familiar, pleasant manner. He dispensed with all ceremony, and invited the officers to arrange themselves in the form of a half circle in front of the throne. Then, speaking in Italian, which was translated by Mgr. O'Connell, the pope said:

"I regret my inability to express in English how pleased I am to receive you who were entrusted by the American government to bring back the objects which I sent to Chicago. It is a source of great pleasure to me to recall that these relics were received with honor and were given a place of distinction. I am also highly gratified to perceive the care which the American government took to assure their safe return.

"I feel a lively satisfaction to see the progress which America makes daily among the civilized nations, which it outstrips, although younger. But while I am happy to see your nation advance in numerous branches of civilization, I am more particularly pleased to note her religious progress. The Catholic church flourishes, and I desire to see it more flourishing still.

"At the same time, though I express a special, paternal solicitude toward American Catholics, yet it is with peculiar pleasure that I receive you because you are Americans.

"I hope to publish in a few weeks an encyclical to the Episcopacy of the United States and Montreal, conveying the sentiments of my especial affection for your country. In the meantime, I bless you all, and when you return to your fatherland tell your families that the pope blesses them with the paternal affection which will accompany you in the midst of the fatigues of the long voyage you are about to undertake."

The last words of the pope referred to the Detroit's approaching voyage to China. All the officers of the Detroit, although there was only one Catholic among them, received the papal benediction kneeling. The American officers visited the Raphael galleries and the Sistine chapel before leaving the Vatican.

Entertained at Dinner.

After the audience with the pope the officers were conducted to the college, where they were entertained at dinner by Mgr. O'Connell. There were present Hon. Wayne MacVeagh, United States ambassador to Italy, the foreign consuls, the attaches of the American embassy and the leading American residents of Rome.

After the dinner Mgr. O'Connell made a short speech, during the course of which he said: "I see before me representatives of the American army and navy, but so also are they representatives of the sentiments of religion and patriotism which are the safeguards of our country. It was patriotism which led us to love and devote ourselves to our country; it was the legion which gave life to and purified patriotism, conferring on her the crown of immortality."

Mr. MacVeagh replied, pointing out the superior force of religion as the inspirer of patriotism, because, he said: "Religion teaches that all men were created by God equal and invested with equal rights to enjoy liberty and partake of progress in civil life."

The United States ambassador then toasted the American navy, whereupon all the students of the American college, who were present, sung "Columbia, the Gem of the Ocean."

Vice Consul Wood then made a few remarks, saying that today marked the zenith of the glory of the American college. Throughout the dinner the greatest enthusiasm and cordiality prevailed.

War Reports.

YOKOHAMA, Dec. 27.—General Catsure reports from Hai-Chang that the Chinese army under General Sung, after its defeat at Kogosai, fled back to New-Chwang and thence retreated to Denshodai, being joined by the mass of Chinese troops stationed at New-Chwang, which town was completely evacuated. Scouts report that about 8000 Chinese are advancing from Cilco along the sea shore.

OLD LAW UNEARTHED

For the Purpose of Making Spain Toe the Mark on the Tariff Question.

WASHINGTON, Dec. 27.—Unless the Spanish government within a very short time indicates its purpose to remove the restrictions now placed on American commerce with the Spanish West Indies by the imposition of the maximum tariff on American commodities, it is probable that the president will issue a proclamation imposing "discrimination flag duties" upon Spanish, Cuban and Portuguese to the United States.

The intimation of this purpose on the part of the president is distinctly conveyed in a request received by the treasury department from the department of state to furnish it with detailed information as to the amount of such imports and a list of the vessels carrying the Spanish flag which trade with our ports.

It was the original intention of the state department to have recourse to the power of prohibition of Spanish trade conveyed by the act of 1890. But, as this power has never yet been exercised, and as it probably has been deemed best to follow in the line of precedent, it is quite clear that the department has fallen back upon section 4228 of the revised statutes. A paragraph of the old Morrill tariff act, which still stands on the statute books, imposes a duty of 10 per cent in addition to all other duties upon goods brought into the United States in ships of foreign countries, unless they are expressly relieved from the additional duty by treaty.

CROOKED CARTER.

Stole $30,000 From a Bank In Which He Had Worked Many Years.

NEW YORK, Dec. 27.—Edward R. Carter, transfer and coupon clerk of the the National Bank of Commerce, was arrested yesterday afternoon as a defaulter. Carter is charged with appropriating $30,000 of the bank's money. He is 44 years old, and lived with his wife and two children, a daughter, 22 years old, and a son, 12 years old, at Brooklyn. For 29 years Carter had been in the employ of the bank.

According to the story he told the police, he began his peculations 20 years ago, at first taking only small sums. He would say very little about himself to the police, and maintained silence as to what induced him to take the money and as to what he did with it.

W. W. Sherman, president of the bank, said: "The loss, of course, is not a serious one for the bank, which has a capital of $5,000,000 and surplus and undivided profits of $3,500,000, but the defalcation is none the less distressing, as Carter had the confidence of all who came in contact with him."

Carter was taken to police headquarters, where he is now locked up. Carter lived modestly in Brooklyn, and was much respected by all who knew him. When his family were informed of his arrest, his daughter hurried to police headquarters, this city, to see her father. She left the building in tears.

A New York Broker's Opinion.

NEW YORK, Dec. 27.—John G. Moore says of the reports that he represents a syndicate in his efforts to have the income tax declared unconstitutional: "I have been at work on this matter for several months and decided that I would contest the law as an individual and as a personal luxury. Since the matter became public, a number of gentlemen have asked to come in, but I have told them, as I tell you, that nobody can come in, as it is my personal luxury and will be maintained as such. There is no syndicate in the matter and no individuals except myself. Under every circumstance the case will be continued as my personal act."

Judges Can't Act.

CHARLESTON, Dec. 27. — The administration of justice has been interrupted here by the discovery that none of the trial justices were incapacitated to act. The commissions of Justices Burnett, Williamson and Ahrens expired on the 24th inst., and the commissions of the new justices have not yet been executed.

MUST ACT QUICKLY.

Administration Desires Non-Partisan Consideration of Currency.

REPUBLICAN EFFORTS FOR RELIEF

Can Hardly Be Counted Upon by the Democrats.

WASHINGTON, Dec. 28.—Secretary Carlisle is assiduously at work with the Democratic leaders endeavoring to bring them together on some kind of remedial currency legislation. He is trying to impress them with the fact that their only hope or chance of securing an enlargement of the banking system that will benefit southern states is the adoption of some plan at the present session.

If they allow the present opportunity to pass, it may be years before they again get control of congress and the executive. Both the president and himself regard it as of the utmost importance that the Democratic party should get together and agree upon some scheme upon which they can harmonize the conflicting views in the party on this subject.

While the president and himself recommended the plan, they are not wedded particularly to it, but would approve of any measure which congress might pass calculated to promote best the interests of the country, regardless of its paternity.

Prompt Action Necessary.

Both these high officials regard it as imperative that some financial or currency reform legislation should be adopted at the present session. The condition of the treasury alone, the secretary thinks, ought to be sufficient to stimulate prompt action. The commercial distress which has so long afflicted the country is not limited to the adherents of a particular party, and the cry for relief is not addressed to either the Democratic or the Republican party, but to the congress, which is composed of both parties, each being equally under obligations to exercise its best effort for the promotion of the public welfare, and each sharing proportionally to its numerical strength in the responsibility for legislation to preserve the national credit and honor.

The Democrats, it appears, are about equally divided on the pending bill, and when adjournment took place there were very few encouraging signs looking to unity either on the line of the pending proposition, as modified, or any other that has been suggested.

Republican Aid Needed.

It is now admitted, both by the president and Secretary Carlisle, that if any currency bill is to be passed during the present session, it must be largely with the aid of Republican votes. Unfortunately, the Republican leaders do not exhibit a disposition to assist in the preparations of a measure of relief, and seem disposed to allow the Democrats to flounder along until the expiration of the session, regardless of the effect upon the business interests of the country.

This course is justified by many of the Republican leaders on the ground that their party is not responsible for the affirmative legislation. From the narrow, partisan point of view this is considered good politics; but some of the Republicans are inclined to believe that such a course is not very patriotic, inasmuch as it would be an evasion of the responsibility shared by every representative, and would prolong the general financial and commercial distress merely that partisan advantage might be secured.

Another Sch me.

Some of the Democratic members of the banking and currency committee, including Sperry of Connecticut and Culberson of Texas, have under consideration a bill to provide for the funding of the greenbacks and United States treasury notes now outstanding by the issue of bonds running 25 years at 2½ per cent.

Culbertson, who is chairman of the house judiciary committee, strongly favors the funding of greenbacks and treasury notes, the aggregate of which is $500,000,000; but he thinks the bonds should be at 3 per cent interest instead of 2½. He thinks that rate is the lowest at which the government could hope to dispose of so many bonds.

While this proposition would have the support of the Republicans, as a rule, it is not likely that it would receive any considerable number of Democratic votes south of the Mason and Dixon's line. Many northern Democratic representatives would approve and vote for it, but judging from the temper of the Democrats in the house, the proposition stands very little chance of passing that body.

The First Veto.

HALIFAX, Dec. 28.—The mayor of this city last night vetoed the tax reform scheme adopted by the city council. This is the first time the mayor's power to veto has ever been exercised. The new assessment law did away with the personal property tax, and in its place gave rental tax and a graded system of licenses.

Big Real Estate Deal.

BOSTON, Dec. 28.—The subway commissioners yesterday afternoon accomplished the purchase of the property of the Boston and Maine railroad lying between Haymarket square and Causeway, Charlestown and Haverhill streets. The price paid is said to be $750,000, which is at the rate of about $6 a foot.

A Superintendent's Threat.

PROVIDENCE, Dec. 28.—Superintendent Cooper of the British Hosiery company stated to the operatives yesterday that the 10 per cent reduction would be increased 1 per cent for every week the lockout is continued. The operatives decided to stand against the reduction.

LET FACTS BE KNOWN.

Bostonians Ask For a Thorough Investigation of the Armenian Outrages.

BOSTON, Dec. 28.—A mass meeting was held in the Park Street church last evening to protest against the Armenian massacres, and the fact that the Turkish government had refused to allow an American representative to be present at the investigation of those outrages. Jonathan A. Lane presided. He said: "We protest against the hushing up of this matter, and believe it should be fully investigated. The time has come when a nation cannot set itself in such a position against the protest of the Christian nations." Several prominent men made speeches.

Resolutions were adopted protesting against any investigating committee being appointed by the sultan, and expressing the belief that it is the duty of the signatory powers to the Berlin treaty to secure an independent investigation of the facts; thanking the President of the United States for having appointed a commission to investigate the alleged massacre; that the withdrawal of the sultan's own invitation to the president to appoint an American representative to the investigation is an affront to the American government, and trusting that some method may be adopted by our state department which will result in bringing the facts to light.

BLOODSHED IMMINENT.

Georgia Officials Will Sacrifice Their Lives Before Yielding to Lynchers.

AUGUSTA, Ga., Dec. 28.—Joe Murray, the detective wounded in Sunday's shooting, died yesterday. This is the second death as a result of the affray.

Immediately after the news of the death of Detective Murray became generally circulated, the talk of lynching the negro Wiggins, who did the shooting, was revived. Last night a large armed force was in the jail. The Richmond Hussars, re-enforced and ready for duty, are under arms at the armory. Their horses are saddled and bridled, and all is in readiness to move at a moment's notice.

There are fears of a conflict, for the authorities swear they will give their lives in defense of the law. There is a feeling of unrest in the city. It will be impossible to take the prisoner from the jail if resistance is given, and the sheriff has given his word that he will protect the prisoner.

Something Wrong Somewhere.

NEW HAVEN, Dec. 28.—The investigating committee reported to the police commission last night that there has been lack of vigilance and efficiency of police in the enforcement of the laws. The committee find no evidence of general or systematic corruption, but disorderly houses have been enabled to continue in business and that information of intended raids has been given. A statement from Rev. Newman Smyth was submitted charging Commissioner Gilluly of abusing his office and advocating his impeachment and removal.

Reckless Financiering.

ST. JOHN'S, N. F., Dec. 28.—The report of the committee appointed to investigate the affairs of the banks was presented to the legislature last night. The committee state that the Union bank is solvent and will be able to pay all its debts in full if given time. The report shows that the Commercial bank is hopelessly insolvent. No care, it is added, was exercised in its business, everything was done in a reckless manner, and it would be impossible to rehabilitate the bank.

One Was Drowned.

SEA ISLE CITY, N. J., Dec. 28.—The three-masted schooner Rodman R. Nickerson came ashore near the Stone Harbor lifesaving station. One of the crew was drowned. Those who were rescued, suffered terribly. The men spent the night in the fierce storm lashed to the rigging, and were almost exhausted when taken off by the lifesavers.

No Bail Allowed.

BANGOR, Me., Dec. 28.—Joe and Newell Gabriell, Indians, charged with murdering and incinerating the corpses of Enacco Comilio and Charles Langlois at Millinocket, were yesterday remanded without bail. Frank Newell was held in $300 as a witness. The trial will be held in February.

Equalizing Wages.

NEW YORK, Dec. 28.—Commissioners who have been examining the roster of the postoffice here have finished their work. The salaries of 600 clerks will be increased, and those of 150 reduced, while 40 men will be dropped from the payroll.

Briefly Didn't Do Much.

BOSTON, Dec. 28.—Frank Brierly, champion bantamweight of Ireland, and Joe Elms, a colored lightweight, met last night for a 12-round bout, which resulted in a draw. Brierly was a disappointment. Elms forced whatever milling there was.

A Salem Blaze.

SALEM, Mass., Dec. 28.—A large three-story frame building in the leather district, occupied by Cass Bros., morocco manufacturers, was burned last evening. The loss will be from $10,000 to $12,000.

Lifesavers Did Good Work.

SACO, Me., Dec. 28.—Schooner Idaho, bound from Boston to Boothbay, went ashore on the rocks at Biddeford Pool yesterday and will be a total loss. The crew were rescued with difficulty by lifesavers at the pool.

Chimney Crushed the Roof.

NORTH ADAMS, Mass., Dec. 28.—High wind yesterday blew down 45 feet of the chimney of a mill at Briggsville. The roof of the boiler house was crushed in, and the fireman, John Adams, was killed.

Resting In Jail.

NEW YORK, Dec. 28.—Embezzler Carter was taken before United States Commissioner Shields yesterday afternoon and held in $15,000 bail for examination. He was committed to jail.

Gave Himself Up.

LYNN, Mass., Dec. 28.—Francis J. Dowling, for whom the Lynn police have a warrant charging him with murderous assault upon his wife with a knife, surrendered himself to the police last night.

Against Football.

INDIANAPOLIS, Dec. 28.—At a meeting of the college presidents of the state it was decided to forbid intercollegiate football.

MUST HAVE PATIENCE

Better Times Will Surely Come to Hebrew Inhabitants of Russia.

THE REFORM WILL BE GRADUAL.

Already Begun by Changes at Warsaw and Kieff.

LONDON, Dec. 28.—The Jewish Chronicle publishes a letter from a correspondent who is acquainted with the views of official circles in Russia, in which the writer declares that if the Hebrews of western Europe displayed more patience and confidence in the good intentions of the Russian government they would find the czar's advisers as anxious as themselves to ameliorate the condition of the Hebrews.

The indignation meeting in London, the correspondent adds, has injured the Jewish cause more than all the anti-Semitic agitations. Orders were privately issued a year ago for the modification of the rigorous application of oppressive laws, and it is intended to make further concessions.

But the problem is a gigantic one, and is complicated by regretable social conditions which a great degree of social rights would be quite ineffectual in curing. Therefore reform can only be gradual. The question of new appointments in the government offices directly affecting the Hebrews is already under discussion, together with new legislation, but nothing has as yet been decided.

In a leading article on the foregoing, The Jewish Chronicle notes that since the letter was written, its cautious optimism has been confirmed by the changes made in the governorships of Warsaw and Kieff.

Francis II Passes Away.

VIENNA, Dec. 28.—Francis II, the last King of Naples, or the two Sicilies, died at Arco yesterday, aged 58 years. Francis II, ex-King of Naples, was born Jan. 31, 1836, and succeeded his father, Ferdinand II, better known by his sobriquet of "Bomba," in 1858. In 1860 an insurrection broke out in Sicily. An expedition, headed by Garibaldi, defeated the Neapolitan army in every encounter; Naples was soon after occupied, and the king and his family were compelled to take refuge in the fortress of Gaeta, which, after an obstinate seige of six months, capitulated to the Sardinian troops.

Further Delay Is Needless.

ODESSA, Dec. 28.—A south Russian paper declares that sufficient confirmation of the Armenian outrages has already been furnished to justify the powers in demanding the disbandment and disarming of the Kurd regiments and the Hamidje cavalry. Such a request, it is added, would only be tardy reparation for the negligence of the powers in ever permitting Turkey to mobilize these regiments of incorrigible brigands, which were intended solely to scourge Armenian malcontents.

Tonghaks Routed by Japs.

SHANGHAI, Dec. 28.—The Japanese, after four hours' fighting with a force of 6000 Tonghaks, suppressed the rebellion at Lai-Ju, in the province of Haido, where the rebels had deposed the governor and installed one of their number in his place. The Japanese have also dispersed the Tonghaks who defeated the Corean garrison at Chullado.

Indian Tariff Changes.

CALCUTTA, Dec. 28.—The legislative councils committee adopted recommendations that no change be made at present in the limit of exemption for cotton yarns and the admission free of duty of all vessels intended for use in inland waters.

On Good Terms.

ROME, Dec. 28.—The officers of the United States cruiser Detroit yesterday paid a visit to the minister of marine, Admiral Morrin, who received them in the most cordial manner. Admiral Morrin afterward returned the visit.

Fighting In India.

CALCUTTA, Dec. 28.—A detachment of 600 British troops had a sharp skirmish with the Waziris near Karam. Several of the British force were wounded. The British troops blew up the towers and village of Karam.

Sympathy For Crispi.

ROME, Dec. 28.—The Austrian and German governments have telegraphed messages of sympathy to Prime Minister Crispi, in which they express the desire to see him surmount the present crisis and retain power.

Preparing For Trouble.

TREBIZOND, Dec. 28.—The Turkish garrisons in Armenia are being re-enforced.

Made Laborers Pay Fees.

NEW HAVEN, Dec. 28.—Daniel Long, for several years employed as a section boss on the New York, New Haven and Hartford railroad, was discharged yesterday after a careful investigation, which revealed that he had long been engaged in compelling Italian laborers to pay from $10 to $25 each before he would give them employment.

Blood Vessel Burst.

INDIANAPOLIS, Dec. 28.—Simon Coy, the most picturesque political character in the history of Indiana, died yesterday afternoon. He has been suffering from diabetes for many months, but the bursting of a blood vessel and the consequent hemorrhage were the immediate causes of death.

A Crazy Man's Deed.

NEW CASTLE, Pa., Dec. 28.—August Permonter, a demented Frenchman, shot and probably wounded Miss Meister, daughter of his landlady. Robert Charles was shot in the groin. Permonter then shot himself through the brain.

Both Out of a Job.

NEW YORK, Dec. 28.—Charles L. Jaehne, brother of ex-Alderman Jaehne, who is under indictment for giving straw bail, has been dismissed from his position as assistant foreman in the street cleaning department.

MUST ACT AT ONCE.

United States Won't Allow Spain to Dally With the Tariff Question.

WASHINGTON, Dec. 28.—The government of Spain, in an earnest desire to avert the threatened tariff warfare between Cuba and the United States, has under serious and favorable consideration the cession to Cuba of the privilege of arranging her own revenue budget, including tariffs with the United States. This Cuban budget is to be subject to the approval of Spain.

The negotiations now progressing at Madrid are partly on these lines, but the state department authorities are proceeding nevertheless with their retaliatory plans, as they do not believe Spain's concessions to Cuba can be carried out and made beneficial to us for some months to come. The significance of the matter in its commercial and political aspects is fully realized.

It is said that Spain will be careful not to relinquish her sovereignty over the island, nor to permit this to become the first step toward Cuban independence. For that reason, the contemplated privilege will not include full "home rule." There will be no Cuban parliament, with independent authority to make laws, similar to Canada's colonial system under Great Britain.

On the contrary, the general purpose is to give Cuba advisory powers. The local officials would take up the economic necessities of the island, estimate the needed revenue from tariff duties and advise the Spanish government of duties that should be levied and of other measures which ought to be done in order to secure the best results for the island. While Spain would thus retain complete sovereignty over Cuba, both commercial and political, it is suggested that the home government would, as a rule, approve Cuba's revenue budget with the United States.

In the present tension between Spain and the United States, the Cubans are solicitous of retaining their American market on sugar, and it is urged that for this reason the local officials undoubtedly would advise a lowering of tariff duties against the United States, and it is believed Spain's approval would almost certainly follow.

Treasury Stopped Its Progress.

NEW YORK, Dec. 28.—The banking firm in charge of the government bond syndicate sent out the following notice yesterday: "The action of the United States treasury on currency questions having stopped progress in the sale of bonds for the account of the 5 per cent bond syndicate, and the period of 30 days mentioned in the notice of Nov. 2 having expired, the syndicate is dissolved." The agitation about currency reform has weakened the market for government bonds generally, and the price for the new fives has been depressed below the syndicate figure.

Preferred Conviction to Flight.

SPRINGFIELD, Mass., Dec. 28.—Eva M. Young, who said she was the wife of C. H. Young of Brooklyn, surrendered herself to the Springfield police last night, stating that she was wanted in Brooklyn for extorting $500 from Frank C. Joslyn of Brooklyn under a threat that her husband would shoot Joslyn if he did not pay the money, because he had learned of their relations, which had existed for six years. She was on the way to Canada, but concluded that she would prefer conviction to flight.

To Talk Arbitration.

BOSTON, Dec. 28.—The state board of arbitration and conciliation visited Haverhill a few days ago to investigate the cause of the big shoe strike and bring about a peaceable settlement if possible. The investigation was only an informal affair. The board will probably visit Haverhill again in a few days, and if the strike is not settled it is possible that a hearing before the board will be ordered.

Resignation Accepted.

LEWISTON, Me., Dec. 28. — Adjutant Henry M. Sprague of Auburn, Second regiment, National Guards, tendered his resignation a few days ago on account of private business. Colonel Philbrook, commander of the regiment, accepted Lieutenant Sprague's resignation yesterday and appointed Appleton H. Plaisted of Waterville as acting adjutant.

Carnegie Lowers Wages.

PITTSBURG, Dec. 28.—The new scale of wages for the Edgar Thomson steel works at Braddock, a plant of the Carnegie Steel company, shows an average reduction of about 15 per cent. Common labor is reduced from $1.30 to $1.20 a day. About 500 metal carriers are reduced from 16 to 12 cents an hour. The men will accept the new scale.

Three Men Fatally Hurt.

KANSAS CITY, Dec. 28.—A boiler explosion caused terror to hundreds of guests in the Midland hotel last night. No damage of any account was done to the building. Chief Engineer Patton, Fireman Alba and Electrician Riley Mowen were fatally hurt. The explosion was caused by a defective flue in the boiler.

Forged Half a Million.

CINCINNATI, Dec. 28.—William A. Lippert, a criminal of international celebrity, has been arrested here and is now en route to New York. Lippert is charged with forgeries amounting to nearly $600,000 in Cape Town. Two New York officers arrested Lippert.

In Behalf of China.

WASHINGTON, Dec. 28.—John W. Foster, ex-secretary of state, has been requested by the Chinese government to go to Japan and meet the plenipotentiaries of the former government, to aid them in their negotiations for peace. He has accepted the invitation.

A Loss of $130,000.

BUFFALO, Dec. 28. — Five three-story brick buildings on Broadway and Fillmore avenue were burned to the ground last night. They were occupied by 10 firms, whose aggregate loss will reach $130,000. The origin of the fire is not known.

To Fight Diphtheria.

PROVIDENCE, Dec. 28.—The health department yesterday took the first steps to introduce anti-toxine in the treatment of diphtheria, of which there are many cases in this city. The use of the remedy will be made as an experiment.

Seeking Foreclosure.

SPRINGFIELD, Ills., Dec. 28.—A bill was filed in the federal court here asking for the foreclosure of a mortgage against the Louisville, Evansville and St. Louis Consolidated railway and a sale of property.

Big Four's Loss.

ANDERSON, Ind., Dec. 28.—The union passenger station for two divisions of the Big Four railroad was totally destroyed by fire yesterday. The loss is heavy.

The City's Credit Good.

City Treasurer Bergin, Thursday borrowed $75,000 on a temporary loan at 2 5-8 per cent., which was the lowest rate any city has borrowed within the past 60 days.

He also sold $6,600 of bonds at 4 per cent., for the purchase of school house lots at "The Rail" and Norfolk Downs, to E. Rollins & Sons for $6,735 96.

☞ If from pressure of business or other causes you neglected to purchase Christmas presents, remember that New Year's is coming and that no more acceptable presents can be found than those at the furniture warerooms of C. W. Guy and W. G. Shaw at the Quincy Coliseum. Quincy, Dec. 29. 1po-1t

DAMAGED BY STORM.

New House Blown Down, a Roof Taken Off, etc, etc.

The storm which swept along the coast on Wednesday night and Thursday was one of the severest known in this section for years. The storm developed over the Gulf States Wednesday morning and moved slowly northeastward with increasing force during the day, the outer edge reaching here at about nine o'clock Wednesday evening, when snow accompanied by a heavy wind set in. Early Thursday morning the temperature moderated and the snow changed to rain and sleet. The storm continued with unabated fury up to Thursday noon. The barometer dropped to 29.25, and the wind at the Blue Hill observatory attained a maximum velocity of 100 miles an hour, with an average of 78 miles at 10 o'clock, A. M., Thursday. The wind at Wollaston at that hour registering the almost unprecedented velocity of fifty miles.

The electrics were blocked for sometime and pedestrianism was almost out of the question.

Many of the telephone wires were blown down or crossed, and as usual the local lines suffered to some extent.

A chimney on the house of Henry C. Weeden at Germantown was blown over and a hole torn in the roof.

At Johnson's lumber yard the boards and joist were thrown about as though they had been straws,

About 75 feet of the tin roofing of T. A. Whicher's factory was torn off and the smoke stack blown down.

The damage at Wollaston will amount to hundreds of dollars. A house owned by Thomas Atkins of Wollaston Park, and which he was building for himself near the Vinton place, was demolished. The house had the roof on and was boarded in. At about 10 o'clock A. M., Thursday, when the hurricane was at its height it went over with a crash. Mr. Atkins had been at work on it for some time and outside of what lumber that can be saved out of the wreck, it will be a total loss.

Windows by the score were blown in at Wollaston. A large show window in Judson L. Smith's store in the Emery building was one. Glaziers were kept busy all day setting glass.

The stories that are told at Wollaston of the destruction by the wind are almost beyond belief. Large cedar posts were snapped off like pipe stems; hen yards and fences were blown down; and it is even said that a pung was blown upon a horse's back, and the horse ran home carrying it in that position. The last story needs a little salt to make it easily swallowed.

High School Reunion.

The Board of Government of the Alumni of the Quincy High School feel that the time is now short to give proper notice of the first annual reunion to be held on Monday evening next, but they have arranged for a banquet to be furnished by Hendrie which will be enlivend by Baldwin's music. Patterson, the florist, will furnish the floral decorations. The post prandial exercises will include short speeches, and an impromptu dance will follow.

The arrangements will be completed at a meeting tonight of the board, and announced tomorrow. Graduates are requested to register tonight at the office of the Superintendent of Schools.

SCHOOL COMMITTEE.

Dr. Rice Tenders His Resignation as a Member of the Board.

An adjourned meeting of the School Committee was held Thursday evening, those present being Messrs. Crane, Gordon, Gurney, Burns, Sheahan, Porter and Harlow.

The chairman reported that the City Council had granted the transfers asked for.

Notice was received of the resignation of Miss Rogers of the Adams school.

Two petitions were received to transport the pupils of the Quincy school, which were referred.

Miss Perkins of the Washington school was granted an indefinite leave of absence, without pay.

Mr. Porter offered an amendment to Rule 1, changing the time of holding the annual meeting to the Tuesday following the first Monday in January.

The Superintendent reported that coal must be procured immediately for the High school.

A letter was read from Dr. George B. Rice, resigning as a member of the board.

The resignation was accepted and the chairman instructed to notify the City Council that a joint meeting could be held to fill the vacancy.

A vote of thanks was extended to Chairman Crane for the faithful and impartial manner in which he had presided over the meetings of the board during the past year.

Mr. Harlow for the sub-committee read the annual report of the board which was accepted. The report was brief and together with that of the Superintendent which was also read, will appear in full in the annual City Book.

TRACKS ILLEGALLY LAID.

Braintree and Weymouth St. Ry., Had No Right to Cross N. Y., N. H. & H. R. R.

The Braintree and Weymouth Street Railway, after failures to negotiate with the N. Y., N. H. & H. R. R., as to crossing the tracks of the latter corporation at Commercial street, East Braintree, stole a march on the railroad by quickly putting in the rails.

It had just been completed when President Kelly was summoned into the equity court to show why the rails should not be removed. The hearing took place Thursday.

TheSelectmen of Braintree had granted a location across the railroad providing that frogs might be inserted, if the N. Y., N. H. & H. R. R. agreed otherwise in any other way.

The Street Railway people opened negotiations with Supt. Allen and Counsel Benton and claimed to have had an agreement with them, but at the hearing it was set up that application should have been made only to the N. Y., N. H. & H. R. R directors. The Court so ruled, and therefore the tracks are illegally laid.

President Kelley of the street railway will not, however, take up the tracks unless so ordered. It would not be surprising if the railroad removes them, but it is only a question of time when they will be legally laid.

—The Georgia legislature has taken action on the Cotton States and International Exposition by making an appropriation for an exhibit. This endorsement will, of course, help to secure favorable action in other States. The appropriation is $17,500, but this will be supplemented in various ways and the exhibit will be a handsome one.

—In the valedictory of the Newark, N. J., Morning Times, which recently suspended, Thomas C. Barr observes that all he has to show for his investment of $200,000 are copies of the first and last issues, which he will preserve as mementoes. It is always expensive business trying to publish a newspaper that the people do not need or want.

LAID AT REST.

Funeral of Editor M'Ewan of Braintree Observer—Eulogy by Mr. Ellsworth.

Although William M'Ewan of Braintree died suddenly without a relative in this country, a large number ventured out in the inclement weather of Thursday to pay the respects of friendship. The services were held at the Union church and the gathering included neighbors, town officials and many newspaper men. The latter included George W. Prescott and Frank F. Prescott, publishers of the OBSERVER, QUINCY PATRIOT and QUINCY DAILY LEDGER; W. A. Kane of the Reporter; A. W. Blanchard and M. L. Hawes of the Gazette; D. H. Huxford of the Randolph Register; H. F. Perry of the Associated Press; George T. Magee of the QUINCY DAILY LEDGER; Joseph F. Costello of the Globe; W. H. Cobb of the Herald; T. J. Collins of the Journal; Frank P. Hill, Thomas J. McGrath, Edward L. Goodridge, Maynard C. King, Edward B. Brown, Napp F. Bertherman, Edward H. Austin, Frank O'Connor and Hiram A. Hayden, Mr. M'Ewan's late associates in the PATRIOT office.

The remains were enclosed in a rich casket and there was a profusion of flowers. There was a wreath with the inscription "Braintree OBSERVER" encirling the dates "1834-1894," from the employes on the paper; a pretty pillow with the simple word "Mac"; another wreath of ivy and rose buds, and still another of pinks and choice flowers; a bunch of violets, and a sickle of ivy leaves, all from friends.

Rev. W. H. Alexander, the pastor, opened the services, reading from the Scriptures and offering prayer.

Rev. A. A. Ellsworth of the North Congregational church was pleased to take part in the services. Of late ministers had discouraged eulogies at funerals, but this was an exceptional occasion for eulogy; an occasion for kindly words. He spoke of his early acquaintance with the deceased. When Mr. M'Ewan came to this country, twenty-five years or more ago, he became an earnest worker in the Union church of which I was then the pastor. He told me he came over to fight infidelity. While of an excitable independent character, there was also a shyness. We are drawn to him today by the suddenness of his death. He was a man of human sympathy. He was well informed on all subjects and one never idled away his time when in his company. Then there was a kindly feeling for young people.

Mr. M'Ewan's town feeling was strong. It was an element of patriotism. His interest in Braintree was shown quite as much in the impurities he suppressed as in his pointed utterances. He was a lover of nature and these flowers today speak of fragrance. He was a religious man; not perfect or without weakness, but when all had been said he was more an enemy to himself than anyone else. It could not be said that he from malice ever said or did a mean act. He had a warm Scotch heart, and was a lover of poetry.

People were inclined to underestimate the home paper. It is often a wonder that they are as good as they are. The paper Mr. M'Ewan had given us was open to criticism, yet it had done much for the town and had faithfully chronicled its history. We loved Bro. M'Ewan for his sincerity and independence.

The interment was at the Plain Street cemetery, and four of his Scotch friends acted as pall bearers, viz: John Radclift, Michael Preston, William McGregor and James Wilson.

—The practice of wrecking trains as an aid to railway strikes will be discouraged by recent sentences. A California court lately sentenced such a criminal to the gallows, and an Iowa court has sentenced another to the State prison for life.

MR. WINSLOW'S LOAN BUSINESS.

When at Harvard, He Exacted a Latin Thesis as Interest.

When W. Rodman Winslow was killed by falling from the seventh story window of the Sevillia apartment house some days ago, a never failing source of revenue to those hard pressed for ready money was taken away. For years Mr. Winslow had an office on the third floor of the Vanderbilt building, at 132 Nassau street, and there he transacted an "interest and discount" business on a large scale.

The sign on the office door set forth that Mr. Winslow was a counselor at law. He was, it is true, educated for the law, but he had given little attention to its practice for many years. It was in the loaning of money upon chattel mortgages that he made a reputation for himself and acquired the fortune which he had when he died. His method of doing business was similar to that of chattel loan agents the city over. In addition to the legal rate of interest Winslow charged 30 or 40 per cent additional for the accommodation. To secure the loan he took a chattel mortgage upon almost anything of greater value than the amount loaned which the borrower possessed. The form of this mortgage he drew himself, and it was his boast that it had never been broken in a court of law.

Mr. Winslow was a college man, and, according to the story of an old friend of his, it was while still a student at Harvard that he began the business which he afterward made his vocation. A fellow student was hard up one day, and he asked young Winslow to lend him some money. The latter had some ready money which he signified his willingness to loan provided the borrower, who was a fine classical student, would write a Latin thesis for him. It was a good hard two weeks' work, but the student had to have the money, so he agreed to the stipulation. After that young Winslow frequently loaned money to others, exacting premiums of various kinds for the accommodation.

On leaving college the young graduate made up his mind that there were great possibilities for pecuniary gain in doing a money business on a larger scale, and thus it happened that he made it his profession. It was said that he did the largest business of the kind in the city.—New York Letter.

Three Useful Boys.

Here is a joke from Indianapolis which small boys will be sure to appreciate. A certain Mrs. Watts said to her maid of all work, Mary Ann by name: "Mary Ann, these balusters seem always dusty. I was at Mrs. Johnson's today, and her stair rails are clean and smooth as glass."

To which Mary Ann replied: "Yis, mem. She has three shmall boys."

Mounting the Camel.

A game for children is called "Mounting the Camel In Cairo Street." A large camel is cut from dark cloth and fastened to the white background of a sheet. The figure of a man is cut from white or scarlet, and the point of the game is, when blindfolded, to fasten the figure with a pin in a proper position to ride the camel.

THE EXPLORER.

Kentucky and southern Ohio are full of bowlders which in the previous geological epoch had been transplanted by glaciers from the frozen regions of Canada.

The rare sight of a rainbow in the sky with the temperature from 12 to 20 degrees below zero is sometimes to be seen in Sweden, Iceland and Nova Zembla.

The interior of the Josephine caves, near Grans Pass, Or., has been explored for a distance of 13 miles. Although in the midst of a rugged country, they are easily reached by a wagon road.

One of the curiosities of the Stinking Water canyon, Wyoming, is the alum cave. The cave appears to be an extinct geyser and is about 15 feet across and easily accessible. The alum is along the side and about 6 feet in thickness.

—The world ought to move in an uneven fashion, when one considers the lack of balance in its affairs. While Chancellor Hohenlohe of Germany declines a $24,000 increase in his salary, and John Wanamaker says no to the offer of a $50,000 railroad presidency, men desirous of digging in the streets at $1 or less a day are met by the same disheartening sight of a former season, plenty of work, and plenty of other people doing it.—*Boston Home Journal.*

ALMANAC FOR FRIDAY, DEC. 28

SUN RISES	7 13	MOON SETS	5 16 PM
SUN SETS	4 19	FULL SEA	12 15 AM
LENGTH OF DAY	9 06		12 15 PM

Forecast for Maine: Fair; colder, with a cold wave in southern portion; high northwest winds.

For New Hampshire and Vermont: Colder; northwest winds.

For Massachusetts, Rhode Island and Connecticut: Fair; colder, with a cold wave in eastern portions; northwest winds.

The storm moved rapidly northward from South Carolina along the coast, and was attended by rain and snow, with gales in the Atlantic states and New England. It has passed into the gulf of St. Lawrence. The area of high pressure covers the Rocky Mountain slope and the central valleys; the highest reading is in northeastern Colorado, being 31.1 inches. The barometer has fallen rapidly in New England and the extreme northwest. The temperature has fallen in all districts except Maine and North Dakota, where it has risen. The weather bureau predicts cold and fair weather will prevail in all districts, except the lake regions, where light local snows will occur

LAWYER GOFF'S WORK

Brings to Mind Many Little Things Against Inspector Williams.

COMSTOCK'S NAME BROUGHT OUT.

The Reformer Has Something to Say About Goff.

NEW YORK, Dec. 28.—When the Lexow committee resumed its investigations yesterday at noon, there was a very large crowd in the courtroom. After a short conference with the senators, Mr. Goff called the names of Captains Meakim, Washburn and Westervelt. None of them replied, but Inspector Williams told the inquisitor that all three were sick.

This made Mr. Goff very angry, and when the inspector resumed the witness chair his questioner had fire in his eye, which boded evil for the "King of Clubs." Mr. Goff first asked about the location of Williams' Japanese lots. "They are in Hakodate, in the northern part of the empire," was the reply. Mr. Goff and the witness had a long argument as to whether foreigners could hold property at that time, but Williams insisted that Hakodate was a treaty port in 1855, and Mr. Goff switched off to the early 70's, when Williams had charge of the Eighth precinct.

ANTHONY COMSTOCK.

The witness said there were about 83 houses of ill-fame in the precinct when he went there, and they were there when he left. He said they were fashionable then. Mr. Goff then looked up the charges made against Williams in the department, and asked the witness about some of which there were no record in the department books. He said that Williams had been accused of taking everything from a needle to an anchor, and read a charge of his having taken several articles to the value of $100 from Louisa Smith, a disorderly house keeper.

Williams denied this, but said afterward that he did not remember the charge. Speaking of the Eighth precinct, Williams acknowledged that it was impossible to suppress the houses there, and although he claimed to have worked hard to do so, he could not mention one which he closed. He indignantly denied that he received protection money, or that there were any panel houses in the precinct.

After recess the inspector said that he remembered one panel house, but acknowledged that there might have been more. They were very difficult to discover, he said. Mr. Goff quoted the testimony of Sergeant Grew, who testified before the board of education, 20 years ago, about panel houses and others of ill-repute in the precinct at that time, but Williams persisted that Grew was a liar. The witness then took occasion to deny some statements made about him by witnesses before the present commission.

Anthony Comstock In the Swim.

A most sensational witness next came on the stand. He was Louis S. Streep, who once kept a printing house in Beekman street. He was indicted in June, 1889, for printing and sending out "green goods" circulars, but declared that he was innocent, as the guilty man was Edward Bechtal, who hired a room from him.

Mr. Goff produced two indictments which had been dismissed, and then came the sensation. "I swear solemnly before God and man that I paid $1000 to Anthony Comstock to have these indictments dismissed, and I had to borrow $300 from my brother, who saw me pay the money to Comstock." The indictments were recommended by the district attorney for dismissal, and signed by Recorder Smyth.

The man then told a rambling story of being re-arrested on the same charge in the United States court, and that he had paid $1000 to United States District Attorney Mott to have the indictments dismissed. There was a buzz of suppressed excitement in the room when the man had finished. His brother, Robert, corroborated him as to the payment of the money to Comstock, and then Mr. Goff asked for an adjournment until today.

It is understood that the committee will not sit after today, so that a great deal of work will have to be crowded into the day, and a night session may be had. Superintendent Brynes, Inspectors McLaughlin and McAvoy and several captains have yet to be examined, so that today's session may be one of the most important of this committee.

Comstock Is Angry.

Anthony Comstock, when seen last evening, said of Streep's testimony: "The statement he made is preposterous and unworthy of notice. Streep never directly or indirectly gave me the value of 1 cent, not even a postage stamp, and never in all of his trials, even as a witness, was it intimated that he gave me a penny."

Mr. Comstock then turned his attention to the Lexow committee and Mr. Goff and said: "Now if this reckless and indiscriminate assault on individual characters is to be tolerated by Mr. Goff and the Lexow committee, the quicker they retire from before the public the better for Mr. Goff.

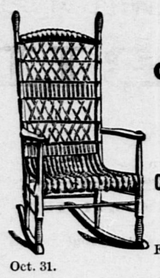

"By the way, in speaking of Goff, I'd like to know what the little secret was, when he was an assistant district attorney, that Olin D. Gray was not prosecuted. I found in this man Gray's possession $1,500,000 worth of Louisiana lottery tickets, and, notwithstanding such strong evidence, this man was not prosecuted. Mr. Goff may, perhaps, tell us why.

"On the whole, it is the most infamous plot to traduce my character I ever heard. I will appear before the Lexow committee and will demand to be heard. I will be heard. It is my right; it cannot be denied; it cannot be; it must not be."

PALE, THIN AND EMACIATED PEOPLE.

The country is full of them. They do not know what it is to feel well like other folks. Medicines of all kinds have been tried without good results. Cod Liver Oil and the preparations of Malt have all failed. What is the reason? These emaciated people cannot digest starch foods. The fat of the body is produced with bread, potatoes and other starchy food. If they will eat food that is artificially digested they will grow fat, strong, plump and robust. They will commence gaining flesh at once. The Flesh Forming Food is called *Paskola*. You can buy it at any drug store. Miss Wright and Her Mother Are on Their Way Northward.

EL PASO, Tex., Dec. 28.—Mrs. Marie Robinson Wright and her daughter, Miss Ida Dent Wright, passed through this city yesterday from Mexico to New York. They indignantly denied the report that they had been ordered out of Mexico, and declared their intention of returning soon after their trip to New York.

MISS WRIGHT. GENERAL EZETA.

Miss Wright has become widely known as the affianced of General Ezeta, ex-President of Salvador, but she declares that she is done with Ezeta, and that he is entirely without influence in Mexico.

Labine Receives Sentence.

NASHUA, N. H., Dec. 28.—The case of Joseph Labine was finished in the supreme court yesterday. Clerk Willoughby of the police court produced the records, showing that many of those who signed the iron-clad agreement in 1888, under the nuisance act, agreeing not to sell liquor, had since appeared in court personally, and pleaded guilty to the charge of selling spirituous liquors and paid their fines. Labine was sentenced to six months in jail and to pay the costs of prosecution. The court suggested that others who had violated the agreement not to sell liquor should be prosecuted. The decision has created intense excitement. There is considerable discussion as to what action the Law and Order league will take, now that Labine's case is settled.

Two Steamers Missing.

SAN FRANCISCO, Dec. 28.—It is now 20 days since the steam colliers Montserrat and Kewanewaw sailed for San Francisco from neighboring ports on Vancouver Island and British Columbia. Nearly all the shipowners believe the vessels and their crews, numbering nearly 60 men, were lost in the gale which broke on the night that the colliers put to sea. The United States gunboat Bennington went to sea yesterday under instructions to make a thorough search for the missing vessels. The revenue cutter Grant, which was dispatched on a similar errand several days ago, is still at sea.

Putnam Found Guilty.

CONCORD, N. H., Dec. 28.—Ex-President W. F. Putnam of the National Granite State bank of Exeter is found guilty of embezzling $10,000 from the bank and abstracting from it $20,000 in Leavenworth Electric railway bonds, but not guilty of one other charge, according to the jury's verdict returned in the United States court last night. Seven of the 10 counts in the indictment had been ruled out by Judge Aldrich. Putnam received the verdict apparently very coolly, and gave no indication of his feelings at the result.

Defaulted His Bail.

BOSTON, Dec. 28.—Olin Adams, president of the Debenture Investment company, and who was recently held in the sum of $3000 on a charge of procuring money under false pretenses, was defaulted in the municipal court yesterday. Adams had deposited $2500 in cash with the clerk of the court, and this money will be forfeited unless he appears and has the default taken off.

"No Actual Deficit."

BROOKLYN, Dec. 28.—Deputy County Treasurer Harrington says regarding the story that the county treasurer's accounts show a shortage of $89,649 that there is no actual deficit. Cashier Tormey, Harrington says, will soon be back.

A SERIES OF DENIALS

Inspector Williams Still Maintains That He Is Honest.

MARTIN MAKES A GOOD SHOWING

His Frank Answers Leave an Impression of Truth.

NEW YORK, Dec. 29.—When the Lexow committee began operations yesterday there seemed to be a lull in the interest manifested by the public during the previous sittings of the commission, but before Mr. Goff had got well under way the courtroom rapidly filled, and there was the usual throng of spectators.

Inspector Williams again faced Mr. Goff and resumed his hard, dry denials of ever having received any money or bribes of any description. He said that he never got a dollar from illegitimate sources outside of his salary while in charge of the "tenderloin" or any other precinct.

He told a peculiar story of a magnanimous brokerage firm from which he got some $5000 or $6000 made on speculations for which he was not required to put up a dollar. The firm was Fliess & Hoy, 417 Broadway, and Fliess has been connected for a long time with the famous Hollywood Whisky company. Inspector Williams claimed to have only about $6000 in the banks, and he stated that he did not know how much his wife has at the present time.

He got very angry when questioned about his wife's diamonds, particularly a diamond cross, which Mr. Goff said came from a woman of ill-repute. "I never saw such a thing, and I brand the statement as a lie," he said.

Mr. Goff kept probing him about presents, and spoke of the grand jury of 1885 that made a presentment to the effect that Williams was manifestly unfitted for the police department. His ignorance of the gambling houses and their operations in the tenderloin was marvelous, but he had evidently made up his mind to deny everything and did so unflinchingly.

He claimed not to be worth more than $40,000 outside of his residence. Once, when he was hard pressed by Mr. Goff, the latter said: "You are losing your temper." Williams replied: "No, I am sitting on a cake of ice," but he

Did Not Look Very Cool.

His whole examination was a series of denials, and he insisted that any and everybody who accused him of wrongdoing lied. He faced the music bravely until the moment when Mr. Goff said: "That's all."

Captains Delaney and Ryan when put on the stand were so badly rattled that the committee and spectators alike were relieved when both men were excused.

One of the most clear and reserved witnesses who has yet testified turned up in the person of Police Commissioner James J. Martin. He answered every question put to him so frankly as to leave the impression of the truth of his statements. Unlike Commissioner Sheehan, he replied to all questions without the slightest hesitation, and very much unlike his bro he commissioner, he produced his bank books, checks and checkbooks, and handed them to Mr. Goff.

He explained how difficult it was for the commissioners to find out men who accepted bribes, and said that they had to depend upon Superintendent Byrnes to ferret out the members of the force who accepted blackmail. He claimed that he never procured substantial information, but did not make an investigation, as it would interfere with his subordinate, Byrnes. He disclaimed all knowledge of any man paying for an appointment on the force, or for promotion, and declared that by no act of his had he contributed to the state of affairs now in existence in this department.

He told Senator Lexow and the other commissioners that, in his opinion, the police department could not be run by a single head, as there would be vastly too much for one man to attend to.

Today will be Mr. Goff's last day as examiner for the Lexow committee, but it is thought that the senators will come back again to renew their attacks on corruption before the new year is many weeks old.

Comstock Talks Some More.

Anthony Comstock gave out a statement yesterday which is in reality a fierce attack upon John W. Goff. He said among other things: "I procured positive evidence against O. D. Grey, in the shape of policy slips and other things, but Goff quashed the case and returned Grey his outfit."

Mr. Comstock intimated that Mr. Goff's motives in taking this step were not proper. Continuing, he said: "Goff employs thieves, cutthroats and reprobates, and promises them protection if they will perjure themselves, which they do. A reputable citizen may be accused of every crime, but he is not granted any rights.

"The action of the Lexow committee is barbarous. Streep, who says he gave me $1000, is now under bail in Erie county, pending trial for selling green goods. I prosecuted him, yet he did not dare accuse me of taking money, because there is no truth in the charge."

Mr. Comstock said he was willing to appear before any body of reputable newspaper men or lawyers, but he did not expect justice from any body of investigators "who will accept testimony from confessed perjurers and guarantee them protection."

A BROKEN LIFE.

Miss Pollard Will Strive to Remove the Stain Which Rests Upon Her.

NEW YORK, Dec. 29.—Statements have been made that Miss Madeline Pollard designed going upon the stage as an actress, and that in person or by an attorney she purposed following Congressman Breckinridge about the country to levy upon the proceeds of his lecture tour just begun. Prompted by these statements, Miss Pollard has requested the press to give publicity to the following:

"I have not wanted to make a statement of any kind. I could not see that what I did was of interest to people generally. So I have tried to bear all that has been said of me as part of punishment for my failure as a woman. I am not going before the world in any capacity. I have no message to carry; I have asked a question with my life; it cannot be answered in a day.

"I have no theatrical friends. I have never been situated so I could have. Their world is far removed from mine. I live in a private house with my brother and southern friends.

"I do not believe there is a man or woman on earth who thinks there is money compensation for sorrow. I am sorry, for any reason whatsoever, I am accused of realizing so little the enormous sorrow that overshadows my life.

"I am not under an assumed name. I have not been to any place where I was not well known. I do not mean to be while I live. I have stained my dear father's spotless name, and with the Christ power, I shall fight from under the stain."

In Prohibition Portland.

PORTLAND, Me., Dec. 29.—B. I. Thompson, proprietor of the Dominion House who was in the municipal court on a search and seizure process, was discharged. A case of lager beer was found at the hotel, but Proprietor Thompson testified that it belonged to some of his boarders. Three boarders who were summoned as witnesses claimed that they had made a practice of pooling in and buying cases of beer, a record being kept of the consumption of each case and each man paying toward the next case a share proportionate to what he drank. Judge Gould threatened to have actions for liquor selling brought against all three of the boarders.

No Place For Americans.

HARTFORD, Dec. 29.—An Armenian of this city has received a letter from a Turkish officer, who says: "Many of the officers in the army near Sassoun saw no reason for destroying so many people. The sultan not only tortures Christian people, but his soldiers and officers as well. I advise you to stay away, because the sultan is determined to rob and imprison every American citizen."

Stalled on a Crossing.

BRIDGEPORT, Conn., Dec. 29.—A Boston express was brought to a stop within 12 feet of a stalled trolley car at the East Main street crossing yesterday afternoon. In some way the current had been shut off when the trolley car was nearing the steam railroad tracks, and its momentum was just sufficient to bring it directly on the tracks.

Bullet Through His Head.

BOSTON, Dec. 29.—Henry G. Lewis of St Louis, aged 20, a student at the Massachusetts Institute of Technology, committed suicide by shooting himself through the head. The cause of the act is unknown. He was well up in his studies, and was considered a man of exemplary habits. His father is a dry goods merchant of St Louis.

Rhody's New Armory.

NEWPORT, R. I., Dec. 29.—Contractor McCormick yesterday turned over the state armory to the state, the keys being received by Governor Brown in person. The building cost $24,000. It was erected for the naval reserves of Newport and company B, Second regiment, stationed here. There were no exercises.

Considering Immigration.

NEW YORK, Dec. 29.—Commissioners of immigration of some of the leading ports of the United States met yesterday at Ellis island for a general discussion of matters pertaining to their departments. An effort will also be made to have a uniformity of rules to govern all immigration departments in this country.

Beyond Our Jurisdiction.

WASHINGTON, Dec. 29.—United State Minister Denby has made no demand on the Chinese government for satisfaction for the killing of the two Japanese student spies, as reported, nor is the government in a position to make any such demand, which is usually construed to mean an indemnity.

Got the Right Man.

LONDON, Dec. 29.—The agent general in London of Cape Colony states that there is no doubt as to the identity of Wilhelm A. Lippert, who was recently arrested in Cincinnati and brought to New York, preliminary to his extradition to England on the charge of obtaining $813,675 by forgery.

Youthful Burglars Captured.

BOSTON, Dec. 29.—Jonas Harvey, aged 19, of Massabesic, N. H., and Frederick Barton, aged 20, of this city, were arrested yesterday as fugitives from justice. They are wanted for various burglaries committed at Candia and Raymond, N. H.

No Change In Price of Coal.

NEW YORK, Dec. 29.—Anthracite coal sales agents yesterday decided to limit their production in January to 45 per cent of their capacity, which will be a production of 2,300,000 tons. No change has been made in prices.

Charged With Embezzlement.

BOSTON, Dec. 29.—A. V. Chase, aged 36, of Worcester, was arrested in this city for the embezzlement of $3000 from W. H. Sawyer of Worcester in 1892. The prisoner was turned over to a Worcester officer.

Casualties Anticipated.

LONDON, Dec. 29.—A heavy gale is prevailing in the Irish sea, and vessels are running for shelter. It is feared that some casualties will occur.

Settlement Endorsed.

BERLIN, Dec. 29.—Sixteen meetings of Socialists have ratified the agreement recently made for the settlement of the boycott against the breweries.

Looking For War?

RIO DE JANEIRO, Dec. 29.—The government has ordered $1,000,000 worth of war material from the Armstrongs.

TERMS OF UNCLE SAM

For Allowing Chinese to Return to the Shores of America.

A FEW IRON-CLAD REGULATIONS

Which Must Be Carried Out to the Letter.

WASHINGTON, Dec. 29.—The regulations for the return to the United States of Chinese laborers, as provided for by the recent treaty between this country and China, have been completed by the secretary of the treasury. Under the regulations, a Chinese laborer who has resided and registered in the United States and departed therefrom, and who may have a lawful wife, child or parent in this country, or property therein of the value of $100, or debts of like amount due him, will be permitted to return, provided that before departing he deposits with the collector of customs of the district in which he resides, or with the nearest customs officer, a certificate of registration from the internal revenue collector, and a full description of his family, property or debts.

The papers must be accompanied by three photographs of the laborer, and the statement submitted by him, if found to be correct, will be certified by the collector of customs. The papers, with the photographs, are to be transmitted to the collector of customs of the port from which the Chinese person is to depart, and who is to return to the country

Via the Port of Departure.

The certified description of the Chinaman will be filed in the office of the collector at the port of exit as a means of identification.

The return to the United States must be within one year from the date of departure, unless sickness or other disability prevents, in which event the facts are required to be identified by the Chinese consul at the port from which the Chinese person may depart for the United States.

A certificate will be issued to the laborer on his departure which will not contain a description of the person to whom issued, but which will refer to the identification papers by number. This will obviate the sale or exchange of certificates and render the identification of the returning Chinese certain.

Collectors at ports of exit will be required to transmit to the treasury department weekly reports of Chinese leaving their respective ports, giving the name, local residence and occupation of such persons. The collectors will also be required to cancel all certificates of returning Chinese and to forward the same to the treasury, where records are to be kept on forms specially provided for the purpose.

The certificates to be issued will be especially numbered and issued by the department to collectors on requisition therefor, an account being kept in each instance, and collectors will be required to exercise unusual care in all matters pertaining to it.

Scare Spreads to Manchester.

MANCHESTER, N. H., Dec. 29.—The sentence of Joseph Labine, the Nashua saloon keeper, for violation of an injunction granted under the nuisance act, created consternation in this city, where some liquor dealers, among them some of the most prominent saloon keepers, have signed agreements similar to that signed by Labine, and who are, consequently, in the same legal status.

Frightened by State Troops.

AUGUSTA, Ga., Dec. 29.—The agitation over the death of Detective Murray, which threatened to find expression in violence, has quieted down. The state troops were called out to protect the jail where the negro murderer, Jabez Wiggins, is confined, and the display of military force had the effect of deterring the would-be lynchers from putting in an appearance.

Arbitrators' Decision Doesn't Count.

MASSILLON, O., Dec. 29.—The Massillon miners have refused to abide by the decision of the board of arbitration fixing the rate for mining at 60 cents a ton. The settlement was denounced as an outrage upon the miners. A joint meeting of operators and miners was favored, the mines to remain closed until after such a meeting is held.

Torpedoes For Cruisers.

NEWPORT, R. I., Dec. 29.—Orders were received at the torpedo station yesterday to ship 12 Whitehead torpedoes for the cruiser Olympia, now at San Francisco. This is the largest outfit ever placed on board a man-of-war. The second largest consists of eight to be placed on the San Francisco when she comes here.

Sadly Afflicted.

COBALT, Conn., Dec. 29. — Nathaniel Bownes' family has been nearly exterminated by scarlet fever. The fourth child died last night. The father is believed to be dying and another child is very low. The Spencer family, in the same house, are all sick, two dangerously.

Cornwell Pleads Guilty.

BROCKTON, Mass., Dec. 29.—Benjamin Cornwell was arraigned yesterday for assault on Albert Pierce of Bridgewater on Christmas day with intent to kill. Cornwell pleaded guilty, and in default of bail for $300 was committed to await the action of the grand jury.

To Be Consolidated.

BRIDGEPORT, Conn., Dec. 29.—James A. Bailey, Nate Salsbury and W. F. Cody have agreed to consolidate the Wild West and Forepaugh shows next season, with a capital of $1,000,000. The new partners will have no interest in the Barnum & Bailey show.

Not a Murder.

TORRINGTON, Conn., Dec. 29.—Coroner Higgins' finding in the case of Alexander Begez, who was found dying near the railroad track, with clean cut fractures in his head, was death by being struck by an engine. The theory of murder had been entertained.

POLISHED CHIPS.

But little business is being done in the granite yards this week as the holidays are rather sure to break up the week.

The granite for the Brewery building at Franklin park is being furnished by the Merry Mount Granite Co.

Prout Bros. have recently erected a handsome monument in Mt. Wollaston cemetery for Barnabus Clark.

Igo & Co., report several orders on hand.

W. A. Richards, the designer, has taken a partner, and the firm is now known as Richards & Trowbridge.

The granite being used in the residence of G. H. Hutton, at Newport, R. I., is being quarried at Braintree.

McDonnell & Cook have orders for six monuments, three of which are of sarcophagus style; one of gothic design; one a square urn monument, and one of a cottage design.

It is understood that it is the Quarry railroad company that is to build the spur track from Quincy Adams to the quarries off Granite street.

The rooms of the Granite Manufacturers' Association in Durgin & Merrill's block are open all the time now and the secrctary is in attendance throughout the day. Mr. T. J. Dumphy is the new secretary, succeeding Mr. F. L. Badger this month.

Blue Hill Predictions.

During the coming week the warmest weather promises to be on the afternoon of the 30th, between the afternoon of the 1st and afternoon of the 2d, and on the 4th and 5th. The coldest will probably be on the 29th to the morning of the 30th, on 31st to morning of the 1st, and between the evening of the 2d and evening of the 3d. The 29th will probably be the coldest, and the 4th the warmest days of the week. Snow or rain is probable between the afternoon of the 30th and afternoon of the 31st, on the morning of the 2d or night of the 1st, and on the 4th or early morning of the 5th. The remainder of the week will probably be fair. With the greatest probability of clear weather on the 29th, 1st and 3d.—*Norfolk County Gazette.*

High School Reunion.

Secretary Battison of the association of the alumni of the Quincy High School has received several replies from graduates signifying their intention to attend the reunion and banquet, and last evening many others signed the constitution and procured tickets.

Carter will furnish the music, instead of Baldwin as announced, and Hendrie serves the banquet. President Porter will be toastmaster on the occasion, and the response will be by ladies and gentlemen. The dance to follow will be entirely informal, without floor directors or orders, but under the direction of Mr. George W. Holden and Mr. Frank F. Prescott.

It is unfortunate that a longer notice could not have been given of the arrangements, but the use of the building could not be obtained during a school term. Rally for the Q. H. S.

RECEPTION TO PASTOR.

Rev. and Mrs. Robert Westly Peach Make Many Acquaintances.

On Thursday night the ladies of the Presbyterian church tendered a reception to their pastor and his wife. Despite the accumulated discomforts of locomotion the gathering was well attended. All the discomfort was left outside, and it was evident that everyone "from the least to the greatest" was intent on being happy and imparting happiness.

The hall, where the reception was held, was tastefdlly decorated with evergreens, and on the tables, where the esculent portion of the evening's enjoyment was arrayed, many flowers of exquisite hue were arranged to appeal to the eye and feast the sense of beauty. At the upper end of the hall, on a dais covered with handsome mats, were placed two chairs, and to these Mr. Clark led Mr. and Mrs. Peach.

After a few introductory remarks by Mr. Clark, Mr. Bowman, in his best form, sang a solo. Miss Mackenzie gave a recitation which was much appreciated. Miss Hutchinson sang a solo so sweetly that one felt as if the purveyors of honey came humming by.

The reception committee, Mrs. Allen, Mrs. Philips, Mrs. Wood, Miss M'Kean and four gentlemen then presented the members of the assembly as they filed by, to their beloved pastor and his charming wife.

When this pleasing formality was completed to the evident enjoyment of all, Mr. and Mrs. Peach were conducted to the place of honor at the table and they were followed by the rest of the gentlemen accompanied by their lady friends, who also took their seats and discussed the entertainment until everyone was satisfied with good things. On many of the cakes were mottoes suitable to the occasion, such as "We wish you a happy new year," "God bless our pastor," etc. That the gastronomic part of the programme was a success goes without saying. Wherever a band of willing ladies work together on such occasions, the result is "an ornament of grace; a crown of glory."

In the name of the ladies, Miss Mackenzie presented Mrs. Peach with a vase full of choice flowers. Mr. Donald Mackenzie made a few remarks of welcome to the pastor and his wife, and of praise to the ladies for the happy consumation of the occasion. From his high hopes of the pastor, the beneficent influence of his wife and the magnetic cordiality beaming in every face, he predicted an augury of future success.

He anticipated that Mrs. Peach would exemplify the ideal good wife depicted in Proverbs XXI: "In her tongue is the law of kindness * * Her own works praise her in the gates * * Many daughters have done virtuously but thou excellest them all."

Mr. Peach made a suitable reply. In feeling words he expressed the great happiness his wife and himself felt in this manifestation of the love of his people in attending in such numbers, considering the inclemency of the weather. He felt inspired to use his best efforts to confirm their love and co-operation in his great work, and concluded by words of benediction.

A BANJO SOLO.

The Phonograph Produced It With All the Extras to Select Audience.

A good story is told of one of our local banjo soloists, who has the reputation of being an accomplished musician. One evening not long ago he was called upon by the owner of a phonograph who made the request that he played one of his solos into a receiver.

The request was granted and the receiver made ready and set in operation. Our friend seated himself before the apparatus and was executing one of his finest selections, when he accidentally missed a note. This rather upset him and caused him to utter an adjective. He did not stop playing, however, but finished his solo and sent the cylender back.

Not long after the owner of the phonograph was giving a parlor exhibition before a select audience, and as he picked up the cylinder containing the banjo solo he informed those present that "Here was something unusually fine," and in an instant a deathly silence prevailed.

The cylinder was placed in position, the machine put in operation, and soon the audience were listening spell bound to a banjo solo that was truly fine. Suddenly the music stopped and from the bowels of the machine the exclamation, "——" was hurled at the audience, in the well known voice of our friend.

The music then commenced and the solo was finished without interruption, but the solemnity of the occasion was spoiled.

The Dog Appeared to Him.

A well known young lawyer of this city is the possessor of a dog which he prizes highly. He is a knowing animal and a great pet, and very much attached to all members of the family. Yesterday he followed the lawyer's wife to the depot against all entreaties and threats to return home, and was twice kicked off the train. But he waited for the next one, and friends helped him in Boston, so that he brought up in a hack at the office of the lawyer in the Telephone building. The young man is still puzzled to know how he got there.

"What!—a solid oak chamber set for $15 00. Yes, that's our price for a new beauty, others at any price, inspection solicited. Henry L. Kincaide & Co.

The B. R. & H. electric road used the plough which they hire from Brockton, for the first time on Thursday morning, and it worked well. The entire road being free from snow and water by 10 o'clock. On the way back when opposite the Monatiquot schoolhouse, a large skunk was calmly walking across the track when the cars came along and not relishing being disturbed, he let fly an oder that could be scented for a half a mile. Fortunately all hands escaped while his lordship trotted off.

There are several candidates for the position of superintendent of electric light station and system, caused by the resignation of Mr. T. A. Watson, who has served for several years without pay.

RADIGIAN'S "WRONGS"

May Have Been Brought About by His Own Unwarranted Doings.

WASHINGTON, Dec. 29.—The state department is under no apprehension as to results of threatened congressional inquiry into the case of Radigian, who has complained through the press of his treatment at the hands of United States Minister Terrell at Constantinople.

It is pointed out that the man's own statement put him in a most equivocal position. He says that he took out a Russian passport at Batoum in order to travel in Turkey. To do so, he must have taken oath that he was a Russian citizen, yet it was a necessary preliminary to his taking out a United States passport to swear that he was an American citizen. Under these circumstances it is held that Minister Terrell's hesitancy to issue a passport was thoroughly justified.

Aside from this consideration, however the Turkish government has refused persistently to admit the right of Turkish subjects to expatriate themselves to return to Turkey, and as our own supreme court in the case of the Chinese exclusion law has affirmed the absolute right of a nation to exclude any class of persons from its territory, the United States would seem to have little ground upon which to protest.

No Trouble With Austria.

WASHINGTON, Dec. 29.—Mr. von Hengle muller, the new Austrian minister, was seen concerning reports that Austria would follow the course of Germany, first in protesting against the American tariff on sugars, and then in retaliating against the products of this country. Mr. Hengle muller said Austria had not taken any steps on the American tariff. The relations with the United States had always been most cordial, and they would remain so by a satisfactory arrangement of the sugar duties.

Mrs. Young's Case.

SPRINGFIELD, Mass., Dec. 29.—C. H. Young of Brooklyn came to this city yesterday and took back his wife, who surrendered herself Thursday to the police here. Young corroborated the story of his wife that she had been intimate with a dry goods merchant of Brooklyn, and had extorted a large sum of money from him. This money, the woman claims, she threw overboard from a Sound steamboat, but the police think that she has it still in her possession.

Two Women Suffocated.

NORWICH, Conn., Dec. 29.—In the town of Sprague, Miss Mary Brennan, aged 70, while smoking in bed, set the clothes on fire. She called Mrs. Michael Brennan who was 60 years of age, and partially blind, to help put out the fire. On entering the room, Mrs. Brennan closed the door, then filled with dense smoke, and although the women succeeded in extinguishing the fire, they were both suffocated.

Howgate's Plea.

WASHINGTON, Dec. 29.—Henry W. Howgate was arraigned yesterday on three of the indictments against him. His counsel prayed that the indictments be quashed on the ground that United States grand juries considered statements made by persons not sworn as witnesses nor otherwise qualified to testify, and that no one of them had any personal knowledge of the matters considered.

Rhode Island's Gambling Evil.

PROVIDENCE, Dec. 29.—A war of public opinion against the present pool law has swept over the state, and there is little doubt but that it will be repealed as soon as the legislature meets. Senator Merril of Cranston stated yesterday that he would introduce the repeal bill and would request that it be passed without reference to committee.

A Foul-Mouthed Brawler.

PHILADELPHIA, Dec. 29. — Anarchist Mowbray was arrested in this city last night on the charge of inciting a riot. The arrest was made at the close of the meeting, at which Mowbray delivered an incendiary speech of the most violent character, exclaiming that the American flag should be torn down, as it was not fit for the lowest uses.

Some Will Get Back Their Money.

PITTSBURG, Dec. 29.—George M. Irwin the discretionary pool operator, has decided to return all the money placed in his hands by customers which was not actually invested by him in grain deals. This statement is made by Irwin's counsel who says that his client is morally, but not legally, bound to return the money.

It Means Less Pay.

CHICAGO, Dec. 29.—The 3500 employes in the packing house of Armour & Co. were informed yesterday that hereafter eight hours will constitute a day's work. The plant has been running 10 hours up to this time. The strong competition between the packers has greatly reduced the profits to be obtained from the business.

Marlboro Finances.

MARLBORO, Mass., Dec. 29.—The city council adopted recommendations for appropriations for '95, the largest items being: Contingent fund, $5000; fire department, $10,500; police, $9000; poor department, $12,000; school, $50,000; street lights, $8000; water, $8000; highways, all, $22,925; salaries, $8930; sinking funds, $60,766.

A Good Omen.

LOWELL, Mass., Dec. 29.—The Whittier Mill company of this city has decided to apply for an increase of its capital stock from $75,000 to $300,000 and to erect a branch factory in northern Georgia for the manufacture of coarse yarns. The product will be shipped to this city to be made into finer grades of yarn.

Hub's Investigation Closed.

BOSTON, Dec. 29.—The investigation of public institutions, conducted by the committee of the full board of aldermen, during the past nine months, closed yesterday. Fifty-eight sessions have been held since the hearing began, March 15. Three hours time was allowed for each side in the arguments.

Burned on the Rocks.

HALIFAX, Dec. 29. — Schooner Billy Brown, with a cargo of lumber, was lost during Thursday night's storm near La Have. She went on the rocks, caught fire and, with the cargo, was destroyed. The crew were saved.

Double Domestic Tragedy.

MILLINGTON, Mich., Dec. 29.—Matthew Palmer yesterday cut his wife's throat and then cut his own. Both are dead.

McCANN—In Wollaston, Dec. 27, Mr. Michael McCann, aged 54 years, 9 months and 11 days.

This is it.

This is the new shortening or cooking fat which is so fast taking the place of lard. It is an entirely new food product composed of clarified cotton seed oil and refined beef suet. You can see that

Cottolene

Is clean, delicate, wholesome, appetizing, and economical—as far superior to lard as the electric light is to the tallow dip. It asks only a fair trial, and a fair trial will convince you of its value.

BODY BUILDING.

An Opportunity which Young Men Should Not Miss on Sunday.

Everyone is interested in good health and but a small majority of mankind can claim to be in possession of this priceless boon continuedly. The greater number are seeking usually by the use of medicine, to remove some ailment. To look at the advertisements in the papers, one would think the whole world was suffering from various maladies.

"An ounce of preventive is worth a pound of cure." The best way to have good health is not to get sick. This cannot be accomplished by taking medicine, but by taking care of the body. It is chiefly a question of hygiene. It is only necessary to observe the laws of nature. Again, health once lost can be regained very largely by the observance of these same laws. The trouble is, most people live in ignorance of many of the simplest laws which, if known, could easily be followed.

Mr. Robert J. Roberts, whose portrait we print herewith, has probably done more to teach the young men of America to know how to take care of their bodies than any other man living. For twenty-five years he has taught hygienic body building, principally in connection with the Boston Y. M. C. A. gymnasium. He is the originator of the Roberts' System of Exercises, used everywhere. He has helped thousands of men by his little hand book "One Hundred Health Hints." Mr. Roberts is a perfect example of what light exercise will do for a man. His motto is "safe, easy, beneficial and pleasing."

The young men of Quincy will have an opportunity to see and hear Mr. Roberts tomorrow at 3.30 P. M., in the Y. M. C. A. gymnasium, at the junction of Washington and Hancock streets. His talk will be a practical common sense talk on body building and care of the health, full of helpful illustrations similar to those given in his little book. Every young man and every old man will be welcome, and every one will learn something of real value to him.

Woman Stopped the Horse.

An exciting runaway took place Friday evening. Cornelius Ford was driving a horse attached to a sleigh, on Elm street, when the horse became frightened and ran away. The sleigh was overturned and Ford thrown out and the horse ran into Washington street, going towards the Centre.

Miss M. Lizzie Furnald saw the horse coming up the street, and as he was passing her she sprang forward and grasped the bridle. She was dragged some distance but pluckily held on and succeeded in bringing the horse to a stop. Ford, who was thrown out, was uninjured.

THE NEW CHAPEL.

A Convenient and Beautiful Home for Congregational Sunday School.

No church can boast of a more roomy or conveniently arranged chapel than the Congregational church, to be dedicated on Sunday evening.

A description of the additions made have already been published in these columns, yet they must be seen in order to be appreciated.

Entering from the Chestnut street side to the basement, a short flight of steps leads into a vestibule, which in turn leads into the large dining room which has a cemented floor.

From this vestibule entrance is also had to the cloak room, pantry, kitchen and toilet rooms, and to a small class room.

Stairs also lead to the floor above to a small vestibule and from thence to parlors, class rooms and library and the chapel proper which is connected with a large class room by flexible doors, so that when necessary the two rooms can be thrown into one.

It is in the main chapel that the handsome memorial window of stained glass has been placed bearing the following inscription:

o o o o o o o o o o o o
o DEA. o
o GEORGE R. SMALLEY, o
o MEMBER OF THIS CHURCH o
o FROM 1838 to 1893. o
o o o o o o o o o o o o

Entrance is also had to the chapel from the former side entrance on Chestnut street, and there is also an exit on the west side.

From the vestibule on this floor, the side entrance stairways lead to the upper story, where there are also two small class rooms.

There are numerous closets, etc., and everything is arranged with a view to comfort and convenience.

The church will be heated by steam, and besides being piped for gas, is wired for electric lights, 125 of which will be put in.

WEYMOUTH.

The Union National bank at its annual meeting Friday voted to reduce the capital stock from $400,000 to $200,000, and the number of shares from 4,000 to 2,000. It was also voted to pay $110 per share for the stock called in.

The Weymouth Savings bank has declared a semi-annual dividend of 2 1-2 per cent.

Safety lodge, N. E. O. P., elected these officers last evening:

Warden—A. B. Swett.
Vice Warden,—W. B. Gutterson.
Secretary,—Jacob Dexheimer.
Financial Secretary,—Lorenzo White.
Treasurer,—F. M. Drown.
Chaplain,—C. P. Hunt.
Guide,—C. H. Loring.
Guardian,—R. L. Loring.
Sentinel,—H. F. Perry.
Trustee,—A. Mason Batchelder.

Luther Beal of North Weymouth, a member of the Knights of Pythias and Good Fellows, died yesterday, aged 47 years. He leaves a widow and seven children.

Anyone who has children will rejoice with K. B. Mulford, of Plainfield, N. J. His little boy five years of age, was sick with croup. For two days and nights he tried various remedies recommended by friends and neighbors. He says "I thought sure I would lose him. I had seen Chamberlain's Cough Remedy advertised and thought I would try it as a last hope and am happy to say that after two doses he slept until morning. I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show signs of croup I give it to them and that is the last of it." 25 and 50 cent bottles. For Sale by Druggists and Dealers Everywhere.

FOR LITTLE FOLKS.

GOLDEN RULE ARITHMETIC.

How Kenneth and Phil Both Saw the Trained Canary Birds.

"Phil," whispered little Kenneth Brooks, "I've got a secret to tell you after school."

"Nice?" asked Phil.

"Yes," was the answer. "Nice for me."

"Oh!" said Phil, and his eyebrows fell. He followed Kenneth around behind the schoolhouse after school to hear the secret.

"My Uncle George," said Kenneth, "has given me a ticket to go and see the man that makes canary birds fire off pistols and all that. Ever seen him?"

"No," said Phil hopelessly.

"Well, its first rate, and my ticket will take me in twice," said Kenneth, cutting a little caper of delight.

"Same things both times?" asked Phil.

"No, sir-ee; new tricks every time. I say, Phil," Kenneth continued, struck with the other's mournful look, "won't your Uncle George give you one?"

"I ain't got any Uncle Geroge," said Phil.

"That's a fact. How about your mother, Phil?"

"Can't afford it," answered Phil, with his eyes on the ground.

Kenneth took his ticket out of his pocket and looked at it. It certainly promised to admit the bearer into Mozart hall two afternoons. Then he looked at Phil, and a secret wish stole into his heart that he hadn't said anything about his ticket; but, after a few moments' struggle, "Phil," he cried, "I wonder if the man wouldn't change this and give me two tickets that would take you and me in one time?"

Phil's eyes grew bright, and a happy smile crept over his broad little face. "Do you think he would?" he asked eagerly.

"Let's try," said Kenneth, and the two little boys started off for the office window at the hall.

"But, Kenneth," said Phil, stopping short, "it ain't fair for me to take your ticket."

"It is, though," answered his friend stoutly, "'cause I'll get more fun from going once with you than twice with myself." This settled the matter, and Phil gave in.

"So you want two tickets for one time?" said the agent.

"Yes, sir," said Kenneth, taking off his sailor hat, "one for Phil, you know."

"You do arithmetic like the golden rule down here, don't you?" asked the ticket man.

"No, sir; we use Ray's Practical," answered the boys, and they didn't know for a long time what that man meant by the golden rule.—Southern Churchman.

RHEUMATISM

has been cured in a multitude of cases during the past fifty years by Pain-Killer.

This potent remedy rubbed vigorously in and around the suffering parts, three times a day, will relieve all stiffness, reduce the swelling, prevent inflammation and kill all pain. The most stubborn cases yield to this treatment when persevered in. Use it freely. The quantity has been doubled but the price remains the same.

STATISTICS ON LABOR

Show the Cause of Decreased Purchases In Business Centers.

CONSUMING DEMAND FOR COTTON

Has Fallen Below the Production and Expectations.

NEW YORK, Dec. 29.—R. G. Dun & Co.'s weekly review of trade says: Commercial failures in 1894 already reported to R. G. Dun & Co. number 14,292, against 15,242 last year, with liabilities of $163,238,404, against $346,779,889 last year.

Next week the final report of 1894 will probably include about 400 more failures, with liabilities of about $4,000,000. From these accounts, banks, bankers, financial and transportation companies are excluded.

Wages actually paid in November are compared today with working hours in establishments throughout the country, and in about 50 branches of industry the average being 236.4 hours per hand this year, 218.4 last year and 243.2 in 1892.

The wages paid per hour were 1.2 per cent less than last year, and 8.59 per cent less than in 1892. The hands employed in establishments reporting were 8.53 per cent more than last year, but 12.02 per cent less than in 1892. The total wages paid in these establishments in November were 16.33 per cent more than in November, 1893, but 21.77 per cent less than in November, 1892.

Thus the decrease in purchasing power of the working force is found to be due mainly to decrease in number of hands and hours of work, rather than to reduction of wages paid per hour.

Holiday trade has scarcely met expectations. Purchases have been numerous, but smaller than usual in amount and more confined to needful articles.

Wheat and Corn.

Wheat has declined ½ cent, though western receipts have been only 1,712,908 bushels, against 3,109,832 for the same week last year, but since Aug. 1 receipts have been a little larger than last year, and the visible supply is the largest ever known. Exports in December from both coasts have been a little larger than last year, but for the crop year about 20,000,000 bushels smaller.

The western estimate, usually regarded with most confidence, is that the crop will reach 515,000,000 bushels, which will leave for export, with stocks brought over, more than 200,000,000 bushels, of which only 75,000,000 bushels have gone abroad. Corn has declined ¾ cent, with good receipts.

Cotton and Wool.

The price of cotton has not changed, but the fact that receipts from plantations this month have been greater than in 1891, while stocks in sight here and abroad are larger than at the same date that year, is an obstacle to any rise. Revision of prices for cotton goods has been the controlling feature since the great auction, and wide sheetings have been marked down about 10 per cent, while changes all along the line are expected. It is no longer disputed that the consuming demand has fallen below expectations and below the production which was kept up in the hope of increased consumption.

Very little has been done in woolen goods, all waiting for developments after Jan. 1, when new duties take effect. Low grade overcoats already opened show little change, and in dress goods one or two cases of slight advance are noted. Sales of wool this month have been 17,896,800 pounds, against 13,049,197 last year, and 21,302,300 in 1892, and Ohio XX has sold at 17 cents.

The market for iron and steel is waiting, but the reduction in wages at the Edgar Thompson works, averaging 15 per cent, plainly indicates the same difficulty which is seen in other quarters, that the demand in consumption does not answer increase in production of pig iron.

Failures for the week have been 350 in the United States, against 511 last year, and 41 in Canada, against 41 last year.

Over the Border.

Bradstreet's today says: Toronto jobbers say trade is very quiet and travelers from that city are not hurrying their departure, although at Montreal preparations are making in several lines to send out travelers.

At Quebec city shoe manufacturers report trade brisk. At Halifax the volume of business is moderate, and wholesale trade is dull. Collections throughout Nova Scotia are slow.

In Newfoundland the business situation remains unchanged, or as previously described, somewhat chaotic. Bank clearings at Winnipeg, Hamilton, Toronto, Montreal and Halifax aggregate $15,412,000 this week, against $21,171,000 last week, and $16,351,000 in the week last year. Canadian business failures during 1894, as reported to Bradstreet's, aggregate 1851, against 1766 last year; total liabilities amounting to $17,724,000 this year, and $14,762,000 last year, with customary ratios of assets.

There is a moderate increase in the number of failures in the province of Ontario, but a falling off in total liabilities; a greater relative increase in the number of failures in the province of Quebec, with a sharp gain in volume of liabilities. New Brunswick reports a moderate increase in the number of failures, with nearly double the amount of liabilities in 1893, and Nova Scotia a moderate decrease and a heavy decline in volume of liabilities, the like being true with reference to Prince Edward Island.

In Manitoba there is one less failure than the year before, though with a slightly increased volume of liabilities. Failures in the northwest territory dropped more than one-half this year, and liabilities still further. There is also a smaller number of failures reported from British Columbia, but liabilities have increased.

There are 22 failures reported from Newfoundland, against 15 the year before, with liabilities of $6,250,000 this year, against $927,000 last year. The situation in Newfoundland appears to be one of suspended animation rather than general commercial or financial failure, which will account for the comparatively few commercial deaths reported in spite of the business crisis.

and from all such disfigurements and blemishes, follows the use of the Carlsbad Sprudel Salt. It clears and freshens the skin wonderfully—takes away that dull and mottled look that comes from stomach derangements. Even in chronic and stubborn cases of skin disorders, like eczema, it is the prescribed remedy.

The blood, the liver, the stomach, the kidneys—all are acted upon powerfully, but naturally, by the Carlsbad Sprudel Salt. You get the same benefit, the same cure, the same feeling of lightness and clearness all through your system, as if you were at Carlsbad itself.

Beware of the many imitations sold as "improved" or "artificial" Carlsbad Salt. These are only mixtures of Seidlitz Powder and common Glauber Salt, sold by unscrupulous dealers for the larger profit they yield.

Insist upon the genuine imported, *natural* Carlsbad Sprudel Salt, which is evaporated from the Sprudel Spring at Carlsbad, and bears the seal of the city and the signature of "EISNER & MENDELSON Co., Sole Agents, New York," on every bottle.

PHILADELPHIA'S TURN.

Residents of the Quaker City Denounce the Atrocities by Turks.

PHILADELPHIA, Dec. 29.—A largely attended mass meeting was held in Association hall last night to protest against the Turkish atrocities practiced upon the Armenian Christians recently. The following resolutions were unanimously adopted:

Resolved, That by willfully and systematically abandoning her Christian subjects to the unbridled lust and unparalleled atrocities, the Turkish government demonstrates her own incapacity to govern without foreign interference.

Resolved, That we condemn the wholesale, cruel and barbarous massacre in the Sassoun district, and implore all civilized men for the sake of common humanity to encourage and aid us.

Resolved, That we earnestly appeal to the signatory powers of the Berlin treaty for sympathy and protection, and respectfully protest that the justice in reform vouchsafed by the various existing treaties affecting Armenia have never been secured to her, and we beg for them and for autonomy.

Resolved, That we earnestly appeal to our government to use its good offices and take measures consistent with our foreign policy in order that the signatory powers of the Berlin treaty may be induced to enforce, without further delay, the provision of the 61st article of said treaty.

Resolved, That a copy of these resolutions be sent to the President of the United States with a request that the same be communicated through the department of state to the representatives of the signatory powers.

Dastardly Work of a Robber.

SANTA ROSA, Cal., Dec. 29.—The county treasury was robbed yesterday, and County Treasurer Stofer was left insensible in the vault to suffer death by the robber, who locked the door to the vault on him. The robbery occurred about 5 o'clock in the morning, but was not discovered until about 5 o'clock in the afternoon. All this time Mr. Stofer lay on the floor of the vault, gasping for breath, fearing every conscious interval would be his last. Had it not been for the timely arrival of his wife, the only person in town who knew the combination, he would have been dead.

Icebound In China.

WASHINGTON, Dec. 29.—The little gun boat Petrel is icebound at New-Chwang, China, and has been laid up for the winter Admiral Carpenter has sent a photograph of the vessel in the process of being encased in earth walls and roof. Near by is the British warship Firebrand, likewise encased in mud with a roof of heavy matting. The Petrel will be turned into a fortress.

All's Well That Ends Well.

MIDDLETOWN, Conn., Dec. 29.—William Greenfield deserted his wife in this city five years ago and went to sea. After three years the wife obtained a divorce. Ten days ago Greenfield returned and found his aunt had left him $1000. With his divorced wife he went to New York, they were remarried and returned to live in this city.

P. and O. Stock For Sale.

PORTLAND, Me., Dec. 29.—The city of Portland, which owns a controlling interest in the Portland and Ogdensburg railroad, has decided to sell 2500 shares of stock at the market value, which is a present quoted at 46½.

BIG HOTEL IN RUINS.

The Famous Delavan House at Albany Destroyed by Fire.

LIVES MAY HAVE BEEN LOST.

Flames Quickly Became Beyond Control of Firemen.

ALBANY, Dec. 31.—The candidacy of the several men for speaker of the assembly received a startling baptism of fire here last night, for the Delavan House, the mecca of politicians and the center of all big state political events for 40 years, was completely destroyed. It was 8:30, and the political headquarters of both Fish and Malby were filled with politicians and newspaper men, when there were cries of fire from different parts of the house simultaneously.

The outburst of flames before an alarm could be given to arouse the inmates of the rooms was something appalling. Up the elevator shaft there shot a solid column of flames and up the staircase shot another column. As the mass of flames reached each of the five floors it branched out into tongues of leaping destruction, and it seemed as though the whole interior of the structure was a seathing mass.

Fortunately, the guest list was not very large. The majority of those registered were politicians, and were down on the second floor. There was a rush for the stairs in the front and the servants' stairs in the back, where the flames had not yet reached, and in a few minutes there was a tumbling mass of humanity coming down these few means of egress. Those on the two upper floors could not avail themselves of these exits, for the flames were rushing along the corridors, and people on the street, who had not yet seen the flames, heard a crash of glass and saw figures come tumbling out of the windows.

Lack of Means of Escape.

Within 10 minutes after the first note of alarm at least 12 persons were dangling on the insufficient rope fire escapes or hanging on to the window sills.

The department arrived quickly, but it took some time to get ladders up, and in the meantime some of the people had dropped to the street. On the right side of the building there appeared at a window, surrounded by smoke, a man and a woman. The man had hold of the woman trying to persuade her to wait for help, but she broke away and sprang out. She struck a balcony and rebounded to the street. The man waited for a ladder and was taken down in safety. The woman was his wife and she will probably die.

In ex-Speaker Malby's room, which was to the rear of the elevator shaft, where the fire first appeared, there were about 20 politicians. A rush was made for the stairs, and when the party landed in the street the only injured one was found to be Assemblyman Robbins, whose hair and face were badly burned.

In Mr. Fish's headquarters there was less hurry, because they were north of the stairs. All got down safely, but the majority left their baggage.

Although five stories high, there were no outside fire escapes on the building, and the only means left for the people in the cut-off rooms was to use the rope fire escapes. Ben Hellman of Brooklyn was in the third story. He opened his room door as soon as he heard the cry of fire. A burst of flames made him look to the window as the means of escape. In an instant he had but two alternatives, a fire death or a jump. He chose the latter and plunged through the window. When he was picked up from the sidewalk he was found to be badly injured. He will die.

His wife, who was in the room with him, tried the fire escape, but it either broke or else she failed to hold to it, for she, too, came to the pavement heavily. Her right leg was broken, her left ankle dislocated, and she was badly burned about the face and head.

Rapid Work of the Flames.

In less than 15 minutes after the fire started the entire structure was wrapped in flames. From the windows of each of its five stories smoke poured in volumes, and a few moments later the flames belched forth. In less than 30 minutes the building resembled a seething crater.

The fire department could do absolutely nothing to stop the onslaught of the flames, and the only work was to save surrounding property.

Of the 100 or more guests at the hotel not one is known to have saved more than the clothes on their persons. The fire burned fiercely for five hours, and is still burning.

At 10:30 the east walls fell in, and one of the firemen narrowly escaped wall fell buried. At 11:30 the Broadway in the de- out and one fireman was b was not dan- bris. He was taken out gerously hurt.

There are rumors that there are bodies in the ruins, and quite a number of people did not escape. The clerk says that he is positive that all the guests escaped, but does not feel so sure about the help, of which there was a great number. There is no way of finding out positively whether these rumors are true or not, and it will take a day or so to determine.

On the ground floor of the Broadway side of the Delavan block two firms had stores. One was that of Heiser, Muhlfelder & Co., dealers in knit goods, and the other that of Pohly & Co., dealers in clothes. Both had their stocks totally ruined. The loss to each will be about $25,000.

The Delavan house is one of the most famous hotels in the country. It is a part of the estate of Edward C. Delavan. Hurty & Moore, the proprietors, paid $40,000 a year rental, and lately had made vast improvements in expectation of a big winter season. The total loss is estimated at $500,000, with an insurance of $300,000.

BYRNES RESIGNS.

He Has Not a Very Flattering Opinion of Gotham's Police Department.

NEW YORK, Dec. 31.—At 8:50 Saturday night the Lexow committee adjourned, subject to the call of the chair, thus closing a session of investigation which was brimful of startling revelations.

Just as he was through answering Mr. Goff's probing questions, Superintendent Byrnes handed a letter to Chairman Lexow and said that it was a copy of one that he had sent to Mayor-elect Strong early this month. It was his resignation from the force, of which he has been a member for the last 32 years. The superintendent said that on two occasions since he was appointed in Superintendent Murray's place he was on the point of resigning, owing to the continued conflict between the commissioners and himself.

The superintendent, he said, should have absolute charge of the discipline of the department, but that all his efforts in that direction were frustrated by the commissioners. The department was honeycombed with rings, which had been growing for 30 years, and they could only be remedied by radical legislation. Local politicians, he claimed, were the curse of the department, and as long as politics was a factor in the force, such a state of things would exist.

Although he had done his utmost to procure substantial information as to corruption and bribery, he was unable to get it, and the whole department was impregnated with the belief that promotion had to be bought and merit was of no avail.

He claimed to have done a good deal toward helping to bring about the exposures. He paid a tribute to Dr. Parkhurst, who he said, manufactured public sentiment, without which it would have been impossible for the committee to have acquired the information it did.

His wealth, which he estimated at $350,000, was made by speculation, he said, in Wall street, through the instrumentality of Jay Gould and his son, George Gould. His purchases of real estate were also very profitable, and he claimed not to have a bank account.

The earlier part of the day was given to the examination of Inspector McLaughlin.

Strike Unlikely.

HAVERHILL, Mass., Dec. 31.—The stitchers at W. W. Spalding's factory, together with a large number of strikers, held a mass meeting yesterday afternoon in Independence hall. Local labor leaders were the orators. It was announced that J. H. Witchell has agreed to raise his prices 50 cents a case, and that four other firms had conceded the demands made by the union workmen. This leaves the firm of W. W. Spalding and another manufacturer still to be heard from. There is no likelihood of a general strike from present appearances.

Gold For Golden.

NEW HAVEN, Dec. 31.—James Golden of Hartford, an inmate of the jail where he is serving time for theft committed last October, has fallen heir to a large fortune, and efforts will be made to secure his release, and he will be taken to Hartford where proceedings to have a conservator placed over him will be made. He served with distinction in the late war, and wears a medal of honor for bravery on the field.

Not Yet Settled.

ST. JOHN'S, N. F., Dec. 31.—The president's casting vote only carried the government's bank note bill through the upper house. The debate continued until 2 o'clock yesterday morning. Lawyers differ as to the legality of the measure, owing to its having taken place on the Sabbath. Amendments were adopted, which will necessitate the bill again being sent to the lower house, where another campaign against it may be inaugurated.

Stranded In Fall River.

FALL RIVER, Mass., Dec. 31.—Through the disappearance of Manager Dunbar of the Bijou musee the members of the company which has been playing there for the past week were left in a sad plight. A purse was made up and given to the girls to enable them to get to their homes. Dunbar has run the Bijou for several years and has been well regarded, but the past season has been disastrous for him.

WILL LOSE NO TIME.

Congress Expects to Start in to Work With a Rush.

THE NICARAGUA CANAL BILL

Heads the List of Unfinished Business In the Senate.

WASHINGTON, Dec. 31.—Both houses of congress will resume their sessions on Thursday next, and it is expected that there will be a rather more determined effort to press forward the work of the session for the next two months than has characterized the proceedings during the month which has already elapsed.

The necessary work of the session is the passage of the appropriation bills, of which there are 14. Of these, none have passed the senate, and only five have the sanction of the house. Of these five, the senate committee on appropriations has passed favorably upon the pensions and military academy bills, while the army, fortifications and urgent deficiency bills are still under consideration by the committee.

It is in order for the senate to take up any reported appropriation bill at any time, and whether the Nicaragua canal bill, which stands in the senate calendar as unfinished business, shall continue to hold its place of vantage will depend for the present upon whether the appropriations committee shall desire to supplant it with the pensions or fortifications bill, or with any other appropriations bill after the other bills shall be reported from the committee.

Canal Bill Has the Right of Way.

There is, however, no urgency concerning either of the appropriations bills so far reported, and the probabilities are that the Nicaragua bill will not be displaced for the present.

The Nicaragua canal discussion will, barring this probability of displacement and adjournment over until the following Monday, be resumed after the morning hour on Thursday, with Senator Morgan occupying the floor.

Mr. Morgan has been devoting the holidays to the preparation of a reply to Senator Turpie's attack on the canal bill, and his friends expect him to make a vigorous and exhaustive defense of the measure. He will probably speak an entire day, and possibly two or three days.

There may be an effort to have the senate adjourn from Thursday over until Monday in case there should not appear to be a quorum when the senate reconvenes, but those best acquainted with the senate methods predict that it will sit at least two days of the present week.

Did $100,000 Damage.

BIDDEFORD, Me., Dec. 31.—The city building, one of the finest structures in the city, was totally destroyed by fire yesterday morning, the total loss being over $100,000. The fire was caused by a lighted cigar stub thrown in a water closet. Prisoners in the police station were nearly suffocated, one being unconscious when rescued. Many business firms, the post-office, police station, municipal court, opera house and many city offices in the structure, as well as valuable city records, which can never be replaced, were destroyed.

Sensational Shooting Affray.

AVARONIA, Kan., Dec. 31. — William Black, a coal miner, was instantly killed by Dr. Mullen, a physician at Lasanon. Mullen had been called to the town on a professional visit. He stopped in a saloon, where Black started a quarrel. Black made a rush at the doctor with a drawn knife. Mullen retreated, but Black followed, and Mullen then pumped five bullets into Black's body, Black dying almost instantly. No attempt has been made to arrest Mullen.

Careless Gate Tending.

CHICAGO, Dec. 31.—A passenger coach, being rapidly switched into the Rock Island depot, crashed into a carriage at the Pacific avenue and Harrison street crossing. Five persons were badly injured, the carriage demolished and one of the horses killed. The accident was caused by the carriage being shut in on the tracks by the gates dropping without warning.

A Non-Committal Reply.

NEW YORK, Dec. 31.—Colonel Strong, the mayor-elect, was seen last night in reference to a report that the resignation of Superintendent Byrnes had been made peremptory. "The subject is naturally a very delicate one," said Mr. Strong, "at this stage of the proceedings, and I do not know as I care to say anything about it just now."

Editorial Comment.

AS THE LEDGER has previously stated, nothing but granite from Quincy, the birth place of Hancock, will be appropriate for the Hancock monument to be erected in Boston. Our modern hammered and polished stone might be out of place in the old burying ground, but how would it be with a rock face or a seam face. The committee of the Governor's Council has sent out an announcement that says:

"The site of the grave of John Hancock is in the western part of the Granary burial ground and near the rear of Doll & Richard's shop. It is important that this location and distance from the sidewalk, etc., should be considered in the designs submitted.

"It will further be observed that the council has no authority to expend a larger sum that the amount appropriated in the resolve, $3,000. This sum must, therefore, include the entire cost of the completed monument, the foundation, the stone or bronze work, the designer's commission, and, in fact, all charges of whatsover nature necessary to the completion of the work.

"Designs are invited from a limited number of architects, artists and sculptors. It is expected that the council will be aided in its decision by the advice of some one preeminently fitted to judge of the relative merit of the designs, and it is hoped that Mr. C. F. McKim of New York may consent to render this public and unpaid service.

"Rendered drawings in India ink are to be submitted anonymously (but with a sealed envelope, containing means of identification) to Edward F. Hamlin, executive clerk, state house, on or before Feb. 1, 1895, drawn to a scale of two inches, and presenting plan, elevation and perspective; and must be accompanied by an estimate made by John Evans & Co., or some other contractor known to have equal skill to turn out artistic work.

"To this estimate must be added, as indicated above, any and all other charges which the council may in any event be called upon to pay. The drawings must also indicate the kind of material to be used, and the nature of the inscription."

REPUBLICANS WHO constitute three-fourths of the Massachusetts House of Representatives have certainly been magnanimous to tolerate a Democratic clerk with two of his three assistants Democrats. There was a movement to secure a change of the head, but now it is agreed that he be reelected provided he appoints Republican assistants. Civil service which don't apply to assistants who do the work, as well as the head who has the plum, amounts to little. Democrats could not reasonably raise much of a hue and cry if the clerkship was changed. It would be better to make the change than bind the clerk to appoint only Republicans.

THE DEDICATION.

The Congregational Society and Sunday School Happy

AT COMPLETION OF CHAPEL.

Prominent Members Take Part in the Exercises Last Evening.

The new $8,000 addition to the Congregational church was dedicated to the purposes for which it was erected on Sunday evening.

Long before the appointed hour people began to gather, and at 7 o'clock every seat was taken and chairs were brought from other parts of the church, and even then many were obliged to stand.

The only decoration was a cluster of flowers at the left of the pulpit.

The exercises opened with an anthem by the choir followed by the reading of the Scripture by Rev. Edward Norton, and the singing of hymn 341 by the audience. Then came the dedicatory prayer by the pastor with a response by the choir.

Rev. Mr. Norton then gave a brief address on "Our Chapel a Memorial." It was brief but interesting. He referred to Deacon Smalley who, he said, loved this church, and so far as his earthly all could do it, he built this chapel. His heart beat in the welfare of this church. He loved his church and it is his memorial tonight, and we should not soon forget that it is so.

Mr. Norton also referred to the ladies of the church whose labors with those of Deacon Smalley built the chapel. He would like to give them all a memorial, but there were not windows enough.

C. W. Carter of Auburndale, formerly superintendent of the Sunday School of the church, was the next speaker, and he took for his subject, "Memories of earlier days." Mr. Carter said his memory carried him back to 1865 when the church was located on the corner of Hancock and Canal streets. He spoke of the narrow quarters there, the high singing gallery, the pulpit, the pews and the vestry. The only thing that remained today that connected the old church with this edifice was the old pulpit sofa. Mr. Carter also referred to those who had since passed away. When the present church was built, it seemed as though it was too large, but the church grew and the chapel became crowded. Now we have a new chapel.

"Our Plant" was the topic to which Mr. Theophilus King responded. Mr. King said for the past quarter of a century his life had been associated with plants. A plant is a big tool to do effective work with. Here we have a plant, an enlarged plant; we have lived up to its usefulness and have had to enlarge it. One of the things we have had in this plant is our good brother Norton, who has reduced the friction which is very necessary in good running machinery. There we want to keep it, because we love it. The only plant for a man to stand up to is one of this kind. Here every one of us has a part, every one of us has an ownership.

The last speaker of the evening was Mr. William H. Fay, who took for his subject "Our New Opportunities." He spoke of the several rooms in the new addition and to what use they could be put. Life was made up of opportunities. This word is used very unfrequently in the Bible, but if we study the life of our teacher there will come to us an overwhelming lot of opportunities. Our new opportunities is only the use of what we had before. Mr. Fay also spoke briefly of the deeper meaning of our new opportunities.

Between the several addresses hymns were sung by the audience.

Before pronouncing the benediction Rev. Mr. Norton extended an invitation to all those present who were not affiliated with any church to attend services there.

History in Brief.

The history of the present society dates back to 1832, when upon April 5, those who believed in Congregationalism formed themselves into a religious society and called Rev. T. Field to preach to them. He was followed by Rev. Stephen S. Smith. It was, however, upon August 4, 1834, that the society called its first pastor, Rev. William M. Cornell, who was installed the 20th of that month.

After a pastorate of five years Rev. Mr. Cornell closed his connection with the parish July 8, 1839, and from that time until 1841 it was without a clergyman. In that year Rev. William Allen was installed and served about eight years, terminating his pastorate in 1849. The other pastors of the church have been: Rev. Nelson Clark, Rev. Edward P. Thwing, Rev. James E. Hall, and Rev. Edward Norton. The present pastor was installed June 16, 1874.

The first meeting house was erected on the corner of Hancock and Canal streets, and the present house of worship on the corner of Hancock and Chestnut street was erected in 1870, the cost of the building and land being about $36,000.

Since the ministration of Rev. Mr. Norton, the church and society has continued to grow and prosper and the need of more room to carry on the church work has long been felt, but the society did not feel warranted in undertaking the extra burden until this year when legacies of two deceased members made it possible. Plans were procured, and work commenced the middle of August by Contractor Higgins, who has pushed the work along, until today the addition is practically completed.

WHO IS HAPPIEST!

The Literary Society Try to Decide Whether It Is the Sage or the Fool.

The Quincy Literary society held its regular weekly meeting in Doble's building Dec. 28, Mr. A. A. Grassick presiding.

The order of business was a debate upon the question. "Has the sage or fool the greater happiness in life." The affirmative was opened by Mr. William Traynor, and the negative by Mr. Alex. D. Smith.

The subject itself, presented no greater contrast than the manner of treatment adopted by the openers. The former was exhaustive, and minute, the latter condensed and pointed. The one drew upon the whole domain of history for his arguments, the other confined himself to modern conditions. The champion of the sage swept the wide realm of nature for his material, the foolish apologist contented himself with evidence lying around his immediate vicinity. An epitome of the contending sides follows:

A fool is a person devoid of sense, said Mr. Traynor, and by no means to be confounded with the court fools of history or the brilliant creations of Shakespeare. A sage on the other hand is one who is more inteiligent, more discreet, prudent and discerning than the average. The sage is the highest type of humanity nature produces, the fool is the lowest, consequently the solution of our question is merely a comparison between reasoning intelligence, and inherited instincts.

Pleasures are as varied as humanity itself, but their direct action on the mind is the all important consideration. To the sage the pleasures of the mind become the acme of human happiness. The wonders of art and nature, the beautiful thoughts expressed in verse, the influences that are received from contact with whatever is true and good are distinctively mental pleasures. Place the fool under the same influences and what is the result? There is no result. He sees only what his mind reflects and that is nothing.

The truths of philosophy, the researches of science, the fruits of knowledge, are all sealed books to the fool. Manhood brings to the sage a realization of all that is perfect in life, a more active intelligence, a more conscious state of usefulness. To the other it brings only coarse manual labor, or useless dependence. Even if it be claimed that the fool suffers less pain than the sage, because his mental capacity is more dense, yet it stands to reason that anything devoid of pain is also incapable of pleasure, and when the pleasure and pain of the world are weighed in the balance, the weight is on the side of happiness.

The Art of Living.

Said Mr. Smith in opening, is to get the most enjoyment with the least possible exertion. A man need not be able to dissect Latin roots and verbs in order to enjoy life. Solomon says, "He that thinketh himself wise is a fool." Daniel Webster was one of the best informed statesman that this country has produced, yet disappointment and mortification of an ungrateful public hastened his death. A fool is never worried about business. He does not care whether stocks go high or low. He never lets tomorrow trouble him today. The more highly civilized nations work the hardest, and do not get more enjoyment than do the Aborigines of some Pacific Island.

The general discussion on the subject was of an indefinite quality. The difficulty of deciding absolute rules for happiness was strongly realized. What is one man's nourishment, is another's poison. The governing principles of life, vary as widely as men themselves, and it was felt that individual taste and inclination were the only guides to the problem.

After the debate had been closed by the two openers, a discussion took place as to the advisability of continuing the meetings into another session, and it was finally decided to give them up for the present. A combination of circumstances seemed to make such a course necessary. It was with feelings of considerable regret that the decision was taken. Everyone felt that the meetings had been personally beneficial, and usefully enjoyable. Associations had been formed of infinite value, mental capacities had been broadened, and juster estimates formed of the varied questions of the day.

In closing my last report let me say, the thanks of the society are specially due to the publishers of the DAILY LEDGER who have contributed in no small degree to its uniform success, and who have invariably shown a courtesy and respect towards the correspondents of the society that they have fully appreciated.

Mr. Ira P. Wetmore a prominent real estate agent of San Angelo, Texas, has used Chamberlain's Colic, Cholera and Diarrhœa Remedy in his family for several years as occasion requires, and always with perfect success. He says: "I find it a perfect cure for our baby when troubled with colic or dysentery. I now feel that my outfit is not complete without a bottle of this Remedy at home or on a trip away from home.

TODAY'S JOTTINGS.

Newsy Brief Locals in the City of Granite and of Schools.

Good bye, 1894.

A Happy New Year.

High School reunion tonight.

Now is the time to make your good resolutions for 1895.

Inauguration of the new city government next Monday, Jan. 7, at noon.

Mr. C. W. Carter of Auburndale, formerly of Quincy, spent Sunday with friends in this city.

Mr. Ralph G. Crane has so far recovered from the diphtheria as to be able to attend to bussness.

Alphonso M. Lunt of Cambridge will install the officers of Paul Revere post 88, G. A. R.

Mass was celebrated at St. John's church this morning in memory of George Cahill who died a year ago.

A party of Wollaston ladies and gentlemen will use the Duck's Nest alleys on Thursday evening.

John S. Gay, who has been sick for the past three weeks, made his first appearance on the streets today.

Mrs. Ebenezer Adams, mother of Mr. Warren W. Adams, died quite suddenly this morning of heart disease. She resided at Quincy Point and was one of the most aged ladies in that village.

The ladies connected with the Y. M. C. A. Auxilary will keep open house tomorrow from 4 to 9 P. M. in the Association rooms where they will receive all callers both gentlemen and ladies. The young men of the city are particularly invited. The Malden H. S. Harmonica club will play during the evening.

For Wollaston gunners braved Saturday's biting cold and held a shoot on the Trap Club's grounds. Considering the the severity of the weather the score is remarkably good. The shooters had to trap for each other. Tucker is doing good work with his new choke bore gun. He scored 15 at Saturday's shoot. The score:—Federhen, 16; Tucker, 15; Prescott, 14 and 13.

ANTI TOXINE TRIED.

The Life of a Quincy Boy Probably Saved by Its Use.

Anti-toxine, the new remedy for diphtheria, was successfully used in Quincy Saturday on the son of Timothy F. Ford, a member of the Board of Health. This is the first application of the new remedy in Quincy. The attending physician furnishes the following statement:

The case was a severe one with an extensive deposit on both tonsils and over the soft palate. The nostrils were also involved. The glands at the angles of the jaws were very much swollen, and there was a considerable quantity of albumen in the urine.

The patient was first seen on December 28 and the first injection of anti-toxine, (fifteen cubic centimetus,) was made at 3 35 P. M. of that day. A second injection of 10 cubic centimetus was made at 3 35 A. M. Dec. 29, twelve hours later.

At noon of Dec. 29, there was already an improvement, as shown by the dimention of size in the glands of the neck and the deposit was already changing color. On the evening of the same day the deposit had become milky white in color and the odor had departed.

On Dec. 30 the throat was nearly clear and the urine free from albumen.

Today the improvement is maintained and the child appears strong and destined to recover fully. The throat is free.

It is but just to say that local applications of peroxide of hydrogen and the internal administration of iron were kept up during the progress of the case, but it seems to me a fair inference that the rapid recovery of this child from what threatened to be a fatal case, is to be attributed to the anti-toxine treatment.

Muscular Christianity.

The Y. M. C. A. gymnasium was filled with men and boys Sunday, anxious to hear R. J. Roberts of the Boston gymnasium speak on "The Young Man, his physical and spiritual nature." Mr. Roberts appeared in his gymnasium uniform that he might more fully illustrate how a man can, by light, systematic exercise, without apparatus, keep himself in perfectly healthy condition. It was a practical, valuable talk which will be reported at length to morrow.

Carrier to be Mounted.

Carrier Cunniff beginning tomorrow will have a horse to help him in his delivery of the mail in the widely scattered district of Quincy Point. This means two deliveries to all parts of the ward and better and prompter service for all. It will also allow some extensions and improvements to other parts of the city.

Window Shades 25, 35 or 50 cents complete. Estimates on all grades of shade work. Henry L. Kincaide & Co.

—The new officers of James L. Bate camp, S. of V., of Weymouth, will be installed Friday evening by Past Col. Dudley B. Pinbeck.

Whatever you skip, don't skip our prices if you are looking for furniture. Our store is in sympathy with your thoughts and plans. Henry L. Kincaide & Co.

Reduced Rates.

COMMENCING Jan. 1, 1895, The Greenleaf will give reduced rates on Table board, rooms without board, and rooms and board by the week or month.

CHURCH AND CHAPEL

A Year's Contribution by a Wollaston Society Itemized.

ORCHESTRA AT ONE CHURCH.

Sermons Appropriate to the Closing Year and the New Year.

On Sunday, Dec. 23, the Baptist Sabbath School of Wollaston had the largest attendance ever held, 201 being present.

A report of the dedication of the new Congregational chapel will be found in another column.

Mrs. Frank A. Page is still ill with a severe cold and Miss Marie V. Hastings took her place in the quartette at the First Baptist church, Wollaston, on Sunday.

Rev. W. Steele conducted the services Sunday of the Independent Presbyterian church in Wilson's Hall. In the morning the subject was "A Timely Topic." Text, Haggai 1:7. In the the evening, "The Graves of 1894." Genesis 35:20. It was much appreciated by a large audience. The solo, "Beyond the Smiling and the Weeping," by Mrs. Steele, was very appropriate. A cordial invitation is given to all our services.

Watch meeting services will be held in some of the churches tonight.

The Universalist Society have a parish supper this evening at 6 30. It is intended for the church members, the choir, and those who usually attend church there.

Baptism was administered at the close of the Sunday evening service at the First Baptist church, Wollaston, a choir of twenty voices assisted in the singing.

The congregations at the Wollaston Unitarian church on Sunday were large. Rev. Mr. Bagley preached on the "Danger of Looking Back." There was a special service by the Guild in the evening, at which music was furnished by the Young People's orchestra.

On Thursday afternoon and evening the Ladies' Social circle of Wollaston will hold its annual meeting.

As it was the last Sunday of the year the Rev. Preston Gurney of the First Baptist society, Wollaston, took for his subject "The Brevity of Life," 1 Cor. 7 29 31.

The Wollaston Congregational society presents a remarkable record of church contributions for the year 1894. It is doubtful if any society in this city can excel it, in proportion to the number of church members. The contributions are as follows:

Rescue Mission,	$21 03
Am. Miss. Asso.,	77 00
Mass. H. M. Society,	25 21
Cong. Ed. Society,	34 70
Mass. H. M. Society,	221 13

The subject for edification at the forenoon's service in the Presbyterian church was, "A lesson in giving," and the words chosen by Mr. Peach are Philippians iv, 15:17. "Now ye Philippians, know also, that in the beginning of the gospel, when I departed from Macedonia, no church communicated with me as concerning giving and receiving, but ye only. For even in Thessalonica ye sent once and again unto my necessity. Not because I desire a gift; but I desire fruit that may abound to your account." In the anatomy of the average citizen the pocket is, perhaps, the most sensitive part, and an appeal to this pet depository requires the utmost tact and diplomacy. Mr. Peach exhibited considerable skill in these necessary qualities. In the introductory part of his discourse he pointed out that the duty of giving is inculcated in scripture fifteen hundred and eighty-two times. He considered it to be his duty to lay stress on this subject since God has in the scriptures so specifically emphasized it. He gave many practical illustrations showing the great amount of good work that has been done and can yet be done by people of limited means.

In the evening Mr. Peach took for his theme "The harmfulness of making New Year's resolutions." He read Eccles., V. "When thou vowest a vow unto God, defer not to pay it; for he hath no pleasure in fools; pay that which thou hast vowed. Better is it that thou shouldest not vow, than that thou shouldest vow and not pay." Men usually resolve a few days hence to turn over a new leave and as often as not these resolutions are broken. Every broken resolution produces a weakening of the will. We must give up every evil course by God's help, not two days or two hours hence but *now*, earnestly, persistently every moment of our lives, every time the conscience beats.

BRAINTREE.

Mr. and Mrs. George Farrington are here from Chicago and are at present visiting Mrs. Farrington's parents in Braintree; Mr. and Mrs. W. Eugene Hollis.

Mr. Wilde of Holbrook has been engaged by the First Congregational church, Braintree, as organist, in place of Mr. R. E. Morrison, deceased.

The graduating class of 1892 of Thayer Academy, Braintree, will have a reunion this afternoon.

GLADSTONE'S POWER

May Yet Cause Turkey to Regret the Course She Is Pursuing.

LONDON, Dec. 31.—In a leader The Times says: Mr. Gladstone's retirement from public life is final, but it would be well for Turkey to reflect in her own interest that in the Armenian matter Mr. Gladstone, with little personal effort and no personal ambition whatever, might play the part of blind, old Dandalo. He has the whole British public opinion behind him, and if the porte defied European opinions his appeal would be capable of producing all, perhaps more than all, the effect he contemplates as merely contingent.

The Times' remarks were called forth by a speech made by Mr. Gladstone to a deputation from a meeting of the Anglo-Armenian association and other Armenian organizations, who waited on the ex-prime minister at Hawarden.

After pointing out that it was not indifference that had led him to do nothing in regard to the Armenian outrages, and that the powers could do nothing until the allegations were proved, Mr. Gladstone said:

"If the reports are established, it will more than ever stand before the world that there is no lesson, however severe, that can teach certain people the necessity of observing, to some degree, the laws of decency, humanity and justice.

"If the allegations are true, it will stand as if written in letters of iron on the records of the world that a government which could countenance and cover the perpetration of those outrages is a disgrace to Mohammed, whom the Turks profess to follow, a disgrace to civilization at large and a curse to mankind. This is strong language, and strong language ought to be used when the facts are strong.

"However, we should keep our judgments in suspense until the truth is known, but as the evidence grows and the case darkens, my hopes have dwindled, and as long as I have a voice I hope it will be raised upon such occasions in behalf of humanity."

FORTY-ONE DEAD.

Liquor May Have Played a Part In an Awful Catastrophe In Oregon.

KLAMATH FALLS, Or., Dec. 31.—A stage just arrived from Lakeview brought additional particulars of the catastrophe which occurred at Silver Lake Christmas eve. The latest intelligence places the number of dead at 41 and the seriously wounded at five.

Christman Bros.' store, where the accident occurred, is a two-story frame building, 24x50 feet, and adjoining the building was a shed used as a store room. In the front of the whole upper part of the building there were but two windows, affording light for the second story hall. There were two windows and a glass door also in front, which afforded light and entrance to the first floor, which was used as a merchandise room and postoffice.

The hall had only one exit, a stairway leading to the second story, which was on the outside, and the rear window, 15 feet from the ground. The building was crowded, there being probably 125 people present. In the hall there was only one narrow passage between the seats, which was blocked by the burning oil on the floor. It was therefore necessary for the people to clamber over the seats and one another before the door could be reached.

The lamp which caused the disaster was an extra large one, holding about two gallons of oil. West of the building was a small powder and oil house, which were also destroyed.

It is asserted by a man acquainted in Silver Lake that several of the men in attendance at the celebration were under the influence of liquor.

The Mother-in-law.

She was my dream's fulfillment and my joy,
This lovely woman whom you call your wife.
You sported at your play, an idle boy,
When I first felt the stirring of her life
Within my startled being. I was thrilled
With such intensity of love, it filled
The very universe! But words are vain—
No man can comprehend that wild, sweet pain.

You smiled in childhood's slumber while I felt
The agonies of labor, and the nights
I, weeping o'er the little sufferer knelt,
You, wandering on through dreamland's fair delights,
Flung out your lengthening limbs and slept and grew.
While I awake, saved this dear wife for you.

She was my heart's loved idol and my pride.
I taught her all those graces which you praise;
I dreamed of coming years, when at my side
She should lend luster to my fading days;
Should cling to me as she to you clings now,
The young fruit hanging to the withered bough.
But, lo! the blossom was so fair a sight,
You plucked it from me—for your own delight.

Well, you are worthy of her—oh, thank God—
And yet I think you do not realize
How burning were the sands o'er which I trod
To bear and rear this woman you so prize.
It was no easy thing to see her go
Even into the arms of one she worshiped so.

How strong, how vast, how awful seems the power
Of this new love which fills a maiden's heart
For one who never bore a single hour
Of pain for her, which tears her life apart
From all its moorings and controls her more
Than all the ties the years have held before,
Which crowns a stranger with a kingly grace
And gives the one who bore her—second place.

She loves me still, and yet were death to say,
"Choose now between them," you would be her choice.
God meant it to be so—it is his way.
But can you wonder if while I rejoice
In her content this thought hurts like a knife,
"No longer necessary to her life?"

My pleasure in her joy is bitter sweet.
Your very goodness sometimes hurts my heart,
Because for her life's drama seems complete
Without the mother's oft repeated part.
Be patient with me! She was mine so long
Who now is yours. One must be strong
To meet such loss without the least regret,
And so forgive me if my eyes are wet.

—Ella Wheeler Wilcox.

THE ELECTION RETURNS.

They Make the Busiest Night of the Year In a Newspaper Office.

There is one night in every year in every great newspaper office when work is done that is the least understood of all that goes on in the making of a daily paper, one night when the highest state of fever attends the excitement and strain of the most intense work that falls to the lot of any men, except soldiers in war. That is election night. That is the night when a few men sit down at 6 o'clock before virgin sheets of paper, with the knowledge that before 2 o'clock the next morning they must cover those sheets with the election returns of a nation, digesting mountains of figures and apprising the public of the results in the most confensed forms, weeks in advance of the official announcements, as sparks might be counted while they fly from the shapeless iron on a blacksmith's anvil. And these calculations must stand the test of comparison with those which the rival newspapers, working without collaboration, as eager competitors, will publish at the same moment.

The election figures come in driblets and atoms and must be put together as the Florentines make their mosaics. Some of it, we shall see, is plucked from the very air—as a magician seems to collect coins in a borrowed hat—begotten of reasoning, but put down beside the genuine returns with equal confidence and almost accuracy.

Ah, but that is a work to try cool heads and strong nerves. I am quite certain no other men in the world include such a night of tension and excitement, periodically, as a fixed part of a workaday existence. No other men, regularly once a year, feel themselves so truly in the focus of an intense public interest, manifesting itself in so many ways.—Scribner's.

IN SIGHT OF LAND.

British Bark Went Down With Twenty-Four Men on Board.

SHIP RENT IN TWAIN ON ROCKS.

Sturdy Efforts of Life Savers Were of No Avail.

LONDON, Dec. 31.—Severe weather has prevailed throughout Great Britain since Saturday, the heavy gale being accompanied by hail and snow, rendering navigation along the coasts both difficult and dangerous. All vessels that could do so, made for havens of refuge. Some, however, did not succeed in reaching port, but were wrecked when almost in sight of safety.

This was the case of the British bark Osseo, which sailed from Taltal in August for Ardrossan. She made the voyage safely until yesterday morning, when she was wrecked on the Holyhead breakwater, and every soul on board of her, 24 in all, were drowned. The Osseo was caught in the gale in the Irish sea, and the captain evidently thought that he would run into Holyhead and wait for the storm to abate.

Shortly before 3:30 yesterday morning the keeper of the lighthouse at the seaward end of the long breakwater saw a bark come out of the gloom, with her lights burning brightly and under close storm canvas. The wind was blowing a living gale, and a terrific sea was running before it. The bark, however, was making as good weather of it as was possible, and was apparently being handled in a most careful manner.

How the accident occurred is not exactly known, but it is surmised that an extraordinary high sea lifted her when she was quite close to the breakwater and dashed her upon it. She struck amidships and immediately began to break up, the sea pounding at her furiously the moment she became stationary.

The lighthouse keeper, as soon as he realized what had occurred, fired a rocket to call the coastguardsmen and lifeboat men.

Crew Crushed by Falling Masts.

In the meantime the bark had broken into halves, the mainmast going by the board. In its fall it struck several of the crew who were on the deck, killing them instantly. Others of the crew had clambered into the fore and mizzen rigging to escape being washed overboard by the huge combers that were making a clean breach over the wreck.

The coastguardsmen were the first to reach the scene of the disaster, and were followed soon after by the lifeboat men. Above the howling of the gale could be heard the cries of the men on the bark for assistance. The coastguards got a line aboard the wreck, and it was caught by one of the crew. Before he could make it fast, the fore and mizzen masts were whipped off close to the deck, and everybody in their rigging fell with them into the sea and were drowned. The sailor who had caught the line was crushed to death under one of the falling masts.

After the masts had gone by the board all was silence on the wreck, and those on the breakwater knew that all hands on the bark had perished. In a short time nothing was visible seaward but broken spars and a raffle of rigging attached to them.

During the day nine bodies were recovered. The identity of the bark was learned from some of her papers that were washed ashore.

The Osseo was commanded by R. Boggs. She was a steel vessel of 1399 tons and was built at Londonderry, from which port she hailed.

Other Disasters.

The Norwegian ship Frey, from Darien, while riding at anchor off Troon, was dismasted. Her crew were taken off in a lifeboat. The boat capsized and one man was drowned. The other 15 reached shore safely. The Frey afterward dragged her anchor and went ashore at Devil's Dyke, four miles from Ayr.

The British bark Bonita, from Galveston, was run into off Falmouth and damaged by the schooner Carrie Harvey.

A dispatch from Londonderry says that nothing has been heard of the steamer Sarnia, which lost her rudder at sea, and which, after being taken in tow by the steamer Anchoria, was dropped about 130 miles west of Tory Island, owing to heavy weather, which made towing dangerous.

The storm inland has done some damage. Trains have been blocked by heavy snow drifts, and in many places in Scotland the telegraph wires are down.

A dispatch to The Standard from Berlin says that gales, accompanied with snow, prevail in northern Germany. An unusually high tide in the river Elbe flooded the low-lying parts of Cuxhaven and Hamburg. Two bodies have been washed ashore in the lower Elbe. Enormous damage has been done along the North sea coasts. Many vessels, badly damaged, have been towed into Bremerhaven.

Prince Got a Present.

ROME, Dec. 31.—The pope yesterday gave an audience to Prince Lobanoff, who formally announced the accession of Czar Nicholas to the throne of Russia. Subsequently Cardinal Rampolla, in behalf of the pope, conferred on the prince the grand cross of the Order of Christ, set with brilliants.

Another French Scandal.

PARIS, Dec. 31.—A judicial inquiry into the conduct of the old directors of the French Southern Railway company has revealed another financial scandal. Warrants have been issued for the arrest of a number of contractors, bankers and politicians.

French Bark Sunk.

GIBRALTAR, Dec. 31.—British steamer Yoxford, from Palermo for New York, has arrived here with some of her plates damaged. She was in collision with the French bark Marie Louise. The bark was so badly damaged that she sank. Five of her crew were drowned.

Hungary's Cabinet Trouble.

BUDA-PESTH, Dec. 31.—Emperor Francis Joseph yesterday gave an audience to Count Khuen Hedervary and requested him to form a cabinet. Count Hedervary subsequently had a conference with Dr. Wekerle and other Liberal leaders.

IT IS NOTHING BUT MEDICINE.

It is wholly medicine, **all** medicine.

Here's the Formula:

Trifolium . . Red and White Clover
Tararxcum . . . . . Dandelion
Barosma . . . . . Buchu
Gentiana Lutea . . . . . Gentian
Podophylium . . . . May Apple
Rumex Crispus . . . Yellow Dock
Apocynum Androsæmifolium . . Bitter Root.

The combination is named

Clover Blossom Bitters

Nature has provided the ingredients; the combination is the result of the medical knowledge of over twelve centuries in all countries in the world. Not witchcraft, nor chance, quackery, or theory, but an absolutely standard medical preparation that is **all** medicine. Acts directly upon the seat of the disease, because it's made that way, and therefore starts right. The result of starting right is that it works quicker, surer, and with unfailing accuracy, and drives all symptoms of disease before its action, curing completely. Therefore it will cure you.

A DROP IN DIVIDENDS.

Fall River Mills Met With Adversities During the Past Year.

FALL RIVER, Mass., Dec. 31.—G. M. Haffards & Co, stock brokers, have issued their annual report of the yearly earnings of the mills. There is shown in the list to have been a decided falling off in the dividends for the last six months of the year. The depression in business was felt in the third quarter, and the depression and strike combined caused the quarter just ended to show a shrinkage, even over the third quarter. The total amount reported paid in dividends was $1,114,650. This is on a total invested capital of $29,758,000.

In this capital stock is included the capital of the Durfee mills and Fall River Iron Works company, both private corporations that make no public statement of their earnings.

The average yearly dividend on the total capital stock was slightly over 4.85 per cent. This is a low average for recent years. It would have been much lower if a good number of corporations had not drawn upon their surplusses to keep up their dividends.

Nine corporations are reported to have passed dividends for the whole year, all of these, except the Barnaby Manufacturing company, which makes fine ginghams and has had a hard year, and the Kerr Thread company, are comparatively small, and old mills that are not up to times for low prices.

The Bourne mill has kept up its high rate of dividends of 1 per cent monthly, and leads for the year with 12 per cent. This excepts the Troy, which is worth three times its capital stock of $300,000, and paid 17 per cent. The Union, another plant greatly exceeding its capital in value, paid 10 per cent. Of the mills that paid dividends the third quarter, the American Linen, Granite, Narragansett and Richard Borden passed dividends the last quarter. In no case did the dividend paid the last quarter exceed that of the third quarter, and frequently there was a decrease.

Hon. G. M. Stearns Dead.

BOSTON, Dec. 31. — Hon. George M. Stearns, known as "the Sage of Chicopee," died at his residence in Brookline this morning of congestion of the lungs. He retired as usual Saturday night and slept until 11 p. m., when he awoke with a hemorrhage. Another hemorrhage occurred at 7 a. m. Sunday, and this greatly prostrated him. At 5 p. m. he had a third hemorrhage, from which he never rallied. Mr. Stearns had been in feeble health for a long time and had been quite poorly for the past two weeks. George Munroe Stearns was an orator, a lawyer and a wit. He was an irresistible pleader before a jury, and carried conviction with his arguments up to the supreme bench. He was the life of many a political campaign, otherwise dull—a Democrat of Democrats. Mr. Stearns was born April 18, 1831, in Stoughton.

Death of Senator Fair.

SAN FRANCISCO, Dec. 31.—Ex-Senator James G. Fair died suddenly here on Saturday. Senator Fair had been in poor health for some time, but his death was entirely unexpected. His son, Charles G. Fair, whom he disinherited about a year ago, was with his father at the time of his death, a reconciliation having been effected a short time ago. Mr. Fair was 63 years old.
